## Introduction

The Patient Assessment Documentation Package (PADP) Version 1.0 is a Veterans Health Information Systems and Technology Architecture (VistA) software application that enables Registered Nurses (RNs) to document, in a standardized format, patient care during an inpatient stay. Although the content is standardized for use across the VA system, some parameters can be set to support the unique processes at individual medical centers.

PADP interfaces directly with several VistA applications, including Computerized Patient Record System (CPRS), Clinical Reminders, Consult Tracking, Allergy/Adverse Reaction Tracking, Mental Health Assistant, Vitals, and Patient Care Encounter (PCE).

PADP is a Delphi application, which supports RNs in documenting patient care during an inpatient stay. It includes the following templates:

- Admission RN Assessment allows RNs to document the status of the patient at admission.
- Admission Nursing Data Collection allows Licensed Practical Nurses (LPNs) and other nursing staff, including the RN, to enter basic patient data, such as vitals and belongings at the time of admission.
- RN Reassessment allows RNs to document the condition of the patient on a regular basis and any time during the inpatient stay.
- Interdisciplinary Plan of Care interfaces with admission and reassessment data, and allows additional information to be entered by the RN and other health care personnel (physicians, social workers, chaplain, etc.). All clinical staff can enter information into the Plan of Care. The Plan of Care can be printed and given to the patient when appropriate.

PADP consists of a KIDS build, NUPA 1.0, and four (4) Delphi GUI templates in three executables.

- 1. The executable, **Admassess.exe**, contains the Admission RN Assessment template and the Admission Nursing Data Collection template.
- 2. The executable, Admassess Shift.exe, contains the RN Reassessment template.
- 3. The executable, Admassess Careplan.exe, contains the Interdisciplinary Plan of Care template.

Each template is associated with a note.

- The Admission RN Assessment template is associated with the note: RN Admission Assessment
- The Admission Nursing Data Collection template is associated with the note: **Nursing Admission Data Collection**
- The RN Reassessment template is associated with the note: **RN Reassessment**
- The Interdisciplinary Plan of Care template is associated with the note: **Interdisciplinary Plan of Care**

PADP adds to VistA, a new namespace (NUPA), four (4) Progress Notes, five (5) printouts, fourteen (14) files, thirty-six (36) parameters, and new health factors. The 5 printouts are:

- 1. The Daily Plan<sup>®</sup> is a health summary designed to be given to the patient and family
- 2. Plan of Care is a plan designed to guide the nursing staff
- 3. Discharge Plan is for discharge planners
- 4. Belongings is a list of patient belongings
- 5. Safe Patient Handling is designed to guide the transfer of a patient

## **Using Admission – Nursing Data Collection**

The Data Collection tabs contain information that is collected by any nursing personnel. This information is located on tabs: Belongings, Orientation to the Unit, and Vital Signs.

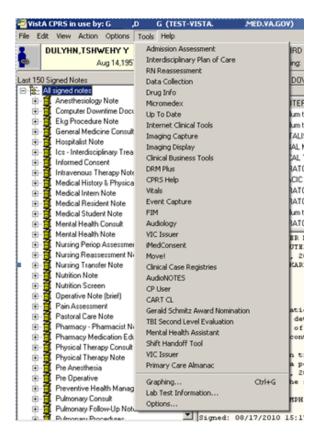

## **Opening Admission – Nursing Data Collection**

You access the Admission -Nursing Data Collection through CPRS from the Tools menu.

- 1. Open CPRS.
- 2. Select a patient.
- 3. Click Tools.
- 4. Select Data Collection.

Enter a patient window automatically opens to the CPRS patient.

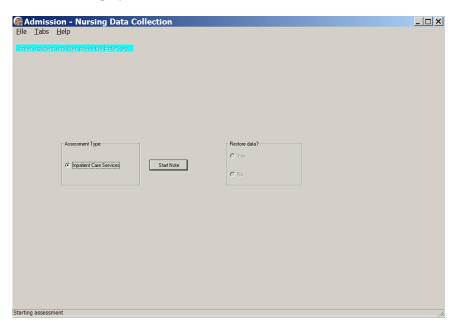

**Note:** You may have to re-enter your CPRS access and verify codes, depending on local site setup.

**Access through CPRS** 

### **No Previously Saved Information**

The Enter a patient window displays.

