1. **Introduction**

The Ask A Pharmacist (AAP) mobile application provides users access to vetted information in an easy to use website link format without users needing to worry about locating valid information on their own via the Internet and/or potentially untrusted sources.

AAP also allows Veterans with verified My HealtheVet (MHV) accounts to access pharmacy services and secured messaging through their MHV account.

1.1. **Purpose**

The purpose of this AAP User Manual is to provide an overview, access procedures, and functionality usage procedures for the software. Also included in this manual is a general overview of the AAP application.

1.2. **Overview**

Veterans Health Administration (VHA), Patient Care Services (PCS), Pharmacy Benefits Management (PBM) requests a mobile application that expands patient care services by providing trusted medication resources and answers to frequently asked medication questions developed by Department of Veterans Affairs (VA) pharmacists to VA patients and their caregivers. The application also serves as a link to Secure Messaging (SM) resources on My HealtheVet (MHV) so that patients and/or caregivers can learn how to submit specific questions directly related to their local VHA pharmacy. The application also links to medication functionality within MHV. The application also consists of a landing page containing links to various internal and external medication resources and information (e.g., trusted sources of information, other VA Medical Centers [VAMC]), as well as Frequently Asked Questions (FAQ).

There are five application features available on the home screen along with their related links:

- My HealtheVet Pharmacy Services
- Pill and Bottle Information
- Trusted Medication Resources
- About VA Pharmacies
- Send a Secure Message

Additionally, once Veterans and/or caregivers become “In-Person Authenticated” (IPA), they can submit specific questions for a prompt, personal response through Secure Messaging (SM). Providing an additional route of communication can ultimately lead to streamlining the pharmacy workflow and increasing patient satisfaction.

This application also allows front line triage staff to handle the majority of AAP submitted questions via SM.
1.3. **Project References**

1.3.1. **Help Desk**

The Help Desk is available weekdays from 7 a.m. to 7 p.m. (CT).
For help with this application contact the VA Mobile App Help Desk toll free at 1-877-470-5947.
For DS Logon (Department of Defense Self-Service Logon) related questions, contact the eBenefits help line toll free at 1-800-983-0937.

1.4. **Organization of the Manual**

**Section 1: Introduction**

The Introduction section provides the purpose of this manual, an overview of the AAP application, an overview of the software used, project references, contact information for the user to seek additional information, and an acronyms and abbreviations list for this manual.

**Section 2: System Summary**

The System Summary section provides a graphical representation of the equipment, communication, and networks used by the system, user access levels, how the software will be accessed, and contingencies and alternative modes of operation.

**Section 3: Getting Started**

The Getting Started section gives provides a general walk-through of the system from initiation through exit, enabling the user to understand the sequence and flow of the system.

**Section 4: Scenario**

The Scenario section gives the user the “how to” information on using AAP, including many step-by-step procedures.

**Section 5: Troubleshooting**

The Troubleshooting section provides guidance for troubleshooting the AAP application.
1.5. Acronyms andAbbreviations

2. System Summary

The Ask A Pharmacist (AAP) mobile application provides patients with access to general information on their medications, the ability to interact with a pharmacist, and access to frequently asked questions (FAQs). It also provides access for caregivers on behalf of a patient. Patients and caregivers are able to obtain information on:

- Pill Identification
- Drug/Drug Interactions
- Contacting Local VAMCs
- Drug Allergies and Adverse Drug Reactions
- Articles on MHV that pertain to medications and their use
- Role of VA Pharmacist
- How VA Pharmacy Works
- Prescription (Rx) refill and tracking
- Drug FAQs
- Proper medication administration, self-management, and disposal
- Reporting and tracking of adverse drug events

2.1. System Configuration

AAP is an application intended to be used on personal mobile phones and tablets. These devices must have active Wi-Fi connectivity in order for the application to function fully. The application can be used on the following browsers:

- Internet Explorer 9 and higher
- Safari 7 and higher
2.2. Data Flows

The following is a graphic representation of the flow of data through the AAP application and Secure Messaging.

Figure 1: Data Flow
### 2.3. User Access Levels

Table 2 describes the three levels of user access within this application.

3. Getting Started

3.1. Opening Ask a Pharmacist

Once you have installed Ask A Pharmacist (AAP) from VA App Store onto your mobile device, open Ask A Pharmacist by tapping its icon. The first time you open the application you will see the End User Licensing Agreement (EULA) pop-up. Scroll down to the bottom and tap ‘Accept’ to proceed to the AAP Home Screen.

Note: Since the screens look different in each case, this user manual will present pictures of AAP screens as they appear on both tablets and phones.

3.2. System Menu

The AAP Home Screen contains five Application Features as well as About and Help. Figure 2 illustrates AAP Home screen in the tablet view. Tapping on a feature takes you to its list of articles, sources of information, and links to related topics or services both within AAP and web sites external to the application.

Figure 2: AAP Home Screen, Tablet View
Figure 3 provides an illustration of the phone view of the AAP Home screen (shown on the left side of the figure). The image on the right side of the figure displays how to access ‘About’ and ‘Help’ by tapping the menu icon in the upper right.

**Figure 3: AAP Home Screen, Phone View**

![AAP Home Screen, Phone View Diagram]
3.3. Navigating Ask a Pharmacist

Tapping on one of the five AAP features opens a menu of that feature’s related links. To illustrate how to navigate AAP, tap on ‘About VA Pharmacies’ on the AAP home screen.

Figure 4: Home Screen

Tablet View

Phone View
3.3.1. Navigating a Feature

Tapping ‘About VA Pharmacies’ on the home screen opens a menu of its related links.

Figure 5: Feature Menu

Tablet View

Phone View
Using the phone view, tap the icon next to each related link to open its description.

**Figure 6: Feature Menu, Phone View**
There are two basic types of links encountered in AAP.

First, when you tap ‘**How VA Pharmacies Operate**’, you will proceed to an AAP article, as shown in Figure 7.

**Figure 7: AAP Article, Tablet View**

![Image of AAP Article, Tablet View](image)

Using tablets, as shown in Figure 7: tap the Back Arrow on your mobile device to return; tap **Home** to go to the AAP Home screen; tap **Features** to go to one of the five AAP feature sections.
Figure 8 illustrates the AAP article when viewed on a phone. Use your browser’s scrolling tool to read the entire article.

**Figure 8: AAP Article, Phone View**

Using mobile phones, tap the Back Arrow on your mobile device’s browser, or tap the menu icon in the upper right to go to one of the five AAP feature sections.
Second, when you tap ‘Find My Facility’, a window pops up advising that you are leaving Ask A Pharmacist to go to an external website. Tap ‘Continue’, as shown in Figure 9, or tap ‘Cancel’ to remain on the current page. You can select “Do not show this message again” if you choose not to see this pop-up again.

**Figure 9: Leaving AAP**

After tapping ‘Continue’, your device will open the external web site in your browser. To return to AAP, tap your browser’s Back Arrow or close the current Tab or Window.

Section 4 Using Ask a Pharmacist of this user manual offers step-by-step instructions for each feature of AAP and descriptions the features and their related links.

### 3.4. Exit System

It is not necessary to log in to or out of AAP. When you are finished using the application, simply close its browser screen.

### 3.5. Image Library

The following images (Figures 10 through 13) are used to help you navigate through the AAP application.

**Figure 10: Information icon**

The blue circled lower-case i is an icon indicating there is a description of this feature. Tap it to read the description.
When the screen fades out at the bottom, it means that there is more content to view. Scroll down with your browser’s tools to view the continued content.

The menu icon is commonly referred to as the ‘Hamburger Icon’. Tap on it to view a drop-down menu list.

The Menu arrow appears next to a listing on a menu to indicate there is a sub-menu to look at. Tap on the feature to view its sub-menu.

The Back arrow appears next to the title of the current AAP screen you are viewing. Tap on it to return to the previous screen.

**3.6. Caveats and Exceptions**

Some of the external web sites available through AAP require registration, enrollment, or enhanced account status in order to fully utilize a service. Advice and instructions are available at the particular external web site.
4. Using Ask a Pharmacist

Many of the features and related links offered by Ask A Pharmacist (AAP), including My HealtheVet (MHV) resources and Secure Messaging, require registering with MHV as a VA Patient and acquiring a Premium Account via In-Person Authentication (IPA). Online Authentication is another option for users who have a connected eBenefits DS Logon (Department of Defense Self-Service Logon) and a MHV VA Patient account.

AAP is downloaded and installed from VA App Store onto your mobile device. Select the Ask A Pharmacist icon. The first time you open the application you will see the End User Licensing Agreement (EULA) pop-up. Scroll down to the bottom and tap ‘Accept’ to proceed to the AAP Home screen.

4.1. Home Screen

When you have installed AAP onto your mobile phone or tablet, tap the AAP icon on your device. The Home screen for AAP will appear.

Figure 14 illustrates the AAP Home screen as viewed with a tablet and a mobile phone device.

In the furthest upper right corner of the screen, the link ‘Return to the LaunchPad’ is available to shop for other VA applications.

Figure 14: Home Screen

Tablet View
4.2. **Home, Features, About, and Help**

The dark blue ribbon along the top of the Home screen contains this application’s name and navigation tools. Using tablets, there are four options that you can choose. Using phones, there is a menu icon that can be tapped to display navigation options.

### 4.2.1. Home

If you are using a tablet, you can return to the Home screen from any location within AAP by tapping ‘Home’. When using a phone, tap the menu icon, and the list of five features appears along with ‘About’ and ‘Help’ (see Figure 3). Your device’s browser also provides ‘Previous’ and ‘Next’ navigation tools.
4.2.2. Features

- Using Features with Tablets

With a tablet, tap on ‘Features’ from any location within AAP, and a drop down menu appears. Tap on one of the five AAP features in the menu to go to that feature as shown in Figure 15.

Figure 15: Features Drop Down, Tablet View
• **Using Features with a Mobile Phone**

When using a phone, tapping the menu icon to the right on the blue ribbon drops down a window that provides links to the five AAP features as well as ‘**About**’ and ‘**Help**’ (see Figure 16).

**Figure 16: Features Drop Down, Phone View**
4.2.3. About and Help

When you tap on ‘About’ and ‘Help,’ you can reference information and assistance resources regarding the Ask A Pharmacist application.

- ‘About’ Ask A Pharmacist
  Tapping on the ‘About’ link in the top right of your tablet provides a window with general information about AAP along with a description of its functionality. Figure 17 illustrates the ‘About’ window when viewed on a Tablet.

Figure 17: About Window, Tablet View

When using a phone, access the ‘About’ information after tapping the menu icon in the upper right corner.

Tap ‘Close’ to return to the previous screen.
• ‘Help’ Information in AAP
  Tapping ‘Help’ produces a window with links to assistance resources, a toll-free phone number to call, user manuals, videos, and Frequently Asked Questions (FAQs). Reference information, such as browsers that support the application, are also available.

  Using a phone, tap the menu icon in the upper right, then tap on ‘Help’ to see information as shown in Figure 18.

  Scroll down, if necessary, and tap ‘Close’ at the bottom to return to the previous screen.

Figure 18: Help Window, Phone View

When using a tablet, access the ‘Help’ information by tapping ‘Help’ in the upper right corner of the dark blue title ribbon.
4.3. **My HealtheVet Pharmacy Services**

My HealtheVet is the primary Internet connection between Veterans and their health care benefits. This section introduces the many services available through MHV.

On the Home screen, tap ‘**My HealtheVet Pharmacy Services**’ for a menu of related links. In order to have full access to all of this feature’s resources, you should be registered with MHV as a VA Patient and upgrade to a Premium account.

Figure 19 illustrates views of the related links available after tapping ‘**My HealtheVet**’ from your Home screen.

**Figure 19: My HealtheVet Pharmacy Services**

Tablet View

Scroll down to view all related links in the menu.
Phone View

Scroll down to view all related links in the menu.
4.3.1. FAQ – My HealththeVet

When you tap ‘FAQ – My HealththeVet’, a window pops up to inform you that you are leaving AAP to go to an external website. This window appears every time a link to an external website is tapped. You can tap ‘Continue’ to go to the website or ‘Cancel’ to remain on your current screen. You have the option of tapping the box next to the instruction ‘Do not show this message again’ if you do not want this window to pop up again.

Figure 20 illustrates the pop-up window informing you that you are leaving AAP.

**Figure 20: Leaving AAP Pop-up**

Tap ‘Continue’ to leave AAP and proceed to the “My HealththeVet Frequently Asked Questions” web page (shown in Figure 21) to access a collection of commonly asked questions and answers about features in MHV.

**Figure 21: My HealththeVet FAQ**

Note: This web site is external to AAP. It could look different than the example above.

Tap your browser's Back Arrow, or close the current Tab or Window to return to AAP.
4.3.2. **Medication Articles on My HealtheVet**

This feature presents a collection of articles available on the MHV web site for easy identification and location from AAP.

Tapping ‘**Medication Articles on My HealtheVet**’ opens another menu containing links to medication and pharmacy-related articles from MHV.

**Figure 22: Medication Articles Example**

Tablet View

![Tablet View of Medication Articles on My HealtheVet](image)

- **Check Your Medications: A Prescription for Better Health**
  - Medication Reconciliation goes beyond a list. It must be part of talks between the health care team, the patient and their caregiver.

- **Medication Check Up**
  - Medications coming from all sorts of places, some you are taking some you are not. It is very important to keep these medications straight. Think of your next visit to your primary care provider as a “Medication Check-up.”

- **Medication Disposal Safety Tips**
  - Where can I properly dispose of my unused medications?

- **Medications: Keep Track and Play It Safe**
  - Learn how to get the most out of your medications while keeping safe.

- **Medications: Playing it Safe at Home**
  - In this article, we will focus on what you can do at home. Before leaving your next appointment or hospital stay, make sure you understand what medications you are on, how to take them, and how to store them at home.

- **Medicine Cabinet Full? Too Many Pills?**
  - Ever stop and wonder, “What are all these pills for?”

- **Navigating Your Way to Good Health: Finding Reliable Information Online**
Tap an article title, then tap ‘Continue’ to leave AAP and proceed to that article’s web page.
Tap your browser's Back Arrow or close the current Tab or Window of the selected external web site to return to AAP.
4.3.3. Medical Library

Tap ‘Medical Library’, then tap ‘Continue’ to leave AAP and proceed to a MHV web page, as shown in Figure 23, where links are provided to two extensive, online medical libraries.

Figure 23: Medical Library

Note: This web site is external to AAP. It could look different than the example above.

Tap your browser's Back Arrow, or close the current Tab or Window, to return to AAP.
Veterans Health Library
This library is designed for and available to all Veterans, their family members, and the public, no matter where the Veteran receives care. It offers articles, videos, and printable information on topics of general health as well as topics of special interest to Veterans.
Tap on the link Veterans Health Library to proceed there.

Figure 24: Veterans Health Library

Note: This web site is external to AAP. It could look different than the example above.
Tap your browser's Back Arrow, or close the current Tab or Window, to return to AAP.
• **MedlinePlus ®**

  This web page provides various links to MedlinePlus®. This is the online resource of the National Library of Medicine (NLM), from the National Institutes of Health (NIH), offering information on health promotion, conditions, and treatments to help you take control of your own health. Figure 26 provides an illustration of the MedlinePlus® home page.

  Tap the MedlinePlus ® on the MHV Medical Library web page to proceed to another MHV web page as shown in Figure 25.

*Figure 25: MHV MedlinePlus Web Site*

*Note: This web site is external to AAP. It could look different than the example above.*
Figure 26: MedlinePlus Homepage

Note: This web site is external to AAP. It could look different than the example above.

Tap your browser's Back Arrow, or close the current Tab or Window, to return to AAP.

4.3.4. Prescription History

If you are a registered MHV user and have selected the ‘VA Patient’ checkbox during registration, you can view a list of your past VA prescribed medications.

To view your prescription history, tap ‘Prescription History’, then tap ‘Continue’ to leave AAP and proceed to the MHV web page offering information about viewing prescription history.
4.3.5. Rx Refill

Rx Refill provides a timesaving, convenient way to refill prescriptions and monitor details of each medication, such as refill status, date of last refill, the VA facility medication is received from, number of refills remaining, and the progress of a refill request. When you log in to MHV using your Premium account, you can manage your VA prescription refills online and all of the Rx Refill services. For prescription refill information, tap ‘Rx Refill’, then tap ‘Continue’ to leave AAP and proceed to the MHV FAQ page discussing their RX Refill service.

Figure 27: My HealtheVet Home Page

Note: This web site is external to AAP. It could look different than the example above.
Tap your browser's Back Arrow, or close the current Tab or Window, to return to AAP.
4.3.6. Rx Refill Guide

Rx Refill Guide connects to the MHV web page where detailed descriptions of Rx Refill’s services, requirements, and step-by-step instructions are provided. Tap ‘Rx Refill Guide’, then tap ‘Continue’ to go to the MHV web site.”

Figure 28 illustrates the MHV website ‘VA Online Rx Refill for Veterans’. Tap your browser's Back Arrow, or close the current Tab or Window, to return to AAP.

Note: This web site is external to AAP. It could look different than the example above.

4.3.7. Send a Secure Message

Secure Messaging (SM) is similar to email and can be used to ask about VA appointments, medications, lab results, or seek answers to routine medical questions from your VA health team.

To use the Secure Messaging feature, you must be receiving health care services from VA, have registered on My HealtheVet as a “VA Patient,” and have a Premium My HealtheVet account.

After registering on MHV as a VA Patient, there are two ways to upgrade to a Premium MHV account.

1. In-Person Authentication (IPA)
   Print, read, and sign the VA Release of Information (ROI) form (10-5345a-MHV). Take a copy of the signed form and government issued photo identification to the local VA health facility and give it to a qualified VA staff member to upgrade your account.

2. Online Authentication
   This is an option for those who have both a connected eBenefits DS Logon Premium account and MHV VA Patient account.

Tap ‘Send a Secure Message’ then tap ‘Continue’ to proceed to the MHV article describing Secure Messaging.
4.3.8. Track My Medications

These are three VA-vetted ways to track the delivery progress of your medication prescriptions. Once you choose a method to have your medications delivered, this feature provides links and instructions for each method. Tap ‘Track My Medications’ to open another menu containing related links as shown in Figure 29.

Figure 29: Track My Medications Menu

Tablet View

![Track My Medications Menu - Tablet View](image)

Phone View

![Track My Medications Menu - Phone View](image)
• Prescription Tracker – FAQ
Tap ‘Prescription Tracker – FAQ’, then tap ‘Continue’ to go to links on the MHV Frequently Asked Questions web page to view FAQ for the My HealtheVet Prescription Tracker. This can be used to track delivery of VA prescriptions filled by a VA Mail Order Pharmacy and mailed within the last 45 days.
Tap your browser's Back Arrow, or close the current Tab or Window, to return to AAP.

• UPS My Choice
Here you can learn about and register for ‘UPS My Choice’, a service that tracks the status of your deliveries if you choose to have them delivered by United Parcel Service Inc. (UPS).
Tap ‘UPS My Choice’, then tap ‘Continue’ to go to the UPS website as shown in Figure 30.

Figure 30: UPS My Choice

Note: This web site is external to AAP. It could look different than the example above.
Tap your browser's Back Arrow, or close the current Tab or Window, to return to AAP.
• **USPS**

Here you can learn about and register for ‘**My USPS.com**’, a service that tracks the status of your deliveries if you choose to have them delivered by United States Postal Service (USPS).

Tap ‘**USPS**’, then tap ‘**Continue**’ to go to the USPS web site as shown in Figure 31.

**Figure 31: My USPS.com**

*Note:* This web site is external to AAP. It could look different than the example above.

Tap your browser's Back Arrow, or close the current Tab or Window, to return to AAP.
4.4. Pill and Bottle Information

This feature provides a detailed description of the data on your medication’s label and a link to identify unknown medications. On the Home screen, tap ‘Pill and Bottle Information’ for a menu of related links as shown in Figure 32.

Figure 32: Home Screen

Tablet View

Phone View
4.4.1. Pill Bottle Information

VA medications have standardized labels that provide the patient important information about their prescription. Tap ‘Pill Bottle Information’ to view a graphical representation of a typical medicine bottle with descriptions and explanations of the information it contains.

Figure 33: Pill Bottle Information

Tablet View

Tap your browser’s Back arrow to return, or tap ‘Home’ or ‘Features,’ to go to other AAP locations.
Tap your browser’s Back arrow to return, or tap the Menu icon, to go to other AAP locations.
4.4.2. **Pill Identification**

This resource aids in the identification of unknown pills (oral, solid dosage form medications). It combines images of pills with appearance and other information to enable you to visually search for and identify them. There is also information available about the contents of a pill, clinical trials, and safety information.

Tap ‘**Pill Identification**’, then tap ‘**Continue**’ to leave AAP and proceed to Pillbox, the NLM/NIH web site. Click ‘**OK**’ on the pop up stating that “if this is an emergency, call 911 or the National Poison Help Hotline at 1-800-222-1222,” as well as a disclaimer. Click ‘**OK**’ to arrive at the Pillbox web site depicted in Figure 34.

**Figure 34: Pillbox, Pill Identification**

![Pillbox, Pill Identification](image)

*Note: This web site is external to AAP. It could look different than the example above.*

Tap your browser's Back Arrow, or close the current Tab or Window, to return to AAP.
4.5. **VA Trusted Medication Resources**

VA Trusted Medication Resources provides links to VA web pages or VA vetted and approved web sites offering information on the proper use or disposal of medications, understanding drug interactions, and availability of medications through VA.

On the AAP Home screen, tap ‘**VA Trusted Medication Resources**’ as shown in Figure 35, to view a menu of VA-vetted web sites and other sources of medication-related information, as shown in Figure 36.

📝 Ask a Pharmacist

🔗 VA Trusted Medication Resources

Consumer Drug, Herbal & Supplement Information
Go to MedWatch online and submit a voluntary report of adverse events that you observe or suspect for human medical products, including serious drug side effects, product use errors, product quality problems, and therapeutic failures.

Drug Interactions and Adverse Drug Events
A Drug Interaction Checker explaining the mechanism of each drug interaction, the level of significance of the interaction (major, moderate or minor), and in certain cases, can provide the recommended course of action to manage the interaction.

FAQ - VA National Medication Formulary
Ask A Pharmacist provides links to general questions and answers on medications and medication management from trusted resources.

Know Your Medication Label
A standardized patient-centric label was created to increase each Veteran’s understanding of how to take his or her medications.

Medication Administration
Your medicine can only work correctly if it is administered properly in the body. This link takes you to helpful illustrations that show the right way to use eye, ear, and nose drops, eye ointments, inhalers, and suppositories.

Medication Disposal
How to stay safe when disposing of unused medicines.

4.5.1. Consumer Drug, Herbal & Supplement Information

Many drugs and medications are available commercially without a prescription. These drugs can have a significant impact on the user. This feature provides information and resources about over-the-counter drugs, herbal and other supplements, as well as VA-prescribed medications.

Tap ‘Consumer Drug, Herbal & Supplement Information’ to open its menu of related subject areas. Tapping each subject area opens links to external web resources.

Choose from the titles listed in the menu, tap on an article title, then tap ‘Continue’ to leave AAP and proceed to the external web location of the article or resource. When finished, tap your browser's Back Arrow, or close the current Tab or Window to return to AAP.

4.5.2. Drug Interactions and Adverse Drug Events

It is often the case where more than one medication is being used. This feature provides resources to learn about interactions between drugs, drug allergies, and adverse reactions to medication. Tap ‘Drug Interactions and Adverse Drug Events’ to open its menu of related links.

- Tap ‘Adverse Drug Event Information’ to open its sub-menu of links to the following external web sites:
  
  Drug Interactions Checker.
  Tap ‘Drug Interactions Checker,’ then tap ‘Continue’ to proceed to Drugs.com web site’s Drug Interactions Checker page. Tap ‘I Agree’ on the End-user License Agreement (EULA) and proceed to the web page, shown in Figure 37, where you can learn about interactions between drugs that you’ve selected from the site’s database, the relative level of significance of a given interaction, and in certain cases, a recommended course of action to manage the interaction.

![Figure 37: Drug Interactions Checker](image)

Note: This web site is external to AAP. It could look different than the example above.

Tap your browser’s Back Arrow, or close the current Tab or Window, to return to AAP.
Medline Allergy Information.
Tap ‘Medline Allergy Information’, then tap ‘Continue’ to proceed to the NIH MedlinePlus web page for information about drug allergies and descriptions of allergy symptoms.

