Preface

This is the IFCAP V. 5.1 Budget Analyst User's Guide. IFCAP stands for Integrated Funds Distribution, Control Point Activity, Accounting and Procurement. IFCAP is a subsystem of the Veterans Health Information Systems and Technology Architecture (VISTA). There are several types of IFCAP users. The Budget Analyst User's Guide explains how to use IFCAP and the Funds Distribution Program Menu to perform two primary Budget Analyst goals: creating/funding Control Points and managing budgets. The Funds Distribution Program Menu is broken down into these areas of functionality.

- TRANSACTION MENU – To allocate funds and process related transactions
- BUDGET UTILITIES – To create or edit budgetary tables and run Transaction Report - eCMS/IFCAP
- PRINT MENU – To monitor the funding activities
- FMS Document Inquiry/Error Process – To process FMS/IFCAP errors

This guide divides these goals into small, manageable tasks. Each chapter represents a summary, or overall goal. Each major chapter section represents an essential task required to achieve that goal. These sections have subsections that explain how to perform the steps required to accomplish each task. The Budget Analyst User’s Guide was written in this format so that the information hierarchy would represent the structure of IFCAP formal training and on-the-job training.
# Table of Contents

Preface ................................................................................................................................. vii

Table of Contents ................................................................................................................... vii

**Chapter 1. Introduction** ..................................................................................................... 1-1

1.1 The Role of the Budget Analyst ......................................................................................... 1-1
1.2 How to Use This Manual .................................................................................................... 1-1
1.3 Reference Numbering System ........................................................................................... 1-2
1.4 The Financial Management System (FMS) ...................................................................... 1-2
1.5 Automatic Fund Rollover .................................................................................................... 1-2
1.6 Allowance Level Fund Transfers ....................................................................................... 1-2
1.7 Sub-Cost Center Change .................................................................................................... 1-2
1.8 EDI – Electronic Data Interchange ................................................................................... 1-3
1.9 Monthly Credit Cards Accruals ........................................................................................... 1-3
1.10 Carry Forward process ....................................................................................................... 1-3
1.11 Data Structures ................................................................................................................ 1-3
     1.11.1 Budget Files .............................................................................................................. 1-3
     1.11.2 Required Fields File ................................................................................................. 1-4
     1.11.3 Dictionary Management Menu .................................................................................. 1-4

**Chapter 2. How to Create, Edit, and Fund a Control Point** ............................................... 2-1

2.1 Introduction ....................................................................................................................... 2-1
2.2 How to Add/Edit a Control Point ...................................................................................... 2-3
     2.2.1 Menu Navigation ........................................................................................................ 2-3
     2.2.2 Station Level Setup .................................................................................................... 2-5
     2.2.3 Control Point Level Setup .......................................................................................... 2-8
2.3 How to Create a Budget for a Control Point ..................................................................... 2-12
     2.3.1 Menu Navigation ........................................................................................................ 2-12
     2.3.2 Transaction (Ceiling) Setup ....................................................................................... 2-14
     2.3.3 Recurring/Non-Recurring Funding Setup ................................................................. 2-15
2.4 How to Release Funds to a Control Point for Spending .................................................... 2-16
     2.4.1 Introduction ................................................................................................................ 2-16
     2.4.2 Menu Navigation ........................................................................................................ 2-16
     2.4.3 Select Transaction ....................................................................................................... 2-17
     2.4.4 Remove Transaction ................................................................................................... 2-18
     2.4.5 Interpreting the Report ............................................................................................... 2-19
2.5 Report the Release of Funds to FMS ................................................................................ 2-20
     2.5.1 Introduction ................................................................................................................ 2-20
     2.5.2 Menu Navigation ........................................................................................................ 2-20
     2.5.3 Select Transaction Date ............................................................................................. 2-21
     2.5.4 Compile/Print Report ................................................................................................ 2-22
2.6 How to Edit Funding Transactions ..................................................................................... 2-23

Revised April 2022

IFCAP Version 5.1
Preface

2.6.1 Introduction.............................................................................................................2-23
2.6.2 Menu Navigation....................................................................................................2-23
2.6.3 Select Transaction ...............................................................................................2-24
2.6.4 Edit Transaction....................................................................................................2-25
2.6.5 Edit Additional Parameters..................................................................................2-26

Chapter 3. Control Point Management .................................................................... 3-1
3.1 Introduction................................................................................................................3-1
3.2 Create a Reserve Fund Control Point.......................................................................3-1
3.3 How to Monitor FMS Status of Funds Reports for Deficits.................................3-1
3.4 How to Transfer Funds Among Control Points......................................................3-2
   3.4.1 Introduction........................................................................................................3-2
   3.4.2 Menu Navigation...............................................................................................3-2
   3.4.3 Transfer Funds Setup.........................................................................................3-3
   3.4.4 Edit Transfer Funds.........................................................................................3-4
3.5 How to Freeze the Spending of a Control Point....................................................3-5
   3.5.1 Introduction........................................................................................................3-5
   3.5.2 How to Return a Purchase to the Control Point................................................3-6
   3.5.3 Request Additional Funds from VISN CFO.......................................................3-6
   3.5.4 Procedure........................................................................................................3-6
   3.5.5 Enter the TDA Funds into Your Budget..............................................................3-6
   3.5.6 Record the Distribution of the TDA Funds.......................................................3-6

Chapter 4. Supplementary Budget Analyst Menu Options ..................................... 4-1
4.1 Introduction................................................................................................................4-1
4.2 Options in the Transaction Menu ............................................................................4-1
   4.2.1 Delete Unreleased Transaction........................................................................4-1
4.3 Options in the Multiple Transaction Menu............................................................4-4
   4.3.1 Create/Post Multiple Transaction.....................................................................4-4
   4.3.2 Post/Edit Temporary Transaction....................................................................4-8
4.4 Quarterly Rollover Fund Control Point Balance...................................................4-13
   4.4.1 Introduction........................................................................................................4-13
   4.4.2 Menu Navigation...............................................................................................4-13
   4.4.3 Select Single or Multiple Year Appropriation..................................................4-14
4.5 Accrual (Monthly).....................................................................................................4-16
   4.5.1 Configuring the Accrual (Monthly) Option to Run Automatically.....................4-16
   4.5.2 Menu Navigation...............................................................................................4-16
   4.5.3 Compile/Print Monthly Accrual Prompts.........................................................4-17
   4.5.4 Edit Monthly Accrual Amount Prompts..........................................................4-20
   4.5.5 Generate/Rebuild FMS SV-Document Prompts...............................................4-22
4.6 Carry Forward Quarterly........................................................................................4-25
4.6.1 Menu Navigation........................................................................................................4-25
4.6.2 Station Selection.......................................................................................................4-26
4.6.3 Outstanding Requests...............................................................................................4-26
4.6.4 Balances for ALL Control Points............................................................................4-27
4.6.5 Balances for a Single Control Point........................................................................4-29
4.6.6 Mail Bulletins...........................................................................................................4-29
4.6.7 End of Year Carry Forward.....................................................................................4-30

4.7 Options in the Print Menu..........................................................................................4-31
  4.7.1 Selected Control Points.........................................................................................4-31
  4.7.2 Range of Transactions...........................................................................................4-34
  4.7.3 Transfer of Disbursing Authority........................................................................4-36
  4.7.4 Detailed Appropriation Summary..........................................................................4-38
  4.7.5 Appropriation Summary Totals.............................................................................4-41
  4.7.6 FTEE Summary by Appropriation........................................................................4-42
  4.7.7 Supplementary Options in the Budget Distribution Reports Menu.......................4-44
  4.7.8 Budget Distribution Reports................................................................................4-44
  4.7.9 Control Point List ..............................................................................................4-47
  4.7.10 FCP/BOC List....................................................................................................4-51
  4.7.11 Control Point PO List........................................................................................4-53
  4.7.12 826 (IFCAP) Report.........................................................................................4-56
  4.7.13 FCP Accounting Elements................................................................................4-64

4.8 Options in the Audit Reports Menu............................................................................4-70
  4.8.1 Control Point Activity File Inquiry.......................................................................4-71
  4.8.2 Procurement and Accounting Transactions Inquiry...........................................4-73

4.9 Supplementary Options on the FCP/BOC/SA Management Menu.........................4-78
  4.9.1 Options in the BOC Management Menu..............................................................4-78
  4.9.2 Deactivate BOC..................................................................................................4-80
  4.9.3 Reactivate BOC...................................................................................................4-82
  4.9.4 BOC Listing........................................................................................................4-83

4.10 Options in the Cost Center Management Menu.......................................................4-84
  4.10.1 Add/Edit Cost Center........................................................................................4-87
  4.10.2 Deactivate Cost Center......................................................................................4-89
  4.10.3 Reactivate Cost Center......................................................................................4-91
  4.10.4 Cost Center Listing...........................................................................................4-93
  4.10.5 List Cost Centers with Associated BOC............................................................4-95

4.11 Options in the Fund Control Point Management Menu..........................................4-97
  4.11.1 Place Released Ceiling Transaction in Control Point File................................4-98
  4.11.2 Deactivate a Fund Control Point......................................................................4-101
  4.11.3 Reactivate a Fund Control Point........................................................................4-102
  4.11.4 Display Control Point Committed Transactions...............................................4-104
  4.11.5 Reset FCP Yearly Accounting Elements............................................................4-106
Chapter 5. Error Messages and their Resolutions ........................................ 5-1
5.1 FMS Error Processing.................................................................................................................. 5-1

**Chapter 7. Menu Outline** ............................................................................................................. 7-1

**GLOSSARY** ................................................................................................................................... 1
Chapter 1. Introduction

1.1 The Role of the Budget Analyst

One of the roles of the Budget Analyst (BA) is to set up, maintain and monitor funds. It is normally the BA’s responsibility to set up the accounting elements including control points, cost centers, budget object codes, as well as the FMS interface tables.

Control Points (CPs) are used to divide funds into separate accounts. FMS uses Account Classification Codes (ACC) in the same manner. CPs and ACCs are used to easily monitor available funds and obligations on a daily, monthly, quarterly or yearly basis.

Cost Centers (CCs) are used to identify costs or expenses for a section or service (Ex. 842100 or 421 Fiscal Service). Several Cost Centers can be associated with one control point. It is a one (CP)-to-many (CC) relationship. Cost Centers are standardized (VHA uses 8000 series) and the list can be found at REDACTED.

BOCs are used to classify the type of personal service, supplies or service. The standardized listing can be found at REDACTED. Any combination of BOCs can be associated with CCs, unless specified. Each CP is assigned one or more BOCs. The Budget Analyst can budget and track control point spending by type of supplies or service using the BOC.

Budget Analysts can use the above combination of accounting elements with the available reporting functionality in IFCAP to make recommendations for future CP budgeting. They can provide budgetary assistance to Control Point Officials (CPOs), and prevent the budget of their facility from becoming deficient. Deficiency occurs when a service obligates and spends more money than it was funded for, which creates a negative balance at the end of the fiscal year.

