Artifact Rationale

Per the Veteran-focused Integrated Process (VIP) Guide, the User’s Guide is required to be completed prior to Critical Decision Point #2 (CD2), with the expectation that it will be updated as needed. A User Guide is a technical communication document intended to give assistance to people using a particular system, such as VistA end users. It is usually written by a technical writer, although it can also be written by programmers, product or project managers, or other technical staff. Most user guides contain both a written guide and the associated images. In the case of computer applications, it is usual to include screenshots of the human-machine interfaces, and hardware manuals often include clear, simplified diagrams. The language used is matched to the intended audience, with jargon kept to a minimum or explained thoroughly. The User Guide is a mandatory, build-level document, and should be updated to reflect the contents of the most recently deployed build. The sections documented herein are required if applicable to your product.

CC SEOC v1.8.0
User Guide

June 2019
1. Introduction

The Care Coordination (CC) Standardized Episodes of Care (SEOC) is a reference database for managing care bundles for use by Veterans Information Systems and Technology Architecture (VistA) and other Department of Veterans Affairs (VA) systems. Services are grouped together within the SEOC system into bundles so that clinicians can add these bundles to patients consult records in a standardized fashion, reducing the amount of time spent manually entering consult instructions, and providing uniformity among the patient records and across facilities for how patient care is prescribed for similar complaints.

These bundles group together one or more services that are preselected for different specialties to be added to the consult records. In addition, the clinician is provided with information regarding prescribing rules and preauthorization requirements, so they can make the most informed decisions regarding patient care.

Additionally, SEOC data will be accessible outside of the VistA/Computerized Patient Record System (CPRS) system so that users of downstream applications will be accessing the centralized data, and SEOC descriptions, reducing the chances of disconnects.

1.1. Purpose

The purpose of this document is to provide instruction for utilizing the SEOC application to standardize and streamline consult management for Community Care.

1.2. Document Orientation

The Care Coordination (CC) Standard Episodes of Care (SEOC) v1.8.0 User Guide will provide explanations of each screen and of all user interface options within the context of an easy to understand demonstration data scenario.

This document is also designed to provide the user with screen-by-screen “how to” information on the usage of CC SEOC.

1.2.1. Organization of the Manual

Section 1: Introduction

The Introduction section provides the purpose of this manual, an overview of the SEOC software, an overview of the software used, project references, contact information for the user to seek additional information, and an acronyms and abbreviations list for this manual.

Section 2: System Summary

The System Summary section provides a graphical representation of the equipment, communication, and networks used by the system, user access levels, how the software will be accessed, and contingencies and alternative modes of operation.
**Section 3: Getting Started**

Information for the Getting Started section provides a general walk-through of the system from initiation through exit, enabling the user to understand the sequence and flow of the system.

**Section 4: Using the Software**

This section gives the user the “how to” information to use SEOC, including many step-by-step procedures.

**Section 5: Troubleshooting**

This section provides troubleshooting for the SEOC user.

**Section 6: Acronyms and Abbreviations**

This section provides a list of acronyms and abbreviations found in this document.

1.2.2. **Assumptions**

This guide was written with the following assumed experience/skills of the audience:

- The SEOC user has basic knowledge of the SEOC system (such as the use of commands, menu options, and navigation tools).
- The SEOC user has been provided the appropriate active roles, menus, and security keys required for the SEOC User Interface (UI), as defined below in User Roles.
- The SEOC user is using SEOC to perform their daily consult creation workflow and perform the required SEOC functions.
- The SEOC user has validated access to the SEOC UI.
- The SEOC user has been provided training on the SEOC UI and has reviewed the User Guide.
- SEOC Content Authors: The SEOC Content Authors are responsible for creating and update the content within the SEOC repository using the SEOC UI. These users are required to VA access rights and privileges and will sign on to the SEOC application using their SSOI credentials (typically their PIV and access code).
- CPRS Clinicians that are responsible for documenting patient consult records. These clinicians utilize the SEOC content as part of their daily consult creation workflow such that they will add a SEOC bundle to the patient consult record which will provide for a standardized documentation and care plan approach across the VA for these consults.

