# 1. Introduction

## 1.1. Purpose

The purpose of this User Guide is to provide information and a detailed walkthrough of processing a Veteran Health Identification Card request submitted by the veteran through the VA Access Self-Service application.

## 1.2. Document Orientation

### 1.2.1. Organization of the Manual

This User Guide is divided into six sections for quick access to information needed.

The first section will provide an overview of what a VHIC is and what the eligibility requirements are, and the various user roles and their accessibility within the VHIC application.

To be able to receive a VHIC, a Veteran must meet the following eligibility criteria:

- Be eligible for VA medical benefits
- Be enrolled in the VA Healthcare system
- Be Level 2 proofed at a VA medical facility
- Veteran identity must be recognized in the Master Veteran Index (MPI), which is managed by the Identity and Access Management (IAM) of the VA

**NOTE:** The level 2 proofing process is a method to verify the identity of Veterans. VA requires Veterans to provide approved identification documents to access Personal Identifiable Information (PII), Personal Health Information (PHI) and request a Veterans Health Identification Card (VHIC).

The second and third sections will explain system requirements and log in instructions

The fourth section review and discuss the information found on the VHIC Menu/Home page.

The fifth section will give the user step-by-step details of how to complete the Identity Proofing process for a Veteran that has submitted a VHIC Card request remotely. The VHIC user must verify the Veteran's Identity Proofing Level is at Level 2 in the Identity Management Toolkit.

The last section covers some troubleshooting issues and solutions that will help the VHIC user to better able to support the Veteran and ensure that the VHIC requests are processed properly.

### 1.2.2. Assumptions

This guide has been written with the following assumed experience/skills of the audience:

- User has basic knowledge of the operating system such as:
  - How to log in
  - The use of commands

- Menu options
- Navigation tools
- User understands the roles within VHIC
- User has been provided the appropriate active roles required for the VHIC application.
- User is using *Google Chrome or Microsoft Edge* to do their job of either Creating a VHIC Card Request, Running Reports, or Managing VHICs depending on user roles.
- User has validated access to the VHIC application.
- User has completed any prerequisite training.

### **1.2.3. Disclaimers**

#### **1.2.3.1. Software Disclaimer**

This software was developed at the Department of Veterans Affairs (VA) by employees of the Federal Government in the course of their official duties. Pursuant to title 17 Section 105 of the United States Code this software is not subject to copyright protection and is in the public domain. VA assumes no responsibility whatsoever for its use by other parties, and makes no guarantees, expressed or implied, about its quality, reliability, or any other characteristic. We would appreciate acknowledgement if the software is used. #### **1.2.3.2. Documentation Disclaimer**

The appearance of external hyperlink references in this manual does not constitute endorsement by the Department of Veterans Affairs (VA) of this Web site or the information, products, or services contained therein. The VA does not exercise any editorial control over the information you may find at these locations. Such links are provided and are consistent with the stated purpose of the VA.

## 1.2.4. Documentation Conventions

This manual uses several methods to highlight different aspects of the material.

- Descriptive text is presented in a proportional font (as represented by this font).
- “Screenshots” of computer online displays (i.e., character-based screen captures/dialogs) and are shown in a non-proportional font and enclosed within a box. Also included are Graphical User Interface (GUI) Microsoft Windows images (i.e., dialogs or forms).
- User's responses to online prompts (e.g., manual entry, taps, clicks, etc.) will be **[boldface]** type and enclosed in brackets.

## 1.3. Enterprise Service Desk and Organizational Contacts

The support contact information documented herein is intended to restore normal service operation as quickly as possible and minimize the adverse impact on business operations, ensuring that the best possible levels of service quality and availability are maintained.

The following table lists the contact information needed by site users for troubleshooting purposes. Support contacts are listed by description of the incident escalation and contact information (phone number and options to select).

