(d) Agreements pursuant to [FAR subpart 17.5](#), including construction, shall include a requirement, that, when acquiring goods and services on behalf of the Department of Veterans Affairs, the entity will comply, to the maximum extent feasible, with the provisions of 38 U.S.C. 8127 and 8128, and the Veterans First Contracting Program as implemented at subpart 819.70.

Subpart 817.70—Undefinitized Contract Actions**817.7000 Scope.**

This subpart prescribes policies and procedures for use of undefinitized contract actions.

817.7001 Definitions.

As used in this subpart—

(a) *Contract action* includes:

(1) Contracts and contract modifications for supplies or services.

(2) Task orders and delivery orders.

(3) It does not include change orders, administrative changes, funding modifications, or any other contract modifications that are within the scope and under the terms of the contract, e.g., engineering change proposals and value engineering change proposals.

(b) *Definitization* means the agreement on, or determination of, contract terms, specifications, and price, which converts the undefinitized contract action to a definitive contract.

(c) *Definitization proposal* means a proposal containing sufficient data for the VA to do complete and meaningful analyses and audits of the—

(1) Data in the proposal; and

(2) Any other data that the contracting officer has determined VA needs to review in connection with the contract.

(d) *Undefinitized contract action* means any contract action for which the contract terms, specifications, or price are not agreed upon before performance is begun under the action. Examples are letter contracts and orders under basic ordering agreements for which the final price has not been agreed upon before performance has begun.

817.7002 Exceptions.

(a) The following undefinitized contract actions (UCAs) are not subject to this subpart:

(1) Purchases at or below the simplified acquisition threshold.

(2) Congressionally mandated long-lead procurement contracts.

(b) However, the contracting officer shall apply the policy and procedures to the contract actions in paragraph (a) to the maximum extent practicable.

817.7003 Policy.

Undefinitized contract actions shall—

(a) Be used only when—

(1) The negotiation of a definitive contract action is not possible in sufficient time to meet the Government's requirements; and

(2) The Government's interest demands that the contractor be given a binding commitment so that contract performance can begin immediately.

(b) Be as complete and definite as practicable.

817.7004 Limitations.

817.7004-1 Authorization.

The contracting officer shall obtain approval one level above the contracting officer before—

Part 817—Special Contracting Methods

(a) *Entering into a UCA.* The request for approval must fully explain the need to begin performance before definitization, including the adverse impact on the VA resulting from delays in beginning performance.

(b) *Including requirements for non-urgent items and equipment in a UCA.* The request should show that inclusion of the non-urgent items is consistent with good business practices and in the best interest of the Government.

(c) *Modifying the scope of a UCA when performance has already begun.* The request should show that the modification is consistent with good business practices and in the best interests of the Government.

817.7004-2 Price ceiling.

UCAs shall include a not-to-exceed price.

817.7004-3 Definitization schedule.

(a) UCAs shall contain definitization schedules that provide for definitization by the earlier of—

(1) The date that is 180 days after issuance of the action (this date may be extended but may not exceed the date that is 180 days after the contractor submits a definitization proposal); or

(2) The date on which the amount of funds paid to the contractor under the contract action is equal to more than 50 percent of the not-to-exceed price.

(b) Submission of a definitization proposal in accordance with the definitization schedule is a material element of the contract. If the contractor does not submit a timely definitization proposal, the contracting officer may suspend or reduce progress payments under [FAR 32.503-6](#), or take other appropriate action.

817.7004-4 Final price negotiation—profit.

Before the final price of a UCA is negotiated, contracting officers shall ensure the profit agreed to and documented in the contract negotiation memorandum reflects consideration of any risks incurred in performance of the work under the UCA.

817.7005 Contract clause.

(a) Use the clause at 852.217-70, Contract Action Definitization, in—

(1) All UCAs;

(2) Solicitations associated with UCAs;

Part 817—Special Contracting Methods

(3) Orders against basic ordering agreements;

(4) Indefinite delivery task orders; and

(5) Any other type of contract providing for the use of UCAs.

(b) Insert the applicable information in paragraphs (a), (b), and (d) of the clause.

(c) If, at the time of entering into the UCA, the contracting officer knows that the definitive contract action will meet the criteria of [FAR 15.403-1](#), [15.403-2](#), or [15.403-3](#) for not requiring submission of certified cost or pricing data, the words “and certified cost or pricing data” may be deleted from paragraph (a) of the clause.

As prescribed in 807.304-77 and 873.110, the following clause will be included in A-76 cost comparison solicitations and solicitations issued under the authority of 38 U.S.C. 8151-8153 that may result in conversion from in-house to contract performance of work:

REPORT OF EMPLOYMENT UNDER COMMERCIAL ACTIVITIES (JAN 2008)

(a) Consistent with the Government post-employment conflict of interest regulations, the contractor shall give adversely affected Federal personnel the right of first refusal for all employment openings under this contract for which they are qualified.

(b) *Definitions.*

(1) *Adversely affected Federal personnel* means:

(i) Permanent Federal personnel who are assigned to the government commercial activity, or

(ii) Federal personnel who are identified for release from their competitive levels or separated as a result of the contract.

(2) *Employment openings* means position vacancies created by this contract that the contractor is unable to fill with personnel in the contractor's employ at the time of the contract award. The term includes positions within a 50-mile radius of the commercial activity that indirectly arise in the contractor's organization as a result of the contractor's reassignment of employees due to the award of this contract.

(3) *Contract start date* means the first day of contractor performance.

(c) Filling employment openings.

(1) For a period beginning with contract award and ending 90 calendar days after the contract start date, no person other than adversely affected Federal personnel on the current listing provided by the contracting officer shall be offered an employment opening until all adversely affected and qualified Federal personnel identified by the contracting officer have been offered the job and refused it.

(2) The contractor may select any person for an employment opening when there are no qualified adversely affected Federal personnel on the latest current listing provided by the contracting officer.

(d) Contracting reporting requirements.

(1) No later than 5 working days after contract award, the contractor shall furnish the contracting officer with the following:

- (i) A list of employment openings including salaries and benefits, and
- (ii) Sufficient job application forms for adversely affected Federal personnel.

(2) By the contract start date, the contractor shall provide the contracting officer with the following:

- (i) The names of adversely affected Federal personnel offered an employment opening;
- (ii) The date the offer was made;

- (iv) The date of acceptance of the offer and the effective date of employment;

(e) Information provided to the contractor.

(1) No later than 10 calendar days after the contract award, the contracting officer shall furnish the contractor a current list of adversely affected Federal personnel exercising the right of first refusal, along with their completed job application forms.

(2) Between the contract award and start dates, the contracting officer shall inform the contractor of any reassignment or transfer of adversely affected Federal personnel to other Federal positions.

(3) For a period of up to 90 calendar days after the contract start date, the contracting officer will periodically provide the contractor with an updated listing of adversely affected Federal personnel reflecting personnel who were recently released from their competitive levels or separated as a result of the contract award.

