1. Introduction

1.1. Purpose

The purpose of these Release Notes is to identify enhancements related to ICD-10 to the Ambulatory Care Reporting (ACR) package contained in patch SD*5.3*593.

1.2. Background

On January 16, 2009, the Centers for Medicare & Medicaid Services (CMS) released a final rule for replacing the 30-year-old International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) code set with International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) with dates of service or dates of discharge for inpatients that occur on or after the ICD-10 activation date.

The classification system consists of more than 68,000 codes, compared to approximately 13,000 ICD-9-CM codes. There are nearly 87,000 ICD-10-PCS codes, while ICD-9-CM has nearly 3,800 procedure codes. Both systems also expand the number of characters allotted from five and four respectively to seven alpha-numeric characters. This value does not include the decimal point, which follows the third character for the ICD-10-CM code set. There is no decimal point in the ICD-10-PCS code set. These code sets have the potential to reveal more about quality of care, so that data can be used in a more meaningful way to better understand complications, better design clinically robust algorithms, and better track the outcomes of care. ICD-10-CM also incorporates greater specificity and clinical detail to provide information for clinical decision making and outcomes research.

ICD-9-CM and ICD-10-CM Comparison

<table>
<thead>
<tr>
<th>ICD-9-CM</th>
<th>ICD-10-CM</th>
</tr>
</thead>
<tbody>
<tr>
<td>13,000 codes (approximately)</td>
<td>68,000 codes (approximately)</td>
</tr>
<tr>
<td>3-5 characters</td>
<td>3-7 characters (not including the decimal)</td>
</tr>
<tr>
<td>Character 1 is numeric or alpha (E or V)</td>
<td>Character 1 is alpha; character 2 is numeric;</td>
</tr>
<tr>
<td>Characters 2 - 5 are numeric</td>
<td>Characters 3–7 are alpha or numeric (alpha characters are not case sensitive)</td>

</tr>
<tr>
<td>All characters are numeric</td>
<td>Each character can be any of 34 possible values. The ten digits 0-9 and the 24 letters A-H, J-N and P-Z may be used in each character.</td>
</tr>
<tr>
<td>Decimal after first 2 characters</td>
<td>Does not contain decimals</td>
</tr>
</tbody>
</table>
1.3. Scope of Changes

NOTE: Existing ICD-9 functionality has not changed.

Patch SD*5.3*593 makes the following changes to the ACR application:

- Added modifications for the following reports:
  - ACRP Ad Hoc Report [SCRPW AD HOC REPORT], primarily within the Report Perspective and Report Limitations.
  - Most Frequent 50 IP ICD Diagnosis Codes (IP7) [SCRPW DVM IP DX FREQUENCY] and Most Frequent 50 ICD Diagnosis Codes (OP7) [SCRPW DVM DX FREQUENCY]
  - Encounter Activity Report [SCRPW ENCOUNTERT ACTIVITY RPT] and Outpatient Diagnosis/Procedure Frequency Report [SCRPW DX/CPT FREQUENCY REPORT]
  - Outpatient Diagnosis/Procedure Code Search [SCRPW DX/PROCEDURE CODE SEARCH]
  - Encounter 'Action Required' Report [SCRPW ACTION REQUIRED REPORT]
  - Ambulatory Care Nightly Transmission to NPCDB [SCDX AMBCAR NIGHTLY XMIT]

- Updated field sizes of HL7 DG-1 segment for longer ICD-10 diagnosis description in the Ambulatory Care Nightly Transmission to NPCDB [SCDX AMBCAR NIGHTLY XMIT] option

- ICD-10-CM replaces ICD-9-CM as the diagnostic coding system for outpatient encounters with an encounter date on or after the ICD-10 activation date and inpatient treatment episodes with a discharge date on or after the ICD-10 activation date.

For a period of time, the VHA requires the use of dual code sets (ICD-9-CM, ICD-10-CM) to accommodate outpatient dates of service and inpatient discharge dates prior to and following the ICD-10 activation date as well as for reporting and research purposes.

1.4. Documentation

The ACR manuals are posted on the VistA Documentation Library (VDL) Ambulatory Care Reporting page. (Note that the PIMS Technical Manual and the User Manual - Ambulatory Care Reporting are posted on the VDL Scheduling page.)

