1 Introduction

1.1 Purpose

This document provides a high level overview of the contents found on the PROSTATE CANCER Disability Benefits Questionnaire (DBQ). The DBQ can be populated via an online template within the CAPRI C&P Worksheets tab and then printed OR it can be printed via AMIE (AUTOMATED MEDICAL INFORMATION EXCHANGE) and then manually populated. This document contains the edit rules for the template as well as an example of how the template will look online in CAPRI or printed from CAPRI. It also contains the layout for the AMIE worksheet to depict how it will look when printed from AMIE.

For more detailed information on standard template functionality not covered in this document, please refer to the C&P Worksheet Tab Functionalities section of the CAPRI GUI User Guide.

1.2 Overview

The PROSTATE CANCER DBQ provides the ability to capture information related to Prostate Cancer and its treatment.

Each DBQ template contains a standard footer containing a note stating that “VA may request additional medical information, including additional examinations if necessary to complete VA’s review of the Veteran’s application.” (see Figure 1 and 2).

Figure 1: Template Example: DBQ - Standard VA Note

NOTE: VA may request additional medical information, including additional examinations if necessary to complete VA’s review of the Veteran's application.

Figure 2: Print Example: DBQ – Standard VA Note

NOTE: VA may request additional medical information, including additional examinations if necessary to complete VA’s review of the Veteran’s application.

A number of fields on the PROSTATE CANCER template are mandatory and require a response (value) prior to the exam being marked as completed. Some questions may activate a Pop-up window displaying information as to each question that needs to be answered before the template can be completed.
2 Prostate Cancer DBQ

2.1 Name of patient/Veteran

All questions in this section may be answered as described by the rules below. If all mandatory questions are not answered, the error message(s) will appear in a popup window as depicted below.

Name of patient/Veteran:

Prostate Cancer Disability Benefits Questionnaire

Your patient is applying to the U.S. Department of Veterans Affairs (VA) for disability benefits. VA will consider the information you provide on this questionnaire as part of their evaluation in processing the Veteran’s claim.
2.2 Section 1. Diagnosis

The question “Does the Veteran now have or has he ever been diagnosed with prostate cancer?” must be answered before the template can be completed.

- If it is answered with Yes, all other questions requiring an answer as described by the rules in this document must be answered before the template can be completed.
- If it is answered with No, the rationale supporting this is required. The remainder of the template may be completed without answering any additional questions or the user may input answers to any of the optional questions as indicated by the rules described in this document.

All questions will be printed even if they have not been answered.

If all mandatory questions are not answered, the error message(s) will appear in a popup window as depicted below and must be answered before this template can be completed.

Figure 11: Template Example: DBQ – Prostate Cancer – 4. Voiding dysfunction

4. Voiding dysfunction
Does the Veteran have a voiding dysfunction?
- Yes  - No
If yes, provide etiology of voiding dysfunction:

If the Veteran has a voiding dysfunction, complete the following questions:

a. Does the voiding dysfunction cause urine leakage?
   - Yes  - No
   Indicate severity (check one):
   - Does not require the wearing of absorbent material
   - Requires absorbent material which must be changed less than 2 times per day
   - Requires absorbent material which must be changed 2 to 4 times per day
   - Requires absorbent material which must be changed more than 4 times per day
   - Other, describe:

b. Does the voiding dysfunction require the use of an appliance?
   - Yes  - No
   If yes, describe the appliance:

c. Does the voiding dysfunction cause increased urinary frequency?
   - Yes  - No
   If yes, check all that apply:
   - Daytime voiding interval between 2 and 3 hours
   - Daytime voiding interval between 1 and 2 hours
   - Daytime voiding interval less than 1 hour
   - Nighttime awakening to void 2 times
   - Nighttime awakening to void 3 to 4 times
   - Nighttime awakening to void 5 or more times

d. Does the voiding dysfunction cause signs or symptoms of obstructed voiding?
   - Yes  - No
   If yes, check all that apply:
   - Hesitancy
     - If checked, is hesitancy marked?
       - Yes  - No
   - Slow or weak stream
     - If checked, is stream markedly slow or weak?
       - Yes  - No
   - Decreased force of stream
     - If checked, is force of stream markedly decreased?
       - Yes  - No
   - Stricture disease requiring dilatation 1 to 2 times per year
   - Stricture disease requiring periodic dilatation every 2 to 3 months
   - Recurrent urinary tract infections secondary to obstruction
   - Uroflowmetry peak flow rate less than 10 cc/sec
   - Post void residuals greater than 150 cc
   - Urinary retention requiring intermittent catheterization
   - Urinary retention requiring continuous catheterization

