North Florida/South Georgia Veterans Health System

The North Florida/South Georgia Veterans Health System (NF/SG VHS) is a comprehensive and integrated health care system that serves the largest number of Veterans nationwide. Our health system contains two medical center campuses. The Malcom Randall VA Medical Center is located in Gainesville, Florida and includes a tertiary inpatient facility and an outpatient center with primary care and specialty clinics. The Lake City VA Medical Center includes an inpatient facility, a palliative care unit, a long-term care facility, and outpatient services including primary care and specialty clinics. The health system also contains several outpatient clinics in Jacksonville, Tallahassee, The Villages, and surrounding areas that provide primary care and specialty services.

Program Description

The North Florida/South Georgia Veterans Health System's American College of Clinical Pharmacy Peer Reviewed Clinical Pharmacy Research Fellowship is designed to prepare the clinical pharmacist with the expertise necessary to function as an independent investigator. This unique, highly-individualized two-year program supports the VA's mission to improve Veteran and national healthcare by conducting high quality research studies. Fellows are given time to pursue clinical, educational, and administrative activities. Experiences are tailored to the interests of the fellow and have included areas such as cardiology, critical care, internal medicine, and nutrition support.
