# Stock Issues User Manual

## Patch RMPR*3*61 Overview

### Introduction

The Prosthetics Patch RMPR*3*61 includes enhancements to the Stock Issues (SI) Menu (accessed from the Purchasing (PU) Menu). This option now has the barcode scanning functionality.

### Barcode scanning

A benefit of using a barcode scanner is that it takes much less time to scan vs. manually entering data at multiple prompts. Also there is less room for error. The barcode label automatically provides the following information when scanned:

- Barcode number sequence
- HCPCS Code
- Item Cost
- Date entered
- IFCAP Item name
- PIP Item description
- Vendor
- Location
- Site

### Note to Users

Patch RMPR*3*61 is a large patch that involves careful setup PRIOR to installation and data conversion.

**This is extremely important:** Please review this Stock Issues User Manual and the following documents before installation:

- Forum Patch Module description
- Prosthetics Inventory Package (PIP) Implementation Guide
- Prosthetics Inventory Package (PIP) Lessons Learned
- Prosthetics Inventory Package (PIP) User Manual.

Additionally, end users should review the manuals and Lessons Learned. Several major changes to the software are being introduced with this patch and the smoothness of adapting to these changes is directly related to end users having and reading these documents.
Issuing Stock

Administering a Stock Issue (IS)

Introduction

A common Prosthetic purchasing action is the Issue from Stock (IS) option. You can access this option from the Stock Issues (SI) Menu. The prompts you see when creating an Issue From Stock are recorded on the patient’s 10-2319 record like other purchasing transactions.

Note: When stock is issued, the action affects the PIP by reducing the Inventory quantity on hand.

Steps

To access the Stock Issues Menu, follow these steps:

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>From the Prosthetic Official’s Menu, type PU for the Purchasing Menu and press &lt;Enter&gt;.</td>
</tr>
<tr>
<td>2</td>
<td>Type SI for the Stock Issues Menu and press &lt;Enter&gt;.</td>
</tr>
</tbody>
</table>

Administering a Stock Issue (IS), Continued

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>13</td>
<td>Enter the <strong>Quantity</strong> of the item being issued.</td>
</tr>
<tr>
<td>14</td>
<td>Enter the <strong>Date of Service</strong> that the item was issued to the patient.</td>
</tr>
<tr>
<td>15</td>
<td>Enter the <strong>Serial Number</strong> (optional) or bypass this prompt.</td>
</tr>
<tr>
<td>16</td>
<td>Enter the <strong>Lot Number</strong> (optional) or bypass this prompt.</td>
</tr>
</tbody>
</table>

**Sample screen**

```
QTY: 1 <Enter>

DATE OF SERVICE: FEB 05, 2003// ?? <Enter>

This is the date when an item is issued to the patient.

Examples of Valid Dates:
- JAN 20 1957 or 20 JAN 57 or 1/20/57 or 012057
- T (for TODAY), T+1 (for TOMORROW), T+2, T+7, etc.
- T-1 (for YESTERDAY), T-3W (for 3 WEEKS AGO), etc.

If the year is omitted, the computer uses CURRENT YEAR. Two-digit year assumes no more than 20 years in the future, or 80 years in the past. You may omit the precise day, as: JAN, 2002

DATE OF SERVICE: FEB 05, 2003// T-1 <Enter> (FEB 04, 2003)

SERIAL NBR: 12345 <Enter>

LOT NUMBER: <Enter>
```

**Date of Service**

The ¹**Date of Service** prompt defaults to the current date and is the date that the item was given or delivered to the patient. (See sample screen above for examples of valid date entries.)

**Note:** If you issued stock last week, and you are entering the SI on a future date, you can change the date to the actual issue date.

**Serial and Lot Numbers (Optional)**

The **Serial Number** and the **Lot Number** can help track patients who have received items that have been recalled by either the manufacturer or the FDA.

- The **Serial Number** (1 - 20 characters) is for the issued or repaired appliance.
- The **Lot Number** (1 - 20 characters) stores the manufacturer’s lot number of the item being furnished to the patient.

Post/Edit/ Delete Prompt
At this last prompt, you may post the entry (which completes it), delete it (if it is the wrong patient), or edit/review other records pending for this patient. Accept the default answer of Post by pressing <Enter> to post to the patient’s 10-2319.

