Introduction

A veteran is authorized Fee Basis care if s/he is legally eligible for such care and VA facilities are not feasibly available to meet the patient's medical needs. The authorization may be for non-VA hospitalization, community nursing home care, short-term care, ID card status for ongoing outpatient care, or for home health services, which authorize home health visits only. Veterans authorized Fee Basis care may be reimbursed for:

- Travel expenses from their home to the fee provider
- Prescription services in emergent situations
- Non-VA hospitalization and outpatient care

Upon entering the Fee Basis Main Menu, you will see a list of your open batches. The display includes information such as:

- Batch number
- Batch type
- Obligation number
- Date opened

The system will display a message if you have no open batches.

Following are the main features of the Fee Basis package:

- Ability to perform the entire fee for service process from entering patient authorizations and vendors to transmitting completed batch data to Austin for payment.
- Quick, easy, and accurate access to a patient's payment history.
- Completion of previously repetitive actions.
- Efficient administration of the Hometown Pharmacy program.
- Ability to set up authorizations for Community Nursing Home and Contract Hospital, and process payments for services provided.
- Processing of payments ancillary to Contract Hospital and unauthorized inpatient claims.
- Establishing a fee schedule and a Pricer check for payment of medical claims.

The VISTA Fee Basis software product is fully integrated with V. 20.0 of VA FileMan and V. 7.1 of the Kernel. V. 3.5 is also integrated with the 1358 module of IFCAP. When outpatient batches are released for payment, there will be a posting to the appropriate 1358. For inpatient batches, the estimated amount from the VA Form 10-7078, as well as the actual amount, will be posted to the 1358 when batches are released for payment. The Fee Basis package interfaces with the ADT (Admission-Discharge-Transfer) VISTA module of the PIMS (Patient Information Management System (formerly MAS)) package to provide users access to registration data entered through ADT options. It also integrates with the IB (Integrated Billing) package for patient insurance data. Integration with CPT V. 5.0 allows for entry of modifiers for CPT codes. Integration with the Patient Treatment File (PTF) allows for the creation of Non-VA PTF Records.

Related manuals include the Fee Basis V. 3.5 Technical Manual which provides technical computer personnel with information necessary for technical operation of the software product; the Fee Basis V. 3.5 Release Notes which provide an overview of features and functions new to this version; the Fee Basis V. 3.5 Installation Guide which provides information necessary to install the software; the Fee Basis V. 3.5 Package Security Guide which includes sensitive information related to the software; and the Fee Basis Guide Book supplied by Central Office.

Use of the Fee Basis software provides for more efficient and accurate operation of the Fee Basis program with reduction of paperwork, savings in man-hours, and minimization of error. It allows the medical centers a tighter control over disbursement of Fee Basis funds due to enhancement of collection, ASintenance, and output of patient and Vendor payment data.

It enforces 1358 segregation of duty policy, preventing the release of a batch by the requestor, approving official, or obligator of the 1358 obligation (initial obligation and any adjustments) associated with that batch.

Package Operation

The Package Operation section provides documentation of each option, including a brief introduction to the option, a sample of what might appear on your screen when using the option, and sample outputs, when applicable.

User Responses

All user responses are shown in boldface type. The <RET> symbol is used when referring to the user pressing the Return or Enter key. The <^> symbol is used when referring to the up-arrow or caret.

List Manager

The Payment Listing for Vendor/Veteran option on the Telephone Inquiry Menu uses the List Manager utility; a tool designed to list items for selection and action. A double question mark entered at the Select Action prompt gives you a list of all actions available for a particular screen. You may also refer to the List Manager Appendix of this manual for help.

Package Management

The Fee Basis software package makes use of Current Procedural Terminology (CPT) codes, which is an AMA copyrighted product. Its use is governed by the terms of the agreement between the Department of Veterans Affairs and the American Medical Association.

Package Operation

On-line Help

When the format of a response is specific, a Help message is usually provided for that prompt. Help messages provide lists of acceptable responses or format requirements, which provide instruction on how to respond.

A Help message can be requested by typing one or two question marks. The Help message will appear under the prompt, then the prompt will be repeated. For example, perhaps you see the prompt:

```
ENTER LAST DATE OF VISIT: APR 30, 1992//
```

and you need assistance answering. You enter ? and the Help message would appear.

```
ENTER LAST DATE OF VISIT: APR 30,1992// ?
EXAMPLES OF VALID DATES:
  JAN 20 1957 OR 20 JAN 57 OR 1/20/57 OR 012057
  T (FOR TODAY), T+1 (FOR TOMORROW), T+2, T+7, ETC.
  T-1 (FOR YESTERDAY), T-3W (FOR 3 WEEKS AGO), ETC.
IF THE YEAR IS OMITTED, THE COMPUTER USES THE CURRENT YEAR.
YOU MAY OMIT THE PRECISE DAY, AS: JAN, 1957
IF THE DATE IS OMITTED, THE CURRENT DATE IS ASSUMED.
FOLLOW THE DATE WITH A TIME, SUCH AS JAN 20@10, T@10AM, 10:30, ETC.
YOU MAY ENTER A TIME, SUCH AS NOON, MIDNIGHT OR NOW.
SECONDS MAY BE ENTERED AS 10:30:30 OR 103030AM.
ENTER THE DATE THE PATIENT WAS LAST SEEN AT THAT FACILITY.
ENTER LAST DATE OF VISIT: APR 30,1992//
```

For some prompts, the system will list the possible answers from which you can choose. Any time choices appear with numbers, the system will usually accept the number or the name.

A Help message may not be available for every prompt. If you enter question marks at a prompt that does not have a Help message, the system will repeat the prompt.

Section 1: CIVIL HOSPITAL MAIN MENU

Overview

Following is a brief description of each option contained in the Civil Hospital Main Menu.

NOTIFICATION/REQUEST MENU

NOTE: *This menu is located on the CIVIL HOSPITAL MAIN MENU.*

- ENTER A REQUEST/NOTIFICATION - used to enter a request for Contract Hospital services.
- NOTIFICATION/REQUEST EDIT - used to edit a previously entered request/notification that is incomplete.
- LEGAL ENTITLEMENT - used to determine the patient's legal entitlement based on his eligibility for VA benefits.
- MEDICAL ENTITLEMENT - used by the VA physician reviewing the case to determine medical entitlement for Contract Hospital services.
- DISPLAY A REQUEST/NOTIFICATION - used to view the information on a VA Form 10-7078.
- DELETE NOTIFICATION/REQUEST - allows you to delete a request/ notification as long as there is not a VA Form 10-7078 set up for the request. In order to delete a request, you must be the person who entered the request, or you must hold the FBAASUPERVISOR security key.
- EDIT REPORT OF CONTACT - CH - used to edit a previously entered Contract Hospital Report of Contact.
- PRINT ENTITLEMENT AUDIT - allows the Fee Basis Supervisor to print out the audit of requests which were previously denied but have been reconsidered. You must hold the FBAASUPERVISOR security key to use this option.
- PRINT REPORT OF CONTACT - CH - used to print a selected Report of Contact for Contract Hospital.
- RECONSIDER A DENIED REQUEST - allows the supervisor to reconsider a previously denied request. There is an audit on the Legal and Medical Entitlement fields. You must hold the FBAASUPERVISOR security key to use this option.

- REQUESTS PENDING ENTITLEMENT - allows you to generate a list of requests/notifications that are still pending legal or medical entitlement.
- UPDATE REPORT OF CONTACT - CH - used to update information on a previously entered Report of Contact for Contract Hospital.

DISPOSITION MENU

NOTE: *This menu is located on the CIVIL HOSPITAL MAIN MENU.*

- COMPLETE 7078 AUTHORIZATION - used to enter the discharge date if it was not entered at the time medical entitlement was determined.
- EDIT COMPLETED 7078 - used to edit a previously entered VA Form 10-7078 Authorization.
- DISPLAY 7078 AUTHORIZATION - used to view the information on a VA Form 10-7078.
- CANCEL 7078 ENTERED IN ERROR - allows you to cancel a VA Form 10-7078 that was entered in error. When used, the estimated dollars will be freed up on the 1358. You must hold the FBAASUPERVISOR security key to use this option.
- PRINT LIST OF CANCELLED 7078 - prints those VA Form 10-7078s cancelled by a holder of the FBAASUPERVISOR security key.
- SET-UP A 7078 - used to set up a VA Form 10-7078 Contract Hospital authorization which has a status of COMPLETE.

PAYMENT PROCESS MENU

NOTE: *This menu is located on the CIVIL HOSPITAL MAIN MENU.*

- ANCILLARY CONTRACT HOSP/CNH PAYMENT - used to enter payments for ancillary services incurred by a patient while in a Contract Hospital.
- COMPLETE A PAYMENT - used to enter the amount paid for a Contract Hospital bill after it has been received from the Austin Pricer.
- DELETE INPATIENT INVOICE - allows you to delete an invoice entered in error. The invoice must be in a batch that has not been released for payment.
- EDIT ANCILLARY PAYMENT - used to edit certain portions of a previously entered ancillary payment.
- ENTER INVOICE/PAYMENT - used to enter a Contract Hospital payment.

- INVOICE EDIT - used to edit the dollar amount, as well as any diagnostic and/or procedure codes for a previously entered payment.
- MULTIPLE ANCILLARY PAYMENTS - used to enter identical ancillary services incurred while in a Non-VA Hospital for a specified patient and Vendor. Only the date of service may differ.
- PATIENT REIMBURSEMENT FOR ANCILLARY SERVICES - used to reimburse a patient for ancillary services paid for by the patient.
- REIMBURSEMENT FOR INPATIENT HOSPITAL INVOICE - used to enter a patient reimbursement for an inpatient hospital stay. The payment will be sent through the Austin Pricer just like a direct Vendor invoice, and the patient is reimbursed the same as the private facility.

BATCH MAIN MENU – CH

NOTE: *This menu is located on the CIVIL HOSPITAL MAIN MENU.*

- OPEN A BATCH - used to create a Contract Hospital batch.
- EDIT BATCH DATA - used to edit certain portions of Contract Hospital batches.
- CLOSE-OUT BATCH - used to close a Contract Hospital batch.
- RE-OPEN BATCH - used to reopen a Fee Basis batch which has a batch status of CLOSED.
- PRICER BATCH RELEASE - used by a supervisor to review payments and mark them for transmission to the Austin Pricer.
- RE-INITIATE PRICER REJECTED ITEMS - used to re-initiate rejects from the Austin Pricer system.
- RELEASE A BATCH - used by a supervisor to release a batch for payment. You must hold the FBAASUPERVISOR security key to use this option.
- FINALIZE A BATCH - used to flag payment line items as locally rejected and finalize a batch. Only batches with a status of CENTRAL FEE ACCEPTED can be selected. A Voucher Batch message is automatically transmitted to Central Fee when a batch is finalized.

You must hold the FBAAREJECT and/or FBAAFINANCE security keys to use this option, defined as follows:

- The FBAAREJECT security key allows the holder to flag payment line items as locally rejected.

- The FBAAFINANCE security key allows the holder to complete Finalize a Batch.
- RE-INITIATE REJECTED PAYMENT ITEMS - used to re-initiate rejected payment items and to assign them to a new batch.
- DELETE REJECT FLAG - used to delete local reject flags that were entered in error. Only batches with a status of CENTRAL FEE ACCEPTED can be selected. You must hold the FBAAREJECT security key to use this option.
- STATUS OF BATCH - used to obtain the current status of a Fee Basis batch.
- LIST ITEMS IN BATCH - used to view all payment records in the selected batch.
- BATCH DELETE - allows the user who opened a batch, or any user who holds the FBAASUPERVISOR security key, to delete a batch from the system.
- OPEN ANCILLARY PAYMENT BATCH - used to open a batch used for entering ancillary payments associated with a Contract Hospital admission.

OUTPUT MENU

NOTE: *This menu is located on the CIVIL HOSPITAL MAIN MENU.*

- 7078 PRINT - generates the VAF 10-7078.
- CHECK DISPLAY - displays all payments included on a check that was issued after the payment conversion from CALM (Centralized Accounting for Local Management) to the FMS (Financial Management System). The information displayed may differ dependent upon the Fee Basis program you are using.
- CIVIL HOSPITAL CENSUS REPORT - generates an output of all CH active inpatients (based on the Authorization FROM and TO dates in Section 5 of VA Form 10-7078) as of a specified census date.
- COST REPORT FOR CIVIL HOSPITAL - generates the Cost Report for Civil Hospital sorted by PATIENT TYPE CODE. The outputs include total cases, average amount paid, and average length of stay on total report.
- DISPLAY OPEN BATCHES - used to display information for batches with a status of OPEN.
- IPAC VENDOR REPORTS - allows the user to obtain the full listing of all of the IPAC Vendor Reports and will allow the user to select any of the reports to be output to a specified device.
- INVOICE DISPLAY - used to view and print a copy of a Contract Hospital invoice.

- LIST BATCHES PENDING RELEASE - used to display batches that have been closed, but not yet certified, by a supervisor for release to Austin.
- NON-VA HOSPITAL ACTIVITY REPORT - used to generate a report showing admissions, discharges, patients remaining, and the number of days of care for Contract Hospital.
- PENDING PRICER REJECTS - prints pending rejects from the Austin Pricer.
- POTENTIAL COST RECOVERY REPORT - used to identify costs for fee services which may be possible to recover. Data is sorted by division, patient, fee program, Vendor, and date.
- PRINT REJECTED PAYMENT ITEMS - used to view those items which have been rejected for payment and have not yet been re-initiated.
- REQUEST STATISTICS - used to generate a Contract Hospital report showing total number of requests, number denied, and the number still pending for a specified date range.
- UNAUTHORIZED CLAIMS COST REPORT FOR CIVIL HOSPITAL - generates a report to display the unauthorized claims payments for Civil Hospital for a specified date range.
- VENDOR PAYMENTS OUTPUT - used to generate a history of payments made to a selected Vendor within a specified date range.
- VETERAN PAYMENTS OUTPUT - used to generate a history of payments made within a specified date range for a selected Fee Basis patient.

GENERIC PRICER INTERFACE

NOTE: *This option is located on the CIVIL HOSPITAL MAIN MENU.*

This option is used to send a case to the Non-VA Hospital System (NVHS) Pricer. The intent of this option is to help eliminate any need for the use of FALCON.

QUEUE DATA FOR TRANSMISSION

NOTE: *This option is located on the CIVIL HOSPITAL MAIN MENU.*

This option used by the supervisor to transmit Contract Hospital payments and MRAs to Austin. The FBAASUPERVISOR security key is required to access this option.

NOTIFICATION/REQUEST MENU ENTER A REQUEST/NOTIFICATION

FBAA ESTABLISH VENDOR security key - required to enter new vendors.

Introduction

The Enter a Request/Notification option is used to enter a request for contract hospitalization services. This notification is the first step in the process of determining if the veteran is eligible for VA payment of the Contract Hospital charges and/or transfer to a VA facility for treatment.

This option allows you to enter a new patient or to edit existing patient data in the FEE BASIS PATIENT file (#161). Entering/editing of a patient's record is done via a series of formatted data screens. The process of entering/editing a patient's record will not be the same for every patient, nor for every user due to several variables which exist in the system. To allow flexibility, your site has the ability to create its own additional screen in order to capture certain information it may need or to capture information in a different format. For assistance in entering a new patient or an explanation of the data screens, refer to the Register a Patient option in the PIMS (formerly MAS) User Manual.

The data is checked for inconsistencies by the MAS Consistency Checker. The number of inconsistencies found is displayed, followed by a list of the fields that need data entered or edited. "Inconsistencies followed by two (2) asterisks [**] must be corrected by using the appropriate MAS menu option(s). All items not followed by an asterisk can be edited at this time. If these items are not corrected at this time, a bulletin is sent to the appropriate hospital personnel." (Refer to Appendix C for a sample bulletin.)

This option also allows you to enter a Report of Contact for the admission.

LEGAL ENTITLEMENT

If a VA Form 10-7078 is set up through this option, a Non-VA PTF record is created, and the estimated amount of the 7078 is automatically posted to the 1358.

Introduction

The Legal Entitlement option is used to enter determination of legal entitlement for patients requesting transfer and admission to a VA facility from a Contract Hospital.

Legal entitlement is determined by you based on the patient's eligibility for VA benefits. The usual source for this data is the HINQ (Hospital Inquiry) system. Legal entitlement may not be entered unless the patient's eligibility for care has a status of VERIFIED. This may be accomplished by users holding the DG ELIGIBILITY security key through the Enter a Request/Notification option of this menu. It may also be accomplished through the Eligibility Verification, Load/Edit Patient Data, and Register a Patient options on the Registration Menu of the ADT system.

This option also permits entry of medical entitlement and VA Form 10-7078 setup for those patients for whom LEGAL ENTITLEMENT and MEDICAL ENTITLEMENT have been answered "YES".

In order to complete the setup of a VA Form 10-7078, you must be an authorized control point user in IFCAP (Integrated Funds Distribution, Control Point Activity, Accounting, and Procurement).

NOTIFICATION/REQUEST MENU MEDICAL ENTITLEMENT

If a VA Form 10-7078 is set up through this option, a Non-VA PTF record is created, and the estimated amount of the 7078 is automatically posted to the 1358.

Introduction

The Medical Entitlement option is used to enter determination of medical entitlement of patients requesting transfer and admission to a VA facility from a Contract Hospital. Legal entitlement must be determined prior to using this option. Medical entitlement is determined by the VA physician reviewing the case.

This option may also be used to set up a VA Form 10-7078. In order to complete a setup of a VA Form 10-7078, you must be defined as a control point user in the IFCAP package.

DISPOSITION MENU SET UP A 7078

The estimated amount of the VA Form 10-7078 is posted to the 1358.

Use of this option creates a Non-VA PTF record.

Introduction

The Set up a 7078 option is used to set up a VA Form 10-7078 Authorization for Civil Hospital. You can only set up a VA Form 10-7078 for requests with a status of COMPLETE.

A Contract Hospital VA Form 10-7078 Authorization cannot be set up through this option until both the legal and medical entitlement have been determined. An incomplete VA Form 10-7078 cannot be edited through this option. This must be done through the Complete 7078/Authorization option.

PAYMENT PROCESS MENU

ANCILLARY CONTRACT HOSP/CNH PAYMENT

New Prompts:

Will any line items in this invoice be for contracted services? - Answering NO indicates that all line items within the invoice will NOT be for contracted services. Answering YES indicates that some, or all of the line items within the invoice will be for contracted services. Answering YES will result in an additional prompt appearing at the input of EACH line item.

Is this line item for a contracted service? - Only asked if the user answered YES to the above prompt. It allows you to indicate when a line item is for a contracted service.

Enter Vendor Invoice Date: - allows you to enter the Vendor's invoice date.

CPT MODIFIER: - allows you to break down services provided to the modifier level. This field is optional.

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information. Line items that had previously been cancelled are annotated with a plus sign (+).

FBAA ESTABLISH VENDOR Key - required to enter new or edit existing vendors.

FBAASUPERVISOR Key - required to enter payments for other users. Enter the clerk's name at the first prompt, "Select FEE BASIS BATCH NUMBER", to see a list of all open batches for that clerk.

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

IPAC Agreement Selection – If the selected Vendor is a federal Vendor with more than one active IPAC agreement, the user is prompted to select an agreement. If the selected Vendor has only one active IPAC agreement, it is automatically selected by the system. If the selected Vendor does not have any active IPAC agreements, no IPAC agreement prompting is displayed.

Enter the DoD Invoice Number – If the selected Vendor has one or more IPAC agreements, the user must enter the DoD Invoice Number. If the selected Vendor does not have any active IPAC agreements, no DoD Invoice Number prompt is displayed.

New insurance information may be uploaded into IB files through this option.

Introduction

This option is used to enter payments for ancillary services (services other than those included in the DRG) rendered while a patient is in a Contract Hospital for an authorized admission. Your name may be entered at the first prompt, "Select FEE BASIS BATCH NUMBER", to list all your open batches.

PAYMENT PROCESS MENU

ANCILLARY CONTRACT HOSP/CNH PAYMENT

Introduction, cont.

Only authorized Contract Hospital ancillary payments can be entered through this option. All other Fee Basis payments are entered through other payment options. Payment may be made for two or more of the same type of services to the same patient on the same date.

You may enter additional payments from a previous invoice (for the same patient) or payments from a new invoice. A new invoice number is assigned automatically, when required.

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A.

Depending on site parameters at your facility, patient authorization information and Vendor demographics may be displayed. Vendor demographics may be edited if you hold the FBAA ESTABLISH VENDOR security key. If there are previous payments to the Vendor for the selected patient, a payment history is shown.

You receive a warning when the patient has reached the maximum payment amount allowed for the month of service; or when you have reached 20 lines from the maximum number of payment lines allowed in a batch (set by the Max. # Payment Line Items site parameter).

An invoice with a Date of Service (AKA Treatment Date, Date Prescription Filled, etc.) later than the Invoice Received Date may not be approved for payment. Please refer to the section of Appendix J related to this menu option for further information.

PROMPT PAY TYPE: - allows input of money management indicator, if service provided was contracted for. This field is optional.

Only holders of the FBAASUPERVISOR security key may Edit Payments from batches that have been released by a supervisor.

IPAC Agreement Selection – If the selected Vendor is a federal Vendor with more than one active IPAC agreement, the user is prompted to select an agreement. If the selected Vendor has only one active IPAC agreement, it is automatically selected by the system. If the selected Vendor does not have any active IPAC agreements, no IPAC agreement prompting is displayed.

DoD Invoice Number – If the selected Vendor has one or more IPAC agreements, the user must enter the DoD Invoice Number. If the selected Vendor does not have any active IPAC agreements, no DoD Invoice Number prompt is displayed.

Do You Want to Modify the IPAC Data? – Only asked if the selected Vendor has one or more active IPAC Agreements. If answered ‘YES’, the user can select a different IPAC Agreement and/or enter a different DoD Invoice number.

Claim Adjustment Reason Codes (CARC)/Remittance Advice Remark Codes (RARC) CODES: each line item will accept up to five CARC/RARC combinations. Two RARCs can be selected for each CARC at the line level.

Introduction

The Edit Ancillary Payment option is used to edit data for a previously entered invoice for ancillary services rendered to a Contract Hospital patient. Payments from batches which have been transmitted cannot be edited.

An invoice with a Date of Service (AKA Treatment Date, Date Prescription Filled, etc.) later than the Invoice Received Date may not be approved for payment. Please refer to the section of Appendix J related to this menu option for further information.

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

IPAC Agreement Selection – If the selected Vendor is a federal Vendor with more than one active IPAC agreement, the user is prompted to select an agreement. If the selected Vendor has only one active IPAC agreement, it is automatically selected by the system. If the selected Vendor does not have any active IPAC agreements, no IPAC agreement prompting is displayed.

Enter the DoD Invoice Number – If the selected Vendor has one or more IPAC agreements, the user must enter the DoD Invoice Number. If the selected Vendor does not have any active IPAC agreements, no DoD Invoice Number prompt is displayed.

New insurance information may be uploaded into IB files through this option.

Claim Adjustment Reason Codes (CARC)/Remittance Advice Remark Codes (RARC) CODES: each line item will accept up to five CARC/RARC combinations. Two RARCs can be selected for each CARC at the line level.

Introduction

The Enter Invoice/Payment option is used to enter new Contract Hospital payments. Only authorized hospital invoices/payments may be entered through this option. All other Fee Basis payments are entered through other payment options. The Invoice Edit option must be used to make changes or adjustments to existing payments.

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A.

If the Vendor is exempt from the Austin Pricer, you will be prompted to enter the amount paid, and the payment will not be sent to the pricer.

Every prompt should be answered. Failure to enter a response or entering a <RET> or an up-arrow <^> at any prompt may result in an incomplete entry or deletion of the entire entry.

An invoice with a Date of Service (AKA Treatment Date, Date Prescription Filled, etc.) later than the Invoice Received Date may not be approved for payment. Please refer to the section of Appendix J related to this menu option for further information.

New Prompts:

Is this line item for a contracted service? - allows you to indicate when a line item is for a contracted service.

Vendor Invoice Date: - allows you to enter the Vendor's invoice date.

IPAC Agreement Selection – If the selected Vendor is a federal Vendor with more than one active IPAC agreement, the user is prompted to select an agreement. If the selected Vendor has only one active IPAC agreement, it is automatically selected by the system. If the selected Vendor does not have any active IPAC agreements, no IPAC agreement prompting is displayed.

DoD Invoice Number – If the selected Vendor has one or more IPAC agreements, the user must enter the DoD Invoice Number. If the selected Vendor does not have any active IPAC agreements, no DoD Invoice Number prompt is displayed.

Do You Want to Modify the IPAC Data? – Only asked if the selected Vendor has one or more active IPAC Agreements. If answered 'YES', the user can select a different IPAC Agreement and/or enter a different DoD Invoice number.

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information. Line items that have previously been cancelled are annotated with a plus sign (+).

The FBAASUPERVISOR security key is required to edit payments from batches that have been released by a supervisor.

NOTE: Even though other batches may be accessed, you should edit only invoices contained in batches that you opened.

Introduction

The Invoice Edit option is used to edit data for a previously entered Contract Hospital invoice.

- Enter the clerk's name at the first prompt, "Select FEE BASIS BATCH NUMBER", to see a list of all open batches for that clerk.

NOTE: Your name may be entered at the first prompt, "Select FEE BASIS BATCH NUMBER", to list all your open batches.

- This option cannot be used to enter new payments.
- Payments from batches which have been transmitted cannot be edited.

New insurance information may be uploaded into IB files through this option.

Introduction

This option is used to enter identical ancillary services incurred while in a Non-VA Hospital for a specified patient and Vendor. Only the date of service may differ.

Depending on site parameters at your facility, patient authorization information and Vendor demographics may be displayed. Vendor demographics may be edited if you hold the FBAA ESTABLISH VENDOR security key. If there are previous payments to the Vendor for the selected patient, a payment history is shown.

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A.

An invoice with a Date of Service (AKA Treatment Date, Date Prescription Filled, etc.) later than the Invoice Received Date may not be approved for payment. Please refer to the section of Appendix J related to this menu option for further information.

PAYMENT PROCESS MENU PATIENT REIMBURSEMENT FOR ANCILLARY SERVICES

New Prompts:

Enter Vendor Invoice Date: - allows you to enter the Vendor's invoice date.