(f) Qualifications determination. The contractor has a right under this clause to determine adequacy of the qualifications of adversely affected Federal personnel for any employment openings. However, adversely affected Federal personnel who held jobs in the Government commercial activity that directly correspond to an employment opening shall be considered qualified for the job. Questions concerning the qualifications of adversely affected Federal personnel for specific employment openings shall be referred to the contracting officer for determination. The contracting officer's determination shall be final and binding on all parties.

(g) Relating to other statutes, regulations and employment policies. The requirements of this clause shall not modify or alter the contractor's responsibilities under statutes, regulations or other contract clauses pertaining to the hiring of veterans, minorities, or persons with disabilities.

ORGANIZATIONAL CONFLICTS OF INTEREST (JAN 2008)

The term "organizational conflict of interest" means that because of other activities or relationships with other persons, a person is unable to render impartial assistance or advice to the Government, or the person's objectivity in performing the contract work is or might be otherwise impaired, or the person has an unfair competitive advantage.

(b) The offeror shall provide a statement with its offer which describes, in a concise manner, all relevant facts concerning any past, present, or currently planned interest (financial, contractual, organizational, or otherwise) or actual or potential organizational conflicts of interest relating to the services to be provided under this solicitation. The offeror shall also provide statements with its offer containing the same information for any consultants and subcontractors identified in its proposal and which will provide services under the solicitation. The offeror may also provide relevant facts that show how its organizational and/or management system or other actions would avoid or mitigate any actual or potential organizational conflicts of interest.

(c) Based on this information and any other information solicited or obtained by the contracting officer, the contracting officer may determine that an organizational conflict of interest exists which would warrant disqualifying the contractor for award of the contract unless the organizational conflict of interest can be mitigated to the contracting officer's satisfaction by negotiating terms and conditions of the contract to that effect. If the conflict of interest cannot be mitigated and if the contracting officer finds that it is in the best interest of the United States to award the contract, the contracting officer shall request a waiver in accordance with [FAR 9.503](#) and 48 CFR 809.503.

(d) Nondisclosure or misrepresentation of actual or potential organizational conflicts of interest at the time of the offer, or arising as a result of a modification to the contract, may result in the termination of the contract at no expense to the Government.

The bidders offer must clearly indicate the quantity, package size, unit, or other different feature upon which the quote is made. Evaluation of the alternate or multiple alternates will be made on a common denominator such as per ounce, per pound, etc., basis.

(End of provision)

852.214-74 Marking of Bid Samples.

As prescribed in 814.201-6(b), insert the following provision:

MARKING OF BID SAMPLES (MAY 2018)

Any bid sample(s) furnished must be in the quantities specified in the solicitation. Cases or packages must be plainly marked “Bid Sample(s)” with the complete lettering/numbering and description of the related bid item(s), the number of the Invitation for Bids, and the name of the bidder submitting the bid sample(s).

This deviation is effective until incorporated into the VAAR or the VAAM or is otherwise rescinded.]

852.215-70 Service-disabled veteran-owned and veteran-owned small business evaluation factors.

As prescribed in 815.304-71(a), insert the following provision:

**SERVICE-DISABLED VETERAN-OWNED AND VETERAN-OWNED
SMALL BUSINESS EVALUATION FACTORS
(JUL 2016) (DEVIATION)**

(a) In an effort to achieve socioeconomic small business goals, depending on the evaluation factors included in the solicitation, VA shall evaluate offerors based on their service-disabled veteran-owned or veteran-owned small business status and their proposed use of eligible service-disabled veteran-owned small businesses and veteran-owned small businesses as subcontractors.

(b) Eligible service-disabled veteran-owned offerors will receive full credit, and offerors qualifying as veteran-owned small businesses will receive partial credit for the Service-Disabled Veteran-Owned and Veteran-owned Small Business Status evaluation factor. To receive credit, an offeror must be registered and verified in Vendor Information Pages (VIP) database (<https://www.vip.vetbiz.gov>).

(c) Non-veteran offerors proposing to use service-disabled veteran-owned small businesses or veteran-owned small businesses as subcontractors will receive some consideration under this evaluation factor. Offerors must state in their proposals the names of the SDVOSBs and VOSBs with whom they intend to subcontract and provide a brief description of the proposed subcontracts and the approximate dollar values of the proposed subcontracts. In addition, the proposed subcontractors must be registered and verified in the VetBiz.gov VIP database (<https://www.vip.vetbiz.gov>).

(End of clause)

852.215-71 Evaluation Factor Commitments.

As prescribed in 815.304-71(b), insert the following clause:

EVALUATION FACTOR COMMITMENTS (DEC 2009)

The offeror agrees, if awarded a contract, to use the service-disabled veteran-owned small businesses or veteran-owned small businesses proposed as subcontractors in accordance with 852.215–70, Service-Disabled Veteran-Owned and Veteran-Owned Small Business Evaluation Factors, or to substitute one or more service-disabled veteran-owned small businesses or veteran-owned small businesses for subcontract work of the same or similar value.

(End of clause)

852.216-70 [Reserved]**852.216-71 Economic Price Adjustment of Contract Price(s) Based on a Price Index.**

As prescribed in 816.203-4(e)(1), insert the following clause:

**ECONOMIC PRICE ADJUSTMENT OF CONTRACT PRICE(S)
BASED ON A PRICE INDEX (MAR 2018)**

(a) To the extent that contract cost increases are provided for by this economic price adjustment clause, the Contractor warrants that the prices in this contract for the base period and any option periods do not include any amount to protect against such contingent cost increases.

(b) The Base and Adjusting Indexes, for the purpose of price adjustment under this clause, shall be _____,¹ as contained in _____,² as published by _____.³ All adjustments authorized under this clause shall be made by using the Base Index and Adjusting Indexes, which are published _____⁴.

(1) The Base Index, for the purposes of price adjustment under this clause, shall be the most recent Index published prior to the date for receipt of offers, or the due date for receipt of best and final offers if discussions were held whichever is later. The Base Index shall remain constant for the entire term of the contract, including all option periods.

(2) The Adjusting Index shall be the most recent Index published prior to the date of contract adjustment, as specified in paragraph (d) of this clause.

Notes:

¹ The contracting officer shall conduct market research to determine a suitable Consumer Price Index or other independent broad-based index to use for the solicitation. For example, for medical services, an appropriate index may be the Consumer Price Index that tracks medical services.

² Specify where the Index can be found, such as in a solicitation for laboratory services, the Contracting Officer might enter "Table 1, CPI-U: U.S. City Average, by expenditure category and commodity and service group, found at <http://www.bls.gov/news.release/cpi.t01.htm>".

³ Provide the information on who publishes the applicable Index used e.g., in the example for laboratory services, "the U.S. Department of Labor".

⁴ State how often the Index is published, such as "monthly, around the middle of the month". Note that some Consumer Price Indexes are not published monthly. Ensure that the correct information is provided for the specific Index used.

