1. Introduction

1.1. Purpose

The purpose of this User Guide is to provide general system information, as well accessibility and user roles with the VHIC application. This User Guide will provide a detailed walkthrough of creating Veteran Health Identification Card requests using the VHIC application. This User Guide will also provide the detailed steps on how VHIC Administrators can deactivate all of the VHICs associated to a selected Veteran.

1.2. Document Orientation

1.2.1. Organization of the Manual

This User Guide is divided into eight sections to allow you to quickly obtain the information you need.

The first section will provide an overview of what a VHIC is and what the eligibility requirements are, and the various user roles and their accessibility within the VHIC application.

In order to be able to receive a VHIC, a Veteran must meet the following eligibility criteria:

- Be eligible for VA medical benefits
- Be enrolled in the VA Healthcare system
- Be Level 2 proofed at a VA medical facility
- Veteran identity must be recognized in the Master Veteran Index (MVI), which is managed by the Identity and Access Management (IAM) of the VA

NOTE: The level 2 proofing process is a method to verify the identity of Veterans. VA requires Veterans to provide approved identification documents to access Personal Identifiable Information (PII), Personal Health Information (PHI) and request a Veterans Health Identification Card (VHIC).

The second and third sections will walk the user through the steps needed to access the VHIC application, as well as some general guidelines on using the VHIC application.

The fourth section will give the user an overview of what they need to do before starting a card request for a Veteran. The VHIC user must verify the Veteran's Identity Proofing Level is at Level 2 in the Identity Management Toolkit.

The fifth section explains the process involved with creating a VHIC for a Veteran.

The sixth section covers how to request card deactivation all of the VHICs for a specific Veteran.

The seventh section will provide information on the different reports available to VHIC Associates and the types of metrics that can be obtained. There are four tabs for each of the reports that can be generated:

- **Veteran** – direct report to search for a Veteran
- **Card** – includes Request Totals, Status, Multiple Requests, History, Replacement, Expiration, Request Progress, Swipe/Scan, and On Hold
- **Print Services** – includes Processing, No Member ID, and Error
- **Auditing** – provides information on all User's activity in the system

Reports can be exported in PDF format, and there are a variety of search criteria available for each report.

The last section covers some troubleshooting issues and solutions that will help the VHIC user to be better able to support the Veteran and ensure that the VHIC requests are processed properly.

1.2.2. Assumptions

This guide was written with the following assumed experience/skills of the audience:

- User has basic knowledge of the operating system (such as the use of commands, menu options, and navigation tools).
- User has been provided the appropriate active roles, menus, and security keys required for the VHIC application.
- User is using *Google Chrome or Microsoft Edge* to do their job of either Creating VHIC Card Requests, Running Reports, or Deactivating VHICs depending on user roles.
- User has validated access to the VHIC application.
- User has completed any prerequisite training.

1.2.3. Disclaimers

1.2.3.1. Software Disclaimer

This software was developed at the Department of Veterans Affairs (VA) by employees of the Federal Government in the course of their official duties. Pursuant to title 17 Section 105 of the United States Code this software is not subject to copyright protection and is in the public

domain. VA assumes no responsibility whatsoever for its use by other parties, and makes no guarantees, expressed or implied, about its quality, reliability, or any other characteristic. We would appreciate acknowledgement if the software is used. This software can be redistributed and/or modified freely provided that any derivative works bear some notice that they are derived from it, and any modified versions bear some notice that they have been modified.

1.2.3.2. Documentation Disclaimer

The appearance of external hyperlink references in this manual does not constitute endorsement by the Department of Veterans Affairs (VA) of this Web site or the information, products, or services contained therein. The VA does not exercise any editorial control over the information you may find at these locations. Such links are provided and are consistent with the stated purpose of the VA.

1.2.4. Documentation Conventions

This manual uses several methods to highlight different aspects of the material.

- Various symbols are used throughout the documentation to alert the reader to special information. The following table gives a description of each of these symbols:

Table 1 Documentation Symbols and Descriptions

Symbol	Description
	NOTE: Used to inform the reader of general information including references to additional reading material

- Descriptive text is presented in a proportional font (as represented by this font).
- “Screenshots” of computer online displays (i.e., character-based screen captures/dialogs) and are shown in a non-proportional font and enclosed within a box. Also included are Graphical User Interface (GUI) Microsoft Windows images (i.e., dialogs or forms).
- User's responses to online prompts (e.g., manual entry, taps, clicks, etc.) will be **[boldface]** type and enclosed in brackets.

1.3. Enterprise Service Desk and Organizational Contacts

The support contact information documented herein are intended to restore normal service operation as quickly as possible and minimize the adverse impact on business operations, ensuring that the best possible levels of service quality and availability are maintained.

The following table lists the contact information needed by site users for troubleshooting purposes. Support contacts are listed by description of the incident escalation and contact information (phone number and options to select).