CPT MODIFIER: - allows you to break down services provided to the modifier level. This field is optional.

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information. Line items that had previously been cancelled are annotated with a plus sign (+).

FBAA ESTABLISH VENDOR Key - required to enter new or edit existing vendors.

FBAASUPERVISOR Key - required to enter payments for other users. Enter the clerk's name at the first prompt, "Select FEE BASIS BATCH NUMBER", to see a list of all open batches for that clerk.

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

New insurance information may be uploaded into IB files through this option.

Introduction

The Patient Reimbursement for Ancillary Services option is used to reimburse a patient for ancillary services paid for by the patient. Your name may be entered at the first prompt, "Select FEE BASIS BATCH NUMBER", to list all your open batches.

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A.

An invoice with a Date of Service (AKA Treatment Date, Date Prescription Filled, etc.) later than the Invoice Received Date may not be approved for payment. Please refer to the section of Appendix J related to this menu option for further information.

REIMBURSEMENT FOR INPATIENT HOSPITAL INVOICE

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

New insurance information may be uploaded into IB files through this option.

Introduction

The Reimbursement for Inpatient Hospital Invoice option is used to enter a patient reimbursement for an inpatient hospital stay. The payment will be sent through the Austin Pricer just like a direct Vendor invoice and the patient is reimbursed the same as the private facility. If the Vendor is exempt from the pricer, the payment will not go through the Austin Pricer; instead, the prompts necessary to complete the payment will be asked.

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A.

An invoice with a Date of Service (AKA Treatment Date, Date Prescription Filled, etc.) later than the Invoice Received Date may not be approved for payment. Please refer to the section of Appendix J related to this menu option for further information.

BATCH MAIN MENU - CH

OPEN A BATCH

When a batch is opened, checks are made against the IFCAP software to ensure a valid station number, authorized control point user and open obligation number are selected.

Batch numbers are seven digits in order to prevent the local VistA sites from running out of batch ids within a seven year timeframe.

Introduction

Fee Basis bills are paid in groups called batches. The Open a Batch option is used to create a new Civil Hospital batch. You must be an authorized control point user in IFCAP to use this option. To enter, edit, or delete payment data in these batches, use the options in the Civil Hospital Payment Process Menu.

If you are a control point user for more than one control point, you are prompted to select a control point before selecting an obligation number.

WARNING: If you press <RET> or enter an up-arrow <^> in response to the "Select CONTROL POINT:" or "Select Obligation Number:" prompts, the batch will be deleted, you will return to the menu.

Example

```

WANT TO CREATE A CONTRACT HOSPITAL BATCH? YES// <RET>

BATCH NUMBER ASSIGNED IS: 1234567

SELECT OBLIGATION NUMBER: 500-C93999    -- 1358    OBLIGATED - 1358
                        FCP: 333        $ 9999999

```

BATCH MAIN MENU - CH EDIT BATCH DATA

FBAASUPERVISOR Key - required to edit batches opened by other users.

If the obligation number is edited, checks are made against the IFCAP software to ensure a valid station number; authorized control point user and open obligation number are selected.

Introduction

The Edit Batch data option is used to edit the obligation number and the date the batch was opened in batches with an OPEN status. You may only edit batches that you opened, unless you hold the FBAASUPERVISOR security key, in which case you may edit any batch.

NOTE: You must be an authorized control point user in IFCAP to change control point and obligation numbers.

BATCH MAIN MENU - CH CLOSE-OUT BATCH

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information, when applicable. Line items that had previously been cancelled are annotated with a plus sign (+).

FBAASUPERVISOR Key - allows you to close all types of batches, regardless of who opened them.

Introduction

The Close-out Batch option is used to close batches with an OPEN batch status. You may close only those batches which you opened, unless you hold the FBAASUPERVISOR security key. Before you close any batch, it must have payments recorded in it.

NOTE: Although you may access all open Fee Basis batches with this option, it should only be used to close Civil Hospital batches.

The total payment dollars and total payment line count are automatically calculated. After you use this option, the batch status is CLERK CLOSED, and no further payments may be added to the batch.

BATCH MAIN MENU - CH RE-OPEN BATCH

FBAASUPERVISOR Key - required to reopen batches other than those you opened.

Introduction

The Re-open Batch option is used to reopen a Fee Basis batch with a batch status of CLERK CLOSED. You may wish to reopen a batch to add or delete payment lines. Batches that have been released, transmitted, or finalized by a supervisor cannot be reopened. You may reopen only those batches which you originally opened, unless you hold the FBAASUPERVISOR security key, which allows you to reopen any batch with a CLERK CLOSED status. When a batch is reopened by someone other than the person who created it, the name of the person who reopened it will then be listed as the person who opened the batch.

NOTE: This option does not change the date opened. If you wish, you may change this information by using the Edit Batch data option. Although you may access all closed Fee Basis batches, only Civil Hospital batches should be reopened through this option.

To reopen a batch, you may enter the batch number or the name of the clerk who opened it at the "Select FEE BASIS BATCH NUMBER:" prompt. The output is automatically generated to your screen, and there is no way to exit the option once the process has started.

Example

```

BATCH MAIN MENU - CH RELEASE A BATCH

When a batch is released, the 1358 DAILY RECORD file is decreased by the amount of the batch. An adjustment transaction to the obligation is created. If the dollar amount of the batch exceeds the amount of the obligation in the 1358 DAILY RECORD file, the batch cannot be released.

FBAASUPERVISOR Key - required to access this option.

Introduction

The Release a Batch option is used to certify that a batch is ready to be released to Austin for payment. The certifier may review all line items in the batch or may simply release the batch as correct without review. Only batches with a status of CLERK CLOSED may be entered.

NOTE: Although you may access all open Fee Basis batches with this option, it should only be used to release Civil Hospital batches.

NOTE: As of patch FB*3.5*117, this option enforces 1358 segregation of duty policy, preventing the release of a batch by the requestor, approving official, or obligator of the 1358 obligation (initial obligation and any adjustments) associated with that batch.

The error message for a segregation of duty violation looks like this:

```
SELECT FEE BASIS BATCH NUMBER: 14230      C15064
YOU ARE THE OBLIGATOR OF THE 1358.
DUE TO SEGREGATION OF DUTIES, YOU CANNOT ALSO CERTIFY AN INVOICE FOR PAYMENT.
```

If this message appears you must get someone who is not the requestor, approving official, or obligator of the batch to release it.

Example

```
SELECT FEE BASIS BATCH NUMBER: 284      C35001

BATCH MAIN MENU - CH FINALIZE A BATCH

You must hold the FBAAREJECT and/or FBAAFINANCE security keys, defined as follows:

- The FBAAREJECT security key allows the holder to flag payment line items as locally rejected.
- The FBAAFINANCE security key allows the holder to complete Finalize a Batch.

NOTE: Although all Fee Basis batches needing to be finalized may be accessed, this option should only be used to finalize Civil Hospital batches.

Introduction

The Finalize a Batch option is used after a batch has been transmitted to Central Fee (Austin). It is used to reject certain payment items and to finalize the batch as correct. This option is also used to complete a batch, which changes its status to VOUCHERED and populates the DATE FINALIZED field in the FEE BASIS PAYMENT (#162) and FEE BASIS INVOICE (#162.5) files for applicable payments.

- Users specify local rejects, only. Payment lines that are rejected by Central Fee are reported to VistA automatically by interface transactions.
- Only batches with a status of CENTRAL FEE ACCEPTED can be selected.

If requested, the system will display all line items in the selected batch. You may then reject the entire batch or individual line items within the batch.

When a payment item is rejected through this option, the dollar amount of that item is automatically returned to the obligation.

When a batch is completed using this option, a transaction is automatically sent to Central Fee. That same user who completed the batch will also be a recipient of the message.

- This transaction instructs Central Fee of any payment line items that must be deleted (i.e. local rejects) and to release the remainder of the batch to downstream payment systems, such as FMS.
- This transaction replaces all use of 994 code sheets in IFCAP.

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information, when applicable. Line items that had previously been cancelled are annotated with a plus sign (+).

NOTE: Although all Fee Basis batches may be accessed, this option should only be used to re-initiate rejected payment items for Civil Hospital batches.

Introduction

The Re-Initiate Rejected Payment Items option is used to re-initiate rejected payment items into a new batch.

- The option prevents the selection of a batch when the Voucher Batch Acknowledgement from Central Fee reported an application error or has not yet been received. Central Fee generates a Voucher Batch Acknowledgement in response to the new transaction sent by VistA when the batch is completed using the Finalize a Batch option.
- It is possible to re-initiate all rejected line items in a batch at once, or re-initiate one line item at a time.

BATCH MAIN MENU - CH DELETE REJECT FLAG

You must hold the FBAAREJECT security key to use this option.

NOTE: Although all Fee Basis batches with rejections may be accessed, this option should only be used to delete reject flags from Civil Hospital batches.

Introduction

The Delete Reject Flag option is used to delete reject flags that were entered in error using the Finalize a Batch option.

- Only batches with a status of CENTRAL FEE ACCEPTED can be selected.
- Reject flags that are set by the Central Fee transactions cannot be locally deleted since those payment lines were *not* accepted by Central Fee or have been dropped from Central Fee.
- Locally specified reject flags can only be deleted before the batch is completed (VOUCHERED) since completion of the batch triggers the new transaction which results in the removal of any locally rejected payment lines from Central Fee and releases the remainder of the payment lines.
- When reject flags are deleted, the payment line count and total dollar amount for the batch will be recalculated. The current obligation balance will be decreased by the total dollar value of the rejected line item(s).

Example

```

BATCH MAIN MENU - CH STATUS OF BATCH

Introduction

The Status of Batch option is used to display the status of a selected batch, along with all other information available for that batch. The following table lists possible batch statuses, the fee program in which the status can be assigned, and a brief explanation of each status.

| STATUS | FEE PROGRAM | EXPLANATION OF STATUS |
|--------------------------|--|--|
| OPEN | Medical, Travel Pharmacy CH, CNH | The clerk opened a batch in order to process payments. |
| CLERK CLOSED | Medical, Travel Pharmacy CH, CNH | The clerk used the Close Batch option to signify that all payments within the batch are completed and ready for submission to Austin. |
| SUPERVISOR CLOSED | Medical, Travel Pharmacy CNH | The supervisor used the Release a Batch option after reviewing the batch and determining that all of the items were appropriate to forward to Austin. |
| SUPERVISOR CLOSED | CH | The Pricer Batch Release option was used to signify that the batch is ready for transmission to the Austin Pricer System. The Pricer Batch Release option may now be accessed by any user (is no longer locked). |
| FORWARDED TO PRICER | CH | The supervisor used the Queue Data for Transmission to send data to the pricer for processing. |
| ASSIGNED PRICE | CH | The clerk used the Complete a Payment option to enter the amount paid for a contract hospital bill received from the Austin pricer. This is done only when all invoices in the batch have been completed. |
| REVIEWED AFTER PRICER | CH | The supervisor used the Release a Batch option to indicate that the payment is ready to forward to Austin. |
| TRANSMITTED | Medical, Travel Pharmacy CH, CNH | The supervisor used the Queue Data for Transmission option to transmit FEE payments and MRAs to Austin. |
| CENTRAL FEE ACCEPTED | Medical, Travel Pharmacy CH, CNH | The Payment Batch Results message from Austin has been received. The batch contains at least one line item that was accepted by Austin |
| VOUCHERED | Medical, Travel Pharmacy CH, CNH | The batch was finalized by Fiscal Service. |

OPEN ANCILLARY PAYMENT BATCH

Introduction

The Open Ancillary Payment Batch option is used to open a batch for ancillary payments associated with a contract hospital admission. Ancillary payments are those made to vendors (other than the hospital) who provide services to veterans while they are hospitalized at a private facility under VA auspices.

You must be an authorized user in the IFCAP package to select an obligation number.

Example

```

CIVIL HOSPITAL CENSUS REPORT

Introduction

The Civil Hospital Census Report option generates an output of all active Civil Hospital inpatients, as determined by the Authorization FROM and TO dates in Section 5 of VA Form 10-7078, for a specified census date. For this reason, it is imperative that VA Form 10-7078s are entered in a timely manner in order for the report to contain accurate census information.

OUTPUT MENU

PAYMENT AGING REPORT

This option generates a report of payments that have been transmitted to Central Fee and are still awaiting payment confirmation or cancellation in VistA. The purpose of the new report is to identify payments in VistA Fee Basis that appear to have a problem because payment confirmation has not been received within an expected period.

Payment line items finalized within a user-specified period will be listed on this report if payment confirmation has not been received from Austin and the payment is not cancelled, ASagged as rejected, or voided.

NOTE: If the report is run for user-specified facilities instead of all facilities then any finalized payments with a blank value for the primary service facility are included in the results.

POTENTIAL COST RECOVERY REPORT

Introduction

This report is used to obtain information concerning patients and services received, which can potentially be recovered from the veteran and/or third party insurance. The report is run for a specified Primary Service Facility and date range; and you can choose to include Patient Copays, Insurance Copays, or Both. If you select “Patient Copays” or “Both”, you will also be prompted to indicate whether you want to include Means Test Copays, LTC Copays, or Both. The software examines all payments for the Outpatient, Pharmacy, Civil Hospital, and Community Nursing Home fee programs.

One or more of the following messages might appear in the report. The messages that contain “Cost recover from LTC co-pay” or “10-10EC Missing for LTC Patient” will only be generated for LTC payments with a date of service equal to or greater than July 5, 2002. The IB LTC clock might need to be updated to identify the patient's 21 free days.

| MESSAGE | EXPLANATION |
|--|---|
| >>>Cost recover from means testing. | The patient received non-LTC treatment, s/he does not have insurance and s/he is not exempt from Means Test copay. |
| >>>Cost recover from means testing and insurance. | The patient received non-LTC treatment, s/he has insurance and s/he is not exempt from Means Test copay. |
| >>>Cost recover from insurance. | The patient received non-LTC treatment, s/he has insurance and s/he is exempt from Means Test copay. |
| NONE - This payment will be excluded from the report. | The patient received non-LTC treatment, s/he doesn't have insurance and s/he is exempt from Means Test copay. |
| >>>Cost recover from LTC co-pay. | The patient received LTC treatment, s/he doesn't have insurance and s/he is not exempt from LTC copay. |

PRINT REJECTED PAYMENT ITEMS

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information, when applicable. Line items that had previously been cancelled are annotated with a plus sign (+).

Introduction

The Print Rejected Payment Items option is used to view and print all Fee Basis items which have been rejected for payment and have not yet been reinitiated. Line items may be rejected by interface transactions from the Central Fee system in Austin or they may be locally rejected using the Finalize a Batch option.

- The rejects are grouped by batch. If an entire batch was rejected, all payment items in that batch are listed.
- The report can be generated for batches with a status of CENTRAL FEE ACCEPTED or VOUCHERED or both.
- The report will print Central Fee Reject for lines that were flagged as rejected by the interface. It will print Local Reject for lines that were locally flagged as rejected by a user.
- The report will display reject codes and descriptions (maximum of 5) for lines that were flagged as rejected by the interface.

VETERAN PAYMENTS OUTPUT

Introduction

The Veteran Payments Output option is used to generate a history of payments made within a specified date range for a selected Fee Basis patient. You may choose to print the history for one, several, or all Fee Basis programs.

Line items that were previously cancelled are annotated with a plus sign (+).

GENERIC PRICER INTERFACE

This option generates MailMan messages with the data to be sent to Austin. You must be a member of the Non-VA Pricer (NVP) mail group to receive confirmation and daily reports.

Introduction

This option may be used to send a case to the Non-VA Hospital System (NVHS) Pricer system in Austin. The option does not require the patient to be in the FEE BASIS PATIENT file (#161), nor does it require the Vendor to be in the FEE BASIS VENDOR file (#161.2). However, the Vendor must have a Medicare ID number to be sent to the pricer.

The data that is sent will not be stored in the pricer database. Cases can be re-submitted. The intent of this option is to help eliminate any need for the use of FALCON.

QUEUE DATA FOR TRANSMISSION

FBAASUPERVISOR Key - required to access this option.

This option creates MailMan messages which contain the batch data to be transmitted. You must be a member of the NVP mail group to receive confirmation and reports from the Non-VA Pricer (NVP) system for Civil Hospital program.

Introduction

The Queue Data for Transmission option is used to transmit all payment and MRA batches to the Central Fee System in Austin. All pending MRAs are automatically batched and transmitted. Only payment batches released by a supervisor can be transmitted.

Each batch is sent in electronic MailMan message form. The option creates MailMan messages, shown in your "IN" basket, which contain the batch data to be transmitted. You may query the message to obtain the status of the transmittal. The system will continue to attempt to send the data until it is actually transmitted. You must be a member of the NVP mail group to receive confirmation and reports from the Non-VA Pricer (NVP) system for Civil Hospital program.

Refer to Appendix G at the end of this manual for sample MailMan messages received as a result of payment and MRA data transmission to Austin, and a description of the format and content.

Please refer to "Appendix K: Interface Between VistA Fee Basis and Central Fee Prevents Duplicate ICN Payments" at the end of this manual for information on the Austin response to the Queue Data For Transmission option.

Payment Batch Results Message

A Payment Batch Results message is sent from Central Fee to VistA Fee Basis. This transaction changes the status of a payment batch from TRANSMITTED to either CENTRAL FEE ACCEPTED or VOUCHERED. It also flags payment line items in the batch as rejected if they did not pass the Central Fee edit checks.

If VistA encounters a problem while processing the transaction, a bulletin will be sent to mail groups G.FEE and G.FEE FINANCE. An example of the bulletin is shown below:

Section 2: COMMUNITY NURSING HOME MAIN MENU

Overview

Following is a brief description of each option contained in the Community Nursing Home (CNH) Main Menu.

AUTHORIZATION MAIN MENU - CNH

NOTE: *This menu is located on the COMMUNITY NURSING HOME MAIN MENU.*

- ENTER CNH AUTHORIZATION - used to enter a Community Nursing Home authorization.
- EDIT CNH AUTHORIZATION - used to edit a previously entered Community Nursing Home authorization.
- CANCEL AUTHORIZATION ENTERED IN ERROR - used when an authorization has been set up, and it has been determined that it was entered in error. Once cancelled, you can reenter the correct authorization by using the Enter CNH Authorization option.
- CHANGE EXISTING CONTRACT RATE FOR A PATIENT - allows you to see all rates associated with an authorization, and change the existing contract rate for a specified patient. (Refer to Appendix D for information about multiple rates.)
- DELETE CNH RATE - allows the deletion of a CNH Rate, only if the rate has not been used by a patient yet (i.e., found in the FEE BASIS CNH AUTHORIZATION RATE file [#161.23]). (Refer to Appendix D for information about multiple rates.)
- DISPLAY 7078/AUTHORIZATION - used to view the information on a VA Form 10-7078.
- ENTER VETERAN RATES UNDER NEW VENDOR CONTRACT - allows you to choose a Vendor who may have a new contract. (Refer to Appendix D for information about multiple rates.)
- PRINT LIST OF CANCELLED 7078 - prints those VA Form 10-7078s cancelled by a holder of the FBAASUPERVISOR security key.

BATCH MAIN MENU - CNH

NOTE: *This menu is located on the COMMUNITY NURSING HOME MAIN MENU.*

- BATCH DELETE - allows the user who opened a batch, or any user who holds the FBAASUPERVISOR security key, to delete a batch from the system.

- CLOSE-OUT BATCH - used to close a Community Nursing Home batch.
- DELETE REJECT FLAG - used to delete local reject flags that were entered in error. Only batches with a status of CENTRAL FEE ACCEPTED can be selected. You must hold the FBAAREJECT security key to use this option.
- DISPLAY OPEN BATCHES - used to display information for batches with a status of OPEN.
- EDIT BATCH DATA - used to edit certain portions of Community Nursing Home batches.
- FINALIZE A BATCH - used to flag payment line items as locally rejected and finalize a batch. Only batches with a status of CENTRAL FEE ACCEPTED can be selected. A Voucher Batch message is automatically transmitted to Central Fee when a batch is finalized.

You must hold the FBAAREJECT and/or FBAAFINANCE security keys to use this option, defined as follows:

- The FBAAREJECT security key allows the holder to flag payment line items as locally rejected.
- The FBAAFINANCE security key allows the holder to complete a batch.
- LIST BATCHES PENDING RELEASE - used to display batches that have been closed but not yet certified by a supervisor.
- LIST ITEMS IN BATCH - used to view all payment records in the selected batch.
- OPEN CNH BATCH - used to create a Community Nursing Home batch.
- RE-INITIATE REJECTED PAYMENT ITEMS - used to re-initiate rejected payment items and to assign them to a new batch.
- RE-OPEN BATCH - used to reopen a Fee Basis batch which has a batch status of CLOSED.
- RELEASE A BATCH - used by a supervisor to release a batch for payment.
- STATUS OF BATCH - used to obtain the current status of a Fee Basis batch.

FEE FUND CONTROL MAIN MENU - CNH

NOTE: This menu is located on the **COMMUNITY NURSING HOME MAIN MENU**.

- ESTIMATE FUNDS FOR OBLIGATION - used to estimate Community Nursing Home funds needed in the future.

- POST COMMITMENTS FOR OBLIGATION - used to post commitments to a Community Nursing Home obligation.

NOTE: *This option is located on the COMMUNITY NURSING HOME MAIN MENU.*

This option allows you to enter/edit Community Nursing Home Vendor contracts and rates. (Refer to Appendix D for information about multiple rates.)

VENDOR ENTER/EDIT

NOTE: *This option is located on the COMMUNITY NURSING HOME MAIN MENU.*

This option is used to enter or edit information for a Community Nursing Home Vendor.

AUTHORIZATION MAIN MENU - CNH ENTER CNH AUTHORIZATION

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

New insurance information may be uploaded into IB files through this option.

The amount posted to the 1358 is automatically calculated by this option. The calculation is done for the month, not for the total authorization period.

If the patient is admitted, a Non-VA PTF record is created.

Introduction

The Enter CNH Authorization option is used to enter a new authorization for a patient admitted to a community nursing home under VA contract. In order to enter a CNH authorization, the patient must be registered and have an eligibility status of VERIFIED or PENDING VERIFICATION.

This option **cannot** be used to edit a previously entered authorization. An authorization can be edited through the Edit CNH Authorization option.

VA Form 10-7078, Authorization and Invoice for Medical and Hospital Services, is the authorization form. Information provided includes but is not limited to:

- Patient name, address, and social security number
- Name and ID number of the care provider
- Date of issue and the validity dates for the authorization

It should be noted that the information entered at the "AUTHORIZATION REMARKS" prompt will appear in Item 6 of the printed VA Form 10-7078. Any authorized services that you wish to show on the authorization form must be entered at this prompt.

A Vendor must first be entered through the Vendor Enter/Edit option, and must have current contract data on file before an authorization can be entered through this option for the selected Vendor.

AUTHORIZATION MAIN MENU

EDIT CNH AUTHORIZATION

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

New insurance information may be uploaded into IB files through this option.

Introduction

The Edit CNH Authorization option is used to edit a previously entered Community Nursing Home authorization.

If you edit the FROM or TO dates for the authorization, you may have to manually adjust the 1358. This will be done only if the payment for the month you are editing has been posted to the 1358. Editing does not automatically make adjustments to the 1358.

It should be noted that the information entered at the "AUTHORIZATION REMARKS" prompt will appear in Item 6 of the printed VA Form 10-7078. Any authorized services that you wish to show on the authorization form must be entered at this prompt.

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A.

AUTHORIZATION MAIN MENU CHANGE EXISTING CONTRACT RATE FOR A PATIENT

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

New insurance information may be uploaded into IB files through this option.

Introduction

The Change Existing Contract Rate for a Patient option allows you to see all rates associated with a selected patient and authorization. If you wish to change the rate for this patient, you are prompted to enter the effective date of the rate change, and to choose a new rate. You will see the new rates for this authorization upon completion of the change. If the rates are the same, the change will not take effect. (Refer to Appendix D for information about multiple rates.)

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A.

BATCH MAIN MENU - CNH BATCH DELETE

FBAASUPERVISOR Key - required to delete batches other than those you opened.

Introduction

This option allows you to delete batches that meet the following criteria:

1. Total Dollars equal to zero
2. Invoice Count equal zero
3. Payment Line Count equal zero
4. Rejects Pending flag not set to "YES"

If the batch does not meet the above criteria, a message is displayed explaining why the selected batch could not be deleted.

A batch that was rejected using the Reprocess Overdue Batch option cannot be deleted with the Batch Delete option.

Example

```
Select FEE BASIS BATCH NUMBER: 169          C90234

NUMBER: 169                                OBLIGATION NUMBER: C90234

Select FEE BASIS BATCH NUMBER:
```

BATCH MAIN MENU - CNH CLOSE-OUT BATCH

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information, when applicable. Line items that had previously been cancelled are annotated with a plus sign (+).

FBAASUPERVISOR Key - allows you to close all types of batches, regardless of who opened them.

Introduction

The Close-out Batch option is used to close batches with an OPEN batch status. You may close only those batches which you opened, unless you hold the FBAASUPERVISOR security key. Before you close any batch, it must have payments recorded in it.

NOTE: Although you may access all open Fee Basis batches with this option, it should only be used to close Contract Nursing Home batches.

The total payment dollars and total payment line count are automatically calculated. After you use this option, the batch status is CLERK CLOSED, and no further payments may be added to the batch.

BATCH MAIN MENU - CNH DELETE REJECT FLAG

You must hold the FBAAREJECT security key to use this option.

NOTE: Although all Fee Basis batches with rejections may be accessed, this option should only be used to delete reject flags from Community Nursing Home batches.

Introduction

The Delete Reject Flag option is used to delete reject flags that were entered in error using the Finalize a Batch option.

- Only batches with a status of CENTRAL FEE ACCEPTED can be selected.
- Reject flags that are set by the Central Fee transactions cannot be locally deleted since those payment lines were *not* accepted by Central Fee or have been dropped from Central Fee.
- Locally specified reject flags can only be deleted before the batch is completed (VOUCHERED) since completion of the batch triggers the new transaction which results in the removal of any locally rejected payment lines from Central Fee and releases the remainder of the payment lines.
- When reject flags are deleted, the payment line count and total dollar amount for the batch will be recalculated. The current obligation balance will be decreased by the total dollar value of the rejected line item(s).

EDIT BATCH DATA

FBAASUPERVISOR Key - required to edit batches opened by other users.