(c) The percentage difference between the Base Index and the Adjusting Index, rounded to the nearest .01 percent (e.g., 4.57%), will be used in calculating all adjustments to the following line items: _____.⁵ The prices for these line items will be multiplied by the percentage increase or decrease and the resulting amount will be added to or deducted from the original line item price for that contract period (e.g., Base Year) to arrive at the new contract price for those line items from the effective date of the adjustment to the beginning of the next contract adjustment period, rounded to the same number of decimal points as the prices originally bid. Calculations for option year contract terms will be based on the prices in the schedule for those option years.

(d) The dates of contract adjustment shall be _____⁶ and the starting dates of each option year, if not already included in these dates. The Contracting Officer shall retain a copy of the Base Index in the contract file and, on each date of adjustment specified in this paragraph (d), shall obtain a copy of the Adjusting Index. The Contracting Officer shall calculate the adjustment due and shall, within 5 business days, issue a modification to the contract adjusting the unit or contract prices, as specified in paragraph (c). The adjusted unit or contract prices shall be effective for all orders placed or services provided after the date of contract adjustment as specified in this paragraph (d) until the beginning of the next contract adjustment period. If the Contracting Officer fails to act, the Contractor shall request in writing a contract adjustment and any subsequent adjustment shall be retroactive to the applicable date of contract adjustment specified in this paragraph (d). The Contractor's entitlement to price

⁵ Enter the line items that will be subject to adjustment or revise this paragraph to otherwise state what prices are subject to adjustment under this clause.

⁶ Establish time periods for when the Contracting Officer will process adjustments. This could be "the first day of every quarter, January, April, July, and October" or "Annually on October 1st". or some other similar time periods. Since the Contracting Officer is responsible for initiating the change, the Contracting Officer must establish a reminder mechanism to ensure that the adjustments are accomplished within the time period specified.

increases for a prior contract period (base year or option year) is waived unless the Contractor's written request for an adjustment under this clause is received by the Contracting Officer no later than 30 days following the end of the base year for changes applicable to the base year, or 30 days following the end of each option year for changes applicable to that option year. The Government's right to contract decreases for prior contract periods (base year or option year) is waived unless the Contracting Officer processes a contract modification no later than 30 days following the end of the base year for changes applicable to the base year, or 30 days following the end of each option year for changes applicable to that option year.

(e) An example of an adjustment calculation is provided herein for informational purposes only.

(1) The original contract price or line item prices for that contract term (e.g., base year) shall be used for all calculations during that particular contract term and new calculations shall be made for each and every contract adjustment period specified in paragraph (d) during that contract term.

(2) For purposes of this example, the contract prices for the line items as specified in paragraph (c) will be adjusted by the percentage calculated as follows:

Adjusting Index for the current period	196.6
Minus the Base Index	-188.0
Equals the Index Point Change	8.6
Index Point Change Divided by the Base Index	$8.6 / 188.0 = .0457^*$
Result Multiplied by 100 Equals the Percentage Change (The Index Point Change Percentage)	4.57%

*This figure shall be rounded to the fourth decimal place. When the fifth decimal is 1 to 4, the figure shall be rounded down, 5 to 9, rounded up.

(3) For a line item with an original bid price of \$25.00 and a 4.57 percent Index Point Change increase as of the first contract adjustment period, as shown above, the calculations for a new contract price for the first contract adjustment period would be as follows: $\$25.00 \times .0457 = \1.14 , $\$25 + \$1.14 = \$26.14^{**}$. The new contract price for this line item from the beginning of that first contract adjustment period until the start of the next contract adjustment

period would be \$26.14 and the contracting officer would issue a contract modification reflecting this price change.

**The unit price adjustment shall be rounded up or down, as in paragraph (e)(1) above, to match the number of decimal places in the original bid.

(4) If the Adjusting Index went down for the second adjustment period, reflecting only a 3 percent Index Point Change increase over the Base Index, the new price for this sample line item would be reduced for the second contract adjustment period from \$26.14 to \$25.75 as follows: $\$25 \times .03 = \0.75 , $\$25 + \$0.75 = \$25.75$. Note that the calculations for the second contract adjustment period are based on the original contract price for that contract term of \$25.00. The contract price for this line item is modified to reflect this new price for the second contract adjustment period.

(5) At the start of the first option year and each subsequent option year period (as well as for each contract adjustment period specified in paragraph (d) during that option year, if different), the Contracting Officer shall recalculate the contract or unit prices for that first option year based on any changes between the Adjusting Index and the Base Index, from the original contract award date to the start of the first option period, and based on the Contractor's new option year prices. Assume the Contractor's bid price for the first option year for the above sample line item was \$25.50 and the calculations shown in paragraph (e)(1) of this clause at the start of the first option period reflected a 6 percent Index Point Change. The new contract price for this sample line item at the start of the first option period would be calculated as follows: $\$25.50 \times .06 = \1.53 , $\$25.50 + \$1.53 = \$27.03$. The Contracting Officer would process a contract modification reflecting a revised contract price of \$27.03 for the first contract adjustment period in the first option year.

(f) Price adjustments pursuant to this clause, shall be documented by a contract modification issued by the Contracting Officer, show the Base Index (see paragraph (b)(1)), the Adjusting Index, the adjusted contract prices (see paragraph (c)), the mathematical calculations used to arrive at the adjusted contract prices, and the effective date of the adjustment (see paragraph (d)).

(g) At the start of each option year, the Contracting Officer shall, within 5 days of the start of the option year period, process a contract modification adjusting the option year prices by the then current Index Point Change percentage, if any, reflecting the new adjusted prices for that first contract adjustment period in that option year.

(h) In the event that _____⁷ discontinues, or alters substantially, its method of calculating the Index cited herein, the parties shall mutually agree upon an appropriate substitute for determining the price adjustment described herein. If the Contracting Officer determines that the Index consistently and substantially fails to reflect market conditions, the Contracting Officer may modify the contract to specify the use of an appropriate substitute index, effective on the date the Index specified herein begins to consistently and substantially fail to reflect market conditions.

(i) Any dispute arising under this clause shall be resolved subject to the "Disputes" clause of the contract.

(End of clause)

Notes:

⁷ Enter in the name of the entity whose index is used in the clause. In most cases when using this clause format, the index used would be a CPI-U Index and the Contracting Officer would enter "the U.S. Department of Labor".

852.216-72 Proportional Economic Price Adjustment of Contract Price(s) Based on a Price Index.

As prescribed in 816.203-4(e)(2), insert the following clause:

**PROPORTIONAL ECONOMIC PRICE ADJUSTMENT OF CONTRACT PRICE(S)
BASED ON A PRICE INDEX (MAR 2018)**

(a) To the extent that contract cost increases are provided for by this economic price adjustment clause, the Contractor warrants that the prices in this contract for any option periods do not include any amount to protect against such contingent cost increases.

(b) The cost index, for the purpose of price adjustment under this clause, shall be _____⁸ as contained in _____⁹ as published by _____¹⁰. All adjustments authorized under this clause shall be made by _____¹¹ using the Base Index and Adjusting Indexes, which are published _____.