**Table 1: Enterprise Service Desk Contact Information**

Issue	Contact Info
For Provisioning Issues	Contact the Enterprise Service Desk at REDACTED, option 3 (Applications), then option 1. When contacted by a support specialist, be ready to supply the employee's full name, VA user ID and email address.
For Proofing Issues	Contact the Enterprise Service Desk at REDACTED, option 3 (Applications), then option 1. When contacted by a support specialist, be ready to supply the Veterans' full name, full SSN, and DOB.
For All Other VHIC System Issues	Contact the Enterprise Service Desk at REDACTED, option 3 (Applications), then option 1 When contacted by a support specialist, be ready to supply the Veterans' full name, full SSN, and DOB.

## 2. Self-Service VHIC Card Request – What is it?

The VHIC Self-Service Application was created to allow Veterans to request VHIC card(s) without having to visit their local facilities offering them convenience and safely limiting exposure to Covid 19. VHIC users will be responsible for monitoring and processing new card requests submitted through the Self-Service Tool. Self-Service New Card Requests require remote veteran proofing the process will be outlined in this user guide.

## 3. Getting Started

### 3.1. Accessing the VHIC Application

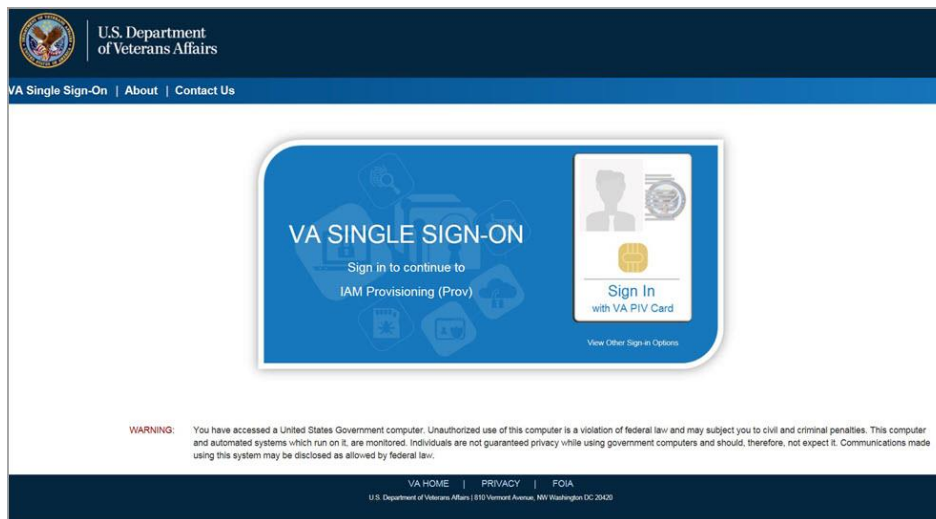

#### 3.1.1. Single Sign-On Internal (SSOi)

VHIC is a web-based application that users will access via a web browser. The recommended browser is *Google Chrome or Microsoft Edge*. You can access the VHIC website REDACTED. After successfully logging in to the VHIC application, users should bookmark this site for easy access in the future. Instructions on how to do just that can be found REDACTED.

Users will be presented with the Single Sign On – internal (SSOi) login screen (*shown below*).

Here the VHIC user will need to use their PIV card to log into the VHIC application.

**Figure 1: SSOi Login Screen**

## 3.2. System Menu

The VHIC application is built to accommodate a specific set of pre-established user roles. During the provisioning process, the VHIC user will have a role assigned to them, which will determine what aspects of the VHIC application are available to them. For more information on the areas of access that accompanies each role, please refer to **VHIC Roles and Access** document.

