## Revision History

Date	Revision	Description	Author
August 2005	1	Patch IB*2*296	M. Simons
July 2006	1.1	Patch IB*2*320	M. Simons
February 2007	1.2	Patches IB*2*343, 348 and 349	C. Smith M. Simons
July 2007	1.3	Patch IB*2*374	C. Smith
November 2007	1.4	Patch IB*2*368 and 371	S. Hooper M. Simons
May 2008	1.5	Patch IB*2*377	M. Simons
February 2009	1.6	Patch IB*2*400	M. Simons
November 2010	1.7	Patch IB*2*436 – Section 4 and Section 4.5.3.1 Also replaced references to Emdeon and Express Bill with “clearinghouse”	M. Simons B. Anderson
January 2011	1.8	Edits by Training Department and removed reference to patch IB*2*433	B. Anderson
May 2011	1.9	Patch IB*2*433 – Section 6.7	M. Simons B. Anderson
September 2011	1.10	Patch IB*2*432 Revised Sections: 1, 2, 4, 6 Added Sections: 7 and 8	M. Simons B. Anderson
March 2012	1.11	Patch IB*2*447 and PRCA*4.5*275 Revised Sections: 6, 7	B. Anderson M. Simons C. Minch
March 2014	1.12	Patch IB*2.0*476 Revised Sections: 4.4.1, 4.5.3	T. Reed
August 2014	2.0	Patch IB*2*488 (Build 1) Revised Sections: 2.1.1.1. (Steps 1 & 2), 2.2.1, 4.4.1 (Steps 5 & 9), 6.2.2, 6.6.1, 6.7 (note after Step 5), 6.8 (note after Step 5), 6.9 (notes after Steps 6 & 7), 6.10, 9.3.16, Appendix A & B General grammar, spelling and format changes applied	M. Simons FirstView
January 2015	2.1	Patch IB*2*521 Revised EDI Parameter Report Section 9.3.14, Appendix B	M. Windsor A. Fink
April 2015	2.2	Patch IB*2*516 Revised Sections: 2.1.1.1, 2.1.1.2, 2.1.2, 3, 3.1, 4.4.1, 6.2.3, 6.2.3.1, 6.2.3.2, 6.3.2, 5.7, 6.7, 6.8, 6.9, 6.10, 6.11, 6.12, 72, 7.2.1, 9.3.14, 9.3.16, 9.3.17	M. Simons M. Windsor

<b>Date</b>	<b>Revision</b>	<b>Description</b>	<b>Author</b>
April 2015	2.3	IOC Exit Review Patch IB*2*516 Revised Sections: 6.11, 6.2.3.1, 6.2.3.2, 6.3.2, 9.2.3	M. Simons
August 2016	2.4	Patch IB*2*547 Revised Sections: 2.1.1.1, 2.1.2, 6.2.4 and all sub-sections, 6.3.3, 6.7, 6.9, 6.10, 6.14, 7.2, 8., 9.3, 9.4, 9.5, 10.2.1, 10.3.16, 10.3.17, 10.3.19, Appendix B	M. Simons
August 2016	2.5	Patch IB*2*549 Revised Sections: 2.1.1.2, 2.1.2, 5.1.1	D. White
July 2017	2.6	Patch IB*2*576 Added sub-sections 6.2.5 and 6.3.4	M. Simons
October 2017	2.7	Patch IB*2*577 Added sub-section 10.3.20, Modified sub-section 6.2.3.2 and 6.7 and 6.8	M. Simons
October 2018	2.8	Patch IB*2*592 Added sections 6.3.5, 6.9 and 9.6. Modified sections/sub-sections 2.1.1.1, 2.1.1.2, 2.1.2, 2.1.3, 4.0, 4.1, 4.3.2, 4.5, 6.1, 6.4, 6.6.1, 6.15, 7.2, 10.3.16, 10.3.18, 10.3.20, 11 and 12	M. Simons A. DeBacker
April 2019	2.9	Patch IB*2*608 Added section 9.7. Revised sections/subsections: 2.1.2, 2.1.3. 3, 3.1, 3.2, 3.3, 6.2.3.1, 6.3.6, 6.4, 6.15, 6.8, 9.1 and 10.3.17	A. DeBacker

# 1. Introduction

In 1996, Congress passed into law the Health Insurance Portability and Accountability Act (HIPAA). This Act directs the federal government to adopt national electronic standards for automated transfer of certain healthcare data between healthcare payers, plans, and providers. Now that these standards are in place, the Veterans Health Administration (VHA) will submit claims containing the required standard data content to all payers accepting electronic data interchange (EDI).

## 1.1. Revenue Process

The overall patient billing revenue process for the VHA is summarized in the table below:

<b>Intake</b>	<b>Utilization Review</b>	<b>Billing</b>	<b>Collection</b>	<b>Utilization Review</b>
Patient Registration Insurance Identification Insurance Verification	Pre-certification & Certification Continued Stay	Documentation EDI Bill Generation MRA Claim status messages	Establish Receivables A/R Follow-up Lockbox Collection Correspondence	Appeals

During the Intake phase, the patient is registered. Insurance information is identified and/or verified.

In the Utilization Review phase, the patient is pre-certified and certified, and continued stay reviews are performed.

In the Billing phase, the patient encounter is documented and coded. An electronic data interchange (EDI) bill and/or Medicare Remittance Advice (MRA) request is generated and sent to the payer. Claim status messages include information that appears on the Claims Status Awaiting Resolution (CSA) report.

During the Collections phase, establishment of receivables, accounts receivables follow-up, lockbox, and any collection correspondence take place.

Another Utilization Review can take place if there are any appeals.

EDI Billing provides the VHA with the capability to submit Institutional and Professional claims electronically as 837 Health Care Claim transmissions, rather than printing and mailing claims from each facility.

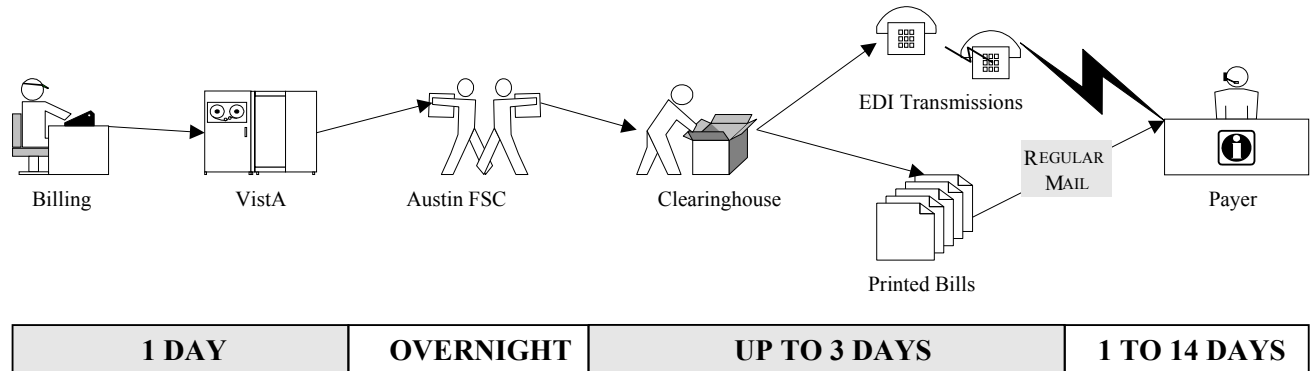

## 1.2. Critical EDI Process Terms

Also see APPENDIX B – GLOSSARY.

- **835 Health Care Claim Payment/Advice** – The HIPAA adopted standard for electronic remittance advice to report the processing of all claim types (including retail pharmacy). The term “835” represents the data set that is sent from health plans to healthcare providers and contains detailed information about the processing of the claim. This includes payment information and reduction or rejection reasons. All health plans are required to use the same explanation of benefit codes (adjustment reason codes) and adhere to very specific reporting requirements. The term “835” is used interchangeably with Electronic Remittance Advice (ERA) and Medicare Remittance Advice (MRA).
- **837 Health Care Claim** – The HIPAA adopted standard for electronic submission of hospital, outpatient and dental claims. The term “837” represents the data set that is sent from healthcare providers to insurance companies (payers). The 837 standard includes the data required for coordination of benefits and is used for primary and secondary payer claims submission. The term “837” is used interchangeably with electronic claim.
- **277 Claim Status Messages** – Electronic messages returned to the VAMC providing status information on a claim from the Financial Service Center (FSC) in Austin, Texas. These messages can originate at FSC, at the payer or at the clearinghouse.
- **Clearinghouse** – A company that provides batch and real-time transaction processing services and connectivity to payers or providers. Transactions include insurance eligibility verification, claims submission processing, electronic remittance processing and payment posting for electronic claims.
- **eClaim** – A claim that is transmitted electronically to FSC from the VHA.
- **EDI – Electronic Data Interchange (EDI)** is the process of transacting business by exchanging data electronically. It includes submitting claims electronically (paperless claims processing), as well as electronic funds transfer (EFT) and electronic inquiry for claim status and patient eligibility.
- **EOB – An Explanation of Benefits (EOB)** reports the disposition of an individual claim. Many EOBs may be contained within a single 835 ERA file.
- **ePayer** – Payer that accepts electronic claims from the clearinghouse.
- **Fiscal Intermediary** – A fiscal intermediary performs services on behalf of health-care payers. These services include claim adjudication, reimbursement and collections. Trailblazer Health Enterprises is an example of a fiscal intermediary that acts on behalf of Medicare. Trailblazer receives claims from the VA in the form of an 837 file and then adjudicates the claims to create a MRA 835 file.
- **FSC** – The FSC receives 837 Health Care Claim transmissions from VistA and transmits this data to the clearinghouse. FSC also receives error/informational messages and 835 Health Care Claim Payment/Advice transmissions from the clearinghouse and transmits this data to VistA.
- **HIPAA** – In 1996, Congress passed into law the Health Insurance Portability and Accountability Act (HIPAA). This Act is comprised of two major legislative actions: Health Insurance Reform and Administrative Simplification. The Administrative Simplification provisions of HIPAA direct the federal government to adopt national electronic standards for automated transfer of certain healthcare data between health-care payers, plans, and providers. This enables the entire healthcare industry to communicate electronic data using a single set of standards, thus eliminating all non-standard formats currently in use. Once these standards are in place, a healthcare provider will be able to submit a standard transaction for eligibility, authorization, referrals, claims, or attachments containing the same standard data content to any health plan. This will "simplify" many clinical, billing, and other financial applications, and reduces costs.

- ASC X12 (also known as ANSI ASC X12) – This is the official designation of the U.S. national standards body for the development and maintenance of Electronic Data Interchange (EDI) standards. The HIPAA transactions are based upon these standards.

### 1.3. EDI Process Flow

The above flowchart (EDI Process Flow) represents the path that electronic claims follow. The objective of electronic billing is to submit completely correct claims. Claims sent electronically reach the payer faster, are processed faster, and are paid faster than claims submitted to the payer on paper via the mail.

From the user's desktop, the claim goes to the FSC as a VistA Mailman message. The FSC translates the claim into the HIPAA 837 Health Care Claim format and forwards it to the clearinghouse.

From the clearinghouse, the arrow pointing upwards represents the path claims travel if they can be submitted electronically to the payer. If the clearinghouse does not have an electronic connection with a payer, or if specific claims must be submitted on paper, the claim is printed at Express Bill and mailed to the payers.

Electronic claims status messages from ePayers return to the VAMCs along the same path. Payers receiving printed claims do not return electronic messages. However, the clearinghouse returns a message indicating that the claim was printed and mailed.

Different electronic edits are in place at each transmission point that may initiate the sending of a claims status message. Claim status messages returned by the clearinghouse and/or payer will provide information on a specific claim. There is no standard content for messages. The information contained within a claim status message varies from payer to payer.

## 2. Insurance Company Set-up

The most common cause of claims rejection is the improper setup of the insurance company and/or provider IDs within VistA. With EDI Billing, there are fields in an 837 claim transmission that are auto-populated with the data defined in VistA. This information must be accurate to generate a clean electronic claim.

### 2.1. Insurance Company Setup

#### 2.1.1 Activate New Payer to Transmit eClaims

The typical business process for setting up new payers is:

1. The Insurance Verification Office initially enters a new payer into VistA.
2. Lists of new payers are printed and provided to the medical center's billing office on a regular basis (daily/weekly). Some individuals become members of the IB New Insurance mail group so they receive e-mail bulletins whenever a new insurance policy is added to VistA.
3. Billing staff uses the Insurance Company Editor to define Provider IDs: Type of Coverage; Electronic Insurance Type and Electronic Transmit? by Insurance Company. The Profession/Institutional Payer Primary and Secondary IDs are also defined using the Insurance Company Editor.
4. Billing staff use The Insurance Company Editor to specify the correct Electronic Plan Type for each Insurance Plan.

	Note: Selecting the correct electronic plan type is important. This field may determine which provider IDs are transmitted and/or printed. Choosing the wrong electronic plan type for an Insurance Plan could result in claims being rejected by the clearinghouse <i>or by the payer</i> .
	Note: When Patch IB*2*477 is installed and a claim is authorized with more than one payer, a warning is displayed unless all the Payer IDs are on the claim.
	Note: When Patch IB*2*576 is installed and a claim is sent without a Payer ID and the clearing house returns a Payer ID in the 277Stat messages that deliver clearing house claims reports, the system will update the Payer ID in the Insurance Company file if the field is BLANK. Refer to the new HCCH Payer ID Report for further detail.

##### 2.1.1.1 Define EDI settings for a Blue Cross/Blue (BC/BS) Shield Insurance Company

Step	Procedure
1	At the Billing Parameters screen in the Insurance Company Editor, enter <b>BP – Billing/EDI Param.</b>

Insurance Company Editor		Oct 01, 2007@10:15:14	Page: 1 of 9
Insurance Company Information for: BLUE CROSS			
Type of Company: HEALTH INSURANCE	Currently Active

PA Payer	CC Change Insurance Co.	

Select Action: Next Screen//BP Billing/EDI Param

	<i>Note: When Patch IB*2*488 is installed and users create a new Insurance Company, the system will set the value of the EDI – Transmit? field in the Insurance Company Entry/Edit option, equal to YES-LIVE.</i>
	<i>Note: When Patch IB*2*592 is installed, there will be a new Dental Payer Primary ID field. This will make it possible to route Dental claims to a different entity for processing dental claims than Institutional or Professional claims.</i>
	<i>Note: When Patch IB*2*592 is installed, the initial Insurance Company screen will no longer have Actions for modifying each Insurance Company address. Instead, the addresses have been moved to their own Listman screen and there will be a new Action for defining an address, telephone number and FAX number for Dental claims.</i>

The following prompts will display.

```

SIGNATURE REQUIRED ON BILL?: NO//
REIMBURSE?: WILL REIMBURSE//

EDI - Alt Prof Payer Primary ID Type:
EDI - 1ST Prof Payer Sec. ID Qualifier:

```

```
EDI - Dental Payer Primary ID:  
EDI - Insurance Type: GROUP POLICY //  
EDI - Print Sec/Tert Auto Claims?:  
EDI - Print Medicare Sec Claims w/o MRA?:YES//  
EDI - Bin Number: .....
```

Step	Procedure
	Patch IB*2.0*320 added a new security key, <b>IB EDI INSURANCE EDIT</b> . A user must hold this key to edit the EDI-Transmit, EDI Prof Payer ID; EDI Inst Payer ID and EDI-Insurance Type fields.
2	At the <b>EDI - Inst Payer Primary ID</b> : prompt, enter the <b>Payer Primary ID</b> provided by the clearinghouse.
	Patch IB*2.0*488 will make changes that prevent a user from entering any value containing PRNT/prnt as a Primary Payer ID.
	When editing the Payer Primary ID fields for a commercial payer, (not BC/BS) these fields may be left blank. The clearinghouse will try to match the VistA payer name and address to an entry in its Payer Lookup Table and auto-populate these fields. Payer ID numbers are available at <a href="https://access.emdeon.com/PayerLists/">https://access.emdeon.com/PayerLists/</a> .
3	At the <b>EDI - 1ST Inst Payer Sec. ID Qualifier</b> : prompt, press the <Enter> key to leave field blank.
	Patch IB*2*371 added the ability to define Payer Secondary IDs. They are unusual and should only be populated if the clearing house or eBusiness Solutions Office provides you with a secondary ID number.
4	At the <b>EDI - Prof Payer Primary ID</b> : prompt, enter the <b>Payer Primary ID</b> provided by the clearinghouse.
5	At the <b>EDI - 1ST Prof Payer Sec. ID Qualifier</b> : prompt, press the <Enter> key to leave field blank.
6	At the <b>EDI - Insurance Type</b> : prompt, enter ?? to see the choices available. For this example, select <b>Group Policy</b> . This will result in a checkmark in the GROUP insurance box of the CMS-1500/BOX 1.
7	Press the <Enter> key until the Billing Parameters screen reappears.
	When Patch IB*2*371 is loaded, the patch will automatically define a Professional Payer Secondary for Medicare WNR that will have a Qualifier = Payer ID Number and an ID = VA plus the site's ID.

```

EDI - Transmit?: YES-LIVE//
EDI - Inst Payer Primary ID: 12M61//
EDI - Alt Inst Payer Primary ID Type:
EDI - 1ST Inst Payer Sec. ID Qualifier:
EDI - Prof Payer Primary ID: SMTX1//
EDI - Alt Prof Payer Primary ID Type:
EDI - 1ST Prof Payer Sec. ID Qualifier: PAYER ID #//
EDI - 1ST Prof Payer Sec. ID: VA442//

```

	Patch IB*2*432 added the ability to define whether or not the payer will accept MRA secondary claims electronically when the primary claim was never sent to Medicare and no MRA was ever received. When the patch is loaded, this field will be set to '0' which means that the claims will be transmitted electronically unless this field is changed by the site. This only pertains to claims that cannot be submitted thru MRA due to the service being on the Payer Excluded Service list.
	Patch IB*2*432 added the ability to define whether or not the payer will accept MRA secondary claims electronically when the primary claim was never sent to Medicare and no MRA was ever received. When the patch is loaded, this field will be set to '0' which means that the claims will be transmitted electronically unless this field is changed by the site.
	Note: Once Patch IB*2*516 is installed, a new field, HPID/OEID, will display in the EDI Parameters section. <b>The field will not be editable.</b> The HPID or OEID number will come

	<i>from the National Insurance File.</i>
--	--

EDI - Dental Payer Primary ID: EDI - Insurance Type: GROUP POLICY // EDI - Bin Number: EDI - UMO (278) ID: EDI - Print Sec/Tert Auto Claims?: EDI - Print Medicare Sec Claims w/o MRA?:
--

### 2.1.1.2 Define EDI settings for a Blue Cross/Blue Shield Group Insurance Plan

Step	Procedure
1	At the Billing Parameters Screen in the Insurance Company Editor, enter <b>VP -View Plans</b> and press the <Enter> key.

## 2.1.2 Activate Existing Commercial Payer to Transmit eClaims

To activate an existing payer to receive electronic claims, use the Billing Parameters screen in the Insurance Company Editor. The **EDI - Transmit?** field on this screen must be set to **YES-LIVE**. In the Live mode, bills are automatically sent electronically and cannot be printed until the confirmation of a receipt message has been received from the FSC.

