Introduction

The purpose of this document is to provide clinicians with the information they need to use the Mental Health Clinical Reminder (MHCR) Dialog Templates (patch PXRМ*2.0*29) in the VA’s Computerized Patient Record System (CPRS). It is not intended to provide basic information such as logging in to CPRS, or getting help. For information on those and other fundamentals, see *Related Documentation*.

Target audience

The intended users are the Mental Health clinicians who deliver these particular Evidence-Based Psychotherapies (EBPs) at VHA facilities. The Clinical Reminder Dialog Templates (patch PXRМ*2.0*29) will be made available to all clinicians engaged in the supported therapy protocols. Proficiency in CPRS is the only user requirement.

Other sources of information

Other relevant information is also available on the Clinical Reminders website:

Background

The Improve Veterans’ Mental Health (IVMH) Initiative is part of the Department of Veterans Affairs (VA)’s set of 21st century transformational initiatives (T21). The Mental Health Clinical Reminders (MHCR) project was designed to help facilitate IVMH by providing a national distribution of MHCR dialog templates appropriate for some of the Evidence Based Psychotherapy (EBP) protocols sponsored by Mental Health Services (VACO). The protocols will be used for the treatment of mental health conditions, including depression and post-traumatic stress disorder. The national reminder dialog templates will facilitate uniform data collection. This will allow Mental Health Services (MHS) the ability to effectively monitor implementation of these therapy protocols as well as evaluate the effectiveness of the therapies. The templates will assist in providing uniformity across mental services within the VA.

Access to the MHCR templates is through the CPRS environment. All of the templates will use the existing Clinical Reminder dialog functionalities; no new functionalities have been created to support the protocols.

About the MHA application

The dialog templates may include Mental Health Assistant (MHA) instruments as part of the template dialog. If so, you will have the option to complete the instruments. Depending on how your site has configured the reminder dialogs, the assessment will appear in the progress note or not. (Both approaches are used in the EBP templates included in this project.)

To access and complete an MHCR dialog template

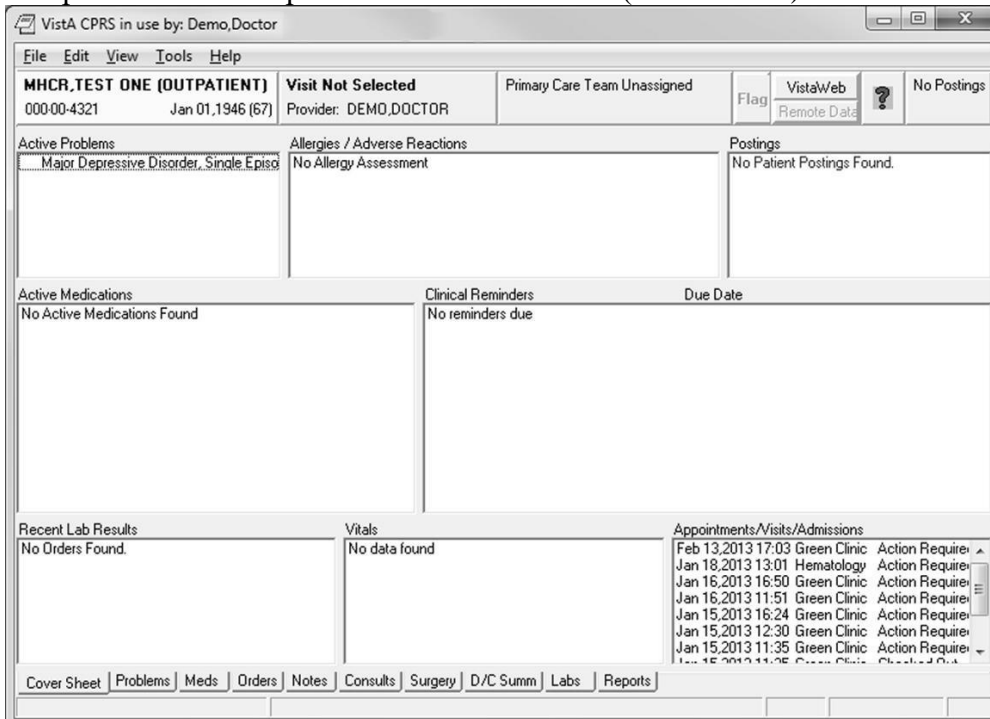

1. Sign onto CPRS.

The Patient Selection window opens:

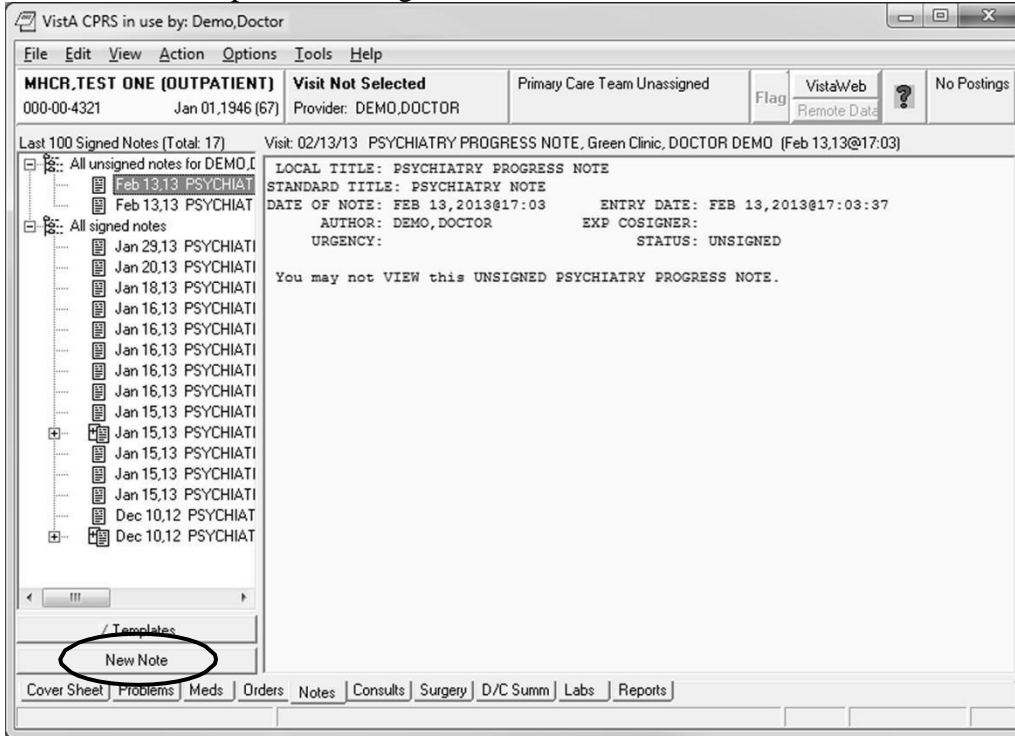

2. Select the patient you want to work with, in your usual manner.

The patient's record opens in Cover Sheet view (default view):

