- Understanding Patient Safety, 2e
- Understanding Value Based Health Care
- Williams Obstetrics, 24e

Content eligible for CME will be indicated on the Table of Contents pages, as well as on individual content pages. Users can gain credit by navigating directly to a piece of content, or discovering it via search. Users must be logged into their MyAccess profile to access CME.

Earning Credit:

By clicking the one of the CME icons, users can begin the process of immediately claiming credit, or they can save the content to their MyAccess profile to be claimed later.

To begin claiming credit, the content must be assigned to a topical query. After the content has been added to the query, the user can navigate to their MyAccess profile to close out the credit. Viewed content that has not been assigned to a query will appear in the “Unassigned” tab.

When selecting the earn CME button, a questionnaire will be presented. Once the questionnaire has been completed, credits can be claimed immediately or saved for later. If claimed immediately, your certificate can be printed immediately, and a copy is automatically saved to the “Earned Credits” tab of “My CME” in your MyAccess profile.