Introduction

The Edit Batch data option is used to edit the obligation number and the date the batch was opened in batches with an OPEN status. You may only edit batches that you opened, unless you hold the FBAASUPERVISOR security key, in which case you may edit any batch.

NOTE: You must be an authorized control point user in IFCAP to change control point and obligation numbers.

BATCH MAIN MENU - CNH FINALIZE A BATCH

You must hold the FBAAREJECT and/or FBAAFINANCE security keys, defined as follows:

- The FBAAREJECT security key allows the holder to flag payment line items as locally rejected.
- The FBAAFINANCE security key allows the holder to complete Finalize a Batch.

NOTE: Although all Fee Basis batches needing to be finalized may be accessed, this option should only be used to finalize Civil Hospital batches.

Introduction

The Finalize a Batch option is used after a batch has been transmitted to Central Fee (Austin). It is used to reject certain payment items and to finalize the batch as correct. This option is also used to complete a batch, which changes its status to VOUCHERED and populates the DATE FINALIZED field in the FEE BASIS PAYMENT (#162) and FEE BASIS INVOICE (#162.5) files for applicable payments.

- Users specify local rejects, only. Payment lines that are rejected by Central Fee are reported to VistA automatically by interface transactions.
- Only batches with a status of CENTRAL FEE ACCEPTED can be selected.

If requested, the system will display all line items in the selected batch. You may then reject the entire batch or individual line items within the batch.

When a payment item is rejected through this option, the dollar amount of that item is automatically returned to the obligation.

When a batch is completed using this option, a transaction is automatically sent to Central Fee. That same user who completed the batch will also be a recipient of the message.

- This transaction instructs Central Fee of any payment line items that must be deleted (i.e. local rejects) and to release the remainder of the batch to downstream payment systems, such as FMS.
- This transaction replaces all use of 994 code sheets in IFCAP.

BATCH MAIN MENU - CNH

OPEN CNH BATCH

When a batch is opened, checks are made against the IFCAP software to ensure a valid station number, authorized control point user and open obligation number are selected.

Batch numbers are seven digits in order to prevent the local VistA sites from running out of batch ids within a seven-year timeframe.

Introduction

Fee Basis bills are paid in groups called batches. The Open CNH Batch option is used to create a new Community Nursing Home batch. To enter, edit, or delete payment data in these batches, use the options in the Community Nursing Home Payment Main Menu.

WARNING: If you press <RET> or enter an up-arrow <^> in response to the "Select CONTROL POINT:" or "Select Obligation Number:" prompts, the batch will be deleted, you will return to the menu.

You will be prompted for a control point only if you are a user in multiple control points.

Example

```
WANT TO CREATE A COMMUNITY NURSING HOME BATCH? YES// <RET>
BATCH NUMBER ASSIGNED IS: 1234567
SELECT CONTROL POINT: 999 CNH
SELECT OBLIGATION NUMBER: C89701 500-C89701 -- 1358 OBLIGATED - 1358
                        FCP: 999      $ 10000
```

BATCH MAIN MENU - CNH RE-INITIATE REJECTED PAYMENT ITEMS

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information, when applicable. Line items that had previously been cancelled are annotated with a plus sign (+).

NOTE: Although all Fee Basis batches may be accessed, this option should only be used to re-initiate rejected payment items for Community Nursing Home batches.

Introduction

The Re-Initiate Rejected Payment Items option is used to re-initiate rejected payment items into a new batch.

- The option prevents the selection of a batch when the Voucher Batch Acknowledgement from Central Fee reported an application error or has not yet been received. Central Fee generates a Voucher Batch Acknowledgement in response to the new transaction sent by VistA when the batch is completed using the Finalize a Batch option.
- It is possible to re-initiate all rejected line items in a batch at once, or re-initiate one line item at a time.

Example

```

BATCH MAIN MENU - CNH RE-OPEN BATCH

FBAASUPERVISOR Key - required to reopen batches other than those you opened.

Introduction

The Re-open Batch option is used to reopen a Fee Basis batch with a batch status of CLERK CLOSED. You may wish to reopen a batch to add or delete payment lines or correct an overpayment. Batches that have been released, transmitted, or finalized by a supervisor cannot be reopened. You may reopen only those batches which you originally opened, unless you hold the FBAASUPERVISOR security key, which allows you to reopen any batch with a CLERK CLOSED status. When a batch is reopened by someone other than the person who created it, the name of the person who reopened it will then be listed as the person who opened the batch.

NOTE: This option does not change the date opened. If you wish, you may change this information by using the Edit Batch data option. Although you may access all closed Fee Basis batches, only Community Nursing Home batches should be reopened through this option.

To reopen a batch, you may enter the batch number or the name of the clerk who opened it at the "Select FEE BASIS BATCH NUMBER:" prompt. The output is automatically generated to your screen, and there is no way to exit the option once the process has started.

Example

```
SELECT FEE BASIS BATCH NUMBER: 73          C93999

SELECT FEE BASIS BATCH NUMBER:
```

BATCH MAIN MENU - CNH RELEASE A BATCH

When a batch is released, the 1358 DAILY RECORD file is decreased by the amount of the batch. An adjustment transaction to the obligation is created. If the dollar amount of the batch exceeds the amount of the obligation in the 1358 DAILY RECORD file, the batch cannot be released in its entirety.

FBAASUPERVISOR Key - required to access this option.

Introduction

The Release a Batch option is used to certify that a batch is ready to be released to Austin for payment. The certifier may review all line items in the batch or may simply release the batch as correct without review. Only batches with a status of CLERK CLOSED may be entered.

When a batch is released for Community Nursing Home, individual line item payments are posted to authorizations on the 1358. All successfully posted line items will be released in the batch. If a line item payment exceeds the dollar amount on the obligation, then the payment will be held and put into a new batch.

NOTE: Although you may access all open Fee Basis batches with this option, it should only be used to release Community Nursing Home batches.

NOTE: As of patch FB*3.5*117, this option enforces 1358 segregation of duty policy, preventing the release of a batch by the requestor, approving official, or obligator of the 1358 obligation (initial obligation and any adjustments) associated with that batch.

The error message for a segregation of duty violation looks like this:

```
SELECT FEE BASIS BATCH NUMBER: 14230      C15064
YOU ARE THE OBLIGATOR OF THE 1358.
DUE TO SEGREGATION OF DUTIES, YOU CANNOT ALSO CERTIFY AN INVOICE FOR PAYMENT.
```

If this message appears you must get someone who is not the requestor, approving official, or obligator of the batch to release it.

Example

```
SELECT FEE BASIS BATCH NUMBER: 73          C93999

STATUS OF BATCH

Introduction

The Status of Batch option is used to display the status of a selected batch, along with all other information available for that batch. The following table lists possible batch statuses, the fee program in which the status can be assigned, and a brief explanation of each status.

| STATUS | FEE PROGRAM | EXPLANATION OF STATUS |
|--------------------------|--|--|
| OPEN | Medical, Travel Pharmacy CH, CNH | The clerk opened a batch in order to process payments. |
| CLERK CLOSED | Medical, Travel Pharmacy CH, CNH | The clerk used the Close Batch option to signify that all payments within the batch are completed and ready for submission to Austin. |
| SUPERVISOR CLOSED | Medical, Travel Pharmacy CNH | The supervisor used the Release a Batch option after reviewing the batch and determining that all of the items were appropriate to forward to Austin. |
| SUPERVISOR CLOSED | CH | The Pricer Batch Release option was used to signify that the batch is ready for transmission to the Austin Pricer System. The Pricer Batch Release option may now be accessed by any user (is no longer locked). |
| FORWARDED TO PRICER | CH | The supervisor used the Queue Data for Transmission to send data to the pricer for processing. |
| ASSIGNED PRICE | CH | The clerk used the Complete a Payment option to enter the amount paid for a contract hospital bill received from the Austin pricer. This is done only when all invoices in the batch have been completed. |
| REVIEWED AFTER PRICER | CH | The supervisor used the Release a Batch option to indicate that the payment is ready to forward to Austin. |
| TRANSMITTED | Medical, Travel Pharmacy CH, CNH | The supervisor used the Queue Data for Transmission option to transmit FEE payments and MRAs to Austin. |
| CENTRAL FEE ACCEPTED | Medical, Travel Pharmacy CH, CNH | The Payment Batch Results message from Austin has been received. The batch contains at least one line item that was accepted by Austin |
| VOUCHERED | Medical, Travel Pharmacy CH, CNH | The batch was finalized by Fiscal Service. |

FEE FUND CONTROL MAIN MENU - CNH POST COMMITMENTS FOR OBLIGATION

Data is automatically passed to the IFCAP system 1358 module.

Introduction

The Post Commitments for Obligation option is used to post commitments for a specified month/year to the Community Nursing Home obligation assigned to that month/year. The system checks the data previously entered in the VA FORM 10-7078 file (#162.4) and calculates the commitments for the specified month/year.

Data is automatically passed to the IFCAP system 1358 module. The commitments are deducted from the 1358 for the specified month/year.

This option **MUST** be used in order to make payments.

LTC CNH ACTIVE AUTHORIZATIONS REPORT

Introduction

This report identifies outpatient CNH authorizations that are active within the user-specified date range. An authorization is included in this report if either the Authorization From or the Authorization To date falls within the user-specified date range.

Using this option, the “Select FEE BASIS PROGRAM NAME:” prompt will default to “CONTRACT NURSING HOME”. You can then enter one, ASny, or all PURPOSE OF VISIT NAME(S). Any authorization remarks may also be included.

Following are the POV codes for CNH.

| CODE | DESCRIPTION |
|------|--|
| 40 | COMMUNITY NURSING HOME FOR SC DISABILITY(IES) |
| 41 | COMMUNITY NURSING HOME FOR NSC DISABILITY(IES) |
| 42 | COMMUNITY NURSING HOME FOR ACTIVE DUTY PERSONNEL |
| 43 | CNH HOSPICE |
| 44 | CNH RESPITE CARE |

In addition to detailed authorization information, this report calculates and displays the Total Number of Visits and Total Amount Paid (per authorization) that occurred within your specified date range, along with the Cumulative Number of Visits and Total Amount Paid for the entire Authorization through the ending date of the date range. These totals are calculated by counting each line item on the claim as a visit (per UNIQUE CPT Code) for the Authorization.

ADMIT TO CNH

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

New insurance information may be uploaded into IB files through this option.

Use of this option creates a Non-VA PTF record.

Introduction

The Admit To CNH option is used to admit a patient to a Community Nursing Home. The patient must have an active authorization on file for the period of admission. Only one active admission will be allowed for a patient.

If you select a patient who already has an active admission on file, you will be able to view that admission information through this option. However, you must use the Admission Edit option of the Edit Movement Menu to edit the data.

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A.

New insurance information may be uploaded into IB files through this option.

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

Introduction

The Discharge from CNH option is used to discharge a patient from a Community Nursing Home. Only those patients that have an active admission on file may be discharged.

Once a discharge date is entered, the admission date is no longer considered active, and the authorization to date is updated to become the discharge date.

TO THE VA AUTHORIZED TREATMENT OR SERVICES OF THIS VETERAN.
2. Fees or rates listed represent maximum allowance for services specified. In no event should charges be made to
the VA in excess of usual and customary charges to the general public for similar services.
3. Payment by the VA is payment in full for authorized services rendered.
4. Unless otherwise approved by the VA, services are limited in type and extent to those shown on this
authorization. If services are not initiated for any reason, return a copy of the authorization to the issuing
office with a brief explanation.
5. A copy of the Operative Report will be forwarded to the Authorizing station within one week following any major

OUTPUT MAIN MENU - CNH CNH CENSUS REPORT

Introduction

The CNH Census Report option generates an output of all active Community Nursing Home inpatients, as determined by the Authorization FROM and TO dates in Section 5 of VA Form 10-7078, for a specified census date. For this reason, it is imperative that VA Form 10-7078s be entered in a timely manner in order for the report to contain accurate census information.

Your response to the "Display Address for Vendors? No//" prompt determines what appears in the output. If you accept the "No" default, the following information is displayed on your screen:

- Vendor name and ID number
- Veteran name, DOB, and Veteran ID
- PSA
- Authorized FROM date

If your response is "YES", the output will also include the following information:

- Vendor name, address, and telephone number
- Vendor participation code

Example

OUTPUT MAIN MENU - CNH NURSING HOME 10-0168 REPORT

Introduction

This option prints the data for the Community Nursing Home Code sheet 10-0168 (formerly the RCS 18-3 report) for a specified fiscal quarter and year, and allows you to generate the code sheets for the nursing homes included, if you are running Generic Code Sheet V. 2.0.

WARNING: If your site has negotiated a contract with a nursing home, and other VA facilities have placed veterans in that nursing home against your contract, you need to edit the code sheet that is created for that home. You will need to modify the field titled, "Number of Veterans in Home" to reflect the TOTAL number of veterans placed in the nursing home under that contract. This information is available to you through the social workers at your facility. Once you edit any necessary code sheets (done through the generic code sheet options), you may use the Generic Code Sheet Menu to batch and transmit your code sheets to Austin.

Example

```

OUTPUT MAIN MENU - CNH POTENTIAL COST RECOVERY REPORT

Introduction

This report is used to obtain information concerning patients and services received, which can potentially be recovered from the veteran and/or third party insurance. The report is run for a specified Primary Service Facility and date range; and you can choose to include Patient Copays, Insurance Copays, or Both. If you select “Patient Copays” or “Both”, you will also be prompted to indicate whether you want to include Means Test Copays, LTC Copays, or Both. The software examines all payments for the Outpatient, Pharmacy, Civil Hospital, and Community Nursing Home fee programs.

One or more of the following messages might appear in the report. The messages that contain “Cost recover from LTC co-pay” or “10-10EC Missing for LTC Patient” will only be generated for LTC payments with a date of service equal to or greater than July 5, 2002. The IB LTC clock might need to be updated to identify the patient's 21 free days.

| Message | Explanation |
|--|---|
| >>>Cost recover from means testing. | The patient received non-LTC treatment, s/he does not have insurance and s/he is not exempt from Means Test copay. |

OUTPUT MAIN MENU - CNH PRINT REJECTED PAYMENT ITEMS

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information, when applicable. Line items that had previously been cancelled are annotated with a plus sign (+).

Introduction

The Print Rejected Payment Items option is used to view and print all Fee Basis items which have been rejected for payment and have not yet been reinitiated. Line items may be rejected by interface transactions from the Central Fee system in Austin or they may be locally rejected using the Finalize a Batch option.

- The rejects are grouped by batch. If an entire batch was rejected, all payment items in that batch are listed.
- The report can be generated for batches with a status of CENTRAL FEE ACCEPTED or VOUCHERED or both.
- The report will print Central Fee Reject for lines that were flagged as rejected by the interface. It will print Local Reject for lines that were locally flagged as rejected by a user.
- The report will display reject codes and descriptions (maximum of 5) for lines that were flagged as rejected by the interface.

EDIT CNH PAYMENT

New Prompt: *Enter Vendor Invoice Date*

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information, if applicable. Line items that had previously been cancelled are annotated with a plus sign (+).

The FBAASUPERVISOR security key is required to edit payments in batches that have been released by a supervisor, or payments entered by other users.

Introduction

The Edit CNH Payment option is used to edit data for a previously entered Community Nursing Home payment. Payments can only be entered by using the Enter CNH Payment option.

Use this option to edit or delete the entire invoice, or individual data items. You cannot edit payments in batches which have been transmitted. You may not delete the data in required fields.

An invoice with a Date of Service (AKA Treatment Date, Date Prescription Filled, etc.) later than the Invoice Received Date may not be approved for payment. Please refer to the section of Appendix J related to this menu option for further information.

PAYMENT MAIN MENU - CNH ENTER CNH PAYMENT

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

New insurance information may be uploaded into IB files through this option.

Introduction

The Enter CNH Payment option is used to enter Community Nursing Home payments. Only Community Nursing Home payments can be entered through this option. All other Fee Basis payments must be entered through other menus. Only batches opened by you and having a current status of OPEN may be entered.

You cannot enter new vendors with this option. If you wish to enter a new Vendor, use the Vendor Enter/Edit option on the Community Nursing Home Main Menu.

The system calculates the amount to be paid based on data in the CNH ACTIVITY file. The system will automatically assign invoice numbers to each payment. There is a separate invoice number for each payment line.

The system will not accept payments for a period that is not within the patient's authorized dates.

QUEUE DATA FOR TRANSMISSION

FBAASUPERVISOR Key - required to access this option.

This option creates MailMan messages which contain the batch data to be transmitted. You must be a member of the NVP mail group to receive confirmation and reports from the Non-VA Pricer (NVP) system for Civil Hospital program.

Introduction

The Queue Data for Transmission option is used to transmit Fee Basis payments and MRA batches to the Central Fee System in Austin. All pending MRAs are automatically batched and transmitted. Only payment batches released by a supervisor can be transmitted.

Each batch is sent in electronic MailMan message form. The option creates MailMan messages, shown in your "IN" basket, which contain the batch data to be transmitted. You may query the message to obtain the status of the transmittal. The system will continue to attempt to send the data until it is actually transmitted. You must be a member of the NVP mail group to receive confirmation and reports from the Non-VA Pricer (NVP) system for Civil Hospital program.

Refer to Appendix G at the end of this manual for sample MailMan messages received as a result of payment and MRA data transmission to Austin, and a description of the format and content.

Please refer to "Appendix K: Interface Between VistA Fee Basis and Central Fee Prevents Duplicate ICN Payments" at the end of this manual for information on the Austin response to the Queue Data For Transmission option.

Payment Batch Results Message

A Payment Batch Results message is sent from Central Fee to VistA Fee Basis. This transaction changes the status of a payment batch from TRANSMITTED to either CENTRAL FEE ACCEPTED or VOUCHERED. It also flags payment line items in the batch as rejected if they did not pass the Central Fee edit checks.

If VistA encounters a problem while processing the transaction, a bulletin will be sent to mail groups G.FEE and G.FEE FINANCE. An example of the bulletin is shown below:

```

UPDATE VENDOR CONTRACT/RATES - CNH

Introduction

This option allows you to enter/edit Community Nursing Home Vendor contracts and rates. It can be used to add new contract numbers, effective dates, expiration dates, and nursing home rates for the selected Vendor; or to edit the data currently on file. You cannot add a new Vendor with this option.

Since Fee Basis nursing home rates may be negotiated per patient, you may enter an unlimited number of rates per contract at the "Enter Nursing Home Rate:" prompt. (Refer to Appendix D for more information about multiple rates.) This prompt will repeat until you enter an up-arrow <^>, which will return you to the "Select FEE BASIS VENDOR NAME:" prompt.

Example

VENDOR ENTER/EDIT

FBAE ESTABLISH VENDOR Key - required to enter a new or edit an existing Vendor.

Introduction

The Vendor Enter/Edit option is used to enter new vendors or edit existing vendors, and to display Vendor demographics. This option is used to enter Community Nursing Home vendors and all ancillary vendors who provide services under VA contract to veterans in nursing homes. A Vendor cannot be deleted from the DHCP FEE BASIS VENDOR file (#161.2).

Vendors must be entered into the system before they can receive any Fee Basis payments. The Fee Basis Vendor ID Number is usually the individual's Social Security Number (SSN) or the Vendor's Tax ID number. A group of physicians may be entered in the system under one ID number if they are incorporated (e.g., Dermatology Assocs., P.C., or Capital District Urologists, P.C.).

When you request a list of vendors by entering <?> at the "Select FEE BASIS VENDOR NAME:" prompt, or if multiple vendors exist with the Vendor name you selected, the list displayed will indicate if the Vendor is in DELETE status or Awaiting Austin Approval.

WARNING: If you are attempting to edit Vendor information for a Vendor flagged "Awaiting Austin Approval" anywhere in the package which allows entering a Vendor or editing Vendor data (e.g., prompts that ask, "ARE YOU ADDING {Vendor name} AS A NEW FEE BASIS VENDOR (THE {n}TH)?", or "Want to Edit data? NO//", etc.), the following message will appear on your screen:

Current Vendor information is pending Austin processing. Changing Vendor information at this time may jeopardize the processing of the existing Master Record Adjustment!

Do you wish to continue editing this Vendor? No//

Any changes which you make to a Vendor will affect all other sites which have this Vendor in their FEE BASIS VENDOR file (#161.2).

Overview

Following is a brief description of each option contained in the Medical Fee Main Menu.

BATCH MAIN MENU

NOTE: *This menu is located on the MEDICAL FEE MAIN MENU.*

- **ACTIVE BATCH LISTING BY STATUS** - prints active batches for one, ASny, or all batch statuses. The output is sorted alphabetically by batch status, and excludes all batches with a status of **VOUCHERED**.
- **BATCH DELETE** - allows the user who opened a batch, or any user who holds the **FBAASUPERVISOR** security key, to delete a batch from the system.
- **BATCH STATUS FOR A RANGE OF BATCHES** - allows you to enter a range of batches and list the current status, obligation number, and Fee Program.
- **CLOSE OUT BATCH** - closes a Fee Basis batch. Once a batch is closed, no further payments may be added to it, and travel dollars and payment line count are tabulated.
- **DISPLAY OPEN BATCHES** - allows you to display a list of all Fee Basis batches which have an **OPEN** status.
- **EDIT BATCH DATA** - allows you to edit **DATE BATCH OPENED** and **OBLIGATION NUMBER**.
- **LIST ITEMS IN BATCH** - used to view all payment records in the selected batch.
- **OPEN A BATCH** - used to create and open a new Fee Basis batch.
- **RE-OPEN BATCH** - used to reopen a Fee Basis batch which was previously closed, and has a batch status of **CLOSED**. This allows additional payments to be entered into the batch.
- **RELEASE A BATCH** - used to certify that a batch is ready to be released to Austin for payment.
- **STATUS OF BATCH** - displays all information available for the selected batch. If the batch status is **OPEN**, the only information available is date opened, clerk who opened, and batch type. If the batch status is **CLERK CLOSED**, the total dollars and payment line count are also displayed.

- **REPORT OF CONTACT** - used to record contact between a Vendor and the medical center or edit an existing Report of Contact.

SUPERVISOR MAIN MENU

NOTE: *This menu is located on the MEDICAL FEE MAIN MENU.*

- **ADD NEW PERSON FOR UNAUTHORIZED CLAIM** - allows entry to the NEW PERSON file (#200) when an Unauthorized Claim is submitted by another party (i.e., not the veteran or the Vendor) whose name and address need to be entered.
- **CLERK LOOK-UP FOR AN AUTHORIZATION** - allows the holder of the FBAASUPERVISOR security key to look up the last user to enter and/or edit a selected authorization.
- **CONTRACT FILE ENTER/EDIT** - Enter/Edit data in the FEE BASIS CONTRACT (#161.43) file. This file contains a list of contracts. New outpatient and civil hospital authorizations and payments can be linked to an active contract. The contract number will be included with associated payments that are transmitted to Central Fee. Note that contracts for community nursing home rates are stored in a different file and are updated using a different option.

- DELETE REJECT FLAG - used to delete local reject flags that were entered in error. Only batches with a status of CENTRAL FEE ACCEPTED can be selected. You must hold the FBAAREJECT security key to use this option.
- EDIT PHARMACY INVOICE STATUS - used to change the status of a pharmacy invoice.
- ENTER/EDIT SUSPENSION LETTERS - used to enter a new suspension letter into the system, or edit an existing letter.
- FEE BASIS 1358 SEGREGATION OF DUTY REPORT - used to report fee invoice certification events and identify any 1358 segregation of duty violations.
- FEE SCHEDULE MAIN MENU
 - ADD/EDIT FEE SCHEDULE - used to enter a CPT code into the FEE BASIS FEE SCHEDULE file (#163.99) for use as a default amount paid value in the Outpatient Medical program.
 - COMPILE FEE SCHEDULE - compiles the Fee Schedule data based on a specified date range.
 - PRINT FEE SCHEDULE - prints a report of the Fee Schedule for a specified fiscal year.
- FINALIZE A BATCH - used to flag payment line items as locally rejected and finalize a batch. Only batches with a status of CENTRAL FEE ACCEPTED can be selected. A Voucher Batch message is automatically transmitted to Central Fee when a batch is finalized.

You must hold the FBAAREJECT and/or FBAAFINANCE security keys to use this option, defined as follows:

- The FBAAREJECT security key allows the holder to flag payment line items as locally rejected.
- The FBAAFINANCE security key allows the holder to complete Finalize a Batch.
- FPPS UPDATE & TRANSMIT MENU – Menu for fee supervisor options that are related to the interface with the FPPS system.
 - OUTPATIENT/ANCILLARY INVOICE EDIT – This option is used to edit an outpatient or ancillary invoice that has previously been transmitted to FPPS. If changes are made, the invoice will be queued to be resent to FPPS.
 - PHARMACY INVOICE EDIT – This option is used to edit a pharmacy invoice that has previously been transmitted to FPPS. If changes are made, the invoice will be queued to be resent to FPPS.

