# NPPD User Manual

## Overview

---

**Introduction** This manual covers the functionality of the **National Prosthetics Patient Database (NPPD) Tools** menu. The **NPPD Tools** Menu, a VISTA based program, is used to routinely view, analyze, and validate the medical center PSAS (Prosthetic Sensory Aids Service) patient transaction data that is eventually transmitted to the NPPD. The menu resides in VISTA at the medical center level.

---

**Targeted Audience** This functionality is used by VISN staff, VISN Prosthetics Representatives, Prosthetics Program Managers and other Prosthetics staff.

---

**NPPD Mission Statement** To provide a clinical review, to increase quality, reduce costs, and improve efficiencies of the Prosthetics Program.

---

**Increase quality** Increase the quality of the services to our veterans by providing a means to:

- Develop consistency in services
- Review prescription and management practices
- Develop training
- Monitor Home Medical Equipment
- Measure Performance Improvements.

---

**Reduce costs** Reduce costs by:

- Comparing costs system-wide
- Identifying common items for consolidated contracting
- Identifying costs for MCCF purposes
- Improving contracting cost benefit.

---

**Improve efficiency** Improve efficiency by:

- Validating the data
- Improving budget management
- Determining where coding errors occur and providing training
- Comparing unique SSNs for multiple site usage and item issue.

---

*Continued on next page*

## Overview, Continued

---

### **Mapping HCPCS**

Prosthetic HCPCS (Health Care and Finance Common Procedure Coding System) are mapped to the NPPD Groups/Lines, providing a means to analyze, validate, summarize, and report usage and cost at the medical center and national levels.

---

### **Processing Data for Ad Hoc Queries and Reports**

NPPD data is rolled up at each facility and transmitted to Hines (central office). The data is loaded into the SQL (Structured Query Language) Server. The Prosthetics Clinical Management (PCM) team at Hines utilizes the SQL Server Enterprise Management to run queries against the data, providing a full range of reports for viewing and analysis.

---

# Using the NPPD Tools Menu

## Introduction

---

**Menu Options** The **NPPD Tools** Menu contains options that allow you to review, analyze, and validate the Prosthetics data.

- PSAS HCPCS History (PH)
  - Add/Edit HCPCS Synonyms (AE - Supervisory Option)
  - DSS HCPCS History (HH)
  - HCPCS Inquiry (INQ)
  - Print 2529-3 Worksheets (LPRT)
  - Print 2529-3 Single Line (LSL)
  - Print PSAS HCPCS List (MAP)
  - Print NPPD Worksheets (PRT)
  - Quick Edit 2319 Record (QED2)
  - Print NPPD Single Line Detail (SL)
-

# PSAS HCPCS History (PH)

## Purpose

Use the **PSAS HCPCS History (PH)** option to request a report on any HCPCS code (including VA unique codes, such as: VA, BA, DL, and SI). This option is useful for reporting issuance, total cost, and vendors for selected PSAS HCPCS over a date range.

Note: The **Site** prompt will not appear unless you have more than one site in the Prosthetic Site Parameter file. If it does appear, enter your station name.

## Screen sample

Below is a sample screen. Text that is in bold is a user entry.

# Add/Edit HCPCS Synonyms (AE) (Supervisory Option)

**Purpose** A supervisor in the system can add or edit a HCPCS synonym using the **Add/Edit HCPCS Synonyms (AE)** from the **NPPD Tools (ND)** menu as shown below.

**Steps** To add a HCPCS synonym, follow these sample steps:

Step	Action
1	Type <b>ND</b> for the <b>NPPD Tools</b> menu from the <b>Prosthetic Official's Menu</b> , and press <Enter>.
2	Type <b>AE</b> for the <b>Add/Edit HCPCS Synonyms</b> option, and press <Enter>.
3	At the <b>Select NATIONAL PROSTHETICS ITEM FILE HCPCS:</b> prompt, type two question marks to display a list of HCPCS, and press <Enter> or enter the HCPCS code and press <Enter> (as shown below and skip to step #6).
4	Type “^” to stop the list from displaying (if necessary).
5	You can now type the HCPCS at the prompt, and press <Enter>.
6	Type the synonym at the <b>Select SYNONYM</b> prompt, and press <Enter>.
7	A message displays asking if you are adding the name as a new SYNONYM for the first time for the Prosthetic HCPCS code. (The default is No.)
8	Press <Enter> for No or type a “Y” for Yes and press <Enter>.
9	The <b>Select SYNONYM</b> prompt displays again for you to select another synonym for the <u>same</u> HCPCS. Press <Enter> to bypass.

