Memorandum

Date: **DEC 13 2013**

From: Secretary of Veterans Affairs (00)

Subj: Fiscal Year 2013 Third Quarter Report on High-Dollar Overpayments (VAIQ # 7411828)

To: Inspector General (50)

1. Executive Order 13520, "Reducing Improper Payments," dated November 20, 2009, requires the head of each agency to submit a quarterly report to the Agency's Inspector General (IG) and the Council of Inspectors General on Integrity and Efficiency on any high-dollar overpayments identified and to make this report available to the public.

2. In accordance with the Office of Management and Budget (OMB) Circular A-123, Appendix C, Part III, the Veterans Health Administration (VHA), Veterans Benefits Administration (VBA), National Cemetery Administration (NCA), and Central Office (VACO Staff Offices) examined their programs for the issuance of high-dollar overpayment transactions which meet OMB's definition of improper payments. Attached is the Department of Veteran Affairs (VA) consolidated report on identified high-dollar overpayments for the third quarter of fiscal year 2013.

3. The attached report lists, by program, whether the payments were made to an entity or individual; the recipients location; the root causes of the overpayments, categorized according to OMB's three error types (administrative and documentation errors, verification errors, and authentication and medical necessity errors); any actions VA has taken or plans to take to recover overpayments; and any actions to help prevent improper payments from occurring in the future.

4. A total of 415 high-dollar overpayments were identified. Following is a summary of the programs with \$500,000 or more high-dollar overpayments in the third quarter of fiscal year 2013:

- **VHA - Communications, Utilities, and Other Rent:** Six high-dollar overpayments were identified (\$910,987 out of \$329 million in total payments); all were due to documentation and administrative errors.
- **VHA – State Home Per Diem Grants:** Eight high-dollar overpayments were identified (\$1.3 million out of \$256 million in total payments); all were due to documentation and administrative errors.
- **Non-Institutional Care:** Seven high-dollar overpayments were identified (\$518,152 out of \$317 million in total payments); all were due to documentation and administrative errors.

Fiscal Year 2013 Third Quarter Report on High-Dollar Overpayments (VAIQ # 7411828)

- **Non-VA Care CHAMPVA:** 14 high-dollar overpayments were identified (\$553,171 out of \$232 million in total payments); 9 were due to documentation and administrative errors, and 5 were due to verification errors.
- **Non-VA Care Fee:** 61 high-dollar overpayments were identified (\$3.4 million out of \$502 million in total payments); 56 were due to documentation and administrative errors, and 5 were due to verification errors.
- **VHA – Other Services:** 36 high-dollar overpayments were identified (\$3.6 million out of \$1.1 billion in total payments); 33 were due to documentation and administrative errors, and 3 were due to verification errors.
- **Compensation (including Dependency and Indemnity Compensation):** From a population of 9,663 overpayments, a random sample of 385 was reviewed to determine if any were high-dollar overpayments. Of the sampling results, 74 met the criteria (\$38 million projected out of \$15 billion in total payments). Only the sampling results are included in this report. Of the 74 improper payments found, 8 were due to administrative and documentation errors, 65 were due to verification errors, and 1 was due to authentication and medical necessity errors.
- **Pension:** From a population of 6,449 overpayments, a random sample of 385 was reviewed to determine if any were high-dollar overpayments. Of the sampling results, 134 met the criteria (\$30 million projected out of \$1.3 billion in total payments). Only the sampling results are included in this report. Of the 134 improper payments found, 4 were due to administrative and documentation errors, 44 were due to verification errors, and 86 were due to authentication and medical necessity errors.
- **Education:** From a population of 19,405 overpayments, a random sample of 251 was reviewed to determine if any were high-dollar overpayments. Of the sampling results, 18 met the criteria (\$4.4 million projected out of \$2.5 billion in total payments). Only the sampling results are included in this report. Of the 18 improper payments found, 2 were due to administration and documentation errors and 16 were due to verification errors.
- **Other:** In the other 14 programs, 57 high-dollar overpayments were identified (\$1.7 million out of \$9.7 billion); 52 were due to administrative and documentation errors, and 5 were due to verification errors.

Executive Order 13520 – Reducing Improper Payments Fiscal Year (FY) 2013 Third Quarter High-Dollar Overpayments Report

The President signed Executive Order 13520, “Reducing Improper Payments” on November 20, 2009. On March 22, 2010, the Office of Management and Budget (OMB) issued government-wide guidance on the implementation of the Executive Order. The guidance is under Part III, Appendix C of OMB Circular A-123. This guidance requires agencies with programs susceptible to significant improper payments to submit to the agency’s Inspector General and the Council of Inspectors General on Integrity and Efficiency, and make available to the public, a quarterly report on any high-dollar overpayments identified by the agency.

