1. **Glossary of Terms and Abbreviations**

   **AED** – Anti Epileptic Drugs
   **ECOE** – Epilepsy Center of Excellence
   **KIDS** - Kernel Installation Distribution System
   **NCRC** – National Clinical Reminder Committee
   **SE ECOE** - Southeast Epilepsy Center of Excellence
   **SLT**- Selective Lab Test
   **TIU**- Text Integrated Utility
   **VMP**- VistA Maintenance Program
   **VNS**- Vagus Nerve Stimulation

   **Branching Terms**- A reminder term used to determine Boolean logic for branching/changing content within a reminder dialog window when it opens specific to the patient’s chart information.

   **Branching Definition**- A reminder definition that is used within a branching term to evaluate the Boolean logic to determine the content in a reminder window for a dialog element or dialog group.

   **Dialog**- A window in CPRS that opens in the format of a form to aid the user in creating text in a note and entering information into the record with a point and click interface.

   **Education Topics**- Informational data markers entered into the record to document topics that the patient was educated on.

   **Elements**- A component in VistA that is configured to display content for the user when a dialog is opened.

   **Health Factor**- Informational data marker entered into the record to document patient information that is not readily identifiable with other information data entries in the system.

   **Health Summary Types/Objects**- A collection of data that displays to the user specific to the patient’s chart they are viewing.

   **Mapping**- Linking of data markers such as Health Factors or other data entry items to reminder components such as reminder elements.

   **National Class**- The highest collection of edit permissions which can be assigned to a reminder component

   **Taxonomy**- Collection of specific codes associated with specific clinical conditions

   **Template**- Commonly referred to as a dialog. See **dialog** for definition

   **Shared Templates**- Templates within the shared templates tree of CPRS, which the users can access and use while documenting in the chart

   **Usability Testing**- Software usage testing conducted with users for review and acceptance of the software product.
2. **Introduction**

The VA-ECOE templates project is a product developed in collaboration with the VA Epilepsy Center of Excellence (ECOE), VHA Informatics Council (VHA IC), National Clinical Reminder Committee (NCRC), National HIMS Office, VistA Maintenance Program (VMP), Nashville Usability Testing staff, and Miami VA Healthcare System staff, which provides guidance for the collection of the information of Veterans diagnosed with epilepsy to support uniform care and epilepsy surveillance. Thanks to the Southeast ECoE team led by Dr. Aatif Husain SE ECoE Regional Clinical Director and Pamela Kelly the SE ECoE Regional Director, for facilitating the development and implementation of this tool.

The templates were created for, but not limited to ECOE sites, which are vital for quality control and research data for improvement in specialized epilepsy health care. The templates incorporate all of the American Academy of Neurology Epilepsy Quality Measures and the National Institute of Health recommended Common Data Elements. The database will be maintained by the VA Epilepsy Centers of Excellence Program implemented in 2008 by Public Law 110-387 mandate. Any site other than ECOE sites that would like to use the templates can and should contact Pamela Kelly by phone at (919) 416-5982 or email Pamela.kelly2@va.gov.

A secondary part of this patch is to update URL’s that are embedded in national Template Fields within CPRS. Currently the URL’s take you to “Page Not Found”. With this release, the links will work correctly. The six Template Fields are listed below. These Template Fields are part of the National Reminders for Alcohol, Depression, PTSD screenings and VANOD reminder dialogs

- VA-URL PCL-C INFO
- VA-URL PCLC
- VA-URL PHQ9
- VA-URL AUDIT-C
- VANOD BRADEN SCALE INFO
- VANOD URL HANDBOOK

These six Template Fields will be updated with Reminder Exchange entry VA-URL UPDATE CARRIER ELEMENT and VA-URL UPDATE CARRIER ELEMENT 2. These Reminder Exchange entries contain reminder dialog element VA-URL UPDATE CARRIER ELEMENT and VA-URL UPDATE CARRIER ELEMENT 2. Once the URL’s are updated, both the Reminder Exchange entry and the reminder dialog element will be deleted from your system.
3. Pre-installation Steps

3.1. Consult Orders

**Before the patch is installed** the Reminder Manager at your site must take note of two mapped consult orders (Quick Order Dialogs). During the patch install the programmer installing the patch will be asked for the name of the local sites mapped orders to make a replacement with. The two dialog elements that contain the quick order are as follows:

- VA-PDIQ POLYTRAUMA CONSULT
- VA-TBI OI CONSULT FOR KNOWN TBI

3.2. Note Titles

If your site already has consult response titles in place and in use for your Epilepsy service, your site may opt to use those titles instead of the consult response titles below. If your site does not have titles already in use, then the titles listed below are the suggested consult titles that will need to be created and mapped to the National Standard Title “Neurology Consult”. The “EPILEPSY FOLLOW-UP CONSULT RESPONSE” and “EPILEPSY INITIAL CONSULT RESPONSE” titles will also need to be added into the “Consults” document class for responding to consults.