1.2.3. **Coordination**

One Consult - Consult Toolbox 1.9.02 and above and the HealthShare Referral Manager (HSRM) depend on the availability of the SEOC System. Consult Toolbox 1.9.02 requires active SEO Cs whereas HSRM requires active and discontinued SEO Cs. Coordination between the One Consult – Consult Toolbox, HSRM, and SEOC team is necessary with any updates to SEOC.
1.2.4. **Disclaimers**

1.2.4.1. **Software Disclaimer**

This software was developed at the Department of Veterans Affairs (VA) by employees of the Federal Government in the course of their official duties. Pursuant to title 17 Section 105 of the United States Code this software is not subject to copyright protection and is in the public domain. VA assumes no responsibility whatsoever for its use by other parties, and makes no guarantees, expressed or implied, about its quality, reliability, or any other characteristic. We would appreciate acknowledgement if the software is used. This software can be redistributed and/or modified freely provided that any derivative works bear some notice that they are derived from it, and any modified versions bear some notice that they have been modified.

1.2.4.2. **Documentation Disclaimer**

The appearance of external hyperlink references in this manual does not constitute endorsement by the Department of Veterans Affairs (VA) of this Web site or the information, products, or services contained therein. The VA does not exercise any editorial control over the information you may find at these locations. Such links are provided and are consistent with the stated purpose of the VA.

1.2.5. **Documentation Conventions**

This manual uses several methods to highlight different aspects of the material.

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>!</td>
<td><strong>CAUTION:</strong> Used to caution the reader to take special notice of critical information.</td>
</tr>
</tbody>
</table>

*NOTE:* Notes are used to inform the reader of general information including references to additional reading material.

1.2.6. **References and Resources**

Readers who wish to learn more about CPRS and CC SEOC should consult the following:

1.3. **National Service Desk and Organizational Contacts**

For issues related to the CC SEOC that cannot be resolved by this manual or the site administrator, please contact the National Service Desk at 855-NSD-HELP (673-4357).

2. **System Summary**

There was an immediate need to provide clinicians the ability to quickly and consistently add care bundles to a patient’s consult record within VistA. SEOC provides this feature for a higher
level of uniformity in patient care, easier access to appropriate services, based on initial diagnoses, and the ability to better control care costs. SEOC allows clinicians to enhance the coordination of care for the Veteran.

The system contains SEOCs, or care bundles, that clinicians or other designated individuals can assign to VA patients. These bundles allow for the consistent use of procedures when certain conditions are diagnosed. This consistency allows the VA to effectively manage patient care and provides easier traceability.

2.1. System Configuration

The SEOC System is designed to be a simple reference database with a supporting SEOC API and User Interface (UI) layer. The SEOC system comprises three application tiers as shown below.

![Figure 1: Overview of SEOC System](image)

The first tier is the Data Tier. This tier contains SEOC data. SEOC uses Microsoft Structured Query Language (SQL) Server is the database. SEOC data consists of reference data, such as SEOC name, associated procedures, associated Current Procedural Terminology (CPT) codes, procedure durations, etc. Additionally, user role information is maintained within the tables, but no passwords or other credentials are stored. No PHI or PII is stored in the database. SEOC data is associated with patient data in the VistA consult record.

The second tier is the Abstraction Tier. This tier acts as the data broker for the SEOC system. It is a REST Application Programming Interface (API), built as a microservice hosted on container infrastructure (Docker Container). The API itself is built on the Spring MVC framework. The API receives web API calls that are forwarded to the database appropriately. Consuming applications are able to query the SEOC system through the SEOC REST API but will not be able to perform updated operations. The SEOC UI uses certificates to authenticate with the SEOC REST API to allow data modification within the SEOC system by authenticated users.
Users are authenticated using SSOI. Additionally, a VistA/MUMPS patch is created to insert the SEOC associations into File # 123.

The third and final tier is the Presentation Tier. This tier consists of the SEOC UI, which provides a user interface for approved, authenticated users to maintain the SEOC collection. This application is a web application built as a microservice hosted on container infrastructure (Docker Container). The UI is built using the React.js JavaScript framework for web applications.

2.2. Data Flows

![SEOC Data Flow Diagram]

2.3. User Access Levels

SEOC user profiles comprise of the following “types of users”:

- **SEOC Content Authors**: The SEOC Content Authors are responsible for creating and update the content within the SEOC repository using the SEOC UI. These users are required to VA access rights and privileges and will sign on to the SEOC application using their SSOI credentials (typically their PIV and access code).