1.2 How to Use This Manual

This manual explains how to manage control points and monitor funds control with IFCAP by dividing that role into small, manageable tasks. The authors have listed these tasks in successive order so that each instruction builds on the functionality and information from the previous instructions. New Budget Analysts can use this manual as a tutorial by following the instructions from beginning to end, while experienced Budget Analysts can utilize it as a reference tool by using the index and table of contents.

It is not intended to educate the Budget Analyst on the budgetary cycle, but to allow the Budget Analyst to use the functionality in IFCAP to manage the controls points and monitor funding
1.3 Reference Numbering System
This manual uses a special paragraph numbering system to allow users to understand how the sections of the manual relate to each other. For example, this paragraph is section 1.3. This means that this paragraph is the main paragraph for the third section of Chapter 1. If there were two subsections to this section, they would be numbered sections 1.3.1 and 1.3.2. A paragraph numbered 1.3.5.4.7 would be the seventh subsection of the fourth subsection of the fifth subsection of the third section of Chapter 1. Users that want to divide their reading into manageable lessons can concentrate on one section and all of its subsections, e.g., section 2.3 and all of its subsections would make a coherent lesson.

1.4 The Financial Management System (FMS)
FMS is the primary VA financial data management system.

1.5 Automatic Fund Rollover
IFCAP allows users to design their Control Points to automatically transfer unspent, or residual funds from before quarters to the current quarter. This transfer of funds is called a rollover. You can configure the rollover to transfer the funds to other Control Points or to the same Control Point. IFCAP does not literally transfer the funds, but includes the rollover funds as part of the spending balance of the Control Point.

1.6 Allowance Level Fund Transfers
Budget Analysts (BAs) can now transfer funds between two CPs that belong to different programs. Previous versions of IFCAP did not allow this kind of fund transfer.

1.7 Sub-Cost Center Change
In IFCAP the last two digits of the cost center, if anything other than “00”, is the “sub-cost center” that is sent to FMS. *IFCAP does not contain a “sub-cost center” field*, but sends FMS the last two digits of the cost center as the FMS “sub-cost center,” unless the last two digits of the cost center are “00”.

1.8 EDI –Electronic Data Interchange
IFCAP includes capabilities to electronically exchange financial documents according to established user community standards. Through the Funds Distribution Menu options, the Budget Analyst can setup the abilities to bypass Fiscal for accounting review.

1.9 Monthly Credit Cards Accruals
Functionality allows fiscal users to compile and print a monthly credit card accrual report.

1.10 Carry Forward process
Functionality exists to enable the Budget Analyst to move forward both open transactions and balances from a closing quarter to the new open quarter. This facilitates the reconciliation between the FMS sub-allowance balance and the IFCAP control point balance.

1.11 Data Structures

1.11.1 Budget Files
IFCAP contains files to store VHA budget structure elements. Special Control Points are maintained uniquely by FMS. FMS also maintains fund's ceiling information. For adjustments to Control Point balances not initiated by a process in IFCAP, FMS transmits an FMS Sub allowance Reconciliation document, which automatically updates the balance of the Control Point.

To fund a Control Point, you must set up required tables, create the Control Point, link the FMS ACC with the CP, reset the accounting elements, add new ceilings (funds) for the Control Point, and release funds to the Control Point for spending. The Budget Analyst must also coordinate the FMS setup and release funds into the Financial Management System (FMS). FMS requires some additional fields for creating a Fund Control Point, and IFCAP maintains a required fields file that lists those fields.

Setting up Account Classification Codes (ACC) in FMS is not covered in this manual. See the FMS manual for FMS setup and processing.
1.11.2 Required Fields File
IFCAP also contains a Required Fields file. This file allows the system to determine, for a given fund and FMS document type, the budget fields that FMS requires. This enables the system to prompt the user only for the fields that are appropriate for a particular transaction.

1.11.3 Dictionary Management Menu
IFCAP contains a **Dictionary Management** menu to help users manage the new budget files, as well as the Required Fields file.
Chapter 2. How to Create, Edit, and Fund a Control Point

2.1 Introduction

Budget Analysts create budgets for Control Points and make funds from these budgets available for spending. Some funds are earmarked for certain kinds of spending, and budgets are often made available by funding the Control Point on a fixed schedule. To allow Budget Analysts to control the "when" and "how" of Control Point spending, creating a Control Point budget is a separate activity from releasing the funds to a Control Point for spending. IFCAP is more than a budgetary and procurement system. IFCAP also provides the spending and budgetary data that allows the Department of Veterans Affairs to manage its budget on a national scale. The Budget Analyst has a crucial role in reporting the budgeting and releasing of funds to the Financial Management System (FMS) in Austin.

In the process of defining a new Fund Control Point (FCP), all “station level” questions are prompted first, followed by the FCP level questions. The station level over-commit switch overrides the control point level settings. However, the individual control point level switches for EDI override the station level settings.

IFCAP uses different required fields for different funds by using the Allowance and Sub allowance budget Required Fields file settings. For example, if the new FCP will be spending from fund 0160A1 (Med Care), there will be no requirement to prompt for Object Class.

Because of the FMS interface, Budget Analysts must take care when defining FCPs. The budget elements defined in the IFCAP FCP file point to the FMS equivalent of an IFCAP Fund Control Point.

IFCAP developers want to retain the ability to “recycle” FCP numbers from year-to-year, rather than having Budget Analysts create a new set every year. IFCAP reuses FCPs from year-to-year as much as possible. With single-year and no-year funds, recycling FCP numbers is not an issue.

It becomes an issue when dealing with multi-year funds. Currently there are only a few multi-year funds, but there may be more in the future, which may have durations exceeding 2 years. Therefore, while Budget Analysts are responsible for establishing and numbering FCPs, IFCAP developers offer the following method for numbering FCPs.

**Single-Year Funds**
How to Create, Edit, and Fund a Control Point

Simply reuse the FCP number from year to year, as illustrated below. BBFY is Beginning Budget Fiscal Year, and EBFY is Ending Budget fiscal Year.

<table>
<thead>
<tr>
<th>SERVICE</th>
<th>FCP NUMBER</th>
<th>BBFY</th>
<th>EBFY</th>
</tr>
</thead>
<tbody>
<tr>
<td>ISC</td>
<td>125</td>
<td>92</td>
<td>92</td>
</tr>
<tr>
<td>ISC</td>
<td>125</td>
<td>93</td>
<td>93</td>
</tr>
<tr>
<td>ISC</td>
<td>125</td>
<td>94</td>
<td>94</td>
</tr>
</tbody>
</table>

No-Year Funds

FCPs spending from no-year funds should always have the same FCP number, as illustrated below.

<table>
<thead>
<tr>
<th>SERVICE</th>
<th>FCP NUMBER</th>
<th>BBFY</th>
<th>EBFY</th>
</tr>
</thead>
<tbody>
<tr>
<td>SUPPLY</td>
<td>225</td>
<td>xx</td>
<td>xx</td>
</tr>
<tr>
<td>SUPPLY</td>
<td>225</td>
<td>xx</td>
<td>xx</td>
</tr>
<tr>
<td>SUPPLY</td>
<td>225</td>
<td>xx</td>
<td>xx</td>
</tr>
</tbody>
</table>

Multi-Year Funds

For multi-year funds, reuse the FCP number, but only after the duration of the fund has ended. When the initial four-year period is up, VACO may renew the fund for PERIOD, at which time the Budget Analyst would reuse the old FCP numbers for the fund. This process is illustrated below.

<table>
<thead>
<tr>
<th>SERVICE</th>
<th>FCP NUMBER</th>
<th>FUND</th>
<th>BBFY</th>
<th>EBFY</th>
<th>FY</th>
</tr>
</thead>
<tbody>
<tr>
<td>ISC</td>
<td>101</td>
<td>01504B</td>
<td>90</td>
<td>93</td>
<td>90, 91, 92, 93</td>
</tr>
<tr>
<td>ISC</td>
<td>102</td>
<td>01504B</td>
<td>91</td>
<td>94</td>
<td>91, 92, 93, 94</td>
</tr>
</tbody>
</table>
To help FCP users determine the correct FCP to enter on requests when dealing with multi-year funds, enter the valid years for using an FCP in the description field when establishing the FCP. For example, in the description field for FCP #101 above, enter a description, including something to the effect that the FCP is valid in FYs 90, 94, 95 and 96. FCP #102’s description would indicate that it is valid in FYs 91, 95, 96 and 97.

2.2 How to Add/Edit a Control Point

2.2.1 Menu Navigation

From the Funds Distribution and Accounting Menu, select the following menu options in this order:

Funds Distribution Program Menu
Budget Utilities Menu FCP/CC/BOC
Management Menu
Fund Control Point Management Menu
Add/Edit Control Point

Accounting Technician Menu ...
Funds Distribution Program Menu ...
Payment/Invoice Tracking Menu ...

Select Funds Distribution & Accounting Menu Option: Funds Distribution Program Menu

Transaction Menu ...
Budget Utilities Menu ...
Print Menu ...
FMS Documents Inquiry/Error Process ...
Review VENDOR REQUEST

Select Funds Distribution Program Menu Option: **Budget Utilities Menu**

Edit Budget Categories
FMS Exception Transaction Report
Repost FMS Exceptions
Clear FMS Exception File Entries
Clear Program Lock
Dictionary Management Menu ...
Display Control Point Official’s Balance
FCP/CC/BOC Management Menu ...
Recalculate All Fund Control Point Balances
Transaction Report - eCMS/IFCAP

Select Budget Utilities Menu Option: FCP/CC/BOC Management Menu

BOC Management Menu ...
Cost Center Management Menu ...
Fund Control Point Management Menu ...

Select FCP/CC/BOC Management Menu Option: Fund Control Point Management Menu

Add/Edit Control Point
Deactivate a Fund Control Point
Reactivate a Fund Control Point
Place Released Ceiling Transaction in CP File
Display Control Point Committed Transactions
2.2.2 Station Level Setup

The initial setup of a control point begins with a few prompts regarding the station level setup. The Budget Analyst may manage the funds for more than one station. The prompt defaults to the primary station setup in the IFCAP Coordinator’s Site Parameter File (PRIMARY STATION:// YES). Enter the station number that is related to the control point that needs to be setup or edited.

Enter the name of the person(s) responsible for releasing funds to the control point. Adding the user at this prompt does not control adding, editing or funding a control point, but only provides the ability to approve the release of funds to the control point. The release of funds is one of the steps in funding a control point.

The Station Over commit Switch prompt allows the Budget Analyst to determine the station level override authority for control point overspending. Normally, a control point must have adequate funds to approve spending transactions. If the control point wants to continue to approve spending transactions without additional funds, the control point must have “over commit” authority. The Budget Analyst may use this switch to override the CP OVERCOMMIT SWITCH: (See Section 2.2.3 Control Point Level Setup).