In accordance with OMB Circular A-123, Appendix C, Part III, the Department of Veterans Affairs (VA) has reviewed applicable programs to identify the issuance of any high-dollar overpayments in the third quarter of fiscal year (FY) 2013. The OMB guidelines define a high-dollar improper payment as any payment in excess of 50 percent of the correct amount of the intended payment under the following circumstances:

1. Where the total payment to an individual exceeds \$5,000 as a single payment or in cumulative payments for the quarter; or
2. Where a payment to an entity exceeds \$25,000 as a single payment or cumulative payments for the quarter.

The OMB guidelines require that agencies submit, on a quarterly basis, a report to:

1. List all high-dollar overpayments identified by the agency during the quarter;
2. Describe whether each high-dollar overpayment was made to an entity or individual, and the city or county, and state where that entity or individual was located;
3. List the program responsible for each high-dollar overpayment error;
4. Describe any actions the agency has taken or plans to take to recover high-dollar overpayments; and
5. Describe any actions the agency will take to prevent overpayments from occurring in the future.

In addition to OMB’s guidelines, our report includes two additional categories: the root cause of the overpayment as categorized by OMB’s three error types and the status of the overpayment. The root cause information of each of the high-dollar overpayments is being reported according to OMB’s three error types. The error types are:

1. Administrative and Documentation errors which are caused by the absence of supporting documentation to validate the payment, or inputting, classifying, or processing errors made by another other than the recipient of the payment (i.e. the payee or a third-party).
2. Authentication and Medical Necessity errors which are caused by the payee’s inability to authenticate eligibility criteria through third-party databases or other resources because nothing else exists, or the beneficiary was provided a service that was not medically necessary given the patient’s condition.
3. Verification error which are caused by the payee’s failure to verify recipient information (i.e., earnings, income, assets, or work status) even though third-party databases or other resources do exist, the payee’s inability to verify recipient information (i.e., earnings, income, assets, or work status) because there are legal or other restrictions that deny access to verify against third-party databases or other resources that do exist, or beneficiaries fail to report correct information to the payee.

Veterans Benefits Administration (VBA)

18. Compensation Program

VBA identified 9,663 compensation overpayments in the third quarter of FY 2013 and reviewed a stratified and statistically valid random sample of 385 such overpayments. The review revealed that 74 (19%) were compensation high-dollar overpayments, and 311 (81%) were compensation payments that did not meet the high-dollar overpayment criteria. Based on these results, VBA projected that 1,836 overpayments originally identified were high-dollar compensation

overpayments, and an estimated 7,827 were payments that did not meet the high-dollar overpayment criteria. These results are based on estimates at a 95 percent confidence level with a $\pm 5\%$ interval.

The Compensation Service identified 74 high-dollar compensation overpayments; 65 are due to Verification errors, eight are due to Administrative and Documentation errors, and one is due to Authentication and Medical Necessity errors.

- 65 overpayments (87.8%) totaling \$965,392 are Verification errors caused by the delayed notification of the death of a Veteran or beneficiary, the delayed notification of a Veteran returning to active duty, notification by third parties of dependency changes, adjustments for incarceration or fugitive felon status, or by apportionment.
- 8 overpayments (10.8%) totaling \$90,232 are due to Administration and Documentation errors due to month of death payment to the surviving spouse, an adjustment of military retired or separation pay, or by assigning a higher disability percentage when the evidence warrants a lower disability percentage.
- 1 overpayment (1.4%) totaling \$21,354 is due to Authentication and Medical Necessity errors caused by changes in countable income or a change in unreimbursed medical expenses used to reduce that income for VA purposes.

Total Compensation Payments made this quarter: \$15,315,242,195.48

Projected High-Dollar Overpayments for this quarter: \$38,437,830.10

Note:

1. Overpayments are routinely recovered from future benefits awarded. If not recovered, further actions are then taken by the VA Debt Management Center, including referral to the Treasury Offset Program, as appropriate.
2. Administrative and Documentation overpayments are sometimes caused when a beneficiary dies too late in a month to stop release of the payment for the month of death. While VA has a death match program with the Social Security Administration (SSA), the match is received once monthly from SSA, and usually after release of a benefit payment. The number of overpayments following death has been reduced as a result of VA's VETSNET 'real time' processing technology.
3. VA is not always notified timely of changes in dependency status. VA can immediately adjust awards if the beneficiary provides the change in dependency status. However, when VA receives such information from a third party, VA must provide 60 days of due process before adjusting the beneficiary's award.
4. Administration and Documentation errors due to month of death payment to the surviving spouse. An overpayment occurs when the month of death payment is paid more than once.
5. Administration and Documentation errors caused an adjustment of military retired or separation pay, when VA receives a delayed notification of a Veteran returning to active duty, or delayed notification of incarceration or fugitive felon status. VA must first provide the beneficiary a 60-day due process notice before reducing any amount.
6. Continue to provide feedback to field employees' Pension Management Center conference calls. VBA is establishing performance measures to address processing maintenance workload. Also, share the findings from this review with the field, so they can implement local reviews and address local high-dollar overpayment issues.
7. Field personnel monitor exception reports and take corrective action when system-generated messages indicate there are potential overpayments. Claims processors are directed to initiate action within 30 day of receiving these notices.
8. VA must provide due process when presented with evidence of the beneficiary's commission of possible fraud. Payments are terminated for the period where benefits were fraudulently procured.
9. VBA workgroup – March 2012. The workgroup was created to formulate and implement a strategy to reduce the amount of high-dollar overpayments.
10. Develop specific guidance on pension benefit adjustments.
11. Provide guidance under M21-1MR, Part I, Chapter 2.B.7.a, which requires field personnel to resolve claims involving due process when the associated controls mature.

12. Continue to provide feedback to field employees' Pension Management Center conference calls. VBA is establishing performance measures to address timeliness of processing maintenance workload.
13. Share the findings from this review with the field, so they can implement local reviews and address local high-dollar overpayment issues.
14. Include matching program training in the mandatory topics for the FY 2013 National Pension Training Curriculum.

19. Pension and Fiduciary Services

VBA uses analytical procedures to improve the statistical validity of the high-dollar overpayment review. This procedure requires a review of a stratified random sample of the total number of overpayments. There were 6,449 pension overpayments identified in the third quarter of FY 2013.

A random sample of 385 pension overpayments was reviewed. The review revealed that 134 (35%) were pension high-dollar overpayments, and 251 (65%) were pension payments that did not meet the high-dollar overpayment criteria. Based on these results, we projected that 2,257 overpayments originally identified were high-dollar pension overpayments, and an estimated 4,192 were payments that did not meet the high-dollar overpayment criteria. These results are based on estimates at a 95 percent confidence level with a ± 5 percent interval.

Pension and Fiduciary Service identified 134 high-dollar pension overpayments; 86 were due to Authentication and Medical Necessity errors, 44 were due to Verification errors, and 4 payments were due to Administrative and Documentation errors.

- 86 overpayments (64%) totaling \$1,791,044.09 were Authentication and Medical Necessity errors and caused by a change in countable income or a change in unreimbursed medical expenses.
- 44 overpayments (26%) totaling \$489,111.03 were Verification errors caused by delayed notification of the beneficiary's death, dependency changes, or retroactive adjustments for incarceration or fugitive felon status.
- 4 overpayments (3%) totaling \$74,890.00 were Administrative and Documentation errors for entitlements to the additional Aid and Attendance allowance.

Total Pension Payments made this quarter: \$1,305,382,535.10

Projected High-Dollar Overpayments for this quarter: \$30,017,421.07

Percentage of High-Dollar Overpayments to Pension: 2.30%

Note:

1. Overpayments are routinely recovered from future benefits awarded. If not recovered, further actions are then taken by the VA Debt Management Center, including referral to the Treasury Offset Program as appropriate.
2. Verification errors caused by adjustments for delayed notification of incarceration or fugitive felon status is a function of agreements made with state and local law enforcement agencies. VA must provide due process when notified by law enforcement agencies of the beneficiary's incarceration or fugitive felon status.
3. Overpayments are sometimes caused when a beneficiary dies too late in a month to stop release of the payment for the month of death. While VA has a death match program with SSA, the match is received once monthly from SSA, and usually after release of a benefit payment. The number of overpayments following death has been reduced as a result of VA's VETSNET 'real time' processing technology.
4. VA is not always notified timely of changes in dependency status. VA can immediately adjust awards if the beneficiary provides the change in dependency status. However, when VA receives such information from a third party, VA must provide 60 days of due process before adjusting the beneficiary's award.
5. VA must provide due process when presented with evidence of the beneficiary's commission of possible fraud. Payments are terminated for the period where benefits were fraudulently procured.
6. VBA workgroup – March 2012. The workgroup was created to formulate and implement a strategy to reduce the amount of high-dollar overpayments.

8. Provide guidance under M21-1MR, Part I, Chapter 2.B.7.a, which requires field personnel to resolve claims involving due process when the associated controls mature.
9. Continue to provide feedback to field employees' Pension Management Center conference calls. VBA is establishing performance measures to address timeliness of processing maintenance workload.
10. Share the findings from this review with the field, so they can implement local reviews and address local high-dollar overpayment issues.
11. Include matching program training in the mandatory topics for the FY 2013 National Pension Training Curriculum.

