There is no other rapid rehousing provider for veteran services and no other SSVF service provider for our region. Currently rapid rehousing is available for the general population however the funds would be very limited and do not cover the full coverage area that encompasses SSVF. In some counties there is no community resources available leaving a gap in services. Rapid Rehousing providers such as some shelters are overwhelmed with the general population.

Yes

Each agency, including both SSVF programs, has systems in place when continued needs are identified. Clients are contact as far out from exit as 180 days and are provided assistance regardless of enrollment status. Those who require re-enrollment are screened, and if approved, provided a more intensive program of support including strong connection to resources that they may not have accessed previously. Those in need but deemed ineligible, are quickly assessed and other community options are obtained including state Veteran grants and currently funded private donor grants for Veteran homelessness. All immediately identified homeless Veterans are quickly housed and external resources to maintain the Housing First model of support are implemented as appropriate.

**Q40: If the answer to the previous question is "yes", does your community have adequate funding resources in place to sustain your system when "surge" funding ends?**

No,

If the answer is "no", please explain. We acknowledge that the increased surge funding was crucial in facilitating our community's progress in meeting the benchmarks set by USICH and without the continuation of these funds we do not feel sustainability of the benchmarks would be possible. Given that we only have one renewable SSVF provider in our community, we do not feel this one provider would have the capacity to meet the needs of all veterans in our community requiring rapid rehousing.

**Q41: Does your community regularly follow-up with rapid re-housing clients to ensure housing stabilization?** Yes

**Q42: Do you have a system in place to ensure rapid re-housing clients experiencing new housing crises are routed to prevention/other stabilization services?**

Yes,

If yes, please describe this process.

At this time, veterans experiencing new housing crises are directed to our community 211 resource line which connects the household to a variety of city, county, and private resources. We recognize the current system is not ideal and requires improvement and coordination between agencies.