The “EPILEPSY RESEARCH” note goes into the “Progress Notes” class or designated class at your site for Neurology Notes and mapped to the National Standard Title of “Neurology Note”. Further instructions for the dialog setup that links the needed titles to dialogs are covered in the [Post-installation steps](#).

1. EPILEPSY FOLLOW-UP CONSULT RESPONSE TITLE
   Std Title: NEUROLOGY CONSULT
2. EPILEPSY INITIAL CONSULT RESPONSE TITLE
   Std Title: NEUROLOGY CONSULT
3. EPILEPSY RESEARCH TITLE
   Std Title: NEUROLOGY NOTE
3.3. Labs for AED levels and other orderable items

Work with your local pharmacy to do a lookup for all the Anti-Epileptic Drugs listed in your system. You will need this list of meds post-installation to complete a Health Summary Object.

The following is a list of elements within the dialogs that will also need to be mapped with order menus, quick orders and order sets that are used at your site:

VA-ECOE ORDERS LAB AED LEVELS
VA-ECOE ORDERS LAB BMP
VA-ECOE ORDERS LAB CBC
VA-ECOE ORDERS LAB LFT
VA-ECOE ORDERS LAB VIT D
VA-ECOE ORDERS LAB OTHER
VA-ECOE ORDERS TEST EEG
VA-ECOE ORDERS TEST MRI
VA-ECOE ORDERS TEST PET
VA-ECOE ORDERS TEST Ictal SPECT
VA-ECOE ORDERS TEST Interictal SPECT
VA-ECOE ORDERS TEST MEG
VA-ECOE ORDERS TEST Vid EEG
VA-ECOE ORDERS NEUROPSYCHOLOGICAL
VA-ECOE OTHER TESTS
VA-ECOE ORDERS CONSULT MH
VA-ECOE ORDERS CONSULT OB/GYN
VA-ECOE ORDERS CONSULT ENDO
VA-ECOE ORDERS CONSULT NEURO
VA-ECOE ORDERS CONSULT SWS
VA-ECOE ORDERS CONSULT OTHER
4. Installation

4.1. KIDS Build Installation

The VistA screen capture below is the steps for the KIDS build installation. Note: For easier reading blank lines have been removed in the capture.

Select Installation <TEST ACCOUNT> Option: Install Package(s)
Select INSTALL NAME: PXRM*2.0*30 8/28/13@12:20:31
=> ECOE Dialogs ;Created on Aug 28, 2013@10:47:35

This Distribution was loaded on Aug 28, 2013@12:20:31 with header of
ECOE Dialogs ;Created on Aug 28, 2013@10:47:35
It consisted of the following Install(s):
PXRM*2.0*30
Checking Install for Package PXRM*2.0*30

Install Questions for PXRM*2.0*30
Incoming Files:
  811.8 REMINDER EXCHANGE (including data)
Note: You already have the 'REMINDER EXCHANGE' File.
I will OVERWRITE your data with mine.

Want KIDS to INHIBIT LOGONs during the install? NO//
Want to DISABLE Scheduled Options, Menu Options, and Protocols? NO//

Enter the Device you want to print the Install messages.
You can queue the install by enter a 'Q' at the device prompt.
Enter a '^' to abort the install.

DEVICE: HOME//  TELNET PORT
--------------------------------------------------------------------------------
Install Started for PXRM*2.0*30:
  Aug 28, 2013@12:21:09
Build Distribution Date: Aug 28, 2013
Installing Routines:
  Aug 28, 2013@12:21:09
Running Pre-Install Routine: PRE^PXRM30I
DISABLE options.
DISABLE protocols.
Installing Data Dictionaries:
     Aug 28, 2013@12:21:09
Installing Data:
     Aug 28, 2013@12:21:10
Running Post-Install Routine: POST^PXRMP30I
ENABLE options.
ENABLE protocols.
There are 3 Reminder Exchange entries to be installed.
1. Installing Reminder Exchange entry ECOE REMINDER DIALOGS
   FINDING entry Q.ECOE TEMP OI FOR POLYTRAUMA CONSULT does not exist.
   Select one of the following:
   D      Delete
   P      Replace with an existing entry
   Q      Quit the install
Enter response: <You should do a REPLACE with the correct Quick Order here from step 3.1 in this guide>
   FINDING entry Q.ECOE TEMP OI FOR KNOWN TBI does not exist.
   Select one of the following:
   D      Delete
   P      Replace with an existing entry
   Q      Quit the install
Enter response: <You should do a REPLACE with the correct Quick Order here from step 3.1 in this guide>
   FINDING entry Q.ECOE TEMP OI FOR POLYTRAUMA CONSULT does not exist.
   Select one of the following:
   D      Delete
   P      Replace with an existing entry
   Q      Quit the install
Enter response: <You should do a REPLACE with the correct Quick Order here from step 3.1 in this guide>
   FINDING entry Q.ECOE TEMP OI FOR KNOWN TBI does not exist.
Select one of the following:

D       Delete
P       Replace with an existing entry
Q       Quit the install

Enter response: <You should do a REPLACE with the correct Quick Order here from step 3.1 in this guide>

2. Installing Reminder Exchange entry VA-URL UPDATE CARRIER ELEMENT
3. Installing Reminder Exchange entry VA-URL UPDATE CARRIER ELEMENT 2
   Deleting unneeded Dialog entries.
Deleting VA-URL UPDATE CARRIER ELEMENT
Deleting VA-URL UPDATE CARRIER ELEMENT 2
Deleting unneeded Exchange entries.
Deleting VA-URL UPDATE CARRIER ELEMENT
Deleting VA-URL UPDATE CARRIER ELEMENT 2

PXRM*2.0*30 Installed.
   Aug 28, 2013@12:25:06
Not a production UCI
   PXRM*2.0*30

Install Completed
1    Load a Distribution
2    Verify Checksums in Transport Global
3    Print Transport Global
4    Compare Transport Global to Current System
5    Backup a Transport Global
6    Install Package(s)
       Restart Install of Package(s)
       Unload a Distribution

You have PENDING ALERTS
   Enter "VA to jump to VIEW ALERTS option
You've got PRIORITY mail!
5. Component Inventory

5.1. Dialog List
There are 4 dialogs that will be installed on your system. The follow-up note and initial note will be tied to note titles. The quality of life and education will be for shared templates. See Post-installation steps section for setting these up.

- VA-ECOE FOLLOW-UP NOTE
- VA-ECOE INITIAL NOTE
- VA-ECOE QUALITY OF LIFE TPL
- VA-ECOE EDUCATION TPL

5.2. Branching Terms
The following is a list of all the branching terms:

- VA-BL ECOE ALCOHOL USE SCREEN NATIONAL
- VA-BL ECOE DEPRESSION SCREEN NATIONAL
- VA-BL ECOE OEF/OIF NATIONAL
- VA-BL ECOE TBI OEF/OIF NATIONAL

5.3. Branching Definitions
There is only one branching reminder definition named “VA-BL OEF/OIF COHORT” that is new in this installation. There aren’t any special instructions for this reminder definition.

5.4. Health Factors
There are 18 National Class health factors categories containing 272 individual health factors. See Appendix (A) for listing.

5.5. Education Topics
The following National Education topics are included in this install.

- VA-ECOE AED SIDE EFFECTS
- VA-ECOE BONE HEALTH
- VA-ECOE CONTRACEPTION
- VA-ECOE DRIVING
- VA-ECOE EPILEPSY RESOURCES
- VA-ECOE MH
- VA-ECOE OTHER TOPIC
- VA-ECOE PREGNANCY
- VA-ECOE SAFETY
- VA-ECOE SEIZURE PRECAUTIONS
- VA-ECOE SUDEP
- VA-ECOE SUICIDE IDEATION
- VA-ECOE TREATMENT COMPLIANCE
5.6. Taxonomies

There is 1 taxonomy named “VA-ECOE DIAGNOSIS CODES” which is mapped to an element for entering diagnosis codes into the visit encounter. See Appendix (B) for listing.

Note: This element will not include the diagnosis in any of the text created in the notes.

5.7. Health Summary Types/Objects

There are 8 new Health Summary Types/Objects that will install with this build. Mapping will only be needed for the two Health Summary Types named ECOE AED LEVELS and ECOE VITAMIN D LEVEL.

ECOE AED LEVELS
- ECOE DEPRESSION CMB
- ECOE LAST EVENTS NOTED
- ECOE LAST MED PLAN
- ECOE OEF/OIF TBI
- ECOE PREVIOUS AEDS
- ECOE PREVIOUS DIAGNOSTICS
- ECOE VITAMIN D LEVEL
- ECOE VNS INITIAL
- ECOE VNS LAST
6. Post-installation Steps

6.1. Computed Finding Parameter Edits

There are 3 branching reminder terms that each have a VA-REMINDER DEFINITION computed finding. The “Computed Finding Parameter” will need to be edited to remove the imported COMPUTED FINDING PARAMETER entry of “ENTER DEFINITION HERE” and replace it with the names of National definitions.