**Wide screen viewing and printing**

You can change the size of the column output on your terminal (depending on your terminal type) by typing the following at the **Device** prompt: ;132;999

**Field descriptions**

See the next page for a description of each field on the sample output shown above.

*Continued on next page*

## HCPCS Inquiry (INQ), Continued

### Definition of fields

Below are the HCPCS field names and a description for each.

<b>Field</b>	<b>Description</b>
<b>Short Name</b>	Name used most often in reports and for selection.
<b>CPT (if available)</b>	The Current Procedural Terminology Code assigned to the HCPCS.
<b>Status</b>	Active or Inactive. An active HCPCS is selectable when entering a HCPCS for a new transaction.
<b>NPPD Repair Code</b>	Used in mapping the HCPCS. This appears under Repair Activities on the NPPD worksheets.
<b>NPPD New Code</b>	Used in mapping the HCPCS. This appears under New Activities on the NPPD worksheets.
<b>Inventory or Calculation Flag (if shown)</b>	Determines whether or not a HCPCS is used as a Main Component to display the entire cost of a purchase, when multiple items within the purchase make up a whole (e.g., when purchasing a limb or surgical implants). Depending on the HCPCS code selected whether there will be an Inventory flag or a Calculation flag that displays in the output.
<b>Pre-determined Lab Time</b>	Used to track lab employee time and salary for dispensing stock. ( <b>Note:</b> This field is available but does not currently display in the output; may be used for future development.)
<b>Synonym</b>	Another name for the HCPCS.
<b>Description</b>	A longer name/description of the HCPCS.
<b>Item</b>	An Item or Appliance kept in the Pros Master Item file.

# Print 2529-3 Worksheets (LPRT)

## Purpose

The **Print 2529-3 Worksheets (LPRT)** option from the **NPPD Tools Menu** provides the following worksheets:

- Detail Lab reports
- Brief Lab reports

You can enter a date range for the report to be displayed or printed.

The Detail report displays an “L” in the *Line* column. For example, a scooter has the Line code of “100 A1” and it displays “100 A1L.” The “L” signifies that the item is a Lab item.

This report will display a number of the items issued either in the *VA* or the *Commercial* column.

The *Cost* column includes labor hours and material used. If there is an asterisk in this column, then the order is still open and not complete. Cost may not be associated with it until it has been completed.

```

## Printing width for Detail and Brief Worksheets

It is recommended to send the **2529-3 Worksheets (LPRT)** to a device that will display and print a 132 right margin. This will not only ensure that you get the entire report, it will also expand the length of some of the data (e.g., Item and HCPCS Description on the Detail Worksheet) to make it more legible.

VA104	LIFT, PORCH	900 K	R80 C	
VA105	LIFT, WHEELCHAIR (VAN)	100 H	R10 C	
VA106	RAMP, PORTABLE	900 K	R80 C	
VA107	LIFELINE MEDIC ALERT	900 K	R80 C	
VA108	STAIR LIFT/GLIDE	900 K	R80 C	
VA109	CARRIER, WHEELCHAIR	100 G	R10 B	

**\*Main Component** For calculation purposes, the Main Component column contains a number of items that make up the whole.

**Example** When a purchase order for a limb is created, each component of the limb (foot, knee, material, sockets, etc.) is explained in the order. However, a main component HCPCS code defines it as a “below-knee prosthesis.” The calculated cost of the entire purchase is displayed next to the main component in reports.

## Quick Edit 2319 Record (QED2)

---

### Purpose

Use the **Quick Edit 2319 Record (QED2)** option to correct coding errors for either the PSAS HCPCS or the type of transaction. You can select a record to edit by entering either the record number or the patient name.

The record number (#) can be found using the following options:

- Print NPPD Worksheets (Detail) (PRT)
  - Print NPPD Single Line Detail (SL)
- 

### Example

Below is a sample screen.

---

### Quick Edit 2319 Record sample