3 Prostate Cancer DBQ-AMIE Worksheet

The DBQ-AMIE worksheets are accessed via the Print Blank C&P Worksheet menu [DVBA C PRINT BLANK C&P WORKSHE] option. Select the “DBQ PROSTATE CANCER” worksheet. DBQ-AMIE worksheets should be sent to a printer.

Prostate Cancer
Disability Benefits Questionnaire

Name of patient/Veteran: __________________________ SSN: __________________

Your patient is applying to the U. S. Department of Veterans Affairs (VA) for disability benefits. VA will consider the information you provide on this questionnaire as part of their evaluation in processing the Veteran's claim.

1. Diagnosis

Does the Veteran now have or has he ever been diagnosed with prostate cancer?
___ Yes ___ No

If no, provide rationale (e.g. Veteran has never had prostate cancer):
___________________________________________________

If yes, provide only diagnoses that pertain to prostate cancer.

Diagnosis #1: __________________
ICD code: __________________
Date of diagnosis: ____________

Diagnosis #2: __________________
ICD code: __________________
Date of diagnosis: ____________

Diagnosis #3: __________________
ICD code: __________________
Date of diagnosis: ____________

If there are additional diagnoses that pertain to prostate cancer, list using above format: _______________________________________________________________

2. Medical history

a. Describe the history (including onset and course) of the Veteran's prostate cancer condition (brief summary): _______________________________

b. Indicate status of disease:
___ Active
___ Remission

Page: 2

Disability Benefits Questionnaire for Prostate Cancer
3. Treatment

Has the Veteran completed any treatment for prostate cancer or is the Veteran currently undergoing any treatment for prostate cancer?
___ Yes  ___ No; watchful waiting

If yes, indicate treatment type(s) (check all that apply):

___ Treatment completed; currently in watchful waiting status
___ Surgery
   ___ Prostatectomy
   ___ Radical prostatectomy
   ___ Transurethral resection prostatectomy
   ___ Other (describe) ________________________________
___ Other surgical procedure (describe): ________________________________
   Date of surgery: ____________
___ Radiation therapy
   Date of completion of treatment or anticipated date of completion: ____________
___ Brachytherapy
   Date of treatment: ____________
___ Antineoplastic chemotherapy
   Date of completion of treatment or anticipated date of completion: ____________
___ Androgen deprivation therapy (hormonal therapy)
   Date of treatment or anticipated date of completion: ____________
___ Other therapeutic procedure and/or treatment (describe): ____________
   Date of procedure: ____________
   Date of completion of treatment or anticipated date of completion: ____________

4. Voiding dysfunction

Does the Veteran have a voiding dysfunction?
___ Yes  ___ No

If yes, provide etiology of voiding dysfunction: ________________________________

If the Veteran has a voiding dysfunction, complete the following questions:

a. Does the voiding dysfunction cause urine leakage?
   ___ Yes  ___ No
   Indicate severity (check one):
   ___ Does not require the wearing of absorbent material
   ___ Requires absorbent material which must be changed less than 2 times per day
   ___ Requires absorbent material which must be changed 2 to 4 times per day
   ___ Requires absorbent material which must be changed more than 4 times per day
   ___ Other, describe: _______________________________________________________

b. Does the voiding dysfunction require the use of an appliance?
c. Does the voiding dysfunction cause increased urinary frequency?

___ Yes   ___ No

If yes, describe the appliance:

______________________________

Does the voiding dysfunction cause signs or symptoms of obstructed voiding?

___ Yes   ___ No

If yes, check all that apply:

___ Hesitancy
   If checked, is hesitancy marked?
     ___ Yes   ___ No

___ Slow or weak stream
   If checked, is stream markedly slow or weak?
     ___ Yes   ___ No

___ Decreased force of stream
   If checked, is force of stream markedly decreased?
     ___ Yes   ___ No

___ Stricture disease requiring dilatation 1 to 2 times per year
___ Stricture disease requiring periodic dilatation every 2 to 3 months
___ Recurrent urinary tract infections secondary to obstruction
___ Uroflowmetry peak flow rate less than 10 cc/sec
___ Post void residuals greater than 150 cc
___ Urinary retention requiring intermittent catheterization
___ Urinary retention requiring continuous catheterization
___ Other, describe: __________________________________________

5. Urinary tract/kidney infection

Does the Veteran have a history of recurrent symptomatic urinary tract or kidney infections?