Follow these steps to change the **EDI - Transmit?** Field:

Step	Procedure
1	On the Billing Parameters screen in the Insurance Company Editor, type <b>BP</b> and press the <b>&lt;Enter&gt;</b> key.

```

Step	Procedure
	<i>Patch IB*2.0*320 added a new security key, <b>IB EDI INSURANCE EDIT</b>. A user must hold this key to edit the EDI-Transmit, EDI Prof Payer ID; EDI Inst Payer ID and EDI-Insurance Type fields.</i>
2	At the <b>EDI - Transmit?</b> field, make sure the field is defined as <b>YES-LIVE</b> .
3	At the <b>EDI - Insurance Type</b> field, enter the correct response for the Insurance Company being edited. For this example, the correct Electronic Insurance Type is <b>Group</b> .
	<i>Except for the testing of Primary BC/BS and some secondary end to end claims, it is no longer necessary to change the <b>EDI - Transmit?</b> field to <b>YES-TEST</b>. Instead, use the new option, <b>RCB – View/Resubmit Claims-Live or Test</b>. Refer to <b>Section 4</b>.</i>
	<i>Note: Once Patch IB*2*516 is installed, a new field, HPID/OEID, will display in the EDI Parameters section. <b>The field will not be editable</b>. The HPID or OEID number will come from the National Insurance File.</i>
	<i>Note: Patch IB*2*547 will add a field, UMO (278)ID, to the EDI Parameters section which will allow users to define a primary payer identification number which will be transmitted in ASC X12N 5010 Health Care Services Review – Request for Review and Response (278) transactions.</i>
	<i>Note: Patch IB*2*547 will add the fields, EDI - Alt Inst Payer Primary ID Type, EDI - Alt Inst Payer Primary ID, EDI - Alt Prof Payer Primary ID Type and EDI - Alt Prof Payer Primary ID, to the EDI Parameters section which will allow users to define one or more primary payer identification numbers which will be transmitted in ASC X12N 5010 Health Care Claims (837) transactions which need to be routed to contractors who adjudicate specific claim types such as claims for durable medical equipment (DME).</i>

	<i>Note: Patch IB*2*592 will add the ability to define an EDI - Dental Payer Primary ID. The ID will then be used on Dental Claims when they need to be routed to a different entity than institutional or professional claims.</i>
	<i>Note: Patch IB*2*608 will no longer provide the ability to select 0 - NO for EDI – Transmit.</i>

### 2.1.3 Activate Existing Payer to Test Primary Blue Cross/Blue Shield eClaims

Blue Cross and Blue Shield payers require the submission of test claims before accepting live claims. A member of the eBilling Team contacts someone at the facility to coordinate this testing.

*When testing the electronic submission of secondary claims using the RCB – View/Resubmit Claims-Live or Test, it is not necessary to change Electronic Transmit? to YES-TEST nor is it necessary to print and mail claims sent using RCB.*

If an eBilling Team member, request claims submitted electronically as a Live test enables the BC/BS payer to receive primary claims electronically but in a testing mode, use the Billing Parameters screen in the Insurance Company Editor. The **EDI -Transmit?** field on this screen must be set to **YES-TEST**. In testing mode, bills are automatically sent electronically and cannot be printed until the confirmation of receipt message has been received from the FSC.

The following steps show you how to change the **Electronic Transmit?** field:

Step	Procedure
1	On the Billing Parameters screen in the Insurance Company Editor, type <b>BP</b> and press the <b>&lt;Enter&gt;</b> key.

### 3. Pay-to Provider(s) Set-up

Each VA database can have one or more Pay-to Providers. Each VA database must have at least one Pay-to Provider. A Pay-to Provider is the entity which is seeking payment for a claim (who will receive the payment). The Pay-to Provider does not need to have a physical location. It can have a street address or a Post Office Box number.

With Patch IB\*2\*516, sites will gain the ability to define a second set of Pay-to Providers to be used on claims with the Rate Type of TRICARE REIMB. or TRICARE. To define the Non-MCCF Pay-to Providers, the steps are the same as the following steps for regular Pay-to Providers. A new section has been added to the IB Site Parameters.

With Patch IB\*2\*608, sites will gain the ability to define the Rate Type to be used for Non-MCCF Pay-To Providers (formerly the TRICARE Pay-To Providers) address. The system will use the Non-MCCF Pay-To address data on claims with specified Rate Types only when the Non-MCCF Pay-To Providers address is not the same as the billing Pay-To Providers address.

### 3.1. Define Default Pay-to Provider

Step	Procedure
	<i>Note: With Patch IB*2*516, two new Security Keys have been added: <b>IB EDIT PAY-TO</b> and <b>IB EDIT PAY-TO TC</b>. Users must be assigned these keys before adding or editing a Pay-to Provider.</i>
1	Access the option <b>SITE→MCCR Site Parameter Display/Edit</b> .
2	From the <b>MCCR Site Parameters</b> screen, enter the action: <b>IB Site Parameters</b> .
3	Press the <b>&lt;Enter&gt;</b> key for Next Screen until Page 2 is displayed.
4	From the <b>IB Site Parameters</b> screen, enter the action: <b>EP Edit Set</b> .
5	Enter the number <b>11</b> .
6	From the <b>Pay-to Providers</b> screen, enter the action: <b>AP Add Provider</b> .
7	From the <b>Enter Pay-to Provider:</b> prompt, enter <b>CHEYENNE VAMC</b> for this example.
	<i>Note: A Pay-to Provider should be a VAMC level facility with a valid NPI. The Pay-to Provider can be an institution outside your own database. Example: VAMC A could process payments for services provided by VAMC B.</i>
8	At the <b>Are you adding 'CHEYENNE VAMC' as a new PAY-TO PROVIDERS (the 1ST for this IB SITE PARAMETERS)? No//</b> prompt, enter <b>YES</b> for this example.
9	At the <b>Pay-to Provider Name</b> prompt, press the <b>&lt;Enter&gt;</b> key to accept the default name from the Institution file.
10	At the <b>Pay-to Provider Address Line 1</b> prompt; press the <b>&lt;Enter&gt;</b> key to accept the default address from the Institution file.
11	At the <b>Pay-to Provider Address Line 2</b> prompt; press the <b>&lt;Enter&gt;</b> key to accept the default address from the Institution file.
12	At the <b>Pay-to Provider City</b> prompt; press the <b>&lt;Enter&gt;</b> key to accept the default City from the Institution file.
13	At the <b>Pay-to Provider State</b> prompt; press the <b>&lt;Enter&gt;</b> key to accept the default State from the Institution file.
14	At the <b>Pay-to Provider Zip Code</b> prompt; press the <b>&lt;Enter&gt;</b> key to accept the default ZIP from the Institution file.
15	At the <b>Pay-to Provider Phone Number</b> prompt; enter the <b>Phone Number</b> that a payer should use to contact the site.
16	At the <b>Pay-to Provider Federal Tax ID Number</b> prompt; press the <b>&lt;Enter&gt;</b> key to accept the default Tax ID.
	<i>Note: There will be a default Tax ID only when the institution selected as the Pay-to Provider is the same as the main division in the site's database. This is taken from the IB Site Parameters.</i>
	<i>Do not add your site's Tax ID if the Pay-to Provider is another VAMC. Make sure to obtain and enter the other site's Tax ID.</i>
	<i>Note: A Pay-to Provider does not have to have an actual street address. You can enter a P.O. Box as an address.</i>

### 3.2. Associate Divisions with non-Default Pay-to Provider

When adding a second Pay-to Provider, users will be prompted to make it the default Pay-to Provider, Is this the default Pay-To Provider? NO//. If users make the new Pay-to Provider the default provider, all divisions will be associated with the new default. If users do not make the new provider the default, then they will have to associate select divisions with the new Pay-to Provider.

Step	Procedure
	<i>Note: When there is more than one Pay-to Provider, users must associated divisions with the non-default Pay-to Provider(s).</i>
1	From the <b>Pay-to Providers</b> screen, enter the action <b>AS Associate Divisions</b> .

## 4. Provider ID Set-up

Payers require the use of a variety of provider identifiers on claims submitted for adjudication. Printed claim forms have boxes where these IDs can be printed.

The general term, Provider ID, can refer to an ID that belongs to a human being such as an Attending physician or it can refer to an ID that belongs to an organization that provides healthcare services to a veteran such as a VAMC or an outside laboratory. Both VA and non-VA people and organizations have IDs.

IDs have qualifiers that identify what type of ID is being transmitted. For example, a Blue Cross ID is transmitted with a qualifier (1A) which indicates that this number is a Blue Cross number. Appendix C has a list of qualifiers and which ones can be transmitted in which 837 records.

The NPI (National Provider Identifier) is a HIPAA requirement with a usage requirement date beginning May 23, 2007. It is transmitted on 837 records along with treating specialty taxonomies from the National Uniform Claims Committee (NUCC) published code list.

Patch IB\*2.0\*343 added the ability to define the NPI and Taxonomy Codes for the VAMC, Non-VA facilities and both VA and Non-VA human providers.

Patches IB\*2.0\*348 and 349 added the ability to print the NPI on the new UB-04 and CMS-1500 claim forms.

After Patch IB\*2\*436, old claims can be reprinted locally for legal purposes and sent to Regional Counsel even though the original claim was created prior to the requirement for providers to have an assigned NPI. A legal claim is defined as having a Billing Rate Type of “NO FAULT INS”, “WORKERS’ COMP”, or “TORT FEASOR”.

When Patch IB\*2.0\*432 is loaded, the Social Security Number (SSN) will no longer be transmitted in the 837 records as a human providers Primary ID. The NPI will be transmitted in the 837 Health Care Claim transmission as the Primary ID for both human providers and organizational providers such as the Billing Provider.

The HIPAA 837 transaction set includes a number of segments in which to transmit multiple IDs and qualifiers for a single claim. The list below indicates the VistA record name, the type of information being transmitted, the maximum number of IDs that can go in that record for one claim and if the IDs will print on a paper claim (P), transmit electronically (T), or do both (B).

Segment	Type of ID	Max # of IDs	(P)rint (T)ransmit (B)oth
PRV:9	Billing Provider Primary ID	1	B
PRV1:6	Pay-to Provider Primary ID	1	T
CI1A:2-17	Billing Provider Secondary IDs	8	B

## 4.2. Pay-to Provider IDs

### 4.2.1 Define the Pay-to Provider Primary ID/NPI

The Pay-to Provider NPI is not entered or maintained by Billing personnel. The Pay-to Provider NPI is retrieved from the Institution file (#4).

Beginning with Patch IB\*2\*432, the Pay-to Provider Primary ID is the NPI number of the site defined as the Pay-to Provider. The Federal Tax Number is defined when the Pay-to Provider is defined, but will no longer be used as the Primary ID. Refer to **Section 3.1**.

### 4.2.2 Define the Pay-to Provider Secondary IDs

With Patch IB\*2\*400, the CIIB segment was added to the outbound 837 claim transmission map to transmit Pay-to Provider Secondary IDs if the need should arise in the future. The CIIB segment was removed with Patch IB\*2\*432.

## 4.3. Billing Provider IDs

The Billing Provider Primary ID and the Billing Provider Secondary IDs are IDs that identify the facility at which the patient service was provided. This is a facility with a physical location (street address). The

Billing Provider on a claim must be one of the following Facility Types that have been assigned NPI numbers:

- CBOC – Community Based Outpatient Clinic
- HCS – Health Care System
- M&ROC – Medical and Regional Office Center
- OC – Outpatient Clinic (Independent)
- OPC – Out Patient Clinic
- PHARM – Pharmacy
- VAMC – VA Medical Center
- RO-OC – Regional Office – Outpatient Clinic

When care is provided at any other facility type (i.e. a mobile unit), the Billing Provider becomes the Parent facility as defined in the Institution file (#4) and the mobile unit becomes the Service Facility.

With Patch IB\*2\*432, the name for the Billing Provider on a claim is extracted from the new Billing Facility Name field (#200) of the Institution file (#4). If this field is not populated, the IB software continues to extract the name from the .01 field of the Institution file.

#### 4.3.1 Define the Billing Provider Primary ID/NPI

For all claims generated by the VA, the Billing Provider Secondary ID is the Federal Tax Number of the site. Once defined, the IB software will automatically assign this ID to a claim.

The Billing Provider NPI is the Billing Provider Primary ID. The Billing Provider NPI is defined in the Institution file. Once defined, the IB software automatically assigns this ID to a claim.

The VA Billing Provider NPI and Taxonomy Code will not be entered or maintained by Billing personnel. Users may change the default Billing Provider taxonomy code for a claim but users cannot change the Billing Provider NPI.

Step	Procedure
1	Access the option <b>SITE→MCCR Site Parameter Display/Edit.</b>
2	From the <b>MCCR Site Parameters</b> screen, enter the action: <b>IB Site Parameters.</b>
3	Press the <b>&lt;Enter&gt;</b> key for Next Screen until Page 2 is displayed.
4	From the <b>IB Site Parameters screen</b> , enter the action: <b>EP Edit Set.</b>
5	Enter the number <b>9.</b>
6	At the <b>Federal Tax Number</b> prompt, enter the site's Federal Tax Number.

### 4.3.2 Define the Billing Provider Secondary IDs

The Billing Provider Secondary IDs are IDs and Qualifiers that are provided to a site by the insurance company. There can be a total of eight Billing Provider Secondary IDs per claim. The first ID is calculated by the system and used by the clearinghouse to sort claims. The second ID is always the site's Federal Tax ID, and the remaining six IDs must be defined by the IB staff if required.

Users can define one Billing Provider Secondary ID for a CMS-1500, and another for a UB-04 for the main division. If no other Billing Provider Secondary IDs are defined, these two IDs become the default IDs for all claims. At this time, there will not be any Billing Provider secondary IDs for Dental claims.

Billing Provider Secondary IDs can be defined by Division, Form Type, and Care Unit.

#### 4.3.2.1 Define Default Billing Provider Secondary IDs by Form Type

Step	Procedure
1	Access the option <b>MCCR SYSTEM DEFINITION MENU</b> → <b>Insurance Company Entry/Edit</b> .
2	At the <b>Select Insurance Company Name</b> : prompt, enter <b>Blue Cross of California</b> for this example.
3	From the <b>Insurance Company Editor</b> screen, enter the action: <b>ID Prov IDs/ID Param</b> .
4	From the <b>Billing Provider IDs</b> screen, enter the action <b>Add an ID</b> .
5	At the <b>Define Billing Provider Secondary IDs by Care Units?</b> No// prompt, press the <b>&lt;Enter&gt;</b> key to accept the default of No.
6	At the <b>Division</b> prompt, accept the default for the main Division.
7	At the <b>ID Qualifier: Electronic Plan Type</b> // prompt, enter <b>Blue Shield</b> to override the default value for this example.
	<i>Note: The default value for the Billing Provider Secondary ID Qualifier is still based upon the Electronic Plan Type of the patient's insurance plan. Users now have the ability to override this default.</i>
8	At the <b>Form Type</b> prompt, enter <b>CMS-1500</b> for this example.
9	At the <b>Billing Provider Secondary ID</b> prompt, enter the ID <b>XXXXXXXX1B</b> for this example.
10	Repeat these steps for the Form Type = <b>UB-04</b> , Qualifier = <b>Blue Cross</b> and ID = <b>XXXXXX1A</b> .
	<i>Note: Beginning with Patch IB*2*432, if no Billing Provider Secondary IDs are defined, the Federal Tax ID will no longer be used as a default value.</i>

```

Select Action: Quit//

```

#### 4.3.2.2 Define Billing Provider Secondary IDs by Division and Form Type

If an insurance company requires different Billing Provider Secondary IDs for each division, then users must define more than just the default IDs.

Step	Procedure
1	Access the option <b>MCCR SYSTEM DEFINITION MENU→Insurance Company Entry/Edit.</b>
2	At the <b>Select Insurance Company Name:</b> prompt, enter <b>Blue Cross of California</b> for this example.
3	From the <b>Insurance Company Editor</b> screen, enter the action <b>ID Prov IDs/ID Param.</b>
4	From the <b>Billing Provider IDs</b> screen, enter the action <b>Add an ID.</b>
5	At the <b>Define Billing Provider Secondary IDs by Care Units? No//</b> prompt, press the <b>&lt;Enter&gt;</b> key to accept the default of <b>No.</b>
6	At the <b>Division</b> prompt, override the default for the main division by entering the name of another division, <b>Remote Clinic</b> for this example.
7	At the <b>ID Qualifier: Electronic Plan Type//</b> prompt, enter <b>Blue Shield</b> to override the default value for this example.
8	At the <b>Form Type</b> prompt, enter CMS-1500 for this example.
9	At the <b>Billing Provider Secondary ID</b> prompt, enter the ID <b>1XXXXX1B</b> for this example.
10	Repeat these steps for the Form Type = <b>UB-04</b> , Qualifier = <b>Blue Cross</b> and ID = <b>1XXXXX1A</b> .
	<i>Note: Users may repeat these steps to define different Billing Provider Secondary IDs for each division if required by the insurance company.</i>

#### 4.3.2.3 Define Billing Provider Secondary IDs by Division, Form Type and Care Unit

If an insurance company requires different Billing Provider Secondary IDs for services provided by particular Care Units, users can define them by Division, Form Type, and Care Unit.

Step	Procedure
1	Access the option <b>MCCR SYSTEM DEFINITION MENU</b> → <b>Insurance Company Entry/Edit</b> .
2	At the <b>Select Insurance Company Name:</b> prompt, enter <b>Blue Cross of California</b> for this example.
3	From the <b>Insurance Company Editor</b> screen, enter the action <b>ID Prov IDs/ID Parameters</b> .
4	From the <b>Billing Provider IDs</b> screen, enter the action <b>Add an ID</b> .
5	At the <b>Define Billing Provider Secondary IDs by Care Units?</b> No// prompt, enter <b>YES</b> to override the default.
6	At the <b>Division</b> prompt, press the <Enter> key to accept the default for the <b>Main Division</b> .
7	At the <b>Care Unit:</b> prompt, enter ?? to see a pick list of available Care Units.
	<i>Refer to <b>Section 3.4.2</b> to learn how to create this list of available Care Units.</i>
8	At the <b>Care Unit:</b> prompt, enter <b>Anesthesia</b> for this example.
9	At the <b>ID Qualifier: Electronic Plan Type//</b> prompt, enter <b>Blue Shield</b> to override the default value for this example.
10	At the <b>Form Type</b> prompt, enter <b>CMS-1500</b> for this example.
11	At the <b>Billing Provider Secondary ID</b> prompt, enter the ID <b>11XXXX1B</b> for this example.
12	Repeat these steps for the Form Type = <b>UB-04</b> , Qualifier = <b>Blue Cross</b> and ID = <b>11XXXX1A</b> .
13	Repeat these steps for Care Units <b>Reference Lab</b> and <b>Home Health</b> .

Insurance Co: BLUE CROSS OF CALIFORNIA Billing Provider Secondary IDs

*If users want a default Billing Provider Secondary ID to populate Billing Screen 3, define a default ID for the division and define IDs for the division and specific care units. Users can then accept the default ID or override it with one of the Care Unit IDs during the creation of a claim.*

#### 4.3.2.4 Define Additional Billing Provider Secondary IDs by Division and Form Type

In addition to the Billing Provider Secondary ID that appears on Billing Screen 3 for each insurance company on the bill, there can be five additional Billing Provider Secondary IDs that will be transmitted with claims for an insurance company.

Prior to Patch IB\*2.0\*320, the IDs defined in IB Site Parameters, Section 14 and Provider ID Maintenance, Number 3, were transmitted with all claims to all payers. These options for defining IDs were removed with Patch IB\*2.0\*320.

If an insurance company requires additional Billing Provider Secondary IDs, users can define them in Insurance Company Entry/Edit.

Step	Procedure
1	Access the option <b>MCCR SYSTEM DEFINITION MENU</b> → <b>Insurance Company Entry/Edit</b> .
2	At the <b>Select Insurance Company Name:</b> prompt, enter <b>Blue Cross of California</b> for this example.
3	From the <b>Insurance Company Editor</b> screen, enter the action: <b>ID Prov IDs/ID Param</b> .
4	From the <b>Billing Provider IDs</b> screen, enter the action <b>Additional IDs</b> .
5	From the <b>Billing Provider IDs – Additional Billing Provider Sec. IDs</b> screen, enter the action <b>Add an ID</b> .
6	At the <b>ID Qualifier:</b> prompt, enter <b>Medicare</b> for this example.
	<i>Note: There cannot be two Billing Provider Secondary IDs on a claim with the same Qualifier. If you enter an ID with the same Qualifier here as one defined under Billing Provider Secondary IDs for the Division on a claim, the Additional Billing Provider Secondary ID with</i>

	<i>the same Qualifier will not be transmitted on the claim.</i>
7	At the <b>Form Type</b> prompt, enter <b>CMS-1500</b> for this example.
9	At the <b>Billing Provider Secondary ID</b> prompt, enter the ID <b>14XXXX1C</b> for this example.
10	Repeat these steps for the Form Type = <b>UB-04</b> , Qualifier = <b>Medicare</b> , ID = <b>14XXXX1C</b> .
	<i>Note: Users can repeat these steps to define multiple additional Billing Provider Secondary IDs if required by the insurance company.</i>