```
PH      PSAS HCPCS History

LSL     Print 2529-3 Single Line
MAP     Print PSAS HCPCS List
PRT     Print NPPD Worksheets
QED2   Quick Edit 2319 Record
SL      Print NPPD Single Line Detail

Select NPPD Tools Option: QED2 <ENTER> Quick Edit 2319 Record
Select NUMBER, or Patient:  NAME,PATIENT (or enter a record number (#) found on either the
“Print NPPD Worksheets” (Detail) report or the “Print NPPD Single Line Detail” report.)
...OK? Yes// <Enter> (Yes)

TYPE OF TRANSACTION: INITIAL ISSUE// ?? <Enter>
This set of codes will tell what kind of transaction this request
is. The possibilities all fall under the VAF 10-7306a listings
except for the repair.

Choose from:
I      INITIAL ISSUE
R      REPLACE
S      SPARE
X      REPAIR
TYPE OF TRANSACTION: INITIAL ISSUE// R <Enter> REPLACE

PSAS HCPCS: L3001// L5100 <Enter> MOLDED SOCKET SHIN SACH FOOT
OLD CPT MODIFIER: LT <Enter>
NEW CPT MODIFIER: <Enter>

Would You like to Edit another Entry (Y/N)? NO <Enter>
```

---

## Print NPPD Single Line Detail (SL)

### Purpose

Like the Detail Report under **Print NPPD Worksheets (PRT)** option, the **Print NPPD Single Line Detail (SL)** option prints the same data, but it is sorted by the NPPD Line.

See Appendix A – NPPD Groups and Lines for a listing of the mapped NPPD Groups and Lines.

**Note:** The **Site** prompt will not appear unless you have more than one site in the Prosthetic Site Parameter file. If it does appear, enter your station name.

### Example

Enter RETURN to continue or '^' to exit:

**Asterisk (\*)** When the "\*" is displayed as in the Cost column, this means that that item is "still open/not closed" and that the cost is an estimated approximate cost. When the transaction is closed, then a final cost displays.

**Cross Reference** See "Print NPPD Worksheets" (next page) for a description of the data that appears in this report.

## Print NPPD Worksheets (PRT)

### Patch RMPR\*3\*51 – Enhancements (December 2000)

---

**Patch  
RMPR\*3\*51  
(December,  
2000)**

<sup>1</sup>The **Print NPPD Worksheets (PRT)** option was enhanced in Patch RMPR\*3\*51 (December 2000). The purpose of changing this function is that issues from stock will accommodate 50 percent valuation, and the NPPD Reports needed to reflect this inventory calculation.

**Note:** If a site does not enter USED equipment information into the Prosthetic Inventory package, the NPPD Reports will report ZERO dollars in the USED equipment category. The BRIEF BOTH SUMMARY Report will display the NEW dollars only since USED inventory was not included.

---

**Purpose**

The **Print NPPD Worksheets (PRT)** option provides Brief and Detail NPPD worksheets. They are divided into the following two basic parts with a station summary of each:

- New Activities
- Repair Activities.

The above are further broken down by each mapped NPPD Group with a summary of each. Examples of NPPD Groups are:

- Wheelchairs and Accessories
- Artificial Legs, etc.

Within each NPPD Group, there is an NPPD Line with a summary. Examples of NPPD Lines are:

- Scooters
  - Manual Custom, etc.
- 

*Continued on next page*

---

<sup>1</sup> Patch RMPR\*3\*51 – Inventory Report Description/Reason for NPPD Report changes.

# Access the Print NPPD Worksheets (PRT) Option

**Overview** You can access the **Print NPPD Worksheets (PRT)** option from the **NPPD Tools Menu**.

**NPPD Tools Menu Screen**

