

Non-VA Medical Care Program Fact Sheet for Interested Providers

Patient-Centered Community Care and Veterans Access, Choice, & Accountability Act

The Veteran’s Choice Program, or Choice Program, is a new, temporary program that provides Veterans the ability to receive medical care in the community if VA cannot schedule an appointment within 30 days of the Veteran’s preferred date, or the date determined medically necessary by their provider, or if the Veteran resides more than 40 miles from their closest VA medical facility. It was authorized under the *Veterans Access, Choice, and Accountability Act of 2014* and provides \$10B for non-VA medical care to eligible Veterans. The temporary program will end when the allocated funds of \$10B are used or no later than August 7, 2017. The Choice Program does not impact existing VA health care or any other Veteran benefits.

VA has expanded its Patient-Centered Community Care (PC3) contracts with Health Net Federal and TriWest Healthcare Alliance to include implementing the Choice Program. PC3 is a VA nationwide program to provide eligible Veterans access to certain medical care when the local VA medical facility cannot readily provide the care due to lack of available specialist, long wait times, geographic inaccessibility, or other factors. PC3 has been the VA method of purchasing care in the community. The Choice Program supplements PC3 and allows coverage for more services for eligible Veterans and provides Veterans more flexibility in their choice to receive care in the community or through VA.