```

Form Type: UB-04
Billing Provider Secondary ID: XXXXXXXX11

```

#### 4.4. Service Facility IDs (Laboratory or Facility IDs)

The 837 claims transmission records contain Service Facility data like the name and address of a facility and primary and secondary IDs for that facility. Often this is an outside, non-VA facility. These IDs are called the Laboratory or Facility Primary ID and the Laboratory or Facility Secondary IDs.

If there is a non-VA facility on a claim because a veteran received care at an outside laboratory or a private hospital or clinic, an insurance company can require the claim to contain primary and secondary Laboratory or Facility IDs for the organization that provided the care.

If there is not an outside facility on a claim, but the care was provided by the VA at a facility such as a Mobile clinic, an insurance company can require the claim to contain primary and secondary Laboratory or Facility IDs for the clinic.

Patch IB\*2.0\*320 provided enhancements to allow users to more easily define Laboratory or Facility IDs for the VA or non-VA.

Beginning with Patches IB\*2.0\*348 and 349, the Service Facility NPI will be printed on locally printed CMS-1500 claims.

Beginning with Patch IB\*2.0\*400, the Service Facility loop will not be populated if the care was provided at a VA location that has an NPI such as a CBOC, VAMC or Pharmacy.

The non-VA Service Facility NPI and Taxonomy Code will be entered and maintained by Billing personnel.

#### 4.4.1 Define Non-VA Laboratory or Facility Primary IDs/NPI

For outside, non-VA facilities such as an independent laboratory, the Laboratory or Facility Primary ID should be the entity's NPI.

In addition to the Federal Tax ID, an NPI and one or more Taxonomy Codes can be defined for outside, non-VA facilities.

Step	Procedure
1	Access the option <b>MCCR SYSTEM DEFINITION MENU→Provider ID Maintenance</b> .
2	At the <b>Select Provider ID Maintenance Option:</b> prompt, enter <b>NF</b> for Non-VA Facility.
3	At the <b>Select a NON/Other VA Provider:</b> prompt, enter <b>IB Outside Facility</b> for this example.
4	From the <b>Non-VA Lab or Facility Info</b> screen, enter the action <b>FI</b> for Lab/Facility Info.
5	At the <b>Street Address:</b> prompt, enter <b>123 Westbend Street</b> for this example.
	Effective with Patch IB*2*488, only a physical street address may be entered (no post office box). Any entry that begins with "P.O." or "PO" or "Box" is prohibited.
6	At the <b>Street Address Line 2:</b> prompt, press the <b>&lt;Enter&gt;</b> key to leave blank.
7	At the <b>City</b> prompt, enter <b>Long Beach</b> for this example.
8	At the <b>State:</b> prompt, enter <b>California</b> for this example.
9	At the <b>Zip Code</b> prompt, enter <b>920601234</b> for this example.
	Effective with Patch IB*2*488, only a 9- or 10-digit ZIP code may be entered: 999999999/99999-9999.
	With 5010, claims must be submitted with a street address and a full nine-digit zip code when reporting a non-VA service facility locations
10	At the <b>Contact Name:</b> prompt, enter <b>IB,CONTACT O</b> for this example.
11	At the <b>Contact Phone Number:</b> prompt, enter <b>703-333-3333</b> for this example.
12	At the <b>Contact Phone Extension:</b> prompt, enter <b>123478</b> .
13	At the <b>ID Qualifier:</b> prompt, press the <b>&lt;Enter&gt;</b> key to accept the default.
14	At the <b>Lab or Facility Primary ID:</b> prompt, enter <b>11111112</b> .
15	At the <b>X12 Type of Facility:</b> prompt, enter <b>FA - Facility</b> for this example.
	<i>With Patch IB*2*371, FA will be sent as the Type of Facility on all institutional claims regardless of what is defined. HIPAA only allows FA on institutional claims.</i>
16	At the <b>Mammography Certification Number:</b> prompt, press the <b>&lt;Enter&gt;</b> key to leave it blank. If you know the Mammography number you can enter it here.

Step	Procedure
17	At the <b>NPI</b> : prompt, enter <b>XXXXXXXXXX</b> for this example.
	<i>Note: With Patch IB*2*516, users will have the ability to define a Non-VA Facility as a sole-proprietorship and link it to a human provider. If a facility is linked to a human provider, then the human's NPI may be used for both the human and the facility. The individual provider must be defined in VistA before he/she can be linked to the facility.</i>
18	At the <b>Select Taxonomy Code</b> : prompt, enter <b>954</b> for this example.
19	At the <b>OK?</b> Prompt, press the <b>&lt;Enter&gt;</b> key to accept the default.
20	At the <b>Are you adding 'General Acute Care Hospital' as a new TAXONOMY CODE (the 1ST for this IB NON/OTHER VA BILLING PROVIDER)? No//</b> prompt, enter <b>Yes</b> .
21	At the <b>Primary Code</b> : prompt, enter <b>Yes</b> for this example.
22	At the <b>Status</b> : prompt, enter <b>Active</b> .
23	At the <b>Select Taxonomy Code</b> : prompt, press the <b>&lt;Enter&gt;</b> key.
	<i>Note: With Patch IB*2*432, the ability to define the name of a contact person at the outside facility and the telephone number for that person will be available to users.</i>
24	At the <b>Allow future updates by FEE BASIS automatic interface? YES//</b> prompt, press the <b>&lt;Enter&gt;</b> key to accept the default. (Note: This question does not impact current functionality as this is part of Future Development)

#### 4.4.2 Define Non-VA Laboratory or Facility Secondary IDs

For outside, non-VA facilities, users can define multiple Laboratory or Facility Secondary IDs. These IDs can be either the facility's own IDs, such as a Clinical Laboratory Improvement Amendment (CLIA) number, or IDs assigned to the facility by an insurance company.

##### 4.4.2.1 Define a non-VA Facility's Own Laboratory or Facility Secondary IDs

Step	Procedure
1	Access the option <b>MCCR System Definition Menu→Provider ID Maintenance</b> .
2	At the <b>Select Provider ID Maintenance Option:</b> prompt, enter <b>NF</b> for Non-VA Facility.
3	From the <b>Non-VA Lab or Facility Info</b> screen, enter the action <b>LO</b> for Lab/Facility Own ID.
4	From the <b>Secondary Provider ID</b> screen, enter the action <b>AI</b> for Add an ID.
5	At the <b>Enter Provider ID Qualifier</b> prompt, enter <b>X5 CLIA Number</b> for this example.
6	At the <b>Form Type Applied to:</b> prompt, enter <b>CMS-1500 FORMS ONLY</b> for this example.
7	At the <b>Care Type:</b> prompt, enter <b>OUTPATIENT ONLY</b> for this example.
8	At the <b>Enter Lab or Facility Secondary ID</b> prompt, enter <b>DXXXXX</b> for this example.
	<i>Note: Users may repeat these steps to define more Laboratory or Facility Secondary IDs.</i>

```

#### 4.4.3 Define VA Laboratory or Facility Primary IDs/NPI

The VA Service Facility NPI and Taxonomy Code will not be entered or maintained by Billing personnel. Beginning with Patch IB\*2.0\*400, only those VA locations for which no NPI numbers were obtained, (i.e. MORC, CMOP) will populate the Service Facility. Because of this, there will usually be no VA Laboratory or Facility NPI in the 837 claim transmission.

#### 4.4.4 Define VA Laboratory or Facility Secondary IDs

For each insurance company, users can define multiple Laboratory or Facility Secondary IDs for the VA by division and form type.

Step	Procedure
1	Access the option <b>Patient Insurance Menu ...</b> → <b>Insurance Company Entry/Edit</b> .
2	At the <b>Select Insurance Company Name:</b> prompt, enter <b>Blue Cross of California</b> for this example.
3	From the <b>Insurance Company Editor</b> screen, enter the action <b>ID Prov IDs/ID Parameters</b> .
4	From the <b>Billing Provider IDs</b> screen, enter the action <b>VA-Lab/Facility IDs</b> .
5	From the <b>VA-Lab/Facility IDs</b> screen, enter the action <b>Add an ID</b> .
6	At the <b>Division</b> prompt, accept the default for the main Division.
7	At the <b>ID Qualifier:</b> prompt, enter <b>Blue Shield</b> for this example.
8	At the <b>Form Type</b> prompt, enter <b>CMS-1500</b> for this example.
9	At the <b>VA Lab or Facility Secondary ID</b> prompt, enter the ID <b>1212XX1B</b> for this example.
10	Repeat these steps for the Form Type = <b>UB-04</b> , Qualifier = <b>Blue Cross</b> and ID = <b>1212XX1A</b> .
11	Repeat these steps for the Form Type = <b>UB-04</b> , Qualifier = <b>Commercial</b> and ID = <b>1313XXG2</b> .
	<i>Note: Users may repeat these steps to define more Laboratory or Facility Secondary IDs. A maximum of 5 Laboratory or Facility Secondary IDs can be defined per division, form and insurance company.</i>

#### 4.5. Attending, Operating and Other Physicians and Rendering, Referring and Supervising Providers

A physician can appear on a UB-04 claim form as an Attending, Operating or Other Operating Physician. Beginning with Patch IB\*2\*432, Rendering and Referring Providers can also be added to an Institutional claim. A healthcare provider (physician, nurse, physical therapist, etc.) can appear on a 1500 claim form as a Rendering, Referring or Supervising Provider. Beginning with Patch IB\*2\*592 and the introduction of the Dental claim, an Assistant Surgeon can be added to a claim for dental services. Dental claims are a type of professional claim and can have a Rendering or Assistant Surgeon and/or a Referring and Supervising Provider.

All of these healthcare providers have a primary ID. Their primary ID is their NPI. These physicians/providers can also have multiple secondary IDs that are either their own IDs, or IDs provided by an insurance company.

The VA Physician's or Provider's NPI is stored in the New Person file. This file is not maintained by Billing personnel. The Non-VA Physician's or Provider's NPI is defined in Provider ID Maintenance.

A human provider's NPI is transmitted in the 837 Health Care Claim transmission, and since Patches IB\*2.0\*348 and 349 it is printed on locally printed claim forms.

All of these types of healthcare providers can be either VA or non-VA employees.

#### 4.5.1 Define a VA Physician/Provider's Primary ID/NPI

The VA Physician's or Provider's SSN and NPI are stored in the New Person file (#200). These IDs should be entered when the user is originally added to the system. The provider's Taxonomy code is entered along with the Person Class.

	<i>Note: Beginning with Patch IB*2*432, SSNs will continue to be defined in the New Person file for VA Providers and users may continue to define SSNs as secondary IDs for non-VA providers but VistA will no longer transmit SSNs as human providers' Primary IDs. There will no longer be a edit check in Enter/Edit Billing Information to insure that a provider's SSN is available.</i>
---	---

#### 4.5.2 Define a VA Physician/Provider's Secondary IDs

Physicians and Providers can have both their own ID, such as a state medical license, and an ID provided by an insurance company.

##### 4.5.2.1 Define a VA Physician/Provider's Own Secondary IDs

Physicians and other healthcare providers are assigned IDs that identify them. These IDs include an NPI which serves as their primary ID. In addition to their NPI, they may also have one or more of the following types of secondary IDs:

- OB – State License Number
- EI – EIN
- SY – SSN (VA SSNs are defined in the New Person file)
- X5 – State Industrial Accident Provider Number
- 1G – UPIN Number

Step	Procedure
1	Access the option <b>MCCR SYSTEM DEFINITION MENU→Provider ID Maintenance</b> .
2	At the <b>Select Provider ID Maintenance Option:</b> prompt, enter <b>PO</b> for Provider Own IDs.
3	At the <b>(V)A or (N)on-VA provider: V//:</b> prompt, press the <b>&lt;Enter&gt;</b> key to accept the default.
4	At the <b>Select V.A. PROVIDER NAME:</b> prompt, enter <b>IB,DOCTOR 1</b> .
	<i>This screen can be accessed through the <b>MCCR System Definition Menu</b>. Users must hold the <b>IB PROVIDER EDIT</b> security key to access this option.</i>
	<i>Note: With Patch IB*2*447, IB will prevent the user from authorizing a claim in which a human provider has an EIN or SSN consisting of anything other than nine digits.</i>

#### 4.5.2.2 Define a VA Physician/Provider's Insurance Company Secondary IDs

Physicians and other healthcare providers can be assigned secondary IDs by insurance companies. Some insurance companies assign one ID to be used by every physician/provider at a site. Other insurance companies assign each physician/provider his or her own ID. In addition to their NPI, they may also have one or more of the following types of secondary IDs:

- 1A - Blue Cross
- 1B - Blue Shield
- 1C - Medicare
- 1H - CHAMPUS
- G2 - Commercial
- LU - Location #
- N5 - Provider Plan Network
- 1G - UPIN

Step	Procedure
1	Access the option <b>MCCR SYSTEM DEFINITION MENU→Provider ID Maintenance.</b>
2	At the <b>Select Provider ID Maintenance Option:</b> prompt, enter <b>PI</b> for Provider Insurance IDs.
3	At the <b>(V)A or (N)on-VA provider: V//:</b> prompt, press the <Enter> key to accept the default.
4	At the <b>Select V.A. PROVIDER NAME:</b> prompt, enter <b>IB,DOCTOR 1.</b>
5	At the <b>Select Insurance Co.:</b> prompt, enter <b>Blue Cross of California</b> for this example.

#### 4.5.2.3 Define non-VA Physician and Provider Primary IDs/NPI

Non-VA physicians and other healthcare providers are not VistA users, so they are not normally in the New Person file unless they are also current/previous VA employees. Even if a physician/provider functions in both a VA and non-VA role, the SSN, NPI and Taxonomy Code of a non-VA Physician/Provider must be entered by Billing personnel using Provider ID Maintenance. Non-VA physician/provider primary and secondary legacy IDs are both defined the same way and the system uses the SSN as the primary ID. Refer to **Section 3.4.4.1**.

*Note: Non-VA Physician/Provider IDs can be defined through Provider ID Maintenance through PO > Provider Own IDS or through NP > Non- VA PROVIDER.*

#### 4.5.2.4 Define a non-VA Physician/Provider's NPI

The NPI and Taxonomy Code for a non-VA Physician or Provider can be entered by Billing personnel using Provider ID Maintenance.

Step	Procedure
1	Access the option <b>MCCR SYSTEM DEFINITION MENU→Provider ID Maintenance</b> .
2	At the <b>Select Provider ID Maintenance Option:</b> prompt, enter <b>NP</b> for Non-VA Provider.
3	At the Select a Non-VA Provider: prompt, enter <b>IB,OUTSIDEPROV</b> for this example.
	<i>When accessing an existing entry, press ENTER to continue or, if necessary, the spelling of the provider's name can be corrected at the NAME prompt. Names should be entered in the following format: LAST NAME,FIRST NAME MIDDLE INITIAL.</i>
	<i>Note: Beginning with Patch IB*2*436, it will be possible to enter a provider into the VA New Person file as a VA provider and then enter that same provider in Provider Maintenance as a non-VA provider using the same name. It will no longer be necessary to manipulate the name by adding a middle initial (for example).</i>
	<i>Users must hold the <b>IB PROVIDER EDIT</b> security key to access this option.</i>

### 4.5.3 Define a non-VA Physician/Provider's Secondary IDs

#### 4.5.3.1 Define a non-VA Physician/Provider's Own IDs

Non-VA Physicians and other healthcare providers are assigned IDs that identify them. After Patch IB\*2\*432, it is not necessary to define the outside provider's SSN. The SSN will no longer serve as the Primary ID. The Primary ID will be the provider's NPI. In addition to their provider's SSN, they may also have one or more of the following types of secondary IDs:

- OB – State License Number
- EI – EIN
- TJ – Federal Taxpayer's Number
- X5 – State Industrial Accident Provider Number
- 1G – UPIN
- SY – SSN

Step	Procedure
1	Access the option <b>MCCR SYSTEM DEFINITION MENU</b> → <b>Provider ID Maintenance</b> .
2	At the <b>Select Provider ID Maintenance Option:</b> prompt, enter <b>PO</b> for Provider Own IDs.
3	At the <b>(V)A or (N)on-VA provider: V//:</b> prompt, enter <b>N</b> for Non-VA provider.
4	At the <b>Select Non V.A. PROVIDER NAME:</b> prompt, enter <b>IB,OUTSIDEDOC</b> for this example.

#### 4.5.4 Define Insurance Company IDs

Both individual Physician/Provider secondary IDs and insurance company default Physician/Provider secondary IDs provided by an insurance company can be entered and copied from within Insurance Company IDs.

There are three options:

- I – Individual IDs
- A – Individual and Default IDs
- D – Default IDs

Option A is the basically the same as I and D combined, so users can add Physician/Provider secondary IDs and/or default secondary IDs.

##### 4.5.4.1 Define Default Physician/Provider Insurance Company Secondary IDs

Users can use the Provider ID Maintenance option, Insurance Company IDs, to enter numbers that are assigned by an insurance company to be used as default Attending, Operating, Other, Rendering, Referring and Supervising Secondary IDs for all physicians and healthcare providers. These IDs will be automatically sent with all 837 claims to the insurance company for which the default IDs are defined.

Step	Procedure
1	Access the option <b>MCCR SYSTEM DEFINITION MENU→Provider ID Maintenance</b> .
2	At the <b>Select Provider ID Maintenance Option:</b> prompt, enter <b>II</b> for Insurance Co IDs.
3	At the <b>Select Insurance Company Name:</b> prompt, enter <b>Blue Cross of California</b> for this example.
4	At the <b>Select Display Content:</b> prompt, enter <b>D</b> .

```

## 4.6. Care Units

Some insurance companies assign the same IDs to multiple Physician/Providers, based upon Care Units, to be used as *Physician/Provider Secondary IDs* on claims. This allows more than one person to have the same ID without everyone having the same ID.

**Example:** Insurance Company A assigns the number XXXXXX1 to a care unit called Care Unit A and assigns this number and care unit to Dr. A, Dr. B, Dr. C and Dr. E. as their Physician/Provider Secondary ID. The same insurance company assigns the number XXXXXX2 to a care unit called Care Unit B and assigns this number and care unit to Dr. F, Dr. G, Dr. H and Dr. I. as their Physician/Provider Secondary IDs.

Some insurance companies assign IDs to be used as *Billing Provider Secondary IDs* on claims for services performed for specific types of care.

Example: Insurance Company A assigns the number XXXXHH to be used as the Billing Provider Secondary ID (Billing Screen 3) when Home Health services are provided. The same insurance company assigns the number XXXXER as the Billing Provider Secondary ID (Billing Screen 3) when Emergency services are provided.

The names of the “care unit” used by insurance companies are specified by the insurance companies and do not relate directly to the medical services or departments of the medical center. For this reason, users must define these Care Units in Provider ID Maintenance.

### 4.6.1 Define Care Units for Physician/Provider Secondary IDs

Step	Procedure
1	Access the option <b>MCCR SYSTEM DEFINITION MENU→Provider ID Maintenance.</b>
2	At the <b>Select Provider ID Maintenance Option:</b> prompt, enter CP for Care Units for Providers.

Step	Procedure
3	At the <b>Select INSURANCE CO:</b> prompt, enter <b>Blue Cross of California</b> for this example.

## 4.7. ID Parameters by Insurance Company

In addition to defining Care Units and Physician/Provider IDs in Provider ID Maintenance, there are also ID parameters that can be set for an insurance company that effect which IDs get sent on 837 claims transmissions to an insurance company.

Users need to be aware of these parameters so they can be set *if needed*. They do not need to be set unless there is a specific need for a particular insurance company.

Step	Procedure
1	Access the option <b>Insurance Company Entry/Edit</b> .
2	At the <b>Select INSURANCE COMPANY NAME:</b> prompt, enter <b>BLUE CROSS OF CALIFORNIA</b> for this example.
3	From the <b>Insurance Company Editor</b> , enter the <b>Prov IDs/ID Param</b> action.

```

#### **4.7.1 Define Attending/Rendering Provider Secondary ID Parameters**

Users can define the type of ID that will be the default secondary ID for the Rendering Provider or Attending Physician during the creation of a claim.

A type of default secondary ID can be defined for a CMS-1500 claim and/or a UB-04 claim.

Users can also set a parameter that will make these IDs required on a claim. If they are required, and the physician/provider on the claim does not have a secondary ID of the type required, the claim cannot be authorized.

Attending/Rendering Provider Secondary ID Default ID (1500): BLUE SHIELD ID Default ID (UB04): BLUE CROSS ID Require ID on Claim: BOTH
---

#### 4.7.2 Define Referring Provider Secondary ID Parameters

Users can define the type of ID that will be the default secondary ID for the Referring Provider during the creation of a CMS-1500 claim.

A type of default secondary ID can be defined for a CMS-1500 claim.

Users can also set a parameter that will make this ID required on a claim. If it is required, and the referring provider on the claim does not have a secondary ID of the type required, the claim cannot be authorized.

