1 Purpose

The Blind Rehabilitation (BR) team has made significant updates to the BR application. This document will summarize the updates made for release 5.1.6 and provide brief instructional text for specific updates.

1.1 General Updates

The System Administrator role has undergone an update which allows them to update a user's **DUZ** code. The **Patient Search** functionality can now be utilized by entering the first initial of a patient's last name as well as the last four digits of their social security number. When a column sort for **Referrals Found** is used, and the **Edit** button is selected, users will now see that patients will match against the data in their respective row. Users will also see that patient records for **Additional Medical Treatment Information** are displayed correctly. **Patient mailing labels** will now print correctly on Avery 3x10 label sheets. The **VIST Annual Review** date on an exported VIST Roster list will be displayed in the correct format. In addition to the forementioned updates, the following new referral types have been added to the application.

- BROS Poly Vision Therapy – 1st Experience
- BROS Poly Vision Therapy – Additional Training
- Vision Therapy – 1st Experience
- Vision Therapy – Additional Training

Changes have also been made for the JAWS screen reader. These improvements include updates towards conveying alert messages and page load completion and the addition of the **Alt+K** hotkey for the **OK** button.

1.1.1 Administration Page

System Administrators can now update a user's **DUZ** code as depicted in Figure 1.

The screenshot shows the 'Blind Rehabilitation Staff' administration page. The page has a navigation menu on the left with options like 'BR Staff', 'Role Menu Access', 'BR Institutions', 'Logging Level', 'Logged in Users', 'PSD Updater', and various list views. The main content area contains a form for editing staff information. The 'DUZ' field is highlighted with a red border. The form includes fields for 'Last Name', 'First Name', 'Middle Name', 'DUZ', 'VA Title', 'Title', 'Status' (set to ACTIVE), 'FTE Percentage' (set to 100%), 'Activation Date', 'Address 1', 'Address 2', 'City', 'State', 'Zip Code', 'Primary Phone', and 'Deactivation Date'. At the bottom of the form are buttons for 'Save', 'Roles', 'Institutions', and 'Done'.

Figure 1: BR Staff DUZ Code Field

1.1.2 BR Patient Enter/Edit

The **Patient Search** field now has a bolder outline, allowing users to locate the field with more ease.

Blind Patient

Local VistA Site Search

* - Field(s) identified with the asterisk are mandatory.
Enter available information and press search

Search Criteria Format - one of:

- Last Name, or
- Last Name plus comma plus First Name, or
- First Letter of Last Name and Last 4 digits of SSN (L####)

* Patient Search:

Search
Clear
Done

Figure 2: Local VistA Site Search

After searching and selecting a patient, the selected patient appears in the **Patient Already Selected** dialog. To view the selected patient, click **OK**. A JAWS user can now utilize the **Alt+K** hotkey to select the **OK** button.

Blind Patient

Patient Already Selected

Press OK to use the selected patient; otherwise, enter search criteria to search for a new patient

Name: GRADTLYX, ZXTHT P

Date of Birth: [REDACTED] 1943

Social Security Number: 101 [REDACTED]

OK

Figure 3: Patient Already Selected Dialog

When the user clicks the **Save and Continue** button and required fields are left blank, JAWS will read an alert message for every required field left blank as depicted in Figure 13.

Name: GHUAL YDJXALTA	Date of Birth (Age): 1934 (88)	Gender: Male
Social Security Number: [REDACTED]	Patient Type: Unknown	Patient Status: ACTIVE

1.1.3 Create Referrals

New referral types are depicted in Figure 5.

Figure 5: Enter New Referral for this Patient

1.1.4 Modify Referral (Search)

The **Modify Referral (Search)** reflects the new referral types added as depicted in Figure 6. The referral types will be alphabetized in a future patch.

Figure 6: Referral Types

After the list of referrals found is displayed in a table, it is presented in descending order by **Created Date**. When clicking on the column headers to sort, the **Edit** button now correctly reflects the data for the row you wish to edit as depicted in Figure 7.

Institution: BALTIMORE MD VAMC (512)								
Referrals Found - Count: 23								
Created Date	Patient Name	Priority Level	Referral Type	Status	Days since referral received	Referred To Institution (Station ID)		
12/15/2022	BHTHBH, TLRA	No Priority Level	VA Audible Devices	Pending	15	BALTIMORE MD VAMC (512)	Edit	
12/15/2022	BHTHBH, TLRA	No Priority Level	Non-VA Blindness Agency - 1st Experience	Pending	15		Edit

Figure 10: Save and Continue Button for Registering New Patient

Once a new patient has been registered, the **Edit Blind Patient** section will display boxes numbered 1-10 as depicted in Figure 11. JAWS will read these boxes as **Tabs**.

