

# Hines (Chicago-area) VA Hospital Neuropsychology (Adult Clinical) Postdoctoral Fellowship

Located in the greater Chicago area, HVAH is accepting applications for a 2-year postdoctoral residency for the September 2024-August 2026 training period. This fellowship is best suited for candidates with a primary interest in clinical work, although research opportunities at Hines VA are possible. This program will participate in the National Match that is organized by APPCN for 2024.

The focus will be advanced clinical training in neuropsychology, with fellowship experiences shaped by INS/APA Division 40 and Houston Conference guidelines for postdoctoral training. Fellows will complete major rotations with the four board-certified clinical neuropsychologists, spanning experiences in 1) Outpatient Neuropsychology, 2) Inpatient Neuropsychology Consultation, and 3) TBI/Polytrauma. Minor rotations include group interventions with aging patients with neurocognitive disorder and their caregivers in the first year, and opportunities to work in assessment and treatment outside of our neuropsychology service (e.g., with a Geropsychologist on a residential unit, with a Rehabilitation/Neuropsychologist on an inpatient acute medical rehabilitation unit) in the second year. Fellows will participate in our weekly Neuropsychology seminar (which includes formal didactic presentations, clinical case presentations and journal club) and other disciplines' grand rounds (e.g., Neurology, Psychiatry) as able. About 75% of the fellow's time will be allocated to clinical activities, while the remaining 25% of time will be dedicated to education, research opportunities, program development, and administrative projects.

Yearly stipend is currently \$57,815 (\$60,939 in the second year), plus 13 days of vacation leave and 13 days of available sick leave, in addition to the 10 annual federal holidays. Health and life insurance coverage is available.

Please complete all application materials via the APPA CAS portal. Please contact David Kinsinger, PhD, ABPP-CN with any questions: [david.kinsinger@va.gov](mailto:david.kinsinger@va.gov)

Questions related to the program's accredited status should be directed to: Office of Program Consultation and Accreditation, American Psychological Association, 750 First Street, N.E., Washington, DC 20002-4242, Phone: (202) 336-5979 / Email: [apaaccred@apa.org](mailto:apaaccred@apa.org) / Web: [www.apa.org/ed/accreditation](http://www.apa.org/ed/accreditation)