The default type of ID for a Referring Provider is a UPIN; users can, however, override this default.

Referring Provider Secondary ID Default ID (1500): <b>UPIN</b> // BLUE SHIELD ID Require ID on Claim: CMS-1500 REQUIRED
---

#### 4.7.3 Define Billing Provider Secondary ID Parameters

If an insurance company wants the Billing Provider Secondary ID (Billing Screen 3) to be the same as the Attending Physician's or the Rendering Provider's ID, users can set the Send Attending/Rendering ID as Billing Provider Sec. ID?: parameter to Yes. The default value is No.

Billing Provider Secondary IDs Use Att/Render ID as Billing Provider Sec. ID (1500)? : YES Use Att/Render ID as Billing Provider Sec. ID (UB-04)? : NO
--

*If the payer requires the Attending/Rendering Physician/Provider's Secondary ID as the Billing Provider Secondary ID, this parameter can be set and a default Attending/Rendering ID type can be set and then users can just accept the default ID on Billing Screen 8 and it will be transmitted as the Physician/Provider's Secondary ID and the Billing Provider Secondary ID.*

#### 4.7.4 Define No Billing Provider Secondary IDs by Plan Type

Some insurance companies do not want any Billing Provider Secondary IDs to be transmitted in the 837 claim transmission for claims to specific plan types.

To define which plan types require no Billing Provider Secondary IDs, users must enter the plan types.

Step	Procedure
1	From the <b>ID Parameter Maint.</b> screen, enter the <b>Edit Billing Prov Params</b> action.
	The first Billing Provider Secondary ID will still be sent with the claim regardless of this parameter. The first ID is a calculated value used by the clearinghouse for sorting purposes.
2	At the <b>Select Action:</b> prompt, enter <b>Add Plan</b> .
3	At the <b>Enter Electronic Plan Type:</b> prompt, enter <b>PPO</b> for this example.

Billing Provider Parameters    May 27, 2005@12:48:29 Insurance Co.: BLUE CROSS OF CALIFORNIA	Page:    1 of    1

Transmit no Billing Provider Sec. ID for the Electronic Plan Types:  
HMO  
PPO  
Send VA Lab/Facility IDs or Facility Data: No

## 4.8. Associated Insurance Companies and Copying Physician/Provider Secondary IDs and Additional Billing Provider Secondary IDs

Patch IB\*2.0\*320 provides the ability for users to associate multiple Insurance Company entries with each other. **Example:** If there are 45 Blue Cross/Blue Shield entries in the Insurance Company file, users can make one of these entries the Parent company and make 1 to 44 of the other entries a Child company.

Making these associations will cause the software to automatically make the Physician/Provider Secondary IDs and the Additional Billing Provider Secondary IDs the same for all associated companies.

Once these associations are made and the IDs synchronized for all the associated companies, users can Add, Edit, and/or Delete IDs for the associated companies from the Parent company. Changes to the IDs from a Child company, however, are prohibited.

If a situation changes and it becomes necessary for a Child company to have IDs that differ from those of the Parent company, users may disassociate the Child company from the Parent company.

### 4.8.1 Designate a Parent Insurance Company

Step	Procedure
1	Access the <b>Insurance Company Editor</b> .
2	At the Select INSURANCE COMPANY NAME : prompt, enter <b>Blue Cross of California</b> for this example.
3	At the Define Insurance Company as Parent or Child: prompt, enter <b>Parent</b> .

```

### 4.8.2 Designate a Child Insurance Company

An insurance company can be designated as a Child, from the Parent insurance company as demonstrated in **Section 4.8.1**.

If users want to quickly define a single insurance company as a Child, they can do this from the Insurance Company Editor.

Step	Procedure
1	Access the Insurance Company Editor.
2	At the Select INSURANCE COMPANY NAME: prompt, enter <b>Aetna</b> for this example.
3	At the Define Insurance Company as Parent or Child: prompt, enter <b>Child</b> for this example.
4	At the Associate with which Parent Insurance Company: prompt, enter the name of the insurance company that will be the Parent.
	'??' will provide a list of available Parent insurance companies.

### 4.8.3 Copy Physician/Provider Secondary IDs

Individual Physician/Provider Secondary IDs can be entered, edited or deleted one time from the Parent insurance company and these changes will be copied to all associated insurance companies (Child).

This can be done using the following Provider ID Maintenance options:

- Provider ID Maint→PI Provider Insurance IDs;
- Provider ID Maint→II Insurance Co IDs; and
- Provider ID Maint→BI Batch ID Entry

#### **4.8.4 Copy Additional Billing Provider Secondary IDs**

When users are done adding, editing, or deleting Additional IDs from the Parent insurance company, the changes will be copied to all associated insurance companies.

#### **4.8.5 Synchronizing Associated Insurance Company IDs**

There is an IRM option for synchronizing the IDs of a Parent insurance company with all of the associated Child companies. This option is intended as a back-up option if the IDs of a Parent have become out of synch with the Child companies due to a system problem.

## 5. Subscriber and Patient ID Set-Up

Insurance Companies issue identification numbers to the people that they insure. The person who pays for the insurance policy or whose employer pays for the insurance policy or who receives Medicare is referred to as the subscriber. A veteran can be the subscriber, or a veteran can be insured through an insurance policy that belongs to some other subscriber such as the veteran's spouse or parent.

### 5.1. Subscriber and Patient Insurance Provided IDs

Some insurance companies issue identification numbers only to the subscriber. Some others issue unique identification numbers to each person covered by the subscriber's policy.

Insurance companies can issue both Subscriber Primary and Secondary ID numbers and Patient Primary and Secondary ID numbers.

These ID numbers can be entered when a policy is initially added in VistA through Add a policy. Sometimes the primary IDs will be added during the initial Patient Registration process and placed in the insurance company buffer.

Both Patient and Subscriber, Primary and Secondary IDs can be added or edited at any time using the option Patient Insurance Info View/Edit.

#### 5.1.1 Define Subscriber Primary ID

When the patient is the subscriber, users will be prompted for the Subscriber's Primary ID.

Step	Procedure
1	Access the option Patient Insurance Info View/Edit.
2	At the Select Patient Name: prompt, enter <b>IB,PATIENT TWO</b> .
3	At the Select Items: prompt, enter <b>Policy Edit/View</b> .
4	At the Select Policy(s): prompt, enter <b>1</b> for this example.

SUBSCRIBER'S SEC QUALIFIER(2):

PATIENT PRIMARY ID: IDXXXXX//

Do you want to enter/update Patient Secondary IDs? No// y YES

PATIENT'S SEC QUALIFIER(1): IG Insurance Policy Number
PATIENT'S SECONDARY ID(1): ID2XXXX
PATIENT'S SEC QUALIFIER(2):

```

Step	Procedure
1	Access Subscriber Update again.
2	At the Do you want to enter/update Subscriber Secondary IDs? No//: prompt, enter <b>Yes</b> .
3	At the Subscriber's Sec Qualifier (1): prompt, enter <b>IG</b> for this example.
	<i>23 Client Number is used for claims to the Indian Health Service/Contract Health Services (HIS/CHS).</i>
	<i>VistA will not allow users to enter SY for SNN if the payer is Medicare. Medicare will not accept the SSN as a subscriber's secondary ID.</i>
4	At the Subscriber's Sec ID (1): prompt, enter <b>XXXXID2</b> for this example.
5	At the Subscriber's Sec Qualifier (2): prompt, press the <b>&lt;Enter&gt;</b> key if you do not want to add another ID.
6	At the Patient Primary ID (1): prompt, press the <b>&lt;Enter&gt;</b> key to accept the default.
7	At the Do you want to enter/update Patient Secondary IDs? No//: prompt, enter <b>Yes</b> .
8	At the Patient's Sec Qualifier (1): prompt, enter <b>IG</b> for this example.
9	At the Patient's Sec ID (1): prompt, enter <b>ID2XXXX</b> for this example.
10	At the Patient's Sec Qualifier (2): prompt, press the <b>&lt;Enter&gt;</b> key if you do not want to add another ID.

## 6. Entering Electronic Claims

This section briefly identifies the screens used in the billing process that contain fields critical to EDI billing. It is important that all the data transmitted in an electronic claim be accurate and appropriate. This section is just meant to highlight some specific fields that pertain to electronic processing.

### 6.1. Summary of Enter/Edit Billing Information to Support ASC X12N/5010

There have been numerous changes with Patch IB\*2\*447 to the Enter/Edit Billing Information option to support changes in the Health Care Claim (837) Technical Reports (ASC X12N/ 5010) for both Institutional and Professional claims.

Patch IB\*2\*592 introduces the additional claim type of Dental. The Dental claims are also transmitted in the ASC X12N/5010 Health Care Claim (837) transaction.

Screen	Section	Change
5	3	Addition of Priority (Type) of Admission
5	3	Addition of Default Priority (Type) of Admission
8		Screen 9 contains all information previously found on Screen 8 section 3
9		Added Ambulance Transport Information (Claim Level)
9		Added Ambulance Certification Data (Claim Level)
11		Local screen 9 information was moved to screen 11

	<i>Note: After Patch IB*2*432 is installed, users will no longer receive Warnings when there is more than one division or non-matching providers on a claim. It will be possible to have multi-divisional claims with line-level and claim-level providers, of the same type, who do not match.</i>
	<i>Note: After Patch IB*2*432 is installed, users will no longer receive an Error when a human provider does not have an SSN or EIN defined.</i>

### 6.2. Changes Made by Specific Patches

#### 6.2.1 Patch IB\*2\*447

The following changes are in Patch IB\*2\*447 not covered elsewhere in this document.

##### 6.2.1.1 Enter/Edit Billing Information

- The procedure in the first line-level position (first entered or set to 1 by user) on a claim, will no longer be designated a claim level Principal procedure (Qualifier BR) on an outpatient, institutional claim.
- The additional procedures in the line items of an outpatient, institutional will no longer be designated a claim level Other procedures (Qualifier BQ).
- IB will calculate the amount due from the MediGap secondary payer based upon the beginning Date of Service on a claim and the effective date of the MediGap Plans.

##### 6.2.1.2 MEDIGAP Calculations

*This option is currently not available and can be turned on at a future time.*

- The amount due from the Medicare secondary Medigap payer will be based upon the Type of Plan of the Insurance Plan
- MEDIGAP A (COINS, NO DED, NO B EXC)
- MEDIGAP B (COINS, A DED, NO B DED, NO B EXC)
- MEDIGAP C (COINS, A/B DED, NO B EXC)

- MEDIGAP D (COINS, A DED, NO B DED, NO B EXC)
- MEDIGAP F (COINS, DED, NO B EXC)
- MEDIGAP G (COINS, A DED, NO B DED, NO B EXC,)
- MEDIGAP K (A COINS, 50% B COINS, 50% A DED, NO B DED, NO B EXC)
- MEDIGAP L (A COINS, 75% B COINS, 75% A DED, NO B DED, NO B EXC)
- MEDIGAP M (COINS, 50% A DED, NO B DED, NO B EXC)
- MEDIGAP N (COINS, A DED, NO B DED, NO B EXC)
- The amount due from the Medicare Secondary payer will be based upon the Type of Plan defined for the Insurance Plan:
  - Medicare Secondary (COINS, DED, No B EXC)
  - Medicare Secondary (COINS, DED, B EXC)
- The amount due from the Medicare Secondary Supplemental payer will be based upon the Type of Plan defined for the Insurance Plan. Medicare (Supplemental) (COINS, DED, No B EXC)
- The amount due from the Medicare Secondary Employer Group Health Plan (EGHP) payer will be based upon the Type of Plan defined for the Insurance Plan:
  - CARVE-OUT (COINS, DED, B EXC)
  - COMPREHENSIVE (COINS, DED, B EXC)
  - MEDICAL EXPENSE (OPT/PROF) (COINS, DED, B EXC)
  - MENTAL HEALTH (COINS, DED, B EXC)
  - POINT OF SERVICE (COINS, DED, B EXC)
  - PREFERRED PROVIDER ORGANIZATION (PPO) (COINS, DED, B EXC)
  - RETIREE (COINS, DED, B EXC)
  - SURGICAL EXPENSE INSURANCE (COINS, DED, B EXC)
- The monetary value entered by users in Section 5 of Screen 7, Rev. Code, for outpatient and inpatient Professional claims will be retained unless users:
  - Remove the procedure that generated the Revenue Code and monetary value;
  - Execute the Rate Schedule recalculation of charges function;
  - Change the division associated with the procedure;
  - Change the Charge Type;
  - Change the division associated with the claim.
- It will be possible to transmit Revenue/Procedure codes which generate zero charge amounts in an 837 Health Care Claim Transmissions (PRF, Piece 5 and INS, Piece 9).
- Users will be able to enter and transmit a Priority (Type) of Visit (Admission Type Code) code field in an outpatient, institutional 837 Health Care Claim Transmission (CL1, Piece 23). There will no longer be a hard-coded value, 9, transmitted or printed.
- Users will be able to enter and transmit the following Ambulance Transport Data in a professional 837 Health Care Claim Transmission:
  - Patient's Weight Qualifier = LB
  - Patient's Weight
  - Transport Reason Code
  - Transport Distance Qualifier = DH
  - Transport Distance
  - Round Trip Purpose Description (Free Text)
  - Stretcher Purpose Description (Free Text)
  - Users will be able to enter and transmit the following Ambulance Certification Data in a professional 837 Health Care Claim Transmission:
    - Code Category – 07
    - Certification Condition Indicator – YES
    - Condition Codes (1-5 codes)

## 6.2.2 Patch IB\*2\*488:

Patch IB\*2\*488 includes the following changes not covered elsewhere in this document.

### 6.2.2.1 Enter/Edit Billing Information

- The system no longer provides the ability for users to force institutional or professional claims to be printed at the Health Care Clearing House (HCCH)

### 6.2.2.2 MRA Management Worklist (MRW)

Patch IB\*2\*488 modified the way message storage errors (created when an EEOB or MRA is received and all the line items cannot be matched correctly) are displayed in TPJI. Internal code will no longer be displayed to the users. In addition to the changes in TPJI, similar changes exist in MRW for Medicare claims.

The Following types of errors will be displayed:

- Procedure Code mismatch
- Procedure Modifier mismatch
- Revenue Code mismatch
- Charge Amount mismatch
- Number of Units mismatch

The type of mismatch error and the values that were in the outbound 837 transaction will be displayed along with the values that were received in the inbound 835 transaction.

```

### 6.2.2.3 Enhanced CMS-1500 Printed Claim Form

The CMS-1500 Printed Claim Form has been updated to comply with the new National Uniform Claim Committee (NUCC) standards.

#### 6.2.3 Patch IB\*2\*516

Patch IB\*2\*516 includes the following changes not covered elsewhere in this document.

##### 6.2.3.1 TRICARE/TRICARE REIMB. Pay-to Providers

If the Rate Type of a claim is either TRICARE or TRICARE REIMB., the new Non-MCCF Pay-to Provider will be printed or transmitted in the same manner as the regular Pay-to Provider information is for other Rate Types.

- The Non-MCCF Pay-to Provider's address will print on the CMS – 1500 form in Box 32
- The Non-MCCF Pay-to Provider's data will print on the UB04 in FL2 only when the information is not exactly the same as the Billing Provider information
- The Non-MCCF Pay-to Provider data will be transmitted in the 837 claim transaction in Record PRV1/Loop 2010A/B

##### 6.2.3.2 NDC Numbers for non-RX Claims

If an NDC number and the units administered to the patient are entered on either a professional or institutional claim, the information will print in the following locations if the claim is printed locally:

- CMS – 1500 – Box 24: Shaded area – Format: N4NDC#<space>Unit Qualifier#of Units – if transmitted, the NDC number is transmitted in Record PRF/Loop 2410
- UB04 – FL43 - Format: N4NDC#<space>Unit Qualifier#of Units – if transmitted the NDC number is transmitted in Record INS/Loop 2410

*Note: The ability to select a Unit Qualifier was added in patch IB\*2\*577.*

## **6.2.4 Patch IB\*2\*547**

Patch IB\*2\*547 includes the following changes not covered elsewhere in this document:

### **6.2.4.1 Service Lines with No Print Order**

Identical CPT/HCPCS procedures that have the exact same data elements and no print order will be assigned to the same Revenue code with a combined number of units and monetary value.

### **6.2.4.2 Last Names Only**

Claims can now be submitted for both patients and/or subscribers who have only one name (last name). A patient and/or subscriber with only a last name will no longer trigger a fatal error when trying to authorize a claim.

### **6.2.4.3 Blank Present on Admission**

Inpatient institutional claims no longer require a Present on Admission (POA) value for all diagnosis codes. If a POA indicator is needed, the allowable values are now the following:

- Y – Yes
- N – No
- U – No Information in the Record
- W – Clinically Undetermined

### **6.2.4.4 Printed CMS 1500 Forms**

Printed secondary/tertiary claims on CMS 1500 forms will display the dollar amount of previous primary and secondary payer payments in Box 29 - Amount Paid.

### **6.2.4.5 Printed UB04 Forms**

The admission date and time will print on the UB04 form in FL 12 and 13 on claims for inpatient admissions only.

### **6.2.4.6 Insurance Company Entry/Edit/View Insurance Company**

Though IB will continue to use only complete addresses in 837 transactions, the address fields in the insurance company editor will display whatever address data is stored in VistA for the following fields even when the address data is incomplete:

- Main Mailing Address
- Inpt Claims Office
- Opt Claims Office
- Prescr Claims Office
- Appeals Office
- Inquiry Office

*Note: View Insurance Company, which is just a view only option of what is in the Insurance Company Entry/Edit option, will display the same address information.*

### **6.2.4.7 EDI Menu for Electronic Bills.... Print EOB**

Print EOB will display the complete and current textual description associated with the Claims Adjustment Reason Codes/Remittance Advice Remark Codes (CARC/RARC) received in an electronic EOB.

### **6.2.4.8 Copy and Cancel (CLON)**

The existing CLON option logic for the inclusion of Coordination of Benefits (COB) data was enhanced to incorporate the following rules:

- Copy primary claim with EOB to a new primary claim – Do not copy COB data
- Copy secondary claim to new secondary claim – Copy primary COB data
- Copy tertiary claim to new tertiary claim – Copy primary and secondary COB data

#### 6.2.4.9 ASC X12N 5010 Health Care Claim (837) Transactions

The following changes were made to 837 transactions:

- An inpatient institutional 837 transaction no longer requires a POA for each diagnosis
- An inpatient admission date can no longer be transmitted on outpatient claims
- All Rate Types for which the responsible party is equal to insurer can now be transmitted electronically when appropriate
- Institutional 837 transactions can now transmit up to twenty-five procedure codes
- Institutional 837 transactions can now transmit up to 12 External Cause of Injury codes

#### 6.2.5 Patch IB.2.576

Patch IB\*2\*576 includes the following changes not covered elsewhere in this document:

##### 6.2.5.1 Enhanced CMS-1500 Printed Claim Form

- The CMS-1500 Printed Claim Form has been updated to comply with the National Uniform Claim Committee (NUCC) standards:
  - The Event Date will no longer be used as a default value for Box 14. If there is no Occurrence Code 10 – Last Menstrual Period Date or Occurrence Code 11 – Onset of Illness Date on the claim, no date or date qualifier will print in Box 14
  - The Timeframe of Bill value of either 7 – REPLACEMENT CLAIM or 8 - VOID/CANCEL PRIOR CLAIM will print in Box 22 (left-hand side) and the Internal Control Number (ICN) from the payer will print in Box 22 (right-hand side) for replacement claims 7 or 8.

##### 6.2.5.2 MRA Management Worklist (MRW)

- The legend on the MRW screen has been enhanced to include the explanation for an asterisks displaying next to a claim number.

MRA Management WorkList			Nov 25, 2013@14:06:58			Page: 1 of 35

##### 6.2.5.3 Insurance Company Entry/Edit

The Insurance Company Editor has been modified to prevent the creation of new 5 character ZIP codes or 9 digit codes which include invalid final four digits (0000 or 9999). This change will affect the following addresses:

- Main Mailing Address
- Inpatient Claims Office Address
- Appeals Office Address
- Inquiry Office Address
- Outpatient Claims Office Address
- Prescription Claims Office Address

This change will not affect existing ZIP code values or usage unless someone attempts to update the current value.

All new ZIP codes should be 9 valid digits. If users do not enter the correctly formatted data, they will not be able to proceed. The following will be displayed:

Answer must be nine (999999999) or ten characters (99999-9999) in length. The last 4 cannot be '0000' or '9999'.

### 6.2.6 Patch IB\*2\*577

Patch IB\*2\*577 includes the following changes not covered elsewhere in this document:

#### 6.2.6.1 CLON

In addition to the changes made to CLON in patch IB\*2\*547, CLON has been enhanced to recalculate the monetary amount being billed to the destination payer when a claim is Canceled and Copied and the payer sequence is changed.

Example: A secondary claim is Clon'd to make a new claim and then the payer sequence is changed to Primary, to be resubmitted as an adjustment claim. Because the claim is going to the primary payer, the amount billed will be equal to the original amount billed to the primary payer.

## 6.3. Handling Error Messages and Warnings

*Note: Warnings will not prevent users from authorizing a claim, Errors will. If one or more errors exist, the user will be prompted to correct them. If a user answers Yes, the system will display the billing screens to allow the user to make changes.*

IB Edit Checks are done before claim authorization.

