Artifact Rationale

Per the Veteran-focused Integrated Process (VIP) Guide, the User’s Guide is required to be completed prior to Critical Decision Point #2 (CD2), with the expectation that it will be updated as needed. A User Guide is a technical communication document intended to give assistance to people using a particular system, such as VistA end users. It is usually written by a technical writer, although it can also be written by programmers, product or project managers, or other technical staff. Most user guides contain both a written guide and the associated images. In the case of computer applications, it is usual to include screenshots of the human-machine interfaces, and hardware manuals often include clear, simplified diagrams. The language used is matched to the intended audience, with jargon kept to a minimum or explained thoroughly. The User Guide is a mandatory, build-level document, and should be updated to reflect the contents of the most recently deployed build. The sections documented herein are required if applicable to your product.

1. Introduction

The Care Coordination (CC) Standardized Episodes of Care (SEOC) is a reference database for managing care bundles for use by Veterans Information Systems and Technology Architecture (VistA) and other Department of Veterans Affairs (VA) systems. Services are grouped together within the SEOC system into bundles so that clinicians can add these bundles to patients consult records in a standardized fashion, reducing the amount of time spent manually entering consult instructions, and providing uniformity among the patient records and across facilities for how patient care is prescribed for similar complaints.

These bundles group together one or more services that are preselected for different specialties to be added to the consult records. In addition, the clinician is provided with information regarding prescribing rules and preauthorization requirements, so they can make the most informed decisions regarding patient care.

Additionally, SEOC data will be accessible outside of the VistA/Computerized Patient Record System (CPRS) system so that users of downstream applications will be accessing the centralized data, and SEOC descriptions, reducing the chances of disconnects.

1.1. Purpose

The purpose of this document is to provide instruction for utilizing the Consult Toolbox to standardize and streamline consult management for Community Care.

1.2. Document Orientation

The *Care Coordination (CC) Standard Episodes of Care (SEOC) User Guide* will provide explanations of each screen and of all user interface options within the context of an easy to understand demonstration data scenario.

This document is also designed to provide the user with screen-by-screen “how to” information on the usage of CC SEOC.

1.2.1. Organization of the Manual

Section 1: Introduction

The Introduction section provides the purpose of this manual, an overview of the SEOC software, an overview of the software used, project references, contact information for the user to seek additional information, and an acronyms and abbreviations list for this manual.

Section 2: System Summary

The System Summary section provides a graphical representation of the equipment, communication, and networks used by the system, user access levels, how the software will be accessed, and contingencies and alternative modes of operation.
Section 3: Getting Started

Information for the Getting Started section provides a general walk-through of the system from initiation through exit, enabling the user to understand the sequence and flow of the system.

Section 4: Using the Software

This section gives the user the “how to” information to use SEOC, including many step-by-step procedures.

Section 5: Troubleshooting

This section provides troubleshooting for the SEOC user.

Section 6: Acronyms and Abbreviations

This section provides a list of acronyms and abbreviations found in this document.

1.2.2. Assumptions

This guide was written with the following assumed experience/skills of the audience:

- The SEOC user has basic knowledge of the SEOC system (such as the use of commands, menu options, and navigation tools).
- The SEOC user has been provided the appropriate active roles, menus, and security keys required for the SEOC User Interface (UI), as defined below in User Roles.
- The SEOC user is using SEOC to perform their daily consult creation workflow and perform the required SEOC functions.
- The SEOC user has validated access to the SEOC UI.
- The SEOC user has been provided training on the SEOC UI and has reviewed the User Guide.
- SEOC Content Authors: The SEOC Content Authors are responsible for creating and update the content within the SEOC repository using the SEOC UI. These users are required to VA access rights and privileges and will sign on to the SEOC application using their SSOI credentials (typically their PIV and access code).
- CPRS Clinicians that are responsible for documenting patient consult records. These clinicians utilize the SEOC content as part of their daily consult creation workflow such that they will add a SEOC bundle to the patient consult record which will provide for a standardized documentation and care plan approach across the VA for these consults.