- **CPRS Clinicians** that are responsible for documenting patient consult records. These clinicians utilize the SEOC content as part of their daily consult creation workflow such
that they will add a SEOC bundle to the patient consult record which will provide for a standardized documentation and care plan approach across the VA for these consults.

- SEOC data is also accessible to other external consumers in the future (in addition to CPRS users). The SEOC API is a RESTFul API that other (to be determined) users will have access to use.

2.4. **Continuity of Operation**

The SEOC system is maintained by Enterprise Operations (EO). The continuity of operations is managed by EO.

3. **Getting Started**

This section provides a general walkthrough of CC SEOC from initiation through exit.

3.1. **Logging On**

CC SEOC is accessed using the VA Single Sign-On Internal (SSOi) log in using the following URL: [https://seoc.va.gov/](https://seoc.va.gov/)

![Figure 3: VA Single Sign-On for SEOC](image)

**NOTE:** After 15 minutes of inactivity the system will automatically log you out. After 13 minutes of inactivity the system will prompt you to extend your session.
3.2. **System Menu**

The Standardized Episodes of Care home page offers seven features: **Filter by Status**, **Filter by Name**, **Manage Users**, **Export SEOC Data**, **Manage Billing Codes**, **View Selected SEOC**, and **Draft New SEOC**. The home page also displays the user name at the top right of the page.

Standardized Episodes of Care table fields:

- **Service Line** – The VA department that is responsible for the type of work authorized by the SEOC.
- **SEOC Name** – The name of the SEOC.
- **Version** – The version number of the SEOC. The version number is formatted A.B.C where the first digit represents the CC Program in effect when the SEOC is first
published, the second digit is the number of published SEOCs in the same Category of Care when a new SEOC is activated, and the third digit is a serialized revision number.

- **Effective Date** – The date the SEOC was activated.
- **End Date** – The date the SEOC was discontinued.
- **Status** – The status of the SEOC: **Active**, **Date Hold**, **Discontinued**, or **In-Progress**.

### 3.3. Changing User ID and Password

If you need to change your user password, you will need to contact your local PIV office.

### 3.4. Exit System

If you are finished working, log out of VA Single Sign-On and close any secure sessions that may still be open by clicking the **Logout** button.

### 4. Using the Software

The CC SEOC provides user functionality for the following items:

- **Manage Users**
  - Viewing SEOC Users
    - Filtering Users
  - Delete a Selected User
  - Edit a Selected User
  - Add a New User
- **Export SEOC Data**
- **Manage Billing Codes**
- **Viewing SEOCs**
  - View a Selected SEOC
  - Search for a SEOC by Name
  - Filter SEOCs by Status
  - Discontinue a SEOC
  - Print a SEOC
- **Create a Draft SEOC**
  - Edit a Draft SEOC
  - Activate a Draft SEOC
  - Delete a Draft SEOC
- **Create a Pending Revision**
- **Payable Service List**
  - View Payable Services
  - Delete Payable Services
4.1. Manage Users

4.1.1. Viewing SEOC Users

To view the list of users in SEOC, follow the steps listed below:

1. From the CC SEOC home page, click Manage Users. The User Management window displays.

![User Management](image)

4.1.1.1. Filtering Users

To filter the list of users in SEOC by role or name, follow the steps listed below:

1. From the CC SEOC home page, click Manage Users. The User Management window displays.
2. To filter the list of users by role, select All, Viewer, Analyst, Author, Publisher, or Administrator from the Filter by Role drop-down menu. The list refreshes to display the role selected.
3. To filter the list of users by name, enter the name in the Filter by Name (contains) field. The list refreshes to display the name or characters entered in the field.
4.1.2. Delete a Selected User

To delete a user from the User Management list, follow the steps listed below:

1. From the CC SEOC home page, click Manage Users. The User Management window displays.
2. From the list of users, select the user that you would like to delete.
3. Click Delete Selected User. A message displays confirming that you would like to delete the user.
4. Click Confirm Deletion. The user is deleted from the list.

4.1.3. Edit a Selected User

To edit a user in SEOC, follow the steps listed below:

1. From the CC SEOC home page, click Manage Users. The User Management window displays.
2. From the list of users, select the user that you would like to edit.
3. Click **Edit Selected User**. The editable fields display.