```
... Executing national IB edits

ERROR/WARNING OUTPUT DEVICE: HOME// TELNET TERMINAL

**Warnings**:
Prov secondary id type for the PRIMARY RENDERING is invalid/won't transmit
BLUE CROSS CA (WY) requires Amb Care Certification

**Errors**:
A CPT procedure is missing an associated diagnosis.
Place of Service not entered for at least one procedure.
Type of Service not entered for at least one procedure.
Claims with multiple payers require all Payer IDs.
A claim cannot have a Primary Payer ID value of HPRNT/SPRNT.

Do you wish to edit the inconsistencies now? NO// y YES
```

### 6.3.1 Patch IB\*2\*488

Patch IB\*2\*488 added several new error messages to Enter/Edit Billing Information:

- Error - when a professional claim contains no procedures codes
- Error - when an outpatient, institutional claim contains no procedures codes
- Error - when a Primary Payer ID is a PRNT/prnt value

### 6.3.2 Patch IB\*2\*516

Patch IB\*2\*516 made several changes to existing error and warnings messages:

- Error - when a claim contains a procedure code outside the 100-999 range – Removed
- Error - when a human provider has no NPI - Added
- Error - when a non-VA facility has no NPI – Added
- Warning - when a non-VA Facility has no Taxonomy code – Removed

*Note: The system will try to automatically remove non-billable providers from a claim as the auto biller creates a claim. The new error is for those cases where the provider has not been removed.*

### 6.3.3 Patch IB\*2\*547

Patch IB\*2\*547 made several changes to the existing logic for these error messages. The following error messages will no longer be triggered if the patient or subscriber only has a last name defined in VistA:

- Error - Patient's first and last name must begin with an alpha character
- Error - Primary insurance subscriber's name is missing or invalid
- Error - Secondary insurance subscriber's name is missing or invalid
- Error - Tertiary insurance subscriber's name is missing or invalid

### 6.3.4 Patch IB\*2\*576

Patch IB\*2\*576 made changes to the existing logic for this error message. The following error message will only display when there are both Occurrence Codes 10 – Last Menstrual Period and 11 – Onset of Illness on a claim:

- Error - Occ. Codes Onset of Illness (11) and LMP (10) not allowed on same bill.

### 6.3.5 Patch IB\*2\*592

- Error - Rendering Provider or Assistant Surgeon required on Dental Claims
- Error - Assistant Surgeon's NPI is required
- Error - Assistant Surgeon taxonomy missing
- Error - Claim Level Assistant Surgeon differs from all Line Level Assistant Surgeons
- Error - Medicare (WNR) does not accept Dental claims
- Error - Insurance Company does not have Dental Coverage
- Error - Claim Level Rendering and Asst Surgeon NOT allowed on same Dental Claim

### 6.3.6 Patch IB\*2\*608

- Error - CMN form-specific data missing for the Form Type chosen
- Error - Procedure A Calories" missing
- Error - Date of last "ABG PO2" and/or "O2 Saturation" Test(s) missing
- Error - Procedure B Calories" missing
- Error - Date of Latest 4 LPM Test(s) missing
- Error - The following CMN field(s) missing or in error for at least 1 procedure:
- Error - Claim has no Rendering Providers present

## 6.4. Claim versus Line Level Data

With the introduction of additional Line Level data (including Line Level providers) in Patch IB\*2\*447, it is important to understand the concept of Claim Level data applying to all the line items on a claim. Claim Level data applies to all the line items on a claim, while Line Level data should be used to provide *exceptions* to the Claim Level data.

**Example:** If all the procedures on a claim were performed by the same Rendering provider, the claim should only have a Claim Level Rendering provider. If all but one procedure is done by the same Rendering provider and one procedure is done by a second Rendering provider, the claim should have a Claim Level Rendering provider and one different Line Level Rendering provider. Line Level providers will be transmitted in 837 Health Care Claim transmissions.

In addition, Institutional claims can have both line-level and/or claim-level Rendering, Referring, and Other Operating Providers. The Attending Provider is still the only provider required on an institutional claim and there is no longer a generic Other Provider.

Professional claims continue to allow Rendering, Referring, and Supervising Providers on a claim. The Rendering Provider is still the only provider required on a professional claim.

	<i>Note: After Patch IB*2*592 is installed, users will be able to add a new type of provider, Assistant Surgeon, to a new form type J430D (Dental).</i>
	<i>Note: After Patch IB*2*608 is installed, users will be able to submit a professional claim without a Rendering provider. Users will receive a non-fatal warning message when a professional claim does not contain a Rendering provider.</i>

## 6.5. Screen 3 – Payer Information

### 6.5.1 EDI Fields

Section 1 – Transmit	When a payer has been set up to transmit claims electronically, this field will say “Yes”. If the field says “No” the claim will be printed locally.
Section 2 – Primary, Secondary and Tertiary Payer	These fields display the Billing Provider Secondary IDs for the payers on the bill. These IDs are defined in the Insurance Company Editor. <i>Note: If users set the ID Parameter: Send Attending/Rendering ID as Billing Provider Sec. ID? to Yes for a payer on the claim, the Attending/Rendering ID will be sent.</i>
Section 3 – Mailing Address	This field should contain a valid mailing address for the current payer. In order to avoid EDI errors, there should be no periods or dashes such as P.O. Box, Winston-Salem, St. Paul, etc. <i>Exception: Medicare does not have a valid address.</i>
Section 3 – Electronic ID	This field contains the Inst Payer Primary ID or Prof Payer Primary ID defined in the Insurance Company Editor. Payer Primary IDs are provided by the clearinghouse and can be found at <a href="http://www.emdeon.com">www.emdeon.com</a> .

*The 3-line mailing address displayed here is used also used by the clearinghouse to look up the Electronic ID for the payer when a claim is sent without a defined Electronic Bill ID.*

*Note: Patch IB\*2\*432 made changes so that the Federal Tax ID Number will no longer be used as a default value when no other Billing Provider Secondary ID is defined for a payer – Section 2.*

## 6.5.2 Using Care Units for Billing Provider Secondary IDs

Section 2 of Billing Screen 3 contains fields for the Billing Provider Secondary IDs for the primary, secondary and tertiary payers on a claim. Normally the default values for the site or the defined values for the division on the claim populate these fields. If any insurance company on the claim requires different Billing Provider Secondary IDs based upon Care Units, users can change the default values to the value defined for the Care Unit where the services were provided.

Step	Procedure
1	At the <RET> to CONTINUE, 1-3 to EDIT, '^N' for screen N, or '^' to QUIT: prompt, enter 2.
2	At the <b>Current Bill Payer Sequence:</b> prompt, press the <Enter> key to accept the default.
3	At the <b>Define Primary Payer ID by Care Unit?:</b> prompt, press the <Enter> key to accept the default.

## 6.6. Screen 10 – Physician/Provider and Print Information

### 6.6.1 EDI Fields UB-04/CMS-1500/J430D

#### Section 3/3 – Providers

When a Physician/Provider is entered here, the system finds the appropriate IDs and Taxonomy Codes for him/her. The Primary IDs are the providers' NPIs and their secondary IDs are those IDs that users have defined as the provider's own or as those provided by an insurance company. Claim Level providers may not be required if each Line Item has a provider associated with it.

#### Section 4 – Other Facility, CLIA#, Mammography Certification Number

These are the sections through which outside facilities are entered. The primary and secondary Laboratory or Facility IDs and Taxonomy Codes are then transmitted with the claim.

The CLIA# and Mammography Certification Number can also be sent with a professional laboratory claim or mammography claim.

Dental does not currently allow for billing for care provided at a non-VA facility

#### Section 5/7 – Billing Provider

These sections display the calculated Billing Provider and the Billing Provider's Taxonomy Code. Only the taxonomy code can be edited

#### Section 6/8 – Force to Print

Users can set this field to force a claim to print locally.

Patch IB\*2\*488 removed the former option to force a Professional or Institutional claim to print at the clearinghouse.

Dental does not currently allow for the local printing of J430D forms.

#### Section 7/9 – Provider ID Maint

This is a link to the Provider ID Maintenance function.

[7] Force To Print?  : NO FORCED PRINT
[8] Provider ID Maint : (Edit Provider ID information)

```

<RET> to CONTINUE, 1-8 to EDIT, '^N' for screen N, or '^' to QUIT:

	<i>The Primary ID (NPI) for the Attending, Operating or Other Operating Physician is always transmitted with a claim.</i>
	<i>The Secondary IDs for the Attending, Operating or Other Operating Physician are determined from what the user enters and from entries in Provider ID Maintenance.</i>
	<i>If users have set a default ID type and made it required for the current or other payers, the claim cannot be authorized if the physician does not have an ID of that type defined.</i>
	<i>Note: A fatal error message will prevent users from authorizing an adjustment claim, Type of Bill Frequency Code of 7 or 8, in which the destination payer (primary/secondary/tertiary) individual control number (ICN/DCN) is not present</i>
	<i>Patch IB*2*547 added a field to Screen 10 for alternative payer primary IDs which are used to direct claims to administrative contractors who process specialized claims such as Durable Medical Equipment (DME) claims. Unless an alternative ID is added to the claim by the billing clerk, the regular EDI – Primary Payer ID will be sent with a claim.</i>

When a provider is first added to Screen 10, the user will be shown a screen that contains a list of all the provider's IDs, the ID type and, optionally, the care unit on file for the provider's IDs. This will include the provider's own IDs, the provider's IDs assigned by the insurance company, the insurance company defaults, if any, and all IDs assigned to the provider by care unit.

The first 2 entries in this list will always be:

- 1 - NO SECONDARY ID NEEDED
- 2 - ADD AN ID FOR THIS CLAIM ONLY

	<i>Any ID entered on Screen 10 will automatically override any default provider secondary ID that exists for the same ID Qualifier for this claim ONLY.</i>
---	---

```

**** SECONDARY PERFORMING PROVIDER IDS ****

PRIMARY INSURANCE CO: BLUE CROSS CA (WY)
PROVIDER: IB,PHYSICIAN4 (ATTENDING)

INS. COMPANY'S DEFAULT SECONDARY ID TYPE IS: BLUE CROSS ID

SELECT A SECONDARY ID OR ACTION FROM THE LIST BELOW:

1 - NO SECONDARY ID NEEDED
2 - ADD AN ID FOR THIS CLAIM ONLY
3 - <DEFAULT> XXXXBCROSS          BLUE CROSS ID
4 - WYXXXX                        ST LIC (WY)

```

Selection: 3//

If there is a default secondary ID found, based on the insurance company parameters and the Provider ID is defined in the Provider ID Maintenance, this will be the 3rd entry in the list and will be preceded with the text <DEFAULT>. If this ID exists, the default for the Selection prompt will be **3**.

If no default ID exists, the default for the selection prompt will be **1** – No Secondary ID needed.

Any care units assigned to an ID using Provider ID Maintenance are displayed at the far right of the ID line. You no longer have to enter a care unit on the bill.

You can make a selection from the list by choosing the number preceding the ID you want to assign to the provider for the bill. This will add both the ID Qualifier and the ID number to the claim.

	<i>Note: If the Provider has multiple IDs defined, the one you select or the new one time only ID that you enter, will appear on Screen 10 and will be the first ID sent but the system will still transmit the remaining IDs. The one you select will just be the first one transmitted. The maximum number that will be transmitted is five.</i>
	<i>Note: With Patch IB*2*432, IDs for Line Level providers are determined in the same manner as Claim Level Providers.</i>

If none of the IDs are valid for the provider for the claim, you can add a new ID *for this claim only*.

Step	Procedure
7	At the <b>Selection</b> prompt, type <b>2</b> to add an ID for this claim only.
8	At the <b>PRIM INS PERF PROV SECONDARY ID TYPE:</b> prompt, enter the ID Qualifier that the primary payer requires as a secondary ID type. Type two question marks (??) to see the list of possible choices. (For this example, type <b>Location Number</b> as the secondary ID Qualifier).
9	At the <b>PRIM INS PERF PROV SECONDARY ID:</b> prompt, enter the <b>ID</b> number provided by the payer. In this example, type <b>XXXXA</b> .

```
Selection: 3// 2
PRIM INS PERF PROV SECONDARY ID TYPE: ??
Choose from:
BLUE CROSS ID
BLUE SHIELD ID
COMMERCIAL ID
LOCATION NUMBER
MEDICARE PART A
MEDICARE PART B

PRIM INS PERF PROV SECONDARY ID TYPE: LOCATION NUMBER
PRIM INS PERF PROV SECONDARY ID: XXXXA
```

After an ID and ID Qualifier are added to the claim for a provider, the provider's name and the selected ID are displayed on Screen 10. These fields can be edited/deleted.

If a physician/provider is deleted, the next time the provider entry is accessed, the list of valid IDs will be displayed again.

Valid Secondary ID Types for Current Payer	
Attending/Referring/Operating/Other Operating (UB-04)	State License; Blue Cross; Blue Shield; Medicare Part A; UPIN; TRICARE; Commercial ID; Location Number; Network ID; SSN; State Industrial and Accident Provider
Rendering/Referring/Supervising (1500)	State License; Blue Shield; Medicare Part B; UPIN; TRICARE; Commercial ID; Location Number; Network ID; SSN; State Industrial and Accident Provider

Valid Secondary ID Types for Other Payer (Not Current)	
Attending/Operating/Other (UB-04)	Blue Cross; Blue Shield; Medicare; Commercial ID; Location Number
Rendering (1500)	Blue Shield; Medicare Part A and Part B; Commercial ID; Location Number; Network ID
Referring (1500)	Blue Shield; Medicare Part A and Part B; Commercial ID; Location Number; Network ID
Supervising (1500)	Blue Shield; Medicare Part A and Part B; Commercial ID; Network ID

Step	Procedure
10	At the <RET> to Continue: prompt (any screen), enter ?PRV to see summary information about a particular provider.

## 6.8. CMS-1500 Claims

The following screens provide a simplified example of a CMS-1500 claim.

Step	Procedure
1	When processing a CMS-1500 claim, information on Screens 1 and 2 should be reviewed for correctness. Press the <Enter> key to move from one screen to the next.
2	On Screen 3, the payer information is reviewed for correctness. The patient may have more than one insurance policy. If the correct information is not displayed, select a section (1, 2, or 3 ) and edit the necessary fields. Press the <Enter> key to continue to Screen 4.
	<i>Note: With Patch IB*2*516, users will have the ability to add a one-time HPID, per payer, to a claim if the HPID in the Insurance Company file is not the correct one. The HPID will <b>not</b> be stored in the Insurance Company file. It will only apply to the claim.</i>

Select Ambulance Condition Indicator: 01// ?

Answer with AMBULANCE CONDITION INDICATOR

Choose from:

12

01

You may enter a new AMBULANCE CONDITION INDICATOR, if you wish

Select an Ambulance Condition Indicator. Answer must be 1-2 characters in length.

This limits the entry to five condition indicators.

Answer with AMBULANCE CONDITION INDICATORS CODE

Choose from:

12	Confined to a bed or chair
01	Admitted to hospital
04	Moved by stretcher
05	Unconscious or in Shock
06	Transported in emergency situation
07	Had to be physically restrained
08	Visible hemorrhaging
09	Medically necessary service

Select Ambulance Condition Indicator: 01//

Step	Procedure
6	From Screen 10, select section <b>3</b> to enter the name of the <b>Rendering Provider</b> if necessary. Enter a <b>Referring Provider</b> and/or <b>Supervising Provider</b> if required by the payer for the procedure codes on the claim.
	<i>Remember: Patch IB*2*432 will make it possible to enter and transmit Line Level providers. Line Level and Claim Level providers should not be the same. Claim Level providers apply to the entire claim. Line Level providers are exceptions.</i>
	<i>Note: After Patch IB*2*432, it will no longer be possible to authorize a Sensitive claim unless users indicate that a Release of Information has been completed.</i>

[8] Force To Print?    : NO FORCED PRINT
[9] Provider ID Maint   : (Edit Provider ID information)

<RET> to CONTINUE, 1-6 to EDIT, '^N' for screen N, or '^' to QUIT:

```

	<i>The Primary ID (NPI) for the Attending, Operating or Other Physician is always transmitted with a claim.</i>
	<i>The Secondary IDs for the Attending, Operating or Other Physician are determined from what the user enters and from entries in Provider ID Maintenance.</i>
	<i>If users have set a default ID type and made it required for the current or other payer, the claim cannot be authorized if the physician does not have an ID of that type defined.</i>

When a provider is first added to Screen 10, the user will be shown a screen that contains a list of all the provider's IDs, the ID type and, optionally, the care unit on file for the provider's IDs. This will include the provider's own IDs, the provider's IDs assigned by the insurance company, the insurance company defaults, if any, and all IDs assigned to the provider by care unit.

The first 2 entries in this list will always be:

- 1 - NO SECONDARY ID NEEDED
- 2 - ADD AN ID FOR THIS CLAIM ONLY

	<i>Any ID entered on Screen 10 will automatically override any default provider secondary ID that exists for the same ID Qualifier for this claim ONLY.</i>
---	---

```

**** SECONDARY PERFORMING PROVIDER IDs ****

PRIMARY INSURANCE CO: BLUE CROSS CA (WY)
PROVIDER: IB,PHYSICIAN4 (ATTENDING)

INS. COMPANY'S DEFAULT SECONDARY ID TYPE IS: BLUE SHIELD ID

SELECT A SECONDARY ID OR ACTION FROM THE LIST BELOW:

1 - NO SECONDARY ID NEEDED
2 - ADD AN ID FOR THIS CLAIM ONLY
3 - <DEFAULT> XXXXBSHIELD          BLUE SHIELD ID
4 - WYXXXX                        ST LIC (WY)

Selection: 3//

```

If there is a default secondary ID found, based on the insurance company parameters and the Provider ID is defined in the Provider ID Maintenance, this will be the 3rd entry in the list and will be preceded with the text <DEFAULT>. If this ID exists, the default for the Selection prompt will be **3**.

If no default ID exists, the default for the selection prompt will be **1** – No Secondary ID needed.

Any care units assigned to an ID using Provider ID Maintenance are displayed at the far right of the ID line. You no longer have to enter a care unit on the bill.

You can make a selection from the list by choosing the number preceding the ID you want to assign to the provider for the bill. This will add both the ID Qualifier and the ID number to the claim.

*Note: If the Provider has multiple IDs defined, the one you select or the new one time only ID that you enter, will appear on Screen 10 and will be the first ID sent but the system will still transmit the remaining IDs. The one you select will just be the first one transmitted. The maximum number that will be transmitted is five.*

If none of the IDs are valid for the provider for the claim, you can add a new ID *for this claim only*.

Step	Procedure
7	At the <b>Selection</b> prompt, type <b>2</b> to add an ID for this claim only.
8	At the <b>PRIM INS PERF PROV SECONDARY ID TYPE:</b> prompt, enter the ID Qualifier that the primary payer requires as a secondary ID type. Type two question marks (??) to see the list of possible choices. (For this example, type <b>Location Number</b> as the secondary ID Qualifier).
9	At the <b>PRIM INS PERF PROV SECONDARY ID:</b> prompt, enter the <b>ID</b> number provided by the payer. In this example, type <b>XXXXA</b> .