(1) The Base Index, for the purposes of price adjustment under this clause, shall be the most recent Index published prior to the closing date for receipt of offers, or the due date for receipt of best and final offers if discussions are held. This Base Index shall remain constant throughout the life of the contract, including all options.

(2) The Adjusting Index shall be the most recent Index published prior to the date of contract adjustment, as specified in paragraph (f)

Notes:

⁸ The Contracting Officer shall conduct market research to determine a suitable cost index for use in the solicitation. The index used is directly related to the type of commodity or service most likely to impact the Contractor and must approximately track the economic changes affecting the Contractor's costs. For transportation services, an appropriate index might be one that tracks the price of gasoline or diesel fuel. For example, in a solicitation for ambulance services, the Contracting Officer might enter into this block "the "Weekly U.S. Retail Gasoline Prices, Regular Grade" Index for New England" (or California or whichever index is the most appropriate).

⁹ Specify where the index can be found, such as in an example for gasoline, "the Energy Information Administration Web site (see VAAM M816.203-70).

¹⁰ Provide the information on who publishes the index, such as, in an example for gasoline, "the U.S. Department of Energy."

¹¹ State how often the index used is published, such as, in an example for an index for gasoline, "weekly each Monday at 5:00 p.m. (Eastern time)," or "Tuesday if Monday is a holiday."

(c) For purposes of this clause, it will be conclusively presumed that _____ percent (%)¹² of the price of _____¹³ represents the Base Cost of _____¹⁴ and the resulting Base Cost will be the basis upon which adjustment will be made under this clause. This Base Cost will be used in calculating all adjustments to the following line items: _____.¹⁵ A new Base Cost will be calculated for each option year period based on the new option year prices.

(d) The percentage of the price of the indexed commodity (see paragraph (c)) remains fixed throughout the life of the contract and is not subject to modification under this clause. Any pricing actions pursuant to the "Changes" clause or other clause or provision of the contract, except for this clause, will be priced as though there were no provisions for economic price adjustment.

(e) All price adjustments shall be applicable only to the specific contract adjustment period to which the calculations are made. For every contract adjustment period, new calculations shall be made and new prices determined. Every adjustment during the Base Year shall be based on the original contract prices for that contract year and every adjustment during an option year shall be based on the original contract prices for that option year. The Contracting Officer must make new calculations for each and every contract adjustment period specified in paragraph (f) and at the beginning of each new option year, if different.

(f) The dates of contract adjustment shall be _____¹⁶ and the starting dates of each option year, if not already included in these dates. The Contracting

Notes:

¹² Prior to issuing the solicitation, the Contracting Officer must conduct market research to determine an appropriate percentage to include in this paragraph. The percentage should reflect that portion of the unit price for the services or supplies being acquired that is applicable to the indexed commodity. For instance, in the case of an ambulance contract, research might indicate that, at the time the solicitation is being drafted and based on prior per-mile bid prices, the cost of gasoline accounts for 10% of the per mile cost of operating an ambulance. For example, if the prior bid price had been \$1.60 per mile, ambulances average 10 miles per gallon, and the cost of gasoline had been \$1.559 per gallon, 1 mile's worth of gasoline (\$.16) would be approximately ten (10) percent of the prior per mile bid price of \$1.60 per mile. This percent must be stated in the solicitation so that the same figure applies to all bidders. This figure remains constant throughout the life of the contract.

¹³ Enter in this block the portion of the contract that will be subject to price adjustment, e.g., "each one-way mile of ambulance services," or the line items that will be subject to price adjustment.

¹⁴ Enter in this block the commodity applicable to the index being used, as in an example for an ambulance contract, "regular grade gasoline".

¹⁵ Enter the line items that will be subject to adjustment, as in an example for an ambulance contract, the line items that reflect the one-way cost per mile for ambulance services for the base year and for each option year.

¹⁶ Establish time periods for when the Contracting Officer will process adjustments. This could be "the

Officer shall retain a copy of the Base Index in the contract file and, on each date of adjustment specified herein, obtain a copy of the Adjusting Index. The Contracting Officer shall calculate the adjustment due and shall, within 5 business days, issue a modification to the contract adjusting the contract or unit price(s). The adjusted contract or unit price(s) shall be effective for all orders placed or services provided after the date of contract adjustment, as specified in this paragraph (f), until the date of the next contract adjustment. If the Contracting Officer fails to act, the Contractor shall request a contract adjustment in writing and any subsequent adjustment shall be retroactive to the applicable date of contract adjustment. The Contractor's entitlement to price increases for a prior contract period (base year or option year) shall be waived unless the Contractor's written request for an adjustment under this clause is received by the Contracting Officer no later than 30 days following the end of the base year for changes applicable to the base year, or 30 days following the end of each option year for changes applicable to that option year. The Government's right to contract decreases for prior contract periods (base year or option year) shall be waived unless the Contracting Officer processes a contract modification no later than 30 days following the end of the base year for changes applicable to the base year, or 30 days following the end of each option year for changes applicable to that option year.

(g) An example of an adjustment calculation is provided herein for informational purposes only.

(1) For purposes of this example, assume that a contract is for ambulance services, that the contract price is \$2.10 per mile one way, that price adjustments will be made on the basis of the cost of gasoline, that the cost of gasoline represents 10% of the total cost per mile (the Base Cost is 10% of \$2.10 (the per mile one way price in Line Item X), or \$0.21), and that contract adjustments will be made quarterly. If the Base Index (the price of gasoline the week prior to receipt of bids) is \$1.559 per gallon and the price of gasoline at the first date of contract adjustment is \$2.129 per gallon, the calculations for contract price adjustment would be as follows:

Adjusting Index (most recent Index cost of gasoline as of the date of the first adjustment period)	\$2.129 per gallon
Minus the Base Index (Index cost of gasoline as of the date of receipt of offers)	-\$1.559 per gallon

first day of each month" or "the first day of every quarter, January, April, July, and October" or "annually on October 1st" or some other similar time periods. Since the Contracting Officer is responsible for initiating the change, the Contracting Officer must establish a reminder mechanism to ensure that the adjustments are accomplished on time.

Equals increase (or decrease) to the Base Index	\$0.570
Divide increase (or decrease) to the Base Index by the Base Index	$\$0.570 \div \$1.559 = .3656^*$ (36.56% increase)
Base Cost of \$0.21 (10% of \$2.10) multiplied by .3656 = \$0.0768 unit price increase.	

New Unit price following the adjustment is \$2.10 plus \$0.0768 = \$2.1768 per mile (rounded to \$2.18)**

*This figure shall be rounded to the fourth decimal place. When the fifth decimal is 1 to 4, the figure shall be rounded down, 5 to 9, rounded up.

**The unit price adjustment shall be rounded up or down, as above, to match the number of decimal places in the original bid.

