

# VistA Imaging Approved DICOM Modality Interfaces

## May 2017

VistA Imaging has successfully tested many modalities and interfaced them to VistA using DICOM. The following list of approved DICOM modalities was generated based on the most current information and will change as more information becomes available.

A DICOM modality is considered “Supported” if it passes the VA’s internet validation test suite listed in the [Joint VA/DoD DICOM Modality Conformance Requirements \(Rev 3.0\)](#) document. Some modalities have superscript numbers which refer to the notes at the end of the document.

If the software used on a modality is revised by the manufacturer, the modality will need to be re-validated.

The VA retains the right to change modality testing requirements at any time as needed for VA medical care. These changes could require re-testing of the modalities.

VA facilities are required to complete a quality review for the images produced by the device before it may be placed into clinical use. The results of the quality review must be filed with the National VistA Imaging Project Office.

This list of approved DICOM modalities does not in any way constitute a product endorsement by the VA. It only states whether or not the listed product has passed the VA’s internet-based validation testing. Upgrades to the vendor devices can affect interoperability and may require re-validation. The validation process does not indicate how well the actual product will work operationally, either within the VA or elsewhere.

### Modality/Device Types

Approved modalities and devices are grouped into the categories listed below. A list of approved devices for each category can be found on the page listed below.

Bone Density .....	2	Ophthalmic Photography .....	19
Cardiology .....	2	Ophthalmic Ultrasound.....	20
CD/DVD Burners .....	2	Optical Coherence Tomography (Ophthalmology use only).....	20
Computed Radiography .....	3	Other .....	20
Computed Tomography .....	5	PET .....	20
Dental Extra-Oral Radiography .....	7	PET/CT.....	21
Dental Intra-Oral Radiography .....	8	PET/MR.....	21
Dental VL – Endoscopy.....	8	Q/R – Planning Workstation.....	22
Dental Workstations .....	9	Q/R – Routers .....	22
Digital Subtraction.....	9	Q/R – Workstations .....	23
Direct X-Ray.....	10	Radio Fluoroscopy and X-Ray Angiography ...	24
Evidence Creator (Encapsulated PDF) .....	12	Secondary Capture.....	26
Film Digitizer .....	12	Secondary Capture (Injection Dosage Capture)	26
Film Digitizer Software .....	12	Surgical Workstation .....	26
Frame Grabber .....	13	Ultrasound .....	27
General Microscopy.....	13	Visual Field Analyzer (Encapsulated PDF).....	29
Magnetic Resonance.....	14	VL – Endoscopy .....	30
Mammography.....	15	VL – Endoscopy/Microscopy .....	30
Middleware – Interface Engine.....	16	VL – Pathology.....	30
Nuclear Medicine.....	17	Notes.....	31
Nuclear Medicine - SPECT .....	18		

## **Bone Density**

### **Supported Bone Density Devices**

GE DPX Bravo  
GE DPX Duo  
GE DPX-MD+  
GE DPX-NT  
GE Lunar iDXA  
GE Prodigy Advance  
GE Prodigy Primo  
GE Prodigy Pro  
GE/Lunar Prodigy  
Hologic Discovery  
Hologic Horizon  
Hologic Explorer  
Hologic Oasis (QDR) Workstation  
Norland Excell (IlluminatusDXA)  
Norland XR-46 (IlluminatusDXA)  
Norland XR-600 (IlluminatusDXA)  
Norland XR-800 (IlluminatusDXA)

## **Cardiology**

### **Supported Cardiology Devices**

GE Innova IGS 520  
GE Innova IGS 530  
GE Innova IGS 540  
GE Innova IGS 620  
GE Innova IGS 630  
GE Discovery IGS 730  
GE Discovery IGS 740

## **CD/DVD Burners**

### **Supported CD/DVD Burners**

Pacsgear Media Writer D100/D200<sup>1</sup>  
Perennity CD Burner Software V4.5  
RadInfo Systems CDPowerPACS<sup>2</sup>  
Sencor DICOM Part 10 Burner  
Sorna FilmX  
Sorna eXpedo  
Sorna Vertex

#### **Notes**

- 1 Uses DICOM software that was approved for Pacsgear and Pacscan
- 2 Device now supported by Sorna

## Computed Radiography