```

Selection: 3// 2
PRIM INS PERF PROV SECONDARY ID TYPE: ??
Choose from:
BLUE CROSS ID
BLUE SHIELD ID
COMMERCIAL ID
LOCATION NUMBER
MEDICARE PART A
MEDICARE PART B

```

PRIM INS PERF PROV SECONDARY ID TYPE: LOCATION NUMBER  
 PRIM INS PERF PROV SECONDARY ID: XXXXA

After an ID and ID Qualifier are added to the claim for a provider, the provider's name and the selected ID are displayed on Screen 8. These fields can be edited/deleted.

If a physician/provider is deleted, the next time the provider entry is accessed, the list of valid IDs will be displayed again.

Valid Secondary ID Types for Current Payer	
Attending/Operating/Other (UB-04)	State License; Blue Cross; Blue Shield; Medicare Part A; UPIN; TRICARE; Commercial ID; Location Number; Network ID; SSN; State Industrial and Accident Provider
Rendering/Referring/Supervising (1500)	State License; Blue Shield; Medicare Part B; UPIN; TRICARE; Commercial ID; Location Number; Network ID; SSN; State Industrial and Accident Provider

Valid Secondary ID Types for Other Payer (Not Current)	
Attending/Operating/Other (UB-04)	Blue Cross; Blue Shield; Medicare Part A and Part B; UPIN; TRICARE; Commercial ID; Location Number
Rendering (1500)	Blue Shield; Medicare Part A and Part B; Commercial ID; Location Number; Network ID
Referring (1500)	Blue Shield; Medicare Part A and Part B; Commercial ID; Location Number; Network ID
Supervising (1500)	Blue Shield; Medicare Part A and Part B; Commercial ID; Network ID

Step	Procedure
10	At the <RET> to Continue: prompt (any screen), enter ?PRV to see summary information about a particular provider.

## 6.10. Lab Claims

EDI Enhanced HIPAA format allows users to enter a CLIA# when billing for certain laboratory procedures. The VA's CLIA # must be entered on Screen 8 when billing a Medicare secondary payer for laboratory and pathology procedures that are not reimbursed in full by Medicare.

The following screens provide a simplified example of a lab claim:

Step	Procedure
1	When processing a Laboratory claim, information on Screens 1 and 2 should be reviewed for correctness. Press the <Enter> key to move from one screen to the next.
2	On Screen 3, the payer information is reviewed for correctness. The patient may have more than one insurance policy. If the correct information is not displayed, select a section (1, 2, or 3 ) and edit the necessary fields. Press the <Enter> key to continue to Screen 5.
	<i>Note: With Patch IB*2*516, users will have the ability to add a one-time HPID, per payer, to a claim if the HPID in the Insurance Company file is not the correct one. The HPID will <b>not</b> be stored in the Insurance Company file. It will only apply to the claim.</i>

```

Select Ambulance Condition Indicator: 01// ?

Answer with AMBULANCE CONDITION INDICATOR

Choose from:

12  
01

You may enter a new AMBULANCE CONDITION INDICATOR, if you wish  
Select an Ambulance Condition Indicator. Answer must be 1-2  
characters in length.  
This limits the entry to five condition indicators.

Answer with AMBULANCE CONDITION INDICATORS CODE

Choose from:

12	Confined to a bed or chair
01	Admitted to hospital
04	Moved by stretcher
05	Unconscious or in Shock
06	Transported in emergency situation
07	Had to be physically restrained
08	Visible hemorrhaging
09	Medically necessary service

Select Ambulance Condition Indicator: 01//

Step	Procedure
6	From Screen 10, enter 3 to add a <b>Rendering</b> and <b>Referring</b> and <b>Supervising</b> provider, if necessary.
7	To edit, select Section 5 and enter the <b>CLIA #</b> if required by the payer.
	<i>After Patch IB*2.0*320, the billing software will automatically populate the CLIA# for the division on the claim when the claim is for the Service Type = 5 (Diagnostic Laboratory) if the CLIA# exists in the VistA Institution file. Users may override this value for the current claim only.</i>
	<i>For outside laboratory services, the billing software will automatically populate the CLIA# if there is a Laboratory or Facility secondary ID defined for the outside facility with a ID Qualifier of X4 (CLIA #).</i>
	<i>There will be an Error Message for laboratory claims to Medicare when there is no CLIA# on the claim and a Warning Message for laboratory claims to other payers when there is no CLIA# on the claim.</i>

--	---------------------------------

## 6.11. Pharmacy Claims

1500 pharmacy claims can be submitted electronically to the clearinghouse where they will be printed and mailed. If a pharmacy claim is entered on a UB04, it must be printed locally.

The following screens give a simplified example of a pharmacy claim.

Step	Procedure
1	When processing a Pharmacy claim, information on Screens 1 and 2 should be reviewed for correctness. Press the <b>&lt;Enter&gt;</b> key to move from one screen to the next.
2	On Screen 3, the payer information should be reviewed for correctness. The patient may have more than one insurance policy. If the correct information is not displayed, select a section (1, 2, or 3 ) and edit the necessary fields. Press the <b>&lt;Enter&gt;</b> key to continue to Screen 5.
	<i>For Pharmacy claims, change the form type to a CMS-1500.</i>
	<i>Note: With Patch IB*2*516, users will have the ability to add a one-time HPID, per payer, to a claim if the HPID in the Insurance Company file is not the correct one. The HPID will <b>not</b> be stored in the Insurance Company file. It will only apply to the claim.</i>

## 6.12. Correct Rejected or Denied Claims

A claim can be rejected at some stage during either the electronic or manual process. A claim can be denied by the payer during the adjudication process. When a claim is either rejected or denied, it may be

for a reason that can be corrected. Once the claim is corrected, it can be retransmitted or resent through the mail to the payer.

With Patch IB\*2\*433, a new option has been added to the IB Module that allows users to correct a claim while maintaining the original claim number on the resubmitted claim.

With Patch IB\*2\*447, users are able to correct all types of claims including a claim that processes to a non-accruing funds. It is now possible to correct a claim with one of the following rate types:

- INTERAGENCY
- SHARING AGREEMENT
- TRICARE
- WORKMAN'S COMP

Step	Procedure
1	Access the option <b>Third Party Billing Menu</b> .
2	At the <b>Select Third Party Billing Menu Option:</b> prompt, enter <b>CRD</b> for Correct Rejected/Denied Bill.
3	At the <b>Enter BILL NUMBER or Patient NAME:</b> prompt, enter the <b>claim number</b> of the claim that requires correction.
4	At the <b>ARE YOU SURE YOU WANT TO CANCEL THIS BILL? No//</b> prompt, enter <b>Yes</b> to override the default.
5	At the <b>CANCEL BILL?:</b> prompt, enter <b>YES</b> .
6	At the <b>REASON CANCELLED:</b> prompt, enter a <b>free-text comment</b> .
	<i>Note: This new option was designed to replace the existing option <b>CLON Copy and Cancel</b> under the majority of circumstances. The existing <b>CLON Copy and Cancel</b> option will now be locked with a new <b>Security Key</b> named <b>IB CLON</b>.</i>
	<i>Note: The existing <b>CLON Copy and Cancel</b> option should only be used to correct denied claims against which a payment has been posted or to correct a claim with one of the Bill Rate Types that are excluded from the new processes..</i>
	<i>Note: The existing <b>CLON Copy and Cancel</b> option should be used to correct denied claims against which a payment has been posted, a secondary/tertiary claim or a claim in MRA Request status.</i>
	<i>Note: The <b>IB CLON</b> security key which restricted the use of the <b>CLON</b> option , was removed with Patch IB*2*516.</i>

The following screen will display.

IB, PATIENT4	(XX-XX-XXXX)	DOB: XXX XX,XXXX
=====		
Rate Type	:	REIMBURSABLE INS.
Event Date	:	XXX XX XXXX
Sensitive	:	NO
Responsible	:	INSURANCE CARRIER (Specify CARRIER on SCREEN 3)
Loc of Care	:	HOSPITAL (INCLUDES CLINIC) - INPT. OR OPT.
Event Source	:	Outpatient
Timeframe	:	ADMIT THRU DISCHARGE
	:	(Specify actual bill type fields on SCREENs 6/7)
Bill From	:	XXX XX,XXXX
Bill To	:	XXX XX,XXXX
Initial Bill#	:	K701XXX-01
Copied Bill#	:	K701XXX-01

Please verify the above information for the bill you just entered. Once this information is accepted it will no longer be editable and you will be required to CANCEL THE BILL if changes to this information are necessary.

IS THE ABOVE INFORMATION CORRECT AS SHOWN? Yes//

Step	Procedure
7	Return through the claim screens correcting whatever data requires correction.
8	Complete and authorize the claim.
	<i>Note: The number of the original claim has been incremented and now displays with a -01 after the claim number. The original claim number has been assigned to the new claim. Each time a claim is corrected, the previous cancelled version will be incremented -01, -02, -03, etc..</i>

When users attempt to use the **CRD Correct Rejected/Denied Bill** option to correct a claim against which a payment has been posted, they will be warned that they must use the existing **CLON Copy and Cancel** option.

```
Select Third Party Billing Menu Option: CRD  Correct Rejected/Denied Bill

Enter BILL NUMBER or Patient NAME:   K600XXX      IB,PATIENT1      XX-XX-XX
Outpatient      REIMBURSABLE INS.      PRNT/TX

Please note a PAYMENT of **$45** has been POSTED to this bill. Copy and cancel
(CLON) must be used to correct this bill.
```

When users attempt to use the **CRD Correct Rejected/Denied Bill** option to correct a denied claim which has received only one of its associated split Explanation of Benefits (EOB), they will be warned that they must wait for the arrival of the second EOB before they can use this new option.

```
Select Third Party Billing Menu Option: CRD  Correct Rejected/Denied Bill

Enter BILL NUMBER or Patient NAME:   K600XXX      IB,PATIENT1      XX-XX-XX
Outpatient      REIMBURSABLE INS.      PRNT/TX

There is a split EOB associated with this claim.  You cannot use this option to
Correct this claim until the second EOB has been received.
```

When users attempt to use the **CRD Correct Rejected/Denied Bill** option to correct a rejected or denied claim which has an excluded Billing Rate Type, they will be warned that they must use the existing **CLON Copy and Cancel** option.

```
Select Third Party Billing Menu Option: CRD  Correct Rejected/Denied Bill

Enter BILL NUMBER or Patient NAME:   K600XXX      IB,PATIENT1      XX-XX-XX
Outpatient      REIMBURSABLE INS.      PRNT/TX

This option cannot be used to correct some Billing Rate Types (Example: TRICARE).
Use Copy and Cancel (CLON) to correct this bill.
```

When users attempt to use the **CRD Correct Rejected/Denied Bill** option to correct a rejected or denied secondary or tertiary claim, they will be notified that they must use the existing **CLON Copy and Cancel** option.

Please note that COB data exists for this bill.  
Copy and cancel (CLON) must be used to correct this bill.

When users attempt to use the CRD Correct Rejected/Denied Bill option to correct a claim with a status of MRA Request, they will receive the following message.

This bill is in a status of REQUEST MRA.  
No MRAs have been received and there are no rejection messages on file  
for the most recent transmission of this MRA request bill.

*Note: The new **CRD Correct Rejected/Denied Bill** option has been added to the **CSA Claims Status Awaiting Resolution** option and the **MRW MRA Worklist** option as **Correct Bill**.*

The history of corrected claims will be available from the following locations:

- BILL - Enter/Edit Billing Information
- INQ – Patient Billing Inquiry

## 6.13. Viewed Cancelled Claims

If a claim has been cancelled, users can view the data stored in the Bill/Claims file (#399) for the cancelled claim.

The View Cancelled Bill option is on the Third Party Billing Menu.

ADPR	Print Bill Addendum Sheet
AUTH	Authorize Bill Generation
BILL	Enter/Edit Billing Information
CANC	Cancel Bill
CLA	Multiple CLAIMSMANAGER Claim Send
CLON	Copy and Cancel
CRD	Correct Rejected/Denied Bill
DLST	Delete Auto Biller Results
GEN	Print Bill
INQU	Patient Billing Inquiry
LIST	Print Auto Biller Results
PRNT	Print Authorized Bills
RETN	Return Bill Menu ...
VCB	View Cancelled Bill
VIEW	View Bills Pending Transmission
VIST	Outpatient Visit Date Inquiry

Select Third Party Billing Menu <TEST ACCOUNT> Option:

## 6.14. Printed Claims

Some claims should not be transmitted electronically and should be printed locally.

These include:

- Claims requiring clinical attachments such as progress notes;
- Professional claims containing more than the maximum number of 8 diagnosis codes;
- Professional claims containing more than the maximum number of diagnosis pointers (4);
- Institutional claims containing more than the maximum number of procedure codes (999);
- Professional claims containing more than the maximum number of procedure codes/line items (50);
- Institutional pharmacy claims; and

- Secondary claims to Medicare WNR (When Medicare WNR is NOT the primary insurance).

## 6.15. View/Resubmit Claims – Live or Test – Synonym: RCB

A new option, **View/Resubmit Claims – Live or Test**, has been added to the EDI menu. This option replaces: **Resubmit a Bill**; **Resubmit a Batch of Bills** and **View/Resubmit Claims as Test**. This option provides the ability to resubmit claims as test claims for testing or production claims for payment.

Patch IB\*2\*547 will add the ability to run the RCB option to find previously printed claims and to resubmit them to the test queue *only*. They cannot be retransmitted to the production queue. The patch will also provide the ability to look-up claims to specific payers using the EDI - Inst Payer Primary ID or EDI - Prof Payer Primary ID.

Patch IB\*2\*608 will only include the Coordination of Benefit (COB) data for the previous payer sequence to be resubmitted in the current payer sequence claim to the test queue. The patch will also filter out the claim(s) with associated COB data when those claims have been selected to be retransmitted to the production queue. These non-transmitted claims will be listed on the screen as skipped.

Step	Procedure
1	At the <b>Select EDI Menu For Electronic Bills Option</b> , type <b>RCB</b> and press the <b>Return</b> key.
2	At the <b>Run report for (P)rinted or (T)ransmitted claims?: Transmitted//</b> prompt, press the <b>Enter</b> key to accept the default
3	At the <b>SELECT BY: (C)LAIM, (B)ATCH OR SEE A (L)IST TO PICK FROM:</b> prompt, press the Enter key to accept the default of <b>List</b> .
4	At the <b>Run for (A)ll payers or (S)elected Payers?</b> prompt, type S for Selected Payers.
	<i>If you choose Selected payers, after you enter Blue Cross of CA, for example, you will be prompted to included all insurance companies with the same Electronic Billing ID. This will prevent you from having to enter every BC/BS company defined in your Insurance file.</i>
5	At the <b>Select Insurance Company:</b> prompt, enter an <b>EDI Payer Primary ID</b>
6	At the <b>Select Insurance Company</b> prompt, press the <b>Enter</b> key when done selecting payers
7	At the <b>Run for (U)B-04, (C)MS-1500 or (B)OTH:</b> prompt, press the <b>Enter</b> key to accept the default of Both.
	<i>The Date Range for the search for claims has been restricted to a <b>maximum of 90 days</b> to minimize the impact of the search on the system.</i>
8	At the <b>Start with Date Last Transmitted:</b> prompt, type <b>T-200</b> for this example.
9	At the <b>Go to Date Last Transmitted:</b> prompt, press the <b>Enter</b> key to accept the default of 12/1/04. This will return results for 90 days.
10	At the <b>Select Additional Limiting Criteria (optional):</b> prompt, press the <b>Enter</b> key without selecting anything additional.

```

## 7. Processing of Secondary/Tertiary Claims

With Patch IB\*2\*432 installed, the procedures for the processing of secondary and tertiary non-MRA claims have changed.

When electronic Explanation of Benefits (EOBs) are received for claims that are NOT Medicare (WNR) claims and the payments are processed in AR, the EOBs will be evaluated and if the data in the EOBs meets certain criteria, the secondary or tertiary claims will either be processed automatically or sent to the new COB Management Worklist for manual processing.

When a claim is processed in AR and its status becomes Collected/Closed, no MailMan message will be generated. Either the subsequent claim will be automatically processed or the claim will appear on the new worklist.

Patch IB\*2\*447 removed the option, Copy for Secondary/Tertiary Bill [IB COPY SECOND/THIRD]. This option became obsolete with the install of IB\*2.0\*432 and the introduction of the new CBW (COB Management Work list).

A new, non-human user, IB,AUTHORIZER REG, will be the clerk responsible for the automatic processing of non-MRA secondary and tertiary claims.

In order to be able to either create a subsequent claim, or to send a claim to the new COB Management Worklist for manual processing, the following conditions must be met:

- All Explanation of Benefit (EOBs), 835 Health Care Claim Payment Advice, have been received ; and
- Payment from the previous payer has been posted by AR; and
- The bill status for the previous payer is Collected/Closed.

Electronic Secondary and Tertiary claim will contain the Coordination of Benefits data from the EOBs in the 837 Health Care Claim transmission to FSC.

	<i>Note: Secondary and Tertiary claims will be created with a new claim number.</i>
	<i>Remember: Whether or not a Secondary or Tertiary claim to an electronic payer is transmitted or printed, is determined by the new parameter in the Insurance Company Editor. Refer to Section 2.1.1.1.</i>

### 7.1. Criteria for the Automatic Processing of Secondary or Tertiary Claims

When a non-MRA claim has received all associated EOBs and they meet the following criteria, the subsequent claim will be automatically created and either transmitted electronically to the next payer, or printed (along with the associated MRAs/EOBs) and mailed to the next payer:

- EOB contains only Adjustment Group Codes = Contractual Obligation (CO) associated with one of the following Reason Codes: A2; B6; 45; 102; 104; 118; 131; 23; 232; 44; 59; 94; 97; or 10; and
- EOB contains only Adjustment Group Codes = Patient Responsibility (PR) associated with one of the following Reason Codes; 1; 2; or 66; and
- The sum of the deductible, coinsurance and co-payment amounts is greater than \$0.00; and
- The EOB status is Processed (The Claim Status Code is either 1, 2, or 3).

## 7.2. COB Management Worklist

Any non-MRA claim that does not meet the criteria for the automatic creation of a Secondary or Tertiary claim will be placed on the COB Management Worklist.

Step	Procedure
1	Access the <b>EDI Menu For Electronic Bills</b> menu.
2	At the <b>Select EDI Menu For Electronic Bills Option:</b> prompt, enter <b>CBW</b> for COB Management Worklist.
	<i>Note: Patch IB*2*516 provided the ability for users to run the worklist by one or more divisions.</i>
3	At the <b>Select Division: ALL//</b> prompt; press the <Enter> key to accept the default.
4	At the <b>Select BILLER: ALL//</b> prompt, press the <Enter> key to accept the default.
5	At the <b>Sort By: BILLER//</b> prompt, press the <Enter> key to accept the default.
6	At the <b>Do you want to include Denied EOBs for Duplicate Claim/Service? No//</b> prompt, press the <Enter> key to accept the default.
	<i>Note: A non-MRA claim which receives a DENIED EOB and which is Collected/Closed by AR and which has a subsequent payer, will also be placed on the CBW. This includes claims that have potential patient responsibility such as TRICARE and CHAMPVA.</i>
	<i>Note: Patch IB*2*547 provides additional search and sort criteria for this worklist. Users can create a list of just primary claims or just secondary claims or both and they can now sort by primary or secondary insurance company.</i>
	<i>Note: Complete CARC/RARC textual descriptions will display from Print or View an EOB from within the COB Management Worklist.</i>

The following screen will display.

COB Management WorkList			JAN 01, 2011@13:41:16		Page: 1 of 20

### 7.2.1 Data Displayed for Claims on the COB Management Worklist

The following data is displayed on the COB Management Worklist:

- List number
- Claim number
- Asterisk – when claim is under review
- Claim date
- Patient name
- Last 4 numbers of patient's SSN
- Patient Responsibility monetary amount
- Monetary amount on the claim
- Patient status, Inpatient/Outpatient
- Claim form type
- Status of EOB
- Insurance company(s)
- Clerk name – depends on Sort criteria
- Division(s)
- Days since last transmission – depends on Sort criteria
- Date of EOB - depends on Sort criteria

### 7.2.2 Available COB Management Worklist Actions

The following actions are available to users to help them managed those claims which failed to meet the automatic processing criteria:

- PC Process COB – Process a claim on the list to the next payer on the bill
- VE View an EOB – View the EOB(s) associated with a claim on the list
- EC Enter/View Comments – Enter new comments for a claim on the list or view previously entered comments
- RS Review Status – Change the review status for a claim on the list
- CB Cancel Bill – Cancel a bill that does not need to be resubmitted
- CR Correct Bill – Correct a bill that needs to be resubmitted
- CC Cancel/Clone A Bill – Clon a bill that needs to be resubmitted (locked with IB CLON)
- VB View Bill – View the billing screens
- RM Remove from Worklist – Remove claim from worklist if no need to resubmit
- PE Print EOB/MRA – Print associated MRAs or EOB
- TP Third Party Joint Inq. – Select a claim and go directly to it in TPJI
- EX Exit – Exit the worklist and return to the EDI Menu

	<i>Note: Remove from Worklist was added so that claims that have been Collected/Closed and place on the worklist can be removed if there is no reason to process it to the next payer (i.e. no Patient Responsibility). These claims should not be cancelled as they have been Collected/Closed in AR.</i>
	<i>Remember: It is possible that a tertiary claim on the COB Management Worklist began as an MRA claim. The Print EOB/MRA action will provide users with the option to print both EOBs and MRAs.</i>

## 8. Requests for Additional Data to Support Claims

Patch IB\*2\*547 added a new worklist and a new inbound transaction, the ASC X12N 5010 Health Care Claim Request for Additional Information (277RFAI) to VistA. The 277RFAI transaction is initiated by the payer in response to a claim for health care services when they need additional information in order to adjudicate the claim correctly. A 277RFAI might, for example, request an image, a test result or a Certificate of Medical Necessity. At the time that Patch IB\*2\*547 is installed, the methods for providing this additional data will be manual. In the future, it will be possible to respond to a 277RFAI with a ASC X12N 5010 Additional Information to Support a Health Care Claim or Encounter (275) transaction.

The RFAI Management Worklist was added to provide a method for displaying and managing these requests for additional documentation to support the adjudication of a claim.

Step	Procedure
1	Access the <b>EDI Menu For Electronic Bills</b> menu.
2	At the <b>Select EDI Menu For Electronic Bills Option:</b> prompt, enter <b>RFI</b> for RFAI Management Worklist
3	At the <b>Select Authorizing Biller: ALL//</b> prompt, press the <b>Enter</b> key to accept the default
4	At the <b>Select Primary Sort: LOINC Code//</b> prompt, press the <b>Enter</b> key to accept the default of LOINC

The following screen is displayed:

From the RFAI message Screen, users can take the following actions:

- Enter comments – user name and date/time will be automatically captured
- Change the Review Status – the entry will be marked by an asterisk
- Remove an entry from the list once it has been addressed – user name and date/time will be captured along with free text removal comment
- Jump to the claim in TPJI – comments from the RFAI Management Worklist will be viewable from within TPJI

## 9. IB Site Parameters

### 9.1. Define Printers for Automatically Processed Secondary/Tertiary Claims

New fields were added to the MCCR Site Parameter Display/Edit option so that users can define printers to which to print automatically processed secondary or tertiary claims and their associated EOB/MRAs to payers which cannot support electronic claim transmissions.

Step	Procedure
1	Access the <b>MCCR System Definition Menu</b> .
2	At the <b>Select MCCR System Definition Menu Option:</b> prompt, enter <b>Site</b> for MCCR Site Parameter Display/Edit.
3	At the <b>Select Action:</b> prompt, Enter <b>IB</b> to access the IB Site Parameters.

<b>MCCR Site Parameters</b>	Feb 01, 2011@15:04:47	Page: 1 of 1

### 9.3. Printed Claims Rev Code Excl: 17 Activated Codes Defined

Patch IB\*2\*547 added Section 8, Printed Claims Rev Code Excl:, to the IB Site Parameters. When the Patch is installed, the following revenue codes, if active, will be pre-populated:

- 270-279
- 290-299

Users will be able to add and/or delete additional revenue codes. Revenue codes that are defined here will be used to screen out claims from the Printed Claims report.

9.4. Alternate Primary Payer ID Types

Patch IB\*2\*547 added Sections 17 and 18, Alt Prim Payer ID Typ-Medicare and Alt Prim Payer ID Typ-Commercial. Users can define qualifiers to be used to define alternative professional and/or institutional primary payer IDs by type in Insurance Company Entry/Edit. These ID types provide the ability to direct 837 transactions to different processing entities depending on the type of claim.

## 9.6. New EDI Parameter for Dental Processing

Patch IB\*2\*592 added a new parameter to the IB Site Parameters (Section 16). The new Allow Dental Claim Processing field will be set to YES when the patch is installed.

If there is ever a need, this field can be reset to NO and the new Dental form J430D will no longer be available in Enter/Edit Billing Information and the AutoBiller will stop creating Dental claims.