The following ACR user manuals are updated with changes for SD*5.3*593:

- Appendix - IEMM Error Table
- Ambulatory Care Reporting Menu (same as User Manual - Ambulatory Care Reporting)
- PIMS Technical Manual

The following manuals are not updated with changes for SD*5.3*593:

- ACRP Interface Toolkit
- IEMM Installation Guide

The following manual does not exist for this package:

- Security Guide
1.5. Dependencies

The following must be installed before installing Patch SD*5.3*593:

- SD*5.3*171
- SD*5.3*409
- SD*5.3*442
- SD*5.3*466
- SD*5.3*474
- SD*5.3*556
- LEX*2*80
- ICD*18*57
- DG*5.3*850
- SD*5.3*576 (Please see note below)

Note: Patch SD*5.3*576 incorporates the ICD-10 changes in overlapping routine SCRPW24.
2. ACRP Ad Hoc Report Option

This section describes ICD-10 enhancements to the ACRP Ad Hoc Report executed with the following option: *ACRP Ad Hoc Report* [SCRPW AD HOC RPT MENU].

2.1. Report Perspective – Diagnosis Selection

If diagnoses are selected as the Report Perspective criteria, the system initially asks you to select either the ICD-9 or ICD-10 code set prior to diagnosis entry.

---

Note: The default selection is the current code set valid on the date the report is run.

---

Ad Hoc Report

<table>
<thead>
<tr>
<th>REPORT PERSPECTIVE</th>
</tr>
</thead>
<tbody>
<tr>
<td>GH GAF SCORE (HISTORICAL)</td>
</tr>
<tr>
<td>GC GAF SCORE (CURRENT)</td>
</tr>
</tbody>
</table>

Select DIAGNOSIS category: pd PRIMARY DIAGNOSIS

Select one of the following:

- L LIST
- N NULL (NO DATA VALUE)

Limit this factor by: LIST

Select one of the following:

- 9 ICD-9 (PRIOR TO OCT 1, 2015)
- 10 ICD-10 (OCT 1, 2015 AND AFTER)

Select coding system: 10//

The prompt to select code set does not display if the Report Perspective is re-edited and additional diagnoses are added to a list of pre-existing diagnoses. In such cases, the list of selectable diagnoses is automatically limited to the code set that matches the diagnoses already selected.
2.2. Report Limitations – Date Range Selection

A restriction has been implemented such that report date ranges entered within Report Limitations cannot span the ICD-10 implementation date. If such a date range is entered, the user will be presented with an error and required to select a different range.

--- REPORT LIMITATIONS ---

***Date Range Selection***

Starting date: 9/1/2015 (SEP 01, 2015)

Ending date: 11/1/2015 (NOV 01, 2015)

Starting and Ending dates must both be prior to OCT 1, 2015 (ICD-9) or both be on or after OCT 1, 2015 (ICD-10).

Starting date: SEP 1, 2015

2.3. Report Limitations – Diagnosis Selection

Once you select your Report Limitation date range, even if you add additional diagnoses for either List and Range, you are restricted to the corresponding code set for the originally selected Report Limitation date range.

--- REPORT LIMITATIONS ---

***ITEM LIST SELECTION***

V70.0XX0A Driver of bus injured in collision w ped/anmi nontraf, init
2.4. Report Limitations – Pre-Execution Date Diagnosis Check

The system performs a final check across both Report Perspective and Report Limitation data to validate the following:

- All entered diagnoses are consistent in code set.
- All selected diagnoses are of the correct code set for the selected date range.
- If discrepancies are detected, an error displays and execution of the report is stopped. You then need to correct the Report Perspective / Report Limitation selections in order to execute the report.
ICD-9 Code Selected for Report Perspective

-------- Selected Report Parameters--------

---------------------- REPORT FORMAT ----------------------

  Report output format: DETAILED
  Type of detail: ENCOUNTER/VISIT/UNIQUE LIST
  List activity detail by: ENCOUNTER
  Produce output as: FORMATTED TEXT

------------------- REPORT PERSPECTIVE -------------------

  Perspective category: DIAGNOSIS
  Perspective sub-category: PRIMARY DIAGNOSIS
  Detail list: V70.0 ROUTINE MEDICAL EXAM

------------------- REPORT LIMITATIONS -------------------

Enter RETURN to continue or '^' to exit:

ICD-10 Date Range and Code Set Selected for Report Limitations

-------- Selected Report Parameters--------

---------------------- REPORT LIMITATIONS ----------------------

  Starting date: OCT 29, 2015
  Ending date: NOV 28, 2015

  Addl. limitation category: DIAGNOSIS
  Addl. limitation sub-category: PRIMARY DIAGNOSIS
  Include range - from: V70.0XXA Driver of bus injured in
  Collision w ped/anml nontraf, init
  To: V72.0XXA Driver of bus injured in clsn w
  2/3-whl mv nontraf, init