- INPATIENT INVOICE EDIT – This option is used to edit an inpatient (civil hospital or community nursing home) invoice that has previously been transmitted to FPPS. If changes are made, the invoice will be queued to be resent to FPPS.
- AUDIT REPORT FOR FPPS DATA – This option generates a report from the FEE BASIS FPPS AUDIT file. This file contains an audit log of changes made to an invoice using special edit options. The options allow editing of selected data after the invoice has been transmitted to FPPS to resolve exceptions.
- REPORT OF TRANSMISSIONS TO FPPS – This option generates a report of fee invoices transmitted to the VistA HL7 package for delivery to the Fee Payment Processing System (FPPS) at the Health Administration Center (HAC).
- PURGE MESSAGE TEXT – When an invoice is transmitted to FPPS via the HL7 package, a copy of the HL7 message text is saved in the FPPS QUEUED INVOICES (#163.5) file. This option purges the message text for invoices transmitted prior to a specified date. Messages that have not been accepted by the VistA Interface Engine will not be purged unless there is a later message for the same invoice number that has been accepted.
- LIST BATCHES PENDING RELEASE - displays batches that have been closed, but not yet finalized, by the supervisor.
- MRA MAIN MENU
 - VENDOR MRA MAIN MENU
 - UPDATE FMS VENDOR FILE IN AUSTIN - creates a Master Record Adjustment (MRA) transaction which results in the updating of selected Vendor demographic data in the FMS VENDOR file in Austin. Use of this option should update the FMS VENDOR file to reflect what is currently in the VISTA system. Information at all other VA Medical Centers using this Vendor will also be updated.
 - DELETE VENDOR MRA - used to transmit a delete MRA transaction whenever a Vendor becomes inactive, or cancels Fee Basis care.
 - REINSTATE VENDOR MRA - used to reactivate a Vendor formerly in DELETE status.
 - MRA'S AWAITING AUSTIN APPROVAL - generates an output of the vendors that have an MRA action pending, and are still Awaiting Austin Approval.
 - VETERAN MRA MAIN MENU

- ADD TYPE VETERAN MRA - creates an Add type Veteran MRA transaction to be sent to the centralized Fee System in Austin, which results in the creation of a new Patient entry in the CENTRAL PATIENT file.
 - CHANGE TYPE VETERAN MRA - creates a Change type patient MRA to be sent to the centralized Fee System in Austin, which changes the Patient Master Record on that system.
 - DELETE TYPE VETERAN MRA - creates a delete type patient MRA transaction, which deletes that Patient Master Record in the centralized Fee System in Austin.
 - REINSTATE TYPE VETERAN MRA - creates a Reinstatement type patient MRA transaction, which reinstates a previously deleted patient in the centralized Fee System in Austin.
- IPAC AGREEMENT MRA MAIN MENU
- ADD TYPE IPAC AGREEMENT MRA – allows the user to select an IPAC Agreement record and manually send an ADD type of Master Record Adjustment (MRA) to Central Fee.
 - CHANGE TYPE IPAC AGREEMENT MRA – allows the user to select an IPAC Agreement record and manually send a CHANGE type of Master Record Adjustment (MRA) to Central Fee.
 - DELETE TYPE IPAC AGREEMENT MRA – allows the user to select an IPAC Agreement record and manually send a DELETE type of Master Record Adjustment (MRA) to Central Fee.

Use of the following two options changes the VETERAN MASTER file in Austin.

- RE-TRANSMIT MRA'S - used to retransmit previously transmitted MRA's for a specific date. Veteran and Vendor MRAs are kept on file until the purge option is used to delete them. This option should be used in instances when, for some reason, Austin did not receive transmissions.
 - PURGE TRANSMITTED MRAS - used to purge all veteran and Vendor MRAs on file in Austin which are PRIOR to the date specified. It should be used only after it is known that Austin has accepted your MRA transmissions. Once this option is run, you will not be able to re-transmit the purged MRAs.
- PRICER BATCH RELEASE - used by the supervisor to review payments for contract hospital and mark them for transmission to the Austin Pricer for grouping and price.

- PRINT REJECTED PAYMENT ITEMS - used to print those items which have been rejected for payment and have not yet been re-initiated.
- QUEUE DATA FOR TRANSMISSION - used by the supervisor to transmit Fee Basis payments and MRA's to Austin via electronic mail. The FBAASUPERVISOR security key is required to access this option.
- RE-INITIATE REJECTED PAYMENT ITEMS - used to re-initiate rejected items and assign them to a new Batch.
- RELEASE A BATCH - used to certify that a batch is ready to be released to Austin for payment.
- REQUEST INFO FILE ENTER/EDIT - used to enter/edit data in the FEE BASIS UNAUTHORIZED REQUESTED INFORMATION file (# 162.93).
- SITE PARAMETER ENTER/EDIT - used to enter/edit the site specific Fee Basis parameters. After one entry you may only edit and not add a second entry.
- UNAUTHORIZED CLAIMS FILE MENU - This menu contains options used to update files for the unauthorized claims module.
 - ADD NEW PERSON FOR UNAUTHORIZED CLAIM - This option allows entry to the New Person file. If an Unauthorized Claim is submitted by another party (i.e. not veteran or not Vendor), name and address of submitter needs to be entered into the New Person file if it does not already exist. This will allow correspondence and/or payments to efficiently reach the appropriate party.
 - DISAPPROVAL REASONS FILE ENTER/EDIT - Enter/edit data in the Fee Basis Unauthorized Disapproval Reasons file (#162.94).
 - DISPOSITIONS FILE EDIT - Edit data in the Fee Basis Unauthorized Claims Dispositions file (#162.91).
 - REQUEST INFO FILE ENTER/EDIT - Enter/edit data in the Fee Basis Unauthorized Requested Information file (#162.93).
- VOID PAYMENT MAIN MENU
 - CH DELETE VOID PAYMENT - searches all finalized CH payments that contain a VOID status for a specified patient and Vendor. It provides a list of voided payments from which they may choose to cancel the void on one, ASny, or all.
 - CH VOID PAYMENT - searches all finalized CH payments that do not contain a VOID status for a specific patient and Vendor. It provides a list of payments from which they may choose to void one, ASny, or all.

- CNH DELETE VOID PAYMENT - searches all finalized CNH payments that contain a VOID status for a specific patient and Vendor. It provides users with a list of voided payments from which they may choose to cancel the void on one, ASny, or all.
- CNH VOID PAYMENT - searches all finalized CNH payments that do not contain a VOID status for a specific patient and Vendor. It provides users with a list of payments from which they may choose to void one, ASny, or all.
- MEDICAL DELETE VOID PAYMENT - deletes the void flag. The dollar amount for the payment must be subtracted from the obligation using the appropriate IFCAP (Integrated Funds Distribution, Control Point Activity, Accounting, and Procurement) option.
- MEDICAL VOID PAYMENT - allows the Fee Supervisor to void a payment that has already been finalized. It is useful when a check is returned by a Vendor. It allows the Fee Supervisor to retain the payment history but flag the payment void(#). The dollars for the payment must be added back into the appropriate obligation using the appropriate IFCAP option.
- PHARMACY DELETE VOID PAYMENT - deletes the void flag. The dollar amount for the payment must be subtracted from the obligation using the appropriate IFCAP obligation.
- PHARMACY VOID PAYMENT - allows the Fee Supervisor to void a payment to a Pharmacy Vendor that has already been Finalized. Using this option, you can void the payment, but retain the payment history. The dollar amount must be added back to the obligation using the appropriate IFCAP option.

BATCH DELETE

FBAASUPERVISOR Key - required to delete batches other than those you opened.

Introduction

This option allows you to delete batches that meet the following criteria:

1. Total Dollars equal to zero
2. Invoice Count equal zero
3. Payment Line Count equal zero
4. Rejects Pending flag not set to "yes"

If the batch does not meet the above criteria, a message is displayed explaining why the selected batch could not be deleted.

A batch that was rejected using the Reprocess Overdue Batch option cannot be deleted with the Batch Delete option.

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information, when applicable. Line items that had previously been cancelled are annotated with a plus sign (+).

FBAASUPERVISOR - allows you to close all types of batches, regardless of who opened them.

Introduction

The Close-out Batch option is used to close batches with an OPEN batch status. You may close only those batches which you opened, unless you hold the FBAASUPERVISOR security key. Before you close any batch, it must have payments recorded in it.

NOTE: Although you may access all open Fee Basis batches with this option, it should only be used to close Medical and Travel batches.

The total payment dollars and total payment line count are automatically calculated. After you use this option, the batch status is CLERK CLOSED, and no further payments may be added to the batch.

OPEN A BATCH

When a batch is opened, checks are made against the IFCAP software to ensure a valid station number, authorized control point user and open obligation number are selected.

Batch numbers are seven digits in order to prevent the local VistA sites from running out of batch ids within a seven-year timeframe.

Introduction

Fee Basis bills are paid in groups called batches. The Open a Batch option is used to create a new Medical batch. To enter, edit, or delete payment data in these batches, use the options in the Payment Menu.

The "Select CONTROL POINT:" prompt appears only if you are an authorized user for multiple control points.

WARNING: If you press <RET> or enter an up-arrow <^> in response to the "Select CONTROL POINT:" or "Select Obligation Number:" prompts, the batch will be deleted, and you will return to the menu.

Example

```

RE-OPEN BATCH

FBAASUPERVISOR - required to reopen batches other than those you opened.

Introduction

The Re-open Batch option is used to reopen a Fee Basis batch with a batch status of CLERK CLOSED. You may wish to reopen a batch to add or delete payment lines or correct an overpayment. Batches that have been released, transmitted, or finalized by a supervisor cannot be reopened. You may reopen only those batches which you originally opened, unless you hold the FBAASUPERVISOR security key, which allows you to reopen any batch with a CLERK CLOSED status. When a batch is reopened by someone other than the person who created it, the name of the person who reopened it will then be listed as the person who opened the batch.

NOTE: This option does not change the date opened. If you wish, you may change this information by using the Edit Batch data option.

RELEASE A BATCH

When a batch is released, the 1358 DAILY RECORD file is decreased by the amount of the batch. An adjustment transaction to the obligation is created. If the dollar amount of the batch exceeds the amount of the obligation in the 1358 DAILY RECORD file, the batch cannot be released.

FBAASUPERVISOR - required to access this option.

Introduction

The Release a Batch option is used to certify that a batch is ready to be released to Austin for payment. The certifier may review all line items in the batch or may simply release the batch as correct without review. Only batches with a status of CLERK CLOSED may be entered.

NOTE: Although you may access all open Fee Basis batches with this option, it should only be used to release Medical and Travel batches.

NOTE: As of patch FB*3.5*117, this option enforces 1358 segregation of duty policy, preventing the release of a batch by the requestor, approving official, or obligator of the 1358 obligation (initial obligation and any adjustments) associated with that batch.

STATUS OF BATCH

Introduction

The Status of Batch option is used to display the status of a selected batch, along with all other information available for that batch. The following table lists possible batch statuses, the fee program in which the status can be assigned, and a brief explanation of each status.

| STATUS | FEE PROGRAM | EXPLANATION OF STATUS |
|--------------------------|--|--|
| OPEN | Medical, Travel Pharmacy CH, CNH | The clerk opened a batch in order to process payments. |
| CLERK CLOSED | Medical, Travel Pharmacy CH, CNH | The clerk used the Close Batch option to signify that all payments within the batch are completed and ready for submission to Austin. |
| SUPERVISOR CLOSED | Medical, Travel Pharmacy CNH | The supervisor used the Release a Batch option after reviewing the batch and determining that all of the items were appropriate to forward to Austin. |
| SUPERVISOR CLOSED | CH | The Pricer Batch Release option was used to signify that the batch is ready for transmission to the Austin Pricer System. The Pricer Batch Release option may now be accessed by any user (is no longer locked). |
| FORWARDED TO PRICER | CH | The supervisor used the Queue Data for Transmission to send data to the pricer for processing. |
| ASSIGNED PRICE | CH | The clerk used the Complete a Payment option to enter the amount paid for a contract hospital bill received from the Austin pricer. This is done only when all invoices in the batch have been completed. |
| REVIEWED AFTER PRICER | CH | The supervisor used the Release a Batch option to indicate that the payment is ready to forward to Austin. |
| TRANSMITTED | Medical, Travel Pharmacy CH, CNH | The supervisor used the Queue Data for Transmission option to transmit FEE payments and MRAs to Austin. |
| CENTRAL FEE ACCEPTED | Medical, Travel Pharmacy CH, CNH | The Payment Batch Results message from Austin has been received. The batch contains at least one line item that was accepted by Austin |
| VOUCHERED | Medical, Travel Pharmacy CH, CNH | The batch was finalized by Fiscal Service. |

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

New insurance information may be uploaded into IB files through this option.

Introduction

The Enter Authorization option is used to enter or edit VA Form 10-7079, Request for Outpatient Services. Before you can enter a Fee Basis authorization, the selected patient must be registered, and must have an eligibility status of either VERIFIED or PENDING VERIFICATION.

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A. Refer to Appendix A to see the prompts and steps involved when adding new insurance data and reporting discrepancies to MCCR.

The PURPOSE OF VISIT CODE and TREATMENT TYPE CODE are required fields. Please refer to M-1, Part I, Chapter 18, for a detailed explanation of valid code entries.

Acceptance of this request to render the prescribed services will constitute an agreement which is subject to the following:

- I. SERVICES. If services are not initiated, please return this document to the Station of Jurisdiction with a brief explanation. Unless approved by the VA, services are limited in type and extent to those shown.
- II. PERIOD OF VALIDITY. Service must be performed within the period of validity indicated. If a longer time is needed, please request an extension.
- III. REPORTS. Clinical reports are required when an examination only has been requested. Please submit reports promptly to the Station Of Jurisdiction.
- IV. STATEMENT OF ACCOUNTS. Submit a Statement of Account in your usual manner. Your statement must include: (1) Patient's Name; (2) Identification NO.; (3) Treatment (CPT) and Dates Rendered; and (4) Fees.
- V. FEES. Fees claimed may not exceed those made to the general public for like services.
- VI. PAYMENT. Payment by the VA for services rendered and approved is payment in full.
- VII. HOSPITALIZATION. When a need for hospital care is indicated, please call the Station of Jurisdiction for assistance in admitting the veteran to a VA hospital.
- VIII. INQUIRIES. Additional information when required may be obtained by contacting the Station Of Jurisdiction.
- IX. When submitting claims for payment you must include the NPI and Taxonomy Code of the rendering practitioner, and the NPI and Taxonomy Code of your organization. If, under the HIPAA NPI Final Rule [<http://www.cms.hhs.gov/NationalProvidenceStand>], your organization is an "atypical" provider furnishing services such as taxi, home and vehicle modifications, insect control, habilitation, and respite services and is therefore ineligible for an NPI, it is important that you indicate "Ineligible for NPI" on your claim form .

LTC Outpatient Active Authorizations Report

Introduction

This report identifies LTC authorizations that are active within a user-specified date range. An authorization is included in this report if either the Authorization From or the Authorization To date falls within the date range.

Using this option, the “Select FEE BASIS PROGRAM NAME:” prompt will default to “OUTPATIENT”. You can then enter one, ASny, or all PURPOSE OF VISIT NAME(S). Any authorization remarks may also be included.

Following are the POV codes for outpatient visits.

In addition to detailed authorization information, this report calculates and displays the Total Number of Visits and Total Amount Paid (per authorization) that occurred within your specified date range, along with the Cumulative Number of Visits and Total Amount Paid for the entire Authorization through the ending date of the date range. These totals are calculated by counting each line item on the claim as a visit (per UNIQUE CPT Code) for the Authorization.

7079 PRINT FOR SELECTED PATIENT

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

New insurance information may be uploaded into IB files through this option.

Introduction

The 7079 Print for Selected Patient option is used to print VA Form 10-7079, Request for Outpatient Services, for a selected veteran. Before you use this option, the authorization must be entered into the system. Refer to the Enter Authorization section of this manual to see how this is done.

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A.

The VA Form 10-7079 is designed to print at 132 columns.

Information On Veterans Administration Program

Acceptance of this request to render the prescribed services will constitute an agreement which is subject to the following:

I. SERVICES. If services are not initiated, please return this document to the Station of Jurisdiction with a brief explanation. Unless approved by the VA, services are limited in type and extent to those shown.

OUTPUTS MAIN MENU 7079 PRINT FOR SELECTED PATIENT

Example of ICD-9 Data, cont.

II. PERIOD OF VALIDITY. Service must be performed within the period of validity indicated.

If a longer time is needed, please request an extension.

III. REPORTS. Clinical reports are required when an examination only has been requested. Please

submit reports promptly to the Station Of Jurisdiction.

IV. STATEMENT OF ACCOUNTS. Submit a Statement of Account in your usual manner . Your statement must

include: (1) Patient's Name; (2) Identification NO.; (3) Treatment (CPT) and Dates Rendered; and (4) Fees.

V. FEES. Fees claimed may not exceed those made to the general public for like services.

VI. PAYMENT. Payment by the VA for services rendered and approved is payment in full.

VII. HOSPITALIZATION. When a need for hospital care is indicated, please call the Station of Jurisdiction

for assistance in admitting the veteran to a VA hospital.

VIII. INQUIRIES. Additional information when required may be obtained by contacting the Station Of Jurisdiction.

IX. When submitting claims for payment you must include the NPI and Taxonomy Code of the rendering practitioner, and the NPI and Taxonomy Code of your organization. If, under the HIPAA NPI Final Rule

[<http://www.cms.hhs.gov/NationalProvIdentStand>], your organization is an "atypical" provider furnishing services such as taxi, home and vehicle modifications, insect control, habilitation, and respite services and is therefore ineligible

for an NPI, it is important that you indicate "Ineligible for NPI" on your claim form .

OUTPUTS MAIN MENU PAYMENT AGING REPORT

This option generates a report of payments that have been transmitted to Central Fee and are still awaiting payment confirmation or cancellation in VistA. The purpose of the new report is to identify payments in VistA Fee Basis that appear to have a problem because payment confirmation has not been received within an expected period.

Payment line items finalized within a user-specified period will be listed on this report if payment confirmation has not been received from Austin and the payment is not cancelled, ASagged as rejected, or voided.

NOTE: If the report is run for user-specified facilities instead of all facilities then any finalized payments with a blank value for the primary service facility are included in the results.

POTENTIAL COST RECOVERY REPORT

Introduction

This report is used to obtain information concerning patients and services received, which can potentially be recovered from the veteran and/or third party insurance. The report is run for a specified Primary Service Facility and date range; and you can choose to include Patient Copays, Insurance Copays, or Both. If you select “Patient Copays” or “Both”, you will also be prompted to indicate whether you want to include Means Test Copays, LTC Copays, or Both. The software examines all payments for the Outpatient, Pharmacy, Civil Hospital, and Community Nursing Home fee programs.

One or more of the following messages might appear in the report. The messages that contain “Cost recover from LTC co-pay” or “10-10EC Missing for LTC Patient” will only be generated for LTC payments with a date of service equal to or greater than July 5, 2002. The IB LTC clock might need to be updated to identify the patient's 21 free days.

| MESSAGE | EXPLANATION |

PRINT REJECTED PAYMENT ITEMS

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information, when applicable. Line items that had previously been cancelled are annotated with a plus sign (+).

Introduction

The Print Rejected Payment Items option is used to view and print all Fee Basis items which have been rejected for payment and have not yet been reinitiated. Line items may be rejected by interface transactions from the Central Fee system in Austin or they may be locally rejected using the Finalize a Batch option.

- The rejects are grouped by batch. If an entire batch was rejected, all payment items in that batch are listed.
- The report can be generated for batches with a status of CENTRAL FEE ACCEPTED or VOUCHERED or both.
- The report will print Central Fee Reject for lines that were flagged as rejected by the interface. It will print Local Reject for lines that were locally flagged as rejected by a user.
- The report will display reject codes and descriptions (maximum of 5) for lines that were flagged as rejected by the interface.

PSA OUTPUT REPORT

New Prompt:

Select FEE PROGRAM - allows you to select which fee programs you wish to include.

Introduction

The PSA Output Report option is used to generate a report by PSA (Primary Service Area) of outpatient medical, pharmacy, contract hospital and community nursing home payments for a selected time frame. This report may be run for one or all PSAs. One, several, or all Fee Programs may also be selected.

This report would be beneficial to a fee site that has not decentralized. The data could be used to bill other facilities for services rendered veterans from their PSAs.

Because this report may be lengthy, it is recommended that you queue it to print after normal hours.

Example

```
DO YOU WANT THIS REPORT FOR ALL PSAS? YES// NO

DELETE PAYMENT ENTRY

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information, when applicable. Line items that had previously been cancelled are annotated with a plus sign (+).

FBAASUPERVISOR Key - required to delete batches other than those you opened.

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

New insurance information may be uploaded into IB files through this option.

Introduction

The Delete Payment Entry option is used to delete a medical payment transaction. You may only delete a payment that you entered, and the batch must have an OPEN status.

The option provides a payment history display for the patient and Vendor selected. You can refer to this display to insure correct entry of the date of service and service provided (CPT code) to be deleted.

The payments are listed in inverse date order. Reimbursements are represented by an asterisk (*).

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A.

New Prompts:

CPT MODIFIER: - allows you to break down services provided to the modifier level. This field is optional.

Vendor Invoice Date: - allows you to enter the Vendor's invoice date.

Is this line item for a contracted service? - allows you to indicate when a line item is for a contracted service.

IPAC Agreement Selection – If the selected Vendor is a federal Vendor with more than one active IPAC agreement, the user is prompted to select an agreement. If the selected Vendor has only one active IPAC agreement, it is automatically selected by the system. If the selected Vendor does not have any active IPAC agreements, no IPAC agreement prompting is displayed.

DoD Invoice Number – If the selected Vendor has one or more IPAC agreements, the user must enter the DoD Invoice Number. If the selected Vendor does not have any active IPAC agreements, no DoD Invoice Number prompt is displayed.

Do You Want to Modify the IPAC Data? – Only asked if the selected Vendor has one or more active IPAC Agreements. If answered ‘YES’, the user can select a different IPAC Agreement and/or enter a different DoD Invoice number.

You must hold the FBAASUPERVISOR Security Key to edit payments from batches that have been released by a supervisor.

CARC/RARC CODES: each line item will accept up to five CARC/RARC combinations. Two RARCs can be selected for each CARC at the line level.

Introduction

The Edit Payment option is used to edit data for a previously entered Medical Fee payment.

- You may also delete an entire existing payment entry or delete individual data items, other than required fields.
- You cannot edit payments in batches that have been transmitted to Austin finalized.

An invoice with a Date of Service (AKA Treatment Date, Date Prescription Filled, etc.) later than the Invoice Received Date may not be approved for payment. Please refer to the section of Appendix J related to this menu option for further information.

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information. Line items that had previously been cancelled are annotated with a plus sign (+).

FBAA ESTABLISH VENDOR - required to enter new or edit existing vendors.

FBAASUPERVISOR - required to enter payments for other users. Enter the clerk's name at the first prompt, "Select FEE BASIS BATCH NUMBER", to see a list of all open batches for that clerk.

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

IPAC Agreement Selection – If the selected Vendor is a federal Vendor with more than one active IPAC agreement, the user is prompted to select an agreement. If the selected Vendor has only one active IPAC agreement, it is automatically selected by the system. If the selected Vendor does not have any active IPAC agreements, no IPAC agreement prompting is displayed.

DoD Invoice Number – If the selected Vendor has one or more IPAC agreements, the user must enter the DoD Invoice Number. If the selected Vendor does not have any active IPAC agreements, no DoD Invoice Number prompt is displayed.

New insurance information may be uploaded into IB files through this option.

CARC/RARC CODES: each line item will accept up to five CARC/RARC combinations. Two RARCs can be selected for each CARC at the line level.

Introduction

The Enter Payment option is used to enter medical payments. Your name may be entered at the first prompt, "Select FEE BASIS BATCH NUMBER", to list all your open batches. You may enter additional payments from a previous invoice (for the same patient) or payments from a new invoice. A new invoice number is assigned automatically, when required. Only medical payments can be entered through this option.

An invoice with a Date of Service (AKA Treatment Date, Date Prescription Filled, etc.) later than the Invoice Received Date may not be approved for payment. Please refer to the section of Appendix J related to this menu option for further information.

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A.

Depending on site parameters at your facility, patient authorization information and Vendor demographics may be displayed. Vendor demographics may be edited if you hold the FBAA ESTABLISH VENDOR security key. If there are previous payments to the Vendor for the selected patient, a payment history is shown.

You receive a warning when the patient has reached the maximum payment amount allowed for the month of service; or when you have reached 20 lines from the maximum number of payment lines allowed in a batch (set by the Max. # Payment Line Items site parameter).

New Prompts:

Will any line items in this invoice be for contracted services? - Answering NO indicates that all line items within the invoice will NOT be for contracted services. Answering YES indicates that some, or all of the line items within the invoice will be for contracted services. Answering YES will result in an additional prompt appearing at the input of EACH line item.

Is this line item for a contracted service? - Only asked if the user answered YES to the above prompt. It allows you to indicate when a line item is for a contracted service.

Enter Vendor Invoice Date: - allows you to enter the Vendor's invoice date.

CPT MODIFIER: - allows you to break down services provided to the modifier level. This field is optional.

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information. Line items that had previously been cancelled are annotated with a plus sign (+).

FBAA ESTABLISH VENDOR - required to enter new or edit existing vendors.

FBAASUPERVISOR - required to enter payments for other users. Enter the clerk's name at the first prompt, "Select FEE BASIS BATCH NUMBER", to see a list of all open batches for that clerk.

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

IPAC Agreement Selection – If the selected Vendor is a federal Vendor with more than one active IPAC agreement, the user is prompted to select an agreement. If the selected Vendor has only one active IPAC agreement, it is automatically selected by the system. If the selected Vendor does not have any active IPAC agreements, no IPAC agreement prompting is displayed.

DoD Invoice Number – If the selected Vendor has one or more IPAC agreements, the user must enter the DoD Invoice Number. If the selected Vendor does not have any active IPAC agreements, no DoD Invoice Number prompt is displayed.

New insurance information may be uploaded into IB files through this option.

Introduction

The Multiple Payment Entry option is used to enter identical medical payments (except for service date) for a patient. The option was designed to accommodate such services as home nursing where the patient may be seen daily by a visiting nurse. Your name may be entered at the first prompt, "Select FEE BASIS BATCH NUMBER", to list all your open batches. You may enter additional payments from a previous invoice (for the same patient) or payments from a new invoice. A new invoice number is assigned automatically, when required.

PAYMENT MENU

MULTIPLE PAYMENT ENTRY

Introduction, cont.

When using the Multiple Payment option, users should be aware of the Fee Schedule that is used to calculate payments. The Fee Schedule used for the Multiple Payment Option is the current fiscal year minus one. Therefore, a payment made at the beginning of a fiscal year, for a date of service that occurred at the end of the prior fiscal year, will use the Fee Schedule of the current fiscal year minus one, and NOT the fiscal year of the date of service minus one. This is due to the fact that the payment amounts are asked up front, before the date of service is known.

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A.

Depending on site parameters at your facility, patient authorization information and Vendor demographics may be displayed. Vendor demographics may be edited if you hold the FBAA ESTABLISH VENDOR security key. If there are previous payments to the Vendor for the selected patient, a payment history is shown.

You receive a warning when the patient has reached the maximum payment amount allowed for the month of service; or when you have reached 20 lines from the maximum number of payment lines allowed in a batch (set by the Max. # Payment Line Items site parameter).

An invoice with a Date of Service (AKA Treatment Date, Date Prescription Filled, etc.) later than the Invoice Received Date may not be approved for payment. Please refer to the section of Appendix J related to this menu option for further information.

RE-INITIATE REJECTED PAYMENT ITEMS

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information, when applicable. Line items that had previously been cancelled are annotated with a plus sign (+).