0 OVERCOMMIT NOT ALLOWED FOR ALL FCP’S - Will not allow any control point to over commit funds, even if the CP OVERCOMMIT SWITCH is set to OVERCOMMIT ALLOWED in the control point level setup.
How to Create, Edit, and Fund a Control Point

1. **CURRENT QUARTER OVERCOMMIT ALLOWED** – Allows over commit authority for all control points in the current Fiscal Year and quarter. This is helpful at the beginning of a quarter, before any funds are distributed.

2. **FUTURE QUARTERS OVERCOMMIT ALLOWED** – Allows over commit authority for all control points in the current Fiscal Year, future quarter. This is helpful at the end of quarter, when the control points want to start spending in the next quarter, and before the Budget Analyst has an opportunity to fund the upcoming quarter.

3. **CURRENT AND FUTURE QUARTERS OVERCOMMIT ALLOWED** – Allows over commit authority for all control points for the current Fiscal Year -current and future quarters.

4. **INDIVIDUAL CP SWITCH USED** – Allows the Budget Analyst to determine the over commit authority at the control point level CP OVERCOMMIT SWITCH.

5. **OVERCOMMIT ALLOWED** – Allows over commit authority for all control points. Again, if the CP OVERCOMMIT SWITH is set to OVERCOMMIT NOT ALLOWED, using this switch will override the control point level. Use caution when using this option, it will allow all the control points to continue spending current, prior and future years and quarters without restrictions until further control is placed.

<table>
<thead>
<tr>
<th>STATION OVERCOMMIT SWITCH: OVERCOMMIT ALLOWED// ?</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Choose from:</strong></td>
</tr>
<tr>
<td>0 OVERCOMMIT NOT ALLOWED FOR ALL FCP'S</td>
</tr>
<tr>
<td>1 CURRENT QUARTER OVERCOMMIT ALLOWED</td>
</tr>
<tr>
<td>2 FUTURE QUARTERS OVERCOMMIT ALLOWED</td>
</tr>
<tr>
<td>3 CURRENT AND FUTURE QUARTERS OVERCOMMIT ALLOWED</td>
</tr>
<tr>
<td>4 INDIVIDUAL CP SWITCH USED</td>
</tr>
<tr>
<td>5 OVERCOMMIT ALLOWED</td>
</tr>
</tbody>
</table>

The EDI Order Release: prompt is not required. It handles the flow of EDI (Electronic Document Interchange) through the Fiscal process. The CP level switch EDI AUTO RELEASE: can override this station level switch. (See Section 2.2.3 Control Point Level Setup).
Y  YES – EDI orders are sent immediately to vendors without a review from Fiscal Service.

N  NO or Blank – Fiscal review of orders are required before EDI orders are sent. These orders will have a status of Pending Fiscal Action, prior to Fiscal review.

The Site All/Delivery Order Switch: prompt is not required. It handles which of EDI (Electronic Document Interchange) documents flow through the Fiscal process. The CP level switch EDI AUTO RELEASE: can override this station level switch. (See Section 2.2.3 Control Point Level Setup).

The Station Rollover of EOQ Bal.: prompt handles the rollover of funds from one quarter into the next.

1.  ALL FCPs CAN SPEND PRIOR FUNDS – Choosing this option will not allow the ‘rollover’ of funds at the end of the quarter.

2.  INDIVIDUAL FCP ROLLOVER EOQ BALANCE IN EFFECT – This option will allow the ‘rollover’ of funds at the end of the quarter. The individual control point can be set to determine where the funds will be placed at the end of the quarter. This will allow the excess funds to be transferred into the next quarter or into another control point.
2.2.3 Control Point Level Setup

To add a new control point, begin with the 3 or 4 numeric identifier, followed by a blank space and then enter the name of the control point at the Select Fund Control Point: prompt. This will add the new entry into the control point file. To edit a control point, just enter the control point number and press return. The Control Point Name will display on the next line to confirm the spelling and format. Press return to accept the control point name but consider the format, all CAPS or the first letter only in CAPS. Example: 025 Radiology or 025 RADIOLOGY. For formatting purposes, you may want to enter all the control point names with similar formats.

Enter the service that controls the funds of the Control Point. The controlling service must already exist in the Service/Section file.

Answer with SERVICE/SECTION NAME, or ABBREVIATION, or MAIL SYMBOL, or TYPE OF SERVICE, or MIS COSTING CODE

The FUND, ADMINISTRATIVE OFFICE, PROGRAM and FCP/PRJ fields store FMS elements, which must exist and be active in File Dictionaries before they are available for selection in this menu.

See section 4.4.7 – Supplementary Options in the Dictionary Management Menu – Dictionary Management Menu to add or update the FMS elements. Enter the FUND code The FUND code is the allowance element that identifies the appropriation used for the funding. Enter the beginning year of the fund at the Beginning Budget Fiscal Year: prompt. Enter the administrative office that provided the appropriation at the Administrative Office: prompt (almost always, this will be 10 (Veterans Health Administration)). Enter the code for the
How to Create, Edit, and Fund a Control Point

program that this fund supports (for example, All Other 0100) at the Program: prompt. Enter the FMS ACC (Account Classification Code) for this Fund Control Point.

| FUND: 0160A1// |
| BEGINNING BUDGET FISCAL YEAR: 2000// |
| ADMINISTRATIVE OFFICE: 10// |
| PROGRAM: 0100// |
| FCP/PRJ: 01002200// |

The Automated?: prompt allows you to decide whether to activate the Control Point to transmit requests through IFCAP and FMS processing, and to have IFCAP update the Control Point records automatically. Enter N if you are creating a Control Point but do not want to activate it for use yet. If you do not want to activate the Control Point now, you can activate it later by using the Reactivate Control Point option.

| AUTOMATED: YES |

Enter Y at the Allow Access By All Requestors: prompt if you want all Control Point Users to have at least “Requestor” access to the Control Point. Entering No will not allow all control point users to have access to this control point. Individual access and the level of access will be assigned in the next step: Select CONTROL POINT USER.

| ALLOW ACCESS BY ALL REQUESTORS: YES// |

Enter the Control Point User’s name and press enter.

| Select CONTROL POINT USER: IFUSER1,THREE IUT |

Enter the user’s level of access. Users can be a Control Point Requestor, Control Point Clerk, or Control Point Official.

LEVEL OF ACCESS: CONTROL POINT OFFICIAL// ?

1--CONTROL POINT OFFICIAL (Has authority to approve requests)
2--CONTROL POINT CLERK (Can enter permanent transactions)
3--REQUESTOR (Can initiate temporary requests to Control Point Clerk)

Choose from:

| 1 CONTROL POINT OFFICIAL |
| 2 CONTROL POINT CLERK |
How to Create, Edit, and Fund a Control Point

The Receive FMS Reconciliation: prompt is used to indicate which users will receive electronic mail messages whenever transactions in FMS affect the balance in their Fund Control Points. Users with a Y in this field will receive the messages. If no user has a "y" value in this field, the messages will go to all Control Point Officials for that Fund Control Point.

The Notification Designee prompt allows Control Point User to receive informational bulletins containing details of a ceiling transaction distributing funds to this Fund Control Point. NOTIFICATION DESIGNEE:

Enter another Control Point User to add additional users, or press the Enter key, if you are finished entering Control Point Users.

At the Special Control Point: prompt, enter whether this Control Point is a General Post Fund, a Supply Fund, a Construction fund, or a Canteen fund. If not, leave this field blank.

Enter the cost center at the Cost Center: prompt. Cost centers allow Fiscal staff to create total expense records for a section or service. The Cost Center must already exist and be “active” before it can be selected at this prompt. See section 4.4 Supplementary Options in the Budget Utilities Menu.

Enter a description for the Control Point. You may use this field to input special notes. Notes regarding the reason for this Control Point, or any special circumstances regarding the funding may be helpful for future reference.

At the CP Over commit Switch: prompt, enter whether the Control Point is allowed to over commit funds. See section 2.2.2 Station Level Setup for further explanation of these options. These options are set for the control point level only and do not affect any other control point. The Control Point Level switch OVERRIDES the Station Level Switch.
The EDI Order Release: prompt handles the flow of EDI (Electronic Document Interchange) through the Fiscal process. See section 2.2.2 Station Level Setup, for further explanation of these options.

Yes - Allows the release of EDI orders to vendors without fiscal review.

No - Will send EDI orders through Fiscal for an accounting review.

This Control Point Level prompt overrides the Station Level prompt. It determines which documents will not flow through the Fiscal process, either All Orders or just the Delivery Orders.

The Rollover of EOQ Balance prompt, determines how to handle the remaining End of Quarter funding balance.
1 Transfer funds to another FCP allows fund to be transferred into another FCP, like a “Reserve” FCP. Note: IFCAP will prompt for the other FCP.

2 Spend Available Prior Funds allows the control point to access funds from a prior quarter that have not yet been carried forward.

3 Restrict to Current Quarter allows the control point to spend funds in the current quarter only.

ROLLOVER OF EOQ BALANCE: ?

This is the rollover of the EOQ balance.

Choose from:

1 TRANSFER FUNDS TO ANOTHER FCP
2 SPEND AVAILABLE PRIOR FUNDS
3 RESTRICT TO CURRENT QUARTER (DEFAULT)

Enter another Fund Control Point at the Select Fund Control Point: prompt, or press the Enter key to return to the Fund Control Point Management Menu.

2.3 How to Create a Budget for a Control Point

2.3.1 Menu Navigation

From the Funds Distribution & Accounting Menu, select Funds Distribution Program Menu.

From the Funds Distribution Program Menu, select Transaction Menu.

From the Transaction Menu, select Add New Transaction (Ceiling).
How to Create, Edit, and Fund a Control Point

<table>
<thead>
<tr>

<th>Multiple Transaction Menu</th>
<th>Quarterly Rollover Fund Control Point Balance</th>
<th>Year to Date Accrual Extract</th>
</tr>
</thead>
</table>

Select Transaction Menu Option: Add New Transaction (Ceiling)
2.3.2 Transaction (Ceiling) Setup

Select a Station Number and a fiscal year. Record the transaction number that IFCAP assigns to the transaction. Approve the transaction number. Enter the Control Point number at the Control Point: prompt. Enter the TDA, or “Transfer of Disbursement Authority” number at the TDA Number: prompt. This number can be found on the AACS report from Austin. Enter the date of the TDA at the TDA Date: prompt. At the Recurring FTEE: prompt, enter the Full Time Employee Equivalent (FTEE) that you are appropriating into this CP from your budget. At the Non Recur FTEE: prompt, enter the Full Time Employee Equivalent (FTEE) that you’re appropriating into this CP from another budget. “Non-Recurring” means the funding is a one-time expense for a specific program, project, trip, purchase, etc. “Recurring” does not create a recurring appropriation: it merely describes the source of funds. This categorization allows IFCAP users to monitor expenses from different sources of funds. At the Trng FTEE: prompt, enter the training FTEE that you are appropriating into this CP from your budget. If this Control Point is for medical care appropriation items, enter the appropriate sort category at the Budget Sort Category: prompt. Otherwise, press the Enter key. If you do not know the name or number of the category, enter three question marks at the prompt and IFCAP will list the available categories. Enter the transaction date, normally “T” for today, at the Transaction Date: prompt. Enter the amount of money you want to appropriate to the CP for each quarter. IFCAP will compute and display the total funding for the fiscal year.