Table 2: Enterprise Service Desk Contact Information

Issue	Contact Info
For Provisioning Issues	Contact the Enterprise Service Desk at REDACTED, option 3 (Applications), then option 1. When contacted by a support specialist, be ready to supply the employee's full name, VA user ID and email address.
For Proofing Issues	Contact the Enterprise Service Desk at REDACTED, option 3 (Applications), then option 1. When contacted by a support specialist, be ready to supply the Veterans' full name, full SSN, and DOB.
For All Other VHIC System Issues	Contact the Enterprise Service Desk at REDACTED, option 3 (Applications), then option 1. When contacted by a support specialist, be ready to supply the Veterans' full name, full SSN, and DOB.

2. Accessing the VHIC Application

2.1. Browser

VHIC is a web based application which users will access via a web browser. The recommended browser is *Google Chrome or Microsoft Edge*.

The VHIC URL is REDACTED and is **case sensitive** – it must be entered exactly as shown. After successfully logging in to the VHIC application, users should bookmark this site for easy access in the future. Instructions on how to do just that can be found here: REDACTED.

The best time to bookmark the site is after the user is in the application itself rather than attempting to bookmark the Login screen.

2.1.1. Browser Incompatibility Issue

In some instances, users may experience image misplacement or misalignment. This is most likely due to the current browser compatibility settings. You will want to ensure that the browser is not set to Compatibility View. This process is explained in the *Veteran Health Identification Card User Guide - Volume 4 - Troubleshooting* document.

2.2. Proper Navigation of the VHIC Application

The correct way to navigate through the VHIC application is to use the **[Back]** and **[Next]** buttons that are located at the bottom of each screen instead of using the Browser's built in Back button. Please do **NOT** use the **[Back]** button at the top of your browser window to navigate back to a previous screen; this will cause errors to occur.

Figure 2:1: VHIC Navigation Buttons

The VHIC user can also navigate to the different features within the VHIC application by clicking on one of the navigation links located in the header near the top left of the screen. The user's assigned role will determine which links are available as seen below. To see the full home screens for each user role, refer to [Section 3.3 System Menu](#).

Figure 2:2: VHIC Administrator and VHIC Technical Administrator (Tier 3) menu

Figure 2:3: VHIC Associate and VHIC Supervisor menu

Figure 2:4: VHIC Auditor and VHIC Read-Only User menu

 **NOTE:** The **[Skip To Content]** link is a Section 508 compliance feature that skips repetitive navigation links so that page content can be quickly accessed.

2.3. Roles within VHIC

The VHIC application is built to accommodate a specific set of pre-established user roles. During the provisioning process, the VHIC user will have a role assigned to them, which will determine what aspects of the VHIC application are available to them. The following breaks down the specific roles and the areas of access that accompany each role.

If, while utilizing the VHIC application, a user finds they do not have access to items they feel they should have access to or find that they have access to items they should not, based on the definitions listed below, the VHIC user should report this information to their VHIC Supervisor. The VHIC Supervisor should then verify that the proper role has been assigned.

For a detailed list of Roles and corresponding Access levels please refer to the **VHIC Roles and Access** document.

3. Getting Started

3.1. Single Sign-On Internal (SSOi)

Once users are logged into their VA desktop, they will access VHIC using *Google Chrome or Microsoft Edge* by either entering the URL listed above or via the bookmark saved during an earlier session.

Users will be presented with the Single Sign On – internal (SSOi) login screen (*shown below*).

Here the VHIC user will need to use their PIV card to log into the VHIC application.