```

## 10. Reports

There are a number of reports available to monitor and manage electronic claims. The EDI menu option can be accessed from the Billing Clerk's Menu.

### 10.1. EDI Reports – Overview

TR reports provide the end-user with information to monitor and manage EDI claims still within the VA, that is, between the VAMC and the FSC in Austin, TX. The MM reports provide the end-user with information and feedback from parties external to the VA such as the clearinghouse and the various electronic payers.

#### TR- EDI Transmission Status Reports -

BAR Bills Needing Resubmission Action  
ECS EDI Claim Status Report  
MP EDI Messages Not Yet Filed  
PBT Pending Batch Transmission Status Report  
PND EDI Batches Pending Receipt  
REX Ready for Extract Status Report  
VPE View/Print EDI Bill Extract Data

#### MM-EDI Return Message Management

EDI Return Message Management Option Menu  
CSA Claim Status Awaiting Resolution  
MCS Multiple CSA Message Management  
TCS Test Claim EDI Transmission Report  
EDI Message Text to Screen Maint  
EDI Message Not Reviewed Report  
Electronic Error Report  
Electronic Report Disposition  
Return Message Filing Exceptions  
Status Message Management

## 10.2. Most Frequently Used Menus/Reports

### 10.2.1 Claims Status Awaiting Resolution – Synonym CSA

#### What is the purpose of this report?

Billing and Accounts Receivable (or Accounts Management) staff use CSA to review the most current status messages and to perform follow-up actions on the bills. Electronic status messages, which include information and rejection messages from the clearinghouse or the payers, are accessed using this option.

#### When is this option used?

This is an option that must be checked **Daily** to determine which claims have rejection or warning messages that were returned from the clearinghouse or from payers. The cause for rejections must be resolved. This option should be used in conjunction with supporting reports (e.g. R022, R0SS, R0SC).

The CSA report contains a Primary, Secondary and Tertiary sort capability and can be sorted by:

A	Authorizing Biller
B	Bill Number
C	Current Balance
S	Date of Service
D	Division
E	Error Code Text
N	Number of Days Pending
M	Patient Name
P	Payer
R	Review in Process
L	SSN Last 4

Once the CSA screen list is displayed, users can select new sort criteria and **re-sort** the list without exiting the option.

Reports can be run showing rejections only (R), or both informational and rejection messages (B). Users most often run the CSA report to show rejections only so they can focus on those claims that require corrective action.

These messages are automatically assigned a status of **Not Reviewed** and require users to review them and make corrections to update this status in IB. Users select a bill from the list to view the details and the entire message text. Messages are marked as **reviewed** or **review in process**. Users may document comments.

*With Patch IB\*2.0\*320, changes were made to suppress the display of 2Q Claim Status Messages and duplicate claim status messages.*

As messages are reviewed they can be marked as follows:

- Not Reviewed – No action has been taken on a bill that has been returned from the clearinghouse/payer
- Review in Process – While a claim is being reworked, the status can be changed to “Review in Process”
- Review Complete – The error has been resolved and the message from this report will be cleared

Actions such as Cancel Bill, Copy/Cancel Bill, TPJI and Print Bill are available to the user via this option and the user can make needed corrections and re-submit claims from within this option.

Other options available on the CSA include:

- CSA-EDI History Display – The EDI History display option shows all the status messages under the selected bill/message. This information is similar to information that can be viewed under the TPJI menu options.
- CSA-Enter/Edit Comments – The enter/edit comments option gives the user the ability to add a comment onto a bill (status message) in order to inform AR and billing why the issue hasn't been resolved or why the claim was printed to paper.
- CSA-Resubmit by Print – The Resubmit by Print action is used when the user reviews the status message or bill and determines the only way to correct the problem is to submit the claim on hard copy as it cannot pass the electronic edits. The user may “resubmit by print” to the payer instead of retransmitting electronically. If printed from this option, users will be asked if they wish to “review complete” the status message, which will automatically clear it from the report.
- CSA-Retransmit a Bill – Similar to the Resubmit by Print action, the Retransmit Bill is used when the user reviews the status message or bill and determines the reason for the rejection has been corrected elsewhere in the system and the claim just needs to be resent. The user may then retransmit to the payer.
- CSA-Review Status – A bill will continue to show up on the report until it is cancel/cloned, canceled or the status is changed to Review Complete.

Users also have access to the option Multiple CSA Message Management from within the CSA list if they hold the IB Message Management security key.

*Note: After Patch IB\*2\*547 is installed, the source of a claim status message will include the name of the clearinghouse when the clearinghouse is the source.*

### 10.2.2 Multiple CSA Message Management – Synonym: MCS

#### What is the purpose of this option?

This option is designed to allow users to take action on CSA messages when a problem arises during the processing of electronic claims that causes a large volume of erroneous status messages to be sent to the site. This option performs tasks similar to the CSA option.

*This option is locked by the **IB Message Management** security key.*

#### When is this option used?

This option is used when there are pages of erroneous messages in CSA that were caused by a processing problem. Use this option to take a similar action (such as retransmission of the associated claims) on multiple claims at the same time.

The initial search for claims and claims status messages is done automatically when the option is selected. The initial search results in the display of all claims that are **Not Cancelled** and for which the review status is **Not Reviewed** or **Review in Process**.

*If someone else is working on a claim in CSA, it will not display in MCS. Only one user can be in MCS at a time. The following message will be displayed: **Sorry, another user is currently using the MCS option. Please try again later.***

Once the initial list has been built, users may further refine their search or work from the default list.

*The purpose of MCS is to select multiple claims and then apply the same action to all the selected claims. For example, users can enter a comment once and then apply the comment to 1-n claims.*

Other actions available on the MCS include:

- Message Search – Allows the user to change the criteria upon which the list of claims will be built
- Change Review Status – Same as CSA
- Cancel Claims – Same as CSA
- Enter Comment – Same as CSA
- Resubmit by Print – Same as CSA
- Retransmit Bill – Same as CSA
- Select/Deselect Claims – Allows users to select the claims to which they want to apply an action

*When using the Resubmit by Print action, the claims selected will not be removed from the list of claims until the claims have actually been printed.*

### 10.2.3 Electronic Report Disposition

#### What is the purpose of this option?

This option allows the site to determine which clearinghouse generated electronic messages/reports are to be sent to the EDI mail group and which should be ignored.

#### When is this option used?

The default setting on this report will contain a disposition of “Mail Report to Mail Group”. It is up to the individual site’s supervisory staff to determine what reports should be ignored.

*Further explanations of these reports are available in documents provided by the clearinghouse. They are entitled Claim Submitter Reports – Providers Reference Guide.*

The following reports should be reviewed when they are received. They contain information that cannot be translated into claim status messages therefore, this information is not available in CSA.

#### **R000 NETWORK NEWS**

Provides news on system problems, updates and other pertinent information.

#### **RPT-02 FILE STATUS REPORT**

Provides an initial analysis of the file by displaying file status of accepted or rejected and a description of the status. It also indicates the total number of claims and the dollar value if the file contains valid claims.

#### **RPT-03 FILE SUMMARY REPORT**

Provides summarized information on the quantity of accepted, rejected, and pending claims, as well as the total number of claims received by the clearinghouse for each submitted file.

#### **RPT-08 PROVIDER MONTHLY SUMMARY**

Displays the number and dollar value of claims accepted and forwarded by the clearinghouse for the month. Monthly and Y-T-D Totals for both accepted and rejected claims are included as well as the provider’s top 25 errors for the month.

The following reports contain information that is also translated into status messages and displayed on CSA.

#### **RPT-04 FILE DETAIL SUMMARY REPORT**

Contains a detail summary of the file submitted for processing. It provides a file roll-up listing of all accepted, rejected, and pending claims contained in each file submitted to the clearinghouse. It also contains payer name/id and status of claim.

#### **RPT-04A AMENDED FILE DETAIL SUMMARY REPORT**

Contains a detailed listing of all claims for which the status was amended during the previous processing day. Claims statuses are amended when a pending claim is processed and/or a claim is reprocessed at the clearinghouse.

#### **RPT-05 BATCH & CLAIM LEVEL REJECTION REPORT**

Contains rejected batches and claims listed with detailed error explanations. In order to prevent “lost” claims, the RPT-05 report must be reviewed and worked after each file transmission.

#### **RPT-05A AMENDED BATCH & CLAIM LEVEL REJECTION REPORT**

Contains rejected batches and claims listed with detailed error explanations. In order to prevent “lost” claims, the RPT-05A report must be reviewed and worked after each file transmission.

#### **RPT-10 PROVIDER CLAIM STATUS**

This report contains information provided from payers who are receiving claims for adjudication from the clearinghouse. Not all payers who process claims through the clearinghouse system provide information for this Provider Claim Status Report and the amount/frequency of information produced will vary from payer to payer.

#### **RPT-11 SPECIAL HANDLING/UNPROCESSED CLAIMS REPORT**

This report contains information provided from payers who are receiving claims for adjudication from the clearinghouse. Not all payers who process claims through the clearinghouse system provide information for this Provider Claim Status Report and the amount/frequency of information produced will vary from payer to payer. The RPT-11 returns Unprocessed, Request for Additional Information, and Rejected statuses only.

### **10.2.4 EDI Claim Status Report- Synonym: ECS**

#### **What is the purpose of this report?**

View electronic transmission status to assure claims move through the system in a timely fashion.

#### **When is this option used?**

It is recommended that initially this report be viewed daily as it provides transmission status of all claims that were transmitted to FSC. Once a comfort zone is established and everything is flowing correctly, this report may only need to be run monthly.

Reports can be created based on:

- Specific Claim or Search Criteria
- Division
- Payer
- Transmission Date range
- EDI Status

Reports can be sorted by:

- Transmission Date
- Payer
- EDI Status
- Current Balance
- Division
- Claim Number
- AR Status
- Age

Possible EDI claim statuses include:

- Ready for Extract
- Pending Austin Receipt
- Accepted by Non-Payer
- Accepted Payer
- Error Condition
- Cancelled
- Corrected/Retransmitted
- Closed

## **10.3. Additional Reports and Options**

### **10.3.1 Ready for Extract Status Report - Synonym: REX**

#### **What is the purpose of this report?**

This report provides a list of claims held in a Ready for Extract status. These claims are held in a queue until batch processing occurs.

#### **When is this option used?**

Initially this option is used to assure claims are being transmitted at the times set in the MCCR Site Parameters. This option should be reviewed daily until there is a comfort level with the transmission timeframes and then less frequently based on local experience.

Claims that are trapped due to the EDI parameters being turned off can also be viewed. It is rare that EDI is turned off during processing. If this occurs, use EXT Extract Status Management to Cancel or Cancel/Clone/Auth the trapped claims.

Choices to view are:

- 1 All bills in Ready for Extract status
- 2 Bills trapped due to EDI parameter being turned off  
(If EDI is on, no bills will be trapped in extract)

### **10.3.2 Transmit EDI Bills – Manual - Synonym: SEND**

#### **What is the purpose of this option?**

This option is used to by-pass the normal daily/nightly transmission queues if the need arises to get the claim to the payer quickly.

#### **When is this option used?**

There are occasions when there is a need to transmit a claim(s) immediately instead of waiting for the batching frequency as scheduled in the MCCR Site Parameter. This option will allow sending individual claim(s) or all claims in a ready for extract status.

Select one of the following:

- A Transmit (A)LL bills in READY FOR EXTRACT status
- S Transmit only (S)ELECTED bills

### **10.3.3 EDI Return Message Management Menu – Synonym: MM**

This menu contains the options needed to define the types of electronic reports from the clearinghouse that the site needs to see and defines the text that should/should not allow automatic review and filing for informational status messages. It also contains an option to purge old status messages, reports for maintaining the integrity of the return message subsystem and the option for reviewing electronically returned messages.

### **10.3.4 EDI Message Text to Screen Maintenance**

#### **What is the purpose of this option?**

This option controls what status and/or error messages users may wish to review using special text words and/or phrases. This will either require the message to be reviewed or it will auto-file the message and flag it as not needing a review.

This option allows for the display of a list of words or phrases that, if found in the text of an informational status message, will either always require the message to be reviewed or will auto-file the message and flag it as not needing a review.

#### **When is this option used?**

Depending on what types of status messages users wish to review for follow-up on rejected claims and/or monitoring claims status, users may want to add or edit additional text as needed.

The words and phrases for “Requiring Review” and “Not Requiring Review” will initially populate as shown in the screen print below. This option is used to edit or add more words or phrases, as required, to manage and control the status messages.

### **10.3.5 EDI Messages Not Reviewed Report**

#### **What is the purpose of this report?**

This option allows for the display of all EDI return messages that were filed without needing a review based on the text entries in the message screen text file.

#### **When is this option used?**

The report can be run for a user-selected date range, based on the date the message was received at the site, and may be sorted by the message text that caused the message to not need a review or by the bill number. Users may want to use this option for analysis or review of all EDI messages that they were not able to view initially.

### **10.3.6 Electronic Error Report**

#### **What is the purpose of this report?**

This report provides a tool for billing supervisors and staff to identify the “who, what, and where” of errors in the electronic billing process. This is a report that will allow the supervisory staff to review “frequently received” errors. This is an informational management tool requiring no actions on the part of the billing staff.

### When is this option used?

This option can be used at any time by a supervisor or other management staff when they want to determine the reason for various errors (i.e., the same error being made by one or more of the billing staff). The report can be sorted by:

A	AUTHORIZING BILLER
B	BILLED AMOUNT
E	EPISODE OF CARE
P	PATIENT NAME
S	PATIENT SSN
Y	PAYER NAME
C	ERROR CODE

### 10.3.7 Return Messages Filing Exceptions

#### What is the purpose of this option?

After users have transmitted claims and they have been received for EDI processing, a message will be sent to the mail groups shown in the set-up section of this manual.

#### When is this option used?

When a message is sent, it is temporarily stored in the “EDI MESSAGES” file. Normally, these messages are in and out of this file in a matter of seconds. If, however, a problem is detected and a message cannot be filed in the appropriate file (s) for its message type, the message will remain in this temporary file. There are two (2) **statuses** for messages in this file.

- **Pending:** The task to force a message to update the IB files has either not yet been created or has been created, but has not yet begun to run.
- **Updating:** The task to force a message to update the IB files has started. It may or may not still be running. If you try to file a message with this status, a check is made to see if it is currently running. If it is, the message will not be re-tasked.

Any message may be viewed or printed. This does not affect the message in any way, but looking at the message may help to indicate the next course of action needed.

There are two (2) **actions** available to get these messages out of the file.

- **File Message:** This action re-executes the tasked job to update the database with the contents of the message.
- **Delete Message:** This is a drastic action that should only be taken when it has been determined there is no other possible way to process a message. When a message is deleted using this action, a bulletin is sent to the IB EDI Mail Group with the text of the message and the name of the user who deleted the message. Users must hold the IB SUPERVISOR security key to perform this action.

### 10.3.8 Status Message Management

#### What is the purpose of this option?

This option allows users to print/purge electronically returned status messages that have been in a final review status for a user-selected number of days.

#### When is this option used?

There will be an accumulation of status messages in a final review status. This option will delete or purge status messages in one of the Final Review statuses prior to a selected date. Auto purging of messages can also be set in the IB Site Parameters.

This report can be sorted by:

- A ALL STATUS MESSAGES
- S SELECTED STATUS MESSAGES

Selected status message reports can be run showing:

- A Auto Filed/No Review Only
- B Bill Number
- S Message Severity
- T Specific Message Text

### **10.3.9 Bills Awaiting Resubmission – Synonym: BAR**

#### **What is the purpose of this report?**

This report lists all batches that have been resubmitted but which did not include all of the bills from the original batch. These are batches that have at least one bill still not resubmitted or canceled.

#### **When is this option used?**

When a batch is identified to have a claim in error, the batch may be re-submitted with the claim in error removed. This option will track and report specific bills in this category. The report can sort data by:

- B BILL NUMBER
- L LAST SENT DATE
- A BILLED AMOUNT
- N BATCH NUMBER (LAST SENT IN)

The report also indicates the “Bill Transmission Status”.

### **10.3.10 EDI Messages Not Yet Filed –Synonym: MP**

#### **What is the purpose of this report?**

This report allows you to select receipt, rejection or both message types and a minimum number of days these messages have been in a PENDING or UPDATING status before they will be included on the report. The report will then list all messages in the file that meet these criteria.

#### **When is this option used?**

This is a status report that allows for review of messages not yet filed.

