

Sumitra (Suma) Muralidhar, PhD

Director, Million Veteran Program (MVP)
Director, VA-DOE Joint Research Program
VHA Office of Research and Development
U.S. Department of Veterans Affairs

Sumitra (Suma) Muralidhar is the Program Director for VA's Million Veteran Program, one of the world's largest databases of genetic, clinical, lifestyle and military exposure data from at least one million Veterans. In this role, she oversees the policy, funding and implementation of data collection, secure storage and use of MVP data. She also serves as Director for the VA and Department of Energy joint research program and oversees the Centralized Interactive Phenomics Resource (CIPHER) for ORD. Suma served as ORD's liaison to the White House Precision Medicine Initiative under President Obama and continues to represent ORD/MVP in the federal interagency group on precision medicine. She also served as the designated federal officer for VA's Genomic Medicine Program Advisory Committee, which advises the VA Secretary on genomic medicine research and clinical from 2006-2018. She previously served as Health and Science Advisor to the Senate Veterans Affairs Committee (SVAC), and Associate Professor of Microbiology at Georgetown University Medical Center. She received her PhD in Molecular Biology from the University of Maryland, and her Master's in Genetics from Bangalore University, India.
