VA offering walk-in COVID-19 vaccinations nationwide

WASHINGTON — All Department of Veterans Affairs facilities and clinics that administer COVID-19 vaccines are accepting walk-ins for eligible Veterans, spouses and caregivers.

This walk-in service ensures all Veterans enrolled in VA health care and those authorized under the [SAVE LIVES Act](#) have an opportunity to receive a COVID-19 vaccination from VA at a time convenient for them.

The effort is in support of the president's goal of administering at least one vaccine shot to 70% of the U.S. adult population by July 4. The urgency to vaccinate as many eligible individuals as quickly as possible remains a top priority for VA.

"VA encourages those who wish to get their COVID-19 vaccine without an appointment to check the walk-in hours and requirements at their [local facility](#)," said Acting VA Under Secretary for Health Richard Stone, M.D. "Individuals taking advantage of walk-in vaccinations may need to wait for the vaccine to be prepared and will be screened when entering the facility."

To date, VA has vaccinated [more than 2.7 million individuals](#), including over 60,000 individuals under the SAVE LIVES Act. For more information about COVID-19 vaccinations at VA, [click here](#).

VA vaccination clinics are not open 24 hours. Face masks are mandatory for all and physical distancing measures will be in place.
