INTRODUCTION	1
INSTALL DETAILS	5
INSTALL EXAMPLE.....	6
POST INSTALLATION.....	9

Introduction

DESCRIPTION:

1. Based on feedback from the field, input from subject matter experts, and correlation with current CDC guidelines this update contains changes to the following COVID-19 reminder dialogs. The version number on all four of these templates has been updated:
 - VA-COVID-19 TELEPHONE FOLLOW-UP
 - VA-COVID-19 PROVIDER FOLLOW-UP
 - VA-COVID-19 DISCHARGE INSTRUCTIONS
 - VA-COVID-19 RETURN TO WORK
2. The alternate dialog text was updates in the COVID-19 screening template to remove the word “they”. The version of the screening templates did not change as this change is not in the dialog text seen by the user completing the COVID-19 screening template.
3. The xml field VA-PPE TYPE used in the provider follow up template has been updated, this field is locally editable so you can add local items if appropriate post install.

Additional Information:

Discharge template and instructions in provider screen discharge section – one of these choices is required:

Duration of Isolation and Precautions for Adults with COVID-19

Home isolation can be discontinued based on the following:

- Severe/Critical Illness and/or Severely Immunocompromised
 - 20 days since symptoms first appeared
 - At least 1 day (24 hours) has passed since resolution of fever without the use of fever-reducing medications
 - AND, Symptoms have improved (e.g., cough, shortness of breath)
- Mild/Moderate Illness or Asymptomatic
 - 10 days since symptoms first appeared (or, if asymptomatic, since first positive viral diagnostic test)
 - At least 1 day (24 hours) has passed since resolution of fever without the use of fever-reducing medications
 - AND, Symptoms have improved (e.g., cough, shortness of breath)

Return to Work template – one section only updated – added a new option for severe illness

Health Care Workers/First Responders

- CHRISTMAS,MERRY is a health care worker/first responder with a HIGH or MEDIUM risk exposure to COVID-19.
- CHRISTMAS,MERRY is a health care worker/first responder with a LOW risk exposure to COVID-19.
- CHRISTMAS,MERRY is a health care worker/first responder and has MILD/MODERATE COVID-19 or suspicious symptoms of COVID-19.
- CHRISTMAS,MERRY is a health care worker/first responder and has SEVERE/CRITICAL COVID-19 illness and/or is severely immunocompromised with COVID-19 illness.
- CHRISTMAS,MERRY is a health care worker/first responder and has COVID-19 by lab test without symptoms.

Mild moderate:

CHRISTMAS,MERRY is a health care worker/first responder and has MILD/MODERATE COVID-19 or suspicious symptoms of COVID-19.

Patient may return to work when ALL of the following criteria are met or as per your facility policy:

- It has been at least 10 days since symptoms first appeared (or, if asymptomatic, since their first positive viral diagnostic test)
- At least 24 hours have passed since last fever without the use of fever-reducing medications
- Symptoms (e.g. cough, shortness of breath) have improved

Severe:

Health Care Workers/First Responders

- CHRISTMAS,MERRY is a health care worker/first responder with a HIGH or MEDIUM risk exposure to COVID-19.
- CHRISTMAS,MERRY is a health care worker/first responder with a LOW risk exposure to COVID-19.
- CHRISTMAS,MERRY is a health care worker/first responder and has MILD/MODERATE COVID-19 or suspicious symptoms of COVID-19.
- CHRISTMAS,MERRY is a health care worker/first responder and has SEVERE/CRITICAL COVID-19 illness and/or is severely immunocompromised with COVID-19 illness.

Patient may return to work when ALL of the following criteria are met or as per your facility policy:

- It has been at least 20 days since symptoms first appeared
- At least 24 hours have passed since last fever without the use of fever-reducing medications
- Symptoms (e.g. cough, shortness of breath) have improved

Telephone follow up note, care disposition section updated, added asymptomatic, updated recovered criteria for improving and stable options:

Indicate patient condition:*

- Patient remains asymptomatic since diagnosis
- Improving
- Stable (neither improving not worsening)
- Worsening

Care Disposition*

Please use the following link for definitions regarding severely immunocompromised and mild, moderate, severe and critical illness.

[Discontinuation of Transmission-Based Precautions and Disposition of P](#)

Indicate patient condition:*

Patient remains asymptomatic since diagnosis Comment:

Patient is Severely Immunocompromised

Patient must meet the below criteria for stopping home isolation.
- It has been at least 20 days since their first positive viral diagnostic test.

Patient has met CDC guidelines for stopping home isolation ("transmission-based precautions") and is released from follow-up.
Patient advised to contact their clinic with future concerns.

Patient is NOT Severely Immunocompromised

Patient must meet the below criteria for stopping home isolation.
- It has been at least 10 days since their first positive viral diagnostic test.

Patient has met CDC guidelines for stopping home isolation ("transmission-based precautions") and is released from follow-up.
Patient advised to contact their clinic with future concerns.

Improving Comment:

Patient with Severe/Critical Illness and/or Severe Immunocompromise

Patient must meet the below criteria for stopping home isolation.
- At least 20 days have passed since symptoms first appeared
AND
- At least 24 hours have passed since last fever without the use of fever-reducing medications
AND
- Symptoms (e.g. cough, shortness of breath) have improved

Patient has met CDC guidelines for stopping home isolation ("transmission-based precautions") and is released from follow-up.
Patient advised to contact their clinic with future concerns.

Patient with Mild to Moderate Illness

Patient must meet the below criteria for stopping home isolation.
- At least 10 days have passed since symptoms first appeared
AND
- At least 24 hours have passed since last fever without the use of fever-reducing medications
AND
- Symptoms (e.g. cough, shortness of breath) have improved

Patient has met CDC guidelines for stopping home isolation ("transmission-based precautions") and is released from follow-up.
Patient advised to contact their clinic with future concerns.