NOTE: Although all Fee Basis batches may be accessed, this option should only be used to re-initiate rejected payment items for Outpatient Medical batches.

Introduction

The Re-Initiate Rejected Payment Items option is used to re-initiate rejected payment items into a new batch.

- The option prevents the selection of a batch when the Voucher Batch Acknowledgement from Central Fee reported an application error or has not yet been received. Central Fee generates a Voucher Batch Acknowledgement in response to the new transaction sent by VistA when the batch is completed using the Finalize a Batch option.
- It is possible to re-initiate all rejected line items in a batch at once, or re-initiate one line item at a time.

REIMBURSEMENT PAYMENT ENTRY

New Prompts:

Enter Vendor Invoice Date: - allows you to enter the Vendor's invoice date.

CPT MODIFIER: - allows you to break down services provided to the modifier level. This field is optional.

FBAA ESTABLISH VENDOR - required to enter new or edit existing vendors.

FBAASUPERVISOR - required to enter payments for other users. Enter the clerk's name at the first prompt, "Select FEE BASIS BATCH NUMBER", to see a list of all open batches for that clerk.

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

New insurance information may be uploaded into IB files through this option.

Introduction

The Reimbursement Payment Entry option is used to enter a reimbursement payment to a veteran for medical service after the veteran has paid the Vendor directly. At some stations, reimbursement payments are separate batches. At others, they are intermixed with the medical batches. You may only enter payments into those batches which you opened. The system will assign a new invoice number to the reimbursement payment, if necessary.

Depending on site parameters at your facility, patient authorization information and Vendor demographics may be edited if you hold the FBAA ESTABLISH VENDOR security key. If there are previous payments to the Vendor for the selected patient, a payment history is shown.

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A.

If the patient has reached the maximum payment amount allowed for the month of service, a warning will appear after you enter the date of service.

An invoice with a Date of Service (AKA Treatment Date, Date Prescription Filled, etc.) later than the Invoice Received Date may not be approved for payment. Please refer to the section of Appendix J related to this menu option for further information.

TRAVEL PAYMENT ONLY

Insurance, authorization, and address data are now displayed. Insurance and address information may be edited.

New insurance information may be uploaded into IB files through this option.

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

Introduction

The Travel Payment Only option is used to enter/edit/delete a travel payment for a Fee Basis patient. Veterans authorized Fee Basis care may be provided payment for their travel expenses from their home to the fee provider. This is usually a cents-per-mile amount (set by VA Central Office) plus any toll or bridge fees.

Travel payment is not automatic and must be requested by the veteran. If approved, the travel information is added to the patient's Fee Basis authorization (under authorization remarks). The amount of the travel payment due should be entered through this option when a fee medical invoice is processed.

You are prompted for the travel batch number to which the payment will be assigned. Only travel batches with a status of OPEN (and opened by you) may be selected.

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A.

REPORT OF CONTACT

Introduction

The Report of Contact option is used to enter a Report of Contact between a Vendor and the medical center or edit an existing Report of Contact. It provides you with a way to write a narrative report concerning a personal visit or telephone conversation about a Fee Basis veteran, and gives you an opportunity to print the report. The Vendor contacts recorded through this option will appear in many of the other Fee Basis options when the patient authorization information is displayed.

A patient must be registered in the FEE BASIS PATIENT file (#161) to be entered in this option.

Example

```

```

SUPERVISOR MAIN MENU CONTRACT FILE ENTER/EDIT

FBAASUPERVISOR Security Key - required to access this option.

Introduction

This option allows contracts to be entered for Medical Fee and Civil Hospital authorizations and payments.

Payment transactions sent from VistA to Central Fee have been modified to include the contract number. The contract number will be used to identify payments for pilot project HERO. Contracts not associated with project HERO can also be entered and tracked using the new functionality.

The new contract functionality does not replace or modify the existing use of contracts in the Community Nursing Home module. VistA Fee Basis is prevented from making payments for unauthorized claims from being considered as contracted services.

Example

```
Select Supervisor Main Menu Option: contract File Enter/Edit
Select FEE BASIS CONTRACT NUMBER: 12345678901234567891

DELETE REJECT FLAG

You must hold the FBAAREJECT security key to use this option.

Introduction

The Delete Reject Flag option is used to delete reject flags that were entered in error using the Finalize a Batch option.

- Only batches with a status of CENTRAL FEE ACCEPTED can be selected.
- Reject flags that are set by the Central Fee transactions cannot be locally deleted since those payment lines were *not* accepted by Central Fee or have been dropped from Central Fee.
- Locally specified reject flags can only be deleted before the batch is completed (VOUCHERED) since completion of the batch triggers the new transaction which results in the removal of any locally rejected payment lines from Central Fee and releases the remainder of the payment lines.
- When reject flags are deleted, the payment line count and total dollar amount for the batch will be recalculated. The current obligation balance will be decreased by the total dollar value of the rejected line item(s).

```

EDIT PHARMACY INVOICE STATUS

Introduction

The Edit Pharmacy Invoice Status option is used to change the status of a pharmacy invoice. Following are the four pharmacy invoice statuses.

- PENDING PHARMACY DETERMINATION - All prescription data necessary for Pharmacy Service to make their review has been entered into the system. This includes patient name, drug name, drug strength, etc.
- PENDING MAS COMPLETION - Pharmacy Service has made their review, which includes a determination as to whether or not the prescription was for an authorized condition, whether or not it was emergent, and whether payment should be based on the generic drug price. Medical Administration Service (MAS) now needs to complete the Red Book cost, amount paid, amount suspended, etc.
- PENDING PAYMENT PROCESS - The invoice is waiting to be assigned to a Pharmacy Fee Basis batch.
- COMPLETED - The invoice has been assigned to a batch.

At most facilities, both MAS and Pharmacy Services are involved. The system automatically refers the prescription to Pharmacy Service for a determination.

NOTE: This option is used only when the invoice status does not coincide with the lowest line item status. This should only occur when there has been a machine failure.

Example

```
Select FEE BASIS PHARMACY INVOICE NUMBER: 37
INVOICE STATUS: PENDING PAYMENT PROCESS// ?
  CHOOSE FROM:
    1      PENDING PHARMACY DETERMINATION
    2      PENDING MAS COMPLETION
    3      PENDING PAYMENT PROCESS
    4      COMPLETED
INVOICE STATUS: 4      COMPLETED
```

SUPERVISOR MAIN MENU ENTER/EDIT SUSPENSION LETTERS

Introduction

The Enter/Edit Suspension Letters option is used to enter a new suspension letter into the system or edit an existing letter. If you are adding a new Fee Basis letter, the name must be 3-30 characters in length, not numeric or starting with punctuation. A suspension letter can also be deleted through this option.

Any time a Fee Basis payment is entered with a suspension code, it is flagged so that a suspension letter will be sent to the Vendor. Suspension letters are sent to Fee Basis vendors to explain why a difference exists between the amount paid by the VA and the amount billed by the Vendor. These letters are then printed through the Suspension Letter Print option. Both Medical and Pharmacy payments with suspension codes will generate suspension letters, unless the payment is for reimbursement to a patient.

Example

```
SELECT FEE BASIS LETTER NAME: SAMPLE SUSPENSION
NAME: SAMPLE SUSPENSION// <RET>

FEE BASIS 1358 SEGREGATION OF DUTY REPORT

Introduction

This report reviews fee invoice certification events and determines if there was a segregation of duty violation. The certifier of a fee invoice must not be the requestor, approving official, or obligator of the associated 1358 obligation or any increase/decrease adjustments to the 1358 that were obligated before the invoice certification took place.

The release of a payment batch by a fee supervisor is the certification event. The report examines all payment batches that were released during a specified period. Each batch is associated with a single 1358.

The results are sorted by 1358 and within that by the date and time of an event. Three event types may be listed.

- Obligate - Initial obligation of the 1358 in IFCAP.

- Adjust - Obligation of an increase/decrease to the 1358 in IFCAP.

- Certify - Release of a fee payment batch associated with the 1358 by a fee supervisor. The batch number is shown.

The IFCAP events have three roles (requestor, approver, and obligator).

The specified reporting period is used to select released fee batches. All prior IFCAP events for the 1358 are relevant to segregation to duty and will be considered even if they precede the reporting period.

If YES is entered at the "Only list 1358s with a violation (Y/N)?" prompt, only 1358s with at least one violation will be displayed. Additionally, the fee certifications (batch release) that do not violate segregation of duties will not be displayed. IFCAP and Fee Basis have been enhanced by patches PRC*5.1*148 and FB*3.5*117 to enforce segregation of duties for a 1358 so no violations are expected after installation of those patches.

The Fee Basis batch data can optionally be purged by a site. The IFCAP data is normally retained for at least 7 years, but must be purged prior to 10 years since the document numbers are recycled. If the source data for this report has been purged, it will not be included in the report.

Selection of a period starting 9 or more years ago may return inaccurate results due to recycling of 1358 document numbers.

A CPT modifier (optional) can be entered allowing you to break down the services to the modifier level.

FBAASUPERVISOR Security Key - required to access this option.

Introduction

The Add/Edit Fee Schedule option is used to enter a Current Procedural Terminology (CPT) code into the FEE BASIS FEE SCHEDULE file (#163.99) for use as a default amount paid in the Outpatient Medical program.

The system internally calculates and stores the seventy-fifth percentile dollar amount based on the amount claimed by the Vendor for a specified CPT code. Usually eight occurrences are needed for this calculation. This option may be used in those instances where there were less than eight occurrences and you want to input your own seventy-fifth percentile.

This option will be used to edit the amount paid if you choose to pay more than the calculated seventy-fifth percentile for a selected CPT code for a specified fiscal year on a regular basis. You would also use this option to enter a new CPT code during the year where you wish to pay less than the calculated amount due to fiscal limitations.

The CPT modifier (if entered) is displayed, breaking down the service provided to the modifier level.

FBAASUPERVISOR Security Key - required to access this option.

Introduction

The Compile Fee Schedule option is used to compile the site's fee schedule based on a specified date range or fiscal year. In order to be effective, at least one year of data should be on file. At the first prompt, Beginning Date, you may enter either the fiscal year you wish to run or the beginning date of a date range.

This option populates the FEE BASIS FEE SCHEDULE file (#163.99) and is used throughout the current fiscal year to obtain amount paid default values.

Once a year, usually on or right after October 1, this option should be run to compile the fee schedule for the upcoming fiscal year based on the data from the fiscal year just ended. Since this option reviews the FEE BASIS PAYMENT file (#162) for the specified date range and the compilation will be time consuming, it should be queued for off hours. This report will represent all CPT codes that had at least eight occurrences in the fiscal year/date range you are running or had been added to the file using the Add/Edit Fee Schedule option.

Data displayed in the "Date Range" column will be either to and from dates if the paid amount was compiled by the system or Add/Edit if the paid amount was entered or modified through the add/edit option.

FINALIZE A BATCH

You must hold the FBAAREJECT and/or FBAAFINANCE security keys, defined as follows:

- The FBAAREJECT security key allows the holder to flag payment line items as locally rejected.
- The FBAAFINANCE security key allows the holder to complete Finalize a Batch.

NOTE: Although all Fee Basis batches needing to be finalized may be accessed, this option should only be used to finalize Medical, Pharmacy, and Travel batches.

Introduction

The Finalize a Batch option is used after a batch has been transmitted to Central Fee (Austin). It is used to reject certain payment items and to finalize the batch as correct. This option is also used to complete a batch, which changes its status to VOUCHERED and populates the DATE FINALIZED field in the FEE BASIS PAYMENT (#162) and FEE BASIS INVOICE (#162.5) files for applicable payments.

- Users specify local rejects, only. Payment lines that are rejected by Central Fee are reported to VistA automatically by interface transactions.
- Only batches with a status of CENTRAL FEE ACCEPTED can be selected.

If requested, the system will display all line items in the selected batch. You may then reject the entire batch or individual line items within the batch.

When a payment item is rejected through this option, the dollar amount of that item is automatically returned to the obligation.

When a batch is completed using this option, a transaction is automatically sent to Central Fee. That same user who completed the batch will also be a recipient of the message.

- This transaction instructs Central Fee of any payment line items that must be deleted (i.e. local rejects) and to release the remainder of the batch to downstream payment systems, such as FMS.
- This transaction replaces all use of 994 code sheets in IFCAP.

Message Examples

The following is a sample message for a Medical Fee batch.

At a later time, Central Fee sends a Voucher Batch Acknowledgement message to VistA. The user will not see this message unless there is a problem. If there is a problem, a bulletin will be sent to the G.FEE and G.FEE FINANCE mail groups and the Voucher Batch Acknowledgement message will be forwarded to G.FEE.

Because the Update FMS Vendor File in Austin and Reinstate Vendor MRA options work the same, the following documentation refers to both options.

New Prompt:

Is this Vendor information correct? - allows you to edit Vendor information before updating the FMS VENDOR file.

Prompt has been reworded to read, "*Are you sure you want to update this Vendor in the FMS and Central Fee Vendor files? NO//*"

FBAASUPERVISOR Security Key - required to access this option.

FBAA ESTABLISH VENDOR Security Key - required to edit Vendor demographics.

Introduction

The Update FMS Vendor File in Austin option creates a Master Record Adjustment (MRA) transaction which results in the updating of selected Vendor demographic data in the FMS VENDOR file in Austin.

Use of this option should update the FMS VENDOR file in Austin to reflect what is currently in the VISTA system. For example, this should be used if:

- A Vendor entry is correctly entered into the FEE BASIS VENDOR file (#161.2) in VISTA, but needs to be updated in the FMS VENDOR file with the appropriate information.
- The Vendor does not yet exist on the FMS system.

DELETE VENDOR MRA

The "Are you sure you want to {delete this Vendor from/reinstate this Vendor in} the Central Fee file in Austin?" prompt has been reworded to, "*Are you sure you want to place this Vendor in delete status?*"

A delete MRA (Master Record Adjustment) is no longer transmitted to FMS and Central Fee Vendor files.

FBAASUPERVISOR Security Key required to access these options.

Introduction

The Delete Vendor MRA option is used to place vendors in DELETE status on your system when they become inactive or cancel Fee Basis care. The Vendor will remain in the CENTRAL FEE file until the end of the fiscal year, at which time the Vendor may be purged from Central Fee System.

If the Vendor is in DELETE status on your system, but no longer resides on the Central Fee System; or the Vendor is in DELETE status on both your system and the Central Fee System; or a Vendor which you are now adding to your system somehow already resides in DELETE status on the Central Fee System, use the Update FMS Vendor File in Austin option.

MRA'S AWAITING AUSTIN APPROVAL

Introduction

The MRA'S Awaiting Austin Approval option displays vendors that have an MRA action pending which is still awaiting Austin approval. This option could be used to check the validity of certain error codes that may appear in MRA Server Mail Bulletins. (Refer to Appendix C for a sample MRA Server Bulletin. Refer to Appendix F for information about Vendor Error Codes.)

Records with no date transmitted indicate an MRA has been initiated, but the transmission has not left the local station yet.

VETERAN MRA MAIN MENU

Introduction

The Veteran MRA (Master Record Adjustment) Main Menu consists of the following four options:

1. Add type Veteran MRA
2. Change type Veteran MRA
3. Delete type Veteran MRA
4. Reinstate type Veteran MRA

Due to the similarity of these options, documentation has been combined. These options all work basically the same except for the action taken. Add and Change type adjustments are created automatically when you enter a new authorization or change data in an existing authorization (not including authorization remarks or diagnosis lines). These Veteran MRA options are to be used when automatic MRA fails. The Delete and Reinstate adjustments are not created automatically and any action would have to be accomplished through these options. Patient MRAs are not created for short term authorizations. There is no change to VISTA when these options are utilized.

When you choose one of the Veteran MRA options, an entry is made in the FEE BASIS PATIENT MRA file (#161.26) and when the Fee system automatically runs the program to send the transactions to Austin, the MRA transactions are created and sent with the payment data for that date.

Introduction

This option is used to retransmit MRAs for a specific date. This option is used when Austin does not receive the original transmission.

Veteran MRAs are kept on file until the purge option is used to delete them. Once the purge option is run, you will not be able to retransmit veteran MRAs.

Vendor MRAs are kept on file until a confirmation is received from the vendorizing unit. The purge option will not affect the Vendor MRAs.

Example

```

PURGE TRANSMITTED MRAS

FBAASUPERVISOR Security Key - required to access this option.

Introduction

The Purge Transmitted MRAs option is used to purge all veteran MRAs on file which are prior to the date specified. Veteran MRAs are kept on file until the purge option is used to delete them. Once the purge option is run, you will not be able to retransmit veteran MRAs.

Vendor MRAs will be purged only if there is still an old reinstate or delete transaction in the FEE BASIS VENDOR CORRECTIONS file (#161.25). These entries would only exist from transactions prior to Fee Basis V. 3.0.

This option should only be used when you are certain Austin has accepted your MRA transmissions.

Example

```

Add Type IPAC Agreement MRA

FBAASUPERVISOR Security Key - required to access this option.

Introduction

The Add Type IPAC Agreement MRA allows the user to manually send an Add MRA record for a selected IPAC Agreement. After a new IPAC Agreement is added via the 'Enter/Edit a new IPAC Agreement' option of IPAC Vendor Agreement Menu of the Vendor Menu, it will automatically transmit an Add MRA record for the agreement the next time the 'Queue Data for Transmission' option is run. This option allows a manual resend if Austin failed to process the initial Add MRA record for whatever reason.

This option should only be used when you are certain Austin has not accepted the initial Add MRA transmission of the IPAC Agreement.

PRINT REJECTED PAYMENT ITEMS

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information, when applicable. Line items that had previously been cancelled are annotated with a plus sign (+).

Introduction

The Print Rejected Payment Items option is used to view and print all Fee Basis items which have been rejected for payment and have not yet been reinitiated. Line items may be rejected by interface transactions from the Central Fee system in Austin or they may be locally rejected using the Finalize a Batch option.

- The rejects are grouped by batch. If an entire batch was rejected, all payment items in that batch are listed.
- The report can be generated for batches with a status of CENTRAL FEE ACCEPTED or VOUCHERED or both.
- The report will print Central Fee Reject for lines that were flagged as rejected by the interface. It will print Local Reject for lines that were locally flagged as rejected by a user.
- The report will display reject codes and descriptions (maximum of 5) for lines that were flagged as rejected by the interface.

SUPERVISOR MAIN MENU QUEUE DATA FOR TRANSMISSION

FBAASUPERVISOR Security Key - required to access this option.

This option creates MailMan messages which contain the batch data to be transmitted. The FEE mail group will receive confirmation messages and reports from Austin.

Introduction

The Queue Data for Transmission option is used to transmit Fee Basis payment and MRA (master record adjustment) batches to the Central Fee System in Austin, Texas. All pending MRAs are batched automatically and transmitted. Only those payment batches that have been released by a supervisor can be transmitted.

Each batch is sent in electronic MailMan message form. The option creates MailMan messages, shown in your "IN" basket, which contain the batch data to be transmitted. You may query the message to obtain the status of the transmittal. The system will continue to attempt to send the data until it is actually transmitted. You must be a member of the NVP mail group to receive confirmation and reports from the Non-VA Pricer (NVP) system for Civil Hospital program.

Refer to Appendix G at the end of this manual for sample MailMan messages received as a result of payment and MRA data transmission to Austin, and a description of the format and content.

Refer to "Appendix K: Interface Between VistA Fee Basis and Central Fee Prevents Duplicate ICN Payments" at the end of this manual for information on the Austin response to the Queue Data For Transmission option.

Payment Batch Results Message

A Payment Batch Results message is sent from Central Fee to VistA Fee Basis. This transaction changes the status of a payment batch from TRANSMITTED to either CENTRAL FEE ACCEPTED or VOUCHERED. It also flags payment line items in the batch as rejected if they did not pass the Central Fee edit checks.

If VistA encounters a problem while processing the transaction, a bulletin will be sent to mail groups G.FEE and G.FEE FINANCE. An example of the bulletin is shown below:

RE-INITIATE REJECTED PAYMENT ITEMS

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information, when applicable. Line items that had previously been cancelled are annotated with a plus sign (+).

NOTE: Although all Fee Basis batches may be accessed, this option should only be used to re-initiate rejected payment items for Outpatient Medical batches.

Introduction

The Re-Initiate Rejected Payment Items option is used to re-initiate rejected payment items into a new batch.

- The option prevents the selection of a batch when the Voucher Batch Acknowledgement from Central Fee reported an application error or has not yet been received. Central Fee generates a Voucher Batch Acknowledgement in response to the new transaction sent by VistA when the batch is completed using the Finalize a Batch option.
- It is possible to re-initiate all rejected line items in a batch at once, or re-initiate one line item at a time.

RELEASE A BATCH

When a batch is released, the 1358 DAILY RECORD file is decreased by the amount of the batch. An adjustment transaction to the obligation is created. If the dollar amount of the batch exceeds the amount of the obligation in the 1358 DAILY RECORD file, the batch cannot be released.

FBAASUPERVISOR Security Key - required to access this option.

Introduction

The Release a Batch option is used to certify that a batch is ready to be released to Austin for payment. The certifier may review all line items in the batch or may simply release the batch as correct without review. Only batches with a status of CLERK CLOSED may be entered.

NOTE: Although you may access all open Fee Basis batches with this option, it should only be used to release Medical and Travel batches.

NOTE: As of patch FB*3.5*117, this option enforces 1358 segregation of duty policy, preventing the release of a batch by the requestor, approving official, or obligator of the 1358 obligation (initial obligation and any adjustments) associated with that batch.

The error message for a segregation of duty violation looks like this:

```
SELECT FEE BASIS BATCH NUMBER: 14230      C15064
YOU ARE THE OBLIGATOR OF THE 1358.
DUE TO SEGREGATION OF DUTIES, YOU CANNOT ALSO CERTIFY AN INVOICE FOR PAYMENT.
```

If this message appears you must get someone who is not the requestor, approving official, or obligator of the batch to release it.

Example

```
SELECT FEE BASIS BATCH NUMBER: 276      C15004

NUMBER: 276                                OBLIGATION NUMBER: C15004

SUPERVISOR MAIN MENU REPROCESS OVERDUE BATCH

You must hold the FBAASUPERVISOR security key to use this option.

Introduction

This option is used to reprocess a transmitted payment batch that was not received by Central Fee.

If VistA Fee Basis does not receive a Payment Batch Result message by the third weekday after transmission of the Payment Batch message, the software will consider the result message as overdue. A list of overdue batches can be obtained by entering a ? at the select batch prompt of this option.

The site should contact the National Service Desk Austin to determine if Central Fee contains the overdue batch. If so, the site should request that the Payment Batch Results message be resent to VistA. If Central Fee does not have the batch, the site can use this option to either change the batch status so the batch will be resent or to reject the entire batch so the line items can be re-initiated into a new batch, edited, and then resent with the new batch.

You have the choice to select one of two alternates:

1. This first example shows retransmitting a batch by resetting the status.

RESEND COMPLETED BATCH

Introduction

This Resend Completed Batch option can be used to resend a Voucher Batch message to Central Fee.

If VistA Fee Basis does not receive a Voucher Batch Acknowledgement message by the third weekday after finalization of the batch, the software will consider the acknowledgement message as overdue. A list of batches with an overdue acknowledgement can be obtained by entering a ? at the select batch prompt of this option.

The site should contact the National Service Desk Austin to determine if Central Fee received the Voucher Batch message. If Central Fee received the Voucher Batch message, the site should request that the Voucher Batch Acknowledgement message be resent to VistA. If Central Fee did not receive the Voucher Batch message, the site can use the Resend Completed Batch option in VistA to generate a new Voucher Batch message and send that to Central Fee.

SUPERVISOR MAIN MENU SITE PARAMETER ENTER/EDIT

FBAASUPERVISOR Security Key - required to access this option.

Introduction

The Site Parameter Enter/Edit option is used to enter or edit site specific Fee Basis parameters. After the data is entered, you may not add another site as only one entry (site) is allowed. You are able to edit the data for the existing site.

Following is a list of site configurable parameters with brief descriptions.

STATION OF JURISDICTION NAME: - The name of the Clinic of Jurisdiction (COJ) for which these site parameters are defined. There can be only one entry in this file.

STATION ADDRESS LINE 1: - Street address line 1 of this COJ. This data will be printed on the VA Form 10-7079 authorization.

STATION ADDRESS LINE 2: - Street address line 2 of this COJ. This address line will also print on the VA Form 10-7079 authorization.

STATION ADDRESS LINE 3: - Line 3 of the COJ's street address.

CITY: - The city in which the COJ receives its mail.

STATE: - The state in which the COJ's mailing address resides.

ZIP: - Zip code for the COJ.

STATION TELEPHONE NUMBER: - The telephone number to which fee inquiries should be directed.

APPROVING OFFICIAL FOR 7079: - The name of the approving official authorizing fee services. This name will be printed on the VA Form 10-7079 authorization.

TITLE OF APPROVING OFFICIAL: - The title of the approving official, which will also be printed on the VA Form 10-7079 authorization.

SUPERVISOR MAIN MENU

SITE PARAMETER ENTER/EDIT

Introduction, cont.

MEDICAID DISPENSING FEE: - The dollar amount of the Medicaid dispensing fee for this COJ. Dispensing fees, which are approved by Medicaid, vary from COJ to COJ.

MEDICAL PAYMENT VENDOR DISPLAY: - This parameter is used to indicate whether the Vendor's demographic data will be displayed and made editable during the entering of a medical payment.

PHARMACY PAYMNT VENDOR DISPLAY: - If answered YES, the Vendor demographics will be displayed during the Enter Pharmacy Invoice option.

DEFAULT AUTH. TIME RANGE: - The number of days that is the usual long term authorization. The data entered here will be added to the Authorization FROM DATE and that date will become the default TO DATE for the authorization. For example, if the normal long term authorization is one year, 365 would be entered in this parameter.

ASK VENDOR DURING AUTH.: - If answered YES, a Vendor is asked when using the Enter Authorization option.

MAX # PAYMENT LINE ITEMS: - The maximum number of payment line items that will be allowed in a batch.

Central Fee can only accept 32K characters in a single payment batch. Since additional data in being added to payment batches, the maximum number of lines in a batch must be reduced to avoid a reject of the entire batch by Central Fee.

