EQUIPMENT

Athletes are responsible for bringing their own two-wheel bicycle and helmet for competition that is custom-fit for them. Multi-gear (free-wheel) bikes with front and rear brakes are required. NVGAG will not provide equipment for this event. There may be no protective shield, faring or other device on any part of the bicycle (including, but not limited to, the frame, wheels, handlebars, chain wheel or accessories) that has the effect of reducing air resistance.

All bicycles must be certified by the Lead official prior to the competition. Helmets are mandatory and must conform to USA Cycling regulations. Athletes will be required to furnish and wear their own athletic shoes for this competition. Recumbent bikes are welcomed.

Bike Suggestions and examples:

- Personal bikes are required and the preference of bike depends on the person’s interest.
- If the athlete is going to be road racing and riding at home, while balance and stability aren't issues, a road bike is what should be acquired.
- If they are going to use the bike more recreationally and exercise, more for riding bike trails with family, etc. then I'd go with a hybrid cross trainer. Looks more like a mountain bike but lighter and cheaper.
- Recumbent bikes (three wheel bikes), performance wise they are the same and reduce risk of crashes and hip fractures. The catrike and sun products are popular brands.
COMPETITION

The 10K cycling competition is limited to ambulatory athletes only and will be based on best time. The road race will be a mass start at 10-minute intervals by age division, and gender with combinations when needed. Each athlete will be given the opportunity to become familiar with the course. Warm-up prior to the cycling competitions will be used to determine the riding ability and safety of the athlete. If the athlete is deemed unsafe he/she will not be allowed to compete.

Riders must stay to the right except when overtaking another rider. Failure to do so will result in disqualification. No rider shall pace behind another rider closer than 25 meters (80 feet) ahead, or 2 meters (7 feet) to the side. A rider who is observed taking pace shall receive a time penalty. No restarts are permitted.

NINE BALL

EQUIPMENT

The NVGAG host will provide billiards tables and balls (nine numbered and one cue ball), diamond-shaped ball racks, cues, cue chalk, coin or other device to determine the break and stop watches. Athletes may use their own pool cues after inspection and approval by the event’s Lead Official.

COMPETITION

The competition will be set up in a single elimination tournament format. All matches will be best two out of three games. Third Place game will match the two losers of the two semi-final games against each other. All games will be subject to a 10-min time limit.

Nine Ball is a rotation game, meaning the balls are shot in numerical order. The shooter must strike the lowest numbered ball on the table first. The game is over when the 9-ball is legally pocketed. A player retains his/her turn at the table as long as he/she strikes the lowest numbered ball first and legally pockets a ball. He/she need not pocket the lowest numbered ball to continue shooting. For example, he/she may shoot the 1-ball into the 4-ball, thus pocketing the 4-ball. He/she will then continue shooting but must, once again, strike the 1-ball first. If the shooter hits the 1-ball into the 9-ball and the 9-ball is pocketed, the game is over and that shooter wins. Neither shots nor pockets need to be called.

Nine balls are used and are racked in a diamond shape. All fouls carry the ball in hand penalty anywhere on the table.

After the 10-minute time limit and a winner has not been determined, a "shoot-out" will determine the winner. The "shoot-out" rules are listed in the event instruction sheet.

ARCHERY

Archery is the sport and skill of shooting bows and arrows at a specified target. Participants will learn the techniques of how to hold the bows correctly and shoot the arrows.

The NVGAG will provide the bows and target arrows needed for the archery exhibition event.

LEARNING THE SPORT

Arrows will normally be shot in six arrow ends, but may be shot in three arrow ends when field and equipment conditions require more than four archers to be grouped on a target butt.

Each end will consist of one set of six arrows with five minutes allowed for each end to be shot. When three arrow ends are necessary, each end will consist of one set of three arrows with 2-1/2 minutes allowed for each end to be shot. Shooters will rotate with target mates after each end.

Dividing lines are part of the higher scoring. The arrow shaft must only touch the color or dividing line between scoring zones to score the higher value.

Hits will not be marked on the target face. Witnessed bounce out and pass through arrows will be shot over at the end of the distance as make-up arrows. If the bounce out destroys an arrow in the target, then it is a “Robin Hood” and will score the value of the arrow it destroyed.

Archers will not be required to wear white or blue attire; however, they will be expected to wear clothing appropriate for a national event.

Athletes should be able to keep their arrows on target at 10meters.

Floorball is a type of hockey that has its roots in similar activities such as floor and field hockey. The game only requires the use of sticks and a ball which makes it a perfect activity for most players, regardless of their age, gender and physical ability. Unlike other stick sports, floorball sticks are extremely lightweight (approx. 8 oz), which makes them safe and easy to use by nearly all players.

LEARNING THE SPORT

Due to the very basic nature of the game, floorball is adaptable to virtually any environment. The equipment, number of players, size of the court, type of surface and the implemented rules can all be modified in order to suit the needs of the players. Therefore, floorball is an excellent activity for individuals with either a physical disability, cognitive disability or both. In fact, floorball is widely played by people with a vast range of disabilities.