Stable (neither improving nor worsening) Comment:

Patient with Severe/Critical Illness and/or Severe Immunocompromise

Patient must meet the below criteria for stopping home isolation.
- At least 20 days have passed since symptoms first appeared
AND
- At least 24 hours have passed since last fever without the use of fever-reducing medications
AND
- Symptoms (e.g. cough, shortness of breath) have improved

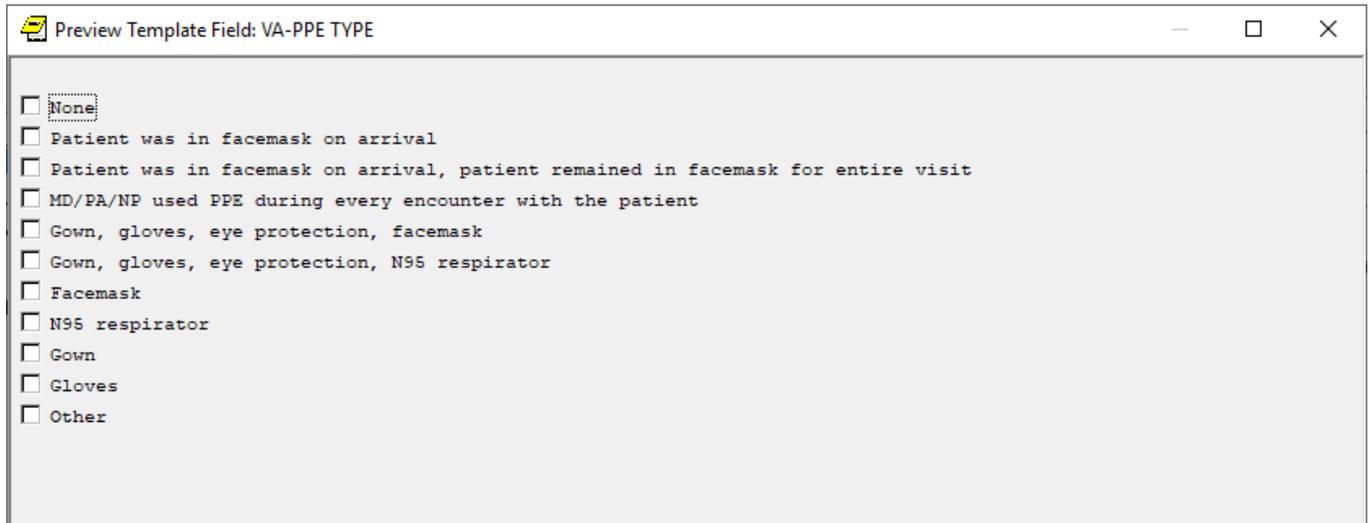

Patient has met CDC guidelines for stopping home isolation ("transmission-based precautions") and is released from follow-up.
Patient advised to contact their clinic with future concerns.

Patient with Mild to Moderate Illness

Patient must meet the below criteria for stopping home isolation.
- At least 10 days have passed since symptoms first appeared
AND
- At least 24 hours have passed since last fever without the use of fever-reducing medications
AND
- Symptoms (e.g. cough, shortness of breath) have improved

Patient has met CDC guidelines for stopping home isolation ("transmission-based precautions") and is released from follow-up.
Patient advised to contact their clinic with future concerns.

VA-PPE TYPE xml field used in Provider Follow-Up Template was updated:

Alternate progress note text updated in COVID-19 Screening questions used in multiple templates:

Negative screen example:

Coronavirus Disease 2019 (COVID-19) Screen
The patient reports no COVID-19 diagnosis.
The patient reports not waiting for the results of a COVID-19 lab test.
The patient reports no fever.
The patient reports no new or worsening cough or shortness of breath.
The patient reports no cold or flu-like symptoms.
The patient reports no new onset of diarrhea, nausea or vomiting.
The patient reports no new onset of headache, loss of taste or loss of smell.
The patient reports no exposure to someone with COVID-19 within the past 2 weeks.

UPDATE_2_0_159 contains 1 Reminder Exchange entry:

VA-COVID-19 UPDATE AUG 2020

Install Details

This update is being distributed as a web host file. The address for the host file is:

https://vaww.va.gov/reminders/docs/UPDATE_2_0_159.PRD

The file will be installed using Reminder Exchange, programmer access is not required. Installation should take less than 10 minutes.

Install Example

To Load the Web Host File. Navigate to Reminder exchange in Vista

```
+      + Next Screen  - Prev Screen  ?? More Actions  >>>
CFE  Create Exchange File Entry      LHF  Load Host File
CHF  Create Host File                 LMM  Load MailMan Message
CMM  Create MailMan Message           LR   List Reminder Definitions
DFE  Delete Exchange File Entry       LWH  Load Web Host File
IFE  Install Exchange File Entry      RI   Reminder Definition Inquiry
IH   Installation History              RP   Repack
Select Action: Next Screen// LWH  Load Web Host File ←
Input the URL for the .prd file: https://vaww.va.gov/reminders/docs/UPDATE_2_0_159.PRD
```

At the **Select Action:** prompt, enter **LWH** for Load Web Host File

At the **Input the url for the .prd file:** prompt, type the following web address:

https://vaww.va.gov/reminders/docs/UPDATE_2_0_159.PRD

You should see a message at the top of your screen that the file loaded successfully

```
https://vaww.va.gov/reminders/docs/UPDATE_2_0_159.PRD successfully loaded.
```

Search and locate an entry titled **UPDATE_2_0_159 VA-COVID-19 TEMPLATE UPDATES** in reminder exchange.

```
