

LIBRARY SERIALS MODULE TECHNICAL MANUAL

Version 2.5
January 1996

Department of Veterans Affairs
Health Systems Design & Development (HSD&D)

Preface

The purpose of the Library package at the local VA Medical Center is to facilitate the automation of manual serial title check-in and distribution, the integration of scattered data into a single title record, and the extension of on-line staff access to holdings and services.

The purpose of the Library package on FORUM is to maintain centralized data integrity and to allow for the request of Interlibrary Loan items.

The Technical Manual is designed to acquaint system users with the organizational structure and functions of the local Library module. Additional information on installation, security, and other requirements are also included.