(2) For the second contract adjustment period, all calculations would be based on the original contract bid price for that contract year, \$2.10 per mile in this example. If the price of gasoline goes down during the second adjustment period to the original Base Index price of \$1.559 per gallon, the adjusted contract price for that second period would return to \$2.10 per mile (there would be a zero percent increase or decrease to the Base Cost and thus no change to the original bid price for that contract adjustment period). The Contracting Officer would then issue a contract modification returning the contract price from \$2.18 to \$2.10 per mile for that contract adjustment period. If, on the other hand, the price of gasoline actually went below the Base Index price, say to \$1.449 per gallon, the calculations for the second economic price adjustment period would be as follows:

Adjusting Index (most recent Index cost of gasoline as of the date of the second adjustment period)	\$1.449 per gallon
Minus the Base Index (Index cost of gasoline as of the date of receipt of offers)	-\$1.559 per gallon
Equals increase (or decrease) to Base Index	(\$0.110) (a negative \$.11)
Divide increase (or decrease) to the Base Index by the Base Index	$(\$0.11) \div \$1.559 = (.0706)$

(7.06% decrease)

Base Cost of \$0.21 (10% of \$2.10) multiplied by (.0706) = (\$0.0148) unit price decrease.

New Unit price following the second economic price adjustment is \$2.10 minus \$0.0148 = \$2.0852 per mile (rounded to \$2.09).

(3) At the start of the first option year, the Contracting Officer shall recalculate the price per mile based on any changes in the price of gasoline from the original contract award date and based on the Contractor's new first option year price per mile. Assuming the Contractor's bid price per mile for the first option year was \$2.25 per mile, the new Base Cost for gasoline would be 10% of \$2.25, or \$0.225 (note that the original percent figure from paragraph (c) (10% in this sample) stays constant throughout the life of the contract), but the Base Cost would change if the option year contract price changes. If the Adjusting Index for gasoline at the start of the first option year was now up to \$1.899 per gallon, the new first option year price for the first contract adjustment period would be calculated as follows:

Adjusting Index (most recent Index cost of gasoline as of the first day of the first option period)	\$1.899 per gallon
---	--------------------

Minus the Base Index (Index cost of gasoline as of the date of receipt of offers)	\$1.559 per gallon
---	--------------------

Equals increase (or decrease) to the Base Index	\$0.340
---	---------

Divide the increase (or decrease) to the Base Index by the Base Index	$\$0.34 + \$1.559 = .2181$ (21.81% increase)
---	---

Base Cost of \$0.225 (10%* of \$2.25) multiplied by .2181 = \$0.0491 unit price increase.

New Unit price for the first contract adjustment period in the first option year is \$2.25 plus \$0.0491 = \$2.2991 per mile (rounded to \$2.30 per mile).

*Note that the percentage remains constant (10%) but that the Base Cost has been increased for the first contract adjustment period in the first option year, since the Base Cost is a percentage of the first option year unit cost per mile (in this sample), and the unit cost per mile has increased in this sample for the first option year from \$2.10 to \$2.25.

Although the new unit price for the first contract adjustment period of the first option year following application of the economic price adjustment in this sample would be \$2.30 per mile, all economic price adjustment calculations made during that first option year would be based on the original first option year bid price (\$2.25 in this sample). If in the second contract adjustment period of the first option year, the calculations resulted in a unit price increase for gasoline of \$0.0332, the adjusted price for that period would be $\$2.25 + \$0.0332 = \$2.2832$, rounded to \$2.28 per mile.

(h) Price adjustments pursuant to this clause, which shall be made by contract modification issued by the Contracting Officer, shall show the Base Index (see paragraph (b)(1)), the Adjusting Index, the Base Cost (see paragraph (c)), the mathematical calculations used to arrive at the adjusted contract unit price, and the effective date of the adjustment.

(i) In the event that _____¹⁷ discontinues, or alters substantially, its method of calculating the Index cited herein, the parties shall mutually agree upon an appropriate substitute for determining the price adjustment described herein. If the Contracting Officer determines that the Index consistently and substantially fails to reflect market conditions, the Contracting Officer may modify the contract to specify use of an appropriate substitute index, effective on the date the Index specified herein begins to consistently and substantially fail to reflect market conditions.

(j) Any dispute arising under this clause shall subject to the "Disputes" clause of the contract.

(End of clause)

Notes:

¹⁷ Enter in the name of the entity whose index is used in the clause. In the example for ambulance services using the "Weekly U.S. Retail Gasoline Prices, Regular Grade" index; the Contracting Officer would enter the "Energy Information Administration, Department of Energy".

852.216-73 Economic Price Adjustment—State Nursing Home Care for Veterans.

As prescribed in 816.203-4(e)(3), insert the following clause:

ECONOMIC PRICE ADJUSTMENT—STATE NURSING HOME CARE FOR VETERANS (MAR 2018)

This clause does not apply to rates for non-Medicaid nursing homes.

(a) *Rate Determination.* The per diem rate is established by the current Medicaid rate for Medicaid approved nursing home care plus a fair market amount (percentage) to cover the costs of supplies, services, and equipment above that provided under Medicaid established by the local State Medicaid Agency (SMA). Rates established after the effective date of this contract will require a modification to the contract by the Contracting Officer.

(1) The Medicaid rate covers room, board, and routine nursing care services.

(2) For all levels of nursing care a percentage is added for routine ancillary services/supplies, such as drugs, nursing supplies, oxygen (occasional use), x-ray, laboratory, physician visits, and rental equipment.

(3) Special equipment, e.g. Clinitron bed, is not considered routine ancillary services (and may not be provided by the VA).

(4) Drug costs which comprise more than eight and one-half percent (8.5%) of the per diem rate are generally not considered routine ancillary supplies (and may not be provided by the VA).

(5) Rehabilitation therapies will be provided as distinct levels of care, *i.e.*, skilled, intermediate, and custodial care. Hospice Care and Dialysis are not included in the rate. Payment for Hospices and Dialysis services is provided by the VA or other payers as determined by the Veteran with the VA's Approval.

(b) *Economic Price Adjustment.* This clause does not apply to ancillary services that may be added or deleted from the agreement.

(1) The per diem rate(s) will apply throughout the term of this contract, including extension period(s). The rate(s) may be adjusted only to reflect a change in a Medicaid rate as authorized by the SMA. Normally, this will be on an annual basis. The negotiated percentage above the Medicaid rate, to cover the all-inclusive nature of the contract, will not be renegotiated; but will be applied and added to the new Medicaid rate for the adjusted per diem rate for each level of care item. In this

regard, new rates will be negotiated requiring a modification to the contract. Each per diem price adjustment under this clause is subject to the following limitations:

(2) Any adjustment shall be limited to the effect of increases or decreases in the approved SMA's patient care components within the affected Medicaid groups.

(3) Adjustments will occur no more frequently than those issued by the SMA.

(4) No adjustments are made until the Contracting Officer receives from the SMA an authenticated copy of the new rates signed and dated at the top right of the document by the authorized nursing home official. Within ten days after this occurs, the Contracting Officer will execute an approval signature and date at the approximate locations of the nursing home official's signature, the action of which will serve as the effective date of the adjusted rate. A copy of the fully executed document will be sent to the nursing home official for record keeping purposes.