1. VA-BL ECOE ALCOHOL USE SCREEN

Findings:

- Finding Item: VA-REMINDER DEFINITION (FI(1)=CF(35))
- Finding Type: REMINDER COMPUTED FINDING
  - Condition: I V("STATUS")="DONE"!V("STATUS")="RESOLVED"
- Computed Finding Parameter: ENTER DEFINITION HERE

2. VA-BL ECOE DEPRESSION SCREEN (BEFORE EDIT)

Findings:

- Finding Item: VA-REMINDER DEFINITION (FI(1)=CF(35))
- Finding Type: REMINDER COMPUTED FINDING
  - Condition: I V("STATUS")="DONE"!V("STATUS")="RESOLVED"
- Computed Finding Parameter: ENTER DEFINITION HERE

Continued on next page...
3. VA-BL ECOE TBI OEF/OIF
(BEFORE EDIT)

Findings:

- Finding Item: VA-REMINDER DEFINITION (FI(1)=CF(35))
- Finding Type: REMINDER COMPUTED FINDING
- Condition: I V("STATUS")="DUE NOW"
- Computed Finding Parameter: ENTER DEFINITION HERE

VA-BL ECOE TBI OEF/OIF
(AFTER EDIT)

Findings:

- Finding Item: VA-REMINDER DEFINITION (FI(1)=CF(35))
- Finding Type: REMINDER COMPUTED FINDING
- Condition: I V("STATUS")="DUE NOW"
- Computed Finding Parameter: VA-TBI SCREENING

6.2. Mapping Reminder Elements

The list of Dialog Elements below will need to have the findings mapped to the local orders, order sets or menus. The LAB AED LEVELS should be mapped to a menu that lists the lab orders for the AED list obtained during pre-install. This will need to be created manually at your site if one does not already exist on your system.

VA-ECOE ORDERS LAB AED LEVELS
VA-ECOE ORDERS LAB BMP
VA-ECOE ORDERS LAB CBC
VA-ECOE ORDERS LAB LFT
VA-ECOE ORDERS LAB VIT D
VA-ECOE ORDERS LAB OTHER
VA-ECOE ORDERS TEST EEG
VA-ECOE ORDERS TEST MRI
VA-ECOE ORDERS TEST PET
VA-ECOE ORDERS TEST ICTAL SPECT
VA-ECOE ORDERS TEST INTERICTAL SPECT
VA-ECOE ORDERS TEST MEG
VA-ECOE ORDERS TEST VID EEG
VA-ECOE ORDERS NEUROPSYCHOLOGICAL
VA-ECOE OTHER TESTS
VA-ECOE ORDERS CONSULT MH
VA-ECOE ORDERS CONSULT OB/GYN
VA-ECOE ORDERS CONSULT ENDO
VA-ECOE ORDERS CONSULT NEURO
VA-ECOE ORDERS CONSULT SWS
VA-ECOE ORDERS CONSULT OTHER
6.3. Mapping Health Summary Types/Objects

Using the AED list in the previous step 5.1, check the Health Summary Types named “ECOE AED LEVELS” and “ECOE VITAMIN D LEVEL”. The selective labs for each medication and for Vitamin D need to be included in the components list in the Health Summary Type, Selective Lab Tests (SLT). Add the addition lab tests as needed for your site. See Appendix (D) for an example edit.

<table>

</tbody>
</table>
6.4. Enabling and Attaching the Dialogs to Titles

While using the TIU Editor if at any time the settings do not look correct NEVER click the apply button, but instead click Cancel, then start over.

Before linking the dialogs to titles or using them in shared templates you must first add each one into the TIU Template Reminder Dialog Parameter list. See Appendix (C) for an example of adding the VA-ECOE INITIAL NOTE dialog to the list.

Link the dialogs from the TIU editor found in the Options menu in CPRS while on the Notes tab. Create a new template in the Document Titles cabinet in the upper left panel for each title name then associate the title using the dropdown list in the bottom panel.
6.5. Creating the Shared Templates

Search for the folder that your Neurology service uses in the Shared Templates cabinet in the upper left panel of the TIU Editor. If one does not exist then you will have to create new one to hold the shared template dialogs. Create 2 new templates in the Neurology folder called “Epilepsy Quality of Life” and “Epilepsy Education”. Link each one by selecting the template type of Reminder Dialog and selecting the dialogs named “VA-ECOE Quality of Life TPL” and “VA-ECOE Education TPL” accordingly.