------------------- REPORT PRINT ORDER -------------------

  Output order: ALPHABETIC

Enter RETURN to continue or '^' to exit:
System Detected Selected Date Range Inconsistent with Originally Selected Report Perspective – ICD-9 Diagnosis

------------- Selected Report Parameters -------------

Report Action
Select one of the following:

C CONTINUE
E EDIT PARAMETERS
R RE-DISPLAY PARAMETERS
P PRINT PARAMETERS
Q QUIT

Select report action: continue// <enter>

The Report Limitation dates must be before OCT 1, 2015 to match the (ICD-9-CM) diagnoses specified in the Report Perspective.

Unable to continue with queuing!
3. **Most Frequent 50 IP ICD Diagnosis Codes (IP7) / Most Frequent 50 ICD Diagnosis Codes (OP7)**

This section describes ICD-10 enhancements to the Most Frequent 50 IP ICD-9-CM Codes (IP7) report and Most Frequent 50 ICD-9-CM Codes (OP7) report, executed with the following options:

- Most Frequent 50 IP ICD Codes (IP7) [SCRPW DVM IP DX FREQUENCY]
- Most Frequent 50 ICD-9-CM Codes (OP7) [SCRPW DVM DX FREQUENCY]

**All Display Instances of ‘ICD-9-CM’ in Report Titles Display ‘ICD’**

Select Data Validation Menu Option: ?

IP0  Enc. By IP DSS ID/DSS ID by Freq. (IP0, IP1, IP2)
IP3  Means Test IP Visits & Uniques (IP3, IP4, IP5)
IP6  Most Frequent 50 IP CPT Codes (IP6)
IP7  Most Frequent 50 IP ICD Codes (IP7)
IP8  Most Frequent 20 IP Practitioner Types (IP8)
IP9  Visits and Unique IP SSNs by County (IP9)
OP0  Enc. By IP DSS ID/DSS ID by Freq. (OP0, OP1, OP2)
OP3  Means Test IP Visits & Uniques (OP3, OP4, OP5)
OP6  Most Frequent 50 IP CPT Codes (OP6)
OP7  Most Frequent 50 IP CPT Codes (OP7)
OP8  Most Frequent 20 IP Practitioner Types (OP8)
OP9  Visits and Unique IP SSNs by County (OP9)

Enter ?? for more options, ??? for brief descriptions, ?OPTION for help text.

Select Data Validation Menu Option:

**All Display Instances of “ICD-9-CM” in Report Now Display “ICD”**

![ICD-9-CM Table]

For fiscal Year activity through FEB 28, 2014
Date printed: FEB 28, 2014 10:16

Rank | ICD Diagnosis code | Provider Type | Prim. Dx. Unique | Total Unique | Prim. Dx. Encounter | Total Encounter
--- | --- | --- | --- | --- | --- | ---
1 | 275.5 HUNGRY ROVE SYNDROME | Physician/Osteopath | 1 | 1 | 8 | 8
2 | 301.5 DEPRESSION DISORD | Physician/Osteopath | 1 | 1 | 4 | 4
3 | 101.81 LEPTOSPIRAL Meningitis | Physician Assistant | 0 | 1 | 0 | 0

Enter RETURN to continue or ‘/’ to exit.

August 2014 ICD-10 Follow On Class 1 Software Remediation Release Notes SD*5.3*593
4. Encounter Activity Report

This section describes ICD-10 enhancements to the Encounter Activity Report, executed with the following option:

*Encounter Activity Report [SCRPW ENCOUNTER ACTIVITY RPT]*

4.1. Date Range Selection

Report date ranges entered within Report Limitations cannot span the ICD-10 activation date. If such a date range is entered, you receive an error and are required to select a different range.

<table>
<thead>
<tr>
<th>Encounter Activity Report</th>
</tr>
</thead>
<tbody>
<tr>
<td><em><strong>Date Range Selection</strong></em></td>
</tr>
</tbody>
</table>

Starting date: 9/1/2015 (SEP 01, 2015)
Ending date: 11/1/2015 (NOV 01, 2015)

Starting and Ending dates must both be prior to OCT 1, 2015 (ICD-9) or both be on or after OCT 1, 2015 (ICD-10).