- B3 (outpatient and ancillary) payment batches are limited to a maximum of 50 lines
- B5 (pharmacy) payment batches are limited to a maximum of 85 lines
- Contract Hospital payment batches are limited to a maximum of 30 lines
- Community Nursing Home payment batches are limited to a maximum of 30 lines

This value is checked during the Enter Payment options, and will warn the users when they are within 20 lines of the maximum. It will prevent the users from exceeding this number.

The following site parameters control these limits

- **MAX # PAYMENT LINE ITEMS: 50// ??**
The maximum number of payment line items that will be allowed in a batch. Any number between 1 and 50 is acceptable. This value is checked during the enter payment options and will warn the clerks when they are within 20 of the maximum. It will prevent the clerks from exceeding this number.
- **MAX # CH PAYMENT LINES: 30// ??**

The maximum number of payment line items that will be allowed in a contract hospital batch. This value is checked during the enter payment options and will warn the clerks when they are within 5 of the maximum. It will prevent the clerks from exceeding this number.

- **MAX # CNH PAYMENT LINES: 61// ??**

The maximum number of payment line items that will be allowed in a community nursing home batch. This value is checked during the enter payment options and will warn the clerks when they are within 5 of the maximum. It will prevent the clerks from exceeding this number.

EDIT AUTH. DURING PAYMENT: - This field is used to indicate that editing of the AUTHORIZATION REMARKS field and the 3 DX fields is allowed during the Enter Payment options. It is normally used for six months immediately after installing the fee system, because the AUTHORIZATION REMARKS and DX data was not available for downloading from the Central Fee System.

***ASK PROGRAM SPECIFIC AUTH.:** - A YES answer to this site parameter will show only those authorizations that are program specific. An example would be the display for selection of only Community Nursing Home authorizations when entering CNH payments.

APPROVING OFFICIAL FOR 7078: - The default approving official for VA Form 10-7078s.

SUPERVISOR MAIN MENU SITE PARAMETER ENTER/EDIT

Introduction, cont.

TITLE 7078 APPROVING OFFICIAL: - The title of the default approving official for VA Form 10-7078s.

COPIES OF 7078 TO BE PRINTED: - Indicates the default number of copies to be printed for each VA Form 10-7078 generated.

PSA DEFAULT INSTITUTION: - The station number for the transmission of data to Austin is determined using this field. In most cases, your facility should be entered.

7078 DEFAULT AUTH SERVICE TEXT: - A free text entry for special remarks, instructions, etc. pertaining to the authorization which will appear in Section 6 of VA Form 10-7078.

TRACK INCOMPLETE UNAUTHORIZED CLAIMS?: - Indicate whether or not incomplete unauthorized claims should be tracked. Enter "YES" to track incomplete claims; otherwise only complete claims can be tracked. Your response is a numeric character, with 1 equal to YES, and 0 equal to NO.

'INITIAL ENTRY' STATUS FOR U/C: - If this field is filled in, minimum data is required for entering an unauthorized claim. This is designed for sites who have streamlined their workload, where only one user enters the unauthorized claims received, and another reviews the claim for completeness and makes the necessary requests, etc. Your response is the numeric character 1 to activate; otherwise, leave blank.

UNAUTHORIZED CLAIM PRINTER: - Select a printer device name.

NOTE: This is not a pointer field. The exact name must be entered.

UNAUTHORIZED CLAIM LETTER: - Indicate how you wish your unauthorized claim letters to print. Enter "A" if the Unauthorized Claim Printer is dedicated, and you always wish a letter to print when it has been changed to the appropriate status. Enter "B" if the Unauthorized Claim Printer is not dedicated, or you wish to batch print letters of claims which have changed to the appropriate status. Do not enter anything if you will be manually generating your own form letter.

NUMBER OF COPIES: - The number of copies of a letter to be printed. Maximum number of copies allowed is five.

SUPERVISOR MAIN MENU SITE PARAMETER ENTER/EDIT

Introduction, cont.

PRINT U/C ON LETTERHEAD?: - Enter the numeric character 1 if your site will be printing unauthorized claims letters on letterhead.

STATION NAME (EDITABLE): - This is the first line of the return address. The data pulled from Field #.01, and can be edited at this prompt.

ALLOW FB PAID TO IB: A new field was created to allow/disallow the Fee Basis Supervisor to control the automated process. The interface will not run unless this field is set to YES (allow).

TERMINATE ID CARD

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

New insurance information may be uploaded into IB files through this option.

Introduction

The Terminate ID Card option is used to terminate a FEE ID Card issued to a patient in the event that the card has been lost or stolen, or the patient's ID Card or eligibility status changes.

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A.

The MEDICARE ID NUMBER: prompt now appears after the PRICER EXEMPT: prompt for Civil Hospital vendors.

FBAE ESTABLISH VENDOR Security Key - required to enter a new Vendor into the system or edit existing Vendor data. It is not possible to delete a Vendor from the FEE BASIS VENDOR file (#161.2).

Introduction

The Display, Enter, Edit Demographics option is used to display Vendor demographics, enter a new Vendor into the system or edit data on an existing Vendor.

A Vendor is any provider of care. Doctors, hospitals, clinics, pharmacies, nurses and physical therapists are typical vendors. The Vendor must be entered into the system before any Fee Basis payments can be made.

The Fee Basis Vendor ID Number is usually the individual's social security number or the clinic's or hospital's tax ID number. A group of physicians may be in the system under one ID number if they are incorporated (i.e. Dermatology Assocs., P.C. or Capital District Urologists, P.C.). A pharmacy chain may have all their stores entered with the same ID number and then have the individual stores identified by up to a 4-digit chain store number.

WARNING: Any changes which you make to a Vendor will affect all other sites which have this Vendor in their FEE BASIS VENDOR file (#161.2).

VENDOR MENU

IPAC VENDOR AGREEMENT MENU

There are three menu options on the IPAC Vendor Agreement Menu.

- Enter/Edit a new IPAC Agreement
- Delete an IPAC agreement
- View IPAC Vendor Agreement

The Security Key "FB IPAC VENDOR" is required in order to see the options to Enter, Edit, or Delete an IPAC Agreement. Users may view IPAC Agreement information without a security key.

Introduction

These menu options allow the user to be able to manage, enter/edit, delete, and view IPAC Vendor agreements. An IPAC Vendor agreement is data pertaining to the Department of Treasury Intra-Governmental Payment and Collection (IPAC) System. This data is necessary so the VA can make electronic payments to DoD military treatment facilities using the IPAC system.

BATCH MENU - PHARMACY BATCH DELETE

FBAASUPERVISOR Security Key - required to delete batches other than those you opened.

Introduction

This option allows you to delete batches that meet the following criteria:

1. Total Dollars equal to zero
2. Invoice Count equal zero
3. Payment Line Count equal zero
4. Rejects Pending flag not set to "yes"

If the batch does not meet the above criteria, a message is displayed explaining why the selected batch could not be deleted.

A batch that was rejected using the Reprocess Overdue Batch option cannot be deleted with the Batch Delete option.

BATCH MENU - PHARMACY CLOSE-OUT BATCH

Displays which include line item information have been modified to include check information, date paid, and/or check cancellation information, when applicable. Line items that had previously been cancelled are annotated with a plus sign (+).

FBAASUPERVISOR Security Key - allows you to close all types of batches, regardless of who opened them.

Introduction

The Close-out Batch option is used to close batches with an OPEN batch status. You can close only those batches which you opened, unless you hold the FBAASUPERVISOR security key. Before you close any batch, it must have payments recorded in it.

NOTE: Although you may access all open Fee Basis batches with this option, it should only be used to close Pharmacy batches.

The total payment dollars and total payment line count are automatically calculated. After you use this option, the batch status is CLERK CLOSED, and no further payments may be added to the batch.

BATCH MENU - PHARMACY

RE-OPEN BATCH

FBAASUPERVISOR Security Key - required to reopen batches other than those you opened.

Introduction

The Re-open Batch option is used to reopen a Fee Basis batch with a batch status of CLERK CLOSED. You may wish to reopen a batch to add or delete payment lines or correct an overpayment. Batches that have been released, transmitted, or finalized by a supervisor cannot be reopened. You can reopen only those batches which you originally opened, unless you hold the FBAASUPERVISOR security key, which allows you to reopen any batch with a CLERK CLOSED status. When a batch is reopened by someone other than the person who created it, the name of the person who reopened it will then be listed as the person who opened the batch.

NOTE: This option does not change the date opened. If you wish, you may change this information by using the Edit Batch data option.

To reopen a batch, you may enter the batch number or the name of the clerk who opened it at the "Select FEE BASIS BATCH NUMBER:" prompt. The output is automatically generated to your screen, and there is no way to exit the option once the process has started.

Example

```

SELECT FEE BASIS BATCH NUMBER: 11          123456

NUMBER: 11                                OBLIGATION NUMBER: 123456

SELECT FEE BASIS BATCH NUMBER:

```

BATCH MENU - PHARMACY RELEASE A BATCH

When a batch is released, the 1358 DAILY RECORD file is decreased by the amount of the batch. An adjustment transaction to the obligation is created. If the dollar amount of the batch exceeds the amount of the obligation in the 1358 DAILY RECORD file, the batch cannot be released.

FBAASUPERVISOR Security Key - required to access this option.

Introduction

The Release a Batch option is used to certify that a batch is ready to be released to Austin for payment. The certifier may review all line items in the batch or may simply release the batch as correct without review. Only batches with a status of CLERK CLOSED may be entered.

NOTE: Although you may access all open Fee Basis batches with this option, it should only be used to release Pharmacy batches.

NOTE: As of patch FB*3.5*117, this option enforces 1358 segregation of duty policy, preventing the release of a batch by the requestor, approving official, or obligator of the 1358 obligation (initial obligation and any adjustments) associated with that batch.

The error message for a segregation of duty violation looks like this:

```
SELECT FEE BASIS BATCH NUMBER: 14230      C15064
YOU ARE THE OBLIGATOR OF THE 1358.
DUE TO SEGREGATION OF DUTIES, YOU CANNOT ALSO CERTIFY AN INVOICE FOR PAYMENT.
```

If this message appears you must get someone who is not the requestor, approving official, or obligator of the batch to release it.

Example

```
SELECT FEE BASIS BATCH NUMBER: 11          123456

NUMBER: 11                                OBLIGATION NUMBER: 123456

STATUS OF BATCH

Introduction

The Status of Batch option is used to display the status of a selected batch, along with all other information available for that batch. The following table lists possible batch statuses, the fee program in which the status can be assigned, and a brief explanation of each status.

| STATUS | FEE PROGRAM | EXPLANATION OF STATUS |
|-----------------------|-------------------------------------|--|
| OPEN | Medical, Travel Pharmacy CH, CNH | The clerk opened a batch in order to process payments. |
| CLERK CLOSED | Medical, Travel Pharmacy CH, CNH | The clerk used the Close Batch option to signify that all payments within the batch are completed and ready for submission to Austin. |
| SUPERVISOR CLOSED | Medical, Travel Pharmacy CNH | The supervisor used the Release a Batch option after reviewing the batch and determining that all of the items were appropriate to forward to Austin. |
| SUPERVISOR CLOSED | CH | The Pricer Batch Release option was used to signify that the batch is ready for transmission to the Austin Pricer System. The Pricer Batch Release option may now be accessed by any user (is no longer locked). |
| FORWARDED TO PRICER | CH | The supervisor used the Queue Data for Transmission to send data to the pricer for processing. |
| ASSIGNED PRICE | CH | The clerk used the Complete a Payment option to enter the amount paid for a contract hospital bill received from the Austin pricer. This is done only when all invoices in the batch have been completed. |
| REVIEWED AFTER PRICER | CH | The supervisor used the Release a Batch option to indicate that the payment is ready to forward to Austin. |
| TRANSMITTED | Medical, Travel Pharmacy CH, CNH | The supervisor used the Queue Data for Transmission option to transmit FEE payments and MRAs to Austin. |
| CENTRAL FEE ACCEPTED | Medical, Travel Pharmacy CH, CNH | The Payment Batch Results message from Austin has been received. The batch contains at least one line item that was accepted by Austin |
| VOUCHERED | Medical, Travel Pharmacy CH, CNH | The batch was finalized by Fiscal Service. |

COMPLETE PHARMACY INVOICE

Introduction

The Complete Pharmacy Invoice option is used to enter the remaining payment data for those items within the invoice which required a determination by Pharmacy service. (MAS must enter the remaining data prior to closeout). These items may include the following:

- Red Book cost
- Amount paid
- Amount suspended
- Suspense code (if applicable)

The Red Book is an annual pharmacists' reference containing dosage tables, drug interactions, product information, and available prices.

EDIT PHARMACY INVOICE

New Prompts:

Vendor Invoice Date: - allows you to enter/edit the Vendor's invoice date.

Security Keys required:

- You must hold the FBAASUPERVISOR Security Key to edit payments from batches that have been released by a supervisor.
- You must hold the FBAA ESTABLISH VENDOR Security Key to enter a new Vendor.

IPAC Agreement Selection – If the selected Vendor is a federal Vendor with more than one active IPAC agreement, the user is prompted to select an agreement. If the selected Vendor has only one active IPAC agreement, it is automatically selected by the system. If the selected Vendor does not have any active IPAC agreements, no IPAC agreement prompting is displayed.

DoD Invoice Number – If the selected Vendor has one or more IPAC agreements, the user must enter the DoD Invoice Number. If the selected Vendor does not have any active IPAC agreements, no DoD Invoice Number prompt is displayed.

Do You Want to Modify the IPAC Data? – Only asked if the selected Vendor has one or more active IPAC Agreements. If answered 'YES', the user can select a different IPAC Agreement and/or enter a different DoD Invoice number.

CARC/RARC CODES: each line item will accept up to five CARC/RARC combinations. Two RARCs can be selected for each CARC at the line level.

Introduction

The Edit Pharmacy Invoice option is used to edit data from a previously entered Pharmacy invoice.

- All data contained on the invoice may be edited (with the exception of the invoice number).
- Payments from batches that have been transmitted to Austin cannot be edited.

An invoice with a Date of Service (AKA Treatment Date, Date Prescription Filled, etc.) later than the Invoice Received Date may not be approved for payment. Please refer to the section of Appendix J related to this menu option for further information.

CARC/RARC CODES: each line item will accept up to five CARC/RARC combinations. Two RARCs can be selected for each CARC at the line level.

Introduction

The Enter Pharmacy Invoice option is used to enter Pharmacy invoices into the system for payment. If you are entering a new invoice, the system will automatically assign a new invoice number. If you are continuing with a previously entered invoice, the system will display the line items that have already been entered, if requested. Each invoice is made up of individual prescriptions. The prescription data, including date prescription filled, prescription number, drug name, strength, and quantity is entered separately for each prescription. The invoice is not assigned to a batch in this option but at a later time in the Pharmacy invoice payment process.

At most facilities, both MAS and Pharmacy Service are involved. The system automatically refers the prescription to Pharmacy Service for a determination.

Duplicate entry of prescription numbers filled on the same date for the same Vendor will not be allowed. The system will alert you to the duplicate entry.

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A.

An invoice with a Date of Service (AKA Treatment Date, Date Prescription Filled, etc.) later than the Invoice Received Date may not be approved for payment. Please refer to the section of Appendix J related to this menu option for further information.

LIST INVOICES PENDING MAS COMPLETION

Introduction

The List Invoices Pending MAS Completion option lists the invoices that have been entered into the system, have had a Pharmacy determination made, and are now awaiting completion by Medical Administration Service. The option then provides the opportunity to complete these invoices. The completion items may include the following:

- Red Book cost
- Amount paid
- Amount suspended
- Suspense code (if applicable)

The Red Book is an annual pharmacists' reference containing dosage tables, drug interactions, product information, and available prices.

PATIENT RE-IMBURSEMENT

New Prompt:

Vendor Invoice Date: - allows you to enter the Vendor's invoice date.

FBAE ESTABLISH VENDOR A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

New insurance information may be uploaded into IB files through this option.

Introduction

The Patient Re-imbursment option is used to enter a reimbursement payment to a veteran for prescription services when the veteran has paid the Vendor directly. Prescriptions should routinely be obtained from the VA medical centers and only purchased at local pharmacies in an emergency situation.

Each Pharmacy invoice is made up of individual prescriptions. If you are entering a new invoice, the system will automatically assign a new invoice number. If you are continuing with a previously entered invoice, the system will display the line items that have already been entered, if requested. The invoice is not assigned to a batch in this option but at a later time in the Pharmacy invoice payment process.

At most facilities, both MAS and Pharmacy Service are involved. The system automatically refers the prescription to Pharmacy Service for review.

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A.

PHARMACY INVOICE STATUS

Introduction

This option is used to display the status of a pharmacy invoice. The status of the invoice will depend on the status of the prescriptions in that invoice. For example, if an invoice contained four prescriptions, three of which have been reviewed by Pharmacy Service, and one which is awaiting review, the status of the entire invoice would be PENDING PHARMACY DETERMINATION. Following are the four Pharmacy invoice statuses:

- PENDING PHARMACY DETERMINATION - all prescription data necessary for Pharmacy Service to review has been entered into the system.
- PENDING MAS COMPLETION - reviewed by Pharmacy Service including a determination as to whether or not the prescription was for an authorized condition, whether it was emergent, and whether payment should be based on the generic drug price. MAS now needs to complete the Red Book cost, amount paid, amount suspended, etc.
- PENDING PAYMENT PROCESS - waiting to be assigned to a Pharmacy Fee Basis batch.
- COMPLETED - The invoice has been assigned to a batch.

REVIEW FEE PRESCRIPTION

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

New insurance information may be uploaded into IB files through this option.

Introduction

The Review Fee Prescription option allows review of a fee basis prescription by Pharmacy Service. This review is to determine if the prescription was for a service-connected disability, if it was required in an emergent situation, and whether or not payment should be based on the generic drug price. The review is usually made by a pharmacist. If the drug was not prescribed for an authorized condition in an emergent situation, it will be disapproved for payment, and the Vendor will be notified through a suspension letter.

New insurance information may be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient to MCCR, please refer to Appendix A.

It should be noted that if the VA generic drug equivalent is not entered when reviewing a prescription, the system will act as if that prescription has not been reviewed. The prescription will remain in a PENDING PHARMACY DETERMINATION status.

If the prescription was for a Vendor with one or more active IPAC Agreements, the 'IS THIS AN EMERGENCY MEDICATION' QUESTION is not asked and the 'Emergency Medication' prompt in the prescription review will display: 'N/A (IPAC Payment)'.

TELEPHONE INQUIRY MENU PAYMENT LISTING FOR VENDOR/VETERAN

NEW OPTION

FBAA ESTABLISH VENDOR - required to edit existing vendors when using the DISPLAY VENDOR action in this option.

When viewing outpatient payments through the DISPLAY AUTH/7078/583 action, a YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

New insurance information may be uploaded into IB files through the DISPLAY AUTH/7078/583 action in this option.

Introduction

The Payment Listing for Vendor/Veteran option allows you to display a payment history (using VA List Manager) of all Fee Basis payments for a selected Vendor and patient, regardless of Fee Program.

A variety of actions are displayed at the bottom of the screen which allow you to view more detailed, specific types of information about a selected payment, or change the patient or Vendor without exiting the option. A plus sign (+) at the bottom of the screen (just above the actions) indicates there are additional screens. A double question mark entered at the Select Action prompt will list all available actions for this option.

For further information about using the List Manager, please refer to the List Manager Appendix at the end of this manual.

Section 6: UNAUTHORIZED CLAIM MAIN MENU

Overview

Following is a brief description of each option contained in the Unauthorized Claim Main Menu.

ENTER/EDIT UNAUTHORIZED CLAIM MAIN MENU

NOTE: *This menu is located on the UNAUTHORIZED CLAIM MAIN MENU.*

The following applies to all options on this menu. For quick access when selecting a claim, enter one of the following:

- p.patient name - to select a patient
- v.Vendor name - to select a Vendor
- o.other party name - to select another party

To see the entries in any particular file, type <Prefix.?.>. If you simply enter a name, the system will search each of the following files: FEE BASIS PATIENT (#161), FEE BASIS VENDOR (#161.2), and NEW PERSON (#200) for the name you have entered. You can speed processing by using the following syntax to select an entry:

<Prefix>.<entry name>
<Message>.<entry name>
<File Name>.<entry name>

Options on this menu are listed as follows:

- **ENTER UNAUTHORIZED CLAIM** - used to enter a new unauthorized claim. A claim is considered complete when a VA Form 10-583 and all required documentation has been received in order to determine legal and medical entitlement.
- **MODIFY UNAUTHORIZED CLAIM** - used to edit an unauthorized claim. Only claims which were never dispositioned may be edited.
- **DISPOSITION UNAUTHORIZED CLAIM** - used to disposition an unauthorized claim. Only a user who holds the FBAASUPERVISOR security key may change the disposition.
- **RE-OPEN UNAUTHORIZED CLAIM** - used to reopen a claim which has been dispositioned. Selection is limited to claims with a status of DISPOSITIONED. (Refer to Appendix B for more information about statuses.)
- **INITIATE APPEAL FOR UNAUTHORIZED CLAIM** - used to initiate an appeal to the Board of Veterans Appeals (BVA). Selection of claims is limited to those claims which have a status of DISPOSITIONED. (Refer to Appendix B for more information about statuses.)

- **APPEAL EDIT FOR UNAUTHORIZED CLAIM** - used to edit a claim which has been appealed to the Board of Veterans Appeals (BVA). Selection of claims is limited to those which have a status of APPEAL/NOTICE OF DISAGREE RECV, APPEAL/ISSUED STATEMENT OF CASE, APPEAL COMPLETE/PENDING REVIEW or APPEAL DISPOSITIONED. (Refer to Appendix B for more information about statuses.)
- **COVA APPEAL ENTER/EDIT** - used to enter or edit an appeal to the Court of Veterans Affairs (COVA). Selection of claims is limited to those claims which have a status of APPEAL DISPOSITIONED, COVA APPEAL or COVA DISPOSITION.

REQUEST INFORMATION ON UNAUTHORIZED CLAIM

NOTE: *This option is located on the UNAUTHORIZED CLAIM MAIN MENU.*

This option is used to request information on an unauthorized claim. Selection of claims is limited to those claims which have a status of INCOMPLETE UNAUTHORIZED CLAIM, PENDING - REASON UNKNOWN, COMPLETE/PENDING REVIEW, APPEAL/NOTICE OF DISAGREE RECV or APPEAL/ISSUED STATEMENT OF CASE. (Refer to Appendix B for more information about statuses.)

RECEIVE REQUESTED INFORMATION

NOTE: *This option is located on the UNAUTHORIZED CLAIM MAIN MENU.*

This option is used to receive information which was requested for a claim. Selection of claims is limited to those claims which have a status of INCOMPLETE UNAUTHORIZED CLAIM, APPEAL/NOTICE OF DISAGREE RECV or APPEAL/ISSUED STATEMENT OF CASE. (Refer to Appendix B for more information about statuses.)

LETTERS FOR UNAUTHORIZED CLAIM

NOTE: *This menu is located on the UNAUTHORIZED CLAIM MAIN MENU.*

- **UPDATE DATE LETTER SENT** - used if you are not generating your letters. It will update the date the letter was sent.
- **BATCH PRINT LETTERS** - batches print letters which have been flagged for printing, but for some reason could not be printed.
- **REPRINT LETTER(S)** - allows you to reprint letters which were already printed, provided that the current status of the unauthorized claim involves a letter. (Refer to Appendix B for more information about statuses.)

PAYMENTS FOR UNAUTHORIZED CLAIMS

NOTE: *This option is located on the UNAUTHORIZED CLAIM MAIN MENU.*

This option is used to enter payments for an unauthorized claim which has been dispositioned to APPROVED or APPROVED TO STABILIZATION.

OUTPUTS FOR UNAUTHORIZED CLAIMS

NOTE: *This menu is located on the UNAUTHORIZED CLAIM MAIN MENU.*

- ALL CLAIMS BY VENDOR/VETERAN/OTHER - allows the user to display/print all unauthorized claims for a single Vendor, veteran, or other party.
- CHECK DISPLAY - displays all payments for checks issued after the payment conversion from CALM (Centralized Accounting for Local Management) to FMS (Financial Management System).
- DISPLAY UNAUTHORIZED CLAIM - used to display an unauthorized claim. You can select the claim by Vendor, veteran, other party name, or the claim which you would like to view.
- DISPOSITION/STATUS STATISTICS DISPLAY/PRINT - provides a statistical report on unauthorized claims within a selected date range.
- EXPIRATION DISPLAY/PRINT - displays/prints those unauthorized claims which will expire within the selected time frame.
- STATUS DISPLAY/PRINT OF UNAUTHORIZED CLAIMS - displays/prints unauthorized claims by PSA and status. You have the option to sort by either Vendor or veteran for the primary sort.
- UNAUTHORIZED CLAIMS COST REPORT FOR CIVIL HOSPITAL - generates an output report to display the unauthorized claims payments for Civil Hospital for a user selected date range.
- VENDOR PAYMENTS OUTPUT - used to generate a history of payments made to a selected Vendor within a specified date range.

- DELETE UNAUTHORIZED CLAIM - deletes unauthorized claims which have not been dispositioned.
- RETURN ADDRESS DISPLAY/EDIT - displays the return address which will appear on an Unauthorized Claim letter, if letterhead is not used. You can also edit the return address using this option.

ENTER/EDIT UNAUTHORIZED CLAIM MENU

ENTER UNAUTHORIZED CLAIM

Introduction

This option is used to enter an unauthorized claim for payment of unauthorized inpatient charges. An unauthorized claim is one where an eligible veteran has received inpatient treatment from a civil hospital or private provider and VA was not notified within the proper time frame. Unauthorized claims may be entered for any Fee Basis program.

NOTE: If the Fee Basis program is Contract Nursing Home, the claim is automatically set as DISAPPROVED with a disapproval reason of NON-EMERGENT CARE.

A claim is considered complete when VA Form 10-583, Claim for Payment of Cost of Unauthorized Medical Services, and all required documentation has been received in order to determine legal and medical entitlement. A claim can never be considered complete if it is missing VA Form 10-583 or if the form is incomplete. Other required documentation includes the following:

- Copies of actual bills
- Original paid receipt
- Itemized invoice/UB82
- Medical records or signature for release
- Diagnostic/Procedure code(s)

If you have indicated that you will be tracking incomplete claims in your FEE BASIS SITE PARAMETERS file (#161.4), you may enter an incomplete claim. Incomplete claims are automatically given a status of INCOMPLETE UNAUTHORIZED. If you have not entered anything in the parameter, you may only enter complete unauthorized claims. (Refer to Appendix B for more information about statuses.)

If the "Initial Entry" Status for the U/C field in the FEE BASIS SITE PARAMETERS file (#161.4) is filled in, then minimum data is required for entering an unauthorized claim. This is designed for sites who have streamlined their workload, where only one user enters in the unauthorized claims received, and another reviews the claim for completeness and makes the necessary requests, etc.

You can associate the new claim with an existing claim. If you associate the new claim with a previously entered claim or group of claims, and at least one of those claims has been dispositioned, you are asked if you wish to disposition the new

claim to the same disposition. When claims are associated, they are displayed with the primary claim on lookup, and, in certain instances, you have the ability to update all the claims in the group at the same time.

ENTER/EDIT UNAUTHORIZED CLAIM MENU INITIATE APPEAL FOR UNAUTHORIZED CLAIM

Introduction

The Initiate Appeal for Unauthorized Claim option is used to initiate an appeal of the VA's decision on a claim to the Board of Veterans Appeal (BVA). During this stage of the unauthorized claims appeal process, the claim must have a status of Dispositioned to be selected with this option. (Refer to Appendix B for more information about statuses.)

Following are the prompts with a brief explanation.

"DATE NOTICE OF DISAGREEMENT RECV'D:" - Enter the date that the VA Form 21-4138 was received.

"DATE STATEMENT OF THE CASE ISSUED:" - Enter the date on which the Statement of the Case was issued.

*"DATE SUBSTANTIVE APPEAL RECV'D:" - Enter the date on which the Substantive Appeal was received.

*"DATE APPEAL DISPOSITIONED:" - Enter the date the appeal decision was rendered by the Board of Veterans Appeal (BVA).

*"DISPOSITION:" - An active disposition appears as the default. If the disposition is APPROVED or APPROVED TO STABILIZATION and payments have been made, it can only be changed by those holding the FBAASUPERVISOR security key.

*"Select REASON FOR DISAPPROVAL:" - Enter the reason why the claim was not approved. Entering <??> will generate a list from which you may choose.

*In most instances, data will be entered into these fields through the use of the Appeal Edit for Unauthorized Claim option after the BVA has issued its decision.

ENTER/EDIT UNAUTHORIZED CLAIM MENU APPEAL EDIT FOR UNAUTHORIZED CLAIM

Introduction

The Appeal Edit for Unauthorized Claim option is used to edit a claim which has already been appealed to the Board of Veterans Appeal (BVA). During this stage of the Unauthorized Claims process, the claim may have one of the following active statuses:

APPEAL/NOTICE OF DISAGREE RECV
APPEAL/ISSUED STATEMENT OF CASE
APPEAL COMPLETE/PENDING REVIEW
APPEAL DISPOSITIONED

You may select claims with any of the above statuses with this option. (Refer to Appendix B for more information about statuses.) You may select a claim by entering the Vendor, veteran, or other party.

Following is a list of some prompts with a brief explanation.

"DATE NOTICE OF DISAGREEMENT RECV'D:" - Enter the date that the VA Form 21-4138 was received.

"DATE APPEAL DISPOSITIONED:" - Enter the date the appeal decision was rendered by the Board of Veterans Appeal (BVA).

"DISPOSITION:" - An active disposition appears as the default. If the disposition is APPROVED or APPROVED TO STABILIZATION and payments have been made, it can only be changed by those holding the FBAASUPERVISOR security key.

If the disposition of an unauthorized claim changes from APPROVED to DISAPPROVED, the applicable authorization is deleted.

A letter will print or be flagged for printing (depending upon your parameter set-up) if the request causes the status to change, or requests additional information. (Refer to Appendix B for more information about statuses.)

You may select the claim by entering the Vendor, veteran, or other party. After you select an unauthorized claim, you are prompted to select from a list of items for which you may wish to request information. You can select an individual item, or a list or range of items, using commas and/or dashes as delimiters.

LETTERS FOR UNAUTHORIZED CLAIM UPDATE DATE LETTER SENT

Introduction

The Update Date Letter Sent option is used to enter the date that manually generated letters for unauthorized claims were sent.

Once you have selected one or more claims, you are prompted for the date you wish to enter as the date the letter was sent. Once a new date is entered, the DATE LETTER SENT and EXPIRATION DATE OF CLAIM fields are updated in the FEE BASIS UNAUTHORIZED CLAIMS file (#162.7).

Example

