

RMPR*3*56 – Release Notes

Home Oxygen Patient Template Update

Patch Description

Introduction

The new **Home Oxygen Patient Template Update** [RMPR HO PAT TEMPLATE UPDATE] menu option has been added to the **Home Oxygen Main Menu**.

This option will allow users with RMPRSUPERVISOR key to update or change the Home Oxygen Patient template. Under this option, Prosthetics users will be able to update the following:

- Vendor
- PSAS HCPCS
- Fund Control Point (FCP)
- Item
- Unit Cost.

The purpose of this patch is to allow you to change any of the above options for multiple active Home Oxygen patients (and those that have a future inactivation date) in all patient templates **at one time**. This provides a more efficient method of updating instead of accessing one patient at a time.

Home Oxygen Main Menu screen

Select Prosthetic Official's Menu Option: **Home Oxygen Main Menu**

```
ED      Add/Edit Home Oxygen Patient
IN      Inactivate/Activate Oxygen Patient
LE      Generate Letters

Update a Fund Control Point (FCP) for a Home Oxygen Patient	5
Update an Item for a Home Oxygen Patient	6
Update a Unit Cost for an Item for a Home Oxygen Patient	7

Update a Vendor for a Home Oxygen Patient

Function description

You can change a vendor for all active Home Oxygen patients and for patients who have a future inactivation date using the **Update Vendor** option from the **Home Oxygen Patient Template Update** option.

NOTE: If the home oxygen vendor you want is **NOT** listed and available for selection, you must **FIRST** add the vendor, from the IFCAP Vendor File, to the *Site Parameter Enter/Edit* option under the *Home Oxygen Main Menu*. You can then return to the **Home Oxygen Patient Template Update** option to now view and select it.

Steps

To update a vendor for a Home Oxygen patient(s), follow these steps:

Step	Action
1	At the Site prompt, press the Spacebar and then press <Enter> to select the default site or type a question mark to display a list of selection options and choose one.
2	At the Type of Update prompt, press <Enter> to accept the default for the Update Vendor option.
3	At the Enter Existing Vendor to Update prompt, you can type the name of the vendor to be updated or type a question mark and then press <Enter> to display a list and select an option.
4	At the OK? prompt, press <Enter> to accept the entry.

Update a HCPCS Code for a Home Oxygen Patient

Function description

The **Update HCPCS** option is used to change a HCPCS code to another HCPCS code. You will need to know the HCPCS code when you begin the process to change it in the prosthetics system.

When this option is used, it changes the HCPCS code for all active Home Oxygen patients and all patients who have a future inactivation date.

Steps

To update a HCPCS code for a Home Oxygen patient(s), follow these steps:

Step	Action
1	At the Site prompt, press the Spacebar and then press <Enter> to select the default site or type a question mark and press <Enter> to display a list of selection options and choose one.
2	At the Type of Update prompt, type 2 for the Update HCPCS option and press <Enter>.
3	At the Enter Existing HCPCS to Update prompt, you can type the HCPCS code to be updated and press <Enter>. Note: You can also type a question mark and press <Enter>. If you do, you will be asked the following: Do you want the entire 2121-Entry PROSTHETIC HCPCS List? If you answer yes, then you can select an option from a list.
4	At the Enter New HCPCS prompt, type the new HCPCS code and press <Enter>.
5	The system displays the number of records that are updated.

Update HCPCS option screen

```
Select SITE:   Hines Development System  <Enter>

Select one of the following:

      1      Update VENDOR
      2      Update HCPCS

Updating HO template for HCPCS E1350 to E1383.....
** 1 Records updated **
```

Update a Fund Control Point (FCP) for a Patient

Function description

The **Update FCP** option can be used to update a Fund Control Point (FCP) to another FCP. You will need to know the FCP or you can enter a question mark to view the available entries for selection. This option changes the FCP for all active Home Oxygen patients and all patients who have a future inactivation date.

NOTE: If the FCP you want is NOT listed and available for selection, you must FIRST add the FCP to the *Site Parameter Enter/Edit* option under the *Home Oxygen Main Menu*. You can then return to the Home Oxygen Patient Template Update option to now view and select it.

Steps

To update a Fund Control Point for a Home Oxygen patient(s), follow these steps:

Step	Action
1	At the <i>Site</i> prompt, press the Spacebar and then press <Enter> to select the default site or type a question mark to display a list of selection options and choose one.
2	At the <i>Type of Update</i> prompt, type 3 for the Update FCP option and press <Enter>.
3	At the <i>Enter Existing Fund Control Point to Update</i> prompt, you can type the FCP to be updated or type a question mark and then press <Enter> to display a list and select an option.
4	At the <i>Enter New Fund Control Point</i> prompt, type the new FCP and press <Enter>. The system displays the number of records that are updated.

Update FCP option screen

Update an Item for a Home Oxygen Patient

Function description

The **Update Item** option allows you to change the item in the template. This would change the record for active Home Oxygen patients and all patients with future inactivation dates.

Steps

To update an item for a Home Oxygen patient(s), follow these steps:

Step	Action
1	At the <i>Site</i> prompt, press the Spacebar and then press <Enter> to select the default site or type a question mark to display a list of selection options and choose one.
2	At the <i>Type of Update</i> prompt, type 4 for the Update Item option and press <Enter>.
3	At the <i>Enter Existing ITEM to Update</i> prompt, you can type the item to be updated, and press <Enter>. You can also type a question mark and press <Enter>. You will then be asked the following: Do you want the entire 11-Entry PROS ITEM MASTER List? If you answer yes, then you can select an option from a list.
4	At the <i>Enter NEW ITEM</i> prompt, type the new item and press <Enter>.
5	At the <i>OK?</i> prompt, press <Enter> to accept the item.
6	The system displays the number of records that are updated.

Update Item option screen

```