```
Select Prosthetic Official's Menu Option: ND  NPPD Tools

PH      PSAS HCPCS History
AE      Add/Edit HCPCS Synonyms
HH      DSS HCPCS History
INQ     HCPCS Inquiry
LPRT    Print 2529-3 Worksheets
LSL     Print 2529-3 Single Line
MAP     Print PSAS HCPCS List
PRT   Print NPPD Worksheets
QED2    Quick Edit 2319 Record
SL      Print NPPD Single Line Detail
```

**Filter Criteria Tip/Hints!!!!!!** When the **Print NPPD Worksheets** menu option is presented, you will view NPPD New and Repair Worksheets with the following:

- Six (6) choices (See 1-6 reports below.)
- Three (3) filter criteria (See Sort options below.)
- Two (2) output options – 1) Brief Summary and 2) Detail and Summary

**Print NPPD Worksheets Screen**

```
Select NPPD Tools Option: PRT <Enter> Print NPPD Worksheets
SITE: Hines Development System// <Enter> 499 <Enter>
Enter Date to Start NPPD Calculations From: T-90 <Enter> (AUG 31,
2000)
Enter End Date: T <Enter> (NOV 29, 2000)

Sort Options
-----
2 or 5 = USED INVENTORY ONLY (NEW REPORT)

1 or 4 = NEW ITEM COSTS, USED INVENTORY (VA) COST AS ZERO,
(PREVIOUS BRIEF/DETAILED NPPD REPORT)

3 or 6 = NEW AND USED COST, BOTH DOLLAR AMOUNTS TOTALED (NEW REPORT)

Select one of the following:

1          BRIEF NEW SUMMARY
2          BRIEF USED SUMMARY
3          BRIEF BOTH SUMMARY
4          DETAIL & NEW SUMMARY ← (This is the default report)

# Print NPPD Worksheets (PRT)

## Detail worksheet

The **Print NPPD Worksheets (PRT)** option provides a Detail worksheet. The Detail worksheet adds an itemized listing for each NPPD Line within the NPPD Group, so every transaction for the date range selected is displayed. See Appendix A – NPPD Groups and Lines for a listing of NPPD Groups and their NPPD Lines.

**Note:** The **Site** prompt will not appear unless you have more than one site in the Prosthetic Site Parameter file. If it does appear, enter your station name.

## Print Prompt

DEVICE: HOME// <Enter> (Enter a printer, 132 column)

**Note:** Send this report to a device that will print a 132-column output. This will not only ensure that you get the entire report, it will also expand the length of some of the data (e.g., Item and HCPCS DES in the Detail Worksheet) to make it more legible.

## Detail Report Example

Below is an example of a **Detail and New Summary (4)** report showing each transaction within an NPPD Line.

### Definition of fields

Below are the HCPCS field names/column headers and a description of each field from a Detail Report.

Field/Column Heading	Description
<b>Name</b>	Patient's last name.
<b>SSN</b>	Last four digits of the patient's SSN.
<b>HCPCS</b>	HCPCS code.
<b>Qty</b>	Number issued.
<b>Type</b>	<p>A first-time issue, a repair of a previous issue, a spare, or a replacement of a stock item:</p> <ul style="list-style-type: none"> <li>• Initial = I</li> <li>• Spare = S</li> <li>• Replace = R</li> <li>• Repair = X</li> </ul>

### Type

Below is more detail for the **Type** column/field.

Type Column	New Activities	Repair Activities
First Initial =	I (Initial) R (Replacement) S (Spare)	X (Repair)
Second Initial =	C (Commercial) V (VA)	C (Commercial) V (VA)

*Continued on next page*

## Print NPPD Worksheets (PRT), Continued

**Field definitions**  
(continued)

Below are field names/column headers and a description for each from a Detail Report.

<b>Field/Column Heading</b>	<b>Description</b>
<b>Cost</b>	Cost of the issue.
<b>*Cost</b>	*Transaction is still open and cost is subject to change when it closes out.
<b>Date</b>	The date the data entry was done.
<b>Item</b>	An Item or Appliance kept in the Pros Master Item file.
<b>HCPCS Des</b>	The HCPCS description for the item.
<b>Who</b>	The initials of person that created the transaction.
<b>#</b>	The record number. (Note: This number can be used instead of the patient to look up a specific transaction.)

*Continued on next page*

# Print NPPD Worksheets (PRT), Continued

## Brief New Summary (1) Option

The **Brief New Summary** (1) option produces the same <sup>1</sup>Summary Report as what used to be known as the Brief Report (shown below). This report summarizes the total cumulative data for all the NPPD lines and the dollars being spent for a specific site and date range.

**Note:** USED inventory costs are not included on this report; only NEW inventory item costs as stated on the second line of the report.

## Brief New Summary Screen

(The second line of this report is filter criteria. You will see this line if you select either Option #1 or Option #4.)

### Detail and New Summary (4) Option

The **Detail and New Summary (4)** option provides the same report format as the Detail Report. (This option is the default setting.)

This report contains the following:

- NEW Inventory dollars are included in this report.
- USED Inventory is reported at ZERO dollars.

### Screen sample

```
Select NPPD Tools Option: Print NPPD Worksheets <Enter>
Enter Date to Start NPPD Calculations From: T-5 <Enter> (DEC 08, 2000)
Enter End Date: T <Enter> (DEC 13, 2000)

Sort Options
-----
2 or 5 = USED INVENTORY ONLY (NEW REPORT)

1 or 4 = NEW ITEM COSTS, USED INVENTORY (VA) COST AS ZERO,
(PREVIOUS BRIEF/DETAILED NPPD REPORT)

3 or 6 = NEW AND USED COST, BOTH DOLLAR AMOUNTS TOTALED (NEW REPORT)

Select one of the following:

1          BRIEF NEW SUMMARY
2          BRIEF USED SUMMARY
3          BRIEF BOTH SUMMARY
4          DETAIL & NEW SUMMARY
5          DETAIL & USED SUMMARY
6          DETAIL & BOTH SUMMARY

Type of Report: DETAIL & NEW SUMMARY// <Enter>

**Detail and Used Summary (5) Option** The **Detail and Used Summary (5)** option provides NPPD Reports that can be used for the purpose of “Cost Avoidance” Reports.

This report shows USED dollars. It also shows saved dollars to the VA hospitals because of issuing USED inventory items. It does *not* show NEW transactions.

**Sample report** Below is a sample **Detail and Used Summary (5)** Report.

## Using Surgical Implants

---

### **Surgical HCPCS codes**

Surgical HCPCS codes for NPPD are broken up by body sections (see below). Associate the surgical implant with the correct body section to determine which HCPCS to use. You can use the UNKNOWN HCPCS codes listed below for each NPPD line, only if a specific surgical implant HCPCS is unavailable.

You can use the UNKNOWN code for SI more than once on the same order.

---

### **Surgical Implants**

Below are the surgical implant Lines and the appropriate unknown HCPCS code if needed.

---

<b>NPPD Line</b>	<b>Description</b>	<b>Unknown HCPCS Codes</b>
960 A	HEAD & NECK	UNKNOWN CODE IS SI199
960 B	ABDOMEN	UNKNOWN CODE IS SI299
960 C	UPPER EXTREMITY	UNKNOWN CODE IS SI399
960 D	LOWER EXTREMITY	UNKNOWN CODE IS SI499
960 E	THORACIC	UNKNOWN CODE IS SI599

---

## Appendix B - NPPD Levels

### Hierarchy

---

#### 5 Levels of NPPD Hierarchy

There are 5 Levels of NPPD Hierarchy:

Looking at item STANDARD WHEELCHAR as an example:

1            ← Category Type – New  
10           ← NPPD National Reporting Group – Subtotals  
100           ← NPPD Group – Wheelchairs and Accessories  
100 C           ← NPPD Line – Standard  
E1130           ← HCPCS Code – Standard Wheelchair

---

#### Technical Note

This item has an identical item description on every Vista System and with each NPPD record.

Common Description: STANDARD WHEELCHAIR/FIXED FULL LENGTH ARMS/FIXED OR SWING AWAY DETACHABLE.

---

# <sup>1</sup>Appendix C – Question and Answer

## NPPD Satellite Broadcast (Spring, 2000)

---