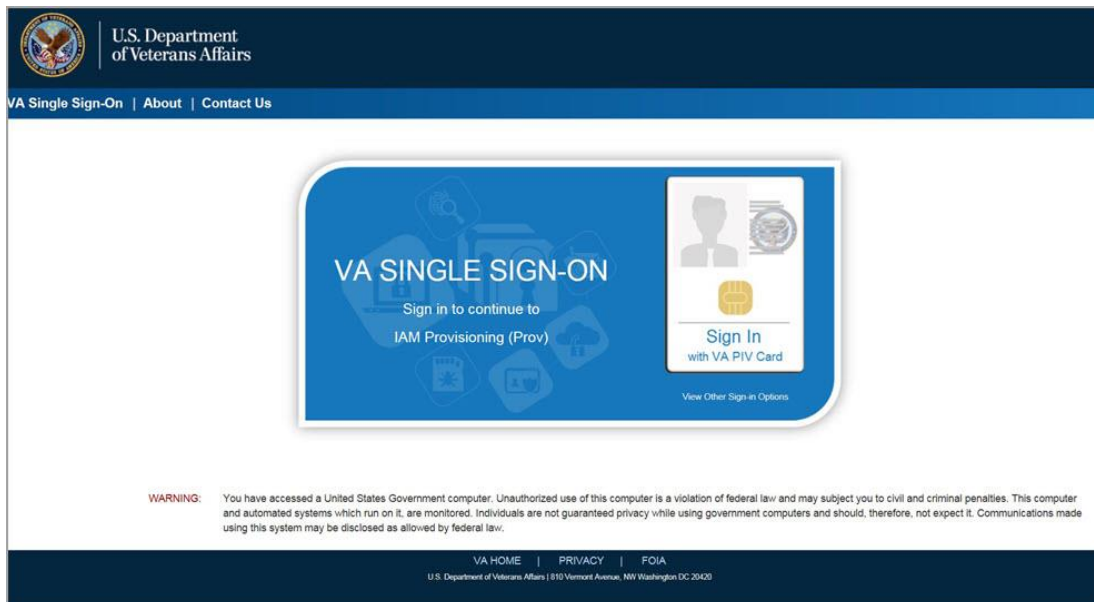

Depending on the VHIC users' role, they will be presented different Home screens upon logging into the VHIC application.

## 3.3. Accessing the Identity Management Toolkit

### 3.3.1. Accessing the Identity Management Toolkit Directly

The VHIC user will need to go to the Identity Management Toolkit application to look up the Veteran and verify their proofing level and if needed complete the proofing process. The Identity Management Toolkit can be accessed by using the REDACTED in the next section entitled “SSOi.”

**Figure 2: Identity Management Toolkit SSOi Logon Screen**

The URLs are case sensitive – they must be entered exactly as shown. After successfully logging into the Identity Management Toolkit application, users should bookmark this site for easy access in the future. Instructions on how to do that can be found REDACTED.

The best time to bookmark the site is after the user is in the application itself rather than attempting to bookmark the Login screen.

## 3.3.2. Accessing Identity Management Toolkit from within the VHIC Application

### 3.3.2.1. Step 1 of the VHIC Card Request

When the VHIC user starts the Card Request process, they will see a message on Step 1: Enter Search Terms. **“IMPORTANT: Have you Identity Proofed the Veteran in Identity Management Toolkit? (Click here to open REDACTED in another window)”**

The VHIC user can click on the blue words “REDACTED” which is a hyperlink that will take the user to the Identity Management Toolkit application.

When the user is ready to review the request(s) the Proofer will need to access the Toolkit through one of the methods listed in *Section 3.5 Accessing the Identity Management Toolkit*. Once Toolkit access has been established, selecting the **Veteran Name** link will open a new window giving the VHIC user access to the new **Proofing Task** in the Toolkit.

## 5. Self Service Request Processing

A new **1998 Person Verification [Self-Service] Task** is created in the Toolkit to proof veterans that have submitted VHIC card requests through the VA Access application. These requests will fall under two categories based on manual review performed by the VHIC User.