Note: You can also use this option to withdraw funds from a Control Point by entering a minus sign before the dollar amount prompts.
2.3.3 Recurring/Non-Recurring Funding Setup

At the Recurring/Non-Recurring: prompt, enter R if the funding for the Control Point is from your budget or NR if the funding is from another budget. “Non-Recurring” means the funding is a one-time expense for a specific program, project, trip, purchase, etc. “Recurring” does not create a recurring appropriation: it merely describes the source of funds. This categorization allows IFCAP users to monitor expenses from different sources of funds. Enter the station number at the Select Station Number: prompt to enter another transaction, or enter a caret (^) to return to the Transaction Menu.

2.6 How to Edit Funding Transactions

2.6.1 Introduction
You can edit any transactions that you have not released.

2.6.2 Menu Navigation
Select Funds Distribution Program Menu from the Funds Distribution & Accounting Menu.
Select Transaction Menu from the Funds Distribution Program Menu.
Select Edit Existing, Unreleased Transaction from the Transaction Menu.
2.6.3 Select Transaction

Enter a station number and a fiscal year. At the Select Sequence Number for FY: prompt, enter the number of the transaction you want to edit.

Select STATION NUMBER ('^' TO EXIT): 688// WASHINGTON, DC
Select FISCAL YEAR ('^' to EXIT): 94//
2.6.4 Edit Transaction

You may change the Control Point, the TDA number, the record of the date on the TDA, and the Full Time Employee Equivalent (FTEE) associated with the transaction.

CONTROL POINT: 101 LAB TESTING 101//
TDA NUMBER: ???

This is the Transfer of Disbursing Authority (TDA) 1 to 3 digit number from the ACCS report.

TDA NUMBER: 460
TDA DATE: ???

Examples of Valid Dates:
- JAN 20 1957 or 20 JAN 57 or 1/20/57 or 012057
- T (for TODAY), T+1 (for TOMORROW), T+2, T+7, etc.
- T-1 (for YESTERDAY), T-3W (for 3 WEEKS AGO), etc.

If the year is omitted, the computer uses the CURRENT YEAR. Two digit year assumes no more than 20 years in the future, or 80 years in the past.
2.6.5 Edit Additional Parameters

Assign or change the budget sort category, if you like. You can also change the funding for each quarter, and whether the funding comes from recurring or non-recurring funds. Specifying “recurring” at the Recurring/Non-Recurring: prompt does not create a recurring transaction: it only identifies the source of funds. You can enter another transaction to edit at the Select Next Sequence Number for FY: prompt, or press the Enter key to return to the Transaction Menu.

BUDGET SORT CATEGORY: ??

This is the category for RD285 report for medical care appropriation items only.

Chapter 3. Control Point Management

3.1 Introduction
Budget Analysts prevent the facility they budget from becoming deficient and reconcile predicted spending with actual spending.

Deficiency is the over commitment of an entire budget for a station. This happens when you allow Control Points to over commit too many funds, so that the overall expenses are more than your overall budget. Deficient budgets are defined by the Anti-Deficiency Act. One way you can guard against deficiency is to prohibit nonessential Control Points from over committing. You can also create a reserve Fund Control Point. As a final measure, you can solicit the Regional Budget Analyst for emergency funding.

The primary tools that Budget Analysts use to prevent deficiency are FMS Status of Funds Reports (which replace 826 reports) and Control Point fund transfers. FMS Status of Funds Reports (which replace 826 reports) provide Control Point balances, which Budget Analysts monitor to prevent budget deficits. If a Control Point budget is threatened with a deficit, the Budget Analyst can transfer funds to it from another Control Point or halt further purchases.

When a Control Point sets aside (or "commits") funds for a purchase, the amount of money they commit is often an estimate. Before the purchase is made, the Accounting staff “obligates,” or withholds, money from the Control Point and earmarks it for the purchase. IFCAP updates the Control Point records of committed and obligated funds in the running balance records. Control Point users rely on the Budget Analyst, because the Budget Analyst funds the Control Point.

3.2 Create a Reserve Fund Control Point
One way you can guard against deficiency is to create a reserve Fund Control Point. Control Point funding levels are defined by your budget plan and are set by your Fiscal Officer or Medical Center Director, so you will need to plan ahead if you want to incorporate a reserve Fund Control Point into your budget. You can also use the rollover switch in IFCAP to rollover the money that your Control Points do not spend into this Control Point and save it for unanticipated spending. Create a Control Point, and name it Contingency or Reserve. Make sure that the funds rollover into the reserve Control Point.

3.3 How to Monitor FMS Status of Funds Reports for Deficits
The FMS Status of Sub-allowances Report will list the balances and deficits (if any) for the
Control Point Management

Control Points.

3.4 How to Transfer Funds Among Control Points

3.4.1 Introduction

You can transfer funds among Control Points if the Control Points receive their money from the same fund and the funds are for the same quarter.

3.4.2 Menu Navigation

Select Funds Distribution Program Menu from the Funds Distribution & Accounting Menu.

Select Transaction Menu from the Funds Distribution Program Menu.

Select Transfer From/To Control Point from the Transaction Menu.

Budget Utilities Menu ...
Print Menu ...
FMS Documents Inquiry/Error Process ...
Review VENDOR REQUEST

Select Funds Distribution Program Menu Option: Transaction Menu

Add New Transaction (Ceiling)
Edit Existing, Unreleased Transaction
3.4.3 Transfer Funds Setup

Enter a station number and fiscal year. Enter the Control Point from which you want to withdraw the funds at the Transfer From Control Point: prompt. Enter the Control Point into which you want to deposit the funds. Enter the fiscal quarter and the amount to transfer. Enter the date at which you want IFCAP to make the transaction. At the Recurring/Non-Recurring: prompt, enter R if the funding for the CP is from your budget or NR if the funding is from another budget. Non-Recurring means the funding is a one-time expense for a specific program, project, trip, or purchase. Recurring does not create a recurring appropriation: it merely describes the source of funds. This categorization allows IFCAP users to monitor expenses from different sources of funds. Enter a description of the transfer if you like. You may review a summary of the transaction if you like.

Select STATION NUMBER ("^" TO EXIT): 688//   WASHINGTON,DC
Select FISCAL YEAR ("^" to EXIT): 94//

...Hmmm, Let me think about this for a moment...

TRANSFER FROM CONTROL POINT: 105 LAB TESTING 105

3.5 How to Freeze the Spending of a Control Point

3.5.1 Introduction

If a Control Point is threatened with a deficit, the Budget Analyst can notify the Control Point Clerk to reconcile the Control Point. As a last resort, further purchases can be "frozen" by returning purchases back to the Control Point. If the Control Point is not set to over commit, Fiscal personnel should decide if Accounting or Budget personnel should monitor the Control Point transactions to control the deficit.
3.5.2 How to Return a Purchase to the Control Point
To return a purchase to the Control Point, tell the Accounting Technician or Purchasing Agent to return the Purchase Order by using the “Return PO to Supply” option under the Document Processing Menu. The Purchasing Agent may also return the 2237 to the service.

3.5.3 Request Additional Funds from VISN CFO

3.5.4 Procedure
Request additional funds only to prevent deficiency due to additional expenses you feel the Medical Center should not absorb. Be prepared to justify the funds as recovery for unexpected and previously unfunded obligations. Contact the VISN CFO and explain why your facility needs the additional funds. If approved, the CFO will initiate a Transfer of Dispersing Authority (TDA), transferring funds to your budget.

3.5.5 Enter the TDA Funds into Your Budget
Assign the funds from the TDA into the over committed Control Points and adjust the IFCAP records accordingly. Go to the section in this user guide on how to fund Control Points.

3.5.6 Record the Distribution of the TDA Funds
You may use the Monthly Budget Distribution option in IFCAP to record non-cumulative monthly distribution of Transfer of Disbursing Authority (TDA) funds.

3.5.6.1 Menu Navigation
Select Funds Distribution Program Menu from the Funds Distribution & Accounting Menu.
Select Transaction Menu from the Funds Distribution Program Menu.
Select Monthly Budget Distribution from the Transaction Menu.
3.5.6.2 Select TDA Number

Enter a station number and a fiscal year. Enter the TDA number.

Select STATION NUMBER ("^" TO EXIT): 688// WASHINGTON, DC

Chapter 4. Supplementary Budget Analyst Menu Options

4.1 Introduction
The following is a list of the IFCAP options available to Budget Analysts that have not been mentioned previously in this manual. You may not have all of the menus defined here. Your local IRM service controls the assignment of IFCAP menus to users.

4.2 Options in the Transaction Menu

4.2.1 Delete Unreleased Transaction
You can delete a transaction if a Control Point User has not released it to Fiscal Service for processing.

4.2.1.1 Menu Navigation
Select Funds Distribution Program Menu from the Funds Distribution & Accounting Menu. Select Transaction Menu from the Funds Distribution Program Menu. Select Delete Unreleased Transaction from the Transaction Menu.

Select Funds Distribution & Accounting Menu Option: **Funds Distribution Program Menu**

4.3 Options in the Multiple Transaction Menu

4.3.1 Create/Post Multiple Transaction

4.3.1.1 Introduction
Use this option when you need to make several adjustments to a single Control Point or multiple Control Points. The system will assign a temporary transaction number that is used to keep track of the transaction if, for some reason, you do not proceed to post it to the Control Points and want to edit it later with the Post/Edit option.

4.3.1.2 Menu Navigation
Select Funds Distribution Program Menu from the Funds Distribution & Accounting Menu
Select Transaction Menu from the Funds Distribution Program Menu.
Select Multiple Transaction Menu from the Transaction Menu.
Select Create/Post Multiple Transaction from the Multiple Transaction Menu.

Select Multiple Transaction Menu Option: **Create/Post Multiple Transaction**
4.3.1.3 Create Multiple Transaction
Enter a station number and a fiscal year. Record the transaction number that IFCAP assigns to
the transaction. Enter the date that the transaction should occur at the Transaction Date: prompt.
Select a Control Point.

Select STATION NUMBER ('^' TO EXIT): 688// WASHINGTON,DC
Select FISCAL YEAR ('^' to EXIT): 94//

This has been assigned TRANSACTION NUMBER: T-00012.
Please note and use for editing of this transaction.

TRANSACTION DATE: JUN 8,1994// (JUN 08, 1994)
Select CONTROL POINT: 101 LAB TESTING 101
...OK? Yes// (Yes)

Are you adding '101 LAB TESTING' as a new CONTROL POINT (the 1st for this MULTI
PLE DISTRIBUTION)? N// Y (Yes)

4.3.1.4 Fund Control Point
IFCAP will ask you how much money you want to fund the Control Point for each fiscal
quarter. IFCAP will ask you whether the funding comes from recurring or non-recurring funds.
Specifying “recurring” at the Recurring/Non-Recurring: prompt does not create a recurring
transaction, but identifies the source of funds, instead. If you want to fund another Control Point,
enter it at the Select Control Point: prompt. Enter a description of the transaction.