___ Yes   ___ No

If yes, provide etiology: __________________________________________

If the Veteran has had recurrent symptomatic urinary tract or kidney
infections, indicate all treatment modalities that apply:
__ No treatment
__ Long-term drug therapy
   If checked, list medications used and indicate dates for courses of
treatment over the past 12 months: ___________________________________
__ Hospitalization
   If checked, indicate frequency of hospitalization:
   __ 1 or 2 per year
   __ > 2 per year
__ Drainage
   If checked, indicate dates when drainage performed over past 12
months: __________________________________________________________
__ Continuous intensive management
   If checked, indicate types of treatment and medications used
   over past 12 months: _____________________________________________
__ Intermittent intensive management
   If checked, indicate types of treatment and medications used
   over past 12 months: _____________________________________________
__ Other, describe: _________________________________________________

Page: 6

Disability Benefits Questionnaire for
Prostate Cancer

6. Erectile dysfunction
   a. Does the Veteran have erectile dysfunction?
      __ Yes  __ No
      If yes, provide etiology: __________________________________________
   b. If the Veteran has erectile dysfunction, is it as likely as not (at least
      a 50% probability) attributable to one of the diagnoses in Section 1,
      including residuals of treatment for this diagnosis?
      __ Yes  __ No
      If yes, specify the diagnosis to which the erectile dysfunction is as likely
      as not attributable: ____________________________________________
   c. If the Veteran has erectile dysfunction, is he able to achieve an erection
      sufficient for penetration and ejaculation (without medication)?
      __ Yes  __ No
      If no, is the Veteran able to achieve an erection sufficient for penetration
      and ejaculation (with medication)?
      __ Yes  __ No

7. Retrograde ejaculation
   a. Does the Veteran have retrograde ejaculation?
      __ Yes  __ No
      If yes, provide etiology of the retrograde ejaculation: _______________
   b. If the Veteran has retrograde ejaculation, is it as likely as not (at
      least a 50% probability) attributable to one of the diagnoses in Section 1,
      including residuals of treatment for this diagnosis?
      __ Yes  __ No
If yes, specify the diagnosis to which the retrograde ejaculation is as likely as not attributable: _______________________________________________

8. Residual conditions and/or complications

a. Does the Veteran have any other residual conditions and/or complications due to prostate cancer or treatment for prostate cancer?
   ___ Yes   ___ No

   If yes, describe: ___________________________________________________________

9. Other pertinent physical findings, complications, conditions, signs and/or symptoms

a. Does the Veteran have any scars (surgical or otherwise) related to any conditions or to the treatment of any conditions listed in the Diagnosis section above?
   ___ Yes   ___ No

   If yes, are any of the scars painful and/or unstable, or is the total area of all related scars greater than 39 square cm (6 square inches)?
   ___ Yes   ___ No

   If yes, also complete a Scars Questionnaire.

b. Does the Veteran have any other pertinent physical findings, complications, conditions, signs or symptoms?
   ___ Yes   ___ No

   If yes, describe (brief summary): ____________________________________________

10. Diagnostic testing

   NOTE: If laboratory test results are in the medical record and reflect the Veteran's current condition, repeat testing is not required.

   Are there any significant diagnostic test findings and/or results?
   ___ Yes   ___ No

   If yes, provide type of test or procedure, date and results (brief summary):
   __________________________________________________________________________

11. Functional impact

   Does the Veteran's prostate cancer impact his ability to work?
   ___ Yes   ___ No

   If yes, describe the impact of the Veteran's prostate cancer, providing one or more examples: ____________________________________________
12. Remarks, if any: ____________________________________________________________

Physician signature: _______________________________ Date: __________

Physician printed name: ___________________________ Phone: __________

Medical license #: ________________________________ Fax: __________

Physician address: __________________________________________________________

NOTE: VA may request additional medical information, including additional examinations if necessary to complete VA’s review of the Veteran's application.
