1. Introduction

Department of Veterans Affairs (VA) has a need to improve the efficiencies of the outpatient medical scheduling processes through improved visibility of information. VA has created a comprehensive scheduling solution to modernize the Veterans Health Information Systems and Technology Architecture (VistA) Scheduling (VS) product.

1.1. Purpose

The purpose of this document is to provide a summary of the enhancements and defect corrections that make up VS Graphical User Interface (GUI) Release 1.7.22.0. The release software package is comprised of the following:

- VS GUI application 1.7.22.0
- VistA M patch SD*5.3*813

1.2. Audience

This document targets the administrators and users of the VistA Scheduling package.
