Introduction

This update is for Kidney Cancer Clinical Pathways. Clinical pathways standardize evidence-based practices to ensure high quality, cost-effective care for patients at each point in their care plan. The Kidney Cancer Clinical Pathways template will be used to document treatment decisions related to kidney cancer. These templates were developed by the National Oncology Program Office in collaboration with an interdisciplinary team of subject matter experts, with the support of national program offices such as medical oncology, radiation oncology, surgery, pathology, and pharmacy.

The purpose of these templates is to collect data on Clinical pathways utilization and will facilitate continuous process improvement efforts, which may result in a change to provider practice, local processes, or a change to the Clinical pathway recommendations. Recommendations are based upon national guidelines, published literature, and institutional experience with efficacy, toxicity and cost.

VHA Directive 1415 requires that all sites use the National Oncology templates. If your site does not provide oncology services, the site must request a waiver to exempt it from the requirement to use the National Oncology templates. The waiver can be requested by emailing REDACTED.

There is one template. It will be in shared templates and connected to a note title ONCOLOGY KIDNEY CANCER PATHWAYS.

Any person on the care team can complete the templates (medical oncologist, radiation oncologist, surgeon).

6. Optional – you Can add an order menu to the surveillance elements:
VA-ONC KID STAGE I SURVEILLANCE TXT
VA-ONC KID STAGE II/III SURVEILLANCE TXT
VA-ONC KID STAGE IV SURVEILLANCE TXT

Example order menu for surveillance elements (your site would need to create this based on orders available at your site):

The screenshot shows a software interface for "Stage I Kidney Cancer Clinical Pathway Surveillance". At the top, there is a blue header bar with navigation arrows on the left and a "Done" button on the right. Below the header, the interface is divided into several sections:

- Stage I Surveillance**: A section with a dropdown menu currently set to "++ Annually for 5 years ++".
- Lab order:**: A section containing one item: "1 Comprehensive Metabolic Panel".
- Return to Clinic Order:**: A section containing one item: "6 Return To Clinic".
- Radiology orders:**: A section containing two sub-sections:
 - Abdominal CT or MRI with contrast within first 6 months, then annually**: A list with two items: "2 Abdominal CT" and "3 Abdominal MRI".
 - Chest x-ray/CT as clinically indicated**: A list with two items: "4 Chest x-ray" and "5 Chest CT".