**Introduction** Below are the questions and answers given on the Prosthetics Satellite Broadcast from Spring of 2000.

**Q1** Why is there a separate NPPD line for Shipping Charges?

**A1** Shipping is calculated separately on each purchase order and is calculated so as to not affect the actual cost of the product.

**Q2** Why is choosing the Transaction Type I, R or X important?

**A2** This is very important because the way NPPD works is similar in design to the old AMIS in that generally speaking if the item is purchased out of the FCP 910 account or repair/service account it is mapped in NPPD to the REPAIR section. In order for that to appear there the transaction type - X must be used. If not the average cost for a product in the NEW table will be skewed. This applies as well to rental of equipment and to the liquid and gas used in the oxygen program. All of these transactions should be made using the transaction type - X.

**Q3** What transaction type do I use, because I rent my home oxygen equipment?

**A3** See above.

**Q4** What is the proper way to purchase a limb? What is the calculation flag? How does it work? What items does it work with?

**A4** It is important to remember that artificial limbs and Surgical Implants are the only purchase transactions that work in this manner. Remember every L Code used in the make up of a NEW or Implant limb should be used.

**For example:**

First, identify the Master Item File description of the base limb, for example PROSTHESIS, BELOW KNEE. This will be used throughout the purchase process as your "ITEM". The first PSAS HCPCS requested should be the basic L code used for the limb being purchased for example, L5300. The second master item file ITEM would again be the same PROSTHESIS BELOW KNEE however, the PSAS HCPCS code will be the next code listed on your FL ADP 10-90 or limb quotation form or limb prescription. This procedure should be used for each subsequent item listed on the 10-90. Your percentage discount can be inserted at

---

<sup>1</sup> Appendix D added with Patch RMPR\*3\*57, May, 2001.

the end of this process by simply typing in the percentage of discount at the appropriate discount prompt. The computer will automatically calculate this for you. If you did the process correctly you should see one line entry on page #4 of the patients 2319. Looking at that same line entry you should see compressed all of the L codes you listed.

**Q5** What is the patient ID# column on the NPPD report?

**A5** The patient ID# is a number used to identify the patient without the need for the patient name or Social Security number when a correction needs to be completed. This is also a mechanism used to assist in patient privacy as this information is accessed by many individuals and the patient ID # limits access to this data.

**Q6** What HCPCS do I use when repairing a wheelchair, the code for the wheelchair or the code for the part being repaired or replaced?

**A6** When repairing an appliance such as a limb, brace, wheelchair, bed, patient lifter, etc. the easiest and most efficient way of recording this repair is to first select the Master Item File number for the item itself. Use the HCPCS code for the item as though you were buying a new wheelchair. You can describe the repairs in any manner you wish on the purchase document i.e.; parts and labor charges. When you get to the PSAS HCPCS prompt use the code for the new wheelchair as well. When you get the prompt asking for the ITEM TYPE use the "X" identifying this as a REPAIR. If done in this manner you repairs will be posted to the correct repair mapping table in NPPD.

In the case of limbs, braces and wheelchair components you may also use the specific HCPCS code for the item being replaced as long as you use the ITEM TYPE of "X".

**Q7** How often should I review my facility's NPPD Report for errors?

**A7** It is imperative that this report be printed at a minimum monthly to insure accuracy of our data. Commonly accepted HCPCS codes can be used for billing purposes to private insurance companies. If the data is accurate billing will be more readily acceptable to these firms.

**Q8** What do the asterisks mean that are located next to a cost on our NPPD worksheets?

**A8** The asterisk means that although a cost is present the transaction is not yet closed and the cost is subject to change.

**Q9** Why are the HCPCs recommended by the Prosthetic Data Validation Committee correct at times and are also the wrong ones during the same year and sometimes quarters? How often do the HCPCs change?

**A9** HCPCS codes are the domain the HCFA (Health Care Finance Association) they update their codes on an annual basis every January. The PDV committee meets on a quarterly basis beginning every January to review these changes. Every year HCFA deletes, changes and adds new codes. Many products provided by the VA are not reimbursable by Medicare consequently many items we in Prosthetics issue do not have identifiable codes. For this reason the PDV Committee established VA unique codes for these products. We also utilize codes that HCFA has determined that they will no longer accept for reimbursement but are products the VA through the Prosthetic Service still provides.

---