1.2.3. Coordination

One Consult - Consult Toolbox 1.9.02 and above and the HealthShare Referral Manager (HSRM) depend on the availability of the SEOC System. Consult Toolbox 1.9.02 requires active SEOCs whereas HSRM requires active and discontinued SEOCs. Coordination between the One Consult – Consult Toolbox, HSRM, and SEOC team is necessary with any updates to SEOC.
1.2.4. Disclaimers

1.2.4.1. Software Disclaimer
This software was developed at the Department of Veterans Affairs (VA) by employees of the Federal Government in the course of their official duties. Pursuant to title 17 Section 105 of the United States Code this software is not subject to copyright protection and is in the public domain. VA assumes no responsibility whatsoever for its use by other parties, and makes no guarantees, expressed or implied, about its quality, reliability, or any other characteristic. We would appreciate acknowledgement if the software is used. This software can be redistributed and/or modified freely provided that any derivative works bear some notice that they are derived from it, and any modified versions bear some notice that they have been modified.

1.2.4.2. Documentation Disclaimer
The appearance of external hyperlink references in this manual does not constitute endorsement by the Department of Veterans Affairs (VA) of this Web site or the information, products, or services contained therein. The VA does not exercise any editorial control over the information you may find at these locations. Such links are provided and are consistent with the stated purpose of the VA.

1.2.5. Documentation Conventions
This manual uses several methods to highlight different aspects of the material.

Table 1. Documentation Symbols and Descriptions

<table>
<thead>
<tr>

**NOTE:** Notes are used to inform the reader of general information including references to additional reading material.

1.2.6. References and Resources
Readers who wish to learn more about CPRS and CC SEOC should consult the following:

1.3. National Service Desk and Organizational Contacts
For issues related to the CC SEOC that cannot be resolved by this manual or the site administrator, please contact the National Service Desk at 855-NSD-HELP (673-4357).

2. System Summary
There was an immediate need to provide clinicians the ability to quickly and consistently add care bundles to a patient’s consult record within VistA. SEOC provides this feature for a higher level of uniformity in patient care, easier access to appropriate services, based on initial
diagnoses, and the ability to better control care costs. SEOC allows clinicians to enhance the coordination of care for the Veteran.

The system contains SEOCs, or care bundles, that clinicians or other designated individuals can assign to VA patients. These bundles allow for the consistent use of procedures when certain conditions are diagnosed. This consistency allows the VA to effectively manage patient care and provides easier traceability.

### 2.1. System Configuration

The SEOC System is designed to be a simple reference database with a supporting SEOC API and User Interface (UI) layer. The SEOC system comprises three application tiers as shown below.

![Figure 1: Overview of SEOC System](image)

The first tier is the Data Tier. This tier contains SEOC data. SEOC uses Microsoft Structured Query Language (SQL) Server is the database. SEOC data consists of reference data, such as SEOC name, associated procedures, associated Current Procedural Terminology (CPT) codes, procedure durations, etc. Additionally, user role information is maintained within the tables, but no passwords or other credentials are stored. No PHI or PII is stored in the database. SEOC data is associated with patient data in the VistA consult record.

The second tier is the Abstraction Tier. This tier acts as the data broker for the SEOC system. It is a REST Application Programming Interface (API), built as a microservice hosted on container infrastructure (Docker Container). The API itself is built on the Spring MVC framework. The API receives web API calls that are forwarded to the database appropriately. Consuming applications are able to query the SEOC system through the SEOC REST API but will not be able to perform updated operations. The SEOC UI uses certificates to authenticate with the SEOC REST API to allow data modification within the SEOC system by authenticated users. Users are authenticated using SSOI. Additionally, a VistA/MUMPS patch is created to insert the SEOC associations into File # 123.
The third and final tier is the Presentation Tier. This tier consists of the SEOC UI, which provides a user interface for approved, authenticated users to maintain the SEOC collection. This application is a web application built as a microservice hosted on container infrastructure (Docker Container). The UI is built using the React.js JavaScript framework for web applications.

### 2.2. Data Flows

![SEOC Data Flow Diagram]

#### 2.3. User Access Levels

SEOC user profiles comprise of the following "types of users":

- **SEOC Content Authors**: The SEOC Content Authors are responsible for creating and update the content within the SEOC repository using the SEOC UI. These users are required to VA access rights and privileges and will sign on to the SEOC application using their SSOI credentials (typically their PIV and access code).
- **CPRS Clinicians** that are responsible for documenting patient consult records. These clinicians utilize the SEOC content as part of their daily consult creation workflow such that they will add a SEOC bundle to the patient consult record which will provide for a standardized documentation and care plan approach across the VA for these consults.
• SEOC data is also accessible to other external consumers in the future (in addition to CPRS users). The SEOC API is a RESTFul API that other (to be determined) users will have access to use.

