Introduction

The Discharge Summary was developed by the OMHSP in collaboration with Evidence Based Psychotherapy subject matter experts and is utilized by therapists providing all SP 2.0 interventions including DBT, Cognitive Behavioral Therapy for Suicide Prevention (CBT-SP) and Problem Solving Therapy for Suicide Prevention (PST-SP).

Based on user feedback, the following changes are being made:
- The template is being updated to include an updated title "Suicide Prevention Telehealth Program Discharge Summary/Treatment Transition" and a description of use.
- 4 health factors were added to existing options within the template.
- Existing fields in the Planned Discharge and Unplanned Discharge sections were made required.

UPDATE_2_0_298 contains 1 Reminder Exchange entry:
