(This page included for two-sided copying.)
1) Master Vault,  
2) Satellite Vault, and  
3) Narcotic Locations.

**NAOU Inventory Group** An NAOU Inventory Group is defined by pharmacy to represent the Narcotic Areas of Use which are inventoried together as a group. By grouping the commonly inventoried NAOU's under an easy to remember group name, the elements of the inventory are established, and do not have to be redefined every time an inventory is scheduled.

**Narcotic Location** An NAOU set up for the nursing wards, pharmacy IV room, or a pharmacy working stock area.

**Order Entry Banner** Provides a free text field as a site parameter to appear upon Nursing CS Order Entry. When the user accesses the following 3 options, the free text field will be displayed:

1) Nursing Order Entry  
2) Pharmacy Order Entry from Nursing  
3) Infusion Order Entry

**Order Status** A processing status is attached to each Controlled Substances request order. The following are valid:

**REQUESTED—NOT ORDERED** Requests created by batch processing but not yet approved.

**ORDERED—NOT PROCESSED** Ordered by nursing but not processed by pharmacy.

**PROCESSED—NOT DISPENSED** Processed (filled) by pharmacy but not yet dispensed.

**FILLED—NOT DELIVERED** Dispensed and verified by pharmacy but not delivered to the requesting NAOU.

**DELIVERED—ACTIVELY ON NAOU** Drug stored on the NAOU.

**COMPLETED—GREEN SHEET READY FOR PICKUP** Nursing has flagged the Green Sheet ready for pharmacy pickup.

**COMPLETED—GREEN SHEET PICKED UP** Green Sheet returned to pharmacy but not yet reviewed.
COMPLETED—REVIEWED Pharmacy has reviewed the Green Sheet.

COMPLETED—PENDING PROBLEM RESOLUTION Pharmacy has reviewed the Green Sheet and a problem exists

CANCELLED Order cancelled.

TRANSFERRED TO ANOTHER NAOU Order and drug transferred to another NAOU.

UNDER REVIEW BY INSPECTOR Order and drug pulled from NAOU by CS Inspector for review.

LOGGED BY TRAKKER All drug doses from this order have been logged out to patients using the TRAKKER. (Not currently used in Version 2.0.)

**PSD ERROR**
This key should be allocated to pharmacy supervisors responsible for maintaining the narcotic vault. This key controls access to reports listing various error and exception conditions generated when entries are filed from the barcode TRAKKER. Also, the holders of this key will receive electronic mail messages created by using the TRAKKER.

**PSD NURSE**
This key should be allocated to nurses, usually LPNs, who may only receive and administer controlled substances but cannot place the order requests.

**PSD PARAM**
This key should be allocated only to the Inpatient Pharmacy Package Coordinator(s). This lock controls the printing of the Green Sheets and the range of automated dispensing numbers for a dispensing site (vault).

**PSD TECH**
Allocate this key to control substance technicians. This key controls access to the List On-Hand Amounts [PSD ON-HAND TECH], Transfer Drugs between Dispensing Sites Report [PSD PRINT VAULT TRANSFERS TECH], and the Daily Activity Log (in lieu of VA FORM 10-2320) [PSD DAILY LOG TECH] options on the Technician (CS Pharmacy) Menu [PSD PHARM TECH].
Allocate this key to specific control substance technicians who perform advance functions. This key controls access to the Receipts Into Pharmacy [PSD RECEIPTS MENU], Dispensing Menu [PSD DISPENSING MENU], Destructions Menu [PSD DESTROY MENU], Manufacturer, Lot #, and Exp. Date - Enter/Edit [PSD MFG/LOT/EXP], and Outpatient Rx's [PSD OUTPATIENT] on the Technician (CS Pharmacy) Menu [PSD PHARM TECH].

This key should be allocated to the Inpatient Pharmacy Coordinator(s). This key controls the access to the Transfer NAOU Stock Entries option. Users can copy stock entries from one NAOU into another NAOU or from an AR/WS AOU into an NAOU.

This key should be allocated to the Inpatient Pharmacy Package Coordinator(s) or his/her designee. This key controls the editing of CS files for package set up. This key locks the Supervisor’s Menu options [PSD MGR].

This key should be allocated to pharmacy technicians handling narcotic orders.

This key should be allocated to nurses who request narcotic orders, receive, and administer controlled substances on the wards.

This key should be given to pharmacists dispensing and receiving narcotic orders.

An NAOU set up as a secondary dispensing site.

A drug (from the DRUG file) stored in an NAOU.

The quantity of a drug stocked in a specific NAOU.

Veterans Health Information Systems and Technology Architecture

The name of the ward or wards that will use this particular drug. It is important to accurately answer this prompt because this is the link between the Unit Dose package and the Controlled Substances package. The Unit Dose package looks at this field to know if the drug is a Controlled Substances stocked drug.