2.4. Continuity of Operation
The SEOC system is maintained by Enterprise Operations (EO). The continuity of operations is managed by EO.

3. Getting Started
This section provides a general walkthrough of CC SEOC from initiation through exit.

3.1. Logging On
CC SEOC is accessed using the VA Single Sign-On Internal (SSOi) log in using the following URL: https://seoc.va.gov/

Figure 3: VA Single Sign-On for SEOC

**NOTE:** After 15 minutes of inactivity the system will automatically log you out.
3.2. System Menu

The Standardized Episodes of Care home page offers five features: Filter by Status, Filter by Name, Manage Users, View Selected SEOC, and Draft New SEOC. The home page also displays the user name at the top right of the page.

Figure 4: Standardized Episodes of Care Home Page

3.3. Changing User ID and Password

If you need to change your user password, you will need to contact your local PIV office.

3.4. Exit System

If you are finished working, log out of VA Single Sign-On and close any secure sessions that may still be open by clicking the Logout button.
4. Using the Software

The CC SEOC provides user functionality for the following items:

- Manage Users
  - Viewing SEOC Users
    - Filtering Users
  - Delete a Selected User
  - Edit a Selected User
  - Add a New User
- Viewing SEOCs
  - View a Selected SEOC
  - Search for a SEOC by Name
  - Filter SEOCs by Status
  - Discontinue a SEOC
  - Print a SEOC
- Create a Draft SEOC
  - Edit a Draft SEOC
  - Activate a Draft SEOC
  - Delete a Draft SEOC
- Create a Pending Revision
- Payable Service List
  - View Payable Services
  - Delete Payable Services

4.1. Manage Users

4.1.1. Viewing SEOC Users

To view the list of users in SEOC, follow the steps listed below:

1. From the CC SEOC home page, click Manage Users. The User Management window displays.
4.1.1.1. Filtering Users

To filter the list of users in SEOC by role or name, follow the steps listed below:

1. From the CC SEOC home page, click Manage Users. The User Management window displays.
2. To filter the list of users by role, select ALL, VIEWER, AUTHOR, PUBLISHER, or ADMINISTRATOR from the Filter by Role drop-down menu. The list refreshes to display the role selected.
3. To filter the list of users by name, enter the name in the Filter by Name (contains) field. The list refreshes to display the name or characters entered in the field.
4.1.2. **Delete a Selected User**

To delete a user from the User Management list, follow the steps listed below:

1. From the CC SEOC home page, click **Manage Users**. The **User Management** window displays.
2. From the list of users, select the user that you would like to delete.
3. Click **Delete Selected User**. A message displays confirming that you would like to delete the user.
4. Click **Confirm Deletion**. The user is deleted from the list.

4.1.3. **Edit a Selected User**

To edit a user in SEOC, follow the steps listed below:
1. From the CC SEOC home page, click Manage Users. The User Management window displays.
2. From the list of users, select the user that you would like to edit.
3. Click Edit Selected User. The editable fields display.

![Figure 8: Editable User Fields](image)

4. Edit the User Name, Role, VA Network ID, and Domain fields as needed.
5. Click Save. The updated user will display in the list of users.

### 4.1.4. Add a New User

To delete a user from the User Management list, follow the steps listed below:

1. From the CC SEOC home page, click Manage Users. The User Management window displays.
2. Click Add New User.

![Figure 9: Add New User Fields](image)
3. In the **User Name** field, enter the users name.
4. From the **Role** menu, select **Viewer, Author, Publisher,** or **Administrator.**
5. In the **VA Network ID** field, enter the name of the VA network.
6. In the **Domain** field, enter the name of the domain.

### 4.2. View SEOCs

#### 4.2.1. View a Selected SEOC

To view a SEOC from the SEOC list, follow the steps listed below:

1. From the CC SEOC home page, select the SEOC you would like to view.
2. Click **View Selected SEOC.** The **Standardized Episode of Care – Provider Information** page displays.