Trans Type
You are returned to the Transaction Type prompt to perform another stock issue for the same patient.
Edit/Delete Issue from Stock (ED)

Function description

Use the Edit/Delete Issue from Stock (ED) option to edit the patient's VAF 10-2319 after it has already been posted. You can do the following: edit if you issued the wrong item, correct Issue From Stock errors (edit all fields), and delete the record (if you selected the wrong patient).

Note: If items are returned to inventory, this option is used, and the issued item can be deleted which returns the item to the PIP.

ED2 & QED2

Patch 61 has made changes in the Edit 2319 (ED2) option from the Purchasing (PU) Menu and Quick Edit 2319 Record (QED2) option from the NPPD Tools (ND) Menu. No prompts have been altered in these options. The only change with Patch 61 is that if the Form Type is a “Stock Issue,” then the ED2 and QED2 options cannot be edited as these transactions cannot be selected that were entered through the Stock Issues (SI) Menu option.

Editing of Stock Issues should only be done through Edit/Delete Stock Issue (ED) option, which in effect updates the PIP. Using this option will update PIP when a stock issue is deleted or if the Quantity or HCPCS code is being changed.

Steps

To edit a stock issue (or delete a stock issue), follow these steps:

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>At the Select Stock Issues Option prompt, type ED for the Edit/Delete Issue From Stock option.</td>
</tr>
<tr>
<td>2</td>
<td>Select the Site (if more than one Site can be selected).</td>
</tr>
<tr>
<td>3</td>
<td>Select a Prosthetic Patient.</td>
</tr>
</tbody>
</table>

Edit/Delete Issue from Stock (ED), Continued

### Type of Transaction
There are four options in the *Type of Transaction* prompt. Is it a first time issue, a repair of a previous issue, a spare, or are you replacing a previous issue? Change one of the following types of transactions to update the stock issue:

- INITIAL - I
- REPAIR - X
- SPARE - S
- REPLACE - R

### Patient Category
Enter the patient’s service connection and inpatient or outpatient status at the time the stock was issued. Change one of these *Patient Category* options to update the record:

- SC/OP
- SC/IP
- NSC/IP
- NSC/OP

### Special Category
If the patient is a NSC/OP patient, then this prompt appears. Update one of the following if necessary: Special Legislation, A&A, PHC, or Eligibility Reform.

### Steps
To continue to edit a stock issue (or delete a stock issue), follow these steps:

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>6</td>
<td>Edit the <em>Patient Category</em> (if necessary).</td>
</tr>

Using Prosthetics Help

**Question Mark Help**

You can view online descriptive help for menus, options, and prompts. You can enter one, two, or three question marks to get extended online help in Prosthetics.

? (Single question mark)

Entering a **single question mark** at a prompt provides you with a single line of standard help.

?? (Double question mark)

**Two question marks** entered at a prompt provide you with a list of choices appropriate to the prompt where you entered the question marks.

```
SITE: Hines Development System// ?? <Enter>

Choose from:
ATLANTA VAMC                                   508
VAMC                                           500
HINESTEST                                      998
Hines Development System                       499
SAN ANTONIO VAMC                               671
ZZOJ VAMC VAMC                                 991

SITE: Hines Development System//
```

**Menu Options**

You can enter **three question marks** to view Menu option descriptions.

???(Triple question mark)

Entering three question marks provides you with a brief description and a synonym:

```
24     2421 Form
25     2520 Transaction without printing 10-55
10     10-55 PSC Form
29     2914 Eyeglass Record
NF     Create a No-Form Daily Record
PD     Pickup and Delivery Charges
PC     Purchase Card Form
SS     Purchase Card Site Parameter

Select Enter New Request Option: ??? <Enter>

'10-55 PSC Form'     Option name: RMPR 10-55     Synonym: 10
      This will create a new FL 10-555 form and post purchasing data to patient's VAF 10-2319 record and update the Service's VAF 1358 obligation.

'2421 Form'     Option name: RMPR 2421     Synonym: 24
      For VAF 10-2421 PSC transactions that are under $300.00 and do not have FL 10-55. It will then post to the VAF 1358 and patient's VAF 10-2319 record.

'2520 Transaction without printing 10-55'     Option name: RMPR 2520
      This option will create a new VAF 10-2520 PSC transaction that is under $300.00, post to the patient's VAF 10-2319, and update the VAF 1358 obligation.
