**FOR IMMEDIATE RELEASE**

**VA Western Colorado Health Care System Announces Emergency Training Drill**

Grand Junction, CO – Sept 17, 2024 – The VA Western Colorado Health Care System is steadfast in its commitment to ensuring the safety and preparedness of its staff and patients. As part of this ongoing effort, an Emergency Training Drill is scheduled to take place on September 27, 2024, from 2:00 PM to 4:00 PM at our Grand Junction VA Medical Center located at 2121 North Avenue, Grand Junction, CO 81501.

This vital exercise is designed to enhance the facility's readiness in the event of an actual emergency, ensuring that all personnel are well-equipped to handle a variety of critical situations. Such preparedness is essential to maintaining the highest standards of safety and care for our veterans and staff.

Patients and visitors can rest assured that this drill will not impact patient care in any way. All medical services will continue as usual, with no interruptions in treatment or appointments. The health and well-being of our patients remain the top priority, and the drill will be conducted with minimal disruption to daily operations.

The VA Western Colorado Health Care System appreciates the cooperation and understanding of everyone during this important training exercise. Your support is invaluable as we strive to maintain a safe and secure environment for all who depend on our services.