Figure 38: MedlinePlus Allergy Information

Note: This web site is external to AAP. It could look different than the example above.
Tap your browser’s Back Arrow, or close the current Tab or Window, to return to AAP.
Report adverse drug events to FDA MedWatch
Tap ‘Report adverse drug events to FDA MedWatch’, then tap ‘Continue’ to proceed to the FDA web site “MedWatch Online Voluntary Reporting Form.” There are instructions and guidelines provided to aid in completing the report. Figure 39 illustrates the start page for filing your report.

Figure 39: MedWatch Online Voluntary Reporting Form

Note: This web site is external to AAP. It could look different than the example above.
Tap your browser’s Back Arrow, or close the current Tab or Window, to return to AAP.
Track adverse drug events in FDA. Tap ‘Track adverse drug events in FDA’, then tap ‘Continue’ to proceed to the FDA web site “Medical Product Safety Information”, shown in Figure 40, for an updated listing of safety alerts for human medical products (drugs, medical devices, nutritionals, cosmetics).

Figure 40: Medical Product Safety Information

Note: This web site is external to AAP. It could look different than the example above.
Tap your browser’s Back Arrow, or close the current Tab or Window, to return to AAP.
• **Drug Interaction Information**
  
  Drug Interaction Information articles break down possible interactions of medications with food and beverages, dietary supplements, interactions between different drugs, and tips to avoid problems.

  Tap ‘**Drug Interaction Articles**’ to view its sub-menu of links to the United States Food and Drug Administration (FDA) “Avoiding Drug Interactions” web page.

  Tap one of the topic titles, then tap ‘**Continue**’ to proceed to information related to that topic.

  **Figure 41: FDA, Avoiding Drug Interactions**

  ![FDA, Avoiding Drug Interactions](image)

  **Note:** This web site is external to AAP. It could look different than the example above.

  Tap your browser’s Back Arrow, or close the current Tab or Window, to return to AAP.
4.5.3. FAQ – VA National Medication Formulary

The VA National Formulary (VANF) provides pharmaceutical products of high quality and best value and assures that these products are available to eligible Veterans.

Tap ‘FAQ – VA National Medication Formulary’ to view an AAP article offering answers to frequently asked questions about VANF and troubleshooting issues associated with using its services.

Tap your browser's Back Arrow to return. Tap ‘Home’ or ‘Features’ to go to other AAP locations.

4.5.4. Know Your Medication Label

VA medications have standardized labels that provide the patient important information about their prescription. Tap ‘Know Your Medication Label’ to proceed to the AAP Pill Bottle Information page.

Tap your browser’s Back Arrow, or tap ‘Home’ or ‘Features’ to go to other AAP locations.

4.5.5. Medication Administration

Different types of medication require different methods to get them in the body. This feature offers a list of the best practices when using a medication.

Tap ‘Medication Administration’ to open its menu of related links to external web resources. Tap ‘How to properly administer a medication’, then tap ‘Continue’ to leave AAP and proceed to the SafeMedication web site where instructions and illustrations on the correct way to use eye, ear, and nose drops; information on eye ointments, inhalers, and suppositories are offered.

Figure 42: SafeMedication, How to Administer

Note: This web site is external to AAP. It could look different than the example above.

Tap your browser’s Back Arrow, or close the current Tab or Window, to return to AAP.
4.5.6. Medication Disposal

Unused medications can harm people who improperly handle them, can change properties when kept after expiration dates, and can affect the environment if disposed of improperly. This resource addresses these issues.

Tap here, then tap ‘Continue’ to leave AAP and proceed to the Pharmacy Benefits Management Services VA Center for Medication Safety web page offering guidelines for the proper and safe disposal of unused medications.

**Figure 43: Medication Disposal**

![Pharmacy Benefits Management Services](image)

*Note: This web site is external to AAP. It could look different than the example above.*

Tap your browser’s Back Arrow, or close the current Tab or Window, to return to AAP.

4.5.7. Pill Identification

This resource aids in the identification of unknown pills (oral, solid dosage form medications). It combines images of pills with appearance and other information to enable you to visually search for and identify them. There is also information available about the contents of a pill, clinical trials, and safety information.

Tap ‘Pill Identification’, then tap ‘Continue’ for a link to the resource Pillbox. Tap ‘OK’ on the pop-up.