**Figure 10: Standardized Episode of Care – Provider Information**

![SEOC Image]

**NOTE:** The **QASP** field is displayed on the screen, however, additional options for data entry will be available with the next release of the software.
4.2.2. **Search for a SEOC by Name**

To search for a SEOC, follow the steps listed below:

1. From the CC SEOC home page, enter the name of the SEOC in the **Filter by Name (contains)** field.

2. Click the **Search** button. The **Search SEOC Results** displays.

---

### Figure 11: SEOC Filter Field

---

### Figure 12: Search SEOC Results

---

4.2.3. **Filter SEOCs by Status**

To filter the list of SEOCs by status, follow the steps listed below:

1. From the CC SEOC home page, select **Filter By Status** menu.
Figure 13: Filter Status By Menu Options

2. From the list of options select to filter by: **All, Active, Draft, or Discontinued.** The SEOC list refreshes to display the status filtered by.

4.2.4. **Discontinue a SEOC**

To discontinue a selected Active SEOC, follow the steps listed below:

1. From the CC SEOC home page, select the SEOC you would like to discontinue.
2. Click **View Selected SEOC**, the **Standardized Episode of Care – Provider Information** page displays.
3. Click **Discontinue SEOC**. The discontinue SEOC confirmation dialog box displays.

Figure 14: Discontinue SEOC Confirmation

4. Click **Confirm Discontinue**. The **Standardized Episode of Care – Provider Information** page displays with the updated status of the SEOC.
4.2.5. Print a SEOC

To print a SEOC, follow the steps listed below:

1. From the CC SEOC home page, select the SEOC you would like to print.
2. Click View Selected SEOC, the Standardized Episode of Care – Provider Information page displays.
3. Click Print SEOC. The printed SEOC will display in another window. Print or save using local browser capabilities.
4.2.6. **Track Version Changes**

To track the version changes of a SEOC, follow the steps listed below:

1. From the CC SEOC home page, select the SEOC you would like to track the version changes.
2. Click **View Selected SEOC**, the **Standardized Episode of Care – Provider Information** page displays.
3. Click **Track Version Changes**. The tracked changes display.
4.3. Create a Draft SEOC

To draft a new SEOC, follow the steps listed below:

1. From the CC SEOC home page, click **Draft New SEOC**. The **Draft SEOC: Name** window displays.

---

**Figure 17: Tracked Version Changes**

![Image of SEOC administration interface](image)

**Figure 18: Draft SEOC: Name**

![Image of SEOC draft interface](image)
2. In the **SEOC Name** field, enter the name for the new SEOC (required field).
3. From the **Service Line** menu, select a service line (required field).
4. Click **Add/Edit SEOC Details**. The **Draft SEOC: Details** window displays.

**Figure 19: Draft SEOC Details**

5. From the **Category of Care** drop-down menu, select the category.
6. In the **Max Visits** field, enter the maximum number of visits.
7. In the **Duration (days)** field, enter the duration.
8. From the **PAL** drop-down menu, select **Yes** or **No**.
9. From the **QASP** drop-down menu, select a QASP:
   - Complimentary & Integrative Health Care
   - General Care
   - General Dental Care
o Primary Care
o Specialty Dental Care

10. In the Description field, enter a description for the procedure. The maximum amount of characters for this field is 500.

11. In the Procedural Overview field, enter an overview on the procedure. The maximum amount of characters for this field is 5000.

12. In the Additional Information field, enter additional information regarding the procedure. The maximum amount of characters for this field is 2000.

14. Click Add New Service to SEOC. The Draft SEOC: Add Payable Service section displays at the bottom of the page.
15. In the **Description** field, enter a description for the payable service (required field).
16. From the **Clinical Service** drop-down menu, select the type of service (required field).
17. In the **Allowable Visits** field, enter the number of allowed visits.
18. In the **Frequency (visits/period)** field, enter the number of visits and select if it is per week, month, or year (required field).
20. Select the billing code option for the Payable Service. If No Code Required is selected, the PreCert Required field defaults to Yes.

21. Click the Add Selected Code to Service. If you attempt to duplicate a billing code for the payable service, you will receive an error message.

