# The Affordable Care Act and Veterans' family members

The Affordable Care Act, also known as the health care law, was created to expand access to affordable health care coverage to all Americans, lower costs and improve quality and care coordination. Under the health care law, people will:

- have health coverage that meets a minimum standard (called "minimum essential coverage");
- qualify for an exemption; or
- pay a fee when filing their taxes if they have affordable options but remain uninsured.

VA wants all Veterans and their families to receive health care that improves their health and well being. Family members are a key part of Veterans' good health and support network.

Veterans' families deserve to know their health care options under the new law so they can make informed choices, as a family.

Veterans' family members who already receive health care coverage – through their employers, TRICARE or certain VA programs – don't need to take additional steps to meet the health care law coverage standards.

For more information  
about VA and ACA.

Veterans' family members who do not have coverage that meets the health care law's standard should consider their options through the Health Insurance Marketplace.

- Individuals with a qualifying life event can enroll in health coverage or change their coverage outside of the open enrollment period and have it be effective for that coverage year. Qualifying life events include having a baby or getting married. Visit <https://www.healthcare.gov/coverage-outside-open-enrollment/> to learn more about these qualifying life events and other circumstances for special enrollment.
- Veterans' family members may get lower costs on monthly premiums or out-of-pocket costs. They could be eligible for free or low-cost coverage through Medicaid or the Children's Health Insurance Program (CHIP).
- Family members of Veterans who are enrolled in VA may be eligible to receive tax credits in the Health Insurance Marketplace.

VA is required by law to notify the IRS of Veterans' enrollment status in the VA health care system in 2014. Veterans who are not enrolled in the VA health care system and who do not have qualifying medical insurance, unless given an exemption, will be charged a fee beginning on their 2014 federal income tax return, which most people will file in the spring of 2015. The fee is prorated based on the amount of time in the calendar year the Veteran does not have medical insurance that meets minimal essential coverage standards. VA is committed to ensuring Veterans are aware of the opportunities to meet the health care reform law's minimum essential standards for coverage either through enrollment with VA or through the purchase of insurance offered by the Health Insurance Marketplace.