<table>
<thead>
<tr>

</tr>
<tr>
<td>TOTAL FUNDING</td>
<td>$1101.00</td>
</tr>
</tbody>
</table>

RECURRING/NON-RECURRING: NON-RECURRING//
Select CONTROL POINT:
DESCRIPTION:
4.3.1.5 Review Multiple Transaction

IFCAP will create the multiple-distribution listing, which includes the transaction number, the Control Point, and the amount of the transaction for each fiscal quarter. If you post the transaction, IFCAP will transfer the transaction to the funds distribution file for processing and delete the temporary transaction number from its records. You can then edit another transaction or return to the Multiple Transaction Menu. You may also use the Release Transaction option to release the transaction you just posted.

| TRANSACTION NUMBER | DESCRIPTION                  | CONTROL POINT | R/NR | AMOUNT
|---------------------|------------------------------|---------------|------|-------
| 101                 | This is a multiple transaction for a widget. | NR | 533.00 | 333.00 112.00 123.00
| T-00012             |                              | R/NR | 533.00 | 333.00 112.00 123.00

Are you ready to post this transaction? YES// (YES)
4.3.2 Post/Edit Temporary Transaction

4.3.2.1 Introduction
Use this option to edit existing temporary transactions and post them to the Funds distribution file for release.

4.3.2.2 Menu Navigation
Select Funds Distribution Program Menu from the Funds Distribution & Accounting Menu.
Select Transaction Menu from the Funds Distribution Program Menu.
Select Multiple Transaction Menu from the Transaction Menu.

</table>

4.5.2 Menu Navigation
Select Funds Distribution Program Menu from the Funds Distribution & Accounting Menu. Select Transaction Menu from the Funds Distribution Program Menu. Select Accrual (Monthly) from the Transaction Menu.
4.5.3 Compile/Print Monthly Accrual Prompts

1. Enter a station number. If your site has multiple stations, enter a question mark at the prompt to see a list of available stations for your site.

2. Enter the month and year for the accrual you want to compile. IFCAP will display the same month expressed as a fiscal month and year.

3. At the Select Number: prompt, enter 1. If data for the month you selected has already been compiled, IFCAP will display the last date and time that data for this month was compiled. IFCAP will warn you that if you recompile this data, you will overwrite all edits made to the accrual.

4. Enter Y at the Recompile Accrual Report?: prompt.

5. Enter Y at the Ready To Print?: prompt.

6. Enter an output device. IFCAP will compile the accrual data and send the IFCAP Accrual Report to the output device you selected.

7. Enter another month and year at the For Accrual Month/Year: prompt, or enter a caret (^) to return to the Transaction Menu.

For Accrual Month/Year: 11/96/
4.5.4 Edit Monthly Accrual Amount Prompts

Enter a station number. If your site has multiple stations, enter a question mark at the prompt to see a list of available stations for your site.

Enter the month and year for the accrual you want to compile. IFCAP will display the same month expressed as a fiscal month and year.

At the Select Number: prompt, enter 2. Enter Y at the Ready To Edit?: prompt.

Select a fund code. If you do not know the entire fund code, enter the first few digits of the number and IFCAP will generate a list of available fund codes. If you do not know the number at all, enter two question marks and IFCAP will list the available fund codes. IFCAP will display the accrual account, the unpaid purchase card order amount, the unreconciled amount, and the calculated accrual amount.

Enter the new amount at the Edited Accrual Amount: prompt.

Enter another fund code at the Select Fund Code: prompt, or press the Enter key.
Enter another month and year at the For Accrual Month/Year: prompt, or enter a caret (^) to return to the Transaction Menu.

Select STATION NUMBER ("^" TO EXIT): 612/ 688          WASHINGTON,DC

4.5.5 Generate/Rebuild FMS SV-Document Prompts

Enter a station number. If your site has multiple stations, enter a question mark at the prompt to see a list of available stations for your site.

Enter the month and year for the accrual you want to compile. IFCAP will display the same month expressed as a fiscal month and year.

At the Select Number: prompt, enter 3.

Enter Y at the Ready to Generate/Rebuild Document?: prompt. IFCAP will generate a monthly accrual FMS SV document for the month you selected.
Enter another month and year at the For Accrual Month/Year: prompt, or enter a caret (^) to return to the Transaction Menu.

After the SVs for FMS are generated, the Purchase Card Order Year to Date Accrual extract is generated. This extract’s data is sent to the Financial Services Center (FSC) to support data needs of the iFAMS implementation. This extract generation can also be triggered by execution of the separate menu option Year to Date Accrual Extract [PRCB YTD ACCRUAL EXTRACT] on the Transaction menu.

4.6.2 Station Selection

If you have multiple stations supported by your IFCAP system, you will need to run the Carry Forward process separately for each station number.

**NOTE:** Recalculate ALL your control points first! Then run the Carry Forward option

Select STATION NUMBER ("^" TO EXIT): 658/\ SALEM, VA

Select one of the following:

1. Carry forward Outstanding Requests
2. Carry forward balances for all control points
3. Carry forward balances for a single control point

Select Number:

4.6.3 Outstanding Requests

The 1st step is to move any outstanding requests (transactions that are not in a Transaction Complete status) from the closing quarter to the new open quarter. This step defines what quarter is going to be opened. This step MUST be done. The system will display the oldest OPEN quarter. The user is then prompted for the quarter being carried forward. In this example the response would be: 00-3.

Select STATION NUMBER ("^" TO EXIT): 658/\ SALEM, VA

Select one of the following:

1. Carry forward Outstanding Requests
2. Carry forward balances for all control points
3. Carry forward balances for a single control point

Select Number: 1 Carry forward Outstanding Requests

The oldest OPEN quarter in file is 2000-3.

For Budget Fiscal Year - Quarter (YY-Q): 00-3

Ready to Run? NO// YES

DEVICE: ;;9999 IRMS BLDG 74 ROOM 227E
4.6.4 Balances for ALL Control Points

The 2nd step in the Carry Forward process enables the Budget Analyst to move control balances from the closing quarter to the new Open quarter. Any balance, positive, or negative, will be moved to the new open quarter.

**NOTE:** Balances on Single – Fiscal Year control points may not be moved beyond the 4th Quarter of the Fiscal Year. Balances on a Multi-Year control point may not be moved beyond the 4th quarter of the final year of the funding, (i.e., Multi-Year funds for 1998-2000 may not be moved beyond 4th quarter of the FY 2000).

The movement of the balance is done by a two-step process.

1. The software will review each control point and determine what Ceiling transaction is needed to bring the Fiscal Unobligated column to zero. A Ceiling entry is created in the Closing Quarter for whatever amount is required to make the Fiscal Unobligated column go to zero. The reverse Ceiling entry is created in the Opening Quarter to move that balance to the new quarter. This Ceiling transaction will be applied to both the Control Point Uncommitted column and the Fiscal Unobligated column.

2. The software will then review each control point and determine whether the CP $Balance column has a zero balance. If it does not, the software will determine what budget transaction is needed to bring the CP $Balance field to zero. An Adjustment entry is then created in the Closing Quarter for whatever amount is required to make the CP $Balance column a zero. The reverse Adjustment entry is created in the Opening Quarter to move that balance to the new quarter.

**NOTE:** The balance is determined by looking at Part 1 - the IFCAP transactions and Part 2 - the FMS transactions.
Select STATION NUMBER ('^' TO EXIT): 658//SALEM, VA

Select one of the following:

1  Carry forward Outstanding Requests
2  Carry forward balances for all control points
3  Carry forward balances for a single control point

Select Number: 2  Carry forward balances for all control points

The oldest OPEN quarter in file is 2000-4.

4.6.5 Balances for a Single Control Point

Occasionally monies may appear in a closed quarter. This step enables the Budget Analyst to move a balance from a previously closed quarter to the subsequent quarter.(this quarter may also be a closed quarter). The user would then Carry Forward from that closed quarter to the next quarter. This step would be repeated until the balance had been moved to the current Open quarter. The same two-step process is used to determine the value the transactions will have.

4.6.6 Mail Bulletins

When the Carry Forward transactions are created a Mail bulletin is sent to the Control Point Users.

4.6.7 End of Year Carry Forward

You must always do Step 1 – moving transactions – even at the end of the Fiscal Year. If you have set the Site Parameter switch to NO – your open transactions for multi-year control points will not move forward. The Application Coordinator can set the switch.

Then do Step 2 to move balances. Only balances on multi-year control points will move forward.

Select IFCAP Application Coordinator Menu Option: SITE Parameters

4.7.1 Selected Control Points

4.7.1.1 Introduction
Use this option to generate the Funds distribution Control Point Display report, which lists quarterly obligations by transaction number for a set of Control Points that you select. This report provides the transaction number and the funding by quarter. This is the budget record of the Control Point.
4.7.1.2 Select Fund Control Point

Enter a station number and a fiscal year. Enter one or more Fund Control Points.

- Select STATION NUMBER ('^' TO EXIT): 688 // WASHINGTON, DC
- Select FISCAL YEAR ('^' to EXIT): 94 //
- Select FUND CONTROL POINT: 101 LAB TESTING 101 ..............
- ANOTHER FUND CONTROL POINT: 105 LAB TESTING 105 ....
- ANOTHER FUND CONTROL POINT: 103 LAB TESTING 103 ..
- ANOTHER FUND CONTROL POINT:
- DEVICE: LAT

4.7.1.3 Interpreting the Report

IFCAP will display each funding transaction, the date the transaction took place, whether the funding was from recurring or non-recurring funds, the amount of each funding by quarter, and the total funding for the year, beginning with the first Control Point you specified. The report will have quarterly and annual subtotals for each Control Point, and quarterly and annual totals for all of the Control Points combined.

4.7.2 Range of Transactions

4.7.2.1 Introduction
Use this option to generate a listing of a range of funds distribution transactions that you select. This report prints the transaction number, Control Point number, TDA number, transaction date, and a breakdown of funding by quarter.

4.7.2.2 Select Range of Transactions
Enter a station number and a fiscal year. Enter the first transaction you want in the report at the Start With Transaction Number: prompt. Enter the last transaction you want in the report at the Go To Transaction Number: prompt. IFCAP finds these numbers by looking at the suffix of the transaction number. For example, since 51 is entered at the Go To: prompt, the last transaction number on the report will end in “0051”. After printing the report, IFCAP will return to the Print Menu.

4.7.4 Detailed Appropriation Summary

4.7.4.1 Introduction
Use this option to generate a listing (by Appropriation) of all TDAs received by the facility. This listing includes a detail line for each TDA. This detailed summary prints the transaction numbers, Control Point numbers, TDA numbers, transaction dates, and breakdown of funding by quarter for all appropriations in IFCAP.

4.7.4.2 Compile/Print Report
Enter a station number and a fiscal year. IFCAP will list the transactions for each appropriation by transaction number and Control Point. This can be a rather lengthy report; only print it if you cannot obtain the information you need using one of the other reports.

