1 Introduction

The release of Veterans Health Information System and Technology Architecture (VistA) Registration, Eligibility & Enrollment (REE) Registration (DG) patch DG*5.3*1006 supports the enhancements for the Enterprise Health Benefits Determination (EHBD) program that focuses on updates for the Enrollment System Modernization (ESM) Phase 2 project, which supports Enrollment System Community Care (ESCC) and Enrollment System (ES) Sustainment.

2 Purpose

The Release Notes cover the changes to VistA REE for this release. Patch DG*5.3*1006 is also being released in support of the ES 5.10 release. Refer to Informational Patch EAS*1*186 (Enrollment Application System) for additional details regarding the ES release.

3 Audience

This document targets users and administrators of VistA REE and applies to the changes made between this release and any previous release for this software.

4 This Release

This software is being released as a patch (PackMan) message. The PackMan message includes the DG*5.3*1006 patch, which also supports the ES 5.10 release.

The following sections provide a summary of the enhancements and modifications to the existing software for VistA REE with the release of patch DG*5.3*1006.

4.1 New Features and Functions Added

There are no new features or functions added to VistA REE for DG*5.3*1006.

4.2 Enhancements and Modifications

VistA REE patch DG*5.3*1006 renames Veteran Medical Benefit Plans (VMBPs) as VHA Profiles (VHAPs) to support the Electronic Health Record (EHR) in Cerner's Millennium application. VistA REE ELIGIBILITY VERIFICATION DATA SCREEN <11> and list templates associated with VHAP Screens <11.1>, <11.3>, <11.3.1>, and <11.4> are updated to refer to the plans as "VHA Profiles".

VistA REE Patch DG*5.3*1006 modifies the NAME (#.01) field of the HEALTH BENEFIT PLAN file (#25.11) of 24 VHA Profiles, eliminating non-alphanumeric characters, to allow the profiles to be successfully sent to the Cerner application. The affected VHAPs are detailed in the "Listing of Updates" section of this patch description.

Patch DG*5.3*1006 loads the HEALTH BENEFIT PLAN file (#25.11) to store seven new core VHA Profile names, codes, and short and long descriptions. VistA will accept the new profiles from ES via Health Level Seven (HL7) ORF-Z11/ORU-Z11 messages.

Patch DG*5.3*1006 modifies the VHAP <11.3> and VHAP <11.3.1> screens to display the ASSIGNED DATE AND TIME field (#1) of the CURRENT HEALTH BENEFIT PLAN subfile (#25.01) of the PATIENT file (#2) with both the date and time.

Patch DG*5.3*1006 modifies the help text for the VHAP <11.1> screen so that the response to an entry of "?" displays "Profile name preceded by 'zz' indicates the profile is inactive."

The Patient Inquiry [DG PATIENT INQUIRY] option and Patient Inquiry application program interface (API) (DGRPD) is updated to display "VHA Profiles" instead of "Veteran Medical Benefit Plan". The API DGRPD is called from VistA REE menu options, subscribers to API DGRPD, and other VistA packages.

Integration Control Registration (ICR) 10037 (DGRPD) is updated to display "VHA Profiles" instead of "Veteran Medical Benefit Plan".

Patch DG*5.3*1006 corrects VHAP long descriptions for the following profiles: COMPREHENSIVE EXTENDED CARE SERVICES COPAY EXEMPT, VETERAN EXTENDED CARE SERVICES COPAY EXEMPT, and VETERAN EXTENDED CARE SERVICES COPAY REQ.

Table 1 shows the enhancements and modifications included in the DG*5.3*1006 release as tracked in Rational Team Concert (RTC) Requirements Management (RM).

Table 1: DG*5.3*1006 Enhancements and Modifications

RTC RM #	Summary
1158673	Assign VMBP to Individuals with no Veteran Eligibility Code (associated with Employee)
1159224	VMBP: Plan Name Changes
1162280	VMBP: Add new and update existing manual plans
1165388	ES 5.10 Maintain the Enrollment System - VistA View History Date/Time Display Change

4.3 Defects and Fixes

Table 2 lists the defects and fixes and corresponding Rational Team Concert (RTC) Change and Configuration Management (CM) numbers included in DG*5.3*1006.

Table 2: Defects and Fixes in DG*5.3*1006

RTC CM #	Summary
1221614	<p>Defect: VHAP long descriptions are displaying "=70%" instead of ">=70%" for the following profiles: COMPREHENSIVE EXTENDED CARE SERVICES COPAY EXEMPT, VETERAN EXTENDED CARE SERVICES COPAY EXEMPT, and VETERAN EXTENDED CARE SERVICES COPAY REQ.</p> <p>Fix: The three VHAP long descriptions are corrected to display ">=70%".</p>