### **10.3.11 Pending Batch Transmission Status Report – Synonym: PBT**

#### **What is the purpose of this report?**

This report shows the current transmission status of a batch's mail message. It also includes the mail message number; the first and last date/time it was sent. Only batches in a pending transmission status will be on this report.

#### **When is this option used?**

This is another option to track the batch(s) of claims after authorizing and transmission to be sure all batches transmitted have been received in Austin. Users can omit both the station number prefix at the front of the batch number and the following zeroes and use only the final digits of the batch number for lookup.

### **10.3.12 EDI Batches Pending Receipt– Synonym: PND**

#### **What is the purpose of this report?**

This report lists all batches by batch number that have been in a PENDING status and have not yet received confirmation of receipt from Austin for more than one (1) day. The report includes individual claims if the users choose to include them.

The report includes:

- Batch Number
- Transmission Date
- Mail Message #

Claims display the following:

- Claim Number
- Payer Sequence
- Balance Due
- EDI Status
- IB Status
- AR Status

*Members of the G.IB EDI mail group will receive an email message when there are batches of claims that have not received a confirmation message from Austin after 1 day.*

```

Subj: EDI BATCHES WAITING AUSTIN RECEIPT FOR OVER 1 DAY  [#21387]
06/19/04@19:02  6 lines
From: XXXXXXXXXXXX,XXXX X  In 'IN' basket.  Page 1  *New*
-----
There are 30 EDI batch(es) still pending Austin receipt
for more than 1 day.  Please investigate why they have not yet been confirmed
as being received by Austin.

Since there were more than 10 batches found, please run the
EDI BATCHES WAITING FOR AUSTIN RECEIPT OVER 1-DAY report to get a list of the
se batches.

Enter message action (in IN basket): Delete//

```

### When is this option used?

Users may use this option to obtain Batch or Messages numbers when a problem arises or to monitor the status of batches recently transmitted. Batches should not be in a “Pending Austin Receipt” status for more than a day.

	<i>Contact <b>IRM</b> for assistance in finding out why a confirmation message has not been received from Austin.</i>
	<i>Before contacting IRM, note the <b>Message Numbers</b> for the batches that you need investigated. These numbers can be found in the <b>PND</b> option.</i>
	<i>If IRM needs assistance, log a <b>REMEDY</b> ticket or call the <b>National Help Desk at 1-888-596-4357</b>.</i>

### 10.3.13 View/Print EDI Bill Extract Data – Synonym: VPE

#### What is the purpose of this option?

This option displays the EDI extract data for a bill.

#### When is this option used?

This option is used only if there is a need to determine what data was transmitted for a specific bill. The detailed extract data will contain all the elements in the flat file that is transmitted to FSC. FSC, in turn, translates the data to a HIPAA-compliant format for transmission to the clearinghouse.

### 10.3.14 Insurance Company EDI Parameter Report – Synonym: EPR

#### What is the purpose of this option?

This option will display the EDI Parameters of the Active Insurance Companies defined in Vista.

The contents of the following parameters will be included in this report:

- Insurance Company Name
- Street Address and City of Insurance Company
- Electronic Transmit?
- Institutional Electronic Bill ID
- Professional Electronic Bill ID
- HPID/OEID
- Electronic Type
- Type of Coverage
- Always Use main VAMC as Billing Provider

```

All Companies                               Insurance Company EDI Parameter Report                               Page: 1

```

### When is this option used?

This option can be used whenever there is a need to confirm that the Insurance Company parameters are correctly defined to support the electronic transmission of claims. This option will be of value when the eClaims Plus patches are loaded and sites gain the ability to transmit secondary claims to the payers (electronic, end-to-end processing). **Example:** Sites can use this option to make sure the payers' Electronic Bill IDs are defined.

### 10.3.15 Test Claim EDI Transmission Report – Synonym: TCS

#### What is the purpose of this option?

The Claim Status Messages for claim(s) and batch(es) submitted via the RCB option as Test claims will not appear in CSA. No action will be required in response to these messages. For informational purposes, these messages will be available through the Test Claim EDI Transmission Report. This option can be used to investigate the status of test claims to see, for example, whether the transmission was accepted/rejected by FSC or accepted/rejected by the clearinghouse.

*The messages in this option will be automatically purged after 60 days.*

### When is this option used?

This option can be used whenever a user needs to investigate the current status of a claim or batch of claims. The messages in this report will be like the messages in TPJI.

```

### 10.3.16 Third Party Joint Inquiry – Synonym: TPJI

#### What is the purpose of this option?

This option provides a convenient location for both claim, AR, Insurance and EDI data related to a claim.

#### When is this option used?

This option is used by both Integrated Billing and Accounts Receivable personnel who require information about a claim. Both AR and IB users can also add comments to an MRA Request or non-MRA Request claim using this option.

The following actions are available from TPJI:

BC	Bill Charges
DX	Bill Diagnosis
PR	Bill Procedures

	<i>Patch IB*2*377 included changes to allow the addition of and the viewing of MRA Request claim comments using TPJI. Comment History now pertains to MRA Request claims as well as regular claims. MRA Request claim comments are not stored as AR comments though.</i>
	<i>Note: Patch IB*2*516 changed the lists of Active and Inactive claims to display the claim type of either Institutional or Professional in addition to Inpatient, Inpatient Humanitarian, Outpatient, or Outpatient Humanitarian. Patch IB*2*592 further changed the lists of Active and Inactive claims to display the additional claim type of Dental.</i>
	<i>Note: Patch IB*2*516 also added the ability for users to view related claims for which the patient is responsible, when reviewing Claim Information for a selected claim.</i>
	<i>Note: After Patch IB*2*547 is installed, the source of a claim status message will include the name of the clearinghouse when the clearinghouse is the source.</i>
	<i>Note: After Patch IB*2*547 is installed, users will be able to view the comments that were added to an entry on the new RFAI Management Worklist in the comment section of the TPJI.</i>
	<i>Note: After Patch IB*2*547 is installed, users will be able to view the complete and current textual description associated with the Claims Adjustment Reason Codes/Remittance Advice Remark Codes (CARC/RARC) received in an electronic EOB.</i>

Patch IB\*2\*488 modified the way message storage errors (created when an EEOB or MRA is received and all the line items cannot be matched correctly) are displayed in TPJI. Internal MUMPS code will no longer be displayed to the users.

The Following types of errors will be displayed:

- Procedure Code mismatch
- Procedure Modifier mismatch

- Revenue Code mismatch
- Charge Amount mismatch
- Number of Units mismatch

### 10.3.17 Re-generate Unbilled Amounts Report

#### What is the purpose of this option?

This option provides some basic information about billable events that have not yet been billed to a payer and dollar amounts associated with billable events in a specified time-frame.

#### When is this option used?

This option can be used to view the number of inpatient or outpatient care events and/or prescriptions that have not been billed and the dollar amounts attributed to the events.

```
Subj: UNBILLED AMOUNTS SUMMARY REPORT [#197848] 06/23/14@12:41 34 lines
From: INTEGRATED BILLING PACKAGE In 'IN' basket. Page 1 *New*
-----
SUMMARY UNBILLED AMOUNTS FOR CHEYENNE VAMC (442).
PERIOD: FROM 09/01/04 TO 09/30/06
DETAILED REPORT PRINTED TO '/dev/pts/5'

Inpatient Care:
Number of Unbilled Inpatient Admissions : 0
Number of MRA Unbilled Inpt Admissions : 2
Number of Inpt. Institutional Cases : 0
Average Inpt. Institutional Bill Amount : 15321.18
Number of Inpt. Professional Cases : 0
Average Inpt. Professional Bill Amount : 1036.36
Total Unbilled Inpatient Care : 0.00
Total MRA Unbilled Inpatient Care : 0.00
```

	<i>Note: Patch IB*2*547 provided the ability for users to run this report by division (one or more) or not and to sort the report by division or by patient name in alphabetical order. If users do search by division, the Re-generate Unbilled Amount Summary will display the summary totals before the division data. The display of CPT codes and monetary amounts for outpatient claims has also been restored.</i>
	<i>Note: Patch IB*2*608 provided the ability for users to run this report by MCCF, Non-MCCF (Outpatient Only), or Both. The Non-MCCF (Outpatient Only) report will display the type of claims based on the eligibility (CHAMPVA, Tricare, Employee, Ineligible and Sharing Agreement), the appointment type (Employee and Sharing Agreement) or the rate type (CHAMPVA Reimb. Ins., CHAMPVA, Tricare Reimb. Ins., Tricare, Interagency, Ineligible and Sharing Agreement)</i>

### 10.3.18 Patient Billing Inquiry – Synonym: INQU

#### What is the purpose of this option?

This option provides some basic information about a particular claim. It is a simple inquiry option.

#### When is this option used?

This option can be used to view the following type of information related to a bill:

- Bill Status
- Rate Type
- Form Type (UB04/CMS-1500 and J430D)
- Visit Date(s)
- Charges
- AR Status
- Statement Dates
- Dates related to actions such as Entered, Cancelled or Printed
- Bill Number copied from or to
- Patient, Mailing and Insurance Company address

The data available varies based upon when the inquiry is made and what actions have been carried out regarding the claim

### 10.3.19 Printed Claims Report

#### What is the purpose of this option?

This option provides information about claims that are printed locally but which had the potential to be transmitted electronically. The report can be generated for either the Consolidated Patient Account Centers (CPACs) or the sites which process TRICARE claims.

#### When is this option used?

This report is used by billing personnel to monitor the printing of potentially transmittable claims and displays the following information:

- Biller
- Outpatient/Inpatient and Institutional/Professional
- Rate Type
- Plan Type
- Division
- Revenue Codes
- Insurance Company

*Note: The revenue codes that determine whether or not a printed claim will be included in this report are defined in the IB Site Parameters.*

*Note: Claims to the payer – Department of Labor and certain types of rate types and types of plans are not included in this report because they do not have the potential to be transmitted*

*electronically.*

### 10.3.20 HCCH Payer ID Report

#### What is the purpose of this option?

When the VHA sends a claim to the clearing house with no defined Primary Payer ID (EDI - Inst Payer Primary ID, EDI - Prof Payer Primary ID and/or EDI-Dental Payer Primary ID) and the clearinghouse has an electronic ID for the payer, they return the payer ID to the site. VistA automatically takes the ID and populates the field in the Insurance Company file. This option provides information about the updates or attempted updates to the Insurance Company file.

If a value already exists in VistA for the Payer ID, no update will be made but the attempt will be reported.

#### When is this option used?

This report is used by billing personnel to monitor the automated updates or update attempts to the Insurance Company file when the 277STAT reports are received from the clearinghouse. The report provides the following data:

- Insurance Company Name
- Insurance Company Address
- Date
- Type of ID (Professional or Institutional)
- Old Value
- New Value
- Update Made (Yes/No)

HCCH Payer ID Report		Jan 11, 2017@09:53:18			Page: 1 of 1

# 11. APPENDIX A – BATCH PROCESSING SETUP

## BATCH PROCESSING SETUP

The following example shows you how to define batch processing for a payer:

Step	Procedure
1	Under the <b>IB Site Parameters</b> , go to field [15] <b>EDI/MRA Activated</b> .
2	Edit fields as necessary (fields are highlighted in yellow for this example).
	<i>Details on each field follow the screen example.</i>
	<i>When the MRA software was loaded (Patch IB*2.0*155), the <b>EDI/MRA Activated</b> field was removed from this screen. Only an <b>IRM</b> is able to access this field via <b>FileMan</b>. The reason for this is to prevent MRA from being activated before the FSC is ready to accept MRA transmissions from a particular site.</i>

IB Site Parameters	Aug 13, 2003@10:22:46	Page: 5 of 6
Only authorized persons may edit this data.		
+-----		
[15] EDI/MRA Activated	:	EDI
EDI Contact Phone	:	
EDI 837 Live Transmit Queue	:	MCH
EDI 837 Test Transmit Queue	:	MCT
Auto-Txmt Bill Frequency	:	Every Day
Hours To Auto-Transmit	:	1300;1600
Max # Bills Per Batch	:	50
Only Allow 1 Ins Co/Claim Batch?	:	NO
Last Auto-Txmt Run Date	:	08/13/03
Days To Wait To Purge Msgs	:	120

**EDI/MRA Activated:** Controls whether EDI is available for the site.

Choose from:

- 0 - NOT EDI OR MRA;
- 1 - EDI ONLY;
- 2 – MRA ONLY; or
- 3 – BOTH EDI AND MRA

	This prompt is no longer accessible to anyone except an IRM.

Allow Dental Claim Processing?	: YES
+ Enter ?? for more actions	
EP Edit Set	EX Exit Action

**EDI Contact Phone:** The phone number of the person at the site contact to whom EDI inquiries will be directed. The Pay-to Provider telephone number that is defined in Section 10 for each Pay-to Provider, will be printed on the UB04 and CMS-1500 form starting with Patch IB\*2.0\*400.

**EDI 837 Live Transmit Queue:** The name of the Austin data queue that will receive claims to be processed via a live connection to the clearinghouse. These data are populated at the time of installation and would not normally be edited by the site.

**EDI 837 Test Transmit Queue:** The name of the Austin data queue that will receive test claims. These data are populated at the time of installation and would not normally be edited by the site.

**Auto Txmt Bill Frequency:** The desired number of days between each execution of the automated bill transmitter. For example, if the automated bill transmitter should run only once a week, this number would be 7. If the automated bill transmitter should run every night, then the number should be 1. If this is left blank or zero then the automated bill transmitter background job will never run.

**Hours To Transmit Bills:** Contains the times of the day when EDI transmission of bills should occur. A maximum of 4 daily times daily may be entered and the times must be separated by a semi-colon. Times must be entered in 4-digit military format, without punctuation (HHMM;HHMM;HHMM;HHMM). If no times are entered, EDI transmission will take place as a normal part of the nightly job.

**Max # Of Bills Per Batch:** The maximum number of bills allowed in a single batch. With a new payer, it is suggested that you begin with fairly small batches (10-20 claims).

**Only Allow 1 Ins Co/Claim Batch:** Indicates whether or not the site wishes to limit batches to claims for a single insurance company.

**Last Auto-Txmt Run Date:** The last date the auto transmit of bills was run at the site. These data are display only and cannot be edited.

**Days To Wait To Purge Msgs:** This is the number of days after an electronic status message has been marked reviewed, that the purge message option can delete it from the system.

*(This page included for two-sided copying.)*

## 12. APPENDIX B – GLOSSARY

### GLOSSARY OF TERMS

Acronym or Term	Definition/Explanation
835	<p>HIPAA Standard Electronic Transaction ASC X12 835, Health Care Claim:</p> <p>The HIPAA-adopted standard for electronic remittance advice to report the processing of all claim types (including retail pharmacy). The 835 is sent from health plans to healthcare providers and contains detailed information about the processing of the claim. This includes payment information and reduction or rejection reasons. The 835 transactions generally contain information about multiple claims. All health plans are required to use the same explanation of benefit codes (adjustment reason codes) and adhere to very specific reporting requirements. The term “835” is used interchangeably with <i>Electronic Remittance Advice (ERA)</i> and <i>Medicare Remittance Advice (MRA)</i>.</p>
837	<p>HIPAA Standard Electronic Transaction ASC X12 837, Health Care Claim Payment/Remittance Advice:</p> <p>The HIPAA-adopted standard for electronic submission of hospital, professional and dental claims or encounters. The 837 is sent from healthcare providers to health plans (payers). The 837 transactions are generally multiple claims (batches). The 837 standard includes the information for coordination of benefits and is also used for secondary payer claims submission. The term “837” is used interchangeably with <i>electronic claim</i>.</p>
277 RFAI	<p>Hipaa Standard Electronic Transaction ASC X12 277, Health Care Claim Request for Additional Information</p> <p>The HIPAA adopted standard for requesting additional information for health care claims submitted. Payers utilize this transaction for requesting additional information or missing information from providers on previously submitted health care claims.</p>
Billing Provider Secondary ID Number	This is either the facility tax ID # (default) or an ID assigned to the facility by the insurance company.
Care Unit	Specific data related to patient care (pre-defined by an insurance company) that provides the insurance company with a finer breakdown of the care being billed. The data that comprises the breakdown are insurance company specific and are not required by all payers. (For example, Orthopedics, Dermatology, Urology, etc.).
Claims Status Awaiting Resolution (CSA)	Used to reference the option used by billing staff to review the most current status messages received for a bill(s) and do follow-up on the bills. Users will be able to select a bill from the list to view the details and the entire message text as well as to mark the message as reviewed or under review and document user comments.
Claim Status Message	Electronic messages returned to the VAMC providing status information on a claim from the Financial Service Center (FSC), Clearinghouse or a payer
Clearinghouse	A company that provides batch and real-time transaction processing services. Transactions include insurance eligibility verification, claims submission process and electronic remittance information and payment posting for electronic claims.

Acronym or Term	Definition/Explanation
CPAC	Consolidated Patient Account Center
CSA	<i>See</i> Claims Status Awaiting Resolution
eClaim	A claim that is submitted electronically from the VA
EDI	<i>See</i> Electronic Data Interchange
Electronic Data Interchange (EDI)	EDI is the process of transacting business electronically. It includes submitting claims electronically (paperless claims processing), as well as electronic funds transfer and electronic inquiry for claim status and patient eligibility.
Electronic Payer	A payer that has an electronic connection with the clearinghouse
ePayer	Payer that accepts electronic claim from the clearinghouse pays electronically. <i>See</i> Payer.
Facility Fed Tax ID #	This is the number that will be the default for all providers for the ID type at the facility if the payer does not have specific requirements
Fiscal Intermediary	A fiscal intermediary performs services on behalf of healthcare payers. These services include claim adjudication, reimbursement and collections. Trailblazer is an example of a fiscal intermediary that acts on behalf of Medicare. Trailblazer receives claims from the VA in the form of an 837 file and then adjudicates the claims to create a MRA/EOB 835 file.
Form Types	The UB-04,CMS-1500 or J430D billing form on which services will be billed
FSC	The VA Financial Services Center in Austin. The Financial Service Center translates claims into an industry-standard format (HIPAA 837) and forwards claims to the clearinghouse. The FSC is the single point for the exchange of data between VistA and the clearinghouse.
Healthcare Company	<i>See</i> Payer
Health Insurance Portability and Accountability Act (HIPAA)	In 1996 Congress passed into law the Health Insurance Portability and Accountability Act (HIPAA). This Act is comprised of two major legislative actions: Health Insurance Reform and Administrative Simplification. The Administrative Simplification provisions of HIPAA direct the federal government to adopt national electronic standards for automated transfer of certain healthcare data between healthcare payers, plans, and providers. This will enable the entire healthcare industry to communicate electronic data using a single set of standards thus eliminating all non-standard formats currently in use. Once these standards are in place, a healthcare provider will be able to submit a standard transaction for eligibility, authorization, referrals, claims, or attachments containing the same standard data content to any health plan. This will "simplify" many clinical, billing, and other financial applications and reduce costs.
HPID	Health Plan Identifier
Insurance Company	<i>See</i> Payer
Legacy IDs	This term refers to those payer-provided or users own IDs (individual and organizational) which will eventually be made obsolete by the use of National

Acronym or Term	Definition/Explanation
	Provider Identifiers
Non-VA Facility	Any facility that provides services to a VA patient and subsequently bills the VA for those services
Non-VA Provider	Any individual provider who provides services to a VA patient and subsequently bills the VA for these services
National Provider Identifier	A standard, unique health identifier for healthcare providers, both individuals and organizations
OEID	Other Entity Identifier
Parent	The top facility in a hierarchical domain
Payer	The insured's insurance company. Other terms that are used to denote Payer include ePayer, insurance company, healthcare company, etc.
Payer Code	A code used for enrollment that uniquely identifies the payer.
Payer List	List of payers that consist of the payer category, claim type, payer code, and payer name
Provider	Provider of healthcare services
Provider ID	A provider ID can represent a facility or an individual physician/provider.
Taxonomy Code	<p>The Health Care Provider Taxonomy code set is a collection of unique alphanumeric codes, ten characters in length. The code set is structured into three distinct "Levels" including Provider Type, Classification, and Area of Specialization.</p> <p>The Health Care Provider Taxonomy code set allows a single provider (individual, group, or institution) to identify their specialty category.</p>
UPIN	Unique Provider Identification Number
URL	Uniform Resource Locator
VAMC	Veterans Affairs Medical Center
VISN	Veterans Integrated Service Network

*(This page included for two-sided coping.)*