**Figure 9: Editable User Fields**

4. Edit the **User Name**, **Role**, **VA Network ID**, and **Domain** fields as needed.

5. Click **Save**. The updated user will display in the list of users.

### 4.1.4. Add a New User

To delete a user from the User Management list, follow the steps listed below:

1. From the CC SEOC home page, click **Manage Users**. The **User Management** window displays.

2. Click **Add New User**.
3. In the **User Name** field, enter the users name.
4. From the **Role** menu, select **Viewer**, **Analyst**, **Author**, **Publisher**, or **Administrator**.
5. In the **VA Network ID** field, enter the name of the VA network.
6. In the **Domain** field, enter the name of the domain.

### 4.2. Managing Billing Codes

**NOTE:** When updating the Billing Codes, SEOC will go into maintenance mode. SEOC users will be unable to update the system until the Admin has completed managing the billing codes.

**NOTE:** Maintenance mode can be turned off by any Admin.

**NOTE:** When you click on Return to SEOC list from Billing Code Management, it will automatically turn maintenance mode off.

To manage the billing codes in SEOC, follow the steps listed below:

1. From the CC SEOC home page, click **Manage Billing Codes**. The **Billing Code Management** window displays.
4.2.1. Deleting Billing Codes

To delete billing codes in SEOC, follow the steps listed below:

1. From the CC SEOC home page, click Manage Billing Codes. The Billing Code Management window displays.
2. From the list of billing codes, select the code that you would like to delete.
3. Click Delete Billing Code.

NOTE: Verify that you want to delete the billing code listed, as the changes will affect the SEOCs listed in the Active and In-Progress tables.
4. Click **Confirm**. A message will display confirming that the billing code was deleted and the billing code will no longer display in the list.

### 4.2.2. Editing Billing Codes

To manage the billing codes in SEOC, follow the steps listed below:

1. From the CC SEOC home page, click **Manage Billing Codes**.
2. From the list of billing codes, select the code that you would like to edit.

![Figure 13: Edit Billing Code](image)

4. Update the **Billing Code** field as needed. The maximum number of characters for this field is **25**.
5. From the **Type** field, select the correct option: CPT, DRG, HCPCS, HIPPS.
6. Update the **Description** field as needed. The maximum number of characters for this field is **2,000**.
7. From the **PreCert Required** field, select the correct option: **NO** or **YES**.
8. Click **Continue**.
Figure 14: Edit Billing Code Confirmation Message

NOTE: Verify that you want to delete the billing code listed, as the changes will affect the SEOCs listed in the Active and In-Progress tables.

9. Click Confirm. A confirmation message will display stating that the edits were made to the billing code.

4.3. View SEOCs

4.3.1. View a Selected SEOC

To view a SEOC from the SEOC list, follow the steps listed below:

1. From the CC SEOC home page, select the SEOC you would like to view.
2. Click View Selected SEOC. The Standardized Episode of Care – Provider Information page displays.
4.3.2. Search for a SEOC by Name

To search for a SEOC, follow the steps listed below:

1. From the CC SEOC home page, enter the name of the SEOC in the Filter by Name (contains) field.

2. Click the Search button. The Search SEOC Results displays.
4.3.3. Filter SEOCs by Status

To filter the list of SEOCs by status, follow the steps listed below:

1. From the CC SEOC home page, select **Filter By Status** menu.

   ![Figure 18: Filter by Status Menu Options](image)

2. From the list of options select to filter by: **All**, **Active**, **Date Hold**, **Discontinued**, or **In-Progress**. The SEOC list refreshes to display the status filtered by.

4.3.4. Discontinue a SEOC

To discontinue a selected Active SEOC, follow the steps listed below:

1. From the CC SEOC home page, select the SEOC you would like to discontinue.

2. Click **View Selected SEOC**, the **Standardized Episode of Care – Provider Information** page displays.
3. Click **Discontinue SEOC**. The discontinue SEOC confirmation dialog box displays.

![Figure 19: Discontinue SEOC Confirmation](image)

SEOC will be discontinued as of today: X

End Date: 05/14/2019

- [Cancel](#)
- [Confirm Discontinue](#)

4. Click **Confirm Discontinue**. The **Standardized Episode of Care – Provider Information** page displays with the updated status of the SEOC.

