Military Culture Training for Community Providers

It's important that all who care for Veterans have a basic understanding of military culture. With the Veterans Choice Program (VCP), the signature initiative of the Veterans Access, Choice and Accountability Act of 2014, eligible Veterans have increased access to health care from community-based medical care providers.

Many community providers are not trained or experienced in treating this unique Veteran patient community, according to a [2014 RAND report](#). In early 2015, the American Medical Association issued guidelines for assessing a patient's military experience and duty assignments.

In the interest of the highest quality, most compassionate health care for our Nation's Veterans, the Department of Veterans Affairs (VA) is providing a number of accredited training resources at no cost to *all* Veteran care providers. [Module 4: Treatment, Resources, and Tools](#)

Note: The four modules listed are delivered via [VHA TRAIN](#), a new service to share valuable Veteran-focused continuing medical education at no cost to community health care and public health providers. Dozens of additional Veteran-care training courses will be added to VHA TRAIN throughout 2015.