Admission - Nursing Data Collection, Enter a patient window with no previously saved information

- 1. Select an Assessment Type.
- Click Start Note.
   The nursing data collection template opens to the Belongings tab for the CPRS patient.

## **Previously Entered Information Available for One Patient**

Patient selection window with previously entered information available for one patient

#### Restore Patient's Data/No

If you previously entered data on one patient, you are prompted with: *You have previously saved data on a note for patient <PADPPATIENT,ONE >* 

1. Select an Assessment Type.

2. Select No.

The patient's information is deleted, but the Internal Entry Number (IEN) for the patient displays in the **Enter a patient** text box.

3. Click Start Note.

The template opens to the Belongings tab and you can enter new data for that CPRS patient.

4. **Optional:** You can delete the IEN of that CPRS patient, enter the name of a different patient, and click **Start Note**.

**Note**: The Internal Entry Number (IEN) is a unique, computer-generated number that identifies a specific patient in your system. The IEN has no impact on the completed assessment, nor does it display again.

#### **Restore Patient's Data/Yes**

If you previously entered data on one patient, you are prompted with: *You have previously saved data on a note for patient <PADPPATIENT, ONE >* 

- 1. Select an Assessment Type.
- 2. Select Yes.
- 3. Click Start Note.

The template opens to the Belongings tab for the CPRS patient with the data restored.

### **Previously Entered Information Available for Two or More Patients**

If you have previously stored data from more than one patient, you are asked if you want to view a list of those patients.

Patient selection window with previously entered information available for more than one patient

#### View the Patients?/No

If you select **No**, the patient's name displays in the Enter a patient text box as a number that identifies the CPRS patient.

- 1. Select an Assessment Type.
- 2. Click Start Note.

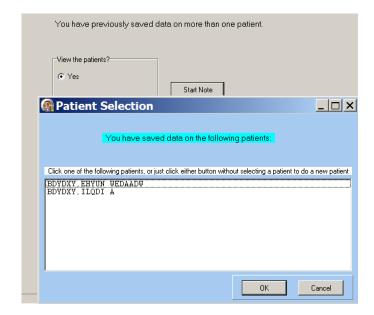

The template opens to the Belongings tab.

#### Patient selection window with No selected

#### View the Patients?/Yes

- 1. Select **Yes**.
- 2. Select an Assessment Type.
  Patient Selection window displays with a list of patients with saved data.

**Patient Selection List** 

#### Patient on the List

- 1. Select a name.
- 2. Click OK.

The template opens to the Belongings tab.

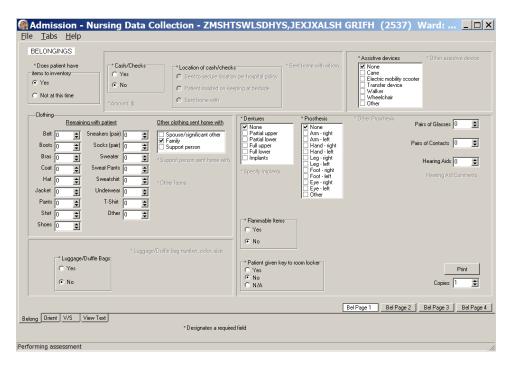

#### Patient not on the List

1. Click Cancel.

The number that represents your CPRS patient is in the Enter a patient text box.

2. Click the **Start Note**.

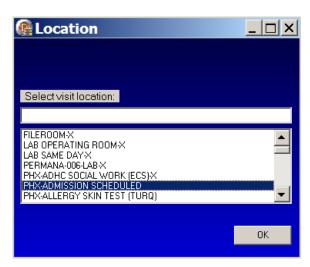

The template opens to the Belongings tab.

## Patient not yet Assigned to an Inpatient Bed

When a patient is not assigned an inpatient bed, a location pop-up automatically displays over the Belongings window.