![Figure 20: Discontinued Status](image)

4.3.5. **Print a SEOC**

To print a SEOC, follow the steps listed below:

1. From the CC SEOC home page, select the SEOC you would like to print.
2. Click **View Selected SEOC**, the **Standardized Episode of Care – Provider Information** page displays.
3. Click **Print SEOC**. The printed SEOC will display in another window. Print or save using local browser capabilities.
4.3.6. Track Version Changes

To track the version changes of a SEOC, follow the steps listed below:

1. From the CC SEOC home page, select the SEOC you would like to track the version changes.
2. Click View Selected SEOC, the Standardized Episode of Care – Provider Information page displays.
3. Click Track Version Changes. The tracked changes display.
4.4. Draft a New SEOC

To draft a new SEOC, follow the steps listed below:

1. From the CC SEOC home page, click **Draft New SEOC**. The **Draft SEOC: Name** window displays.
2. In the **SEOC Name** field, enter the name for the new SEOC (required field).
3. From the **Service Line** menu, select a service line (required field).
4. Click **Add/Edit SEOC Details**. The **Draft SEOC: Details** window displays.

![Figure 24: Draft SEOC Details](image)

5. From the **Category of Care** drop-down menu, select the category.
6. In the **Duration (days)** field, enter the duration.
7. From the **PAL** drop-down menu, select **Yes** or **No**.
8. From the **QASP** drop-down menu, select a QASP:
   - Complimentary & Integrative Health Care
   - General Care
   - General Dental Care
   - Primary Care
   - Specialty Dental Care
9. From the **PAL** drop-down menu, select **No** or **Yes**.
10. In the **Description** field, enter a description for the procedure. The maximum amount of characters for this field is 500.
11. In the **Procedural Overview** field, enter an overview on the procedure. The maximum amount of characters for this field is 5000.
12. In the **Additional Information** field, enter additional information regarding the procedure. The maximum amount of characters for this field is 2000.
13. Click **Add/Remove HPTCs**. The **Add/Remove HPTCs** window displays.
14. Click **Add new HPTCs to SEOC**. A list of provider taxonomy codes displays.

![Figure 25: Add/Remove HPTCs](image)

![Figure 26: Provider Taxonomy Code List](image)
15. From the list of provider taxonomy codes select the HPTC to add to the SEOC. Another option is to use the Filter HPTC table by text (contains) field to filter the list of HPTCs and select the HPTCs from the filtered list.

**NOTE:** You must add at least one HPTC to activate the SEOC.

16. Click **Add highlighted HPTC to SEOC**. A confirmation message displays telling you the HPTC was added.

17. Click **Done**. The selected HPTC displays.

![Figure 27: Selected HPTC](image)

18. Click **Add/Edit Payable Services**. The Draft SEOC: Payable Services window displays.
19. Click Add New Service to SEOC. The Draft SEOC: Add Payable Service section displays at the bottom of the page.
20. In the **Description** field, enter a description for the payable service (required field).
21. In the **Allowable Visits** field, enter the number of allowed visits.
22. From the **Clinical Service** section, click **Add Clinical Service** (required field).

**Figure 30: Manage Clinical Services for Payable Service**

23. From the list of clinical services, select the service.
24. Click **Add Clinical Service to Payable Service**. A confirmation message displays telling you the clinical service was added.
25. Click **Done**. The clinical service displays in the **Clinical Service** field.
26. In the **Frequency (visits/period)** field, enter the number of visits and select if it is per week, month, or year (required field).

28. Select the billing code option for the Payable Service. If No Code Required is selected, the PreCert Required field defaults to Yes. If the billing code is not listed, proceed to the substeps below.

   a. If the billing code is not listed, select Define New Code. The Define New Code dialog box displays.

   b. In the Billing Code field, enter the new code. The maximum number of characters for this field is 25.

   c. From the Type field, select the correct option: CPT, DRG, HCPCS, HIPPS.

   d. In the Description field, enter a description for the new code. The maximum number of characters for this field is 2,000.

   e. From the PreCert Required field, select the option: NO or YES.
29. Click the **Add Code to Payable Service**. If you attempt to duplicate a billing code for the payable service, you will receive an error message.

