Introduction

Description:

The original Emergency Department (ED) Triage note was released in 2017. This is an update to the existing (ED) Triage template currently used in the field and address the improvement requests from users in the field.

This template is primarily used by EMERGENCY DEPARTMENT TRIAGE Nurses (RNs) to document care for emergency department or urgent care patients.

Local additions and modifications will no longer be allowed to this template. It is important that installation is coordinated with your local ED leadership.

Within this release, in addition to the ED Triage template update, the reproductive health section of the Nursing Admission template is also being updated to ensure responses will inform the proper order checks and update cover sheet.

UPDATE_2_0_437 contains 1 Reminder Exchange entry:

UPDATE_2_0_437 VA-EMERGENCY DEPARTMENT TRIAGE UPDATE

Post Installation

1. Open the **EMERGENCY DEPARTMENT TRIAGE** note in CPRS or review the dialog text in VistA (**VA-EMERGENCY DEPARTMENT TRIAGE**) and confirm the version now displays as 3.3.
2. Edit the reminder dialog element **VAL-ED TRIAGE ALLERGIES**, edit the dialog text. Replace the text “|ALLERGIES/ADR|” with the patient data object that your site uses to display allergies if it is different than the included object. Consult with your local ED leadership to identify the appropriate allergy object to display based on your options available, for example some sites may include remote allergies in their object.
3. Your patient data object for most recent vitals signs should be added to the progress note text for the element, **VAL-ED TRIAGE VITALS PREVIOUSLY RECORDED**, edit the dialog text. Replace the text “**insert local data object here**” with the patient data object that your site uses to display only the most recent vitals. These should be vitals taken that day.
4. Your patient data object for current problems should be in the progress note text for the element, **VAL-ED TXT TRIAGE COMPREHENSIVE**, edit the dialog text. Replace the text “**ACTIVE PROBLEMS**” with the patient data object that your site uses to display a patient’s active problems.
5. **Add/review the orders in the reminder dialog, If you are unsure what order should be added to any of the items below, please consult with your Emergency Department nurse leadership:**
 - a. Review reminder dialog element **VA-WH TD PREGNANCY ORDER PREGNANCY TEST** and add your local quick order for pregnancy test identified in the pre-install, during the install, you were prompted to enter this order, you should confirm it is correct.
 - b. Review reminder dialog element **VAL-NSG ADM CRE PLACEHOLDER FOR ORDER** and add your local quick order for CRE swab identified in the pre-install.
 - c. Review reminder dialog element **VAL-MRSA SWAB ORDER PLACED** and add your local quick order for MRSA swab identified in the pre-install.
 - d. Review reminder dialog element **VAL-NSG CONSULT SOC WORK ED TRIAGE** and add your local quick order for a social work consult.
 - e. Using the Vista menu, Reminder Dialog Management, Reminder Dialogs, change view to **GROUP**, edit the group **VAL-GP ISAR ORDERS** and

identify the dialog text and any quick orders that your site may have added to this group. If you previously did not make edits to this dialog or if it still says "placeholder for orders" in the dialog text, you can choose to disable the element.
