I. Introduction

This patch has enhancements which extend the capabilities of the Veterans Health Information Systems and Technology Architecture (VistA) electronic pharmacy (ePharmacy) billing system.

This patch is being released along with PSS*1*139 and IB*2*405. These patches can be installed in any order but the full functionality for Nutritional Supplement additions contained within these patches will not be available until all 3 patches are installed.

For Tricare functionality, previously nationally released patches PSO*7*287, PSX*2*66, IB*2*383, and BPS*1*6 comprised the ePharmacy Tricare dormant release. Patches PSS*1*139, PSO*7*303, and IB*2*405 comprise the ePharmacy Tricare active release.

Tricare functionality described in this document will become active when IB*2*405 patch is installed and a Tricare Payer Sheet is subsequently defined for the site. For sites that do not bill Tricare, the software will remain dormant. For sites who bill Tricare prescriptions, the ePharmacy Implementation Team will notify them when they should activate ePharmacy Tricare billing.
II. Outpatient Pharmacy V. 7.0

Tricare Functionality:

The software will be activated when a Tricare payer sheet is linked. See Integrated Billing documentation for information concerning payer sheet linkage and contact your billing administrator before activating a Tricare payer sheet.

- Prescriptions where the patient is Tricare eligible will be submitted to ECME for third party insurance processing in the same manner as all other insurance types. Patients with dual eligibility insurance is not addressed with this release of Tricare.
- When a Tricare prescription has a third party rejection, the same reject notification screen will be displayed to the user as is currently done for the Veteran eligibility.
- The Third Party Payer Rejects - Worklist [PSO REJECTS WORKLIST] option and the Third Party Payer Rejects - View/Process [PSO REJECTS VIEW/PROCESS] option has been modified to process and display Tricare third party rejections.
- If ECME’s status on the claim remains in an "In Progress" state past the processing time out during finish of the prescription, Tricare prescriptions will not be filled and must be discontinued.
- If the pharmacy is active for ePharmacy processing, but the insurance plan is not linked or not active, Tricare prescriptions will be allowed to be filled normally. The phrase "Inactive ECME Tricare" will be displayed during Finish of the prescription.

Miscellaneous Functionality Modifications:

This functionality is active for all sites:

- Modifications to change the default answer of (I)gnore on the Reject Processing Screen to (Q)uit, which automatically sends the claim rejection information to the Pharmacy Reject Worklist for these actions: new orders, copies, edits that create new orders, and renewals.
- Software was added to handle the new "N" for Nutritional Supplement DEA special handling code added in patch PSS*1*139. This new "N" code will be treated the same as supply items and investigational drugs in Outpatient Pharmacy.
- For the ePharmacy Medication Profile (VIEW ONLY) [PSO PMP] option, flagged pending orders will be noted on the medication profile screen by highlighting the sequence number shown on the left side of the screen. Note that the "Flagged by..." information shown once the prescription is selected is already present with the PSO*7*225 release.
A. Tricare 3rd party claim submissions

Prescriptions where the patient is Tricare eligible will be submitted to ECME for third party insurance processing in the same manner as all other insurance types. Tricare dual eligibility will not be addressed in this release. Tricare eligibility is determined by Integrated Billing (IB). An indicator is returned to Outpatient Pharmacy PRESCRIPTION file (#52) and REFILL multiple (#52.1), to be stored in the new BILLING ELIGIBILITY INDICATOR field (#85). Because this is a set of codes field, the internal value will be T, V or C. These values will be displayed respectively to the user as TRICARE, VETERAN, or CHAMPVA. Note: CHAMPVA submissions will not be addressed in this patch. Prescriptions with a 'VETERAN' eligibility flag are currently processed through ECME.