Edit Blind Patient

Current Patient

Name: BRSALYI, TXY LYSXYDX	Date of Birth (Age): 1978 (44)	Gender: Male
Social Security Number: [REDACTED]	Patient Type: VIST	Patient Status: ACTIVE
Roster Institutions: BALTIMORE MD VAMC (512)		

1 Basic Information	2 Ocular Health	3 Patient History	4 Financial / Benefits	5 Domestic Information
6 Living Arrangements	7 Other Health	8 Medical Treatment	9 Rehabilitation Experience	10 Assessment Questions

Figure 11: Edit Blind Patient Tabs

Users that have JAWS 2020 or later versions can use the **Tab** key to navigate through the 10 **Edit Blind Patient** tabs. The **Space** bar can be used to select an **Edit Blind Patient** tab.

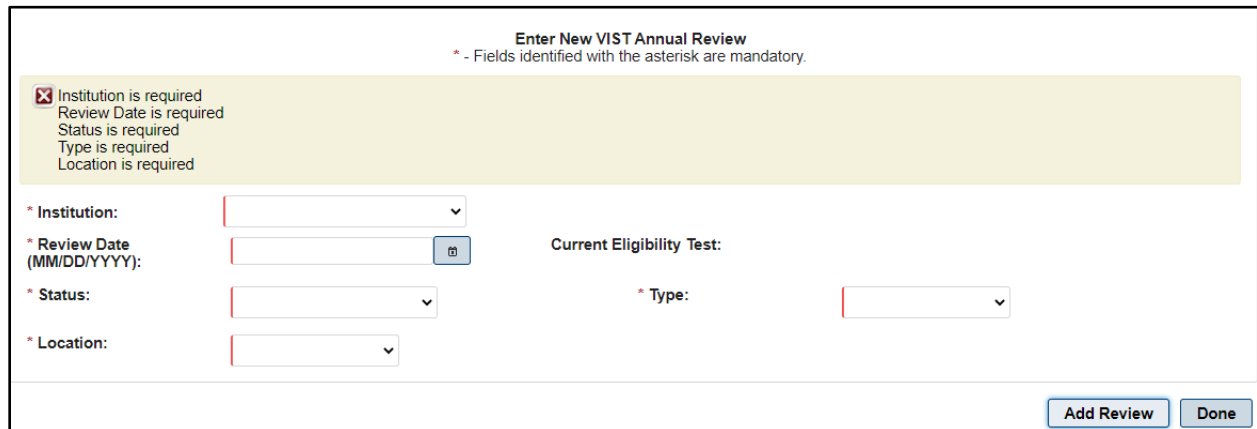

Users that have JAWS 2021 or later versions can utilize the appropriate keystrokes to bring up the JAWS links list. JAWS will read the **Edit Blind Patient** tabs from the links list.

The screenshot shows the VA Health Blind Rehabilitation System interface. The main window displays the 'Edit Blind Patient' form for a patient named TXYPHY, ADYKAY, Z. The form includes a 'Current Patient' section with fields for Name, Date of Birth (Age), Gender, Social Security Number, Patient Type, Patient Status, and Roster Institutions. Below this is a grid of 10 tabs: 1 Basic Information, 2 Ocular Health, 3 Patient History, 4 Financial / Benefits, 5 Domestic Information, 6 Living Arrangements, 7 Other Health, 8 Medical Treatment, 9 Rehabilitation Experience, and 10 Assessment Questions. The 'Rehabilitation Experience' tab (9) is currently selected. A 'Links List' dialog box is open on the left, showing a list of the 10 tabs. The 'Medical Treatment' tab (8) is highlighted in the list. The dialog box also has options for 'Display' (All Links, Visited Links Only, Unvisited Links) and 'Sort Links' (In Tab Order, Alphabetically). The 'Activate Link' button is highlighted. The background shows the VA Health logo and navigation links.