(End of clause)

852.216-74 Economic Price Adjustment—Medicaid Labor Rates.

As prescribed in 816.203-4(e)(4), insert the following clause:

ECONOMIC PRICE ADJUSTMENT—MEDICAID LABOR RATES (MAR 2018)

This clause does not apply to rates for non-Medicaid nursing homes.

(a) The Contractor shall notify the Contracting Officer if, at any time during contract performance, the Medicaid rate set by the State Medical Agency (SMA) for contract line item increases or decreases in the Schedule. The Contractor shall furnish this notice within 60 days after the increase or decrease, or within any additional period that the Contracting Officer may approve in writing, but not later than the date of final payment under this contract. The notice shall include the Contractor's proposal for an adjustment in the contract unit prices to be negotiated under paragraph (b) of this clause, and shall include, in the form required by the Contracting Officer, supporting data explaining the cause, effective date, and the amount of the increase or decrease and the amount of the Contractor's adjustment proposal.

(b) The Contracting Officer and the Contractor shall negotiate a price adjustment to the contract's unit prices and its effective date upon receipt of the notice and data under paragraph (a) of this clause. However, the Contracting Officer may postpone the negotiations until an accumulation of increases and decreases of the Medicaid labor rates (including fringe benefits) shown in the Schedule results in an adjustment allowable under paragraph (c)(3) of this clause. The Contracting Officer shall modify this contract as follows:

(1) Include the price adjustment and its effective date;

(2) Revise the Medicaid labor rates (including fringe benefits) as shown in the Schedule to reflect the increases or decreases resulting from the SMA adjustment. The Contractor shall continue performance pending agreement on, or determination of, any adjustment and its effective date.

(c) Any price adjustment under this clause is subject to the following limitations:

(1) Adjustment shall be limited to the effect on unit prices of the increases or decreases of the Medicaid rates of pay for labor (including fringe benefits) shown in the Schedule. There shall be no adjustment for changes in rates or unit prices other than those shown in the Schedule.

(2) No upward adjustment shall apply to supplies or services that are required to be delivered or performed before the effective date of the adjustment, unless the Contractor's failure to deliver or perform according to the delivery schedule results from causes beyond the Contractor's control and without its fault or negligence, within the meaning of the Default clause.

(3) There shall be no adjustment for any change in rates of pay for labor (including fringe benefits) or unit prices for material which would not result in a net change of at least three percent of the then-current total contract price. This limitation shall not apply, however, if, after final delivery of all contract line items, either party requests an adjustment under paragraph (b) of this clause.

(4) The aggregate of the increases in any contract unit price made under this clause shall not exceed 10 percent of the original unit price. There is no percentage limitation on the amount of decreases made under this clause.

(d) The Contracting Officer, precluding certified cost and pricing data may examine the Contractor's books, records, and other supporting data relevant to the cost of labor (including fringe benefits) and material during all reasonable times until the end of 3 years after the date of final payment under this contract or the time periods specified in Subpart 4.7 of the Federal Acquisition Regulation (FAR), whichever is earlier.

(End of clause)

852.216-75 Economic Price Adjustment Clause—Fuel Surcharge.

As prescribed in 816.203-4(e)(5), insert the following clause:

**ECONOMIC PRICE ADJUSTMENT CLAUSE—FUEL SURCHARGE
(MAR 2018)**

(a) To the extent that contract fuel cost increases are provided for by this economic price adjustment clause, the Contractor warrants that the prices in this contract for any option periods do not include any amount to protect against such contingent fuel cost increases.

(b) The fuel cost index, for the purpose of price adjustment under this clause, shall be the "Weekly Retail On-Highway Diesel Prices Index." The Base Fuel Cost, for the purpose of price adjustments under this clause, shall be the most recent Index Weekly Average Diesel Fuel Price per gallon published prior to the closing date for receipt of offers, or the due date for receipt of final proposal revisions if discussions are held.

(c) For purposes of this clause, it will be conclusively presumed that x% increase or decrease of the Base Fuel Cost represents a reasonable fluctuation of diesel fuel prices. The Base Fuel Cost (+ / -) x% price range will be determined for the base contract year and will remain constant throughout the life of the contract, including option years. Base Fuel Cost price range is documented at time of contract award.

(d) Increases (or decreases) in the diesel fuel costs (Base Fuel Cost x%) as listed on the Index two weeks prior to the end of each calendar quarter can trigger a request from the Contractor to the Government (or from the Government to the Contractor) for cost adjustments. Notice must be in writing to the Subsistence Prime Vendor (SPV) Contracting Officer (or Contracting Officer's Representative) no less than ten days prior to the beginning of the next quarter.

(e) Since fuel cost is only a part of the SPV Contracted distribution cost, the adjustment will be made as a penny per delivered case for every ten cent fuel price per gallon increase or decrease to the Base Fuel Cost x%. The difference is rounded down to the nearest whole cent and will be added to last line of each invoice noted as "Fuel Adjustment".

Example calculation of fuel price change:	Price \$2.50 Base (+ or -) 15% Average National Diesel Fuel \$2.88 - \$2.13
---	---

3rd QTR (3rd week June) first year	\$3.05 - 2.88 = \$.17 (rounded down to 10 cents) Add one cent per delivered case to each invoice, starting first Monday of July.
Fuel Price \$3.05 Calculation:	

3rd QTR Diesel Fuel Price decrease	\$2.13 - 1.80 = \$.33 (rounded down to \$.30 cents) Credit each invoice
\$1.80 Calculation:	\$.03 cents per delivered case.

(f) Once approved, the date for contract fuel price adjustment will be the first Monday of the first month of each quarter unless otherwise designated at time of contract award.

(g) The Contracting Officer shall retain a copy of the Base Fuel Index establishing the Base Fuel Cost and the calculation of the price range incorporating the (+/-) x% adjustment in the contract file. All subsequent changes will be documented within the contract file and communicated to the Contractor and VA SPV customers via email one week prior to the fuel price adjustment implementation.

(h) Any adjustments for fuel price changes will only be implemented if requested in writing, reviewed by both parties, and provided within the designated time frames. No retroactive cost adjustments will be made. A contract modification will be issued at inception of first increase or decrease detailing Base Fuel Cost, price range, and calculation of first fuel adjustment charge. Adjustment will remain in effect with quarterly calculation changes as needed until price falls within Base Fuel Cost price range. A contract modification will be issued to terminate the adjustment when price returns to Base Fuel Cost (+/-) % price range.

(i) In the event that "the Energy Information Administration, Department of Energy" discontinues, or substantially alters its method of calculating the national average diesel fuel prices cited herein, the parties shall mutually agree upon an appropriate substitute for determining the price adjustment described herein. If the Contracting Officer determines the Index consistently and substantially fails to reflect market conditions, the Contracting Officer may modify the contract to specify use of an appropriate substitute Index, effective on the date the Index specified herein begins to consistently and substantially fail to reflect market conditions.