**Figure 34: Duplicate Billing Code Message**

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>Search by billing code</td>
</tr>
</tbody>
</table>

Correct the following before proceeding:
- The billing code 00000001a is already associated with this Payable Service

30. Click **Done**. The **Payable Services** displays.

**Figure 35: Billing Code**

<table>
<thead>
<tr>
<th>Billing Codes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Billing Code</td>
</tr>
<tr>
<td>00940</td>
</tr>
</tbody>
</table>

31. Click **Done**. The **Payable Services** window displays.
32. Click View SEOC. The Draft SEOC View displays.
4.4.1. Edit an In-Progress SEOC

**NOTE:** If a user attempts to edit a SEOC that another user is already editing, the user will receive a message stating that the request can’t be processed.

**NOTE:** If a user attempts to edit a SEOC while the system is in maintenance mode for Billing Code Management, the user will receive a message stating that the request can’t be processed.

To edit a SEOC that is currently marked as In-Progress, follow the steps listed below:

1. From the CC SEOC home page, select the SEOC you would like to edit.
2. Click View Selected SEOC, the Standardized Episode of Care – Provider Information page displays.
3. Click EDIT SEOC. The In-Progress SEOC Name window displays.
4. Edit the fields that need to be updated.
5. Click View SEOC to confirm the edits.

4.4.2. Activate an In-Progress SEOC

To activate a SEOC that is currently marked as In-Progress, follow the steps listed below:

1. From the CC SEOC home page, select the SEOC you would like to activate.
2. Click View Selected SEOC, the Standardized Episode of Care – Provider Information page displays.
3. Click Activate SEOC. The SEOC Activation Effective Date dialog box displays.
4. In the Effective Date field, enter the date to activate the SEOC.
5. Click Confirm Activation. The status will update and display as Date Hold.
4.4.3. Delete an In-Progress SEOC

To delete a SEOC that is currently marked as In-Progress, follow the steps listed below:

1. From the CC SEOC home page, select the draft SEOC you would like to delete.
2. Click View Selected SEOC, the Standardized Episode of Care – Provider Information page displays.
3. Click Delete SEOC. The Confirm Deletion dialog box displays.
4. Click Confirm Deletion. The SEOC is deleted from the SEOC List.

4.5. Pending Revisions

4.5.1. Create a Pending Revision

To create a pending revision to an existing SEOC, follow the steps listed below:
1. From the CC SEOC home page, select the active SEOC you would like to create a pending revision.

2. Click View Selected SEOC, the Standardized Episode of Care – Provider Information page displays.

3. Click Create Pending Revision. The Pending Revision: Name window displays.

   **Figure 41: Pending Revision: Name**

4. Update the SEOC name and service line as needed.

5. Click Add/Edit SEOC Details. The Pending Revision: Details window displays.
6. Update the details for the SEOC as needed.

7. Click Add/Remove HPTCs. The Pending Revision: SEOC Provider Taxonomy Codes window displays.

8. Update the taxonomy codes as needed.

**Figure 44: Pending Revision: Payable Services**

10. Update the Payable Services as needed.

11. Click View SEOC. The Pending Revision status will display in the window.

**Figure 45: Pending Revision Status**
12. Click **Return to SEOC List**. The pending revision will display in the list of SEOCs.

![Figure 46: Pending Revision Displayed in SEOC List](image)

4.5.2. **Activate a Pending Revision**

To activate a pending revision, follow the steps listed below:

1. From the CC SEOC home page, select the pending revision SEOC that you would like to activate.
2. Click **View Selected SEOC**, the Standardized Episode of Care – Provider Information page displays.
3. Click **Activate SEOC**.

![Figure 47: Pending Revision Activation Confirmation Message](image)
4. In the **Effective Date** field, enter the date to activate the SEOC.
5. Click **Confirm Activation**. The status will update and display as **Date Hold**.

**Figure 48: Date Hold Status**

6. Click **Return to SEOC List**. The pending revision that you just activated will display as **Date Hold** in the list of SEOCs.

### 4.5.3. Revert SEOC to In-Progress

If you need to revert the selected SEOC to In-Progress, follow the steps listed below:

1. From the CC SEOC home page, select the SEOC with a Date Hold status that you would like to revert to In-Progress.
2. Click **View Selected SEOC**, the **Standardized Episode of Care – Provider Information** page displays.
3. Click **Revert SEOC to In-Progress**. The **Revert SEOC to In-Progress** dialog box displays.