4.7.5 Appropriation Summary Totals

4.7.5.1 Introduction
Use this option to generate a report of TDAs received by the facility. This report is only a summary, and prints only the total dollar value of all the quarters funded. The first line is a Control Point subtotal; the second is a subtotal of the appropriation number. A grand total is given for the station number.

4.7.5.2 Compile/Print Report
Enter a station number and a fiscal year. IFCAP will list the total amounts for each appropriation and every Control Point within that appropriation. The report will also list totals for all of the appropriations combined.

```

4.7.7 Supplementary Options in the Budget Distribution Reports Menu
This menu contains options that generate quarterly, biannual and fiscal year Budget Distribution Reports (RD285). The instructions in the next section will use the Complete Fiscal Year report as an example.

4.7.8 Budget Distribution Reports

1st Quarter Report
This report presents the data for the 1st quarter of a specified Fiscal year.

2nd Quarter Report
This report presents the data for the 2nd quarter of a specified Fiscal year.

3rd Quarter Report
This report presents the data for the 3rd quarter of a specified Fiscal year.

4th Quarter Report
This report presents the data for the 4th quarter of a specified Fiscal year.

April - September
This report presents the data for the second half of the Fiscal year.

October - March
This report presents the data for the 1st half of a specified Fiscal year.

Complete Fiscal Year
This report presents the data for the full Fiscal year.

4.7.12 826 (IFCAP) Report

4.7.12.1 Introduction
Use this option to list Ceiling Transaction Totals for user-selected Quarter and FYTD obligations for Control Points. It also lists by Control Point within Appropriation. Using this option will list ceiling transactions, obligations, unobligated balances and FYTD obligations for Control Points within a specified quarter.

4.7.12.2 Menu Navigation
Select Funds Distribution Program Menu from the Funds Distribution & Accounting Menu.

Select Print Menu from the Funds Distribution Program Menu.

Select 826 (IFCAP) Report from the Print Menu.
4.7.12.3 Compile/Print Report

Enter a station number and a Control Point. Enter a fiscal year and a Control Point. IFCAP will list the cost ceiling, obligations, unobligated balance, and obligations for the fiscal year to date for each Control Point, grouped by appropriation. The report will list totals for each appropriation and grand totals for the service. After printing the report, IFCAP will return to the Print Menu.

4.9.1.1 Add/Edit BOC

4.9.1.1.1 Introduction

This option allows you to add a new budget object code or change the name of an existing budget object code. Whenever the program offices in VA Central Office change the budget object codes that you use, you will have to use this option to make the necessary changes to the Budget Object Code File. You can use this option to create new entries or to change the name or number of existing entries.

4.9.1.1.2 Select Budget Object Code (BOC)

Enter a budget object code name. If you do not know the budget object code name, type three question marks at the Select Budget Object Code Name: prompt and IFCAP will list the available BOCs. You may also change the name and the description (but not the number) or the BOC using this option. You may add or edit another BOC at the Select next BOC: prompt, or press the Enter key to return to the BOC Management Menu.
You may enter a new BUDGET OBJECT CODE, if you wish. Enter the 4 digit BOC number, a space and the BOC name. Answer must be 3-79 characters in length.

Select BUDGET OBJECT CODE NAME: 1014 Respiratory Therapist

Do you need to edit the Budget Object Code Name? NO// Y (YES)

You may edit only the NAME of this Budget Object Code, you may NOT change the number

Do you REALLY wish to change the NAME of this Budget Object Code? YES// (YES)

Budget Object Code NAME: Respiratory Therapist// Replace

4.11.1 Place Released Ceiling Transaction in Control Point File

4.11.1.1 Introduction

Use this option when you automate Control Points at your facility. In most cases, you will be planning the implementation of IFCAP at the Control Point level in stages. Use this option after you have Released all Funding (Ceiling) Transactions for your facility and a Control Point is just now being automated, in other words, the funds have already been released automatically. You cannot re-release the ceiling, but you can use this option to enter the ceiling amount into the Control Point Official's balance. This option will not place an entry onto the budget balance for the Control Point; because this entry was made when the original transaction was posted. Fiscal service uses this option to enter a ceiling transaction into a Control Point file. Only use this option when a Control Point is being automated after funds have already been released through the funds distribution option.

4.11.1.2 Ceiling Transaction Setup

Enter a Station number, a fiscal year, and a fiscal quarter. Enter a Control Point. If you do not know the name of the Control Point, enter three question marks at the Select Control Point: prompt. IFCAP will assign a transaction number to the transaction you are creating. You may assign a sort group if you like. Enter the amount that you want to enter into the Control Point balance at the Ceiling $ Amount: prompt. Enter the date that you want IFCAP to allocate the funds at the Date Allocated: prompt. Press the Enter key at the Reference Number: prompt. Add comments if you like. You may enter another ceiling transaction or enter N at the Would You
Like To Enter Another Ceiling Transaction?: prompt to return to the Fund Control Point Management Menu.

Select Fund Control Point Management Menu Option:
4.11.5 Reset FCP Yearly Accounting Elements

4.11.5.1 Introduction
Use this option to reset the FCP yearly accounting elements to the current Fund Control Point accounting elements.

4.11.5.2 Select Control Point
IFCAP will display the station number and ask you to enter a Fund Control Point. Enter the fiscal year for which you want to change the codes. IFCAP will display the CURRENT codes for the Fund Control Point (as defined in the Add/Edit Control Point option) on the left side of the screen. The existing elements for the fiscal year you selected are displayed on the right side of the screen. If you wish to Reset the values displayed on the right side of the screen to match the values displayed on the left side – Enter Y at the Reset the fiscal year 99 Suballowance Account?: prompt. If you want this data filed into the file - Enter Y at the Ready To File?: prompt to transmit the reset command. Enter another Control Point at the Select Control Point: prompt, or press the Enter key to return to the Fund Control Point Management Menu.

Select Budget Utilities Menu Option

4.12.1 Edit Budget Categories

4.12.1.1 Introduction

This option allows you to edit the RD 285 (budget) categories used on the Budget Distribution reports. You can change an existing category, add to the selections, or delete an entry that is no longer needed.
4.12.1.2 Budget Category

Enter the name of the budget category you wish to edit. If you do not know the name of the budget category, enter three question marks at the Select Budget Distribution Codes Name: prompt and IFCAP will list the available budget categories. You may change the name of the budget, its abbreviation, and its sort order. The sort order is the order in which the budget categories will appear on the budget distribution reports.

```
Select BUDGET DISTRIBUTION CODES NAME: ???

CHOOSE FROM:

1  ALL OTHER
2  RECURRING PERSONAL SERVICES
3  NR ALL OTHER
4  NR .23
5  19 REPL EQUIP

You may enter a new BUDGET DISTRIBUTION CODES, if you wish
This is the distribution code number.

Select BUDGET DISTRIBUTION CODES NAME: 2  RECURRING PERSONAL SERVICES

NAME: RECURRING PERSONAL SERVICES//
ABBREVIATION: RPS//
SORT ORDER: 1//
```

4.12.2 Display Control Point Official's Balance

4.12.2.1 Introduction

This option allows you to display the unobligated balance for a selected Fund Control Point. The unobligated balance is the available balance available to the Control Point Official.
4.12.2.2 Compile/Print Report

You can create a report for all Control Points, or for a single Control Point that you define. Enter a Station Number, a fiscal year, and a fiscal quarter. Enter a Control Point. If you do not know the name of the Control Point you want to display, enter three question marks at the Select Control Point: prompt and IFCAP will list the available Control Points. IFCAP will list every 2237 for the Control Point and every purchase order transaction that is not assigned to a 2237, and provide summary totals for the Control Point at the end of the report. Enter a Station Number at the Select Station Number: prompt to create another report, or type a caret(^) and press the Enter key to return to the Budget Utilities Menu.

Do you wish a report for ALL Control Points? NO// (NO)

Select Budget Utilities Menu Option:
4.12.3 Recalculate All Fund Control Point Balances

4.12.3.1 Introduction
Use this option to recalculate all Fund Control Balances for the Control Point Activity user. This option is included in your menu to update balances for all automated Fund Control Points. This recalculation is necessary when the computer "crashes" (loses power). The transactions being processed when a "crash" occurs do not update the Control Point records. Therefore, you may need to use this option to recalculate the Fund Control Point balances in Fiscal.

4.12.3.2 Recalculate
IFCAP will recalculate the Control Point Balances for all of the stations in your system. After recalculating the balances for all of the Stations in your system, IFCAP will return to the Budget Utilities Menu.

```
Select FISCAL YEAR: 94/
Recalculate all stations/control points balances for fiscal year: 00
Select QUARTER: 3/
Submit RECALCULATE ALL CONTROL POINT BALANCES to the TASK MANAGER? YES/
Requested Start Time: NOW// (JUL 20, 1994@18:39:06)
RECALCULATE ALL CONTROL POINT BALANCES HAS TASK NUMBER 223756
```

4.12.4 Clear Program Lock

4.12.4.1 Introduction
This option allows the user to clear a program lock and continue processing. This option clears a lock that has been placed on batch transmission or on releasing the budget figures for a station. This can occur when someone else is using the option and the system will not allow a second person to perform the same function, or when a system error or power problem interrupts a function. Never proceed with further processing after a lock until you have used this option to clear the lock.
4.13 Supplementary Options - FMS Documents Inquiry/Error Process Menu

FMS Documents Inquiry/Error Process ...
Review VENDOR REQUEST

Select Funds Distribution Program Menu Option: FMS Documents Inquiry/Error Process

SOAR Enter/Edit Date When SOs become ARs
   FMS Documents Inquiry
   Rejected FMS Document Process

4.13.1 Enter/Edit Date When SOs become ARs

4.13.1.1 Introduction
At the close of each Fiscal Year the FMS system runs a process which takes all open Accrued Services obligations and converts them from transaction type SO to transaction type AR. Any future adjustments to these obligations must reference them as ARs not SOs. In order to ensure that the IFCAP system knows when to send a transaction as an AR (i.e., when is the document accrued in FMS), an option is used to enter the date that FMS will run the conversion process. Starting the next day, a prior year document will be sent to Austin referencing an AR instead of an SO. This date field must be populated at the close of each Fiscal Year with the appropriate date provided by the FMS office.

4.13.1.2 Enter the Date

Enter the date on which FMS will accrue their prior year documents.

When prior year amendments or adjustments to prior year 1358s are processed in IFCAP, the transactions listed under the SO Format Selected column will be generated if the user selected the SO format; the transactions under the AR Format Selected column will be generated if the
user specifies AR format. If the document being processed is not prior year, the user will not be prompted for format and the system will generate the documents associated with the SO format.

Rejected AR documents may be viewed and/or rebuilt and transmitted thru options on the Accounting Technician Menu

- Standard Dictionary List
- Fund List
- Fund/Appropriation List
- Required Fields List

Select Dictionary List Menu Option:
4.16.2 Required Fields List

4.16.2.1 Introduction
This option allows the user to list the Required Field file settings. These file settings allow IFCAP to determine the information it requires the user to enter to complete each FMS document.

**Note:** This report will be very long if you create it for all funds. Create the report for a single fund if you can.

4.16.2.2 Select Fund
Enter 1 at the Select: prompt if you want to list all required fields for all funds.

**Note:** This report will be very long if you create it for all funds. Create the report for a single fund if you can.

Enter 2 at the prompt to select a single fund. If you enter 2 to list a single fund, IFCAP will ask you for the fund number. Enter an output device at the Device: prompt.