20. Education Program

VBA uses analytical procedures to improve the statistical validity of the high dollar overpayment review. This procedure requires a review of a stratified random sample of the total number of overpayments. There were 19,405 Education overpayments identified in the third quarter of FY 2013 with a total value of \$70,582,616.98.

A random sample of 251 overpayments was reviewed. The review revealed that 18 were Education high dollar overpayments, and 233 were Education payments that did not meet the high dollar overpayment criteria. Based on these results, we projected that 1,300 of 19,405 overpayments originally identified were high dollar Education overpayments, and an estimated 18,105 were payments that did not meet the high dollar overpayment criteria. These results are based on estimates at a 95% percent confidence level with a ± 5 percent interval.

Education Service identified 18 high-dollar Education overpayments for a total of \$59,272.32 (6.2%) out of a total \$949,714.29 in the sample. Extrapolating from the sample review results, an estimated projected total of \$4,405,109.52 in high dollar overpayments were made in the third quarter.

- 2 overpayments (7%) totaling \$4,127.80 were due to Administrative and Documentation errors caused by VA issuing duplicate payments and/or data input errors.
- 16 overpayments (93%) totaling \$55,144.20 were due to Verification errors caused by incorrect reporting of tuition and fees by school(s).

Total Education Payments made this quarter was: \$2,481,136,845.25

Note:

1. The VA Debt Management Center (DMC) is responsible for Collection of overpayments.
2. Overpayments are routinely recovered from future benefits awarded. If not recovered, further actions are taken by the VA Debt Management Center, including referral to the Treasury Offset Program, as appropriate.
3. To decrease the potential for human error, VA continues to take a two-step approach; one, focus on training our employees; and two, field improvements in electronic processing systems to aid in decreasing human errors. Each Regional Processing Office and the Central Office have established required training that employees must attend. Supervisory officials also monitor individual employee performance and provide additional training as necessary. Fielding improvements in electronic processing systems continues to be a challenge for VA due to the transition of Long-Term Solution to sustainment and possible future statutory changes in the Post-9/11 GI Bill.
4. VA published a nationwide School Certifying Official Handbook, which establishes common requirements and detailed instructions for School Certifying Officials to prepare and submit enrollment and attendance information to VA. In addition, recent statutory changes authorized State Approving Agencies to conduct school Compliance Surveys. This will increase VA presence on campuses and enable additional assessment of school official compliance and increase VA opportunities to provide focused training for school officials.

21. Insurance Program

Insurance Service identified eight high-dollar (administrative/documentation) overpayments totaling \$77,374.25. Total Insurance disbursements made during the third quarter were \$358,233,729.

- 8 overpayments (100%) totaling \$77,374.25 were Administrative and Documentation errors caused by payment of incorrect beneficiary shares and duplicate payments

Total Insurance Service Payments made this quarter: \$358,233,729.

Note:

1. Overpayments are routinely recovered from future benefits awarded. If not recovered, an accounts receivable is established and further actions are then taken by the VA Debt Management Center, including referral to the Treasury Offset Program, as appropriate.
2. Other actions to prevent reoccurrence include improving documentation.
3. Some VA overpayments are inherent based on the requirements of 38 CFR § 3.103, Procedural Due Process and Appellate Rights, that does not allow VA to take adverse action regarding the payment of benefits without providing the beneficiary 60 days advance notice, unless the beneficiary requests that VA take the adverse action immediately. This "due process" period extends an overpayment by two additional months. One exception to this requirement is when VA is notified of a beneficiary's death.

22. Vocational Rehabilitation & Employment (VR&E) Program

There were 102 records for VR&E Service overpayments identified in the third quarter of FY 2013 and 102 overpayment records were reviewed.

The review revealed that 12 (11.76 percent) were VR&E high dollar overpayments, and 90 (88.24 percent) were VR&E payments that did not meet the high dollar overpayment criteria.

VR&E Service identified 12 high-dollar compensation overpayments: 5 were due to a school error, 1 was due to an error by the Veteran, 1 was due to an error made by the Support Services Division, and 5 were due to other reasons. All payments are explained below:

- 11 payments (91.67 percent) totaling \$90,974 were Administrative and Documentation errors as a result of incorrect payment amounts, schools' failure to certify attendance, and duplicate payments.
- 1 overpayment (8.33 percent) totaling \$16,980 was the result of Verification errors as a result of the Veteran not correctly reporting their active duty status.

Total VR&E Payments made this quarter was: \$229,716,380.57
Total High-Dollar Overpayments identified in this quarter: \$107,953.31
Percentage of High-Dollar Overpayments to VR&E payments is: 0.05%
