Introduction

DESCRIPTION:

The COVID-19 STATUS ADJUSTMENTS template includes the conditions that affect the COVID-19 status bar “banner” other than VA lab results. This will allow clinicians to quickly document the patient’s status while also setting the Banner to the correct information. The conditions include:

- Clinical status of the patient:
 - COVID-19 Suspected
 - COVID-19 No longer Suspected
 - COVID-19 Resolved
- Outside lab results for the patient: (same as the independent COVID-19 OUTSIDE LAB RESULTS template)
 - Positive, both self-reporting and written/verified
 - Negative, both self-reporting and written/verified
 - Pending
- Physician-only mitigation of a false positive PCR lab test done within the VA

Installation of this update will also update the VA-COVID-19 OUTSIDE TEST RESULTS TEMPLATE and the VA-COVID-19 SCI TESTED YES ELSEWHERE (Dialog Group).

1. The text for positive and negative written report was updated to include written/verified.
 - a. The alternate text removed the words “patient provided” enabling this option to be used when receiving a report from another facility or outside source (like a health department).
2. Outside pending results option was updated
 - a. The health factor for pending will set the banner
 - b. A collection date is required

UPDATE_2_0_138 contains 1 Reminder Exchange entry:

UPDATE_2_0_138 VA-COVID-19 STATUS ADJUSTMENTS

The exchange file contains the following components:

TIU TEMPLATE FIELD

VA-CDC IF YOU ARE SICK

HEALTH FACTORS

VA-REMINDER UPDATES

Select Action: Next Screen// Q

```

You will then be returned to this screen. At the **Select Action** prompt, type **Q**.

Install complete.

Post Installation

1. **Make the Dialog able to be attached to a Personal/Shared template or to a progress note title.**

From the Reminders Manager Menu:

Select Reminder Managers Menu Option: **CP CPRS Reminder Configuration**

- CA Add/Edit Reminder Categories
- CL CPRS Lookup Categories
- CS CPRS Cover Sheet Reminder List
- MH Mental Health Dialogs Active
- PN Progress Note Headers
- RA Reminder GUI Resolution Active
- TIU TIU Template Reminder Dialog Parameter**
- DL Default Outside Location
- PT Position Reminder Text at Cursor

Select CPRS Reminder Configuration Option: **TIU TIU Template Reminder Dialog Parameter**

Reminder Dialogs allowed as Templates may be set for the following:

- 1 User USR [choose from NEW PERSON]
- 3 Service SRV [choose from SERVICE/SECTION]
- 4 Division DIV [choose from INSTITUTION]
- 5 System SYS [NATREM.FO-SLC.MED.VA.GOV]

Enter selection: **5** *Choose the appropriate number for your site. Your site may do this by System or other levels. The example below uses SYSTEM level*

Setting Reminder Dialogs allowed as Templates for System:

Select Display Sequence: **?**

- 148 VA-VETERANS CHOICE NOTE
- 149 VA-TBI SCREENING

*When you type a question mark above, you will see the list of #'s (with dialogs) that are already taken. Choose a number **NOT** on this list. For this example, looking above I see the number 150 is not present, so I will use 150.*

Select Display Sequence: **150**

Are you adding 150 as a new Display Sequence? Yes// **Y YES**

Display Sequence: 150// **<Enter>** 150

Clinical Reminder Dialog: **VA-COVID-19 STATUS ADJUSTMENTS**

then **<enter>** reminder dialog NATIONAL

OK? Yes// **<Enter>** (Yes)

2. Associate the new reminder dialog with a shared template in CPRS

To do this, go to Template Editor, then Shared Templates, select the appropriate folder (if applicable), and choose **New Template** (top right-hand corner).

Type in the following information:

Name: **COVID-19 STATUS ADJUSTMENTS**

Template Type: **Reminder Dialog**

Reminder Dialog: **VA-COVID-19 STATUS ADJUSTMENTS**

Next, select Apply.

3. Setup of specific Note title. (Optional)

If your site wants to create a new note title specifically for this template, you can do that using whatever note title you would like to use.

VHA Enterprise Standard Title: INFECTIOUS DISEASE NOTE

Note: Comprehensive information on Creating Document Definitions can be found beginning on page 47 of the [TIU/ASU Implementation Guide](#)

If you create a note title, you will need to associate the new reminder dialog with the specific note title in CPRS

4. Edit Reminder Term used in branching logic.

The reminder term VA-BL PHYSICIAN ASU limits the user class that can see the option to document a False positive PCR test and set the banner to negative.

This reminder term is set to look at the user class of PHYSICIAN and will include any subcategories. If your site has other options like STAFF PHYSICIAN or ATTENDING PHYSICIAN, you will need to change the computed finding parameter in the reminder term.

Sites can limit that further by editing the computed finding parameter in the finding item of the reminder term VA-BL PHYSICIAN ASU to be a more specific user class (i.e. INFECTIOUS DISEASE PHYSICIAN).

NOTE: *If there are any questions or problems during the installation, please notify your local IT support to log a national help desk ticket or contact the VA Service Desk and have them submit a national ticket to:*