- Accepted Image
- Rejected Image

Reviewing a card request submitted thru VHIC Self Service requires the user to review the proofing document and photo submitted by the veteran. If either artifact does not meet required standards then follow the steps outlined under Rejected Image. If both artifacts meet required standards then follow the steps outlined under Accepted Image.

### 5.1. Person Verification Task- Accepted Image

Selecting the Full Name link from the Assigned Request list will open the **1998 Person Verification [Self-Service] Task**.

- The Proofer will return to the **Self-Service Image** tab once the Traits are verified. The **Data Review** tab now shows a check mark indicating that section is complete. Here the Proofer can **Accept** or **Reject** the uploaded image based on acceptability criteria.

**Figure 27. Accept Uploaded Documentation**

The screenshot shows a 'Person Verification' task in progress. The 'Task Details' tab is active, displaying task information such as Task # 1330049428, Date Reported 08/03/2022 15:16, and Task Status ASSIGNED. A table lists verification data for ICN 1013897734V551527, Source ID 1013897734\*PN\*200PROV\*USDVA, Name VAPATIENT ONE, and SSN 101-35-8117. A red arrow points to the 'Documentation' tab in the navigation bar. Below the navigation bar, a 'PRIMARY VIEW DATA' section shows a list of identity traits: Last Name (VAPATIENT), First Name (ONE), Middle Name, ICN (1013897734V551527), DOB, Birth Sex (MALE), and SSN (101350117). A table below this lists uploaded files, with one entry: 'PROOFING VERIFICATION DOCUMENT' uploaded by '742V1\_PROOF' on '8/3/22 3:16:35 PM.166'. At the bottom left, there are 'Accept Image' and 'Reject Image' buttons. To the right of the main interface is a preview window showing an 'INTERNATIONAL PASSPORT' for 'VAPATIENT ONE' with a photo and various fields.

**NOTE:** The Veteran is informed during the Request Process that if a trait needs to be modified (for example, Last Name changes), they must come into the facility. If the Veteran submits a request under the following conditions:

- Photo submitted is not acceptable
- Verification document uploaded is not acceptable
- Identification traits do not match

The POC will need to make a note under the **Task Notes** tab and continue through the *Rejection Process page 25*

8. After accepting the uploaded image, the task will progress. The **Self-Service Images** tab will now show a check mark. and the Proofer will move to the **Documentation** tab.

### 5.3. Communication For Veteran

The Veteran will receive an email indicating that their request was cancelled and direct them to come into their nearest facility to resolve any issues that may keep them from qualifying for a VHIC card. Examples of these emails are:

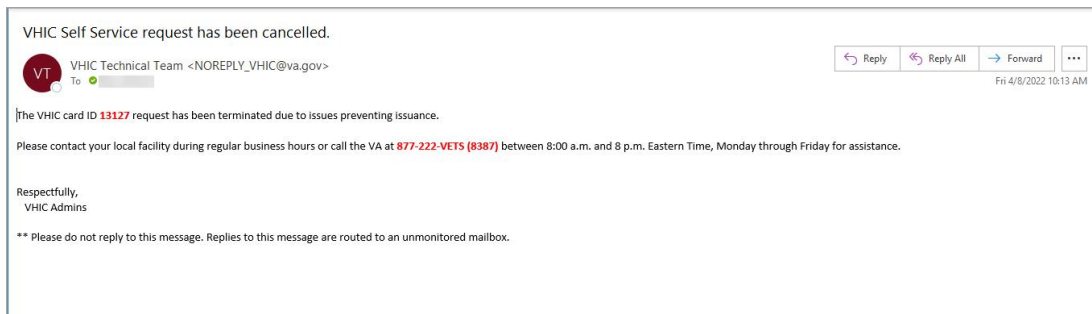

- The card request was cancelled due to review issues such as a bad photo, unacceptable documents submitted, etc.

## Figure 47 Request Cancellation Review Issue

- The card request was cancelled due to other reasons such as 30-day timeout.