B. Reject notification screen

When ePharmacy is active for the site and upon finish of a prescription, a third party claim submission is made to ECME. If the third party payer rejects the claim, a reject notification screen is displayed to the user for reject codes of Refill-too-soon (79) and DUR (88). With this patch, the same reject notification screen will be displayed for Tricare prescriptions that have a third party claim rejection. Tricare rejections will be stored in the same manner as DUR (88) and RTS (79) prescription rejects except for the following:

The following exceptions will apply for Tricare prescriptions:

- Rejected Tricare claims will be denoted with “TRICARE” during submission to ECME phase and within the subsequent reject notification screen. Also, the reject codes will be displayed in both places. The following example shows a prescription being submitted to ECME and this process occurs directly following the “Is this correct? YES//” prompt during finish:

- *** REJECT RECEIVED FOR TRICARE PATIENT ***

-------------------------------------------------------------------------
Division : ALBANY ISC NPI#: 5000000021
Rx/Drug : 101110/0 - NAPROXEN 250MG S.T. ECME#: 0112303
Reject(s): REFILL TOO SOON (79), 14 - M/I Eligibility Clarification Code (14).
Received on MAR 03, 2008@14:40:57.
Insurance : TRICARE Contact:
Group Name : TRICARE PRIME Group Number: 123123
Cardholder ID: SI9844532
-------------------------------------------------------------------------
Select one of the following:
Where DUR or RTS are one of the reject codes, the user will be able to select from (D)iscontinue the prescription, submit (O)verride codes, or (Q)uit which sends the rejection to the Third Party Payer Rejects - Worklist. A tricare rejection may not be (I)gnored.

For prescription rejections that have non-DUR/RTS rejects, the user will be able to select from (D)iscontinue the prescription or (Q)uit which sends it to the Third Party Payer Rejects - Worklist. Tricare prescriptions with these type rejects cannot be filled until the rejection is resolved. Example:

TRICARE Prescription 101113 submitted to ECME for claim generation.

Claim Status:
IN PROGRESS-Waiting to start
IN PROGRESS-Building the claim
IN PROGRESS-Building the HL7 packet
IN PROGRESS-Transmitting
E REJECTED
07 - M/I Cardholder ID Number
14 - M/I Eligibility Clarification Code

*** REJECT RECEIVED FOR TRICARE PATIENT ***
-------------------------------------------------------------------------
Division : ALBANY ISC NPI#: 5000000021
Rx/Drug : 101113/0 - SIMETHICONE 40MG TAB ECME#: 0112306
Reject(s): M/I Eligibility Clarification Code (14), M/I Cardholder ID Number (07). Received on MAR 03, 2008@14:43:42.
Insurance : TRICARE Contact:
Group Name : TRICARE PRIME Group Number: 123123
Cardholder ID: SI9844532
-------------------------------------------------------------------------
Select one of the following:
(D)iscontinue - DO NOT FILL PRESCRIPTION
(Q)UIT - SEND TO WORKLIST (REQUIRES INTERVENTION)

For non-billable Tricare prescriptions, an abbreviated version of the reject notification screen will be displayed. Because the prescription is non-billable, the insurance and ECME information that’s currently provided for DUR/RTS rejects will not be displayed (i.e. insurance, group name, group #, ECME #, contact, cardholder ID). In this case, the prescription is discontinued.

Is this correct? YES// ...

*** TRICARE - NON-BILLABLE ***
-------------------------------------------------------------------------
Division : ALBANY ISC NPI#: 5000000021

Rx/Drug: 102058/0 - absorbable gelatin S
Date/Time: Aug 27, 2008 16:49:46
Reason: Drug not billable.

This is a non-billable Tricare prescription. It cannot be filled or sent to the reject worklist. It must be discontinued.
Press <RETURN> to continue...
Nature of Order: Service correction
Requesting Provider: Opharm OPPHARM, One

Labels will not print for discontinued Tricare prescriptions, and reprint label will not be allowed for Tricare rejected prescriptions.

Select Rx (Prescriptions) Option: Reprint an Outpatient Rx label

Reprint Prescription Label: 101113 SIMETHICONE 40MG TAB
Number of Copies?: (1-99): 1
Print adhesive portion of label only?: No
Do you want to resend to Dispensing System Device?: No
Comments: REPRINT
Rx # 101113 03/03/08
Optricare, One #180
One mouth twice a day
Simethicone 40mg tab
Opharm, One
Of Refills: 3
Select LABEL DEVICE: NULL Bit Bucket

No Label(s) printed.