(j) Any dispute arising under this clause shall be determined in accordance with and subject to the "Disputes" clause of the contract.

(End of clause)

Retained amounts shall be paid promptly upon completion of all contract requirements, but nothing contained in this paragraph (a)(3) shall be construed as limiting the Contracting Officer's right to withhold funds under other provisions of the contract or in accordance with the general law and regulations regarding the administration of Government contracts.

(b) The Contractor shall submit a schedule of cost to the Contracting Officer for approval within 30 calendar days after date of receipt of notice to proceed. Such schedule will be signed and submitted in triplicate. The approved cost schedule will be one of the bases for determining progress payments to the Contractor for work completed. This schedule shall show cost by the work activity/event for each building or unit of the contract, as instructed by the resident engineer.

(1) The work activities/events shall be subdivided into as many sub-activities/events as are necessary to cover all component parts of the contract work.

(2) Costs as shown on this schedule must be true costs and the resident engineer may require the Contractor to submit the original estimate sheets or other information to substantiate the detailed makeup of the schedule.

(3) The sums of the sub-activities/events, as applied to each work activity/event, shall equal the total cost of such work activity/event. The total cost of all work activities/events shall equal the contract price.

(4) Insurance and similar items shall be prorated and included in the cost of each branch of the work.

(5) The cost schedule shall include separate cost information for the systems listed in the table in this paragraph (b)(5). The percentages listed in the following table are proportions of the cost listed in the Contractor's cost schedule and identify, for payment purposes, the value of the work to adjust, correct and test systems after the material has been installed. Payment of the listed percentages will be made only after the Contractor has demonstrated that each of the systems is substantially complete and operates as required by the contract.

The work by the Contractor's executive, administrative and clerical forces shall be excluded in establishing compliance with the requirements of this clause.

(b) The Contractor shall submit, simultaneously with the schedule of costs required by the Payments under Fixed-Price Construction Contracts clause of the contract, a statement designating the portions of contract work to be performed with the Contractor's own forces. The approved schedule of costs will be used in determining the value of a work activity/event, or portions thereof, of the work for the purpose of this article.

(c) Changes to established activity/event identifiers or responsibility codes for Contractor activities shall not be made without approval from the Contracting Officer.

(d) In the event the Contractor fails to comply with [FAR 52.236-1](#), Performance of Work by the Contractor, the Contracting Officer will withhold retention in the amount of 15% of the value of any work activity/element being invoiced that was not authorized by the Contracting Officer to be performed by someone other than the prime Contractor's own workforce.

(b) Each report shall include and specifically identify at least one safety topic germane to the jobsite that day.

(End of clause)

852.236-80 Subcontracts and Work Coordination.

As prescribed in 836.574, insert the following clause:

SUBCONTRACTS AND WORK COORDINATION (APR 2019)

among subcontractors, or to limit work performed by any trade.

(b) The Contractor shall be responsible to the Government for acts and omissions of his/her own employees, and of the subcontractors and their employees. The Contractor shall also be responsible for coordination of the work of the trades, subcontractors, and material suppliers.

(c) The Government or its representatives will not undertake to settle any differences between the Contractor and subcontractors or between subcontractors.

(d) The Government reserves the right to refuse to permit employment on the work, or require dismissal from the work, of any subcontractor or subcontractor employee who, by reason of previous unsatisfactory work on Department of Veterans Affairs projects or for any other reason, is considered by the Contracting Officer to be incompetent, careless, or otherwise objectionable.

(End of clause)

Alternate 1 (APR 2019). For new construction work with complex mechanical-electrical work, the following paragraph relating to work coordination may be substituted for paragraph (b) of the basic clause:

(b) The Contractor shall be responsible to the Government for acts and omissions of his/her own employees, and subcontractors and their employees. The Contractor shall also be responsible for coordination of the work of the trades, subcontractors, and material suppliers. The Contractor shall, in advance of the work, prepare coordination drawings showing the location of openings through slabs, the pipe sleeves and hanger inserts, as well as the location and elevation of utility lines, including, but not limited to, conveyor systems, pneumatic tubes, ducts, and conduits and pipes two inches and larger in diameter. These drawings, including plans, elevations, and sections as appropriate, shall clearly show the manner in which the utilities fit into the available space and relate to each other and to existing building elements. Drawings shall be of appropriate scale to satisfy the previously stated purposes, but not smaller than 3/8-inch scale. Drawings may be composite (with distinctive colors for the various trades) or may be separate but fully coordinated drawings (such as sepias or photographic paper reproducibles) of the same scale. Separate drawings shall depict identical building areas or sections and shall be capable of being overlaid in any combination. The submitted drawings for a given area of the project shall show the work of all trades that will be involved in that particular area. Six complete composite drawings or six complete sets of separate reproducible drawings shall be received by the Government not less than 20 days prior to the scheduled start of the work in the area illustrated by the drawings, for the purpose of showing the Contractor's planned methods of installation. The objectives of such drawings are to promote carefully planned work sequence and proper trade coordination, in order to assure the expeditious solutions of problems and the installation of lines and equipment as contemplated by the contract documents while

avoiding or minimizing additional costs to the Contractor and to the Government. In the event the Contractor, in coordinating the various installations and in planning the method of installation, finds a conflict in location or elevation of any of the utilities with themselves, with structural items or with other construction items, he/she shall bring this conflict to the attention of the Contracting Officer immediately. In doing so, the Contractor shall explain the proposed method of solving the problem or shall request instructions as to how to proceed if adjustments beyond those of usual trades' coordination are necessary. Utilities installation work will not proceed in any area prior to the submission and completion of the Government review of the coordinated drawings for that area, nor in any area in which conflicts are disclosed by the coordination drawings, until the conflicts have been corrected to the satisfaction of the Contracting Officer. It is the responsibility of the Contractor to submit the required drawings in a timely manner consistent with the requirements to complete the work covered by this contract within the prescribed contract time.

852.236-88 Contract changes—supplement.

As prescribed in 836.578, insert the following clause:

CONTRACT CHANGES—SUPPLEMENT (JUL 2002)

The clauses entitled "Changes" in [FAR 52.243-4](#) and "Differing Site Conditions" in [FAR 52.236-2](#) are supplemented as follows:

(a) Paragraphs (a)(1) through (a)(4) apply to proposed contract changes costing over \$500,000.

(1) When requested by the contracting officer, the contractor shall submit proposals for changes in work to the resident engineer. Proposals, to be submitted as expeditiously as possible but within 30 calendar days after receipt of request, shall be in legible form, original and two copies, with an itemized breakdown that will include material, quantities, unit prices, labor costs (separated into trades), construction equipment, etc. (Labor costs are to be identified with specific material placed or operation performed.) The contractor must obtain and furnish with a proposal an

itemized breakdown as described above, signed by each subcontractor participating in the change regardless of tier. When certified cost or pricing data are required under [FAR Subpart 15.403](#), the cost or pricing data shall be submitted in accordance with [FAR 15.403-5](#).