```
Select one of the following:

   1      ALL
   2   SELECT FOR FUND

Select:  2 SELECT FOR FUND
Select Fund:  ??

CHOOSE FROM:

  1030   1994   1994
  1030   1993   1993
  1030   1995   1995
  1060   1994   1994
  1060   1993   1993
  1060   1995   1995
```
4.16.2.3 Compile/Print List

IFCAP will print the "IFCAP Document Required Fields List" report, listing each fund in the report by BBFY, EBFY, FMS document type, the required data element, and if data is required for that data element. Enter another fund at the Select Fund: prompt, or press the Enter key. Enter 1 or 2 at the Select: prompt to create another report, or press the Enter key to return to the Dictionary List Menu.

Chapter 5. Error Messages and their Resolutions

5.1 FMS Error Processing

FMS documents are generated automatically as a result of certain IFCAP processes. For example, creation and generation of ceiling transactions in IFCAP results in Sub-allowance (SA) documents being created and transmitted to FMS. Additionally, when Accounting obligates purchase orders, processes receiving reports or invoices for payment, various types of FMS documents are automatically sent to Austin.

In designing the interface with FMS, IFCAP developers have built-in various edit checks to prevent rejection of FMS documents. An example of such functionality is the Required Fields File, explained earlier in this document, which ensures that all fields required for a given fund and type of FMS document are present on that FMS document before transmitting it to FMS. Even so, it is impossible to prevent every scenario that might cause FMS documents to reject. It is far less likely that the documents that IFCAP creates automatically will reject, compared with the documents that users create manually, using the FMS Code Sheet Menu’s Create a Code Sheet option. That is because the automatic document processes contain more built-in protection against document rejection in FMS.

Because rejection of FMS documents is, to some extent, inevitable, there are options to assist users in correction and retransmission of the rejected documents. IFCAP will allow the user to correct the source document, rebuild the document, and retransmit it to FMS.

When FMS rejects a document, it will send an error message containing all relevant FMS error codes to the appropriate recipients the following day. Appropriate recipients are those who are defined in the FCP file (420) to receive FMS notifications for their Fund Control Point (FCP). When the user has corrected a rejected document, the new document will automatically transmit to Austin. The only exceptions are the Budget documents (SA, ST, and AT), which must be generated again with the Generate FMS Budget Documents option of the Fund Distribution Module. IFCAP transactions are transmitted to the FMS system in Austin as electronic mail messages. These messages list the FMS document types they contain in the Subj: line of the message.

Outgoing Message to FMS:

```
```
Error Messages and Their Resolutions

Once the message is received in the FMS system a mail message is returned to the site confirming acceptance of the message, including the original message number.
Confirmation Message returning from Austin:

```
Subj: EDO1381 FMS CONFIRMATION [#21382] 07 JUL 94 14:08 CST 2
Lines
From: REDACTED in 'IN' basket. Page 1

Ref: Your FMS message #21381 with Austin ID #38883674,
is assigned confirmation number 941881357664928.

Select MESSAGE Action: DELETE (from IN basket)// S

Select BASKET:
```

If a document from IFCAP rejects in FMS, the FMS mail group will receive an electronic mail message from FMS notifying them of the rejected document. The message will include the FMS error code and a brief description of the error. The action the user must take to correct the rejected document varies according to the type of document that has rejected.

### 5.2 Stack Status Report

The Accounting Technician Menu has an option to allow inquiry into all documents and give users the status on each document. The data can be gathered by document type, status or a group of status. The user can see the document with or without code sheet information. For access to this option, contact your IRM service.

5.3 Funds Distribution Error Processing

The Funds Distribution Module has a new menu for inquiring to and correcting Sub allowance (SA), Sub allowance Transfer (ST) and Allowance Transfer (AT) documents from FMS that may reject because of FMS errors. The Budget Analyst (BA) can inquire as to which documents may have rejected and obtain status for the others.

**Select one of the following:**

- **SA Suballowance**
The Budget Analyst will need to correct the errors according to the error codes on the DCT mail message returned from Austin. After the errors are corrected, the BA can regenerate the rejected document. For FMS budget documents created in IFCAP, errors will generally arise for only two reasons.

Insufficient Funds at Allowance Level

An SA document can reject because there was not enough money at the Allowance (station) level to distribute the ceiling to the FCP. If this is the case, the user has two options. The first is to wait until VACO has funded the allowance level with sufficient funds to cover the ceiling, then regenerate the document. The second is to “undo” the ceiling by using the “Place Released Ceiling Transaction in CP File” option. The user would enter a negative ceiling here, to back out the ceiling that rejected in FMS, and, correctly, no FMS document would be sent as a result of using this transaction. Now the IFCAP control point is again in sync with the FMS control point budget.

There is one caveat, however. There is currently no way to “cancel” or “delete” a rejected FMS document from the IFCAP stack file. Therefore, this rejected document remains in the file until one year after the transaction date when IFCAP purges it from its records.

Set-up of FCP is Invalid

Another reason that budget documents can reject is that the combination of budget elements coded on the initial SA for the FCP are not valid in FMS. The FMS error message will tell the user what is wrong with the budget set-up. The user will then go to
the Add/Edit Control Point option, correct the FMS budget element(s) in question, and then simply regenerate the document. The user will NOT re-create the ceiling and/or transfer.

5.6 GIP Module
The GIP module has no error processing options. Current functionality will keep Internal Voucher (IV) documents updated with balances from FMS. IFCAP sends an IV document to Austin when the warehouse posts an issue book order. Users will no longer see a code sheet for issue book orders. For access to this option, contact your IRM service.

5.7 Error Listing
FMS uses an error listing to aid sites in interpreting the error codes and learn possible solutions. This error listing has over 10,000 entries. This listing is in the FMS Error Guide, available at your IRM service.
Chapter 6. eCMS/IFCAP Message Events

IFCAP interfaces with the eCMS (electronic Contract Management System) which is hosted at the Austin Information Technology Center (AITC). The Accountable Officer sends approved 2237s to eCMS via HL7 messaging. The Contracting Officer in eCMS is able to Return the 2237s back to IFCAP if additional edits are needed or if it needs to be processed within IFCAP or if it needs to be Cancelled. A new menu option: Transaction Report – eCMS/IFCAP on the Budget Utilities menu is available to those Users who are assigned the new Security Key [PRCHJFIS].

A report can be generated for a single 2237, a single eCMS Contact, by date range, a specific Station Number, a specific fund control point, a specific messaging Event type, multiple Event types or ALL the records.

**Note:** if your Station is using the IFCAP sub-station functionality, a report can be generated for a specific Station sub-station.

```
Select Budget Utilities Menu <TEST ACCOUNT> Option: transaction Report - eCMS/IFCAP

Select a single 2237 TRANSACTION NUMBER? NO//

Review VENDOR REQUEST
GLOSSARY

1358  VA Form 1358 Estimated Obligation or Change in Obligation.

2138  VA Form 90-2138, Order for Supplies or Services. First page of a VA Purchase Order.

2139  VA Form 90-2139, Order for Supplies or Services (Continuation). This is a continuation sheet for the 2138 form.

2237  VA Form 90-2237, Request, Turn-in and Receipt for Property or Services. Used to request goods and services.

A&MM  Acquisition and Materiel Management Service.

AACS  Automated Allotment Control System--Central computer system developed by VHA to disburse funding from VACO to field stations.

Accounting Technician  Fiscal employee responsible for obligation and payment of received goods and services. Accounting Technicians process accounting transactions and transmit them to FMS.

Activity Code  The last two digits of the AACS number. It is defined by each station.

ADP Security Officer  The individual at your station who is responsible for the security of the computer system, both its physical integrity and the integrity of the records stored in it. Includes overseeing file access.
### Glossary

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Agent Cashier</td>
<td>The person in Fiscal Service (often physically located elsewhere) who makes or receives payments on debtor accounts and issues official receipts.</td>
</tr>
<tr>
<td>ALD Code</td>
<td>Appropriation Limitation Department. A set of Fiscal codes that identifies the appropriation used for funding.</td>
</tr>
<tr>
<td>Allowance table</td>
<td>Reference table in FMS that provides financial information at the level immediately above the AACS, or sub-allowance level.</td>
</tr>
<tr>
<td>Amendment</td>
<td>A document, which changes the information contained in a specified Purchase Order. Amendments are processed by the Purchasing &amp; Contracting section of A&amp;MM and obligated by Fiscal Service.</td>
</tr>
<tr>
<td>AMIS</td>
<td>Automated Management Information System.</td>
</tr>
<tr>
<td>Application Coordinator</td>
<td>The individuals responsible for the implementation, training and trouble-shooting of a software package within a service. IFCAP requires there be an Application Coordinator designated for Fiscal Service, Supply Service, and for the Control Points (Requesting Services).</td>
</tr>
<tr>
<td>Approve Requests</td>
<td>The use of an electronic signature by a Control Point Official to approve a 2237, 1358 or other request form and transmit said request to Supply/Fiscal.</td>
</tr>
<tr>
<td>Authorization</td>
<td>A charge to an obligated 1358. Each authorization represents a deduction from the balance of a 1358 to cover an expense. Authorizations are useful when you have expenses from more than one vendor for a single 1358.</td>
</tr>
<tr>
<td>Authorization Balance</td>
<td>The amount of money remaining that can be authorized against the 1358. The service balance minus total authorizations.</td>
</tr>
</tbody>
</table>
**Batch Number**
A unique number assigned by the computer to identify a batch (group) of Code Sheets. Code Sheets may be transmitted by Batch Number or Transmission Number.

**Breakout Code**
A set of A&MM codes which identifies a vendor by the type of ownership (e.g., Minority-owned, Vietnam Veteran Owned, Small Business Total Set Aside, etc.).

**Budget Analyst**
Fiscal employee responsible for distributing and transferring funds.

**Budget Object Code**
Fiscal accounting element that tells what kind of item or service is being procured. Budget object codes replace sub accounts in IFCAP V. 5.1. Budget object codes are listed in the left column of MP4 Part V, Appendix B-1.

**Budget Sort Category**
Used by Fiscal Service to identify the allocation of funds throughout their facility.

**Ceiling Transactions**
Funding distributed from Fiscal Service to IFCAP Control Points for spending. The Budget Analyst initiates these transactions using the Funds Distribution options.

**Classification of Request**
An identifier a Control Point can assign to track requests that fall into a category, e.g., Memberships, Replacement Parts, Food Group III.