```

SELECT FROM THE FOLLOWING:

LETTERS FOR UNAUTHORIZED CLAIM Reprint Letter(s)

Introduction

The Reprint Letter(s) option can be used to reprint letters that were printed but never mailed or, in some cases, never received by the party submitting the claim. You may reprint letters for a selected date range (date letter printed) or you may reprint a specific letter. Individual letters are selected by entering the name of the submitter. The submitter may be someone other than the Vendor or veteran involved in the claim.

You may select the claim by entering the Vendor, veteran, or other party.

Failure to provide the requested information within one year will also result in an automatic disapproval. Therefore, the expiration date may be updated when a letter is reprinted.

We have carefully reviewed your claim for payment of unauthorized medical services. The following decision has been made:

Claim is considered abandoned, since no action has been taken by the submitter within the appropriate time frames.

Reason(s) for not approving claim:

We have asked for adjudicative rating action to determine whether the condition treated was due to or caused by your service-connected disability. You will be notified by the VA Regional Office when they have reached a decision. If service connection is granted for the condition treated, please resubmit a claim to us with a copy of this letter and a copy of the award letter received from the VA Regional Office. Such rating determinations normally require 60-90 days.

If you do not agree with the decision you have the right to appeal, Your appeal rights should be attached for your review, if your claim was not approved.

If you have any questions concerning this matter, please contact us at the above address. A copy of this letter is being furnished to the provider(s) of care, if applicable.

Chief, Medical Administration Service

PAYMENTS FOR UNAUTHORIZED CLAIMS

New Prompts:

Vendor Invoice Date: - allows you to enter the Vendor's invoice date.

The following new prompts might appear depending on the fee program.

Will any line items in this invoice be for contracted services? - Answering NO indicates that all line items within the invoice will NOT be for contracted services. Answering YES indicates that some, or all of the line items within the invoice will be for contracted services. Answering YES will result in an additional prompt appearing at the input of EACH line item.

Is this line item for a contracted service? - Only asked if the user answered YES to the above prompt. It allows you to indicate when a line item is for a contracted service.

FBAA ESTABLISH VENDOR Security Key - required to edit established vendors.

Introduction

The Payments for Unauthorized Claims option should be used to enter payments for unauthorized claims which have been dispositioned to APPROVED or APPROVED TO STABILIZATION.

Payment may be made to either a patient or a Vendor; however, only the Vendor pertaining to the submitted claim may be paid. You cannot add a new Vendor through this option. An open batch for the applicable Fee Basis program must exist for the unauthorized claim selected. Further processing of the payment should follow the payment menu options for the applicable Fee Basis program. You should also use the payment options in the applicable Fee Basis program to process rejects, ASke any edits, etc., after the payment has been entered.

You may select a range of numbers to process payments for multiple claims, using commas or dashes as delimiters (e.g., 1,3,4 or 1-4). If multiple claims are chosen, the claims will be presented for payment in the same sequence in which they were selected.

Once a claim is selected, the prompts and displays vary depending on the Fee Basis program. The following chart is provided indicating which option documentation to refer to for further examples of payment entry.

OUTPUTS FOR UNAUTHORIZED CLAIMS ALL CLAIMS BY VENDOR/VETERAN/OTHER

Introduction

The All Claims by Vendor/Veteran/Other option is used to display/print all unauthorized claims for a single Vendor, veteran, or other party. The output is sorted by episode of care, grouping claims which are associated with one another. One claim may be associated with another if the veteran and episode of care are the same. Since the primary claim may not be the first to display, the secondary's are flagged with an asterisk (*). If you select a Vendor, the output will display by veteran; otherwise, it will display by Vendor. You can include only 38 U.S.C. 1725 (Mill Bill) claims; only non-Mill Bill claims, or both.

OUTPUTS FOR UNAUTHORIZED CLAIMS DISPLAY UNAUTHORIZED CLAIM

Introduction

This option is used to view unauthorized claims. Selection is made by entering the name of the submitter. The submitter may be the Vendor, veteran, or other party involved in the claim. After a claim has been selected, the option will either state there is no historical audit data for the claim or it will ask, "Show historical audit data?" with "NO" as the default answer. If the user responds "YES" to the question, the output will include a new section that displays all changes to the value of 13 monitored fields since installation of patch FB*3.5*151.

OUTPUTS FOR UNAUTHORIZED CLAIMS DISPOSITION/STATUS STATISTICS DISPLAY/PRINT

Introduction

The Disposition/Status Statistics Display/Print option provides a statistical report on unauthorized claims within a selected date range. It provides totals of dispositioned unauthorized claims by disposition type (APPROVED, DISAPPROVED, etc.), as well as disposition status. (Refer to Appendix B for more information about statuses.) The report also supplies the total of unauthorized claims which have not been dispositioned, with a subtotal breakdown by claim status. Total approved dollars by primary service area are also provided.

OUTPUTS FOR UNAUTHORIZED CLAIMS EXPIRATION DISPLAY/PRINT

Introduction

The Expiration Display/Print option will display/print those unauthorized claims which will expire within the selected time frame.

There are two types of expirations involved with unauthorized claims. The first is based on the status of the claim. Certain statuses have expiration dates which, once passed, prohibit the submitter from any further action on the claim. (Refer to Appendix B for more information about statuses.) The other refers to information VA has requested from the submitter. The submitter has x # of days to respond or the claim is considered abandoned. The number of days is calculated from the date the letter was mailed.