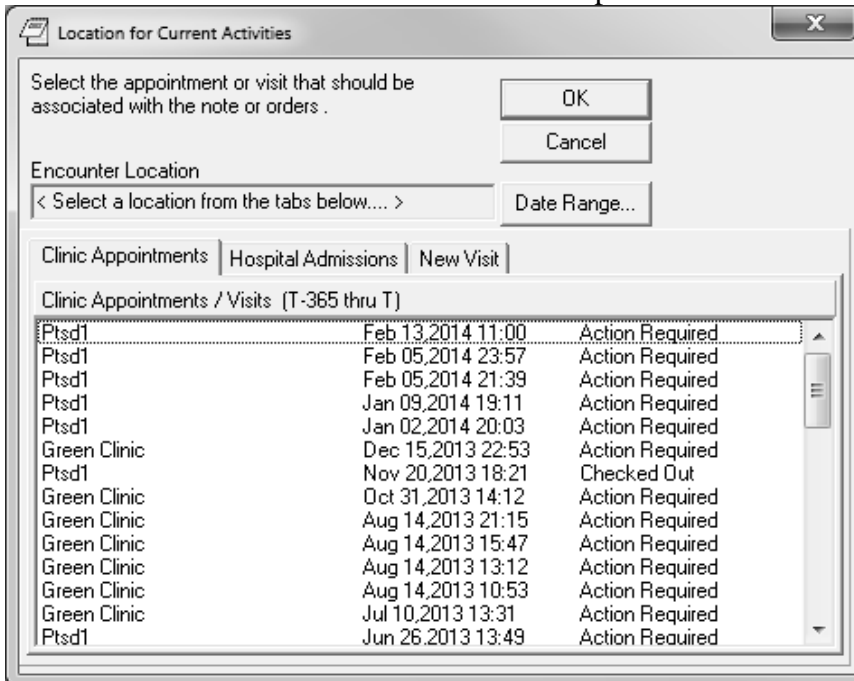

3. Click the **Notes** tab.

The Notes view opens, showing a New Note button:

4. Click **New Note**.

The Location for Current Activities window opens:

5. Select a location.

The location displays in the Encounter Location read-only field.

--OR--

Click the tab for Hospital Admissions or New Visit. If New Visit, select a Visit Location and a Date and Time of Visit.

6. Click **OK**.

The Progress Note Properties window opens.

The screenshot shows a dialog box titled "Progress Note Properties". It contains a "Progress Note Title:" field with a list of options: ADIR <ADVANCE DIRECTIVE>, ADMISSION <NURSING ADMISSION ASSESSMENT NOTE>, ASSESSMENT <NURSING ADMISSION ASSESSMENT NOTE>, ASSESSMENT <SCI CRAIG HANDICAP ASSESSMENT&REPORTING BIOPSY <HEMATOLOGY/ONCOLOGY PROCEDURE BONE MARROW BONE <HEMATOLOGY/ONCOLOGY PROCEDURE BONE MARROW/ CARDIOLOGY <CARDIOLOGY CONSULT>. Below the list is a "Date/Time of Note:" field with the value "Feb 21, 2014@10:12" and a dropdown arrow. The "Author:" field is set to "Demo,Doctor One - PHYSICIAN". There are "OK" and "Cancel" buttons on the right side.

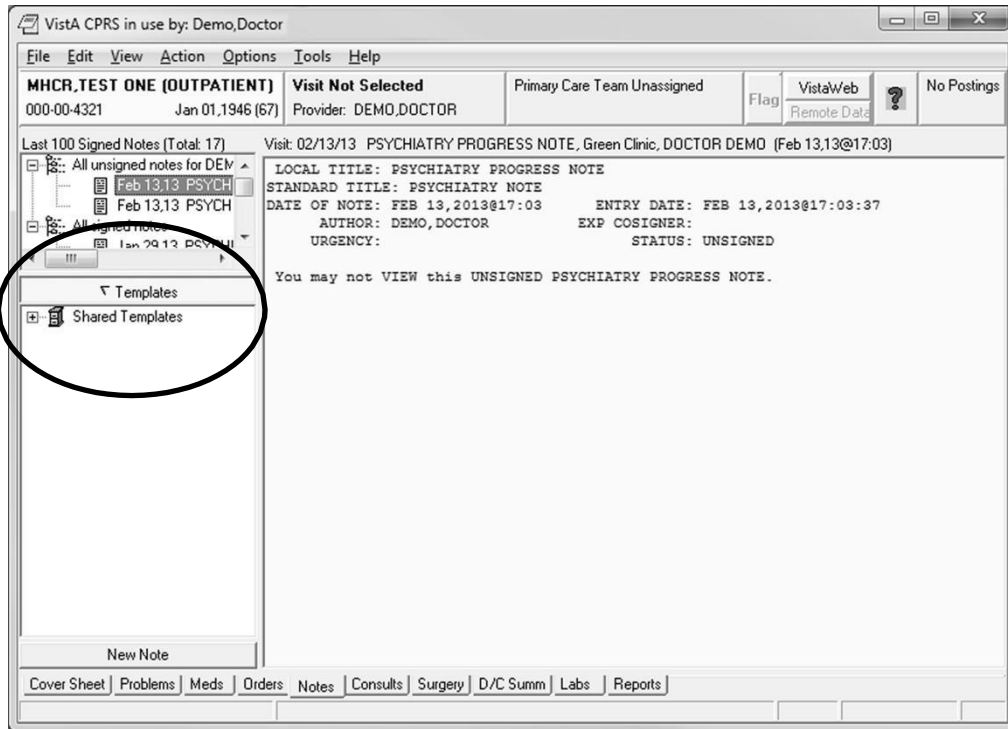

7. Type the note title into the Progress Note Title field or select from the list, then click **OK**.

You are returned to the Notes tab view:

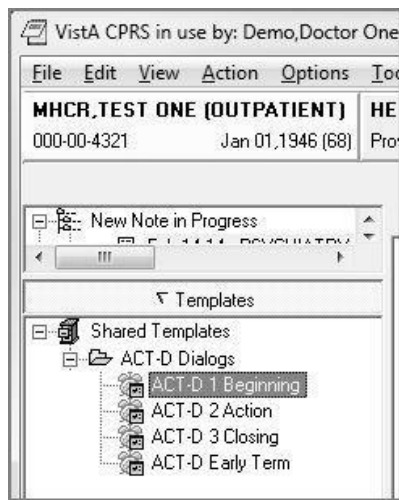

The screenshot shows the VistA CPRS interface. The title bar reads "VistA CPRS in use by: Demo,Doctor One (66.251.199.21)". The menu bar includes File, Edit, View, Action, Options, Tools, and Help. The patient information bar shows "MHCR,TEST ONE (OUTPATIENT)", "PTSD1 Feb 13,14 11:00", and "Primary Care Team Unassigned". The encounter information bar shows "123-00-4321", "Jan 01,1946 (68)", "Provider: DEMO.DOCTOR ONE", "Flag", "VistaWeb Remote Data", and "No Postings". The main window displays a list of notes on the left and a large text area on the right. The list includes "New Note in Progress" and "All unsigned notes for DEMO.DOCTOR ONE" with various dates and titles like "Feb 13,14 PSYCHIATRY PROGRESS NC". The "Templates" button is circled in red. The bottom of the window has a navigation bar with "Cover Sheet", "Problems", "Meds", "Orders", "Notes", "Consults", "Surgery", "D/C Summ", "Labs", and "Reports".

8. Click **Templates**.

The Templates section opens:

9. Expand the list of Shared Templates by clicking +, then double-click the template you want, as shown in the section view:

The template opens:

ASSESSMENT

SESSION CONTENT

In this beginning phase session of ACT for Depression, the following therapeutic activities were performed.

While all items are required, please indicate which were completed this session. Provide a description or explanation for items with text boxes. If items were skipped in session, please describe how they will be addressed in future sessions (at the end of this section).

Provided the Veteran with an overview and rationale of ACT for depression, including what to expect over the course of the treatment, and the collaborative nature of the therapeutic relationship.

The goals of ACT were explained in terms of learning and developing a new and different relationship to one's internal experiences (e.g., thoughts, emotions, sensations, memories), with the goal of creating psychological and behavioral flexibility in the service of personal values.

The following interventions/metaphors were used to assist the Veteran in understanding the treatment philosophy and process of ACT for depression: (Select all that apply)

The Veteran had the following response to this rationale:

The Veteran had the following response to this rationale:

Health Factors: ACT 1 ACCEPT AND COMMIT BEGIN PHASE, ACT THERAPY, MH EBP TEMPLATE

* Indicates a Required Field

10. Click to select the items you want; continue scrolling to review the entire template.

Note: Selecting some options opens a text field for data entry.

11. Type data in the text fields as necessary.

12. When you have completed the template, click **Finish**.

The template window closes, and you are returned to the CPRS Notes view, showing the information you entered in the form of a progress note.

About signing your progress note

You must sign the note with your electronic signature before it can become a note that other CPRS users can see, as well as a permanent entry in the patient's record.

To sign your progress note

1. Click the Action menu (top of window), and select **Sign Note Now**.
The Sign Note dialog box opens.
2. Type your electronic signature code into the **Signature Code** field, then click **OK**.
Your note is signed, and you are returned to the CPRS Notes view.