Reprint Prescription Label:

Suspended prescriptions will remain on suspense when a reject occurs, when the Rx is non-billable, or when the third party claim remains in an 'IN PROGRESS' status in ECME. Labels will not print. Once the reject is resolved, the user may pull the Rx early from suspense or wait for the next scheduled Print from Suspense option runs at which time labels will print accordingly. This includes CMOP and local suspense.

TRICARE Prescription 101607 submitted to ECME for claim generation.
Claim Status:

(D)iscontinue,(Q)uit: Q// (Q)UIT - SEND TO WORKLIST (REQUIRES INTERVENTION)

No Label(s) printed.

C. Reject Worklist and View/Process

The Third Party Payer Rejects - Worklist [PSO REJECTS WORKLIST] and Third Party Payer Rejects - View/Process [PSO REJECTS VIEW/PROCESS] options have been modified in the following manner:

1. Display of non-DUR/RTS rejects

• Non-DUR/RTS Tricare rejections will be segregated at the end of the displayed information. They will be denoted with a "TRICARE - Non-DUR/RTS" header. This header will remain
regardless of whether the GI - Group by Insurance action is toggled on or off. The Tricare section will sort in the same manner as the main sort for non-Tricare prescriptions (i.e. by Rx, drug, patient, etc.).

When GI - Group by Insurance action is toggled ON, the header "TRICARE" will be displayed, and this "TRICARE" section will sort alphabetically within RTS/DUR insurances. This Tricare section is separate from the Non-DUR/RTS section that displays at the end of the listing.

Example with GI action toggled on:

- Tricare DUR/RTS rejects will be displayed with all other DUR/RTS rejects. See the boxed text in the example below. Sequence 4 and 6 are rejects for the same prescription. Also note that in the following example GI - Group by Insurance action is toggled OFF.
**The new TRI - Show/Hide Tricare toggle action has been added to the hidden menu on the Insurance Rejects screen. When toggled to Show, Tricare Non-DUR/RTS rejects will be automatically displayed at the end of the listing. Toggling the TRI action to Hide will remove them from the screen.**

Example with Tricare rejects displayed:

```

Enter RETURN to continue or '^' to exit:

Example of Tricare rejects removed from display:
2. Processing of Tricare Rejections

- The Reject Information screen has been modified to display TRICARE in the header for the Reject Information section. For DUR/RTS Tricare rejects, the IGN - Ignore Reject action will be shown but will not be selectable.

In the following example the user entered IGN to ignore the RTS (79) reject. The system displayed “INVALID: TRICARE rejected Rxs may not be ignored” on the message bar because the reject is a Tricare refill-too-soon reject.
- For Non-DUR/RTS Tricare rejects, the FIL - Fill Rx action and the DC - Discontinue Rx action will be displayed. If the prescription is payable, the user will be allowed to fill the prescription and print the label. If not payable, a message will be displayed stating the prescription must have a payable status to be filled.

Example of Reject Information screen for non-DUR/RTS reject:

```

A person who resolves Tricare non-DUR/RTS rejects is dependent upon the type of reject. Dispense As Written (DAW) reject code 22 can be resolved by pharmacy staff by editing the prescription and entering the appropriate DAW code which would result in a claims resubmission. Other insurance related rejects (i.e. missing eligibility or cardholder ID number) would be resolved by the Outpatient Pharmacy Electronic Claims Coordinator (OPECC). Once the rejection has been resolved, the Reject Information screen under the pharmacy reject worklist will show the status of the prescription as E PAYABLE. At this point the user may select the FIL action which will prompt for label print.

For rejects that remain in suspense, the user will be allowed to process the rejection as indicated above, however no labels will be printed until the prescription is pulled early or printed from suspense. Upon resolving the reject, the user will be notified of this information. CMOP prescriptions will function in the same manner.
D. In Progress 3rd Party Claims

If ECME's status on the claim remains in an "In Progress" state past the processing timeout during finish of the prescription, Tricare prescriptions will not be allowed to be filled. Instead it will be placed on suspense until the rejection is resolved. Below is an example of this screen:

TRICARE Prescription 101607 submitted to ECME for claim generation.

