Appendix A - Acronyms	2

1. Introduction

The SHRPE product makes enhancements to the Computerized Patient Record System (CPRS) to implement functionality that would assist CPRS users with the treatment of two categories of VA patients:

- Patient eligible for Presumptive Psychosis (PP) benefits.
- Patients with inactive High Risk for Suicide (HRfS) and Missing Patient (MP) Patient Record File (PRF) records.

1.1. Purpose

These release notes cover the changes made by Admission, Discharge, Transfer (ADT)/Registration (DG) application DG*5.3*1029 patch to provide data to the CPRS application in order to:

- Identify patients eligible for PP benefits and display details about their status.
- Identify patients with inactive PRF records and list the history of the PRF changes.

1.2. Audience

This document targets users and administrators of the ADT/Registration (DG) application and applies to the changes made between this release and any previous release of this software.

2. This Release

The following sections provide a summary of the new features and functions added, enhancements and modifications to the existing software, and any known issues for DG*5.3*1029.

2.1. New Features and Functions Added

The following are the features and functions added by DG*5.3*1029:

- Added the new routine DGPPAPI to the ADT/Registration (DG) application to implement the API (Application Programmer Interfaces) that is used to determine the PP status of the patient.
- Added the new routine DGOHTBT2 to the ADT/Registration (DG) application to implement the logic that:
 - Compiles the label text for the button at the top of the CPRS screen and for the pop-window windows associated with it when the patient has PP status and/or inactive PRF.
 - Send mailman message to DGEN ELIGIBILITY ALERT group if the PP patient does not have all required settings.

2.2. Enhancements and Modifications to Existing

The following are the enhancements and modifications by DG*5.3*1029:

- Modified the existing routine DGOTHBTN in the ADT/Registration (DG) application to implement additional logic that manages the label text for the button at the top of the CPRS screen and for the pop-up windows associated with it, as it relates to the patients Other Than Honorable (OTH) status, PP status, and inactive PRF.

2.3. Known Issues

None at this time.

2.4. Product Documentation

The following documents apply to this release:

- Deployment, Installation, Back-out, and Rollback Guide (DIBRG)
- Patient Information Managements System (PIMS) Technical Manual

Appendix A - Acronyms

Acronym	Definition
ADT	Admission/Discharge/Transfer
API	Application Programmer Interfaces
CPRS	Computerized Patient Record System
DG/DGEN	Data Gathering/Developer Generated
DIBRG	Deployment, Installation, Back-Out, and Rollback Guide
HRfS	High Risk for Suicide
MP	Missing Patient
OIT	Office of Information and Technology
OTH	Other Than Honorable
PIMS	Patient Information Managements System
PP	Presumptive Psychosis
PRF	Patient Record File
SHRPE	Suicide High Risk Patient Enhancements
VA	Department of Veteran Affairs