**Common Numbering Series**
This is a pre-set series of Procurement and Accounting Transaction (PAT) numbers used by Purchasing and Contracting, Personal Property Management, Accounting Technicians and Imprest Funds Clerks to generate new Purchase Orders/Requisitions/Accounting Transactions on IFCAP. The Application Coordinators establish the Common Numbering Series used by each facility.

**Control Point**
Financial element, existing ONLY in IFCAP, which corresponds to the ACCS number in FMS. Also the division
of monies to a specified service, activity or purpose from an appropriation.

**Control Point Clerk**  
The user within the service who is designated to input requests (2237s) and maintain the Control Point records for a Service.

**Control Point Official**  
The individual authorized to expend government funds for ordering of supplies and services for their Control Point(s). This person has all of the options the Control Point Clerk has plus the ability to approve requests by using their electronic signature code.

**Control Point Official's Balance**  
A running record of all the transactions generated and approved for a Control Point. Provides information that shows the total amount of funds committed, obligated and remaining to be spent for a specified fiscal quarter.

**Control Point Requestor**  
The lowest level Control Point user, who can only enter temporary requests (2237s, 1358s) to a Control Point. This user can only view or edit their own requests. A Control Point Clerk or Official must make these requests permanent before they can be approved and transmitted to A&MM.

**Cost Center**  
“Subsection” of a Fund Control Point. Cost centers allow fiscal staff to create total expense reports for a section or service, and allow requestors to assign requests to that section or service. Cost centers are listed in the left column of MP-4 Part V, Appendix B-1.

**Cost Center**  
A subdivision of a Fund Control Point, which tells which service/section, is being charged for a request/order.

**Date Committed**  
The date that you want IFCAP to commit funds to the purchase.

**Default**  
A suggested response that is provided by the system.
<table>
<thead>
<tr>
<th>Term</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Deficiency</td>
<td>When a budget has obligated and expended more than it was funded (see MP-4, Part V, Section C).</td>
</tr>
<tr>
<td>Delinquent Delivery Listing</td>
<td>A listing of all the Purchase Orders that have not had all the items received by the Warehouse on IFCAP. It is used to contact the vendor for updated delivery information.</td>
</tr>
<tr>
<td>Direct Delivery Patient</td>
<td>A patient who has been designated to have goods delivered directly to him/her from the vendor.</td>
</tr>
<tr>
<td>Discount Item</td>
<td>This is a trade discount on a Purchase Order. The discount can apply to a line item or a quantity. This discount can be a percentage or a set dollar value.</td>
</tr>
<tr>
<td>eCMS</td>
<td>The VA’s electronic Contract Management System hosted at the Austin Information Technology Center in Austin, Texas.</td>
</tr>
<tr>
<td>EDI Vendor</td>
<td>A vendor with whom the VA has negotiated an arrangement to accept and fill orders electronically.</td>
</tr>
<tr>
<td>Electronic Data Interchange (EDI)</td>
<td>Electronic Data Interchange is a method of electronically exchanging business documents according to established rules and formats.</td>
</tr>
<tr>
<td>Electronic Signature</td>
<td>The electronic signature code replaces the written signature on all IFCAP documents used within your facility. Documents going off-station will require a written signature as well.</td>
</tr>
<tr>
<td>Expenditure Request</td>
<td>A Control Point document that authorizes the expenditure of funds for supplies and/or services (e.g., 2237, 1358, etc.).</td>
</tr>
<tr>
<td>FCP</td>
<td>Fund Control Point (see Control Point).</td>
</tr>
<tr>
<td>Federal Tax ID</td>
<td>A unique number that identifies your station to the Internal Revenue Service.</td>
</tr>
<tr>
<td>Fiscal Balance</td>
<td>The amount of money on a 1358 and any adjustments to that 1358 that have been obligated by Fiscal Service.</td>
</tr>
</tbody>
</table>
amount is reduced by any liquidation submitted against the obligation.

**Fiscal Quarter**
The fiscal year is broken into four three-month quarters. The first fiscal quarter begins on October 1.

**Fiscal Year**
Twelve-month period from October 1 to September 30.

**FMS**
Financial Management System, which has replaced CALM as the primary accounting system for administrative appropriations. FMS has a comprehensive database that provides for flexible on-line and/or batch processing, ad-hoc reporting, interactive query capability and extensive security. FMS is concerned with budget execution, general ledger, funds control, accounts receivable, accounts payable and cost accounting.

**FOB**
Freight on Board. An FOB of "Destination" means that the vendor has included shipping costs in the invoice, and no shipping charges are due when the shipper arrives at the warehouse with the item. An FOB of "Origin" means that shipping charges are due to the shipper, and must be paid when the shipper arrives at the warehouse with the item.

**FPDS**
Federal Procurement Data System.

**FTEE**
Full Time Employee Equivalent. An FTEE of 1 stands for 1 fiscal year of full-time employment. This number is used to measure workforces. A part-time employee that worked half days for a year would be assigned an FTEE of 0.5, as would a full-time employee that worked for half of a year.

**Fund Control Point**
CALM accounting element that is not used by FMS.

**Funds Control**
A group of Control Point options that allow the Control Point Clerk and/or Official to maintain and reconcile their

</tr>
</tbody>
</table>
items requested. Adequate justification must be given if the goods are being requested from other than a mandatory source.

**Liquidation**

The amount of money on the invoice from the vendor for the authorization. They are processed through payment/invoice tracking.

**LOG I**

LOG I is the name of the Logistics A&MM computer located at the Austin Data Processing Center. This system continues to support the Consolidated Memorandum of Receipt.

**Mandatory Source**

A Federal Agency that sells supplies and services to the VA. VA Supply Depot, Defense Logistics Agency (DLA), General Services Administration (GSA), etc.

**MSC Confirmation Message**

A MailMan message generated by the Austin Message Switching Center that assigns an FMS number to an IFCAP transmission of CALM Code Sheets.

**Obligation**

The commitment of funds. The process Fiscal uses to set aside monies to cover the cost of a Purchase Order.

**Obligation (Actual) Amount**

The actual dollar figure obligated by Fiscal Service for a Purchase Order. The Control Point's records are updated with actual cost automatically when Fiscal obligates the document on IFCAP.

**Obligation Data**

A Control Point option that allows the Control Point Clerk to enter data not recorded by IFCAP.

**Obligation Number**

The C-prefix number that Fiscal Service assigns to the 1358.

**Organization Code**

Accounting element functionally comparable to Cost Center, but used to organize purchases by the budget that funded them, not the purposes for spending the funds.

<td>----------------------</td>
<td>------------</td>
</tr>
<tr>
<td>Requestor</td>
<td>See “Control Point Requestor.”</td>
</tr>
<tr>
<td>Requisition</td>
<td>An order from a Government vendor.</td>
</tr>
<tr>
<td>Running Balance</td>
<td>A running record of all the transactions generated and approved for a Control Point. Provides information that shows the total amount of funds committed, obligated, and remaining to be spent for a specified fiscal quarter.</td>
</tr>
<tr>
<td>Section Request</td>
<td>A temporary request for goods and/or services entered by a Control Point Requestor. These requests may or may not be made permanent by the Control Point Clerk/Official.</td>
</tr>
<tr>
<td>Service Balance</td>
<td>The amount of money on the original 1358 and any adjustments to that 1358 when created by that service in their Fund Control Point. This amount is reduced by any authorizations created by the service.</td>
</tr>
<tr>
<td>SF-18</td>
<td>Request for Quotation.</td>
</tr>
<tr>
<td>SF-30</td>
<td>Amendment of Solicitation/Modification of Contract.</td>
</tr>
<tr>
<td>Short Description</td>
<td>A phrase that describes the item in the Item Master file. It is restricted to 3 to 60 characters and consists of what the item is, the kind of item, and the size of item (e.g., GLOVE-SURGICAL MEDIUM).</td>
</tr>
<tr>
<td>Site Parameters</td>
<td>Information (such as Station Number, Cashier's address, printer location, etc.) that is unique to your station. All of IFCAP uses a single Site Parameter file.</td>
</tr>
<tr>
<td>Sort Group</td>
<td>An identifier a Control Point can assign to a project or group of like requests. It is used to generate a report that will tell the cost of requests.</td>
</tr>
</tbody>
</table>
### Glossary

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Sort Order</strong></td>
<td>The order in which the budget categories will appear on the budget distribution reports.</td>
</tr>
<tr>
<td><strong>Special Remarks</strong></td>
<td>A field on the Control Point Request that allows the CP Clerk to enter information of use to the Purchasing Agent or vendor. This field can be printed on the Purchase Order.</td>
</tr>
<tr>
<td><strong>Stacked Documents</strong></td>
<td>The POs, RRs &amp; 1358s that are sent electronically to Fiscal and stored in a file rather than being printed immediately.</td>
</tr>
<tr>
<td><strong>Status of Funds</strong></td>
<td>Fiscal's on-line status report of the monies available to a Control Point. FMS updates this information automatically.</td>
</tr>
<tr>
<td><strong>Sub-control Point</strong></td>
<td>A specific budget within a Control Point, defined by a Control Point user.</td>
</tr>
<tr>
<td><strong>Sub-cost Center</strong></td>
<td>A subcategory of Cost Center. In IFCAP V. 5.1, the last two digits of the cost center, if anything other than &quot;00&quot; will be the 'sub-cost center' that is sent to FMS. IFCAP will not use a 'sub-cost center' field, but will send FMS the last two digits of the cost center as the FMS 'sub-cost center' field, unless the last two digits of the cost center are '00'.</td>
</tr>
<tr>
<td><strong>Tasked Job</strong></td>
<td>A job, usually a printout that has been scheduled to run at a predetermined time. Tasked jobs are set up to run without having a person watching over them.</td>
</tr>
<tr>
<td><strong>TDA</strong></td>
<td>See &quot;Transfer of Disbursing Authority.&quot;</td>
</tr>
<tr>
<td><strong>Total Authorizations</strong></td>
<td>The total amount of the authorizations created for the 1358 obligation.</td>
</tr>
<tr>
<td><strong>Total Liquidations</strong></td>
<td>The total amount of the liquidation against the 1358 obligation.</td>
</tr>
</tbody>
</table>
Transaction Number: The number of the transaction that funded a Control Point (See Budget Analyst User's Guide). It consists of the Station Number - Fiscal Year - Quarter - Control Point - Sequence Number.

Transmission Number: A sequential number given to a data string when it is transmitted to the Austin DPC; used for tracking message traffic.

Type Code: A set of A&MM codes that provides information concerning the vendor size and type of competition sought on a purchase order.

Vendor file: An IFCAP file of vendors solicited by the facility. This file contains ordering and billing addresses, contract information, FPDS information and telephone numbers. File 440 contains information about the vendors solicited by your station. The debtor's address may be drawn from this file, but is maintained separately. If the desired vendor is not in the file, contact A&MM Service to have it added.

Vendor ID Number: The ID number assigned to a vendor by FMS.

VRQ: FMS Vendor Request document. When users send vendor information to FMS, FMS sends a VRQ document to IFCAP with the vendor information, ensuring that the information in the IFCAP vendor file matches the information in the FMS vendor table.