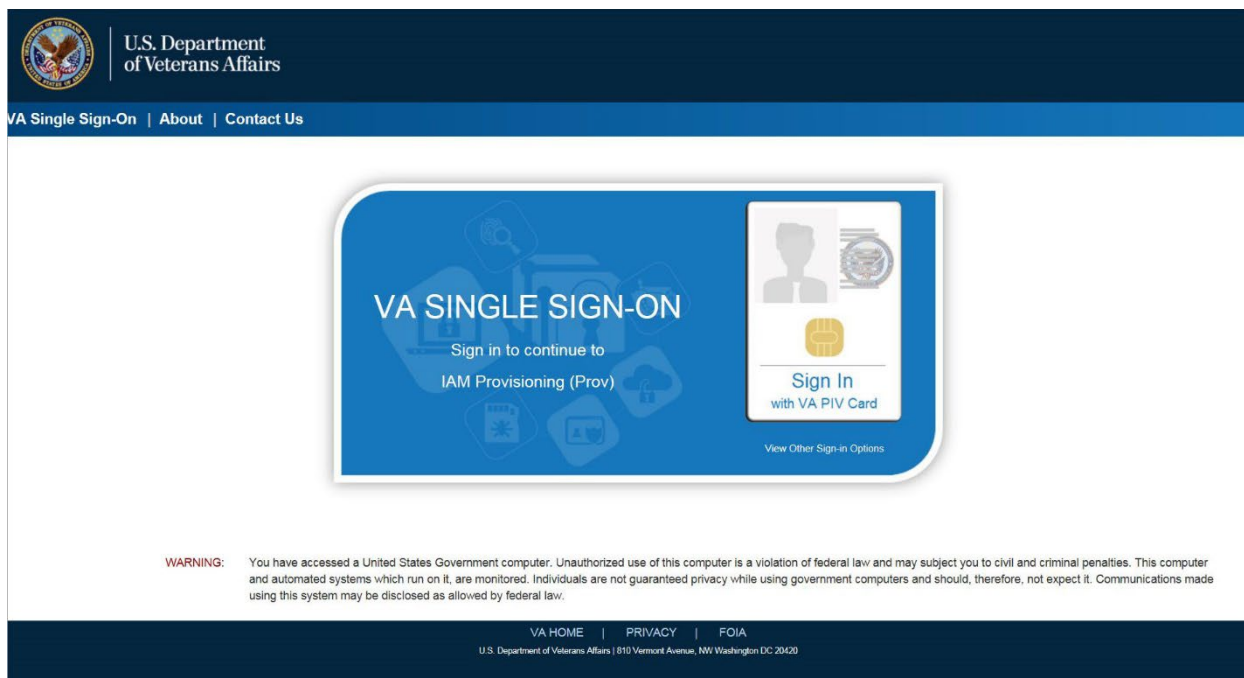

Figure 3-1: SSOi Login Screen

3.2. Logging On

The VHIC application is built to accommodate a specific set of pre-established user roles. During the provisioning process, the VHIC user will have a role assigned to them, which will determine what aspects of the VHIC application are available to them. The roles are listed below. For more information on the areas of access that accompanies each role, please refer to **VHIC Roles and Access** document.

3.3. System Menu

Depending on the VHIC users' role, they will be presented different Home screens upon logging to the VHIC application.

3.3.1. VHIC Administrator and Technical Administrator Tier 3

The VHIC Administrator and VHIC Technical Administrator Tier 3 users will be presented with three menu options: **Card Requests**, **Reports** and **Card Management**. They can navigate to each of these application modules by either clicking on one of the links located in the header at the top left of the screen or by clicking on one of the icon buttons in the middle of the screen.

Figure 3:2: VHIC Administrator and VHIC Technical Administrator (Tier 3) Home screen

3.3.2. VHIC Associate and Supervisor

The VHIC Associate and VHIC Supervisor users will be presented with two menu options: Card Requests and Reports. They can navigate to each of these application modules by either clicking on one of the links located in the header at the top left of the screen or by clicking on one of the icon buttons in the middle of the screen.

Figure 3:3: VHIC Associate and VHIC Supervisor Home screen

3.3.3. VHIC Auditor and Read-Only User

The VHIC Auditor and VHIC Read-Only users will be presented with the Reports menu option. They can navigate to Reports by clicking on the icon button in the middle of the screen.

Figure 3:4: VHIC Auditor and VHIC Read-Only User Home screen

3.4. VHIC System Status Banner

The VHIC System will display a Status Banner at the top of the screen to notify users of reported issues with the system and/or during maintenance activities that do not require downtime.

3.5. Changing User ID and Password

If you have any questions or need help with your User ID or your Password; Contact the Enterprise Service Desk at REDACTED, option 1 (Account or Password Reset), then option 1.

4. Before Requesting a VHIC Card

For detailed step-by-step process of how to access and complete the Identity Proofing Verification task in the Identity Management Toolkit application, please refer to section 4 in the *Veteran Health Identification Card User Guide - Volume 1 - Card Requests – All Users* document.

5. Creating a VHIC Card – The Card Request Process

For a step-by-step process on how to navigate through the Card Request screens in the VHIC application and an explanation of the process involved in creating a VHIC for a Veteran, please refer to section 5 in the *Veteran Health Identification Card User Guide - Volume 1 - Card Requests – All Users* document.

6. Deactivating Cards – The Card Management Process

For detailed information that will help the VHIC Administrator navigate through the card deactivation screens in the VHIC application that will allow them to deactivate all of the VHICs for a specific Veteran, please refer to section 6 in the *Veteran Health Identification Card User Guide - Volume 3 - Card Management - Admins* document.

7. VHIC Reporting

The VHIC application offers a variety of reporting options divided into four main reporting tabs. Certain tabs may contain sub-tabs. Not all VHIC user roles have access to all reports, or all of the available functionality of certain reports (*i.e., national option or multi-select option*).

The **National search option** returns results, which includes every available VISN and Facility. This option, triggered by selecting the **National** checkbox, is only available to those user roles with authorization to use this feature. Since the results returned consist of all VISNs/Facilities, checking the **National** checkbox removes any available VISN and/or Facility options.