22. Click Done. The Payable Services will display.
23. Click View SEOC. The Draft SEOC View displays.
4.3.1. **Edit a SEOC In-Progress**

**NOTE:** If a user attempts to edit a SEOC that another user is already editing, the user will receive a message stating that the request can’t be processed.

To edit a draft SEOC that is in-progress, follow the steps listed below:

1. From the CC SEOC home page, select the SEOC you would like to edit.
2. Click **View Selected SEOC**, the **Standardized Episode of Care – Provider Information** page displays.
3. Click **EDIT SEOC**. The **In-Progress SEOC Name** window displays.
4. Edit the fields that need to be updated.
5. Click **View SEOC** to confirm the edits.

4.3.2. **Activate a Draft SEOC**

To activate a draft SEOC, follow the steps listed below:

1. From the CC SEOC home page, select the draft SEOC you would like to activate.
2. Click **View Selected SEOC**, the **Standardized Episode of Care – Provider Information** page displays.
3. Click **Activate SEOC**. The **SEOC Activation Effective Date** dialog box displays.

![Figure 26: SEOC Activation Effective Date](image)

4. In the **Effective Date**: fields, enter the date you would like to activate the SEOC.
5. Click **Confirm Activation**. The status will update and display as **Date Hold**.
4.3.3. Delete a Draft SEOC

To delete a Draft or Pending Revision SEOC, follow the steps listed below:

1. From the CC SEOC home page, select the draft SEOC you would like to delete.
2. Click View Selected SEOC, the Standardized Episode of Care – Provider Information page displays.
3. Click Delete SEOC. The Confirm Deletion dialog box displays.
4. Click **Confirm Deletion**. The SEOC is deleted from the SEOC List.

### 4.4. Pending Revisions

#### 4.4.1. Create a Pending Revision

To create a pending revision to an existing SEOC, follow the steps listed below:

1. From the CC SEOC home page, select the draft SEOC you would like to create a pending revision.
2. Click **View Selected SEOC**, the **Standardized Episode of Care – Provider Information** page displays.
3. Click **Create Pending Revision**. The **Pending Revision: Name** window displays.

![Figure 29: Pending Revision: Name](image)

4. Update the SEOC name and service line as needed.
5. Click **Add/Edit SEOC Details**. The **Pending Revision: Details** window displays.
6. Update the details for the SEOC as needed.
7. Click Add/Edit Payable Services. The Pending Revision: Payable Services window displays.
8. Update the Payable Services as needed.
9. Click View SEOC. The Pending Revision status will display in the window.

10. Click Return to SEOC List. The pending revision will display in the list of SEOCs.
4.4.2. Activate a Pending Revision

To activate a pending revision, follow the steps listed below:

1. From the CC SEOC home page, select the pending revision SEOC that you would like to activate.
2. Click View Selected SEOC, the Standardized Episode of Care – Provider Information page displays.
3. Click Activate SEOC.
4. In the Effective Date: fields, enter the date you would like to activate the SEOC.
5. Click Confirm Activation. The status will update and display as Date Hold.
6. Click Return to SEOC List. The pending revision that you just activated will display as Date Hold in the list of SEOCs.

4.5. Payable Service List

4.5.1. View Payable Services

To view the payable services for a selected SEOC, follow the steps listed below:

1. From the CC SEOC home page, select the SEOC you would like to view the payable services for.
2. Click View Selected SEOC, the Standardized Episode of Care – Provider Information page displays.
3. Scroll to the bottom of the page to view the Payable Services list.
4.5.2. **Delete Payable Service**

To delete payable services for a selected SEOC, follow the steps listed below:

1. From the CC SEOC home page, select the SEOC you would like to view the payable services for.
2. Click **View Selected SEOC**, the Standardized Episode of Care – Provider Information page displays.
3. From the Standardized Episode of Care – Provider Information page, click **Edit SEOC**. The Draft SEOC Name window displays.
4. Click **Add/Edit SEOC Details**. The Draft SEOC Details window displays.
5. Click **Add/Edit Payable Services**. The Draft SEOC Payable Services window displays.
6. From the list of payable services, select the payable service that you would like to delete.
7. Click **Remove Selected Service from SEOC**. A message will display confirming that you would like to delete the payable service from the SEOC.