(2) When the necessity to proceed with a change does not allow sufficient time to negotiate a modification or because of failure to reach an agreement, the contracting officer may issue a change order instructing the contractor to proceed on the basis of a tentative price based on the best estimate available at the time, with the firm price to be determined later. Furthermore, when the change order is issued, the contractor shall submit a proposal, which includes the information required by paragraph (a)(1), for cost of changes in work within 30 calendar days.

(3) The contracting officer will consider issuing a settlement by determination to the contract if the contractor's proposal required by paragraphs (a)(1) or (a)(2) of this clause is not received within 30 calendar days or if agreement has not been reached.

(4) Bond premium adjustment, consequent upon changes ordered, will be made as elsewhere specified at the time of final settlement under the contract and will not be included in the individual change.

(b) Paragraphs (b)(1) through (b)(11) apply to proposed contract changes costing \$500,000 or less:

(1) When requested by the contracting officer, the contractor shall submit proposals for changes in work to the resident engineer. Proposals, to be submitted as expeditiously as possible but within 30 calendar days after receipt of request, shall be in legible form, original and two copies, with an itemized breakdown that will include material, quantities, unit prices, labor costs (separated into trades), construction equipment, etc. (Labor costs are to be identified with specific material placed or operation performed.) The contractor must obtain and furnish with a proposal an itemized breakdown as described above, signed by each subcontractor participating in the change regardless of tier. When certified cost or pricing data or information other than cost or pricing data are required under [FAR 15.403](#), the data shall be submitted in accordance with [FAR 15.403-5](#). No itemized breakdown will be required for proposals amounting to less than \$1,000.

(2) When the necessity to proceed with a change does not allow sufficient time to negotiate a modification or because of failure to reach an agreement, the contracting officer may issue a change order instructing the contractor to proceed on the basis of a tentative price based on the best estimate available at the time, with the firm price to be determined later. Furthermore, when the change order is issued, the contractor shall submit within 30 calendar days, a proposal that includes the information required by paragraph (b)(1) for the cost of the changes in work.

(3) The contracting officer will consider issuing a settlement by determination to the contract if the contractor's proposal required by paragraphs (b)(1) or (b)(2) of this clause is not received within 30 calendar days, or if agreement has not been reached.

(4) Allowances not to exceed 10 percent each for overhead and profit for the party performing the work will be based on the value of labor, material, and use of construction equipment required to accomplish the change. As the value of the change increases, a declining scale will be used in negotiating the percentage of overhead and profit. Allowable percentages on changes will not exceed the following: 10 percent overhead and 10 percent profit on the first \$20,000; 7-1/2 percent overhead and 7-1/2 percent profit on the next \$30,000; 5 percent overhead and 5 percent profit on balance over \$50,000. Profit shall be computed by multiplying the profit percentage by the sum of the direct costs and computed overhead costs.

(5) The prime contractor's or upper-tier subcontractor's fee on work performed by lower-tier subcontractors will be based on the net increased cost to the prime contractor or upper-tier subcontractor, as applicable. Allowable fee on changes will not exceed the following: 10 percent fee on the first \$20,000; 7-1/2 percent fee on the next \$30,000; and 5 percent fee on balance over \$50,000.

(6) Not more than four percentages, none of which exceed the percentages shown above, will be allowed regardless of the number of tiers of subcontractors.

(7) Where the contractor's or subcontractor's portion of a change involves credit items, such items must be deducted prior to adding overhead and profit for the party performing the work. The contractor's fee is limited to the net increase to contractor of subcontractors' portions cost computed in accordance herewith.

(8) Where a change involves credit items only, a proper measure of the amount of downward adjustment in the contract price is the reasonable cost to the contractor if he/she had performed the deleted work. A reasonable allowance for overhead and profit are properly includable as part of the downward adjustment for a deductive change. The amount of such allowance is subject to negotiation.

(9) Cost of Federal Old Age Benefit (Social Security) tax and of Worker's Compensation and Public Liability insurance appertaining to changes are allowable. While no percentage will be allowed thereon for overhead or profit, prime contractor's fee will be allowed on such items in subcontractors' proposals.

(10) Overhead and contractor's fee percentages shall be considered to include insurance other than mentioned herein, field and office supervisors and assistants, security police, use of small tools, incidental job burdens, and general home office expenses and no separate allowance will be made therefore. Assistants to office supervisors include all clerical, stenographic and general office help.

Incidental job burdens include, but are not necessarily limited to, office equipment and supplies, temporary toilets, telephone and conformance to OSHA requirements. Items such as, but not necessarily limited to, review and coordination, estimating and expediting relative to contract changes are associated with field and office supervision and are considered to be included in the contractor's overhead and/or fee percentage.

(11) Bond premium adjustment, consequent upon changes ordered, will be made as elsewhere specified at the time of final settlement under the contract and will not be included in the individual change.

852.236-90 Restriction on Submission and Use of Equal Products.

852.236-92 Notice to Bidders—Additive or Deductive Bid Line Items.

As prescribed in 836.580, insert the following provision:

**NOTICE TO BIDDERS—ADDITIVE OR DEDUCTIVE BID LINE ITEMS
(APR 2019)**

(a) Additive or deductive line items in the bid schedule shall be evaluated to determine the low offeror and the items to be awarded. The evaluation shall be made

as follows—

(1) Prior to the opening of bids, the Government will determine the amount of funds available for the project.

(2) The low bid shall be the Bidder that—

(i) Is otherwise eligible for award; and

(ii) Offers the lowest aggregate amount for the first or base line item, plus or minus (in the order stated in the list of priorities in the bid schedule) those additive or deductive line items that provide the most features within the funds determined available.

(3) All bids shall be evaluated on the basis of the same additive or deductive line items.

(i) If adding another item from the bid schedule list of priorities would make the award exceed the available funds for all offerors, the Contracting Officer will skip that item and go to the next item from the bid schedule of priorities; and

(ii) Add that next item if an award may be made that includes that line item and is within the available funds.

(b) The Contracting Officer will use the list of priorities in the bid schedule only to determine the low offeror. After determining the low offeror, an award may be made on any combination of items if—

(1) It is in the best interest of the Government;

(2) Funds are available at the time of award; and

(3) The low offeror's price for the combination to be awarded is less than the price offered by any other responsive, responsible offeror.

(c) Example: "The amount available is \$100,000. Offeror A's base bid and four additives (in the order stated in the list of priorities in the bid Schedule) are \$85,000, \$10,000, \$8,000, \$6,000, and \$4,000. Offeror B's base bid and four additives are \$80,000, \$16,000, \$9,000, \$7,000, and \$4,000. Offeror A is the low offeror. The aggregate amount of offeror A's bid for purposes of award would be \$99,000, which includes a base bid plus the first and fourth additives. The second and third additives were skipped because each of them would cause the aggregate bid to exceed \$100,000."