Starting date: SEP 1, 2015
5. Outpatient Diagnosis/Procedure Frequency Report

This section describes ICD-10 enhancements to the Outpatient Diagnosis/Procedure Frequency Report, executed with the following option:

Outpatient Diagnosis/Procedure Frequency Report [SCRPW DX/CPT FREQUENCY REPORT]

5.1. Date Range Selection

Report date ranges entered within Report Limitations cannot span the ICD-10 activation date. If such a date range is entered, you receive an error and are required to select a different range.

<table>
<thead>
<tr>
<th>Outpatient Diagnosis/Procedure Frequency Report</th>
</tr>
</thead>
<tbody>
<tr>
<td><em><strong>Date Range Selection</strong></em></td>
</tr>
<tr>
<td>Starting date: 9/1/2015 (SEP 01, 2015)</td>
</tr>
<tr>
<td>Ending date: 11/1/2015 (NOV 01, 2015)</td>
</tr>
</tbody>
</table>

Starting and Ending dates must both be prior to OCT 1, 2015 (ICD-9) or both be on or after OCT 1, 2015 (ICD-10).

Starting date: SEP 1, 2015
6. **Outpatient Diagnosis/Procedure Code Search**

This section describes ICD-10 enhancements to the Outpatient Diagnosis/Procedure Code Search, executed with the following option:

Outpatient Diagnosis/Procedure Code Search [SCRPW DX/PROCEDURE CODE SEARCH]

### 6.1. Date Range Selection

Report date ranges entered within Report Limitations cannot span the ICD-10 activation date. If such a date range is entered, you receive an error and are required to select a different range.

Outpatient Diagnosis/Procedure Search

***Date Range Selection***

Starting date: 9/1/2015 (SEP 01, 2015)
Ending date: 11/1/2015 (NOV 01, 2015)

Starting and Ending dates must both be prior to OCT 1, 2015 (ICD-9) or both be on or after OCT 1, 2015 (ICD-10).

Starting date: SEP 1, 2015

### 6.2. Diagnosis Selection

A modification has been made such that when diagnoses are selected, for both List and Range, the user is restricted to entry of diagnoses of the code set that corresponds to the previously selected date range.

Outpatient Diagnosis/Procedure Search

***Date Range Selection***

Starting date: 10/1/2015 (OCT 01, 2015)
Ending date: 11/1/2015 (NOV 01, 2015)

**** Report Search Criteria Selection (Element 'A') ****

Select one of the following:

DL    DIAGNOSIS LIST
DR    DIAGNOSIS RANGE
PL    PROCEDURE LIST
PR    PROCEDURE RANGE

Specify criteria type for search element 'A': dl DIAGNOSIS LIST

Select ICD Diagnosis:
7. **Ambulatory Care Nightly Transmission to NPCDB**

This section describes ICD-10 enhancements to the Ambulatory Care Nightly Transmission to the National Patient Care Database (NPCDB) HL7 interface and its counterpart Encounter ‘Action Required’ Report. They are executed with the following options:

Ambulatory Care Nightly Transmission to NPCDB [SCDX AMBCAR NIGHTLY XMIT]

Encounter ‘Action Required’ Report [SCRPW ACTION REQUIRED REPORT]

### 7.1. HL7 Diagnosis Segment - DG1-2 & DG1-4

When diagnoses are transmitted to the NPCDB, the DG1-2 segment-field of outgoing HL7 messages supports the identifier “I10” for ICD-10 diagnoses as well as the pre-existing “I9” identifier for ICD-9 diagnoses.

Additionally, the diagnosis description transmitted in DG1-4 contains the short description of ICD diagnoses and the 60 characters for ICD-10 codes.

*Note: The short description of ICD-10 codes has been defined to be 60 characters or less.*

### 7.2. Error Code Display Text Update – ICD

In the Encounter ‘Action Required’ Report, all display instances of “ICD-9-CM” are replaced with “ICD” in the Transmitted Outpatient Encounter Error Code (File #409.76) records.
8. Technical Information

8.1. Integration Control Registration

A new Integration Control Registration (ICR) #5747 was introduced by DRG GROUPER. The API $$ICDDATA^ICDXCODE was replaced by $$ICDDX^ICDEX.

<table>

8.2. Data Dictionary Changes

Error codes 500 and 5000 were modified in the TRANSMITTED OUTPATIENT ENCOUNTER ERROR CODE File (#409.76) by replacing the text “ICD-9” with “ICD”.