Claim Status:
IN PROGRESS-Building the claim
IN PROGRESS-Transmitting
IN PROGRESS-Parsing response

*** TRICARE - 'IN PROGRESS' ECME status ***
-------------------------------------------------------------------------
Division : ALBANY ISC                  NPI#: 5000000021
Rx/Drug  : 101607/0 - ACETAZOLAMIDE 250MG
Date/Time: APR 20, 2008@20:11:17
Reason  : ECME Status is in an 'IN PROGRESS' state and cannot be filled
-------------------------------------------------------------------------
This prescription will be suspended. After the third party claim is resolved, it may be printed or pulled early from suspense.

Press <RETURN> to continue...

E. Inactive ECME Tricare

If a pharmacy is active for ePharmacy processing but an insurance plan is not linked or not active, Tricare prescription will be allowed to be filled without third party claim submission. The phrase "Inactive ECME Tricare" will be displayed during Finish and an ECME log entry will be added stating such.

Example of message during finish:

Do you want to enter a Progress Note? No// NO
Rx # 102046  08/27/08

F. Reject Processing Screen Default Answer Modifications

The default answer of (I)gnore on the Reject Processing Screen will be changed to (Q)uit which automatically sends the claim rejection information to the Pharmacy Reject Worklist. This modification is for new orders, copies, edits that create new orders, and renewal functions. All other functions were addressed in nationally released patch PSO*7*281.

Original prescription was last released on SEP 27,2007@10:19:13

G. Nutritional Supplement

In conjunction with IB*2*405 and PSS*1*139, this patch PSO*7*303 provides the functionality to treat drugs marked with a DEA Special Handling Code of “N” for Nutritional Supplement the same as supply items and investigational drugs. Copay will not be charged and third party billing for these type drugs will only occur when the drug is also marked with “E” for Electronically Billable. When the drug is not defined to be electronically billable, the ECME Log will reflect drug not billable.

Comments: Not ECME Billable: DRUG NOT BILLABLE

A “PRESCRIPTION QUESTIONS REVIEW NEEDED” MailMan message is sent as a result of an eligibility change since the last refill. The last paragraph of the message will be changed to include nutritional drugs:

Subj: PRESCRIPTION QUESTIONS REVIEW NEEDED (500) [#2123096] 09/17/08@16:27
35 lines
From: OUTPATIENT PHARMACY PACKAGE In 'IN' basket. Page 1 *New*

OPPAT,ONE (7941) ALBANY ISC
Eligibility: SC LESS THAN 50% SC%: 10
Disabilities: ULNA, IMPAIRMENT OF-10%(SC), ARTHRITIS, OTHER TYPES (SPECIFY)-10%(NSC),
Rx# 102105 (1) COPAY DANTROLENE 25MG CAP

Due to a change in criteria, additional information listed below is needed to determine the final VA copay and/or insurance billable status for this Rx so that appropriate action can be taken by pharmacy personnel.

Is this Rx for a Service Connected Condition?
This message has been sent to the provider of record, the pharmacist who finished the prescription order, and all holders of the PSO COPAY key.

Enter RETURN to continue or '^' to exit:

Subj: PRESCRIPTION QUESTIONS REVIEW NEEDED (500) [#2123096] Page 2

Providers:
Please respond with your answer to the question(s) as a reply to this message. The prescription will be updated by the appropriate staff.

Staff assigned to update the Prescription responses:
Please use the RESET COPAY STATUS/CANCEL CHARGES option to enter the responses to the questions above, which may result in a Rx copay status change and/or the need to remove VA copay charges or may result in a charge to the patient's insurance carrier.

Note: The SC question is now asked for Veterans who are SC>49% in order to determine if the Rx can be billed to a third party insurance. These Veterans will NOT be charged a VA copay.

Supply[] nutritional[] and investigational drugs are not charged a VA copay but could be reimbursable by third party insurance.

Enter message action (in IN basket): Ignore//
## H. Flagged Pending Orders

For the ePharmacy Medication Profile [PSO PMP] option, flagged pending orders will be denoted by a highlighted sequence number.