Example

```

SELECT THE DATE RANGE WITHIN WHICH AN UNAUTHORIZED CLAIM WILL EXPIRE.

OUTPUTS FOR UNAUTHORIZED CLAIMS

Status Display/Print of Unauthorized Claims

Introduction

This option displays/prints unauthorized claims by primary service facility and status. You may include one, ASny, or all statuses, and sort by either Vendor or veteran for the primary sort. The output also subtotals the number of claims within a status and displays the expiration date, if one exists. If the unauthorized claim is due to expire within thirty days of the date the output was generated, an asterisk (*) will follow the expiration date.

NOTE: The disposition code will only display if the unauthorized claim has a status of either DISPOSITIONED, APPEAL DISPOSITIONED or COVA DISPOSITION. (Refer to Appendix B for more information about statuses.)

DISPLAY UNAUTHORIZED CLAIM

Introduction

This option is used to view unauthorized claims. Selection is made by entering the name of the submitter. The submitter may be the Vendor, veteran, or other party involved in the claim. After a claim has been selected, the option will either state there is no historical audit data for the claim or it will ask, "Show historical audit data?" with "NO" as the default answer. If the user responds "YES" to the question, the output will include a new section that displays all changes to the value of 13 monitored fields since installation of patch FB*3.5*151.

UTILITIES FOR UNAUTHORIZED CLAIMS VENDOR ENTER/EDIT

FBAE ESTABLISH VENDOR Security Key - required to enter a new or edit an existing Vendor.

Introduction

The Vendor Enter/Edit option is used to enter new vendors or edit existing vendors, and to display Vendor demographics. It is used to enter Community Nursing Home vendors and all ancillary vendors who provide services under VA contract to veterans in nursing homes. A Vendor cannot be deleted from the DHCP FEE BASIS VENDOR file (#161.2).

Vendors must be entered into the system before they can receive any Fee Basis payments. The Fee Basis Vendor ID Number is usually the individual's Social Security Number (SSN) or the Vendor's Tax ID number. A group of physicians may be entered in the system under one ID number if they are incorporated (e.g., Dermatology Assocs., P.C., or Capital District Urologists, P.C.).

When you request a list of vendors by entering <?> at the "Select FEE BASIS VENDOR NAME:" prompt, or if multiple vendors exist with the Vendor name you selected, the list displayed will indicate if the Vendor is in DELETE status (flagged for Austin deletion) or Awaiting Austin Approval.

WARNING: If you are attempting to edit Vendor information for a Vendor flagged "Awaiting Austin Approval" anywhere in the package which allows entering a Vendor or editing Vendor data (e.g., prompts that ask, "ARE YOU ADDING {Vendor name} AS A NEW FEE BASIS VENDOR (THE {n}TH)?", or "Want to Edit data? NO//", etc.), the following message will appear on your screen:

Current Vendor information is pending Austin processing. Changing Vendor information at this time may jeopardize the processing of the existing Master Record Adjustment!

Do you wish to continue editing this Vendor? No//

Any changes which you make to a Vendor will affect all other sites which have this Vendor in their FEE BASIS VENDOR file (#161.2).

UTILITIES FOR UNAUTHORIZED CLAIMS ASSOCIATE AN UNAUTHORIZED CLAIM TO A PRIMARY

Introduction

This option is used to associate unauthorized claims to a primary unauthorized claim. Associated claims will be displayed with the primary on a lookup.

In order for claims to be associated, they must be for the same veteran and episode of care. A primary claim **without** associated claims may be associated with another primary claim. A primary claim **with** associated claims may not be associated to another primary.

Once the submitter is entered, all claims for that submitter for the same patient and episode of care are displayed. Next, you are prompted to choose the claim which you want to associate (secondary), then the claim to which it should be associated (primary). You can select one, ASny, or all when you select the secondary.

If you associate the new claim with a previously entered claim or group of claims, and at least one of those claims has been dispositioned, you will also be asked if you wish to disposition the new claim to the same disposition as the claim to which it is associated. When claims are associated, they are displayed with the primary claim on lookup, and in certain instances, you have the ability to update all the claims in the group at the same time.

UTILITIES FOR UNAUTHORIZED CLAIMS

DELETE UNAUTHORIZED CLAIM

Introduction

The Delete Unauthorized Claim option allows you to delete unauthorized claims which have not been dispositioned. Dispositioned claims should be edited to a disposition status of CANCELED/WITHDRAWN; you cannot delete them. (Refer to Appendix B for more information about statuses.) If an unauthorized claim is deleted, any pending information on file for that claim is also deleted. If you delete a primary claim, the first secondary then becomes the primary, and all other remaining associated claims will point to the new primary.

Section 7: STATE HOME MAIN MENU

OVERVIEW

Following is a brief description of each option contained in the State Home Main Menu.

ENTER NEW STATE HOME AUTHORIZATION

***NOTE:** This option is located on the STATE HOME MAIN MENU.*

This option is used to enter a new State Home authorization for a patient.

CHANGE A STATE HOME AUTHORIZATION

***NOTE:** This option is located on the STATE HOME MAIN MENU.*

This option is used to edit an existing State Home authorization for a patient. This option should be used to update the TO DATE of an authorization when a patient is discharged.

DELETE A STATE HOME AUTHORIZATION

***NOTE:** This option is located on the STATE HOME MAIN MENU.*

This option is used to delete an existing State Home authorization that was entered in error.

REINSTATE STATE HOME AUTHORIZATION

***NOTE:** This option is located on the STATE HOME MAIN MENU.*

This option is used to reinstate a previously deleted State Home authorization for a patient.

ACTIVE AUTHORIZATION REPORT

***NOTE:** This option is located on the STATE HOME MAIN MENU.*

This option generates a report of authorizations whose FROM DATES and TO DATES overlap any portion of a user-specified date range. If the STATE HOME program is selected, a count of authorization days that fall within the user-specified date range will be shown. Note that the authorization TO DATE is not included in the count of days.

STATE HOME MAIN MENU ENTER NEW STATE HOME AUTHORIZATION

FBAA ESTABLISH VENDOR - required to enter new vendors.

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

New insurance information may be uploaded into IB files through this option.

Introduction

The Enter New State Home Authorization option is used to enter a new State Home authorization for a patient. In order to enter a State Home authorization, the patient must be registered and have an eligibility status of VERIFIED or PENDING VERIFICATION. The level of care must be specified with a purpose of visit code.

The system does not allow two different State Home authorizations to have the same FROM DATE. Additionally, State Home authorizations cannot overlap except that the TO DATE of one authorization is permitted to equal the FROM DATE of another authorization.

State Home authorization data is transmitted to Central FEE in Austin via Veteran Master Record Adjustment (MRA) messages.

New insurance information can be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient, please refer to Appendix A, "Adding new Insurance Data/reporting Discrepancies to MCCR."

NOTE: The Enter New State Home Authorization option cannot be used to edit a previously entered authorization. An authorization can be edited through the Change a State Home Authorization option (see page 7-5 for additional information).

A YES response at the "Are there any discrepancies with insurance data on file?" prompt generates a mail bulletin to MCCR to report erroneous insurance data.

New insurance information may be uploaded into IB files through this option.

Introduction

The Delete a State Home Authorization option is used to delete a State Home authorization that was entered in error. A deleted authorization is retained on the local system with a status of AUSTIN DELETED. However, Central FEE in Austin will completely remove the deleted authorization from its database. Since a deleted authorization will be treated as if it never existed, this option should only be used to delete an authorization whose FROM DATE is incorrect.

New insurance information can be entered through this option. For help with entering new insurance data and/or reporting discrepancies in current information for the selected patient, please refer to Appendix A, "Adding New Insurance Data/Reporting Discrepancies to MCCR."

ACTIVE AUTHORIZATION REPORT

Introduction

The Active Authorization Report option is used to generate a list of authorizations whose FROM DATES and TO DATES overlap any portion of a user-specified date range. The list is first sorted by purpose of visit, then by Vendor, and finally by patient. If the report is run for the STATE HOME program, the number of authorization days that fall within the user-specified date range will be reported under the DAYS column. Note that the authorization TO DATE is not included in this value. Deleted authorizations are not included in the output since they were entered in error.

| 5 | INITIAL ENTRY | YES | The unauthorized claim has been received at the facility, but is pending review to determine if the claim is complete, in which case it would progress to COMPLETE/PENDING REVIEW status. If further information is required, it would progress to INCOMPLETE status. A claim in the INITIAL ENTRY status is not currently being acted upon. A parameter in the FEE BASIS SITE PARAMETERS file (#161.4) determines if this status is used. | |
| 10* | INCOMPLETE UNAUTHORIZED CLAIM* | YES | The unauthorized claim is not complete, and therefore invalid. The claim is considered incomplete and cannot proceed to the next status, COMPLETE/PENDING REVIEW, until all the requested information has been received. | 366 |
| 20 | PENDING - REASON UNKNOWN | NO | Prior to version 3 of FEE, unauthorized claims could have been pending for either additional information from the requestor, medical review, or other reason. Any unauthorized claim having this inactive status should be updated to an active status. | |
| 30 | COMPLETE/PENDING REVIEW | YES | The unauthorized claim is pending disposition upon completion of legal/medical/PSA review. A claim is updated to this status if it is received as complete or edited, and no requested information is outstanding. | |
| 40* | DISPOSITIONED* | YES | The unauthorized claim has been dispositioned. | 366 |
| 50 | APPEAL/NOTICE OF DISAGREE RECV | YES | The disposition of the unauthorized claim is being appealed. The Notice of Disagreement letter has been received by the submitter of the appeal. The statement of the case must be issued, and a response received, before the appeal can be complete for review. The appeal application is incomplete. Entry of NOTICE OF DISAGREEMENT RECV'D will trigger this status. | |

*When a claim goes through this status, a letter will be generated.

Appendix D: Multiple Rates for CNH Vendors

The existence of two rates (Intermediate and Skilled) for a Community Nursing Home (CNH) Vendor no longer exists. Now, a facility may negotiate as many rates per contract as is necessary. VISTA will handle this by allowing you to enter as many rates as is necessary when entering a contract for a Fee Basis Vendor. All previous skilled and intermediate rates have been populated into the new rate structure for existing contracts.

When entering rates for vendors, use the option Update Vendor Contract/Rates - CNH, which is under the Community Nursing Home Main Menu. This option is not locked with the supervisor key; therefore, it may be used by any Fee Basis user. If you make an error entering rates, you may delete the rates by using the Delete CNH Rate option, which is under the Authorization Main Menu - CNH. This option will only allow deletion of a CNH rate if no payments have been associated with the rate at the time of deletion.

When entering a CNH authorization, a corresponding entry is made in the FEE BASIS CNH RATE file (#161.22) for the rate chosen. The time frame associated with the rate begins with the AUTHORIZATION FROM DATE and extends to the authorization TO DATE OR the CONTRACT EXPIRATION DATE, whichever is earlier. If the rate covers the entire authorization, no further action is necessary.

If the rate is only established for the duration of the Vendor's contract, payments for that authorization will not be possible once the contract has expired. When VISTA is updated after extending a Vendor's contract or negotiating a new contract, you will need to extend the rates for all veterans whose AUTHORIZATION TO DATE extends beyond the original CONTRACT EXPIRATION DATE. To do this, you must run the Enter Veteran Rates under new Vendor Contract option, which is under the Authorization Main Menu - CNH. This option will prompt you to select the Vendor, and it will, in turn, find all veterans whose AUTHORIZATION TO DATE extends beyond the original CONTRACT EXPIRATION DATE. It will display each veteran and allow you to choose a rate from the new contract to associate with the new time frame. If the new rate established does not cover the remaining portion of the authorization, this step will be repeated when the rate is again extended, or a new contract is negotiated.

Multiple Rates for CNH Vendors, cont.

At times, it becomes necessary to change the rate associated with an authorization, due to changes in the complexity levels of care for a given patient. To do this, you may run the Change Existing Contract Rate for a Patient option, which is under the Authorization Main Menu - CNH. This option will display all rates associated with a particular authorization. If a change is necessary, the option will prompt for an effective date for the change, as well as a new rate for the time frame. It will then create a new rate entry in the FEE BASIS CNH RATE file (#161.22), beginning with the effective date, and going to the next rate assigned OR the rate ending date, whichever is earlier. The new rates will again be displayed on your screen after the changes have been made.

Appendix E: Fee Basis/FMS Vendorizing Overview

Introduction

Prior to V. 3.0 of VISTA Fee Basis, there were three Vendor files with which Fee users worked. These Vendor files reside at:

- Austin Finance Center (CALM)
- Austin Automation Center (Central Fee)
- Local site (FEE BASIS VENDOR file (#161.2), also known as Local Fee)

There were options in the Fee Basis package which allowed you to affect any of these files. The Add type Vendor MRA or the Change type Vendor MRA affected both the CALM and Central Fee files. You would use these if your local file was correct and you wished to update both of the other files. The Fee Only Vendor Add MRA or Fee Only Vendor Change MRA were used if your local file and CALM were correct and you wished to update **only** the Central Fee file. Also, any edit you made to your local file would automatically get saved and transmitted to the Central Fee file whenever you queued data for transmission to Austin. Whenever you added a Vendor, you normally signed into TSO and into CALM to verify the Vendor ID, and then sent in your request via FAX to the Vendorizing Unit.

Having 173 different Vendor files (each file at the medical station plus the two in Austin) often resulted in inconsistent data among the various files. As the CALM system was being phased into FMS system, it was an opportune time to consolidate both the files and the update of the files.

Vendorizing

The current methods of vendorizing should reduce the number of payment rejects, as well as eliminate the need for dialing into Austin prior to adding a new Vendor. Faxes will also be eliminated.

If you wish to add a new Vendor to or edit an existing Vendor in the FEE BASIS VENDOR file (#161.2) you should use the Display,Enter,Edit Demographics option in the Vendor Menu. As in previous versions, you must have the appropriate security key and the site parameters must be set accordingly. If your FEE BASIS VENDOR file (#161.2) is correct, but you wish to update the FMS VENDOR file (now used by both CALM and Central Fee), you should use the Update FMS Vendor File in Austin option, located on the Vendor MRA Main Menu.

Fee Basis/FMS Vendorizing Overview, CONT.

The Update FMS Vendor File in Austin option replaces the following options that were used in prior versions of the Fee Basis software:

- Add type Vendor MRA
- Change type Vendor MRA
- Fee Only Vendor Add MRA
- Fee Only Vendor Change MRA

Use of the Display,Enter,Edit Demographics or Update FMS Vendor File in Austin options will result in the Vendor information being transmitted to Austin whenever you use the Queue Data for Transmission option, as well as anywhere in the package which allows entering a Vendor or editing Vendor data (e.g., prompts that ask, "ARE YOU ADDING {Vendor name} AS A NEW FEE BASIS VENDOR (THE {n}TH)?", or "Want to Edit data? NO//", etc.).

Highlights Of Fee Basis Vendorizing

- Austin will receive an **Add** transaction if you entered a new Vendor into your FEE BASIS VENDOR file (#161.2). Austin will verify what you have trans-mitted with what is currently in the FMS VENDOR file. If you added a new entry on the VISTA system, Austin will pass back the information to you, in some instances changing the information that you sent (including the Vendor ID base nine and/or suffix). (If you sent down a new Vendor at street address yyy, and a nine digit Vendor ID, it may come back with a suffix to the Vendor ID to indicate an alternate address, because the original Vendor ID already exists for that same Vendor at street address xxx.)
- Austin will receive a **Change** if you used the Update FMS Vendor File in Austin option. Use this update option **only** when the existing Vendor information is on your system, but **not** in the FMS system, **or** the information is **incorrect** on the FMS system. The information on the existing Vendor entry is sent to Austin (no new Vendor is created in the FEE BASIS VENDOR file [#161.2]). Austin will verify what you have transmitted with what is currently in the FMS VENDOR file. If you updated the FMS VENDOR file, Austin will pass back the information to you, in some instances changing the information that you sent (including the Vendor ID base nine and/or suffix). Due to some inexplicable reason, the accurate Vendor information which exists on your system is either missing from the FMS and/or CENTRAL FEE files, or is inaccurate on the FMS and CENTRAL FEE files. This option provides a mechanism for updating the FMS and CENTRAL FEE files with the accurate information from your file.

Fee Basis/FMS Vendorizing Overview, CONT.

- If you have edited the Vendor information, a new entry is created in your FEE BASIS VENDOR file (#161.2), but Austin will receive a **Change** transaction. The current Vendor information is transmitted to Austin. Austin will verify what you have transmitted with what is currently in the FMS VENDOR file. If Austin simply changes its file with the information which you sent, the **same** information will be passed back to you. The new entry in your FEE BASIS VENDOR file (#161.2) will be deleted, and anything pointing to the new entry (such as payments) will be re-pointed to the pre-existing Vendor. If Austin changes either the base nine of the Vendor ID or the suffix, you will receive an **Unsolicited Add** from Austin. This means that the new entry which was added to your Vendor file will remain.
- All transactions returned by Austin occur automatically through the use of a server option (FBAA MRA SERVER). The server processes the messages returned by Austin and delivers a server request bulletin message to the FEE Mail Group. (Refer to Appendix C for examples.) There is no need to retain these messages, unless the comments portion indicates that an error has occurred, or that a task needs to be scheduled. Whenever your Server Request Bulletin contains this information, you should notify your IRM representative **immediately**.
- Until what you have transmitted to Austin has been returned by Austin and successfully processed, you will see a message "Awaiting Austin Approval" as part of the Vendor identifiers whenever you access that Vendor with the Fee Basis package. You will not be able to release a batch for payment which contains a Vendor in such a status, and therefore will not be able to process a payment. The turnaround time from the time you transmit your request to the time you receive it back from Austin should be 24 hours. You should contact the Vendorizing Unit in Austin if it has been longer than 24 hours, especially if it hampers a payment.

WARNING: Any changes which you make to a Vendor will affect all other sites which have this Vendor in their FEE BASIS VENDOR file (#161.2). It is imperative that you responsibly edit a Vendor only when you are sure that the Vendor information has changed, and add a Vendor when you wish to designate a new office location in addition to what is already on file.

Appendix F: Vendor Error Codes

You may see the following error codes in your MRA Server Bulletins:

| | |
|----------------|--|
| ERROR CODE 1 | INVALID VENDOR ID |
| ERROR CODE 2 | INVALID RECORD LENGTH |
| ERROR CODE 3 | INVALID STATION NUMBER |
| ERROR CODE 4 | VENDOR NAMES DO NOT MATCH |
| ERROR CODE 4.1 | VENDOR CHANGE FROM ANOTHER STATION NOT FOUND IN FILE |
| ERROR CODE 5 | VENDOR CHANGE ALREADY PROCESSED |

The following information includes explanations of the above codes, and how they can be resolved:

ERROR CODE 1 INVALID VENDOR ID
***** ACTION NECESSARY *****

EXPLANATION: **The first nine characters of a Fee Basis Vendor ID must be numeric only.** It is possible for FMS to send back an invalid ID, as they have vendors on their system with the first nine characters alphanumeric. They picked up these invalid Vendor IDs from the CALM system, which had been modified from all numeric to alphanumeric. The FMS system does not allow modification of the Vendor ID.

RESOLUTION: Contact the FMS Help Desk at (512) 389-5109 to let them know what you received.

Note the date on which you transmitted the Vendor record to Austin. When all other Vendor records have been received (the date does not appear on the output of MRA's Awaiting Austin Approval), then re-transmit MRAs for that date.

Vendor Error Codes, Cont.

ERROR CODE 2 INVALID RECORD LENGTH

***** ACTION NECESSARY *****

EXPLANATION: A Medical Vendor and a Pharmacy Vendor have two different record lengths. The record length for each is a fixed length. Medical or Pharmacy Vendor records which deviate from their fixed length cannot be processed, since the position of the data may have shifted. This may lead to corruption of the data.

RESOLUTION: **Contact the Central Fee Help Unit at the Austin Automation Center (REDACTED) and notify them of the problem immediately.** They may be able to re-transmit the server message. If the message which they sent was bad, or they no longer have the message to send, re-transmit that Vendor record for the date you originally sent it to them. You may do this as long as no other vendors that are still Awaiting Austin Approval were sent on that same date. (Use the MRA's Awaiting Austin Approval option on the Medical Fee Supervisor Main Menu to check this.)

ERROR CODE 3 INVALID STATION NUMBER

***** ACTION MAY BE NECESSARY *****

EXPLANATION: This error is only possible if you are receiving an **Add** transaction from Austin and the station number on the **Add** transaction differs from the station number indicated by the PSA DEFAULT INSTITUTION field in your FEE BASIS SITE PARAMETERS file (# 161.4).

RESOLUTION: **Contact the Central Fee Help Unit at the Austin Automation Center (REDACTED) and notify them of the problem immediately.** If the Vendor transactions should not have been sent to you, then you can ignore this problem. If what was sent is accurate, check the PSA DEFAULT INSTITUTION field in your FEE BASIS SITE PARAMETERS file (# 161.4). If the site parameter is correct, contact the ISC; further analysis is needed. If it is incorrect, request that the server message be re-transmitted. If they no longer have the message to send, re-transmit that Vendor record for the date you originally sent it to them. You may do this as long as no other vendors that are still Awaiting Austin Approval were sent on that same date. (Use the MRA's Awaiting Austin Approval option on the Medical Fee Supervisor Main Menu to check this.)

Vendor Error Codes, Cont.

ERROR CODE 4 **VENDOR NAMES DO NOT MATCH**
 ***** INFORMATION ONLY *****

EXPLANATION: This message is only likely to occur during the upload. It is possible for two vendors to exist with the same Vendor ID. For one Vendor, it may be a Tax ID number; for the other, an SSN. For changes made by another station, the Vendor ID is used to locate the Vendor on your system. It's possible that the change is for the Vendor with this number as a Tax ID number, but your file only contains the Vendor with this number as an SSN.

Example: Test Hospital Tax ID: 000456789
 Dr. Test SSN: 000456789

RESOLUTION: Informative message only. No further action is necessary.

ERROR CODE 4.1 **VENDOR NOT FOUND IN FILE OR IN DELETE STATUS**
 ***** INFORMATION ONLY *****

EXPLANATION: If a change is made to a Vendor at another station, the change is routed to your station if it is believed that you also use that Vendor. The Vendor ID is used to locate the Vendor on your system. If the Vendor does not exist on your system, or the Vendor ID has been changed, or the Vendor is in DELETE status, the Vendor in your FEE BASIS VENDOR file (#161.2) is not updated.

RESOLUTION: Informative message only. No further action is necessary.

ERROR CODE 5 **VENDOR CHANGE ALREADY PROCESSED**
 ***** INFORMATION ONLY *****

EXPLANATION: When a change to a Vendor is made or a new Vendor added, the Vendor is temporarily added into the FEE BASIS VENDOR CORRECTION file (#161.25). It is deleted from this file once Austin returns a transaction containing that Vendor, and no other errors are found. If no entry is found in this file, nothing can be processed. It is most likely that it has already been processed.

RESOLUTION: Informative message only. No further action is necessary.

Appendix H: List Manager

The List Manager is a tool that displays a list of items in a screen format and provides the following functionality.

- browse through the list
- select items that need action
- take action against those items
- select other List Manager actions without leaving the option

You can select an action and entry number by using an equal's sign (=), for example:

LB=1 will process entry 1 for list batch
LB=3 4 5 will process entries 3, 4, 5 for list batch
LB=1-3 will process entries 1, 2, 3 for list batch

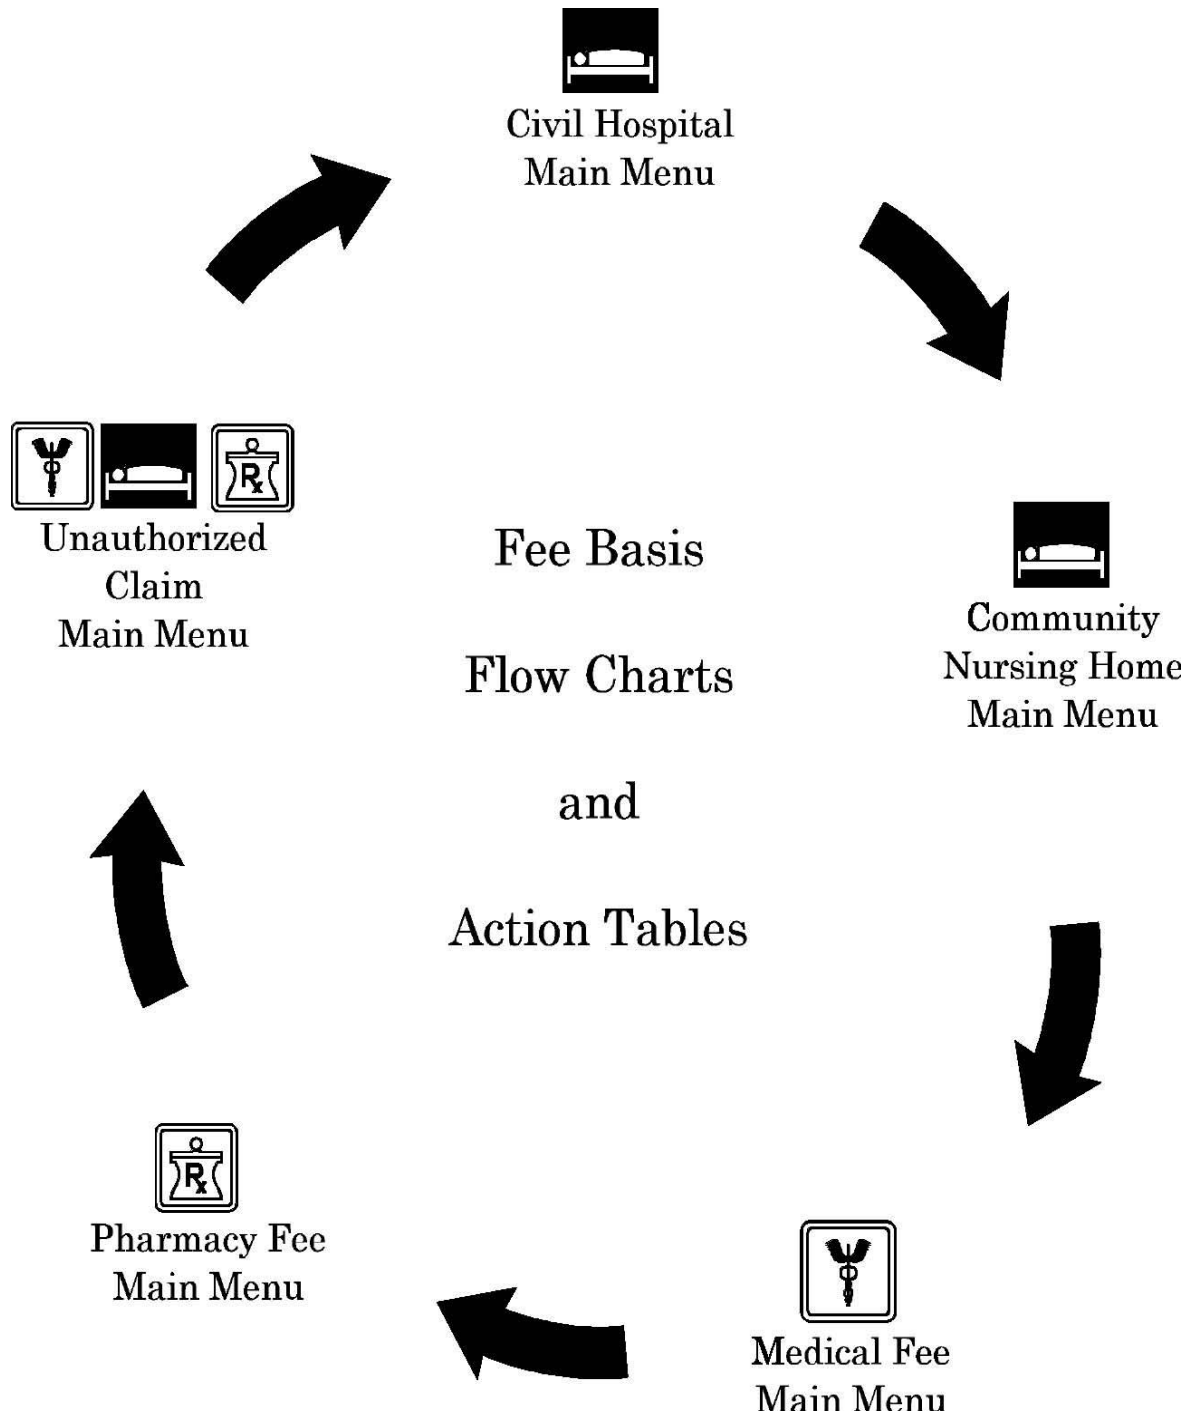

In addition to the various actions that may be available specific to the option you are working in, List Manager provides generic actions applicable to any List Manager screen. You may enter double question marks (??) at the "Select Action" prompt for a list of all actions available.

On the following page is a list of basic List Manager actions with a brief description. The list may have been altered by the specific package you are working in. The mnemonic for each action is shown in brackets [] following the action name. Entering the mnemonic is the quickest way to select an action.

¹You should closely monitor both the Line Item Status and the Invoice Status while entering Pharmacy invoices, because an invoice can contain multiple line items. The Invoice Status should never be greater than the lowest Line item Status within that invoice. If there is only one line item on an invoice, the Line Item Status will equal the Invoice Status. The following is a numeric ranking of possible Line Item/Invoice Statuses:

1. Pending Pharmacy Determination
2. Pending MAS Completion
3. Pending Payment Process
4. Completed

²We recommend that the clerk write the computer-generated invoice number on the Pharmacy invoice as it is being processed.

³The Pharmacy Fee Clerk can use this option to close an invoice only when the invoice and all of the line items within that invoice have reached the PENDING PAYMENT PROCESS status.

Appendix J: Fee Invoice Acceptance Date Controls

Introduction

Patch FB*3.5*124 modifies Fee Basis to fully enforce the long-standing requirement that Invoices may not be approved for payment of medical services which have not yet been rendered. I.e. no valid Fee Basis invoice may include charges for services on a date later than the date the invoice was received by the VA.

Previously, enforcement of this requirement was dependent largely on the Fee Basis Clerk recognizing such a condition when entering the invoice data, which was difficult since often only one of the dates was visible on the screen during data entry.

Note:

The dates collectively referred to below as “Date of Service” refer to various fields, depending on the type of invoice. In addition to “Date of Service”, such fields include Treatment Date (or Treatment To Date), Admission or Discharge Date, and Prescription Filled Date.

This patch adds more sophisticated, and more complete, date-validation checks in multiple places where various types of invoices are entered or edited. It will refuse to allow entry of a Date of Service which is later than the Invoice Received Date, or of an Invoice Received Date which is earlier than the latest Date of Service on the invoice.

The areas where the new date checks have been introduced are identified above, in the list of Menu Options affected, in Section 2.2.2 Patch Installation. For invoices which may include a range of dates – such as Civil Hospital Inpatient or Nursing Home, the Invoice Date is compared to the last Date of Service, i.e. the Treatment To date. For Invoices which may include multiple charges on different dates, such as different prescriptions filled on different days, the Invoice Received Date is compared to the date of the latest charge included on the invoice. Whenever an invalid date is detected, the date just entered will be rejected, and the user must either re-enter a valid date (if there is one), or exit the invoice. This will ensure that data-entry mistakes are caught, and can be corrected, immediately. It will also ensure that invoices submitted for invalid dates will be reliably identified during Fee Basis data entry. And in both cases, it will ensure that no invoices for invalid dates are approved and sent to Central Fee for payment.

Examples of the new Invoice Acceptance Date Controls by Menu Option:

| | |
|---|---------------------------------------|
| Enter Payment (Medical) | [FBAA ENTER PAYMENT] |
| Reimbursement Payment Entry (Medical) | [FBAA MEDICAL REIMBURSEMENT] |
| Multiple Payment Entry (Medical) | [FBAA MULTIPLE PAYMENT ENTRY] |
| Ancillary Contract Hosp/CNH Payment | [FBCH ANCILLARY PAYMENT] |
| Patient Reimbursement for Ancillary Services | [FBCH ANCILLARY REIMBURSEMENT] |
| Multiple Ancillary Payments | [FBCH MULTIPLE PAYMENTS] |

When a new Medical or Ancillary invoice is entered, the Invoice Received Date is entered first. Since the user is not allowed to return to this field and change its value, the date comparison is not performed until the Date of Service is entered further down. If a mistake was made when entering the Invoice Received Date, the incomplete invoice must be deleted, and a new one entered with the correct Invoice Received Date, since the Invoice Received Date cannot be changed in this option once it has been entered. The example

below illustrates what will occur if a Date of Service is entered which is after the Invoice Received Date for a Medical invoice:

Edit Payment (Medical)

[FBAA EDIT PAYMENT]

When an existing Medical invoice is edited, the Date of Service is used, along with the Patient and Vendor Names, to select the invoice to be edited. The Date of Service cannot be change in this option, but the Invoice Received Date, can. So the Invoice Acceptance Date check is implemented only after the user changes the Invoice Received Date. The example below illustrates what will happen if the Invoice Received Date is changed to a value later that the Date of Service:

Edit Ancillary Payment

[FBCH EDIT ANCILLARY PAYMENT]

When an invoice for an Ancillary Payment is edited, the Invoice Received Date can be changed but the Date of Service cannot. So the new Fee Invoice Acceptance Date Control check only executes if the Invoice Received Date is changed. The example below illustrates the action of this date check if the Invoice Received Date is changed to a date later than the Date of Service for the selected invoice:
 Date of Service: ??

Choose from:

- 1 JUL 22, 2011

When entering a new Civil Hospital Invoice, the Invoice Received Date is compared to the Authorization TO Date. The Authorization TO Date is entered to select the invoice to be edited, and cannot be edited. In the example below, the Authorization To Date selected is **8/30/2011**. The example below illustrates the action of the Fee Invoice Acceptance Date Control check if the Invoice Received Date entered is earlier than the Authorization To Date:

Appendix K: Interface Between VistA Fee Basis and Central Fee Prevents Duplicate ICN Payments

System Overview

The VistA Fee Basis application supports the Veterans Health Administration's (VHA) Fee for Service program. This program authorizes care for veterans who are legally eligible and in need of care that cannot feasibly be provided by VA facilities. A VA medical facility, unable to meet the patient care requirements of a veteran, ASy authorize fee basis services for short-term inpatient care, ongoing outpatient care, or home health care from non-VA health care facilities. Civil Hospitals (CH) or Community Nursing Homes (CNH) submits bills for service to the authorizing VA facility. The VA facility reviews the bills and transmits payment messages to Central Fee.

Central Fee is a national system located at the Austin Information Technology Center (AITC). Central Fee receives payment messages from VistA Fee and upon approval sends the payments to downstream systems such as the Financial Management System (FMS). FMS transmits data to the Department of the Treasury that results in payment by check or EFT and an explanation of benefits (EOB). Central Fee also makes fee payment data available to other enterprise systems.

Interface Overview

VistA Fee Basis transmits payment data to Central Fee for payments that should be made to veterans or veterans for purchased case services. Central Fee returns information to VistA Fee Basis concerning the status of these payments.

Transaction Types

The payment interface between VistA Fee Basis and Central Fee consists of six different transaction types which are described below in the next table.

Transaction Description

| Transaction Type | Direction | Description |
|------------------|--------------------------|---|
| Payment Batch | VistA Fee to Central Fee | This transaction contains a batch of one or more payment line items. The batch is released by the Fee Supervisor. Each line item describes a payment for a purchased care service that includes a description of the service, the 1358 obligation and payment amount, and the non-VA provider |

| Transaction Type | Direction | Description |
|-----------------------------------|--------------------------|--|
| | | and veteran. |
| Payment Batch Results | Central Fee to VistA Fee | This transaction provides the results from Central Fee receipt and processing of a new payment batch including the reason for any rejected line items. |
| Voucher Batch | VistA Fee to Central Fee | This transaction contains a list of any line items that were locally rejected in VistA and provides Central Fee with finance staff approval to release the remainder of the batch to downstream systems for payment. |
| Voucher Batch Acknowledgement | Central Fee to VistA Fee | This transaction is an application acknowledgement to a Voucher Batch message. |
| Post Voucher Reject | Central Fee to VistA Fee | This transaction reports rejects for line items that were rejected by Central Fee or a downstream payment system after those line items were released by the Voucher Batch transaction. |
| Payment Confirmation/Cancellation | Central Fee to VistA Fee | This transaction reports payment confirmation (date paid, check number, disbursed amount) or payment cancellation data for one or more line items. |

Transaction Trigger Events

| Transaction Type | Trigger Event |
|-------------------------------|---|
| Payment Batch | User executes the Queue Data for Transmission option in VistA Fee Basis. A message is generated for each batch with an appropriate status. The Release a Batch option assigns a status that result in transmission. The Reprocess Overdue Batch option can assign a status that result in transmission. |
| Payment Batch Results | Central Fee processes a Payment Batch transaction sent from VistA. The National Service Desk Austin resends the message upon request. |
| Voucher Batch | User completes a batch using the Finalize a Batch option in VistA Fee Basis. User selects a batch using the Resend Completed Batch option in VistA Fee Basis. |
| Voucher Batch Acknowledgement | Central Fee processes a Voucher Batch transaction sent from VistA. The National Service Desk Austin resends the message upon request. |
| Post Voucher Reject | A payment line item(s) fails an edit check when Central Fee is preparing to transmit it to a downstream payment system such as FMS. A downstream payment system such as FMS or FASPAC rejects a |

Appendix L: Newborn Services Authorizations

The Caregivers and Veteran's Omnibus Health Services Act of 2010, Public Law 111-163, Section 206, codified at 38 U.S.C. § 1786, authorizes VA to pay, from the date of birth plus seven calendar days, for post-delivery care for the newborn of women Veterans, who are:

- Enrolled in the VA Health Care System (HCS)
- Receiving maternity care furnished by the VA or authorized by the VA

Newborn Eligibility Criteria

Enrollment Coordinator and Women's Health Veteran's Coordinator

The VA routinely provides maternity care for eligible women Veterans through non-VA medical care arrangements. When the Non-VA Medical Care Office receives notice that a woman Veteran requires pre-natal care, the Non-VA Medical Care Office coordinates with the Women's Health Veteran's Coordinator (WVC) to ensure the woman Veteran understands VA policy on the newborn medical care processes and requirements.

A woman Veteran and her newborn must meet the newborn eligibility criteria in order for the newborn to qualify for Newborn Medical Services.

Note: Non-VA facilities may provide delivery services under VA pre authorization, in accordance with a non-VA medical care arrangement related to the newborn's birth.

Authorizations

In order for an authorization to be entered, the newborn must be registered under the woman Veteran (in VistA) and must have an eligibility status of either "Verified" or "Pending Verification."

- Post-natal routine care for the newborn from the date of birth plus seven calendar days

Routine medical care from the newborn's date of birth plus seven days should be authorized under a separate authorization under the newborn's registration.

Authorization Forms

VA uses VA Form 10-7078 and VA Form 10-7079 to process a newborn care authorization under 38 U.S.C. § 1786. The following information is required to process the authorization:

- Female Veteran's Full Name
- Newborn's Full Name
- Newborn's Date of Birth
- Local Point of Contact Phone Number and Address
- Patient Type

- Purpose of Visit (POV)
- Admitting Authority Codes

Note: The procedure below was written for a national audience. Please check with the local facility supervisors for any local customization of this procedure, as well as other changes and updates.

The purpose of this letter is to inform you of the newborn care medical coverage. 38 U.S.C. 1786, Care for Newborn Children of Woman Veterans Receiving Maternity Care, authorizes VA to pay for routine medical care for your newborn from the date of birth, plus seven calendar days. The Non-VA-Medical Care Office, Women's Health, and Enrollment Coordinators stand ready to assist you and your newborn with all your health care and enrollment needs.

After the birth of your newborn, immediately contact the Social Security Administration and apply for a Social Security Number (SSN) for your newborn. Your newborn's full name, SSN and date of birth are required to fully process the newborn medical claims. Upon receipt of the SSN, please provide the Non-VA-Medical Care Office with a copy of the card.

If you require assistance, please contact us at _____.

Provider's Newborn Authorization Letter

The Non-VA Medical Care Office issues the provider's newborn authorization letter to inform the provider that VA:

- Approved payment for all authorized post-delivery care services to include routine medical care for the newborn of a woman Veteran
- Enclosed an authorization form that approves payment for the hospital and professional care provided to the newborn and Veteran
- Requires the provider to submit all claims on a CMS 1500 or CMS 1450/UB04

The purpose of this letter is to inform you that Title 38 U.S.C. 1786, Care for Newborn Children of Women Veterans Receiving Maternity Care authorizes VA to pay for authorized routine medical care for the newborn of a women Veteran. The newborn medical coverage is for not more than seven consecutive days after the birth of the child, if medically necessary.

Enclosed is Department of Veterans Affairs (VA) authorization, VA Form 10-7078 to provide hospital and professional care to the newborn of the above named Veteran. Please mail all claims pertaining to the newborn and Veteran with a copy of the enclosed VA authorization to _____.

For VA payment, please submit claims on a CMS 1500 or CMS 1450, including all applicable medical documentation. Please do not send the medical bills to the Veteran.

Acceptance of this authorization is agreement to accept VA payment as payment in full for care provided to newborn within the 7 day authorization period. By Federal regulation VA is the primary and exclusive payer for medical care it authorizes. As such, you may not bill the Veteran or any other party for any portion of the care authorized by VA. Federal law also prohibits payment by more than one federal agency for the same episode of care; consequently, Medicare, or any other Federal agency must be refunded to the payer by your facility.]

Appendix M: ERA Compliance

The vendor file and vendor maintenance functionality, Veterans Health Information Systems and Technology Architecture (VistA) Fee is compliant with Committee on Operating Rules for Information Exchange (CORE®) Level III Electronic Funds Transfer (EFT) standards for beneficiary-related transactions.

Managing CARCs and RARCs

This CORE rule conforms with and builds upon the v5010 X12 835 by specifying that health plans or their Pharmacy Benefits Manager (PBM) agents use a uniform set of Claim Adjustment Group Codes (CAGCs), CARCs, RARCs and National Council for Prescription Drug Programs (NCPDP) Reject Codes for specified CORE-defined Claim Adjustment/Denial Business Scenarios. The scope of this rule is limited to the detail level, Loop ID 2100 and Loop ID 2110.

The CARC, RARC and NCPDP Reject Code codes sets are used to report payment adjustments and denials in the v5010 X12 835. The CARC, RARC and NCPDP Reject Codes are maintained by organizations external to the ASC X12 Standards Committee. As such, these code lists are subject to revision and maintenance three or more times a year.

VistA Fee allows up to five CAGC/CARC/RARC combinations per line on a payment. The functionality also allows two RARCs to be selected per CARC at the line level.

These selections are available for new payments and editing existing payments for medical, professional, and pharmacy line items.