Location pop-up: Select visit location

- 1. Select a current patient location, i.e., outpatient clinic.

  Navigate quickly to the current location by entering the first letter of the location.
- 2. Click OK.

## **Saving and Uploading Data**

#### **Auto Save**

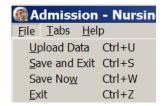

Data are saved automatically. Frequency of auto save is set locally.

Saving data: percentage saved indicator (bottom right corner of the window)

#### **Manual Save**

You can save data by using the File menu on any tab.

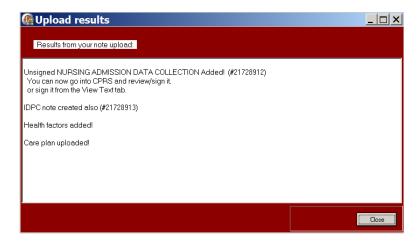

Admission - Nursing Data Collection window, File menu

## **Upload Data**

To create a note you must upload the data into VistA and CPRS:

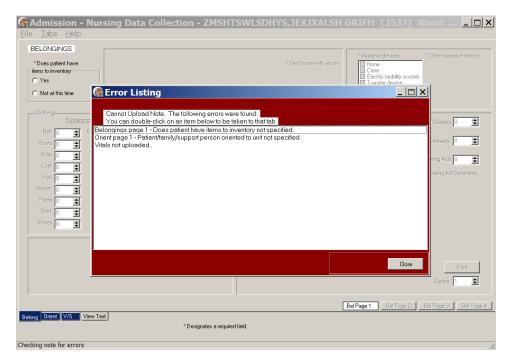

Open the File menu on any tab and select Upload Data.
 Results from your upload display, verifying that the data is uploaded.

Admission - Nursing Data Collection, Upload results window

**Note:** The *unsigned* note, selected consults, and PCE data/Health Factors are uploaded into CPRS and VistA.

- 2. If the information is incomplete, an Error Listing window displays indicating the pages within specific tabs that require attention.
  - The tabs with pages that require attention are blue.

Admission - Nursing Data Collection, Error Listing window

- Once the pages are completed, the tab returns to gray.
  - i. Double-click an item to go to the page that requires attention.
  - ii. When all the errors are completed, select Upload Data again.

#### Save and Exit

To save data and temporarily leave the template:

- 1. Open the File menu on any tab.
- 2. Select Save and Exit.
- 3. When you re-open the template, your previously entered data is there.

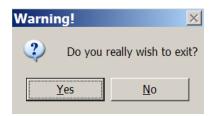

#### **Save Now**

To save data, but not close the template and continue to enter data:

- 1. Open the File menu on any tab.
- 2. Select Save Now.
- 3. Continue to enter data for the current patient.

#### **Exit**

1. From any tab, click **X** in the top right corner of the window. Warning message displays.

Warning pop-up: Do you really wish to exit?

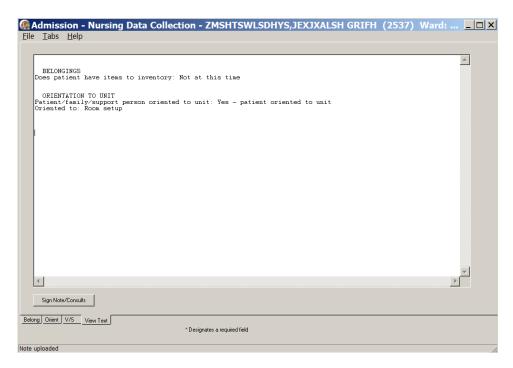

- 2. Click Yes.
- 3. From any tab, open the File menu and click **Exit**. Warning message displays.
- 4. Click Yes.

### **Signing Notes**

Go to CPRS to sign your uploaded, unsigned notes.

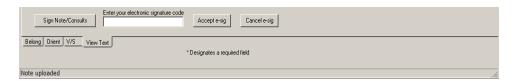

You can also sign *unsigned* notes **after the upload** from the View Text tab in the template.

1. Click View Text.

Admission - Nursing Data Collection, View Text tab after upload

#### 2. Click Sign Note/Consults.
