Q40: If the answer to the previous question is "yes", does your community have adequate funding resources in place to sustain your system when "surge" funding ends?

No,
If the answer is "no", please explain.
Metro Denver has one of the highest rental rates and low vacancies for affordable housing in the country, as well as the fastest growing city in the nation. While there have been significant strides in reducing the RRH population in the community, the cost burden and lack of renewed leases for Veterans on fixed income is creating a need for more homeless prevention funds.

Q41: Does your community regularly follow-up with rapid re-housing clients to ensure housing stabilization? Yes

Q42: Do you have a system in place to ensure rapid re-housing clients experiencing new housing crises are routed to prevention/other stabilization services?

Yes,
If yes, please describe this process.
Yes, rapid rehousing clients have a post-exit plan to seek services if they experience a new housing crisis, as well as a 6 month post-exit check-in call for some SSVF grantee procedures. Additionally, landlord engagement with existing landlords helps determine if rapid-rehousing tenants may be behind in their rent or experiencing a risk to their housing stability.

At that time, the case manager also communicates to the client that if they have trouble in the future, they are welcome to return to our SSVF program for assistance and referrals at any time even if they are no longer eligible for financial assistance from SSVF, our organization can provide referrals to community services at a minimum.
