

OFFICE OF THE DIRECTOR OF NATIONAL INTELLIGENCE
NATIONAL COUNTERINTELLIGENCE AND SECURITY CENTER

Strategic Supply Chain Security Guidance

APPENDIX C

Review of Product Service Codes

Current as of 29 OCTOBER 2020

Section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 prohibits the federal government, government contractors, and grant and loan recipients from procuring or *using* certain “covered telecommunication equipment or services” that are produced by Huawei, ZTE, Hytera, Hikvision, and Dahua and their subsidiaries as a “substantial or essential component of any system, or as critical technology as part of any system.” (See Pub. L. 115-232).

However, Section 889 (d)(1) allows agencies to waive this prohibition to a requesting entity until 30 September 2022 so that the entity may phase out the use of the prohibited items outlined above. Prior to granting such a waiver, agency heads must receive from a requesting entity: 1) a compelling justification for the additional time; 2) a full and complete laydown of the presences of covered equipment and services in the entity’s supply chain; and 3) a phase-out plan to eliminate such covered equipment or services from the entity’s systems. Agency heads will use this information to conduct a risk-based analysis to determine whether or not to grant a Section 889 (d)(1) waiver.

To assist agencies in the waiver review process, NCSC reviewed the most recent version of the Federal Government’s Product Service Code (PSC) list to identify procurements that may present a material increase in risk to national security if the offeror providing the product or service was using prohibited equipment or services under Section 889. This identification was based upon the Intelligence Community’s strategic understanding of foreign adversaries’ capabilities and threats to our nation’s key supply chains at multiple points—from concept to design, manufacture, integration, deployment, and maintenance. Agencies should review this sub-set of PSCs when conducting supply chain risk analysis to determine whether or not to grant or deny a waiver to an entity that may use prohibited goods and services.

When using this PSC code list, please note that the review of the PSC code list was limited in scope; and is only a guidepost for agencies as part of their Section 889 (d)(1) waiver review process. As a measure of additional caution, agencies are recommended to review the list of Supply Chain Best Practices in Appendix D. Again, this information is provided to inform, not replace, an agency’s supply chain risk analysis when considering granting a waiver.