Tap your browser’s Back Arrow, or close the current Tab or Window, to return to AAP.
4.6. About VA Pharmacies

This feature offers general information about the many ways VA Pharmacies serve Veterans, above and beyond being the Veteran’s source for getting medication. Procedures for using VA Pharmacy services are described, and a link is provided to locate VA Pharmacies around the world.

On the Home screen, tap ‘About VA Pharmacies’ to open a menu of related links.

Figure 44: Home Screen

Tablet View

Phone View
The “About VA Pharmacies” screen opens and provides the information as shown in Figure 45.

**Figure 45: About VA Pharmacies**

**Tablet View**

![Tablet View](image1)

**Find My Facility**
For your convenience, you can use this search feature to locate facility-related information quickly and accurately.

**How VA Pharmacies Operate**
VA Pharmacies are committed to providing exceptional quality and service and strive to be the healthcare provider of choice.

**How VA Pharmacists Help Veterans**
The pharmacist is a key healthcare professional in helping you get the best results from your medications.

**Phone View**

![Phone View](image2)
4.6.1. **Find My Facility**

Use this resource to locate the VA Centers near you. You can narrow your search to find the particular kind of VA service you are interested in.

Tap ‘**Find My Facility**’, then tap ‘**Continue**’ to leave AAP and proceed to the VA “Locations” web page. VA locations can be found by entering your address to access locations near you or by tapping on a state or geographical region to access locations within that region.

**Figure 46: Find VA Locations**

*Note:* This web site is external to AAP. It could look different than the example above.

Tap your browser's Back Arrow, or close the current Tab or Window, to return to AAP.
4.6.2. How VA Pharmacies Operate

Prescription drug services are a major component of outpatient services provided to eligible patients of the VA. Services include direct and indirect patient medication counseling, drug and supply dispensing, and clinical pharmacist activities as part of the Veteran’s health care team.

Tap ‘How VA Pharmacies Operate’ to open an informational page outlining VA Pharmacy operation procedures and the range of services available to Veterans.

Tap your browser’s Back Arrow to return. Tap ‘Home’ or ‘Features’ to go to other AAP locations.

4.6.3. How VA Pharmacists Help Veterans

Pharmacists are medication experts. They know what makes up the different drugs, how the drugs work, and the drugs’ effect on the patient.

Tap ‘How VA Pharmacists Help Veterans’ to open an informational page describing the roles and services pharmacists provide for Veterans, how to upgrade your account and which additional services you would be eligible for once your account is upgraded.

Tap your browser’s Back Arrow to return. Tap ‘Home’ or ‘Features’ to go to other AAP locations.
4.7. **Send a Secure Message**

Secure Messaging is similar to email and can be used to ask about VA appointments, medications, lab results, or seek answers to routine medical questions from your VA health team. To use the Secure Messaging feature, you must be receiving health care services from VA, have registered on My HealtheVet as a “VA Patient,” and have a Premium My HealtheVet account.

After registering on MHV as a VA Patient, there are two ways to upgrade to a Premium MHV account.

- **In-Person Authentication (IPA)**
  - Print, read, and sign the VA Release of Information (ROI) form (10-5345a-MHV). Take a copy of the signed form and government issued photo identification to the local VA health facility and give it to a qualified VA staff member to upgrade your account.

- **Online Authentication**
  - This is an option for those who have both a connected eBenefits DS Logon Premium account and MHV VA Patient account.

On the AAP Home screen, pictured in Figure 47, tap ‘**Send a Secure Message**’, then tap ‘**Continue**’ to proceed to the MHV article describing Secure Messaging.

**Figure 47: Home Screen**

5. Troubleshooting

Below are resources to help resolve questions or difficulties found when using the Ask A Pharmacist (AAP) application.

The Help Desk is available weekdays from 7 a.m. to 7 p.m. (CT).
For help with this application contact the VA Mobile App Help Desk toll free at 1-877-470-5947.

For DS Logon (Department of Defense Self-Service Logon) related questions contact the eBenefits help line toll free at 1-800-983-0937.

Some of the external web sites available through AAP require registration, enrollment, or enhanced account status in order to fully utilize a service. Advice and instructions are available at the particular external web site.