The ability to **Multi-select** is available on certain reports that have VISN and/or Facility selection criteria and is available to Administrators, and Tech Admin (Tier 3) roles. This feature works by holding down the **[Control]** button (Ctrl) on the keyboard and single clicking on each desired list items.

All reports, with the exception of the Veteran Detail report, give the user the option to select either **[Report]** or **[Create PDF]** once they have entered their search criteria. Clicking the **[Report]** button will generate the query results in a new tab. This allows the user to return to the original query tab in order to modify their search criteria if needed. Keep in mind, while date ranges may be generous, results are limited to 3000 lines.

The user selects the desired reporting option by clicking on the appropriate tab or sub-tab. A tab highlighted in blue, lets the user know which report they are viewing. Once they select a report, the user will need to provide certain search criteria based on the specific requirements of the report selected.

Some reports contain **Hyperlinks**. Clicking the hyperlinks (indicated by blue font) allow the VHIC user to access more detailed information. For instance, if the user wants to keep the **Summary Report** for a VISN open while reviewing the **Detail Report** for a specific Facility, they can hold down the **[Control]** button (Ctrl) on the keyboard while clicking on the hyperlink for the Facility they wish to view. This opens the **Facility Detail Report** in another browser window allowing the user to view both reports and have the ability to select another Facility in which to view.

The *Veteran Report* (a.k.a. *Direct Search* or *Veteran Detail Report*) is the first report query screen presented to the VHIC user when accessing the reporting section of VHIC. This report

provides a comprehensive overview of all of the information the VHIC application has on a particular Veteran, including their photo.

The screenshot shows a web application interface with a navigation bar at the top containing 'Veteran', 'Card', 'Print Services', and 'Auditing'. The main content area is titled 'Veteran Report'. Below the title is a 'Search Criteria' section enclosed in a box. This section contains the following fields: 'Last Name', 'First Name', 'DOB' (with a calendar icon), 'Last 4 of SSN', 'ICN', 'Member ID', 'Card ID', and 'Person ID'. At the bottom right of the search criteria box are two buttons: 'Clear' and 'Query'.

The Card Request Totals Report gives the user exactly that – the total card requests by selected VISN and/or Facility, in a tabular format within a designated period of time. By default the "End Date" is set to the current date and the "Start Date" is set to a month prior. The Selecting the National checkbox, if available, returns results for all VISNs and Facilities. Selecting either the **[VISN]** or the **[Facility]** radio button will update the list of available options accordingly (based on a user's role).

There are many stages that a VHIC (card) goes through once the user clicks either the **[Submit]** button or the **[Hold]** button.

The *Card Request Progress* report allows the user to see how many cards are currently at each step of the Card Request lifecycle starting from the time the VHIC user clicks on either the **[Submit]** button or the **[Hold]** button, all the way through the mailed confirmation for a given VISN, Facility and Nationally, during a set time period.

The card request stages that are displayed on this report are: Pending, Request Submitted, On Hold, Defunct, Sent to Printer, Acknowledged, Rejected, and Confirmed Mailed.

This would allow the user to keep an eye on potential areas of trouble (i.e. Cards On-Hold or timing out and becoming Defunct) and be able to track down what is happening at each stage much easier.

Clicking [**Submit**] on step 6 of the Card Request process does not immediately transmit a card request to the print vendor. The card requests from all sites are stored throughout the day, then bundled and transmitted to the print vendor in one batch file. When the print vendor receives the batch file, they send back a confirmation message. The *Print Services Reports* provide the user with information received from the Print Vendor after sending the batch files.

After processing the card requests in a batch file, the print vendor sends back to VHIC an acknowledgement file for every request specifying success or failure in card printing. The numbers in the report comes from the data updated by the confirmation and acknowledgement files received from the print vendor.

The *Print Services Processing Status Summary Report* date fields are not auto-populated like most of the other reports. The user must populate them prior to running the report.

Search Criteria Available	VISN, Facility, Not Acknowledged, Acknowledged Not Confirmed, Pending Not Sent (which includes configurable Number of Days field), Start Date, End Date

The *VHIC Print Error Status Summary Report – Sent Not Acknowledged* allows the user to find out how many cards have not been acknowledged with an acknowledgement file or cards that have been acknowledged but have received no confirmation of being mailed within a given date range. The user will also be able to see how many cards are still sitting in a Pending state and have not been sent to the print vendor.

The user would be able to select the number of days to configure the query. How many days after being sent to the printer before looking for an Acknowledgement file, how many days after getting the Acknowledgement file before receiving Confirmation of it being mailed, or how many days has the card been sitting at a Pending status but has not been sent to the print vendor.

The user would be able to select between National, VISN, and Facility depending on their role.
