1. Introduction

This document provides a brief description of new features of the Clinic Orders – Pharmacy for Inpatient Medications V.5.0 project for patch PSJ*5*275.

2. Enhancements

The scope of the Clinic Order project is to provide software modifications to enhance the Pharmacy Inpatient Medications application to support the following functionality:

- New menu options that will provide user prompts and filters to allow authorized users to mass edit a patient clinic orders Start Date/Time medication orders to a new Start Date/Time.
- A view in the patient medication profile that separates the clinic orders from all other orders.
- Improved Patient Safety allowing order checks for clinic orders.
- Eliminating the Patient Safety Issues surrounding writing Inpatient Medications for outpatients (IMO)/Clinic Medication orders and finishing these medication orders in Pharmacy.
- Improved work flows by providing easy access and minimal steps to write and process clinic orders. A future enhancement will allow documentation of and administration for clinic medications in BCMA.

3. Associated Patches

The following patches are associated with this patch and must be installed **BEFORE** PSJ*5*275:

- PSJ*5*260
- PSJ*5*276
- PSJ*5*278

4. Menu Options

The following existing menu options to the patient medication profile were enhanced to separate clinic orders from all other orders:

- Inpatient Order Entry [PSJ OE]
- Order Entry [PSJU NE]
- Non-Verified/Pending Orders [PSJU VBW]
- Order Entry (IV) [PSJI ORDER]
- Profile (IV) [PSJI PROFILE]
- Action Profile #1 [PSJU AP-1]

- Action Profile #2 [PSJU AP-2]
- Patient Profile (Unit Dose) [PSJU PR]

5. Associated Options
