# Revision History

Each time this manual is updated, the Title Page lists the new revised date and this page describes the changes. If the Revised Pages column lists “All,” replace the existing manual with the reissued manual. If the Revised Pages column lists individual entries (e.g., 25, 32), either update the existing manual with the Change Pages Document or print the entire new manual.

<August 2010> Outpatient Pharmacy V. 7.0 Pharmacist’s User Manual PSO*7*290
There is no user interaction for this function. It initiates when the Print from Suspense [PSO PNDLBL] option is initiated for CMOP prescriptions.

**TRICARE**

If a TRICARE claim is not ePharmacy billable or is not payable by the third-party payer, then the label will not be printed and the RX will not be filled.
The Activity Logs will appear the same as the OP logs with the exception of the addition of a CMOP Event Log. Here is an example of a sample CMOP Event Log:

```
Rx Activity Log                Jul 06, 2006 09:54:24        Page:    2 of 2

CMOP Lot#/Expiration Date Log:
    Rx Ref   Lot #   Expiration Date
====================================
Ref 1      1234TST  07/07/00
```

If this were an ePharmacy prescription, the prompt will display as follows:

```
Select Activity Log by number
5. Copay    6. ECME        7. All Logs: (1-7): 7/// 6

For an ePharmacy prescription, the ECME Event Log displays before the CMOP Event Log.

Example: ECME Event Log of an ePharmacy prescription