**Figure 49: Revert SEOC to In-Progress**

**SEOC will be reverted back to In-Progress:**

[Options: Cancel, Confirm]
4. Click Confirm.

4.6. Payable Service List

4.6.1. View Payable Services

To view the payable services for a selected SEOC, follow the steps listed below:

1. From the CC SEOC home page, select the SEOC you would like to view the payable services for.
2. Click View Selected SEOC, the Standardized Episode of Care – Provider Information page displays.
3. Scroll to the bottom of the page to view the Payable Services list.

![Figure 50: Standardized Episode of Care – Payable Services](image)

4.6.2. Delete Payable Service

To delete payable services for a selected SEOC, follow the steps listed below:

1. From the CC SEOC home page, select the SEOC you would like to view the payable services for.
2. Click View Selected SEOC, the Standardized Episode of Care – Provider Information page displays.
3. From the Standardized Episode of Care – Provider Information page, click Create Pending Revision. The Draft SEOC Name window displays.
4. Click Add/Edit SEOC Details. The Draft SEOC Details window displays.
5. Click **Add/Remove HPTCs**. The **Add/Remove HPTCs** window displays.

6. Click **Add/Edit Payable Services**. The **Draft SEOC Payable Services** window displays.

7. From the list of payable services, select the payable service that you would like to delete.

8. Click **Remove Selected Service from SEOC**. A message will display confirming that you would like to delete the payable service from the SEOC.

   ![Figure 51: Payable Service Confirm Deletion](image)

9. Click **Confirm Deletion**. The payable service is deleted from the list.

### 4.7. Exporting SEOC Data

To export the data for a selected SEOC, follow the steps listed below:

1. From the CC SEOC home page, select the SEOC you would like to export the data for.

2. Click **Export SEOC Data** to download the SEOC. The file will be exported to a JSON file.

   ![Figure 52: Export SEOC Download Message](image)

3. Select to save the downloaded file.

   **NOTE:** Please refer to Appendix A for additional steps on converting the JSON file into an Excel file.

### 5. Troubleshooting

Users may encounter the following errors while using the SEOC UI.
Table 2: SEOC Error Codes with Descriptions

A. JSON Instructions

NOTE: The steps outlined below are for Outlook 2016.

To convert the SEOC JSON file to an Excel file, follow the steps listed below:

1. Download the SEOC JSON file to your desktop.
2. Open a blank workbook in Excel 2016.
3. Click the Data tab, then Get Data > From File > From JSON. The Import Data window displays.

Figure 53: Import Data Window

4. Select the JSON file you downloaded and click Import. Excel will open the file in the Query Editor.
5. Click the **List** header to the right of **Seocs** to display a list of records.

6. From the **Transform** tab, click the **Convert To Table** icon and click **OK**. The **To Table** dialog box displays.
7. From the To Table dialog box keep the default selections and click OK.
8. Click on the expand icon (<-||->) to the right of the Column1 header to display the Search Columns to Expand dialog box.

Figure 57: Search Columns to Expand Dialog Box
9. De-select the **Use original column name as prefix** check box.

10. Click **OK**.

11. Click on the expand icon (<-||->) to the right of the **Seoc** header to display the **Search Columns to Expand** dialog box.

![Figure 58: Search Columns to Expand](image)

12. Uncheck the **Use original column name as prefix** check box.

13. Click **OK**. The fields in the SEOC table will be expanded to columns as shown below.
14. Scroll right to the **services** column, click on the expand icon, and select **Expand to New Rows** to display the records.

**Figure 60: Expand to New Rows Menu Option**

15. Click the expand icon again and press **OK** to expand the Payable Services fields into columns.
16. Scroll right to the **billingCodes** column and repeat the last two steps to expand the **Billing Code** fields into columns.

**Figure 62: Billing Code Columns**

17. Optional - Repeat the last two steps again for the serviceHptcs column if you want to see the cross-walked HPTCs that are sent for each Payable Service.
18. Scroll right and repeat the last two steps again for the hptcs column to expand the HPTC fields that were assigned to each SEOC.

Figure 63: Expanded HPTC Fields

19. Click the Close & Load option at the left of the ribbon to create load the imported data into a spreadsheet tab.

Figure 64: Imported Data
