Introduction

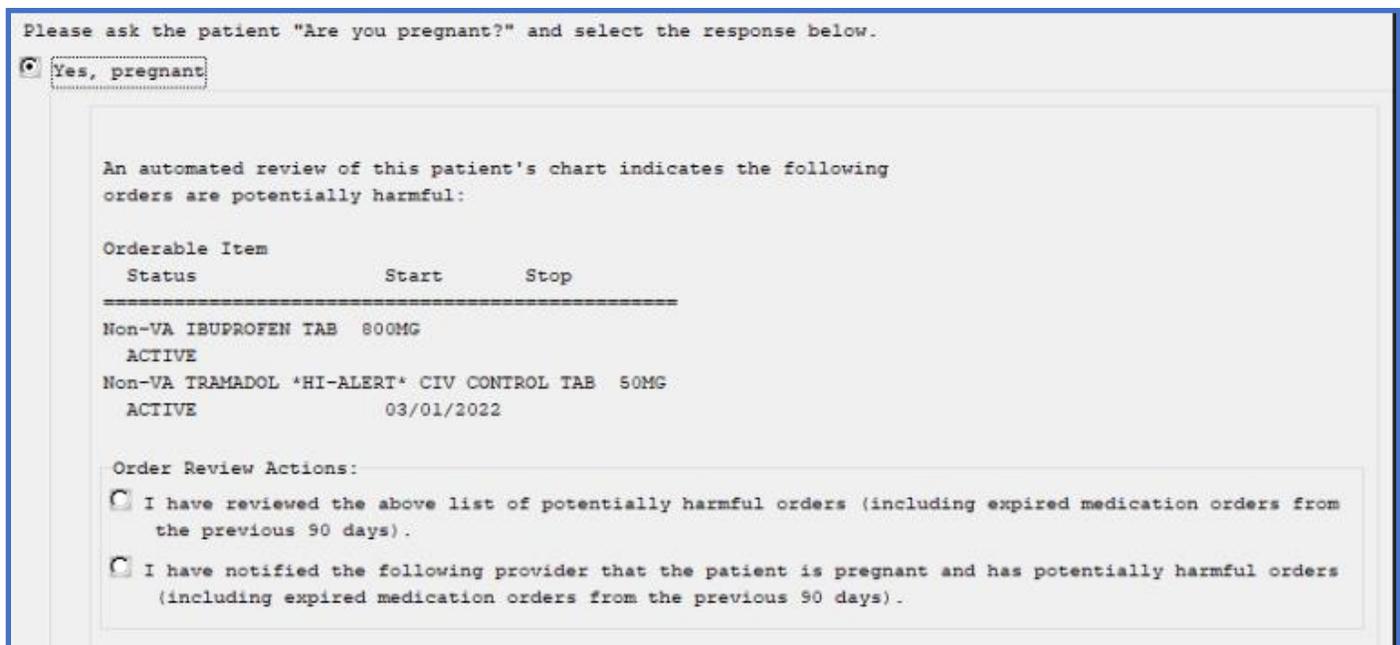

The Maternity Care Coordinator (MCC) reminder dialog was updated to embed the pregnancy/intentions/contraception dialog and remove duplicated information from the dialog. These change allow MCCs to complete their work in a single dialog as opposed to the current two, with increases in efficiencies. This version of the pregnancy dialog includes an expanded medication review for those not/unknown to be pregnant with expanded documentation options.

This dialog is sponsored by the Women Veterans Health Program.

The Pregnancy/Intentions/Contraception dialog edits are as follows:

1. Yes, PREGNANT - and veteran patient has potentially harmful medications on file, the options below will show; otherwise the option is suppressed.

Before:

Please ask the patient "Are you pregnant?" and select the response below.

Yes, pregnant

An automated review of this patient's chart indicates the following orders are potentially harmful:

Orderable Item	Status	Start	Stop
Non-VA IBUPROFEN TAB 800MG	ACTIVE		
Non-VA TRAMADOL *HI-ALERT* CIV CONTROL TAB 50MG	ACTIVE	03/01/2022	

Order Review Actions:

I have reviewed the above list of potentially harmful orders (including expired medication orders from the previous 90 days).

I have notified the following provider that the patient is pregnant and has potentially harmful orders (including expired medication orders from the previous 90 days).