Figure 12: Edit Blind Patient Tabs Link List

1.1.8 VIST Annual Review

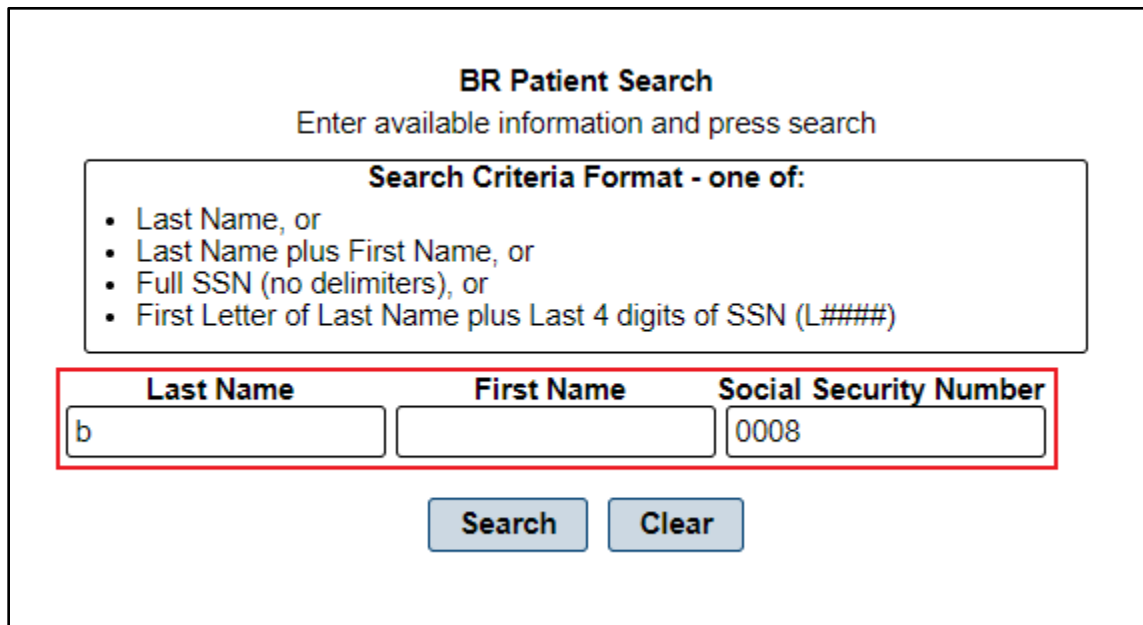

When required fields are left blank, JAWS will read an alert message for every required field left blank as depicted in Figure 13.

The screenshot shows a web form titled "Enter New VIST Annual Review" with a sub-header "* - Fields identified with the asterisk are mandatory." A yellow error banner at the top lists the following required fields: Institution, Review Date, Status, Type, and Location. Below the banner, the form contains several input fields, each with a red asterisk indicating it is mandatory. The fields are: "Institution:" (dropdown), "Review Date (MM/DD/YYYY):" (text with a calendar icon), "Status:" (dropdown), "Location:" (dropdown), "Current Eligibility Test:" (text), and "Type:" (dropdown). At the bottom right, there are two buttons: "Add Review" and "Done".

Figure 13: Error Messages for Blank Required Fields

A **Patient Search** can now be performed with the first initial of the patient's last name and the last four digits of their social security number as depicted in Figure 14.

The screenshot shows a web form titled "BR Patient Search" with the instruction "Enter available information and press search". Below this is a box titled "Search Criteria Format - one of:" containing a bulleted list of search options: "Last Name, or", "Last Name plus First Name, or", "Full SSN (no delimiters), or", and "First Letter of Last Name plus Last 4 digits of SSN (L#####)". Below the list are three input fields: "Last Name" (containing the letter 'b'), "First Name", and "Social Security Number" (containing '0008'). A red box highlights these three input fields. At the bottom, there are two buttons: "Search" and "Clear".

Figure 14: BR Patient Search

1.1.9 Benefits & Services Checklist

The alert message for a successful save for the **Benefits and Services Checklist** functionality is now announced by JAWS.

Figure 15: Enter Benefits and Services Checklist

1.1.10 Letters and Labels

1. To create a current list, go to **Print Patient Mailing Labels** and select your desired institution. Click **Submit**.

Figure 16: Patient Mailing Labels – Select Patient Criteria

2. Click the corresponding **Remove** button for the labels you do not want as depicted in Figure 17. Once complete, click **Continue**.

TESTERONE, OUTPATIENT	BALTIMORE MD VAMC (512)	01/01/1961		No Data-	Remove
TESTINPAT, TESTING	BALTIMORE MD VAMC (512)	01/10/1981			Remove
TESTOUTABC, TEN	BALTIMORE CBOC (512GD)	11/11/1979			Remove
THYAHN, TEHASXY ZLUSDY	BALTIMORE MD VAMC (512)	03/21/1976			Remove
THYFKHY, AHXYHA Z	BALTIMORE CBOC (512GD)	11/16/1971			Remove
TLKLSS, AXRDH E	BALTIMORE MD VAMC (512)	06/15/1901			Remove
TLKLSS, TXY	BALTIMORE MD VAMC (512)	07/22/1965			Remove

In total there are 44 patient(s).
