Q40: If the answer to the previous question is “yes”, does your community have adequate funding resources in place to sustain your system when “surge” funding ends?

Respondent skipped this question

Q41: Does your community regularly follow-up with rapid re-housing clients to ensure housing stabilization?

Yes

Q42: Do you have a system in place to ensure rapid re-housing clients experiencing new housing crises are routed to prevention/other stabilization services?

Yes,

If yes, please describe this process.
We currently have a follow up process to stay in contact with Vet family for at least a year to provide support if needed, the problem is that prevention resources are very limited. SSVF prevention funds don't last and other funding sources are very limited, we often have to supplement with other funding if available.

No

Q42: Do you have a system in place to ensure rapid re-housing clients experiencing new housing crises are routed to prevention/other stabilization services?

Yes,

If yes, please describe this process.

The Coordinated Entry System ensures that a Veteran experiencing a new housing crisis will be connected to prevention or stabilization services. If a Veteran requires prevention, they are usually referred to the SSVF program that assist them with RRH in order to ensure continuity of care. If said agency does not have prevention funds, then the agency connects that Veteran to another SSVF that does have the fund to support the Veteran. If the Veteran has utilized all SSVF, the Veteran is referred to another provider with the CES for stabilization services.

Yes

Q40: If the answer to the previous question is "yes", does your community have adequate funding resources in place to sustain your system when "surge" funding ends?

If the answer is "no", please explain.

Due to lack of infrastructure, it is difficult to understand if there truly will be adequate resources available when P1 funds end. As we build our CES system and better coordinate service delivery, resource allocations, it will become clearer. To date, it is difficult to understand if it is the high cost low vacancy housing market that results in slow expenditure of TFA or if it is an overabundance of funds.

Yes

Q40: If the answer to the previous question is "yes", does your community have adequate funding resources in place to sustain your system when "surge" funding ends?

No,
If the answer is "no", please explain.
It's only no because we would not have funds available in this area as we do with the "surge" funds. While we do reapply for P2 funds annually those funds are split up to serve 7 different counties which would not allow the same assistance we are currently providing in the Fresno/Madera area.

Q41: Does your community regularly follow-up with rapid re-housing clients to ensure housing stabilization?

Yes

Community Planning - June Submission

Q42: Do you have a system in place to ensure rapid re-housing clients experiencing new housing crises are routed to prevention/other stabilization services?

Yes,

If yes, please describe this process.

We work with both the VA and other community partners to link clients to services once assistance from SSVF is exhausted. We work to get them connected to VASH or to section * for subsidized housing, if they are not qualified for VASH or section 8 we work with the city of Fresno ESG grant as well as other non-profits to assist our Veterans.