## Appendix D - Glossary

Term	Description
<b>2319 Record</b>	VA Form 10-2319: Each time a patient receives medical equipment, supplies or services from Prosthetics Service, the item purchased is recorded on this form (Record of Appliance/Repair). This is an overall list of all appliances/repairs purchased for a veteran.
<b>999 X</b>	HCPCS NOT GROUPED. Entry coding error. When entering an “I” for initial issue, “R” for replacement issue, “S” for spare issue or “X” for repair codes must choose the proper type of issue so that it maps correctly in NPPD. If a piece of equipment (i.e., such as a wheelchair battery that has a HCPCS code of A4631) that has only a new NPPD line item code of 100 D is coded as a repair, then it will be mapped incorrectly in NPPD. It will also show up as an error in this category of 999 X.
<b>999 Z</b>	NO HCPCS. When an item does not have an assigned HCPCS code, and it does not fall under the category of durable medical equipment, then it should be coded as UNKNOWN, so that it will be mapped in NPPD under 999 Z.
<b>Ad Hoc</b>	Specific purpose. Example: MS Access ad hoc query done to obtain specific information.
<b>Calculation Flag</b>	Determines whether or not a HCPCS is used as a Main Component to display the entire cost of a purchase, when multiple items within the purchase make up a whole (e.g., when purchasing a limb).
<b>CD</b>	Compact disk.
<b>Cost</b>	Cost of the item issued. *Cost – Transaction is still open and cost is subject to change when it closes out.
<b>CPT</b>	The Current Procedural Terminology Code assigned to the HCPCS.
<b>CPT Modifier</b>	Authorized modifier(s) consistent with the HCFA standard that can be used with this HCPCS.
<b>DSS</b>	Decision Support System.
<b>E1399</b>	Generic code for durable medical equipment that does not have a specific HCFA or VA unique code. No HCPCS code was established for a particular piece of equipment. They should not be entering medical equipment or supplies other than DME under this code if a code is not available.

*Continued on next page*

<b>Term</b>	<b>Description</b>
<b>HCPCS</b>	Healthcare Financing Administration Common Procedure Coding System. A code that represents an item or service.
<b>Item</b>	An Item or Appliance kept in the Pros Master Item file.
<b>MCCF</b>	Medical Care Cost Funds.
<b>NPPD</b>	National Prosthetics Patient Database.
<b>NPPD New Code</b>	Used in mapping the HCPCS. If used, appears under New Activities on the NPPD worksheets.
<b>NPPD Repair Code</b>	Used in mapping the HCPCS. Appears under Repair Activities on the NPPD worksheets.
<b>Pre-determined Lab Time</b>	Used to track lab employee time and salary for dispensing stock.
<b>PSAS</b>	Prosthetics Sensory Aids Service.
<b>PSAS Item</b>	An item that can be issued to a patient. There may be multiple PSAS items associated with one HCPCS: 1 - Sling, arm extra large 2 - Sling, arm medium 3 - Sling, arm small
<b>Qty</b>	Number issued.
<b>Status</b>	Active or Inactive when referring to a HCPCS PSAS. An Active HCPCS is selectable when entering a HCPCS for a new transaction.
<b>Type of Transaction</b>	A first time issue, a repair of a previous issue, a spare, or a replacement of a stock item: <ul style="list-style-type: none"> <li>• Initial = I</li> <li>• Repair = X</li> <li>• Spare = S</li> <li>• Replace = R</li> </ul>

<b>Term</b>	<b>Description</b>
<b>Unknown</b>	A VA unique HCPCS code to be used when the item is not a piece of durable medical equipment and there is no HCFA code available. Total number of UNKNOWN codes should decrease as the Data Validation Group develops new VA unique codes, HCFA establishes a HCPCS code, and when prosthetic personnel correctly choose the proper code instead of utilizing UNKNOWN to get by the system.
<b>VISTA Number</b>	The number (IEN to file 660) on the local Station's VISTA system.
<b>Who</b>	Prosthetics staff person that issued the item.
