

**Physical Medicine & Rehabilitation Service**  
**Performance Improvement**  
**CIIRP Outcomes (2023-Quarter 1-3)**

Physical Medicine & Rehabilitation (PM&R) strives to provide the best services possible to the persons served. In order to do this, surveys, procedures, and processes are performed to ensure objective data is collected and reviewed. The data is collected monthly and quarterly; and then put in a reportable format. Some of the areas covered are patient satisfaction, length of stay, FIM change, and post discharge follow-up.

**FIM** stands for **Functional Independence Measure**. These are scores given for mobility and activities of daily living so we can tell how safe you are to go home.

Quarter I - 2023	Hip Replacement	Knee Replacement	Amputee	Stroke
FIM Change JB	10.0	No patients	11.0	15.0
FIM Change Region	23.6	21.9	18.0	25.2

Quarter II - 2023	Hip Replacement	Knee Replacement	Amputee	Stroke
FIM Change JB	No Patients	No patients	11.0	15.9
FIM Change Region	24.0	22.4	18.0	25.1

Quarter III - 2023	Hip Replacement	Knee Replacement	Amputee	Stroke
FIM Change JB	No Patients	No Patients	15.0	17.6
FIM Change Region	24.9	23.2	17.7	24.6

Average for Quarters 1-3	Hip Replacement	Knee Replacement	Amputee	Stroke
FIM Change JB	10	No Patients	15.0	17.6
FIM Change Region	24.9	23.2	17.7	24.6

**LENGTH of STAY (LOS)** is the length of your hospital stay in days.

Quarter I - 2023	Hip Replacement	Knee Replacement	Amputee	Stroke
LOS JB	9	0	15	16
LOS Region	10	8	20	27

Quarter II - 2023	Hip Replacement	Knee Replacement	Amputee	Stroke
LOS JB	0	0	8	20
LOS Region	10	9	18	26

Quarter III - 2023	Hip Replacement	Knee Replacement	Amputee	Stroke
LOS JB	0	0	8	19
LOS Region	10	9	18	25

Average for Quarters 1-3	Hip Replacement	Knee Replacement	Amputee	Stroke
LOS JB	0	0	8	19
LOS Region	10	9	18	25

**FOLLOW-UP POST DISCHARGE** – Patients discharged from the PM&R bed service will be seen within 3 months after discharge.

Total Number of Patients Discharged in 2023	Scheduled within 3 months for f/u appointment
42	42
