MO-603 CoC is still in the process of determining a definition and targets that will determine Veteran Homelessness in our community. The philosophy that the MO-603 CoC currently implements when it comes to Veteran Homelessness is that whenever a homeless Veteran is identified, they match the Veteran with an appropriate resource (ie Housing).

While each SSVF grantee is working in their individual community, Balance of State does not seem to have any concrete plan outside of the work of the SSVF grantees. As much assistance as available is requested.

Q32: Are there any comments/notes that you would like to share (about the survey, your community, etc.)?

While the Balance of State is supportive of our efforts, they are only at the piloting process for coordinated entry in one region. Our Point of Contact is very active and responsive, but we would like to have more overall COC involvement with SSVF grantees on ending Veteran homelessness in the State of Missouri. Some SSVF Grantees have had success with aspects of the community planning process listed throughout this survey; however, with some counties and communities not covered by SSVF grantees and other communities having more trouble with coordinating entry and successful community plans there is still a lot of work to do to meet our definition of ending Veteran homelessness. Some communities are meeting as frequently as bi-weekly; however, some communities are not meeting at all. Each individual community in the Balance of State are working on our by name list at the community level; however, at the Balance of State level there are no current efforts to create a comprehensive by name list. Concerning coordinated outreach, certain communities do have coordinated outreach efforts; however, not all communities do and these efforts are not coordinated at the BOS level. With the variability of resources distributed across the state, community plan efforts have considerable variability concerning their status. Some communities with more resources have been more successful with their efforts, while other communities who do not have the amount of shelter, transitional housing, and emergency assistance have had difficulty getting community plans started let alone effectively ending Veteran homelessness.

In the original community plan the definition of ending Veteran homelessness was simply an operationalization of the functional zero definition. This meant that any homeless Veteran identified living on the streets could be provided with shelter or housing in a short time period with the goal of identifying permanent housing options soon after. The community is currently working with a TA provider to complete and implement the by name list and coordinated entry. During this planning process the community will create a local definition for ending Veteran homelessness.

Other (please specify)

The community lacks emergency shelter options that literally homeless individuals, including Veterans, are willing to stay in. The availability of transitional housing is also insufficient. There are several PH and PSH projects and those projects have prioritized veterans and often take referrals from the SSVF proram and other shelters. Many other projects in the community, of all types, have not prioritized the veteran population and screen many potential households out for housing barriers identified at intake.

Q32: Are there any comments/notes that you would like to share (about the survey, your community, etc.)?

The community is lagging behind in the implementation of the original plan. The TA that is currently being provided is appropriate for the needs of the community. It is hoped that these efforts will increase the efficiency of community partners in addressing Veteran homelessness and produce measurable improvements toward that goal.

Community Planning - January Submission

**Q31: Would you like technical assistance (if available)?
(Select all that apply.)**

- Assistance with by name list,
- Assistance with data sharing between VA and community
- ,
- Assistance with integration and coordination of GPD and/or other transitional housing
- ,
- Assistance with aligning current plan/process with federal benchmarks/criteria
- ,
